NOTICE: Beginning May 2, 1949, our new office hours will be as follows:

Monday through Friday 8:00 a. m. to 12:00 noon 1:00 p. m. to 5:00 p. m.

We have been keeping the office open during the noon hour, but we feel that the new hours will be more convenient for all concerned. Please try to remember this so that you won't make an extra trip to the office only to find us closed.

CHAINS: Some of our producers have responded very well to our plea to bring in their chains. We want to ask all of you who have a chain to please return it to the office as we need them badly.

TERRACES: Still no money available for terraces and probably won't be until in the latter part of the summer. We're sorry we have to say this, but we're nearly "busted" in our terrace budget.

COTTON AND WHEAT ALLOTMENTS: We sent out letters Friday to all the producers in Community "B" which is the Martin and Ashtola vicinity. These letters were accompanied by the form which we have been telling you about in the last few news articles. We'll have to admit that we feel just a little bit "let down" because of the reaction. Only a small per cent of the fellows in

this Community came in to help us fill out these papers. Mr. Marshall, Mr. Bulman and Mr. Land, Community Committeemen, came to the office and stayed all day. They helped their fellow farmers work out these forms. If you realized how important this is to you, you would make an effort to come to the office when we call you in. The office force will do all it can to help you get your record complete. WE NEED THIS INFORMATION and if we get it correct we must have your help. Will you help us?

ODDS AND ENDS: This office has issued more approvals for seeding grass this year than ever before. Practically every community has increased their total acres of pasture land this year. If you are interested in seeding some grass and establishing a permanent pasture, come to the office and get your approval. If you are not sure what kind of

grass you want to sow, go to see Soil Conservation Service. These fellows will advise you what kind of grass to seed, and we will help you pay for it.

Our new home is about complete. The outside is being finished this week. We hope you will be just as proud of it as we, and we want you to come to see us any time. Don't wait until you have some business — pay us a social call. We want you to become familiar with this office.

Mr. Alan R. Sanders, State Performance Supervisor, from College Station was in the office for two days this week. He and Doug Lowe, our Field Officer went out into the county and did some spot check work.

Don't forget!! We need your help with these records we are sending to you, and it is up to you to get to the office with this information.

CITY-COUNTY LIBRARY NOTES
By May L. Prewitt

Each week something worth while is added to our reading list. This week we received an extra copy of "The Elephant & The Castle" by R. C. Hutchinson. This will appease the eagerness of our modern fiction readers as they dis-like having to await their turn when the list is lengthy. At present we can rival any of the neighboring libraries when recent editions and top sellers are listed. The Library fortunate has some excellent friends who donate their Book-of-the-Month copies, and our budget permits the pur-chase of a few others.

If your children have "out grown" some of their books, these could be used here with happy success. A two-fifty book for a child only amuses them for a brief time. All the Little Golden Books have been purchased, and other similar lists. We are con-stantly on the alert for books readable from the first to fourth grade inclusive.

Betty McDonald has been so successful in her sales of "The Egg and I" and "The Plague and

I" that her sister, Mary Bard, has written "The Doctor Wears Three Faces." We are going to order this from our May budget. There are quite a few non-fiction books of general interest and entertain-ment listed now.

In the New York Times Book Review List of the 16 Best Sell-ers, our shelves possess eleven of the fiction, and the first seven are among the ones we have. "Point of No Return" by Marquand is likely his best edition as several "critics" have praised it exten-sively. Our non-fiction list is not as strong for we have only 5 of the sixteen. Our patrons are men for Westerns, women for recent fiction, girls and boys for junior mysteries and animal stories, then the largest membership is small tots who enjoy their par-ents reading aloud to them.

Should any one secure an East-ter gift of two copies of The Greatest Story Ever Told by Ful-ton Oursler—we could use one. We shall purchase a copy as soon as convenient, but our want list is full this month.

"All the known world, except-ing only savage nations, is gov-erned by books"—Voltaire.

MIDWAY
 Mrs. John Goldston
 We spent the week end on the farm near McLean. How delightful to be in the country, fruit trees all in bloom, gardens coming up, little chicks a peeping and birds singing, all the nice thick cream, home cured ham, and fresh eggs by the hundreds. And what a thrill Sunday afternoon when the Clarendon Jr. College and High School Easter program, put on by the students, came over the radio on KFDD. The announcer was one of our own Midway near neighbors, Darrell Proctor, and what a good radio voice he has. The program was good and we were proud of each one on it. Darrell Proctor is the son of Mr. and Mrs. Proctor who have lived on the farm W. K. Davis lived on several years back.

INSIDE STORY OF THE ROLLED BALE

MORE LEAVES STAY ON THE STEM—The gentle way to bale. Saves more leaves, color and protein of hay. Leaves are rolled inside, where they can't escape. Less feeding waste.

SHOWER-RESISTANT BALES—Rolled bales shed water like a thatched roof. Less surface on the ground; they dry off faster after a rain.

PRICED FOR HOME OWNERSHIP—Do your own baling the hour your crop is ready.

HANDLES DOUBLE WINDROWS—Double windrows cure fast and make the best bales. Turns out more bales per hour.

Plowin' Out—

(Continued from Front page)
he introduces us to one of his friends that we have mailed a membership card to already, Haughton Leathers. So glad to have you both as brothers - - -

From Mitey Talk in the Amarillo Times: "A Wise man knows how little he knows"—Sam Stewart, Claude, Texas. - -You ain't Kidding Sam, and thanks - - -

Among my mail this week was another nice letter that I cherish a lot; it was from Rev. Gorin Rutherford of Higgins, Texas. This letter had no connection with the Higgins Paper beginning our column but I am proud to have one reader already in their town. Gorin sends me some very interesting information on smoking and gives his blessing to our Society. If you knew how long I have known Gorin, no one would expect me to say Brother Rutherford, even though I would always be glad to call him Brother. Anyway, all week I have been listening to Gorin's younger brother, Roy M. Rutherford, preach the gospel, and does my old Baptist shins ache - - - Anyway, may the Lord's people hold dearly these ones to their hearts, that we so fondly held in our laps in not too far dim a past.

If I have any readers at all along the canyons, flats, or breaks; in fact, any place that grows the common every day Mesquite tree. Whenever you can find any seed that you think will grow, whether it is now or this fall, send a small package to our good friend George Young, % Station KAMQ, Amarillo, Tex. George read our article on Mes-

quite grubbing, and being an old Arizona boy that had dug his toes into the soft soil around a mesquite tree, and maybe stepped on a thorn or two in his life time, decided to plant a few trees in his back yard. If he doesn't get any seed he will think I do not have any readers, so please send him a package of seed. George says, "The Indians of Arizona used to gather the beans when they were very young and tender and eat them. I have tried them myself and they are not bad. But you understand I want the beans for planting, not eating purposes." Anyway, please take care of George for me, and I will be grateful. And thanks George for the nice long interesting letter.

I still have to tell you about the Panhandle Press Convention, but it must wait until next time - - - Also, if you are interested in the rest of the story about the life of Uncle Bob Robertson of Washburn, ask your Editor to take it out of this weeks Claude News and re-run it, and all of you that liked Uncle Bob's article, please send him a little Thank-You card, for you and me both.

Hospital Transformed Into Inferno of Death

EFFINGHAM, Ill.—Little but the walls are left standing after raging flames devoured the interior of St. Anthony's hospital in Effingham, Illinois. The hospital fire has already claimed a toll of 74 dead or missing and it is thought that more bodies will be found in the wreckage. Above is Louis Lurquin, pointing out to his daughter, Collette 12, the second floor window from which her mother leaped to safety. Mrs. Lurquin suffered a broken hip in the leap.

OIL INCOME TO HELP BEAUTIFY PIONEER CEMETERY

Among the pioneer cemeteries of northwest Texas, that of Salona, down in old Montague county is among the best known. Victims of Indian raids are buried there. For a half century or more pioneers have been buried there. The citizenship always took a pride in the appearance of the cemetery.

Now that oil has been found on cemetery ground a short distance south of the fence, the trustees announce that the oil income will be used in beautifying the entire cemetery. Many are those in this section who have loved ones buried at old Salona cemetery. Memorial services April 24th.

PLOWIN' Out the CORNERS by Uncle Zeb

EDITOR'S NOTE — Uncle Zeb's Column by-passed us and went down state for a few days. However, it was finally returned to us but arrived too late for last week's edition.

Motto for Garden Club:
 He who owns a garden
 However small it be,
 Whose hands have planted in it
 Flowers or bush or tree;
 He who watches patiently
 The growth from nurtured sod
 Who thrills at newly opened blooms
 Is very close to God.
 —Katherine Edelman
 Anyway the Claude Garden Club, according to Mrs. Ed Rogers and Mrs. C. B. Hunter, is anxious to sponsor some worthwhile project, especially a picnic or playground for the youngfolks. They would like to have suggestions from other groups. Good luck to these community minded neighbors.

I won't have room this week to even start telling about the Panhandle Press Association. I hope none of my friends think hard of me for trying to get in "Tall Cotton" by going to this convention. I hope that I didn't disgrace them. Five dollar meals (free to me), three fork dinners, and two spoon

suppers (they didn't call it supper), anyway maybe next week we will write about it. The Higgins News, The Groom News, and The Miami Chief are to begin punishing their readers with our column. I hope they like us.

New members for the ASRNS. J. C. Estlack of Clarendon; been off the weed about a month; don't see how he made out faithful at the convention. Also Roy E. Smith of Amarillo whose name was sent in by a friend. Also in Donley County at Lelia Lake, Frank Hardin has been eligible for membership for several months. Best Wishes to all of you.

The more friendships that we make,
 The less battleships it will take.
 —Uncle Fudge

Was eating beside the Waggoners at the convention; a young man from Canadian sat down at the table. He asked Bryan, "What ever became of Uncle Zeb?" He didn't hear Bryan's reply, and in answer to the question of why they don't use the column anymore he said: "Oh, one fellow said it was the biggest bunch of foolishness he ever read, and he was one of our best subscribers, paid for two or three years in advance." Oh Me!

We have more and better things coming up about Uncle Bob Robertson; last week I said that he was in the trail to the Dakotas in 1900. I should have said in 1887. That makes a difference to "Old-Timers" as the trail herds had disappeared by 1900. I was so sorry to make the bust. Anyway, Uncle Bob asked me to

not say too much, not too much publicity, and we won't, so I will save the rest of his story until next week. We made some pictures of him and his birthday cake. Next week maybe we can have them, in the home town paper anyway.

Had a nice Easter Card from the Jessie Copes of Fowler, Colo. inviting us back to see them this summer. Hope we can make it.

First line from a last week's Mayor candidate platform in a nearby town: "I am against depressions." - - - And then he didn't get elected - - - Huh.

"Your tongue is in a wet place, be careful it doesn't slip"—Gene Peppard in Mitey Talk. - - -

If a man's religion doesn't include a healthy respect for the other fellow's the man probably ought to start hunting himself another religion.

If a Baptist doesn't rate very well with the Methodists, he is probably over-rated with the home folks.

Khiva Temple to Hold Annual Diagnostic Orthopedic Clinic In Amarillo, April 30th

Second annual Diagnostic Orthopedic Clinic will be held in Khiva Temple, 5th and Fillmore, Amarillo, Texas, on Saturday, April 30, beginning at 9 a. m.

The clinic for examination, observation, and recommendation only, will be conducted by three orthopedic specialists, registered nurses, and medical stenographers.

Any child under 15 years of age of normal mentality whose physical functions or movements are impaired by reason of a joint, bone, or muscle defect or deformity is eligible for diagnosis in this clinic.

Lunch will be served at noon to all attending the clinic. A reception and registration committee will be on hand, and entertainment for the children, while waiting their turn, will be furnished. Anyone interested should write Khiva Temple, Box 328, Amarillo.

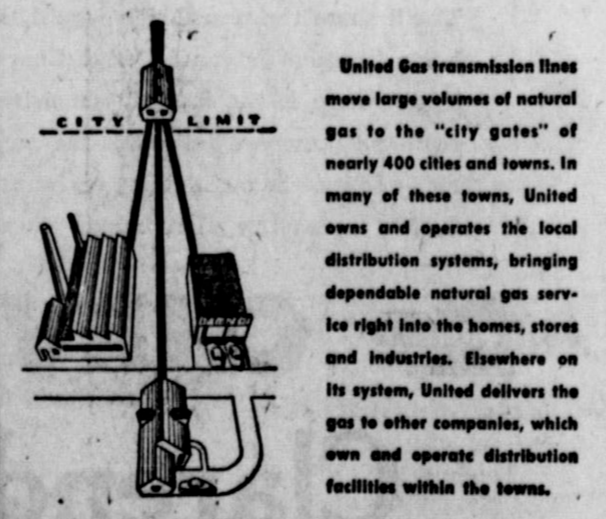

SERVICE ENTRANCE
 for America's Finest Fuel

Natural gas enters the local distribution mains of the cities and towns we serve at metering and regulating stations located just outside the city limits. These are the "city gates" for natural gas service...service to gas ranges, gas water heaters, gas refrigerators and heating equipment in homes and apartments...service to boilers in factories and power plants, and gas air conditioning units in homes, stores and office buildings.

Construction and operation of these metering and regulating stations are among many functions of the United Gas organization...all of which have the ultimate purpose of assuring a continued supply of natural gas to our customers.

UNITED GAS ...
 Serving the Gulf South

United Gas transmission lines move large volumes of natural gas to the "city gates" of nearly 400 cities and towns. In many of these towns, United owns and operates the local distribution systems, bringing dependable natural gas service right into the homes, stores and industries. Elsewhere on its system, United delivers the gas to other companies, which own and operate distribution facilities within the towns.

OLD PATHS

By **DOYLE WILLIAMS** Minister Church of Christ

Two people can not fellowship each other, one makes the claim that he is one thing, and the other claims he is something else; one holds to five points of one thing, and the other to five points of something else, and they can not possibly fellowship each other on account of the differences in their faith. But ask of one what the five points of the other are, and in nine cases out of ten he can not tell you. Neither can the other tell what the opposite five points are. Yet, one is one thing and the other something else, and though the one does not know what the other is, and the other does not know what he is, and they can not fellowship each other because their faith is not alike! What is the difference to them whether it is alike or not, when they do not know what it is? This is the case with nine-tenths of the differences of our time. The people immediately connected with them do not know what they are, and if they did know, they would be none the more certain, on that account of being saved.

In the commission the Lord said: "Go into all the world, and preach the Gospel to every creature." The Gospel, then, is what to be preached. The Lord proceeds: "He that believeth not shall be damned." He that believes what? He that the Gospel, certainly. The Gospel, then, is what the Lord commanded to be preached, and what hearers were required to believe. The amount of it is, then, that the Lord commanded the Gospel to be preached, required the Gospel to be believed, and declared he that believeth not shall be damned. But some one will say: "All sorts of preachers profess to preach the Gospel, and I see not how to determine which is the Gospel." There is a way to test the matter. Does a man claim to be preaching the Gospel, when he is preaching something that the word of God knows nothing about? If he does, the Lord says: "He that believeth not the Gospel shall be condemned."

THE DONLEY COUNTY LEADER

A man can not be a Christian and not believe the Gospel. Some admit themselves that a man can be a Christian and not believe what they teach, for they admit that there are Christians that are not of themselves. It certainly follows; that if you preach the Gospel, I must believe it to be saved. But do all conflicting faiths claim to be preaching the Gospel?; if this is true, I must BELIEVE it or be lost. If he says I do not have to believe what he preaches, to be saved, you can know of a certainty, it is not the Gospel of Jesus Christ, for the Lord said, "He that believeth not shall be damned." If I was compelled to believe all, that you can hear preached, I could not Indoc-trinate myself in all that is being preached today; till Jesus comes again.

Dear reader: I am sure you can see, that all that is being preached, is not the Gospel, and that you are under no obligations, to believe any thing, except what you can read from the Word of God; the source of all true faith. If you can not read what you are saying and practicing, in matters of religion; I advise you to lay it aside, for that that is not of faith is sin. Rom. 14:23. (Adv.)

Cannon Jersey Cattle Now Official Herd In Registry Testing

COLUMBUS, Ohio—The herd of registered Jersey cattle owned by Frank E. Cannon, Rt. 1, Clarendon, is announced by The American Jersey Cattle Club from its headquarters in Columbus, Ohio, as having completed a year's work in official Herd Improvement Registry testing with an average production of 8450 pounds milk and 460 pounds butterfat per cow. The herd contained an average of 9 milking cows during the year.

All tests on this herd were conducted by Texas A&M College and verified by The American

Jersey Cattle Club. In accomplishing this production the Cannon herd has joined the select group of Jersey herds in which the cows have produced more than two times the amount of butterfat obtained from the average dairy cow in the United States.

Telephone Company Has New President

The Board of Directors of Southwestern Associated Telephone Company announced the 30th of March at its organization meeting, that Mr. Roy Autry has been elected President of the Company. Mr. Autry, who was former Vice President and General Manager, succeeds Mr. R. B. Fairly who was named Chairman of the Board. This change in officers is in anticipation of Mr. Fairly's retirement on December 31, 1949, under the companies regular retirement plan. Until the end of the year, Mr. Fairly will continue to devote his full time to the affairs of the Company, after that date, it is planned that he will remain as a Director of the Company and as Chairman of the Board.

Mr. Autry has been connected with The Southwestern Associated Telephone Company, or one of its affiliations since 1930, except for a brief period from 1941 to 1943. He was born in Lampasas, Texas and started his business career in the Traffic Department of Southwestern Bell Telephone Company in 1915. In 1930, he accepted a position as Traffic Supervisor with The Associated Telephone Company Ltd. located in California which, like Southwestern Associated Telephone Company, is a subsidiary of Gen-

eral Telephone Corporations. During 1937, Mr. Autry was made Commercial Manager of Associated Telephone Company Ltd., a position which he held until he resigned in 1941, to become General Supervisor of Communications for Douglas Aircraft Corporation. In 1943, He returned to Associated as General Traffic Superintendent and, in 1944, he was transferred to The Southwestern Associated Telephone Company as Vice President and General Manager.

sons contemplating such a vacation to first be inoculated against typhoid.

"Persons planning a vacation where sanitation standards may not be carefully observed, should protect their health by typhoid inoculation, and thus avoid the risk of serious illness from this debilitating and sometimes fatal disease", Dr. Cox said. "An individual not previously rendered immune, can establish immunity by having one typhoid vaccine injection administered each week for three weeks; if he has kept his immunity from a previous inoculation, one 'booster' shot each year will keep him protected from typhoid."

Dr. Cox warned that impure water is not the only means of spreading typhoid, and cautioned against the careless exposure of food and milk to flies, roaches, rodents, and other germ-spreading pests.

Mr. and Mrs. Geo. Green returned the latter part of last week after a two weeks vacation. While away they visited their sons Robert Green and family, of Munday, Texas, William Green and family, Trinidad, Texas, and daughters, Mrs. F. N. Bentley, and Helen Louise Green of Dallas, also Mr. Green's parents at Paris, Texas. They report a nice visit and plenty of fish to eat down in that section of the state.

Health Notes

The month of April usually brings the first days of near-summer weather to Texas, and literally thousands of Texans commence to make serious and detailed plans for their annual vacation which is of great importance to the health and well being of every man and child.

A vacation can relax nervous tension, bring renewed vigor, and usually supply an opportunity for more sunlight and outdoor activities than is customary for office workers and those of sedentary occupations. But traveling to vacation spots for the purpose of "roughing it" can also bring a serious health menace in the form of typhoid germs from impure water supplies, and for this reason, Dr. Geo. W. Cox, State Health Officer, advises all per-

The NEW **54** COTTON PLANTING SEED NOW AVAILABLE

The NEW Paymaster "54" is now available for the 1949 planting season—ready for farmers who want more profit from Cotton. This quick-maturing, high-yielding, better-staple-producing planting seed answers the demand for a variety that is tested and proved for West Texas growers. It is the result of scientific selection and painstaking experiments to develop a seed that will produce more money per acre planted.

Here's why the NEW Paymaster "54" is a money-making Cotton . . .

- EARLY MATURITY Of 25 varieties tested recently . . . "54" was first in percentage of crop harvested in a four-month period.
- HIGH YIELD In this same test, "54" was third among all varieties in yield per acre.
- BETTER STAPLE "54" has 1 1/16" to 1 inch throughout West Texas, assuring a better price.
- TESTED FOR DRY LAND "54" has been proved successful for dry land farming as well as for irrigated Plains areas.

Be among those profit-minded farmers who demand a money-making Cotton planting seed—the NEW "54"; order your supply of the improved, state-registered "54" NOW.

Massey Harris Model "22"

WITH Depth-o-matic System

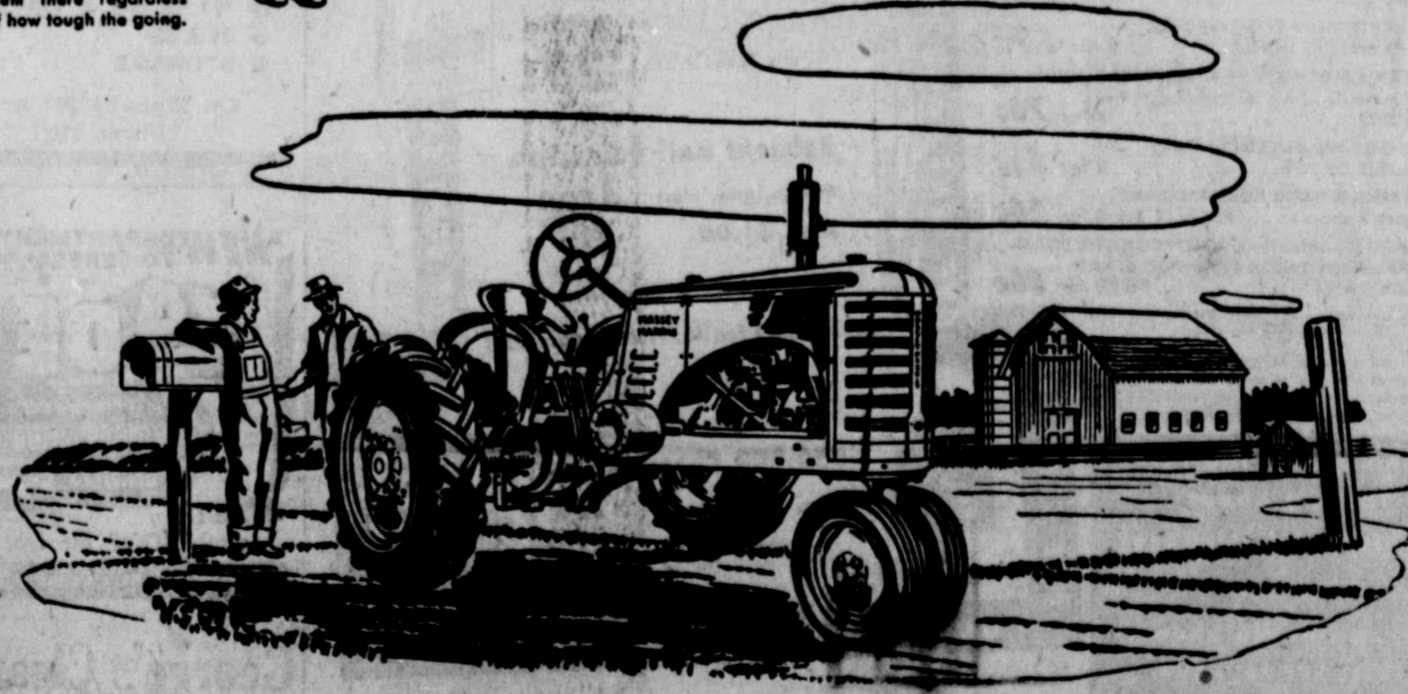

New Depth-o-matic System raises and lowers implements under power... always sets them back to work at the same depth... and holds them there regardless of how tough the going.

Yes, it's a sparkling new Massey-Harris 2-plow tractor... with a bigger, huskier engine... light-touch, quick-responding brakes... new grille styling, smarter appearance, and... Depth-o-matic System for faster, easier, more accurate field work.

Depth-o-matic System is a new kind of efficiency in a hydraulic control fast operating... easy to control... small, compact unit, dependable, positive in action, so powerful that either mounted or pull-behind tools operate at the depth you select anywhere on your field... tough spots, low spots, high spots, all uniformly worked for better seed beds, more accurate planting, clean cultivation.

And when you mount Depth-o-matic on the new Model "22" you really have the right combination for dependable work.
