

## Changes in Methods of Handling Highway Bond Payments Explained

Commissioners courts in counties participating in the County and District Highway Fund are asked not to set the tax rates for the coming year until August and then they must set a road bond rate that will be agreeable to the Board of County and District Road Indebtedness, according to a statement received by County Judge Courtney Ray from James C. Tucker, chief accountant of the State Board.

These requirements and other important changes in the method of handling highway bond payments are pointed out in the letter. The board was created last September and has charge of the state's payments on highway bonds voted by counties. The state agreed to take on a little more than \$500,000 of town county's state highway indebtedness.

**Bond Rate Now 40 Cents**

With the change in the law, Judge Gray points out that the commissioner's court will be required to set the road bond rate as directed by the Board. The rate for 1932 is 40 cents. It is possible that a county that refuses to comply with the regulations can no longer participate in the Highway Fund and would have to pay all its indebtedness. One cent of the state gasoline tax was set aside by the present legislature to take care of the county road indebtedness.

The letter pointing out changes in the methods is as follows:

"On May 16, Senate Bill No. 344, passed by the Forty-third Legislature, was signed by the Governor and became effective immediately. This bill has changed the method by which the counties are to participate in the County and District Highway Fund, the administration of said fund, and the rights and obligations of the various counties and road districts that participate in the fund. The purpose of this letter is to point out the high points in the bill, as well as to give the procedure of the Board in its administration.

"Section 7-L provides that all securities now on hand in which the sinking funds accumulated on the various road issues, have been invested, shall be sent within 30 days of the effective date of the act, May 16, to the State Treasurer. Thereafter, it will be necessary for you to send in all your securities held for the benefit of the sinking fund of any road issues listed as eligible with this board, to the State Treasurer in order to be in his possession not later than June 16, 1933. In this connection it will be necessary to have a statement showing to which particular sinking fund each of the securities appertain.

**Forward Funds Collected**

"The law provides further, that the future cash and securities coming to the credit of the various sinking funds involved, from all sources, shall be forwarded to the State Treasurer within 30 days from their acquisition, to be held for the use and benefit of the counties remitting same. The law is quite possible that a few counties will take advantage of this option as the funds received by the State Treasurer, even though they are held for the sole use and benefit of the county or road district remitting same, will be classified as state funds and will be secured by depository bonds as all other state funds are; thus eliminating the possibility of a loss to the county through depository bank failures.

**Sinking Fund Investment**

"Section 7-L also provides that the board shall have and possess full authority by invest all such sinking funds, including all future sinking funds acquired, in any manner whatsoever, in any of the eligible subdivisions of the state that participate in the County and District Highway Fund. This power and authority shall be used primarily for the purpose of the purchase and cancellation of the eligible securities. In other words, if your county has to its credit on any particular issue, a certain sum of money in the state treasury and the board can buy these bonds and immediately cancel them thereby saving both the state and the county future interest on the particular bonds cancelled.

"Section 7-H states that the board shall, not later than July 15 of each year, ascertain and determine the amount necessary to pay the state's portion of the principal, interest and sinking fund requirements for the succeeding calendar year, and shall estimate the sum available with which to pay the state's share of the amount. The budget is made this which is required to notify you not later than August 1 of this year, and all succeeding years, as long as this law is in effect, of the actual amount of aid to be given to each issue. Please do not set your tax rate until your August statement of court, as you will be, by that time, notified as to the exact amount the county will be required to raise in each of its eligible issue. This section states further, that if the county is required to raise any amount whatsoever on its eligible issue, either for the interest, principal or sinking fund requirements, that the county shall be required to pay that rate and to collect from taxes on the property in said respective counties and districts, an amount of money equal to the amount that you are required to raise.

"Referring again to Section 7-L, you will find the provision, that any county or Commissioners' Court which fails or refuses to comply with

## SEN. SHEPPARD TO TAKE STUMP AGAINST BEER

AUSTIN, Tex., May 31—(AP)—News that Morris Sheppard, senior United States Senator from Texas, will come home after Congress adjourns and take the stump against legalizing 3.2 per cent beer and Texas voting for repeal of National prohibition is interesting to advocates of both sides of the issue.

Everyone knows Senator Sheppard had a leading part in getting the Federal constitution amended to bar manufacture and sale of intoxicating liquors in the Nation. Now, he will come to his home State to try to talk the electorate out of an about-face. The election on both proposals will be held on August 28.

News that Senator Sheppard is coming to lend his voice to defeat the prohibition alterations inspires observers to speculate upon the position Tom Connally, the junior United States Senator, will take. His attitude is not clear to most Texans. They are not positive how he stands on prohibition at this time. He voted to submit repeal.

Likewise, the Texas Congressional delegation will be free to take a hand in the campaign prior to August 26 voting if they care to do so. It will be a political-record-making occasion. It will be the forerunner of a stiff political campaign next year, when all State officials, twenty-one Congressmen and one United States Senator (Connally) will be up for election. From this distance political guessers are prognosticating the 1934 campaign will be pitched almost wholly upon prohibition. The issue will be infirmed in every county and precinct election, as well as over the State generally.

It looks like a return of "old times" in Texas when office-seekers and office holders had to declare themselves with reference to prohibition.

The summer is certain to be a warm one politically with the main prohibition show dated for August 26 and many side attractions prior to that time when dry political subdivisions will be trying to get 3.2 per cent beer via the local option route.

**E. B. Clardy Named County President By Rural Carriers**

Brown County Rural Mail Carriers met in regular semi-annual session at Coggin Park Saturday afternoon, discussed business, elected new officers and then enjoyed an old fashioned picnic supper. The meeting was held every May and September for the purpose of exchanging ideas and discuss ways and means of better serving patrons and the department.

E. B. Clardy was elected president, succeeding J. J. Crockett. Nat Brooks of Grosvenor was named vice-president and O. T. Jarvis of May was elected secretary. Successor J. C. Aubrey, A. A. Shields at Bangs was named as delegate to attend the district rural carriers convention in Abilene May 30 and O. T. Jarvis was named delegate to attend the state meeting in Mineral Wells the last part of July.

There are 17 rural carriers in Brown county. All were present at the meeting except for J. Families of the carriers also attended. Guests were County Judge and Mrs. Courtney Gray and Commissioners Chas. Palmer, James Phillips, J. A. Bettis and E. S. Thompson.

**Witness in Hamilton Case Goes on Stand Following Abduction**

HILLSBORO, Texas, May 31—Although suffering injuries received at the hands of abductors who kidnaped and beat him, then left him bound and gagged beside a roadway with the warning "You will never testify in court," Martin Kitchin, Hillsboro, hobbled to the witness stand late Tuesday in the trial of Raymond Hamilton.

Kitchin is one of the major witnesses for the state, which is seeking to convict Hamilton, Dallas hoodlum, of charges he murdered John Bueher, Hillsboro merchant.

Defying threats of his attackers, the witness pointed an identifying finger at the defendant as the latter sat in district court.

"That's the man," he said.

Kitchin was accompanied to the court room by an armed guard furnished him by the sheriff's office.

A former employe of Bueher and one of several persons in the store when he was slain during an attempted robbery, Kitchin was kidnaped by two ruffians at about 10 p. m. Monday.

**CEMETERY MEETING TO BE HELD JUNE ELEVENTH**

Pleasant Valley Cemetery meeting will be held the second Sunday in June, June 11, according to announcement received by The Bulletin today. The meeting was to have been held the second Sunday in May, but rain prevented.

There will be preaching at 11 a. m. Dinner will be spread at noon and there will be singing all afternoon. Everybody is urged to attend and bring a well filled basket.

**Schoolboy Smashes Records**

AUSTIN, Tex.—Texas schoolboys are not always content to smash school records. In the State Interscholastic League meet at Austin recently R. L. Bush, Dallas schoolboy, ran the half mile in 1:56.3, breaking both the league record and that of the Southwest Conference of Colleges.

## OUT OUR WAY

## Two Carloads Registered Hereford Cattle to Be Shipped to Mississippi

One of the largest single shipments of Registered Polled Hereford cattle ever made from this section of Texas will be loaded out Friday and Sunday by Earl W. Gill, owner of the Gill ranch, located at Whom. The shipment was sold to J. J. Newman and Son of Bude, Franklin county, Mississippi.

The shipment, two car loads, will consist of 30 bulls and 40 heifers. All are excellent breeding stock, proper type and of good quality, the purchaser says. Mr. Gill is one of the first breeders of pure bred Herefords to change to Polled type Hereford cattle. He is now the fourth largest pure bred breeder of Polled Hereford cattle in the United States.

Accompanying Mr. Newman and son here were James Harrison and C. H. Crawford of Meadville, Miss.

## BUSINESS IN APRIL SHOWED SLIGHT GAINS

DALLAS, Tex., June 1—(AP)—The April sales of department stores in leading cities, says the Monthly Business Review of the Federal Reserve Bank of Dallas, reflect a further gain of 21 per cent over the previous month and were only two per cent less than in the same month last year.

The Review states that "increased activity of business and industry and a further strengthening of confidence that business improvement continued during the last half of April and the first part of May. Wholesale distribution has likewise felt the effects of increased consumer buying. Sales in most reporting lines increased between March and April and there was a narrowing of the margin of decline as compared with a year ago. A factor of considerable importance has been the reappearance of substantial forward buying in some lines. Collections reflected a substantial improvement.

"While the number of commercial failures was slightly larger than in March, it was considerably under that of a year ago, and was made up mostly of small trading concerns. The liabilities of defaulting firms slightly less than in March and less than half of those in April, 1932.

**Bank Loans Increased.**

Federal Reserve bank loans to member banks, after rising substantially during the last half of April, declined during the subsequent two weeks and on May 15 were only slightly larger than a month earlier. There was a moderate increase in the commercial loans of banks in selected cities between April 12 and May 10 for the first time in several months. Federal reserve notes in actual circulation reflected a further decline. The slight average of combined net demand and time deposits of member banks in this district amounted to \$584,172,000, as compared with \$622,323,000 in March and \$638,343,000 in April of 1932.

The agricultural and livestock industries were affected adversely during the past month by unfavorable weather conditions. High winds and dry weather in the western half of the district and wet soil in portions of the eastern half retarded planting operations and crop growing. While the recent rains have partially relieved the drought stress, there are some areas where moisture is urgently needed. Small grains are in poor to only fair condition and indications point toward very low yields. Although ranges

**Mr. Harrison is county agricultural agent there. He says he and the other members of the party spent several days in this and other sections of Texas, looking for the type of cattle found on the Gill ranch. Mr. Harrison says further since the beginning of a campaign against scrub bulls in Franklin county three years ago, 95 Registered sires have been placed with cattlemen in the county and that a large majority of these were raised on the Gill ranch.**

The shipment of the two car loads to Franklin county Friday and Saturday will make four car loads of pure bred cattle that have gone to Mississippi from this section this year. Two other car loads were shipped to Vicksburg.

**OKLAHOMAN NOW OWNS HUGE ROPING SADDLE USED BY PANCHO VILLA**

SEMINOLE Okla., June 1—(AP)—Pancho Villa's huge-horned Mexican roping saddle has become the property of Dr. Claude A. Chambers, part Cherokee Indian physician, of this city. The bandit leader's spurs and bridle are also a part of Chambers' riding outfit.

The saddle, a heavy Mexican type though made in Texas, is silver-mounted and hand-carved, bearing the word "Villa" on either side of the back skirts. It was the saddle Villa is said to have ridden during the raid on Columbus, New Mexico. It was after this raid that General John J. Pershing, in command of the United States forces on the border, penetrated Mexico over 400 miles searching for the notorious bandit Chieftain.

A saddle of this type is not common in this part of the United States, though they are used extensively for roping in Texas. The horn is three times the size of the ordinary stock saddle horn and the stirrups have heavy leather covers making them veritable foot pockets.

Gordon Hines, biographer of Oklahoma, bought the saddle from Villa after the bandit had given up his military life and was living on an hacienda given him by the Mexican government. It was through Colonel Zack Miller of the 101 ranch that Dr. Chambers obtained the saddle.

Villa was assassinated near his ranch home in northern Mexico when the automobile in which he and some friends were riding was swept by rifle fire from ambush, in July, 1923.

**Pastor to Get Two Degrees**

BEOARLI, Mo.—The Methodist Church of Bogard believes it has one of the hardest working pastors in Missouri. Besides preaching regularly, the Rev. Frank L. Sechrist has attended two colleges in different cities, and this spring is getting degrees from both of them. He earned the degree of bachelor of science in engineering at the Finlay Engineering College, in Kansas City, and the bachelor of arts degree at Central College, Fayette, Mo.

**HOUSTON HAD LOWEST DEATH RATE FROM CAR ACCIDENTS PAST YEAR**

DALLAS, Texas, June 1—Texas' three largest cities—Houston, Dallas and San Antonio—ran a close race during the past year in mortality from automobile accidents.

Houston, according to summary issued by the U. S. Department of Commerce, had the lowest death rate from automobile accidents per 100,000 population during the 52 weeks ending May 13. The Canal City's rate was 22.0, as compared with 23.5 for San Antonio and 26.0 for Dallas.

In Dallas there were a total of 73 deaths in 12 months from automobile accidents, 40 of which occurred in the city proper. Last year the figure was 63, making a mortality rate of 23.1.

Automobile fatalities in Houston total 71, as against the preceding year's figure of 81 when the death rate from automobile accidents was 26.2.

San Antonio, like Dallas showed an increase in the number of deaths and the automobile mortality rate over a year ago increased from 53 to 38 and from 22.6 to 23.5.

The average death rate from automobile accidents per 100,000 population in 86 large cities during the past year was 21.2, representing a total fatality list of 7,752. For the preceding year the figures were 24.5 and 8,888.

Garden, N. J., reported the highest mortality rate for the year at 60.7. Omaha was next with 57.0. The total number of automobile fatalities for the four-week period ending May 13, 1933, in the 96 cities was 534. In Dallas the number was 73, in Houston 111.

**One-Armed Man Is Fisherman**

PORTLAND, Ore.—Roy Jones, of Longview, landed a 45-pound Chinook salmon recently. He is one-armed. A few weeks later, he fished the Cowitz river, near Longview, and hooked two more good Chinooks. They averaged 30 1-2 pounds each.

**WILD FLOWER BILL CAUSED WISE CRACKS**

AUSTIN, Texas, June 1—(AP)—Capitol newspapermen no longer are accorded precedence to the governor's presence.

During the administration of Governor R. S. Sterling, newspapermen had little difficulty getting in to see the chief executive. If the governor was engaged in an important conversation and the newspaperman wanted an immediate answer to a question, one of his secretaries would slip into the inner sanctum and obtain a reply.

The same was true in lesser degree, during the terms of Governor Dan Moody.

Sterling was a newspaper publisher and realized the value of time as an editor's deadline approached.

Now the old order has changed and newspapermen must wait their turn. They are seldom admitted to the governor's presence, usually being stopped at the gate behind which the governor's outer secretary, John Woods, handles a constant stream of persons seeking to see her.

Weeks have passed without the newspapermen seeing Governor Miriam A. Ferguson or her spokesman, ex-Governor James E. Ferguson.

Maintenance of a closer contact with the press has been hampered materially by press of legislative business. The legislature has been going full blast during all the time the governor has been in office and much of the time of the executive has been taken up by members of the house and senate.

Legislators are given first choice since they ordinarily cannot be absent from the floor for very long while the houses are in session.

Newspapermen are looking forward to freer contact when the session is over.

Conferences with "Governor Jim" are enjoyed by all the newspapermen. Their only complaint is that there aren't more of them.

## PRESS DENIED RIGHT TO SEE GOV. FERGUSON

**Represents a closer contact with the press has been hampered materially by press of legislative business. The legislature has been going full blast during all the time the governor has been in office and much of the time of the executive has been taken up by members of the house and senate.**

**Austin College to Award Degrees to Forty Nine Seniors**

SHERMAN, Tex., June 1—(AP)—Forty-nine students of Austin College are candidates for degrees to be awarded June 6 at the 83rd annual commencement exercises of the school. Dr. E. B. Tucker, president, has announced.

E. D. Grant of Nashville, Tenn., of the class of 1930, will deliver the commencement address, and the Rev. E. F. Montgomery of Law City, Florida, of the class of 1913, will deliver the baccalaureate sermon.

Candidates for master of arts degree are Everett J. Cappelman of Wandom and C. H. Gillespie, Jr., of Sherman.

## "INTERNATIONAL HOUSE" AT LYRIC NEXT WEEK

Two great pictures await the theatre-goers of this city and county during the coming week. The Lyric Theatre will offer a brand new film "International House" and the Gem is presenting "State Fair". This is a continuation of the policy of good pictures that these two houses has always maintained.

At the Lyric Monday and Tuesday a great assembly of well-known actors will be seen in the most hilariously funny comedy of many months. Included in the cast will be found Peggy Hopkins Joyce, W. C. Fields, Stuart Erwin, Bela Lugosi, Burns and Gracie Allen, Col. Stoopnagle and Bud, Baby Rose Marie, The Girls in Cellulose and many others equally as famous.

The picture deals with the situation that develop when a group of millionaires go to a small Chinese village to view a new invention and to enter bids for its use. The scene that develop during the action of the picture all go to make it one of the best that Paramount has offered recently.

**WILD FLOWER BILL CAUSED WISE CRACKS**

AUSTIN, Texas, June 1—(AP)—The Texas house recently was thrown into hilarity when Representative Emmet Morse of Houston sought to pass a bill to prohibit the picking wild flowers and shrubs without permission of property owners.

The house took the bill lightly and numerous speeches were made and amendments offered to plague sponsors of the proposal.

Representative Ben Vaughn of Greenville recommended that the penalty provision be made more stringent.

"A fine of \$100 isn't enough to place on persons who go out and pick wild flowers," Vaughn said. "We ought at least to put them in the penitentiary or shoot them at sunrise."

Vaughn recalled that in boyhood he picked wild flowers on his way to school to give the teachers, adding that the bill would prohibit "a crime like this."

"The bill would be a direct slap in the face of romance," Representative Bob Alexander of Childress said. "Young swains who want to take their girls out into the country wouldn't have any excuse if they were prohibited from picking wild flowers."

Representative W. C. Shults of Decatur attempted to protect persons afflicted with hay fever. He offered an amendment that would have allowed hay fever sufferers to pull up any flower or shrub they believed was adding to their discomfort.

After rallying authors of the bill for an hour or so, the house passed the bill and took up more serious subjects.

Sponsors of the bill, however, were soberly sincere. They expressed fear that unless the bill was passed it would be only a few years until the bluebonnet, Texas' state flower, would be exterminated.

JEFFERSON, Mo.—After Missouri legislators had ended their session and returned to their homes, statehouse custodians discovered that 31 out of the original 100 water demijohns were missing.

**C.I.A. to Graduate Class of 162 on Monday, June 5th**

DENTON, Tex., June 1—(AP)—Thirtieth annual commencement exercises at Texas State College for Women June 5 will witness the granting of one hundred and sixty-two degrees, including twelve masters of arts. Nineteen of these degrees are bachelor of arts and one hundred and thirty bachelor of sciences.

Mrs. Lee Joseph of Austin, a member of the board of regents of the college, will deliver the commencement address. Her subject will be "The Challenge of Disarmament to American Youth." The Rev. L. D. Anderson, pastor of the First Christian Church, in Fort Worth, will deliver the baccalaureate sermon.

Ex-students of the college will be guests on the campus during commencement week and will have their annual Blue Chambray breakfast June 3. This will mark the beginning of ex-students' activities.

Forty-third Legislature will live in history as most liberal and economic

BY GORDON K. SHEARER, United Press Staff Correspondent. AUSTIN, Tex., May 31.—The forty-third Texas Legislature will probably live in history as the one that brought back beer, horse-race betting and prize-fighting to Texas.

It will also be remembered as the one that ended a quarter century of increasing state government costs and put them back to three-fourths of what they have been for the past two years. It is first under the present constitution for the past two years.

In a matter of more than 1,500 bills, few major ones went through to become law. Oil troubled rather than smoothed the waters throughout the session.

Oil troubled rather than smoothed the waters throughout the session.

tion of late appointments made by her predecessor filling the board of education. She failed to get two-thirds of the Senators to confirm her appointment of Frank Denison of Temple to the State Highway Commission.

Retrenchment Era. Next came the retrenchment era, when the liberalization era. Many of the session's problems were passed on to the people for referendum.

On next August 26, they are asked to pass upon: Amendment of the state constitution to make effective the statute legalizing 2 1/2 beer.

Indian Creek

Rev. and Mrs. W. D. Kirkpatrick have gone to Corpus Christi to spend several days with relatives.

Dulin

We had another big rain last week, and most of the farmers are wishing for more sunshine so they can get busy in their crops.

Gap Creek

The farmers of this community are taking advantage of the fine shining weather after the big rains we have had in the past week.

Blanket

Mr. and Mrs. Frank Helman of Lubbock are visiting her sister, Mae Baker, and family.

Rice

A nice rain has been received which was greatly appreciated by the farmers.

Ebony

Rain, rain and more rain. It rains pretty near every day and Sunday, too.

Early High

There will be preaching Saturday night, Sunday and Sunday night at the Baptist church.

Brookesmith

The heaviest rain since 1930 fell in Brookesmith last week. People are very busy in their crops here now.

Owens

Two large rains fell the last week. Most everyone will be glad when it's dry enough to work in the fields again.

Several from here attended the Memorial services at the Faulkner Cemetery Sunday.
