BEFORE ARIZONA WAS A STATE—in 1898, when Fort Huachuca was emerging from its Indian fighting days but its electronic proving ground days were a good half century away, the chaplain's family first saw its new home from this primitive mule-drawn stagecoach. Driver and chaplain vie for walrus mustache honors. Huachuca, now 75 years old, was once the home of the Apache Scouts.

Savings Bond Sales Reported Here

During the first six months of 1957, the citizens of Donley County invested \$76,168.00 in Series E and H Savings Bonds. Of this amount \$5,929 was purchased during the month of June. This report was made today by Mrs. J. R. Porter, Chairman of the Donley County Savings Bonds Committee.

Sales in Texas during the first half of 1957 were \$35,566,888 or 44.3% of the 1957 goal of \$193,100,000. June sales in Texas were \$12,988,481.

Week End Showers Are Spotted

The showers that fell over this area during the week end were very spotted with some localities receiving beneficial amounts while at the same time their neighbor across the fence received only enough to settle the dirt.

COTTON MEASURING

Our weekly report on cotton performance shows 341 farms measured in the field, with 289 of this number computed in the office. Our total number of cotton farms for the County is 752, which with the number as reported measured, represents almost half the farms as measured. We have nine reporters working out of the office and work in this field is progressing very satisfactorily. As soon as the measured acreage for cotton has been determined the farm operator will be notified by writing from this office.

PRE-MEASURED COTTON

Cotton pre-measured earlier in the Spring will be checked in the very near future for final compliance.

PEACHES

What lovely peaches are grown in our County. The use of peaches is not limited to desserts, for peaches may be used in a wide variety of ways, such as in beverages and salads. Baked or broiled peaches are excellent with meats, and when served on the meat platter, they give the dish a "dressed up" appearance that's appetite appealing. How nice to be able to get fresh peaches right from our own lovely orchards located in almost any direction in our rich beautiful county.

Two Teachers Employed For Local Schools

The board of trustees of the Clarendon Consolidated Independent School District, acting upon the recommendation of Supt. W. W. Pinkerton, extended contract to two teachers at their regular meeting on July 18. The two new faculty members are Mr. Willard Edgett, band director, and Mr. J. C. Stepp, college mathematics teacher. Mr. Edgett will replace Mr. Allen J. Pittser who resigned after two years as band director for the high school, and Mr. Stepp will replace Mr. F. S. Reisdorph who taught mathematics in the Clarendon Junior College last year.

The new band director holds both the bachelor's and master's degrees from Texas Tech. He has had eight years experience directing high school bands, the last three of which were spent at Shamrock.

Mr. Stepp, for the past four years superintendent of schools at Lelia Lake, holds the bachelor's degree from Abilene Christian College and the master's degree from West Texas State College. He is doing additional graduate work this summer at Texas Tech. He has had 14 years teaching experience.

Kenneth Clapp Resigns Coaching Position

Kenneth Clapp, assistant football and head basketball coach at Clarendon High School the past year, has submitted his resignation to Supt. W. W. Pinkerton effective immediately. Clapp has accepted a position as "B" team football coach and head boys basketball coach at Littlefield High School.

Pinkerton stated that he regretted losing Clapp both as a coach and faculty member. The likable young coach is a fine teacher as well as a successful coach. He guided the Clarendon High School boys to their first district basketball championship in many years last season; upset the powerful White Deer Bucks in the bi-district playoff and made a fine showing in the regional tournament in Lubbock. Clapp stated that he regretted leaving Clarendon but that the Littlefield offer was a definite advancement in his profession.

Watch For Cotton Insects Warns County Agent

County Agent H. M. Breedlove is warning all cotton farmers to keep a close watch on their crops for cotton insects. The flea hopper is one of the insects to watch real close at this time. Regular inspections of cotton fields and dusting or spraying at the right time will insure increased yields.

Dusting with 3-5-40 and 10-40 is good at this time and also spraying with 2-1 mix, Toxaphene and BHC. Some farmers are reporting some grasshopper damage and Toxaphene as a spray is good but if you have jumbo grasshoppers then a bait is better using cotton seed hulls mixed with Toxaphene, water and syrup. Any one needing additional information is urged to call by the county agents office.

Pochontas married John Rolfe.

Saturday, August 31st is the date the Greenbelt Municipal and Industrial Water Authority has set for the confirmation election. Mayor H. T. Burton reported yesterday that approval of the date had been made by the State Board of Water Engineers and the election would be held as scheduled.

The confirmation election is the actual organization of the water authority, giving it legal power to begin action. What is now called the "Authority" is actually a committee interested in seeing the project come about. This election will be the next step toward securing a dam across Salt Fork of Red River.

The confirmation election has nothing to do with the issuance of bonds or of voting a tax. W. Carroll Knorpp, Clarendon representative, pointed out. That will come in a later election. The August 31 election will simply determine if each city wants to come in the authority or stay out. It does not cost anything, Knorpp added.

After the confirmation election, the cities in the authority will have a chance to look at the costs and other figures before any election is held on the issuance of bonds or levying a tax. Each city will know how much the cost will be and where the money will come from.

According to information from Austin, all qualified voters (those who have paid poll taxes or are exempt) may vote in the confirmation election. Only qualified property owners are eligible to vote on bond issues which would follow at a later date. If the city should see fit, it could drop out of the authority prior to voting bonds or a tax.

Cities that will be voting on the issue as members of the authority are Childress, Quanah, Wellington, Memphis, Hedley and Clarendon.

Dusters To Play Groom There Sunday

The Clarendon Dusters will journey to Groom Sunday to take on the boys over there who defeated the Amarillo Hawks last Sunday 14-10. The Dusters defeated Groom 10-8 in their previous meeting, so the Groom boys will be doing their best to upset the locals.

The Dusters game with Amarillo Coors last Sunday was rained out and will be played here in Duster Park August 11th.

The Dusters are pushing ticket sales for their last regular scheduled game here August 4th with the Amarillo Hawks in an effort to pay for the new uniforms they purchased at the beginning of the season. In addition to admittance to the ball game, the ticket will entitle the holder to an opportunity to win a Free electric deep fryer which will be given away at the game. When these boys come around, buy your tickets and plan to be out August 4th and enjoy a good ball game.

Date Set For Annual Farm Bureau Barbecue

The directors of the Donley County Farm Bureau have set the date for the annual chicken barbecue for August 23rd at the Lelia Lake School house at 7 p. m. Mr. Raymond Waldrop, President of the local organization said that all the details and information in regard to the big county-wide barbecue would be published later.

Flip Breedlove will barbecue the chicken and J. B. Melton will cook the peaches and beans. This is the annual barbecue of the Farm Bureau and a good program is planned for this occasion. Watch your local paper for full details at a later date.

TO THE By C... The Suppre book I and questio people

TO THE PEOPLE OF THE 18TH DISTRICT

By Congressman Walter Rogers

THE SUPREME COURT SPEAKS

There is a book titled, "The Supreme Court Speaks." It is a book I wish everyone could read and thoroughly digest. Many questions in the minds of our people regarding the extent of

power vested in the Supreme Court would be answered. This is especially important and timely in view of the many recent decisions of the Court which have been subjected to criticism in the press, on the Floor of Congress and on main street. The reader would fully realize the indispensable necessity of placing only well-balanced individuals on the Court, who are devotedly dedicated to the American way of life. To stray from such policy would be to endanger sorely the very existence of our form of govern-

ment. This is so because ours is a government by law, and the Supreme Court has the final and decisive say as to what is or is not the law. I receive many letters asking why Congress does not pass laws overruling certain decisions rendered by the Supreme Court. In the first place, it is most difficult to pass such a law. We in Texas, fully appreciate this, because that is exactly what we did in the famous Tidelands case. Those of us who were here during that battle will never forget the up-

hill fight which had to be waged to accomplish it. However, in the second place, I hasten to point out that, even though Congress should pass a law invalidating a decision of the Supreme Court, the Court still has the power to invalidate the very law passed by Congress to overrule the Court decision. In other words, the Supreme Court of the United States could declare unconstitutional the public law passed by the Congress restoring the tidelands to the State of Texas. In such event, there would be nothing the Congress could do. A remedy could only be accomplished through the people by an amendment to the Constitution specifically spelling out and limiting the powers of the Supreme Court in that regard.

For instance, the Court decided on Thursday, July 11, that Specialist 3/c Girard, a member of the United States Armed Forces in Japan, should be turned over to the Japanese government for trial. The Court indicated this was a matter for the Executive and the Legislative Branches of the government. However, the Court failed to point out that, regardless of what the Legislative Branch of the government did, the power remained with the Court to determine the final disposition of Girard or any other American citizen.

In view of the decision in the Girard case, as well as several others in recent months to which I referred in the early paragraphs of this letter, you may expect vigorous efforts on the part of many people and organizations in this country to take whatever steps may be necessary, including amendments to the federal Con-

stitution, in order to spell out and limit the powers of the Supreme Court.

CIVIL RIGHTS

Many Members of the Congress were deeply disturbed by the news stories which came out of the conference between President Eisenhower and Senator Dick Russell of Georgia regarding the so-called Civil Rights Bill. It had been the feeling of several that the President did not realize the bill could be used as a weapon with which to punish the South. This feeling was brought about by the statement of the President in his press conference to the effect there were some things in the bill he did not clearly understand. However, it is now generally conceded everyone understands that, if this bill becomes law, it can be used as a whip or weapon to punish the Southern states. The discussion between the President and Senator Russell did not indicate any doubt on the part of the President that the law could be used for such purposes. The conference merely brought out that the President did not intend to so use the law.

The test of a good law should not be whether or not the head of the government would use the same to abuse people, but whether or not he could so use it.

FOREIGN AID

The Washington papers recently carried a story about a \$30 a day consultant in the Foreign Aid Department. It seemed she had been hired to put together detailed information in the nature of propaganda to sell the foreign aid program. She made the mistake of explaining her duties to the top foreign aid boss, John B.

Hollister. Result: no more \$30 a day consultant. Hollister decided such activities are an unnecessary expense on the taxpayer. Too bad he doesn't have time to find out about other activities in that Agency.

DONLEY COUNTY SOIL CONSERVATION DISTRICT NEWS

Conservation Irrigation, the use of soils and irrigation water in a way that will insure high production without the waste of either, is each year becoming increasingly more important. Upward trends in population are increasing production needs and will require the most careful use of soil and water resources.

Irrigation, be it sprinkler or surface, has rarely been as efficient as it should be. Frequently, low efficiencies are caused by inadequate designs that do not provide for the application of water in accordance with soil conditions and crop needs. On

the other hand, adequately designed systems, improperly operated, also may waste water, damage land, and result in lowered production.

No matter how sound the planning or how good the design, an irrigation system will not give desired results unless it is operated correctly. To do this the irrigator must know the capabilities of his system, of his soils, and and the water requirements of his crops. With this knowledge he can apply the principles of conservation irrigation to his own farm.

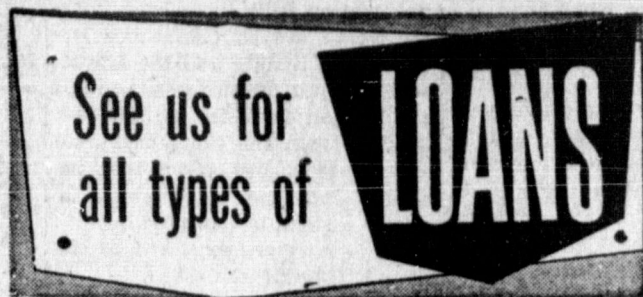

The specifications of a system to fit a particular farm is a complicated problem, and the irrigator needs the services of a specialist in irrigation design. In the Donley Soil Conservation District, technicians of the Soil Conservation Service are available for this work.

Texas' lowest recorded temperature was 23 below zero at Tulia on Feb. 12, 1899.

Someone sent us this little thought in poem; "Do not live to make a living, Rather live to make a life, For the measure of succeeding Is your service in the strife."

There is a similar saying; "Anyone can make a living, but

it takes a lot of work to build a life."

Sometimes it seems rather hard to many of us to make a living in these times but the thought of course is that it doesn't take much effort just to exist. To move along with the easiest line of resistance — take all that is given to us and give back nothing in return.

But to try and be the helper instead of the helped—To be the spring instead of the lake—To be a flower rather than a sponge growing in the sea—To be a smile instead of a frown—To be kindness rather than hate—To build a home rather than just a house—To have the love of our children

rather than their help alone—All these things along with many more thoughts which you might add mean that we have worked at the job of building a life more than that of only making a living. Important as making ones way in the world may be, making a life and sharing it with others is our main reason for justifying our place in God's Great World.

Mr. J. C. Penny, one of America's most successful merchants has this advice for young people: "If I could get a message over to the youth of this country, it would be that success in life does not depend on genius. Any young man of ordinary intelligence, who is morally sound, above board in his dealings, and not afraid of work should succeed in spite of obstacles and handicaps, if he keeps everlastingly at it. The possibilities before me are measured by the determination within me."

There could be a book written about that last line. The life of Mr. Penny has been the proof of this saying and many books could be written about his story. We think the part of his story that proves that honesty and Christianity can be made a vital part of a successful business is just about the best.

"The only person who has a right to run the other fellow down is the elevator man."

"Character is made by what you stand for; reputation by what you fall for."—Quillen

"Wouldn't it be nice if every time anyone was tempted to point a finger, that they would extend a helping hand instead."

"When two business men always agree, one of them is unnecessary."—Wm. Wrigley, Jr.

Plans Are Now Being Completed For Pampa's Top O' Texas Rodeo August 7 - 10th

Plans are now being completed for Pampa's TOP O' TEXAS RODEO which is scheduled for August 7-10, and it appears that this years show will be the biggest in the thirteen year history of the organization. Bob Andis, president of the Top o' Texas Rodeo Association has announced that GOAT MAYO, veteran rodeo producer of Petrolia, Texas will furnish the stock for the show for the thirteenth consecutive year. Mayo furnished stock for the first Top o' Texas Rodeo under the present organization in 1945 and has returned each year since. This is a fine testimonial to his ability to produce good rodeos.

Two days prior to the main show will be the Top o' Texas Kid Pony Show with night performances on August 5-6, featuring boys and girls between the ages of 5 and 15 years. Special contests designed for the youngsters insures a very unique performance and is always well attended by people of the Top o' Texas area.

All of the regular rodeo events are included in this years show, including calf roping, double muggin, bareback bronc riding, saddle bronc riding, bull riding, bulldoggin, cutting horse contest, and the Cowgirls' Sponsor contest. Cowboys and cowgirls from a wide area will be competing for several thousand dollars in cash prizes.

In addition to cash prizes several beautiful trophies will be awarded to all-around winners in the several events. A special hand made saddle will be first prize in the Cowgirl Sponsor contest, which always attracts the best cowgirls in the southwest.

This year rodeo dance held nightly, Wednesday through Saturday, will feature America's top western band, LEON MC AULIFFE direct from the Cimarron

Ball Room, Tulsa, Oklahoma. McAuliffe and the Cimarron Boys will be heard nightly at the rodeo as a special feature of the show. The rodeo grounds are now undergoing the usual pre-rodeo clean up and will be ready for business come show time. 6,000 good seats are available each night and reserved seats may be had by calling the rodeo office. Dial MOhawk 4-3241.

"In great things, to have tried is enough."

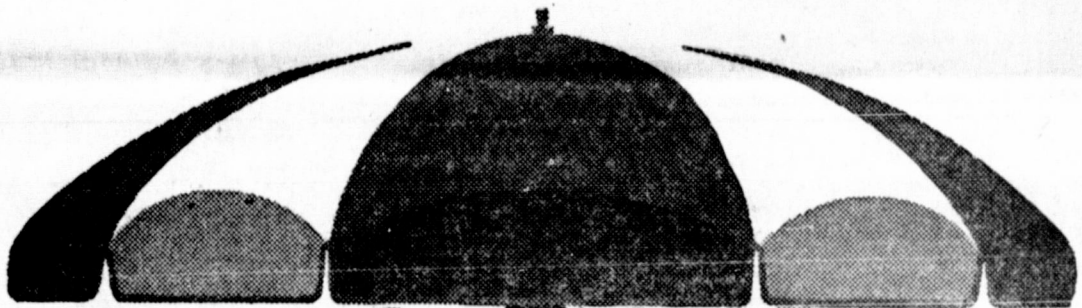

Dear Friend: OUR WORLD: The shakeup in Russia has stirred the world. A hard struggle for power among top communists has been going on since Stalin's death. Molotov and several other "old Bolsheviks" appear to have lost. Khrushchev stays on top. Most observers believe he is not totally powerful, as Stalin was. But he is in the saddle. How high and how long he will ride remains to be seen.

So far as the free world is concerned, the "who" in Russia is less important than the "what." The nature of communism has not changed. Individual communists may rise and fall. But the communist idea remains a deadly threat to free people everywhere. Disarmament talk continues. The United States has proposed conditionally that tests of nuclear

San Antonio, of the Texas Pro Association. I thoroughly enjoy both occasions.

Texas has the best editors any State. They are well-informed. They are down-to-earth. They know the needs of their readers. At the San Antonio meeting, was impressed all over again, their knowledge and understanding.

The editors told me they'd prove our budget-cutting effort. They want the U.S. to talk realistically—about disarmament. They want to save their sons from having to fight a war. They're thoughtful Texans, deeply concerned about the issues that affect them and their children. It's good to be with them.

The only modern Short Stroke SIX!

Another reason why Ford Trucks Cost Less

Under the broad hood of that boldly modern '57 Ford there's something you won't find in any other pickup. It's a six-cylinder engine with modern Short Stroke design.

Because of Short Stroke design, Ford engines—both Six and V-8—have less internal friction. This means less wear, less repair. Coupled with new 8.3 to 1 compression ratio—it also means more miles from every gallon of gas.

Ford trucks cost less in every way! First cost is low; many, many models are priced below every other make. Ford resale value is traditionally high. And independent insurance experts have certified for the 12th straight year that Ford trucks last longer. Act now—save now and for years to come!

A traveling salesman was Harry G. Blowe. Who could sell ice cubes to an eskimo, But he fell for a line slicker than his, From a new car salesman—wow! what a whiz! The car had style—years out of date, The features were new—back in '48! Harry's still smiling, the tears hardly show, But how he wishes he could get back his dough!

Moral: Don't get "bargain-talked" into yesterday's styling and features!

Like a lot of people, Harry was looking for a "good buy" in a new car. But no car is a bargain if it's outmoded before you drive it a mile. For the same money, Harry could have stepped up to a dashing Swept-Wing Dodge—so new it actually obsoletes other cars in its field. Obsoletes their high, boxy design with the low, low look of tomorrow. Obsoletes their old-fashioned features with such advances as Torsion-Aire Ride, Push-Button TorqueFlite and Total-Contact Brakes. So don't do what Harry did—please. See your Dodge dealer today.

Join the swing to the Swept-Wing Dodge!

Highlights and Sidelights FROM Your State CAPITOL

By VERN SANFORD
Texas Press Association

AUSTIN—It's quiet around the Statehouse now, especially compared to two months ago when Legislative issues came to a tense climax.

Groups of sauntering sightseers have replaced the bustling, businesslike crowds that choked the Capitol corridors. They carry cameras instead of brief cases.

But people who are still on the job, like Comptroller Robert S. Calvert, have plenty to ponder. Calvert gave money-worriers a jolt by announcing the state is going to have to ante up \$6,000,000 more for the teacher retirement system in the coming two years. Increase is due to the teacher pay raise which ups the amount both the state and the teachers must pay in.

Since the Legislature spent to within \$60,000 of the state's expected revenue for the next biennium, this new drain means, according to Calvert, that "the poor old revenue fund will hit the deficit column sooner than expected."

"If I had to make a new estimate of expected revenue right now," he said, "I'd have to say we'd end up almost \$6,000,000 in the hole." But he added that he hoped the outlook would improve before he's called for another official forecast.

JURY TAKES BREAK

Travis County's grand jury room is quiet too. Jurors are taking a two-weeks "breather," but will resume investigation of the ICT collapse and Legislative bribery charges July 23.

Spokesmen gave no hint when the jury might give its report and end the general suspense.

Another grand jury in Dallas is still at work. It subpoenaed former Insurance Commissioner J. Byron Saunders and Garland Smith and Smith's son-in-law, Max Wayne Rychlik.

INSURANCE FORMS APPROVED

Texas Insurance Commission has granted "temporary approval" to all life, health and accident policy forms filed before Aug. 22nd. It's a stop-gap measure to conform with a new law and yet allow Texas insurance companies to continue business.

A law passed last session requires that all life insurance policy forms receive Commission approval before being offered to the public. Previously, only filing of forms with the Commission was needed.

But thousands and thousands of forms are involved, more than the Commission could possibly get through before the effective date of the bill. Hence: temporary approval for all during the checking period.

ADVISORS NAMED

A committee of four has been named to help small Texas cities that want to participate in the state's new urban redevelopment law.

They are Dr. D. R. Reilly of the Nolan - Scurry County Health

Dept., Joe Driskell of Fort Worth, Marvin R. Springer of Dallas and Jack Shelly of Garland. State Health Commissioner Henry A. Holle announced the group, to be known as the State Urban Renewal Advisory Committee.

It function will be to help cities under 25,000 population develop city plans to qualify for federal aid in slum-removal programs.

15 SCHOOLS FLUNK

State Commission on School Accreditation says it will recommend that 15 Texas schools be dropped from accredited status.

Final decision will be made after the commission reports at the Sept. 2 meeting of the State Board of Education. Commission also suggested that 7 schools seeking accreditation not be approved and that 79 more schools be warned they must improve. Inadequacy of personnel, facilities and curriculum were cited.

Recommended for loss of accreditation were Asherton, Antonio, Bardewill, Barry, Ben Hur, Concord, Gordon, Kirkland, Kosse, Minden, Mount Calm, Norwood, Purdon, Sand Hill and Winfield.

VOTING RIGHTS DEFINED

Military personnel who are discharged, wait a bit, then re-enlist are entitled to establish voting residence in the Texas county where they re-enlist.

So ruled the attorney general's department. But it doesn't apply, said the opinion, if the discharge and re-enlistment are continuous.

Texas constitution allows military personnel to vote in the county where they resided at the time of entering service.

Texas' population on July 1, 1955, was 8,657,000.

Ruby Nance Band To Furnish Music For Big Top O' Texas Rodeo

The Top o' Texas Rodeo officials announced this week the engagement of the Ruby Nance professional rodeo band to furnish music for the big Top o' Texas show held in Pampa August 7-10th.

All members of the Ruby Nance Band are former circus musicians and for the past several years the band has performed for all of the top rodeos in the nation, including Madison Square Garden.

Another musical feature of the show will be the appearance of Leon McAuliffe and his Cimarron Boys of Tulsa, Okla. This band is recognized as the leading western dance band in the nation. McAuliffe will be featured on the nightly rodeo program and will then play for dancing following the show. The dances will be held in the National Guard building on the rodeo grounds.

Top rodeo hands in the southwest will be competing for approximately \$5000.00 prize money plus a number of appropriate social awards, including silver

belt buckles, stetson hats, saddles, and other trophies.

Announcing the show will be Nat Fleming, popular TV personality and rodeo announcer of Wichita Falls. Fleming has announced the Pampa show for the past several years and is recognized as one of the best in the field.

A down town ticket office will be set up in the lobby of the Pampa Hotel on July 29th and reserve seat tickets can be secured anytime after that date.

The Kid Pony Show and Miniature Rodeo will hold forth on Monday and Tuesday nights, August 5 and 6 prior to the opening of the big show on August 7.

Pampa's tourist of the day will be guest of the rodeo association nightly, Wednesday through Saturday.

Several special acts are being booked to add variety to the regular rodeo program. Six thousand good seats are available for each performance.

GOC ALERT SET FOR SUNDAY AFTERNOON

The local GOC will have a training exercise alert at the usual place Sunday afternoon, July 28th from 3 to 6 p. m. All members are urged to be present.

Certain Proofs Must Be Submitted Before Social Security Claims Can Be Certified For Payment

Many persons who are filing claims for social security benefits are overlooking the requirement that certain proofs must be submitted before their claims can be certified for payment, according to John R. Sanderson, manager of the Amarillo Social Security Office.

Mr. Sanderson said that failure to present the necessary proofs at the time the claim is filed causes the claimant to have to make one or more additional trips to the social security office. As a result of these extra trips, people have to wait longer to be interviewed, the processing of claims is slowed up and claimants have to wait longer before they receive their first monthly check.

Mr. Sanderson explained that in most cases the claimant must submit proof of his date of birth. He said that the best proof is a birth certificate issued shortly after the date of birth but if one is not available, other proofs, such as a baptismal certificate

or a family Bible or an old life insurance policy are generally acceptable. Most delayed birth certificates are not acceptable he stated. He added that farmers should not overlook bringing along copies of their 1955 and 1956 Federal Income Tax returns and evidence to show the returns were actually filed with the District Director of Internal Revenue. Such evidence may be a cancelled check, money order stub, or a cashier's check receipt.
