## Mules frustrated by Whirlwinds

MULESHOE—For the Muleshoe Mules Friday night's 45-21 loss to the Floydada Whirlwinds has to be more frustrating than embarrassing. The Mules had the advantage of seeing many of the Winds' offensive sets last week in a 9-6 loss to Friona. "Everything they ran was what we were expecting, we knew the job we had to do and tonight we just didn't get that job done," said Muleshoe head coach Randy Adair.

The one weapon that the Mules (2-6, 0-3 in District 2-3A) may not have seen against Friona was Floydada tailback Pete Cooper. The 5'10 170 pound senior exploited every hole that the overmatched Mule defensive line surrendered. Cooper started the scoring for FHS on a 54-yard scamper. The play started innocently enough as a sweep to the short side that turned in to a foot race. The Winds' Zach Abshier shanked the point after leaving MHS facing an early 6-0 deficit.

Senior quarterback Jimmy Guana brought the Mules back in a hurry, he connected

## Energas Company requests rate increase

The Muleshoe City Council last Tuesday discussed a proposed rate increase by the Energas Company. According to Muleshoe City Manager Dave Marr, Energas, which serves this area, is proposing a rate increase of \$.89 cents to the minimum monthly bill charge. The current minimum charge is \$4.75 and with the proposed increase, it could go up to \$5.64.

Marr said Energas is also requesting increases for service charges for customers, including new installations and reconnection of delinquent accounts. Energas is proposing the increase in order to increase their annual revenues by 1.9 percent. Their last general rate increase was in 1991.

However, no formal action was taken by the city council. Marr said the city, along with

others in the area, have formed a steering committee which has hired a consultant to look at Energas's request and make a recommendation to the city either to deny, amend or accept it.

Marr said that right now the steering committee is looking at Energas's request and a recommendation is expected to be made to the cities by mid-November or December.

Marr said that if the proposal is denied, Energas can file an appeal with the Texas Railroad Commission.

In other business last Tuesday, the City Council heard a report from Mike McDearmon of Southwestern Public Service (SPS). SPS is currently ungrading several lines and making improvements. The upgrade is expected to cut down on the effects in service and damage often made during lightning storms.

## Former inmate files suit against Bailey County jail

A former inmate at the Bailey County Jail has filed a suit against the county jail and sheriff's department for an alleged "personal injury" he claims he received while incarcerated there.

Ismael Ramirez Reyes filed a personal injury suit in the 287th District Court on Tuesday, Oct. 18. Reyes is cur-

rently an inmate in the Texas Department of Criminal Justice Institutional Division at the John W. Middleton transfer facility in Abilene and is representing himself in the matter.

Reyes is asking for \$25,000.25 for injuries he says he received when he fell after taking a shower at the Bailey

County jail.

The suit states that Reyes was arrested by the Bailey County Sheriff's Department in September of 1993 on a charge of aggravated assault with a deadly weapon. While incarcerated here, Reyes alleged that he took a shower and slipped and fell down because of "poor unsafe condi-

tions of confinement."

In his suit, Reyes claims that the "Bailey County jail is a health risk in which the shower does not have floor grips or floors mats to keep inmates from falling. It also states that the shower, which has a drainage inside, does not have a drainage on the outside, thus leaving water that falls out of

the shower to flow onto the floor.

Reyes further states in his suit that the "shower is a health risk."

Reyes claims that his head and right leg were injured from the fall he received after stepping out of the shower. It states

## Early voter turnout going strong for November 8 election

With just over two weeks before the November 8 General Election, the Bailey County Clerk's Office has been busy with a reported strong early voter turnout so far.

While all of the county elections are unopposed, the

governors race between Democratic incumbent Ann Richards and Republican candidate George W. Bush is running neck to neck. Keary Ehlers is also seeking election to this office on the Libertarian Party ticket.

Intense competition is also

being found in the United States Senator Race with Republican incumbent Kay Bailey Hutchison and her opponent Richard Fisher, the Democratic candidate. Also, Pierre Bondeau is running for this office on the Libertarian party ticket. In the attorney general's

race, incumbent Dan Morales, Democrat, is being opposed by Republican Candidate Don Wittig. Libertarian party candidate Vicki Flores will also appear on this ballot for this race.

Early voting began on Wednesday, and the Bailey

County Clerk's Office has reported as of Thursday 47 ballots turned in by mail and has had 29 in person early voters.

November 1 is the last day for the early voting clerk to receive an application to vote by mail and November 4 is the last day to vote early in person.

The bands that receive a Division 1 will advance to compete in the regional competition in Odessa on Saturday, Oct. 29. The Boosters feel the Mighty 'M' Band has a good chance to advance to regionals.

The magic is in the music!

that he was taken by emergency ambulance to a clinic for stronger medication for several headache pains he received from the fall.

In his suit, Reyes states, "If the Bailey County Jail would have met the Texas Commission on Jail Standards Requirements on safety conditions, injuries like this would never have happened."

Bailey County Sheriff Jerry Hicks said that it would not be proper for him to comment on the law suit. However, he did said, "The only thing I can say is that we have passed 17

consecutive jail inspections."

Hicks said that if a problem had been found during any of those inspections, the jail would have been closed.

In his suit, Reyes further claims that he is "still suffering from headache spins and right leg pain since his injury, as well as mental anguish, humiliation and physical emotional distress. He further states that he does not have a witness to confirm the incident.

The county, which is being represented by County Attorney Paul Crosnoe, has 20 days to file a response to the allegations.

starter.

Muleshoe was led on offense by Kirven, his 21 carries went for a deceiving 139 yards. Most of which came late against the Winds' second team defense. Guana rushed for 39 yards and passed for 107 before leaving the game in the third quarter with an ankle sprain. The Mules and

Whirlwinds each tallied 15 first downs, "We were just trying to get as many first downs as we could, sometimes Pete (Cooper) just breaks them," said coach Hurt. The Mules will square up against Dimmitt next Friday Night, Dimmitt fell to Friona last night, 14-12.

# Letter to the Editor

## Make Texas a fighting back state this election

Dear Editor:

I have read a quite disturbing thing about Governor Ann Richards. She was preparing to send to the federal agency a coastal management plan without the Texas Legislature having a chance to even read or modify it.

The governor is not for private property but for big government. When she campaigned she was against heavy-handed government. Her coastal management plan would involve land written a hundred miles or so of the coast.

Don't be fooled, it would cost taxpayers about \$2.5 million dollars. Rick Perry, Texas Agricultural Commissioner, and the Legislature, asked Ann Richards not to submit the plan. This would have involved private property.

Remember, in the November Elections we need a governor who represents Texas taxpayers. George W. Bush is a strong supporter of private property and small government. Bruce Babbitt, Secretary of the interior, appointed by Clinton, has a dislike for ranchers and farmers who own property or use public lands for grazing.

He is a loose cannon who wants to below you off your property or scare you off of some kind of lawsuit.

His policy is a stacked deck. I give you this example from "Policy Review."

700,000 acres of private property and hundreds of thousands of acres in public land represents one of Washington's most massive land grabs ever in the California Desert. They said they would pay for it into way below fair market values. They call it the California Desert Protection Act.

This act passed the senate without any amendments. This is why we need more Republicans representing us in Washington. The bill went to the

House where Jack Fields, Republican of Texas, with the help of all other Republicans and some Democrats, got it pointed another direction.

They amended the bill to where the government has to pay fair market value and not buy it below.

It now sits in conference committee. It will take the government years to compete, which leaves it open to political pressure from taxpayers. With the right representative in Washington this bill and other could be voted into.

There is a bill on the table right now to do away with pesticides and some herbicides. They think organic is the only way to go. Food raised in America is safer today than it ever has been.

If you listen to the EPA everything you eat today causes cancer. This is for nothing but to scare people and raise prices

on products.

The people who need them can hardly afford them. We have reporters in the news media who report these health problems or facts when there isn't any scientific proof.

November 8, we must go vote. Let's elect Texas Republicans. Let's make Texas a fighting back state for the people, by the people and all America.

Remember 40 years of Democratic rule in the congress and Senate has taken from your pockets. \$1 of every \$4 is going to Washington.

We know how to handle our money and lives better than the government does. We must change it now or we could be sending \$2 out of every \$4 to Washington.

Sincerely,  
Larry Martin

## Tom Landry to be honored

Former Dallas Cowboy Coach Tom Landry will receive the highest honor of the Masonic Grand Lodge of Texas can bestow on a non-member on Nov. 10 at a banquet at the Texas Scottish Rite Hospital For Children in Dallas.

The award is the W.B. and Brandon Carrell Humanitarian Award named for a father and son team of orthopedic surgeons in Dallas who devoted most of their professional lives to the care and treatment of handicapped children at the

Scottish Rite hospital. They were to the handicapped children of Texas what Tom Landry has been to the Fellowship of Christian Athletes and other youth philanthropies.

According to Dr. Howard R. Stewart of Lubbock, Chairman of the Masonic Grand Lodge Committee on Public Relations, "Coach Landry has gone far beyond the extra mile to see that deserving youths blossom into useful adulthood."

### STRIKE ZONE

PLAY BALL... is a familiar cry in the spring and summer. This is a time that parents and coaches, alike, encourage the boy not to swing unless the ball is in the strike zone... for in the early years of playing the game, the tendency is to swing at every pitch. This holds true in all of life, so it is up to wiser and older heads to train and encourage him in the better things.

Bringing up a child is a serious matter and all can use help. Let the church help you to teach him the right ways.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

# HeartFest to be held October 22-29

There's good news for health-conscious Americans, according to the American Heart Association. Finding the fat in prepared foods will be easier than ever with the new nutrition label required of food manufacturers by the Food and Drug Administration.

The new label requirements will be featured at the AHA's annual HeartFest, Oct. 22-29, held at participating grocery stores nationwide.

"When food claims to be low-fat, fat-free or lite, it's hard to know what those things mean," said Elizabeth Watson, local president. "But with the new label requirements, these

terms cannot be used unless the product meets legal standards set by the government. At HeartFest, we'll explain how to read the new label and plan a low-fat menu."

The new label lists such things as total calories, calories from fat and the amount of saturated fat, cholesterol, sodium and fiber per serving. Also, it lists your daily values which is the upper limit of fat and cholesterol you can safely have every day if you normally eat around 2,350 calories. For vitamins and minerals, your daily value is 100 percent of each.

HeartFest participants can

obtain a brochure on how to read the new label. It will define terms like fat-free, low-fat, lite or light and cholesterol free so that you'll now exactly what this means.

This brochure will also cover what the product must contain in order to make health claims regarding high blood pressure or heart disease.

The HeartFest event, launched in 1985 as Food Festival, is held at thousands of grocery stores nationwide. It's goal is to promote low-fat, heart-healthy eating. Area stores will participate in the event.

In addition, some stores

will offer other activities such as store tours, educational activities and cooking demonstrations.

HeartFest is sponsored nationwide by the American Heart Association. The American

Heart Association recommends that total fat intake be less than 30 percent of calories

eaten each day and the total fat be less than 10 percent of total calories. Cholesterol in-

take should not exceed 300 milligrams a day and sodium should not exceed 3,000 milligrams a day.

### COPY DEADLINE -

The deadline for news items to be submitted to the Muleshoe and Bailey County Journals is at noon on the preceding Tuesday for the Thursday edition and at noon on the preceding Friday for the Sunday edition.

(Copy deadlines for society news: wedding, anniversary, engagement and birthday announcements are at 5 p.m. on Monday and Wednesday for the Thursday and Sunday editions.)

## Crosses Almost Always Come Before Crowns

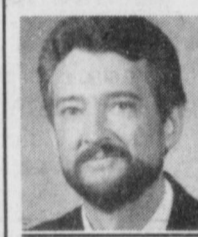

One of the finest books that I've seen on suffering is Philip Yancey's *Where Is God When It Hurts?* Early in the book, Yancey recalls the words of noted German minister and theologian Helmut Thielicke who was asked what he saw as the greatest defect among

experience confirms to be true: very little of any worth has ever been accomplished without pain. Christianity, and the cross which is at its heart, teaches us the lesson that, as Paul Tournier writes, "What disturbs our lives, puts us out, irritates us, annoys us, affects us, makes us suffer--severely sometimes--does not make us grow and develop, but does make growth and development possible, on condition, of course, that we are not destroyed by it."

Growth never comes without struggle. Joseph had his pit. Daniel had his lion's den. Jesus had his cross. And He tells us plainly that anyone who would be His must take up his own cross and follow Him. No one has ever invented a comfortable cross. Carrying a cross always involves suffering of some sort, but Jesus has also told us that "he who does not take up his cross and follow me is not worthy of me" (Matthew 10:38). No cross, no crown.

Luke records that on his first missionary journey, Paul urged the young disciples to faith and told them, "Through many tribulations we must enter the kingdom of God" (Acts 14:22). The truth is that there is no other way.

American Christians. His answer: "They have an inadequate view of suffering."

We Christians in the affluent western world are so infected by the values and mindset of our society that we often forget the truth that there can be worth in suffering. We naturally want our dentists painless, our band-aids ouch-less, and our world hurt-free. But what we want is not necessarily what we get--or even what we need.

Don't misunderstand--I'm not within a million miles of suggesting that pain is, of itself, a good thing. But I do think we'd do well to listen to the note the Christian faith trumpets forth loudly and clearly and that our own expe-
