## What Holidays Do You Want Is Question Asked by Local C of C

The Retail Trade Committee of the Clarendon Chamber of Commerce has mailed ballots to all members and interested persons asking that they vote on the total number and specific holidays that will be observed in Clarendon. Members of the Committee stated that the action was being taken at the repeated requests of Clarendon business men who seemed to be in a "dither" about holiday observances.

## BRONCHOS FACE TRADITIONALS FRIDAY NIGHT AT MEMPHIS

### Services Pending For A. G. Martin

Funeral services are pending, but tentatively set for Friday at the Murphy-Spicer Funeral Chapel for Albert G. Martin, age 73, who passed away at the Groom hospital early Wednesday morning following an illness of several months.

The Clarendon Bronchos will meet their traditional rivals, the Memphis Cyclones, at Memphis Friday night in a non-conference affair. Memphis is a strong club this year even though they failed to show it last Friday night against McLean when they settled off for a 6-6 tie. This is always a game when you never can figure just what to expect. The Bronchos will go into the game as the most likely team to lose but there have been plenty of upsets in the past and the Bronchos may do just that Friday night.

## Funeral Services Today (Thursday) For Jearl Swinney

Funeral services have been set for 3:30 this afternoon at the First Christian Church for Jearl Seth Swinney with Rev. L. L. Oliver and Rev. Ernest Phillips officiating.

## Scout Executive Speaks To Lions

Mr. Paul Beisenhurst, Executive Director of the Adobe Walls Council of the Boy Scouts of America, from Pampa, addressed the weekly luncheon of the Clarendon Lion's Club Tuesday. In his talk he pointed out that "men and women fail to realize a lot of the time the effect that they might be having on the youth of their community; unknowingly some of you may be an ideal for some boy or girl living down the street—our influences may be reflected many years later in places that we little suspect."

"This seems to be the opportunity we of Clarendon have been waiting for, an opportunity to display our merchandise and make contacts in the east part of the county," commented a local business man who has already made plans for an exhibit, the size of which will be regulated by the merchandise available at that time.

## Sunday Is "Layman's Day" At The First Baptist Church

"Layman's Day", Sunday, October 12th, will be observed at the First Baptist Church. The object of this annual observance is to emphasize the place of the laymen in the church life, and to use men in all key positions in the organization during the services of the day. Every Sunday school class will be taught by a layman. The choir will be a men's chorus, and a layman, Clyde Yoes, businessman of Amarillo, will fill the pulpit at the morning hour.

## 127 Pints of Blood Given Red Cross Here

## Colts Lose Second Game To Panhandle

Last week the Clarendon Colts journeyed to Panhandle for their second game of the season, but were overpowered by a strong Panhandle Kitten team by a score of 19-6. The Colts played hard, holding the Kittens scoreless in all quarters except the first, during which time they scored three touchdowns. The Colts score came on a 20 yard pass from John Payne to Charles Cosper in the third quarter.

## College Students To Edit Paper

Clarendon Junior College Students met Wednesday in a special meeting to choose editors for the Annual and Clarion, and to make plans toward the publication of each. The school Annual or Year Book will be published in the spring but it is hoped that publication of the Clarion, the school paper, can begin in the near future. Class dues were set at \$1. Tommy Messer was chosen to edit the Annual. Assistants and their work will be planned later.

## "BUY DEFENSE BONDS TO REPLACE OLD TRACTORS," SAYS 'MAID OF COTTON'

Tractors, cotton and thrift are woven together in the fabric of American life, according to Miss Pat Mullarkey, Dallas, Tex., 1952 Maid of Cotton. Today, there are a million tractors on Southern cotton farms and 25,000 are added annually, sparking the trend to cotton mechanization. These tractors will last about 10 years. By putting the annual depreciation of the tractor, 10 per cent of the purchase price, into U. S. Defense Bonds each year, the thrifty cotton farmer can pay cash for a new tractor when he needs it. So, the young lady in the made-of-cotton costume reminds the cotton farmer: "Save for your new tractor the easy Defense Bond Way."

Mr. Barker, age 69, died at his farm home five miles south of Lelia Lake Tuesday evening. He had been a resident of Donley County 7 years, moving here from Hall County.

## First Freeze Arrives On October 7th

Old man winter sprung a surprise attack on this area early Tuesday morning by turning loose the season's first freeze which is reported to be the earliest freeze on record for this locality. The mercury dropped to a low of 30 degrees and there was a nice layer of ice. Tomato plants and other tender garden and flower plants suffered most from the freeze. Dryness prevented damage to the majority of plants. The average date for frost in this area is October 30th.

Volunteers who worked at the Canteen all day at their various jobs were: Mesdames Bud Moore, Lloyd Benson, Brack LaGrone, W. J. Lewis, Jr., Harold Phelps, Bus Bell, Pat Slavin, Rit Morris of Claude, Kelly Chamberlain, Tom Blasingame, P. C. Messer, Bill Preacher, Herschel Heath, L. T. Mays, Doss Palmer, H. K. To The People of The 18th District

By Cong. Walter Rogers
THE TAX PROBLEM FOR THE NEXT FEW YEARS:

One of the greatest fights in Congress for the next few years will not be confined alone to cutting government expenditures in numerous fields. The biggest problem will be to see that the benefits of these expenditure cuts benefit the individual taxpayers. History reveals that the cutting of government expenditures in various fields does not always mean relief for the taxpayer. So many times the money saved by expenditure cuts in one field have been used in other fields or for the promotion of additional schemes, the result being no tax reduction. How many of you have ever heard of a tax law being repealed? Many times additional taxes are levied and the people are told that the taxes collected from the new source will be used as a substitute for taxes that have been collected from some other source in the past. Looking again to history, we find that such has not been the case. The so-called "substitute" tax is usually misnamed, because it ends up as an additional tax burden. Once a tax has been levied, whether it be local, state or federal, it usually stays on the books. A good example is the income tax. This originated as a tax that would be a fair and equitable tax borne equally by all according to income, and a tax that would provide measurable reductions in taxes theretofore collected from other tax sources. This same theory has been used in many states and cities to pass local and state income tax laws. The same is true of the sales tax. However,

the result has always been the same. The money collected from these additional so-called "substitute" taxes has never been sufficient to effect a reduction in other taxes. Actually the existence of the funds thereby collected has always resulted in increased governmental expenditures providing additional services by the government to the people, many of which were not solicited and are unwanted. The job that Congress will have in the next few years is to see that cuts in federal spending result in direct benefit to the individual taxpayer in the form of a reduced tax bill. It makes little difference who may be President or which party may have control of Congress, this job is going to be just as big, for the simple reason that most politicians, regardless of party, regardless of promises, seem to recognize as a cardinal rule that expenditures by the government providing all kinds of services to the citizens will sustain them in power. It is my belief that such a rule is false, especially in the Panhandle of Texas, that our people would much prefer that government services be confined to necessary services, and that the individual retain possession and control of as many of his dollars as possible. However, the fact remains that it is no less difficult today than in yesteryear to repeal or reduce a tax levy. We are gaining much strength in our efforts to bring tax relief to the individual taxpayer, and I sincerely hope that this gain will continue.

Mrs. Cordia Thompson and Athalee Dodson will leave Friday evening to attend the State Fair at Dallas.

**GABIE BETTS BURTON  
 LIBRARY NOTES**

By May L. Prewitt

The first books to be announced are for children. "One Kitten Too Many" by Bianca Bradburn and illustrated by Marie C. Nichols is a very fascinatingly told story. Even grown ups can enjoy it. This was one of the three group ordered as memorial. Then we have two others to be added to the children's list that were purchased are "Sally Tait" by Sagers and "Fireman, Toed" by Jane Barr. They are very good. The girls have "The Yellow Warning" by Betsy Allen. It is one of the Connie Blair series. We find very few books that the boys enjoy. They are rather difficult to please—all want flying stories.

"Plowman's Folly" by Faulkner treats of soil and reminds me of Bromfield's writings. "The Healing Woods" by Martha Reben is a refreshing and lyrical story of a city-bred woman whose search for health in the wilderness opened up a whole new way of life. This is a memorial book and one of the most wholesome stories one could read if he or she enjoys nature.

**18th District Post  
 Officers Conference  
 In Amarillo, Oct. 12**

Mike M. McCully, 18th District Commander of the American Legion, has announced that all plans are complete for the First Annual 18th District Post Officers Conference. The conference, first of its kind ever to be held in the 18th District, will convene at the American Legion Hall, 723 West Seventh Street, in Amarillo, on Sunday morning, October 12, at ten o'clock. A "get-acquainted" hour, with free coffee and donuts, will commence at 9:00 A. M. preceding the meeting.

Advance registration of post officers and delegates indicate that the conference will attract a near perfect representation from

the forty-six posts in the 18th District. "It may not be the largest number of Legionnaires ever to assemble in the district, but from the standpoint of the number of posts within the district that have promised to have representatives present, it will be the most widely attended Legion meeting in many years," Commander McCully said.

Jimmy Faulkner of Clarendon, member of the Department Post Activity and Membership Committee, has been invited to appear on the conference panel discussions. Mr. and Mrs. Bryan Thomas of Electra visited in the home of his brother and wife, Mr. and Mrs. R. O. Thomas Monday.

**Faith Gospel Mission**

The Mission Sunday School with Duane Hearn, Supt., is going over in a great way. Last Sunday our attendance was 45 with every teacher present.

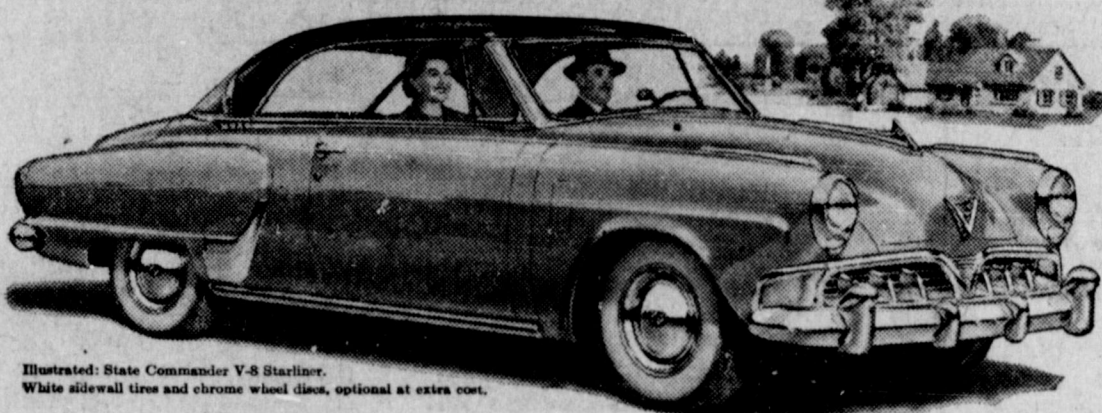

Our prayer service attendance in the pastor's home is averaging about 15 which is very good in these busy times. We invite you to these prayer services, for a Spiritual Bible study with us. In these times of fear and uncertainty when sin is unrestrained and people's hearts are failing them because of the darkness of the future, this mission is exalting the Risen Christ as a remedy for sin, and the Light to guide us out of darkness. If you are troubled about conditions around you, or your own condition, this good mission invites you to be in the services.

We are meeting in the Mulkey Theatre at 10 a. m. and 7:30 p. m. each Sunday.  
 "The Mission with a friendly welcome."

"RESOLVED... that it is the recommendation of the Convention that every Democrat in Texas vote and work for the election of Dwight D. Eisenhower for President and Richard Nixon for Vice-President..."  
 TEXAS STATE DEMOCRATIC CONVENTION  
 AMARILLO, TEXAS \*\*\* SEPTEMBER 9, 1952

**A MAN OF PRINCIPLE  
 WHO THINKS AS WE DO**

You can be a Democrat without being a Trumanite. Your party's state convention in Amarillo on September 9 passed the resolution quoted above. Texans who believe in the time-tried Jeffersonian principles of the Democratic Party are going to vote for Dwight D. Eisenhower on November 4. If you are tired of Trumanism—and want to help elect Eisenhower, send in the coupon. Be a Texan—not a Trumanite—vote Ike.

**TEXAS DEMOCRATS

 EISENHOWER**

I am a Texas Democrat for Eisenhower, and I want to work in my community to elect him. Please send me further information.

### Ruth Richerson To Attend Seventh National Conference of County And Rural Area Superintendents

Miss Ruth Richerson, Donley County School Superintendent, left yesterday, October 8, for Oklahoma City where she will fly to New York to attend the Seventh National Conference of County and Rural Area Superintendents. Miss Richerson has been asked to serve as Reports Chairman of the Discussion Group which will consider "Performing Administrative Functions" at the New York Conference.

This is the fifth such National Conference that Miss Richerson has attended and she has been on the Program at each one, serving as delegate, officer, or reporter. These meetings have brought her in close contact with the problems of schools throughout the nation, which in turn provided her with knowledge by which she is able to meet problems within her own locality.

Miss Richerson is interested in State and Local activities concerning public schools as well as in National affairs. She just recently met with the State Board of Control and the State Board of Education for the purpose of discussing transportation problems over the state with special interest in the purchasing of school buses. She was one of four county school superintendents invited by Dr. J. W. Edgar, Commissioner of Education, to attend this meeting. This is only one of the many honors Miss Richerson has merited during her term of office.

She served last year on the State Text-Book Committee, 18th

MISS RUTH RICHERSON

Congressional District. Beginning in 1946, she will serve through 1955 as a member of the Executive Committee for the Texas Association of County Superintendents, and is a member of the Advisory Committee for the Texas County Superintendents' Study. Since 1946 she has been a member of the Executive Committee of the Texas State Teachers Association in the North-West Conference, and a member of the Executive Committee for the Panhandle Association for School Administrators. She is interested in and working with such important school problems as the Improvement of Reading in Secondary Schools and the School Lunch. Dr. Edgar has recently appointed her to the Special Committee on

Lunch Room. In 1950 and 1951 she served as a member of the State Work Conference on Certification, which enabled her to be of assistance to teachers and pupils both in this local area.

Miss Richerson is deeply interested in teachers and schools of Donley County where she now serves as President of the county Teacher's Association. From 1944 through 1951 she served that organization as Secretary-Treasurer. Not satisfied with letting people come to her for help, she is constantly hunting for a means by which she may serve the public. Materials, other than textbooks, is always available in the County Superintendent's office to assist the teachers in their work. She is now a member of the Advisory Committee for the local Chamber of Commerce. Knowing that there should be a closer contact between the teacher and the public, she worked to make possible Teacher Guest Night. Teachers throughout this locality are grateful for two Art Workshops and a Reading Conference Program which were provided free of charge last year. This year the Art Workshops, workshops in reading and arithmetic will be provided.

Students leaving for college

and teachers preparing for their work seek advice concerning the course of study best suited to their needs. Not only is Miss Richerson available as a supervisor and consultant for teachers and students, but for parents of crippled or exceptional children as well. For the exceptional children it is her desire to secure a special teacher provided by the state.

Miss Richerson received her elementary and high-school education at Hedley. She received her B. S. Degree at Abilene Christian College, and her Masters Degree at West Texas State College at Canyon. She taught school here in the Panhandle for a number of years before seeking the office as County School Superintendent. She never neglects her office, but she finds time for any worth while work and for her hobbies also. She is a member of the Church of Christ and is an ardent Bible student. She is a member of the Delta Kappa Gamma and serves on the Legislative Committee for that sorority, and is an active member of the Pathfinder's Club here in Clarendon. Her hobbies are art and geology. She is quite an accomplished artist, having done some very notable work with

pastels. Miss Richerson gives much credit for the efficiency of her office to her able assistant, Mrs. Ellen Bryan.

## SHOWER HONORS BRIDE-ELECT

A miscellaneous shower honoring Miss Shirley Ann Morris, bride-elect of Gene Bulman, was given Saturday afternoon, Oct. 4, 1952, in the home of Mrs. R. O. Thomas. Receiving hours were from 3 o'clock until 6 o'clock.

Hostesses for the afternoon were Mesdames T. Allred, H. G. Bobbitt, Bill Adams, W. C. Larimer, F. A. Fitzgerald, Bud Lemons, Homer Thomas, Clyde Barker, Roy Crutchfield and Mrs. Gilbert Bryan of Claude.

Bouquets of seasonal flowers decorated the entertaining rooms. Mrs. T. Allred, Mrs. Homer Thomas, Mrs. Roy Crutchfield and Mrs. H. G. Bobbitt, alternately received the guests and presented them to the honoree, Miss Shirley Ann Morris. Mrs. C. E. Lindsey, and Mrs. Billie Jack Land.

Presiding at the bride's book the first hour was Shirley Barker; Carolyn Thomas the second hour and June Allred the third hour. Assisting with the gifts were Barbara Estlack, June Allred, and Nellie Jon Hodnett.

Refreshments were served from a beautifully decorated table covered with an ecru lace cloth over and underskirt of green. The centerpiece was a miniature umbrella of lime green net with streamers of yellow ribbon. Orchid chrysanthemums were secured in the knots and bows. The base of the umbrella was surrounded with light yellow carnations and a deeper yellow chrysanthemum. The table was lined

from front to back with two streamers of yellow satin ribbon and two large yellow satin bows filled with orchid mums at both the front and back, between the streamers. Opposite the streamers on either side of the centerpiece were yellow tapers sitting in skirts of green net and yellow ribbon entwined with orchid chrysanthemums.

Jo Ann Montgomery and Shirley Wilson presided at the table from 3 o'clock until 4 o'clock. Mary Lou Fitzgerald and Ruby Mann served refreshments the second hour relieved by Annette Thomas and Patsy Emmons the third hour.

Fifty-five guests registered at the bride's book and a number who were unable to attend sent gifts.

Thirty-two members were present.

## HEADRESSES: REAL, NATURAL, ARTISTIC

Man competes with nature in creating original headresses to beautify faces of lovely ladies round the world. Best in the business is Hollywood and one of the film capital's proudest products (1) is a "replica" of Cleopatra's headress. It is shown curving over curls of Rhonda Fleming who plays the Egyptian Queen in the movie "Serpent of the Nile." Nature, not to be outdone by man, points to plumes (2) of Paris Zoo's Tufted Goura pigeon. Artistic headress (3) patterned after those used in Hindu dances, is worn by solo-water-ballet-star Beulah Gundling, considered one of the world's best. Crusted with tradition, authentic Balinese headress (4) is worn by dainty 13-year-old dancer Ni Gusta Raka. Member of troupe which will tour America, she is the principal performer. Her headress and gown, richly decorated with traditional Balinese figures, delight costume designers.

## LES BEAUX ART CLUB

Les Beaux Art Club met at the Patching Club House, October 3, 1952 with Mrs. John Blocker, hostess.

Mrs. C. T. McMurry, District Chairman of American Home, reported on the recent meeting at Canyon and encouraged each member to be more active in Federation work.

The club voted to make scrap books to be sent to our boys in Korea. The annual Club History was read by Mrs. J. D. Swift, Club Historian. Mrs. Bill Thornberry gave a most interesting program on "The American Home." Mrs. Harry Brunley substituted for Mrs. W. W. Taylor and demonstrated "Cake Decorating."

Lovely refreshments were served from the dining room. The table was laid with a lace cloth and centered with a beautiful bouquet of Asters. Mrs. Ruth Kennedy and Mrs. C. T. McMurry presided at the silver service.

Following the close of the meeting, the bouquet of Asters was presented to Mrs. W. W. Taylor who has been convalescing and was unable to be on program.

## Significance of Texas Grasses

Texas grassland is the foundation on which to build permanent prosperity for the whole state.

Grass feeds livestock. It builds fertility and saves soil. In its own way, grass is just as important as any of the natural resources of the United States.

Texas is making rapid strides in restoring its grasslands—an important phase of farm economy. The soil improvement program, using grasses to best advantage is sweeping through the state with increasing velocity. Some counties are more advanced than others, but the movement is state-wide.

The average farmer or rancher has not always been so concerned with the preservation of cover grasses. And the nation is still paying for this short-sightedness. The disastrous sandstorms of the early '30's is an example of what happens when grasses are destroyed, good land practices are abandoned, and the farmer begins to mine, instead of farm, his soil.

One of the most striking examples of how grasses can save the land was demonstrated in an experiment performed by the Soil Conservation Experiment Station at Zanerville, O., some years ago. The experiment revealed that 34.5 inches of rainfall annually on a 12 percent slope planted to corn would wear away the top seven inches of soil in only 19 years.

Yet, this same slope planted in blue grass would not lose this rich seven-inch layer of soil for 23,300 years. This is an amazing comparison—and it is that average of seven fertile inches of soil upon which we must depend to feed and clothe our nation.

Two important conclusions can be drawn from a study of grass. First it is almost indispensable to the profitable raising of livestock. Because of this fact, it deserves the thoughtful consideration of every intelligent farmer.

Second, it is invaluable in the functions of soil conservation and fertility maintenance. Because a stable soil is essential to the nation's welfare, grass merits the high regard of every American citizen.

It is conceivable, of course, that the return to grass could go so far for the welfare of our present economic system. Certain crops are necessary for human food,

industrial demands and livestock needs. The goal of agriculture should be to find the ideal mean between the two extremes. When this point is found, the soil would be held to the land, fertility would be maintained, and yet there would be enough of the various crops produced to meet the country's needs.

In the overall scheme of things, grass was nature's way of conserving the soil and producing food. And time after time, nature's way has proven to be the best way.—Released by the Texas Department of Agriculture.

## STOP, THEN PASS HALTED SCHOOL BUS AT 10 MPH. LAW SAYS

School busses over the state have now begun the task of carrying thousands of children to and from their studies. Soon to be expected are the inevitable tragic reports of deaths and injuries occurring when impatient youngsters dash across busy highways to greet their waiting parents or board the bus. Most of such accidents could be avoided if motorists would adhere strictly to the letter of the law pertaining to the passing of school busses.

Most Texans are aware of the law which requires a driver to come to a complete stop when overtaking from the rear a school bus which has stopped to receive or discharge school children. After stopping immediately behind the bus, he is then allowed by law to proceed past same at a speed "which is prudent, not exceeding ten (10) miles per hour, and with due caution for the safety of such children."

What many persons do not realize is that the very same rule applies when MEETING a stopped school bus. While everyone is interested in protecting our children, unthinking violators of this simple safety rule greatly outnumber those who comply. Failure to follow the law in this case can lead to fines up to \$200 even when no accident occurs. Following an accident in which some child is injured or killed,

the penalties are naturally much more serious.

Although the above rule does not apply when passing a stopped school bus in a business or residential district of a town, the necessity for extreme caution even in those locations is obvious. When it comes to overtaking and passing moving vehicles, exercise of ordinary common sense will generally keep a driver within the law. For instance, when passing a car it is only common sense to proceed on past it a safe distance before cutting back to the right side of the highway. Also, any driver would realize the danger of increasing his speed while another is attempting to pass him.

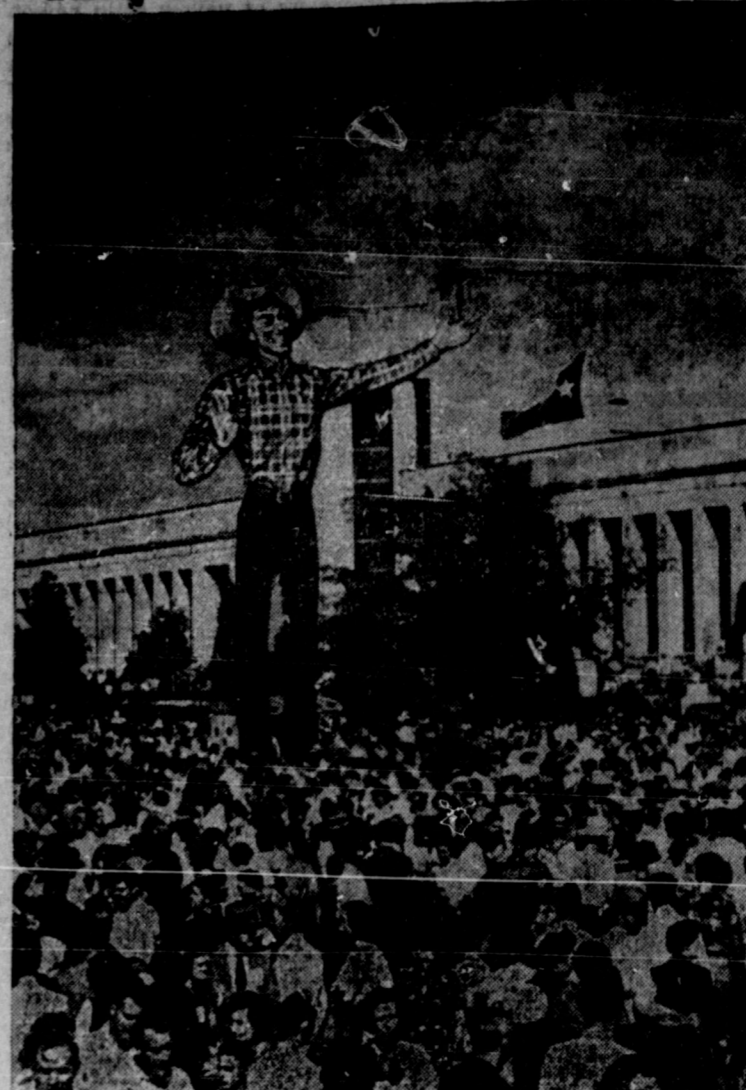

In the same category is the prohibition against passing on the right under most ordinary conditions. Of course, you may legally pass on the right in a few specific instances, such as when the vehicle overtaken is making or about to make a left turn, or upon a one-way street with two or more lanes, or upon a four-lane highway.

However, our traffic laws state that even when passing on the right is allowed, it shall be done only under conditions permitting such movement in safety. And, in no event should such passing be accomplished by driving off the pavement or main-traveled portion of the roadway.

Even when not engaged in passing another vehicle, a driver is prohibited from driving to the left of the center of the roadway in many instances. Familiar to all are the no passing zones designated by dash lines placed to one side of the center stripe on our highways.

Not so well known are the restrictions against crossing the center line when approaching within 100 feet of any bridge, viaduct or tunnel. The prohibition also applies when approaching within 100 feet of or when

## "TEX" TO GREET FAIR VISITORS

Typifying the immensity of the great State Fair of Texas at Dallas, this 30-foot cowboy figure will tower above the crowds at the 1952 exposition, Oct. 4 thru 19. This artist's impression shows how "Tex" will stand, wearing his 75-gallon hat and the world's largest pair of jeans, near the Hall of State (in background). "Tex" will shadow a huge bulletin board listing daily events at the fair, the nation's biggest and most spectacular annual exposition.

traversing any intersection or railroad grade crossing. A driver should never cross the center line of a highway when the left side of the road is not clearly visible and free of oncoming traffic.

(This column, based on Texas law, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts, because the facts may change the application of the law.)

arises from the quarterly social security tax returns filed each January, April, July, and October. These reports should show the correct name and number of each worker. Without this information the worker cannot receive credit for his wages and this may result in reduced benefits. Also it is possible that the lost credit could be the very amount necessary to qualify the worker for retirement payments or to make his survivors eligible for payments in the event of his death.

Sanderson explained that the employers and workers can prevent such losses by making certain that each name and number is reported exactly as it appears on the employee's social security card.

All employers, including those employing Farm help or Domestic workers are reminded that Social Security Tax Returns covering the months of July, August and September are due by Oct. 31.

## FARM NEWS

From the County PMA Committee

**SIGN-UP FOR 1953 ACP PROGRESSING:**  
In the past week since PMA community committeemen began making farm-by-farm visits in connection with the 1953 Agricultural Conservation Program, 24 Form 201's have been turned into the PMA Office and many more are being completed every day. When a community committeeman comes to your farm have in mind what you want to do on your farm in the way of Conservation practices for 1953.

**RYE PASTURE GIVES RANGE GRASSES A RUNNING START:**  
Keep off the grass is a sign that every livestock man would like to obey in the early spring, according to Ross Springer, chairman of the Donley County PMA Committee.

The reason is that ranchers like to give grass an opportunity to make a fair amount of growth before grazing starts. Then the grass will make enough growth and will be able to keep up with moderate grazing. But it is difficult for many ranchers to protect spring range. Often the feed is needed and it is difficult to keep livestock off the early green grass. To give their range the desired good start many ranchers are planting a supplemental rye pasture in the fall. Livestock is turned on for from two to four weeks in the spring, giving the range grasses the necessary start for continued growth through the season.

**Agricultural Shorts**  
Holding the topsoil on the farm is an essential first step in keeping our farms in condition to meet present and future needs for food and fiber. For each 3.5 acres that have already been terraced, there are 16.5 acres that should be terraced.

## REMEMBER! NATIONAL FIRE PREVENTION WEEK, OCTOBER 5-11, 1952.

### Lefors Pirates Down Bronchos, 38-20

The Bronchos first conference tilt last Friday night with the Lefors Pirates began well but the ending was terrible with the Bronchos winding up on the tail end of the score. The final count was 38 to 20 in favor of the visitors.

The second half of the game was quite a let down for Clarendon fans after the Bronchos were leading the Pirates 14 points at one time during the first quarter and stretching their total to 20 to 6 early in the second quarter. Lefors brought their side of the scoring up to 12 points before the half ended and came back in the second half and really poured it on the Bronchos in grand style adding four more TD's.

Clarendon fans are still wondering what happened to the Bronchos and their playing spirit after showing actually what they were capable of doing in the first half. The Broncho backfield was crippled up to start with and was weakened more when Myers had to leave the game. Part of the Broncho line was functioning while others were doing very little. Two outstanding linemen were Donald Smith and Clifton McNabb.

Scoring for Clarendon in the first period was Hall who went over for the first TD from the 2 yard line with Myers kicking the extra and repeating again when he went thru the line for 41 yards. Myers had his kicking toe in good shape and put the second extra point kick thru the uprights. Myers went over from the two yard line early in the second quarter for the final Broncho tally.

Mrs. Gayle Ledbetter and son, Gary, left Thursday for their home in Henderson, Kentucky where her husband, Lt. Ledbetter is stationed. Mrs. Ledbetter and son have been visiting in the home of her parents, Mr. and Mrs. O. C. Watson, since their return from Germany.

### Local Scout Units Invited To Attend Hedley Jamboree

Both Clarendon Scout units have been invited to attend the First Annual West Texas Scout Jamboree at Hedley on October 31st and November 1st. Some 500 uniformed Scouts and Explorers are expected to attend the event held in conjunction with the Donley County Cotton Festival.

Competition events in Cookery, Traffic Control, First Aid, and Tracking will be held. Scout songs, colors and entertainment will be featured. Two city blocks of camping space have been set up within Hedley for Jamboree grounds.

Mr. Bill Riney of Clarendon will judge all First Aid competitors.

The Combined Scout Jamboree and Cotton Festival is expected to attract several thousand visitors to Hedley, and Donley County.

### BROTHER OF LOCAL BANKER DIES AT GROOM

Word was received here Wednesday of the death Wednesday morning of John Walter Knorpp at his home in Groom. Mr. Knorpp, a long time resident of Groom, is a brother of Wesley Knorpp of Clarendon. Funeral arrangements for Mr. Knorpp were pending.

Guests in the home of Mrs. E. W. Tyler and Miss Alice Tyler Sunday were Mr. and Mrs. Jimmy Clark and son of Pampa, Mr. and Mrs. Virgil Moore and family, and Mr. and Mrs. Vick Viteralle and son of Amarillo, Mr. and Mrs. Gordon Lee and son of Claude, Mr. and Mrs. Grady Tyler and son, Mr. and Mrs. E. W. Tyler, Jr. and son, and Mr. and Mrs. Guy Jones and family, all of Clarendon.

Mr. and Mrs. Garth Carter of Dumas spent the week end with his brother and family, Mr. and Mrs. Leon Carter of Sherman, Texas. They also visited with an uncle at Gainsville. Enroute they stopped to visit his parents, Mr. and Mrs. A. C. Carter here in Clarendon.

### Anybody care to run for this office?

**Candidate Wanted:** Must be efficient, honest, experienced. Pay and term of office uncertain, since public will vote every day to see if candidate stays in office.

We bet you don't want that job of being forced to get elected every day. Yet it's a reasonably accurate description of what a manufacturer must do to hold his job.

Every day at the sales counter, millions of women and men vote General Electric in or out of a job.

When you stop to think of it, we don't hold office for four years—or even two. We have a daily fight on our hands.

Hands at the sales counter pick up G-E products—hold them, turn them over, inspect them, try them against competitive articles for value and price—then decide for or against.

The only way we can win the election is by constantly improving our product. Thousands of engineers are paid to think up ways to improve, redesign, simplify. We use every known device of mass production to deliver more for the money. And our employees are as keen on winning our daily "public election" as is the salesman at the counter.

Manufacturers sell products on the basis of "be good every day—or get out of office." The result is the American public has the world's highest standard of living.

You can put your confidence in—

### DONLEY COUNTY SOIL CONSERVATION DISTRICT NEWS

This week, October 5-11 has been proclaimed by President Truman as Fire Prevention Week. Every 15 minutes a farm building burns somewhere in the United States. Is yours next?

Do you know that—

1. Farm fires cause a loss of over \$122,000,000 each year?
2. Cause the death of over 3,500 farm people each year?
3. Cause a large loss of farm animals and poultry, valuable foods, clothing, building materials and equipment?
4. More than 29% of the deaths from all fires are in the rural areas?
5. Of all farm fires 90% can be traced to one or more of the following hazards:

- a. Failure to protect buildings with lightning rods.
  - b. Defective, sooty, and poorly constructed chimneys.
  - c. Sparks from chimneys and from bonfires falling on flammable roofs.
  - d. Defective stoves and furnaces.
  - e. Careless smoking habits.
  - f. Improper storage and use of gasoline and kerosene.
  - g. Spontaneous ignition of hay.
  - h. Unsafe wiring overloaded electrical circuits, failure to replace worn cords, and defective electrical appliances.
- Experience has shown that many farm fires result in total loss; that only about 50% of the loss is covered by insurance, the other 50% is a direct loss to farmers. Can you afford it?
- A farm fire could cost you your life's savings in high-valued buildings and equipment. Again, can you afford it?
- Remember that fire strikes when you are careless.
- Remember to take all precautions against fire, but if it does strike be sure to have fire-fighting equipment ready for use—hand extinguishers, water containers, ladders, hose, shovels, rakes, etc.

From where I sit... by Joe Marsh

### Our Town Wouldn't Take a "Back Seat"

Well, the "battle of the buses" has been settled! Our town is again friendly with Balesville.

Everything started when buses began going through our town with a big sign on them saying SHOP IN BALESVILLE. The bus line is owned in Balesville and operates over here on a franchise.

Windy Taylor was all for putting up barricades—he kept calling up the police and the bus company. Finally Judge Cunningham invited the Balesville Chamber of Commerce to meet with ours at Andy's Garden Tavern.

Over a good meal and glass of beer we all reached a compromise without any trouble. Those signs now read SHOP HERE IN TOWN. Everyone's happy.

From where I sit, it shows how problems disappear once both sides get together and try to work things out. Naturally we're all a little different. Some like soda pop, for instance, and some like beer. So what? We all have to ride along through life together. Why not make it a pleasant trip?

## DISTANCE makes the Heart grow Fonder

POWER STEERING † on the Roadmaster and Super

You'll discover this about a Buick: The more you drive it, the more you like it; the longer your trip, the louder your praise.

That's what people tell us. And we'll tell you why.

You can drive a Buick three, four, five hundred miles in a single day, and feel fresh enough to keep right on going.

You can romp up high hills, cruise straightaways, ease through traffic-tangled towns, clock off hour after hour of relaxed and pleasurable driving—and be no more tired than a neighborhood jaunt would make you.

How come this comfort-rich ground-covering ability in a Buick?

There's the ease of deep, soft seats for one thing—and plenty of move-about room for arms, legs, shoulders.

There's Dynaflo Drive\* taking all the chore out of driving, and giving your whole ride a satiny smoothness without trace of jerkiness or driving tension.

There's a hoodful of thrilling, tireless power from a high-compression, valve-in-head Fireball 8 Engine that whips out miles like a tarpon reels off line.

There's the soft, steady, solid, swerve-free going of a coil-spring-cushioned ride that's well worth the million-plus dollars it cost to engineer.

There's all this and more—much more—that

makes your heart grow fonder of this trim and thrifty traveler.

But words can't do justice to a Buick in motion. Only you can.

When will you come sample this experience yourself?

One of the best examples of "Those who throw stones should never live in glass houses" was brought out in the recent exchange of slander between major candidates of both political parties. ## Dear Home Freezer Owner:

You have bought a home freezer and we are sure you are going to have better things to eat at your House. Freezing is the finest way in the world to preserve food. No other method can preserve the freshness and flavor of your fruits and vegetables. It is the only way you can have fresh meat all the year except to go to the market and buy it.

Let us kill and dress your animals or furnish your beef and pork.

We will do your cutting and wrapping as it should be done.

Let us freeze your meats. We can do a much better job in our big plant. Lots of Frozen food is being ruined by trying to freeze too much at one time in your home freezer. We freeze it - - You store it at home.

We offer a Complete Processing and Storage Service

make little difference. I think we need to ask ourselves at least these three basic questions before we vote on Nov. 4th. First: How about the wars; are they necessary, and have they been handled wisely? Second: How about our freedom? Is it being preserved and kept? Third: We should ask, How about our economic situation; do we have a real and a sound prosperity and will it stand over a number of years? On the answer to these questions we might decide on our vote. From the spiritual standpoint I can see no great hope from either candidate. Any spiritual revival will have to begin in the hearts of We The People.

It's the little things in life that count; we can sit on a mountain, but we can't sit on a tack.

"Make no friendship with an angry man; and with a furious man thou shalt not go." Proverbs 22:24.

The other night I heard the man of gloomy ways referred to as being like the fellow who swallowed a whole raw egg and just sit there afraid to move for fear he would break the egg, and afraid to sit still for fear the egg would hatch.

I think that I would like to be one of the first to say a word of praise for the cattleman, and you can quote me as saying that about all that he has left is praise. For a year cattle prices have worked down, but the cow man adjusted his business and went forward; then just a few months ago things began to get worse in a hurry. First a terrible drought; almost the worst in history; then the market was opened to cattle from Old Mexico. One thing added to another and the thing was soon out of hand. Many a cowman is taking a terrific pounding; his losses are disastrous, but the courage with which he is fighting back merits our highest praise. More on this later.

Few traffic jams are caused by people rushing to buy things they see advertised on billboards.

## WTS College's Big Annual Homecoming Celebration Oct. 11

CANYON—Preparations for the West Texas State College's big annual Homecoming celebration October 11 are underway here, with duties from slicing onions to scrubbing pots and pans being assigned faculty members by a steering committee.

Wood for the Barbecue fires has already been cut and stacked on the ranch of Terrill Christian, an ex-student who lives near Claude, Texas. A crew of students and faculty, led by Athletic Director A. W. "Gus" Miller, selected the "finest mesquite wood" available, for mesquite is supposed to be the best fuel for barbecuing beeves.

The class of 1927 will be observing its 25th reunion at Homecoming this year, and the majority of the 84 men and women who

were graduated that year are expected back, according to Milton "Buff" Morris, executive secretary of the Ex-Students Association.

Registration of all partakers of the largest of the Barbecue, slated at noon Saturday, will be asked this year, to facilitate the process of feeding visitors. Last year, between 5,000 and 6,000 persons were accommodated in the bread lines, and this year a registration tag will be necessary to obtain food.

Registration may be made in advance by ex-students, according to Morris, through the Ex-Students office on the campus. Mail reservations are already being accepted, and registration

cards will be ready when exes return.

Programs for the week end, as outlined by the steering committee will in general follow that of the past few years, highlighted by the Homecoming Parade, the free barbecue, and the football game between the Buffaloes and New Mexico A&M. Western attire will be in order on the campus beginning October 9, and a sheriff's posse will be seeding those not appropriately dressed as victims for their horse tank.

The annual Western dance will be held Thursday night, sponsored by Gamma Phi sorority. The Buffalo football squad plans to crown a "Football Queen" Thursday morning. Traditional

pep rally bonfire fun is planned Friday night, October 10, led by the college cheer-leaders and with the Buffalo Band playing, and a dance, sponsored by the T-Club will follow the pep rally.

The big Homecoming parade at 10:30 a. m. Saturday will be sponsored this year by the Canyon Chamber of Commerce. High schools of the region will send their bands to participate along with the West Texas State Buffalo Band, roping and riding clubs of the area, and Canyon merchants. A number of floats from the area, from the city, and from many organizations on the campus, will be entered in the parade. Immediately following the parade, visitors, students, and ex-

students will return to the campus for the barbecue. The football game is set at 2:30 p. m. in Buffalo Stadium, and a dance Saturday night will close Homecoming activities.
