## Tigerettes on the road to State again

The Sacred Heart Tigerettes outdueled a strong Notre Dame ballclub 46-32 on Saturday to ad-vance to the Final Four at Baylor University this Friday and Satur-day. This will mark the third con-secutive season the Tigerettes have advanced to the TAPS Final Four. In 1987, the Tigerettes were

advanced to the TAPS Final Four. In 1987, the Tigerettes were knocked out in the semi-finals and last season the Tigerettes brought home the crown to Muenster.

Outstanding defense and rebounding propelled the Tigerettes over the Lady Knights. It was a complete team effort as the Tigerettes found themselves in fearly foul trouble. Before getting in foul trouble, Lisa Hamric led a Tigerettes' surge to a 12-0 run in the opening minutes. Hamric connected on 10 first-period points and senior forward Vickie Schmitt

hit for 4 to help the Tigerettes to a 14-6 first period lead. Midway through the period, foul trouble plagued the Tigerettes but as has happened all season, the bench carried the Tigerettes through the half. Ten players saw action for the Tigerettes in the half and helped the Tigerettes to a 24-17 halftime lead. The Lady Knights could only connect on 6-21 free shots while the Tigerettes missed their lone chance in the half.

shots while the Tigerettes missed their lone chance in the half. Vickie Schmitt and Lisa Hamric both hit for 10 first-half points. In the third period, the Tigerettes, led by Noelle Hesse's floor play, stretched their lead to 13. Vickie Schmitt and bench gun Amy Walterscheid provided the Tigerettes with 6 each for the Tigerettes third period scoring. The Tigerettes stretched their lead

to 15 only to have the Lady Knights cut the margin to 7. Big plays by LaBecah Hess, Debbie Schmitt, Jennifer Fuhrmann and Michelle Walter enabled the Tigerettes to regain the tempo and

to secure the trip to Waco.

Vickie Schmitt led all scorers with 18, Lisa Hamric 12, Amy Walterscheid 8 and Michelle Walter and LaBecah Hess 4

apiece.

On Friday, the Tigerettes faced a new foe in th Christian Tempo Lady Cougars and rolled to a 73-17 win. Great defense again led the way for the Tigerettes as they led 41-8 at the half. Vickie Schmitt hit for 14 in the half and Debbie Schmitt scored 10. LaBecah Hess, Neelle Hesse, Jennifer, Euhrmann.

defense continued to dominate as the Tigerettes held their opponents to 9 while they scored 32. Amy Bayer had an outstanding second half as she hit for 4 points and dished out 5 assists. A love of sports is the essence of Kirk Mollenkopf.
From Little League baseball during his childhood through four years of basketball and football at Sacred Heart High School, Mollenkopf is now a senior at the University of North Texas who faces graduation in May.
It is his love of sports that compelled him to earn a bachelor's degree in physical education with a specialty in athletic training. And it was the same interest that led him three years ago to become one of 15 student athletic trainers at UNT.
"Kirk walked in this department on his own three years ago and said he'd like to become a trainer," said George Young, head athletic trainer at the university. "But he had no experience and had only been working on it

That philosophy hasn't allowed him to slow his pace. He played softball for Bud Light of Muenster for several seasons, and he's been active in UNT intramural sports. An avid golfer, hunter and fisherman, he also jogs 20 to 25 miles per week.

Although Mollenkopf describes himself as being merely semi-competitive, he admitted that on the playing field his temper is sometimes a problem.

Monte Endres, a teammate on Bud Light, also spoke of the reputation Mollenkopf's temper had earned.

Mollenkopf, who graduated from SH in 1981, played linebacker and running back on the football team for four years. The team advanced to the Texas Catholic Interscholastic League state semifinals during the 1979 season. In basketball, under the coaching of Jon LeBrasseur, he was a four-year point guard who helped the Tiger squad earn a berth in the 1981 TCIL state tournament.

#### Muenster ISD plans for school board election

A May 6 election will be held to fill two positions coming open on the Muenster school board.

School trustees, during their regular February meeting, called the election. Edgar Dyer will be election judge, with Robert McDaniel and Eddie Fleitman ser-

In other business, the school board has renewed for another year the two-year contracts of principals Gwen Trubenbach and Eddie Griffin, through the 1990-1991 school year. They also accepted the resignation of voca-tional teacher, Brad Bass, effec-tive the end of the school year. Bass plans to remain in the

Muenster community, but plans to enter the dairy farming business. "We just really hate to lose him because he's done such a fine job, but we wish him well and are glad that he's staying in our community," Coffey said.

School trustees have also passed a resolution endorsing the establishment of the Roy Jones Farm as a living history museum. The farm, located in the Ray Roberts Lake area in southeastern Cooke County, has received tremendous support from various groups and entities in the area concerning its establishment as an educational history farm. A decision could come as early as Marchas to whether the state will persue the project, officials said. Should the history project become a reality, it could benefit area school districts by providing a place for historic farm-related field trips, officials said. "The board feels it would be good to have in the area," Coffey said.

Plans call for the construction of a new library, renovation of the present library into general purpose classrooms and offices, and construction of a vocational training and continuing education center.

center.

"Our purpose is to try to present as factually as we can the information about the issue," said CCC President Bud Joyner.
"Then regardless of the way people vote, we can be sure that they've been informed."

A "Friends of Cooke County College," organization will be formed with private donations, so that no college funds will be spent on the information effort. Alumni and special groups associated with the college will be contacted, and various media, and possibly a phone-a-thon will be used in

answering questions and presenting information. In April, just before the election, town hall meetings will be held in Muenster and every town in the county to answer any questions the public may have.

Spring enrollment forces

may have.

Spring enrollment figures released this week indicate a 23.9 percent jump in enrollment over the sping semester last year. Total enrollment is 3,188 students, compared to 2,574 students the same time last year. In the past three years, there has been a 51 percent increase in on-campus enrollment, and a 97 percent enrollment increase on all CCC campuses, including those in Bowie and Lewisville. The dramatic enrollment increases and providing for more students in the future are the main reasons for the bond election, officials said.

In an unrelated matter, the board this week hired Southwest Securities, as the bond advisor. They hired Lee Switzer as an assistant librarian, effective immediately, and John Turnbull as the college's equine technology instructor beginning next fall.

fectively, they share feelings, ideas, facts, attitudes and beliefs. This exchange of messages often helps each family member know what to expect from others as well what to expect from others as well as what is expected of him/her. Effective communication also enables us to test our thoughts, reduce tension and resolve conflicts, solve problems, gain knowledge, and develop a better understanding of other family members.

Effective communication is not easy and does require some effort. It can be made easier by develop-ing specific skills, however. The workshop on Tuesday will help single parents in developing that successful communication tool.

School for another six to eight weeks.

"I'm a little nervous about student teaching, but I'm ready to get it over with," he said.

Student teaching has become part of his busy schedule, one that includes about 40 hours each week as a trainer for his university's football and track teams. For his work, Mollenkopf has been on partial scholarship, receiving money for tuition, fees and books.

The UNT training room, housed in a building adjacent to Fouts Field, is the area where he spends most of his time on the job. Amid rows of examination tables, posters charting muscle and bone structures and shelves of sprays and ointments, Mollenkopf helps heal the injured. Green-clad athletes come to him to tape their ankles, wrap their knees, apply ice ankles, wrap their knees, apply ice or whatever he deems necessary for treatment. Mollenkopf attended almost all

Mollenkopf attended almost all of the Eagle football games last season and plans to travel with the track team to meets this semester. He's present as the athletes practice every day, and he said he's learned to know them well.

"I'm awed by some of the players," he said. "It's fun to be in college and see athletes you know from North Texas and other schools, and then the next year

Why Make a Non-Deductible IRA Contribution of

Like millions of taxpayers who aren't eligible to make a tax-deductible IRA contribution, you have a decision to make by April 15. Should you make a non-tax-deductible contribution to your IRA?

NO!
Instead, consider a New York Life Insurance and Annuity Corporation Single Premium or Flexible Premium Retirement Annuity. Current federal income tax laws do not limit the non-deductible premium you can pay for a retirement annuity. This means that you can contribute much more than \$2,000 a year to one of our retirement annuities. Your annuity will earn interest on a tax-deferred basis year in and year out until you make withdrawals or receive annuity payments. And New York Life insurance and Annuity Corporation's Single or Flexible Premium Retirement Annuities offer competitive current interest rates guaranteed for one full year, and various pay-out options at retirement, including a guaranteed lifetime income or lump sum.

TEXAS TIDBITS Maryland Club

On November 24. something happened in far-off Dallas, Illinois, that changed Texas and the West forever. J. B. Glidden received nt for a process that would twist rands of wire with small spikes in it. He called it barbed wire.

Henry Sanburn brought it to Texas and sold the first ten reels of it in Gainsville. John Gates put on a demonstration in San Antonio that gained a great deal of attention. He gained a great deal of attention. He built a pen out of barbed wire on San Antonio's military plaza and filled it with the meanest cattle he could find.
Gates then bet the locals a hundred dollars that the barbed-wire fence would hold the cattle. The wire held, even though a fence post broke. Gates advertised the wire as "light as air, strong as whiskey and cheap as dirt."
Before long, barbed wire was
everywhere and the vast open ranges of Texas disappeared.

A daily dose of exercise is important for the physical and emotional well-being of all children. Yet, many of the 3.2 million American kids under 18 years old sit it out because they suffer from asthma, one of the most common chronic lung diseases in school age children. Recent research has shown, however, that most asthmatic youngsters can fully partici-pate in athletics if they take their medicine beforehand, says the American Lung Association

## Freeze damage in wheat being studied

There has been quite a bit of interest among producers in what the recent freeze and cold weather did to our wheat crop. As we can see by driving through the county, a lot of the grain has been damag-ed to some extent. At present, we can only hope that there is just leaf burning and leaf chlorosis. Some work done at the Kansas

Experiment Station on temperatures that cause freeze injury showed that wheat in the tillering stage could stand temperatures of 12 degrees F. for approximately two hours before any symptoms were exhibited on the plant or before there would be any yield effect. The primary symptoms of injury in the tillering stage included leaf chlorosis, burning of leaf tips, silage odor, and a blue cast to the fields.

Producers can examine plants in

blue cast to the fields.

Producers can examine plants in fields for freeze injury. The cold temperatues following freezes may tend to slow development of injury symptoms. This will cause some problems not to show up for several weeks. In Cooke County, we were somewhat fortunate in that we had ice and snow protection on some fields. With this condition, injury to plants will vary from field to field throughout the

county.

Most wheat over the county had not begun jointing and therefore most of the damage that occurred would have occurred to leaves. This will be shown in plants by a light green to yellow in color with some browned tips that appear several days after freezing conditions. The strong odor that comes from the fields is just due to the dehydrating vegetation that is present for several days to a week.

If your fields were severely injured during the last freeze, there is a possibility of reduced tillers. However, growth of new leaves and tillers usually begins when we experience warmer temperatures.

experience warmer temperatures. If there is one thing to be thankful for, it would be that our wheat was still in the tillering stage when

this severe weather period struck. We are still waiting to see what the severe cold weather has done to
