# BROWN COUNTY FARM PRODUCTS SHIPPED LAST YEAR VALUED AT OVER \$1,000,000

Brown county farmers and raisers sold more than a million dollars worth of products to other parts of the county during the past year, bringing that county into the county. This estimate is made on information furnished by the Bulletin and includes the thousands of bushels of produce sold on the farm to supply home needs. These products have supplied the home needs of the county, and the surplus has been shipped to other parts of the county. The products include the thousands of bushels of produce sold on the farm to supply home needs. These products have supplied the home needs of the county, and the surplus has been shipped to other parts of the county.

**Oats**—It is estimated that 475 carloads of oats have been shipped and sold during the past grain season, valued at \$1,111,000.  
**Wheat**—About 225 carloads of wheat have been sold at a total estimated price of \$79,000.  
**Wool and mohair**—Around 200,000 pounds of wool and mohair have been sold during the past year, bringing about \$24,000 to the raisers of sheep and goats.  
**Pecans**—It is estimated that 130,000 pounds of pecans were shipped and trucked out of the county during the pecan season, bringing on an average of 4 cents per pound or a total of about \$5,000.  
**Furs and hides**—This season many furs have been sold in Brownwood, having been trapped in the county and in adjacent counties. Value of the furs and hides sold is placed at \$25,000.  
**Barley**—Thirty-five carloads of barley, according to estimates, were sold in the grain season, totaling about \$9,000.  
**Figures given above are only estimates** in most cases but give a good general idea of the major agricultural resources in Brown county in the past year when prices for farm products have been unusually low. In spite of low prices the total value of these products—more than one million dollars—makes an impressive figure.

## Decrease in Fatal Accidents in U. S. Is Revealed in Preliminary Survey

About 88,000 people were killed in accidents during 1932, compared with a total of 97,416 in 1931, according to a preliminary survey published in Public Safety, magazine of the National Safety Council, Inc. Causes of these 88,000 deaths are divided into 29,500 by motor vehicles, 18,000 other public accidents, 28,000 home accidents and 13,000 industrial accidents.

The 88,000 deaths bring about a death rate of 70.5 per 100,000 population compared with 78.5 in 1931. The 1932 rate is the lowest since 1921 and 1922. Accidental deaths in 1932 totaled 95,186; 1929, 98,258; 1930, 99,300.  
The Safety Council also estimates that there were 8,500,000 non-fatal accidental injuries in 1932, and that the wage loss, medical expense, and overhead insurance costs involved in all accidental deaths and injuries exceeded two billion dollars.  
Deaths in motor vehicle accidents declined during 1932 for the first time in history, the report continues. The estimated total is only 29,500 as compared with 33,740 in 1931. This means a decline of 13 per cent and a saving of 4,000 lives, and brings the total to the lowest point since 1928 when there were 27,996 deaths. The percentage of decline in fatal accidents is about twice as great as the 6 per cent drop in motor vehicle registration or 6.34 per cent decline in gasoline consumption.  
In an accompanying table of the report showing fatal motor accidents by states, Texas is shown to have had 432 deaths in six months of 1932 as compared with 494 in six months of 1931. The rate for Texas is 14.5 per 100,000 population.  
In addition to the fatalities, 1932 motor vehicle accidents were responsible for at least 1,000,000 non-fatal injuries, based on the common ratio of 25 non-fatal injuries for each death. The economic loss from these deaths and accidents is estimated at \$600,000,000.

# Furnish Your Home and Your Home Will Furnish You Happiness

Why Wait Longer When the Prices are so Low for Quality Furniture?

Two and Three Piece Velour Suits for as low as \$39.50

## "MA" DOESN'T BOTHER WITH LEGISLATORS

AUSTIN, Tex., Feb. 7.—(P)—Governor Miriam A. Ferguson seemingly intends to let the legislature paddle its own boat. She is experienced in dealing with legislators. So is her husband, former Governor James E. Ferguson.

Achievements of the legislature that served during Mrs. Ferguson's administration seven years ago were passage of the appropriation bills and balancing the books within a single sixty-day term. That was unusual because other legislators had spent much time trying to hang up a record like it. Now the regular term has been extended to 120 days.

Former Governor Dan Moody was inclined to deal directly with the legislators. He sought often to convey his ideas of what legislation should be enacted and appeared on the floor of the houses to espouse some of his bills before a vote was to be taken. He found that method of approach was not always successful.

Mrs. Ferguson has been governor three weeks and she has not supplemented her original message setting out what she thought the legislature should do to make the government more efficient.

She stays in the executive office conferring with legislators when they seek her advice, but she never goes upstairs to pluck them out and try to convince them about anything.  
Most of the time it seems the executive offices do not know that the lawmakers are hard at it. Things there rock along in an even kind of way. Sentiment appears to be toward letting the legislative branch do its work and the executive department carry out its appointed duties.  
There was contention over some of Mrs. Ferguson's appointees and for a time there were expressions of doubt that the Senate would approve her selections. Yet, without any surface evidence of persuasion, the governor's choices were confirmed.

## Safety Hatch Incubators, are a lot cheaper, see our stock. Looney's Hardware.

## OWNER CONVICTED THIS COUNTY IDENTIFIED IN BANK ROBBERY

Donald L. Cates, sentenced to 15 months in the penitentiary by a jury in the county court here December 11, 1932, for the robbery of the Brownwood State Bank, October 24, 1929, who was given a pardon or parole by Governor Ross Sterling and the State Board of Pardons and Paroles in August, 1931, was identified by the robbers of the Covington State Bank in Hill county January 25, 1933.  
The story today carries the following under a Hillsboro date: "M. T. Davis, Covington, and three other Covington men, were shown positively by David Cates and J. B. White, who held in Hill county jail, that their arrest in Dallas county, Texas, participating in the robbery of the Covington bank on January 25th.  
Cates is alleged to have entered the bank and demanded the money while Stevens waited in the car. The men have been charged with robbery, while Mrs. Maggie Cates, Nettie Fudge and Mrs. B. T. Dakes, arrested in a Dallas robbery with them, are held as accessories."

## HELLO EVERYBODY

LYRIC THEATRE  
MID-NIGHT PREVIEW  
SATURDAY  
Kate Smith, radio's first lady, who, up to now, has been seen by selected audiences in only nine cities in the country, comes to the screen in "Hello, Everybody!" Paramount picture, which plays at the Lyric Theatre on special mid-night preview, Saturday, February 11th, promptly at 11:15. Miss Smith makes her debut as a movie star in "Hello, Everybody!" a story written especially for her by Fannie Hurst. Included with her are many other great radio stars such as Walter Winchell, Babe Dirlikov, a Texas girl, and many that you will be interested in seeing, as well as hearing. Randolph Scott and Sally Blane play the romantic leads. The new songs which Miss Smith introduces in the course of the film are "Moon Song," "Pickaninny's Heaven," "Out in the Great Open Space" and "Twenty Million People." In the story, Miss Smith takes the role of a farm girl who struggles desperately to defeat the plans of a water-power company trying to gain possession of land that belongs to her. Admiring her spirit, other farmers join her, but no funds being available to fight with, the situation grows serious, until it is discovered that the girl has a remarkable voice, and then signs a contract with a Radio company to let her voice raise the money which saves the valley farms.  
"Kate Smith's 'Hello, Everybody'" will also be seen at the Lyric next Monday and Tuesday, February 13th and 14th.

## Home Accidents

About 28,000 persons were killed in home accidents in 1932, a reduction of 3 per cent from the 1931 total of 29,000. There were about four million non-fatal injuries in the home, the deaths and non-fatal injuries resulting in a loss of a half billion dollars. Falls and burns were responsible for 60 per cent of all home accidents, while asphyxiation, suffocation and poisons account for another 15 per cent.

## Industrial Accidents

The 15,000 industrial deaths in 1932 is a reduction of 14 per cent from the 1931 total of 17,500. Texas' report for seven months in 1932 shows 171 deaths as compared with 246 in seven months in 1931. Some of the decrease is accounted for by the decreases in employment. Non-fatal accidents number about 1,500,000 and together with deaths cost about \$600,000,000 each year in wage loss, medical expense and insurance overhead.  
Deaths in public accidents where motor vehicles are not involved show a decrease of 10 per cent over 1931. In 1932 deaths being approximately 18,000, compared with 20,000 in 1931. Drownings make up about 30 per cent of all fatalities in this group, railroad accidents 16 per cent and firearms accidents 11 per cent. In addition to deaths, more than 2,000,000 persons received non-fatal injuries in public accidents during the year, with the resulting economic loss estimated at a half billion dollars.  
During the first half of 1932 aviation accident figures were 167 fatal, 104 severe, 161 minor. In addition 1,247 persons in accidents sustained no injury.  
Some of the odd accidents of the year are listed in the magazine:  
"A Chicago acrobat broke his neck when he tripped and fell on the smooth, sandy surface of a bathing beach.  
"An aviator in Iowa was strangled

## FERGUSON HAS MOST OF HIS TALKING

AUSTIN, Tex., Feb. 8.—(P)—Miriam A. Ferguson, husband of the administration's talk-show newspaper correspondent.  
Refers to "the administration," "this administration," in that the governor will do this or not do anything.  
"Always is at perfect ease when making an answer to evade questions. His answers usually are not understandable.  
He believes that five dollars annually is enough for the county or district official to hold his job.  
Called the other day that the governor in 1916 there was proposing an increase of paid district judges from \$3,600 annually.  
He did not paid such attention to the many petitions that he signed, was "king" leaving it to a while, in fact, was "in a sign it," he said. "Then, all the district judges and in the state descended upon Capitol. They told me that all were not signed and the judiciary authorized the judiciary to be ruined, that virtually all would resign from the office. Well, I made up my mind should be vetoed. Not a disservice resigned."  
He says he also believes that should be done to promoters of money from disforelosures on homes, and ranches during the financial conditions.  
The law passed for years has not the lender more than the state, Ferguson said. "I am in trying some arrangement that will give the borrower nothing with the lender."

## THISTLES HALT TRAFFIC WEST TEXAS HIWAYS

AMARILLO, Texas, Feb. 8.—(P)—A new menace to traffic—Russian thistles that drift into the highways and pile up to a depth of several feet—has appeared at intervals on Panhandle-Plains roads this winter.  
The thistles, commonly known as tumble-weeds, grow extensively in wheat fields and along fence rows, then drift before the Panhandle wind during the fall and winter months, coming to rest against any sort of obstruction.  
Continued rainfall throughout the small grain area delayed the harvest last summer until in many fields the thistles grew higher than the wheat, preventing the harvest of the grain. In some instances the thistles were so thick they made immediate preparation of the land for re-seeding impossible.  
The strong winds of January drifted the weeds into huge piles in cuts and low places along the highways, and especially on country roads. Workers have been able to keep state highways pretty well clear of the thistles, but roads not carefully maintained actually have been blocked by the weed drifts, which in some instances were 10 feet high.  
J. W. McPolk of Amarillo drove into such a drift between Silverton and Floydada, and spent 35 minutes backing his car out of the entanglement. He said it was necessary to make a detour of several miles to avoid the weeds.  
"Sometimes the thistles were piled up around me as high as the car," McPolk said. "I had the worst scare of my life. If those weeds had caught on fire from the exhaust, I would have been roasted alive."  
"Because of the unusual amount of heat which the thistles give off when burning, scientists have experimented with the possibility of compressing the weeds into fuel. Many miles of wire fences are torn down each winter and spring by the tumbling weeds which pile up in huge drifts against the fences. The drifts act as an agent for the wind and in many instances the posts are pulled out of the ground and the fences flattened.

## RECORDS SHOW

That farmers who adopt the program of—  
**DIVERSIFICATION**  
make the most money year after year and are always in a better financial condition.

## Plans for Meeting East Texas Chamber Commerce Planned

JACKSONVILLE, Texas, Feb. 9.—(P)—Plans for entertaining business and professional leaders of the East Texas Chamber of Commerce to be held here April 23, 24 and 25 are taking shape under the leadership of T. E. Acker, general convention chairman.  
W. Y. Forrest and Clarence DeBusk, president and secretary respectively of the Jacksonville Chamber of Commerce, are mobilizing the local chamber's membership to assist Chairman Acker in handling the largest gathering in the city's history.  
Governmental reorganization and the entire field of credit and finance for 1933 will be the subjects of the two main discussions of the convention.

## Holy Land Trees

Dr. Henry Van Dyke, in his book called "Out of Doors in the Holy Land," speaks of the olive, orange, cypress and eucalyptus trees. Doctor Van Dyke, in his chapter called "Going Up to Jerusalem," says: "There were few trees except now and then an olive orchard, or a round-topped cypress, with its withered pods."

## Venerable Ostrich Eggs

What are believed to be the oldest ostrich eggs in the world were unearthed during excavations at Masadi, a suburb of Cairo. They were found perfectly preserved in a large earthen jar, and it is estimated that they are over fifty centuries old.—London Tit-Bits.

The Banner-Bulletin

Published Every Thursday by MAYES PRINTING CO. Brownwood, Texas

Entered at the Postoffice at Brownwood, Texas, as second-class mail matter.

A. D. MURPHY, Business Manager

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of The Banner-Bulletin will be promptly corrected when brought to the attention of the publisher.

State Dry Law Changes.

A NUMBER of proposals have been introduced in the Legislature to change the prohibition regulations in Texas, in anticipation of the repeal of the national prohibition amendment, and some of the most heated discussions of the Forty-Third regular session are due to be centered in these proposals.

Since they are convinced that outright repeal of the state prohibition amendment would not be endorsed by the people, sponsors of repeal are proposing that the local option system of controlling the liquor business be restored to the status it held for several years before it was superseded by statewide prohibition.

Johnnie W. Byrd, secretary of the menace of the proposed legislative changes in the dry laws, are aggressively alert at Austin and will make every possible effort to block the several proposals designed to break down the state's prohibition system.

White House Democracy.

THE ANNOUNCED purpose of Mr. and Mrs. John Nance Garner to avoid tea parties and formal dress after March 4th was startling to a national capital which through many generations has been accustomed to a social routine which keeps the high dignitaries of the government busy, but the Garners are not to play their novel and somewhat difficult role alone.

Byron Price, staff correspondent in Washington for The Associated Press, tells us the next President is going to introduce some practical democracy in the White House. "All of the advance indications are that even the mode of Presidential living in the White House will take on a design it has not known in this generation," he writes.

This new scheme of things will not be unattended by difficulty, to be sure, for it is directly contrary to long-standing tradition and custom; but Mr. Roosevelt promised the country a "new deal," the country accepted the promise, and the next President will attempt to deliver it.

OUT OUR WAY

Extended for a Year.

IT WAS PREDICTED when the federal gasoline tax of one cent per gallon was imposed upon the country as a part of the billion dollar emergency finance measure that it would become a permanent fixture, for the two reasons that it is productive of large revenue and is collectible with relative ease.

That prediction was sustained a day or two ago when the House bill to continue this tax for another year was promptly approved by the Senate Finance committee, presaging passage by the Senate with little or no discussion.

It is so with most emergency tax measures which prove to be productive of large volumes of revenue. And this is a thought worth keeping in mind in connection with the proposal for a gross receipts sales tax as an emergency means of balancing the budget of the state of Texas.

Mr. and Mrs. Robert McAllister of Abernathy came in Friday afternoon to visit Mrs. McAllister's mother, Mrs. J. P. Horton, who has been seriously ill, but is better at the time of this writing.

Mr. and Mrs. Garland Petty have moved to Brownwood. Mr. Petty will be jailer under Mr. Hallmark.

Mr. and Mrs. Oscar George of Brooksmith were guests of Mr. and Mrs. C. R. Boase Monday.

Increasing Thefts of Milk Bottles Draws Warning From Chief of Police

The continued stealing of milk bottles drew a warning from Chief of Police Bert Hise today. The police have been checking up on the stealing and will file complaints if it is not stopped immediately, the chief said.

Hise says the stealing of milk bottles is being done by small boys and that he will give them a chance to quit. If there are any more complaints received by the department a number of the boys who have been investigated will be taken into custody.

Most of the complaints have come from the south side. One dairyman reported he had lost more than 100 bottles in six days. Some of the stealing has been done by children of well thought of families, Hise declares.

The boys steal milk bottles without names of the dairy from them so the bottles can be sold. People who have been buying bottles in large quantities from small children should know the bottles are stolen and under the law are as guilty as the thieves, Mr. Hise pointed out.

Many dairymen have their names made into the glass bottles. It has been called to the attention of police that some people have ground off the names from bottles with a whet stone or file.

Most of the complaints have come from the south side. One dairyman reported he had lost more than 100 bottles in six days. Some of the stealing has been done by children of well thought of families, Hise declares.

Expecting Large Crowd of Scouts At Birthday Fete

About 225 scouts and scouters are expected to attend a Birthday Party for Scouting to be held Friday night at 8 o'clock in the basement of First Methodist Church.

The following program has been announced: 6 p. m. Assembly, songs led by Rev. C. T. Aly and invocation by Rev. P. T. Stanford; 6:30 Spanish supper (each scout is to take a pie); 7:15 Court of Honor and presentation of President's Awards; 8 p. m. Contests, First Aid, Skin the Snake game, Fire by Friction, Fire by Flint and Steel; 8:30 Announcements of 10 year scouting program and a Ten Year Tableau; 9:00 Announcements for Saturday, Tap.

The court of honor will be short. At this time, however, five Brownwood troops will be given the President's Award. These troops are 1, 2, 5, 7 and 8. The award is given for regular attendance, satisfactory advancement and increase in membership during the year, December 31, 1932 to December 31, 1933.

Estimate of Two Million Cans of Food Put Up in Brown County Last Year; Huge Values in Club Work

Home demonstration work in Brown county had its most successful years in many years in 1932, says Miss Mayes Malone, county demonstrator, in a summary of last year's activities.

At the same time, the prospects are that 1933 may prove to be a still greater year. The women of the county generally appear to be entering into this year's program with greatest interest than ever before.

Home demonstration work in 1932 has been one of the most successful years in many respects we have ever had. The three major demonstrations selected this year were: Yard Improvement, Wardrobe and 4-H Pantry or Farm Food Supply.

Yard Improvement 8. In the yard work we had the following goals:

- 1. Clean yards and draw plans for improvement.
2. Make necessary walks (out of flat rocks).
3. Plant at least five from the following list: Honeysuckle, crepe myrtle, privets, mock orange, bridal wreaths, wild plums, sumac, redbud, dog bush, buckeye, algerita.
4. Plant two trees (pecans or fruit trees best).

Wardrobe Work. In the wardrobe work the following goals were:

- 1. Take all inventory of all clothing on hand.
2. Keep record of all purchases made including date and amount spent for each article.
3. Plan wardrobe.
4. Improve storage.
5. Make a foundation pattern and dress by it.
6. Write story of work with pictures of storage before and after improvements.
7. Turn in your reports and story of work accomplished.

4-H Pantry Goals. This demonstration was started with the following goals:

- 1. Make a budget in February.
2. Plan gardens to fill a budget for an adequate diet for the year.
3. Work on recipe files and menus.
4. Improve storage.
5. Help others who are not club members.
6. Help with achievement day programs and after improvement.

As a result of our start in yard work—and we feel that it is just a start—we have 20 outstanding yards in the county with an expense of \$405.44. Part of this expense includes a water supply for one yard the most that has been spent on any one yard outside of that is \$5.70 and many have spent nothing.

Home demonstration work in Brown county had its most successful years in many years in 1932, says Miss Mayes Malone, county demonstrator, in a summary of last year's activities.

At the same time, the prospects are that 1933 may prove to be a still greater year. The women of the county generally appear to be entering into this year's program with greatest interest than ever before.

Home demonstration work in 1932 has been one of the most successful years in many respects we have ever had. The three major demonstrations selected this year were: Yard Improvement, Wardrobe and 4-H Pantry or Farm Food Supply.

Yard Improvement 8. In the yard work we had the following goals:

- 1. Clean yards and draw plans for improvement.
2. Make necessary walks (out of flat rocks).
3. Plant at least five from the following list: Honeysuckle, crepe myrtle, privets, mock orange, bridal wreaths, wild plums, sumac, redbud, dog bush, buckeye, algerita.
4. Plant two trees (pecans or fruit trees best).

Wardrobe Work. In the wardrobe work the following goals were:

- 1. Take all inventory of all clothing on hand.
2. Keep record of all purchases made including date and amount spent for each article.
3. Plan wardrobe.
4. Improve storage.
5. Make a foundation pattern and dress by it.
6. Write story of work with pictures of storage before and after improvements.
7. Turn in your reports and story of work accomplished.

used this year with 680 cookers and 685 sealers sold.

Club women report 495,670 containers of foods canned, with the dried and fresh vegetables and fruit we have a value of \$43,231.32. This leaves 1,504,330 containers used in the county with no value given for them.

Total Value Large. The total clothing and food programs amounts to \$52,764.77 by club members reporting.

The greatest value of club work is not probably in dollars and cents, but the joy comfort and satisfaction the club women have reaching their goals and helping some one else.

The County Council of Women's Clubs made plans the first of the year to reach 85 per cent of the 2,152 farm families in the county, each helping five other families not club members.

Two thousand, one hundred and fifty-two families were reached in some way by club members. Most of these were helped with food work, production, preparation, preservation and storage. One woman reported she helped 50 different people.

Warmer Weather In This Section

The weather man had relented to some extent today and gave the Brownwood section warmer weather, following zero temperature registered here Tuesday night and Wednesday morning for the third time in about 35 years.

With a bright sun and a south wind the temperature had risen to 37 degrees above zero or five degrees above the freezing point at 2:15 this afternoon. Minimum temperature for the 24 hour period ending at 7:00 o'clock this morning was 10 degrees and the maximum was 27 degrees. At 7:30 o'clock this morning the mercury stood at 14 degrees.

Warmer weather is predicted for tonight and Friday in the government weather forecast for the Brownwood district, which says: "Increasing cloudiness. Warmer tonight and Friday."

Officers Elected By Building Loan Association

At the annual meeting of Brownwood Building and Loan Association held this week, the following directors were elected: H. M. Hughes, J. H. McKee, W. A. Bell, Dr. J. N. Arvin, R. E. McKee, Dr. Ben M. Shelton, J. Weatherly, W. L. Watson, C. Y. Early.

Stolen Ring Given Back to Former C. U. Football Star

BORGER, Texas, Feb. 9.—(AP)—A ring stolen from Noble Atkins, former high school athletic coach at Santa Monica, Cal., last August, returned to him recently by the Francisco police department.

The ring was found on the person of a police patrol car in San Francisco, identified by a football player who knew Atkins and returned it to him here about five months ago.

Atkins was presented with the ring for his part in the Dixie football classic at Dallas, January 1931. His last name was engraved on the side of the band.

How the ring happened to the police was not known.

WHY LEARN TOO MUCH? BOBSON—John F. Watson thought he'd give men a breaking teach women "What Every Woman Should Know About an Auto and to do mile" in a course of eight lectures. But the women probably thought he was too much about automobiles and there were only ten at the opening lecture.

**BARBA L. KINMAN**  
Funeral services were held Sunday afternoon at 1:30 o'clock from White & London Funeral Home for Barba L. Kinman, small daughter of Mr. and Mrs. T. J. Kinman, 1267 Victoria Street. The baby died at a local hospital Sunday morning. Rev. J. M. Cooper, pastor of Melwood Avenue Baptist Church, officiated at the burial services. Interment was made in Greenleaf Cemetery.

door paint, fixtures and paper cost only \$3.00. I also papered the room I built the closet in. I am quite sure I never would have gotten the built had I not been a club member. The club teaches us to make something out of nothing or as near that as possible. Record of expenditures:

Dresses and underwear	\$10.00
Hats	\$ 4.00
Shoes	\$ 5.00
House dresses	\$ 3.00
Accessories	\$ 1.00
Total	\$23.00

## ONCE THRIVING TOWN IN LAMPASAS COUNTY NOW ONLY A MEMORY

**BRADY, Feb. 7.**—It is said that a new map of the United States must be made by the official map-makers every two weeks in order to keep up with the new towns constantly springing up and as well the towns that are perpetually fading into insignificance and disappearing. Among the latter might be mentioned the once bustling town of Senterfitt, in Lampasas county, and which now is but a memory. The following is the story of the rise and fall of this place:

In the golden days of the cattle industry, when barbed wire fences were unknown, Senterfitt was one of the liveliest towns in Central Texas. It was a wide-open, active town whose saloons never closed, day or night, except for funerals. Today few of the younger generation ever heard of Senterfitt, and it has no place on the map.

For miles and miles around this forgotten town the cattle ranges stretched away in grassy monotony, and under the broiling sun a man could ride all day without meeting a living soul, but in the town all was different. Here was the cowboy in all his glory. Scores of good horses stood tied to the hitching posts at the side of the Main Street. Bronzed cowpunchers were jingling spurs and broad-brimmed hats swung along. Occasionally a pistol rang out.

Today Senterfitt is nothing but a fading memory. The long rows of buildings of saloons and stores have given away before the ravages of the elements. Only with great difficulty can one trace through the tangled grass and underbrush the line of what was once the primary street. In its palmy days a town of several hundred, it is now as deserted as the villages of which the great Goldsmith wrote.

Along the early seventies Lampasas county's northern boundary line extended to the limit of Mills county's northern boundary line of today. In fact, both counties were then one. But the northern portion of the county objected. In order to prevent a division in the county, Rube Senterfitt, one of the first settlers of the section, who owned a large ranch near the center of the district, had a townsite surveyed out of his ranch on Salt Creek. Soon the town was in the making and not long afterwards several hundred people had taken up their residence in the new town.

In the eighties, when the Santa Fe constructed its line, Senterfitt ceased to survive. Lometa was established and most of the inhabitants moved to Lometa.

**New and Used Car Sales Increase in January, Reported**

DALLAS, Texas, Feb. 8.—New and used car sales in the Dallas automobile market during January showed a favorable increase over December, according to a report just completed by Dr. J. H. Connell, executive secretary of the Dallas Automobile Trades Association.

Retail sales of new cars totaled 485 for January, an increase of 61 per cent over December and slightly more than 20 per cent over the same month a year ago. Used cars sold last month numbered 1,272 as compared with 1,044 in December.

Dr. Connell said the January new car record exceeded that of any fall month and "a decided turn for the better has been brought about."

Rhode Island bent, creeping bent, and Canadian bluegrass are the best grasses to plant in shady places.

**The more you get for your produce the better off we all are, this is why we do all in our power to pay you more for your produce. Looney Merc. Co.**

**THIS WOMAN LOST 35 LBS. OF FAT**

Miss M. Katner of Brooklyn, N. Y. writes: "Have used Kruschen for the past 4 months and have not only lost 35 pounds but feel so much better in every way. Even for people who don't care to reduce, Kruschen is wonderful to keep the system healthy. I being a nurse should know for I've tried so many things but only Kruschen answered all purposes." (May 12, 1932).

TO lose fat SAFELY and HARMLESSLY, take a half teaspoonful of Kruschen in a glass of hot water in the morning before breakfast—don't miss a morning—a bottle that lasts 4 weeks costs but a trifle—but don't take chances—be sure it's Kruschen—your health comes first—get it at Renfro's 6 Drug Stores, Peerless Drug Co., or any drugstore in America. If not joyfully satisfied after the first bottle—money back.

**MRS. W. E. HOLMES**  
Byrds Club

My work as wardrobe demonstrator for Byrds Club has been a great benefit to me. I have learned so much about the art of dressmaking and the condition of the club. I have learned how to use the sewing machine and how to finish seams. I have learned how to use the iron and how to care for my clothes. I have learned how to use the steam iron and how to care for my clothes. I have learned how to use the steam iron and how to care for my clothes.

**MRS. FRED MAEDGEN**  
Dulin Club

I became a member of the club in March, and was put in as wardrobe demonstrator. I have gained much valuable help and information from this branch of my work. I consider that I have saved at least one-third of the cost of my clothing by being able to make over, remodel, and by the selection of materials that make up beautifully.
