RITA FELDERHOFF, PVT. JENNINGS WED IN MONDAY RITES

Marriage rites performed in Sacred Heart church here Monday morning at 9 o'clock united Miss Rita Felderhoff, daughter of Mr. and Mrs. John Felderhoff, and Pvt. Aubrey Phillip Jennings of Camp Wolters and Butte, Montana. Rev. Father Raymond was the officiating minister.

Members of the church choir rendered music for the High Mass and Sister M. Leonarda, organist, played the wedding marches. The church altar was decorated with a profusion of summer-blooming flowers and greenery.

For the wedding the bride wore an attractive white taffeta floor-length frock, made with sweetheart neckline and short puffed sleeves, wide skirt and fitted, tie-back waist. Her finger-tip veil was attached to a wreath of orange blossoms and her flowers were lilies and carnations arranged in a colonial bouquet. She carried a white prayerbook that was a gift from her maternal grandmother, the late Mrs. Franz Hesse, and her only jewelry was a gold cross and chain.

Miss Armella Yosten, cousin of the bride, was maid of honor. She wore a floor-length frock of blue chiffon with fitted bodice and full skirt. Her flowers were a shoulder corsage of pink carnations and she wore a head-dress of the same flowers.

Vincent Felderhoff, brother of the bride, was best man.

Immediately after the services a wedding breakfast at the home of the bride's parents honored the bridal party and at noon a dinner was given for which close relatives and Father Raymond were guests. The bride's table carried out the traditional all-white wedding theme. It was centered with a three-tiered cake, flanked with candles and was decorated with white flowers. The linen cloth used is an heirloom and formerly belonged to the bride's paternal grandmother, Mrs. Christina Felderhoff.

The dinner preceded Pvt. and Mrs. Jennings' departure on a wedding trip to Colorado. In Phoenix they will be guests of his father, Joe Jennings, and his sister and family.

BUG TIME

Just received another shipment of DWIN, absolutely the finest insect spray on the market. Will kill any insects that are on flowers, and garden vegetables.

To spray stand on the side where the wind comes from, that is a mild breeze, and use a continuous sprayer, that throws a fog or fine vapor, NOT DROPS and no worm or bug can live.

But do not spray after a fog or rain, until the vegetation is dry.

A useful spray for the kitchen and will not harm the eatables. If you have mosquitos and flies in your bed room, get the spray fifteen minutes before retiring and spray the room, and you can sleep in peace. Spray the closets and you will have no moths.

It is not obnoxious, and has a pleasing odor.

Let M. J., tell you about it, and be convinced.

"MY SAVINGS ARE GIVING HIM A BETTER CHANCE TO COME BACK Alive!"

"I'm just an old lady, 81 years old, but I can't do much about this war, except knit. But I have one grandson in the army, and two more who will be there soon. And I'm proud to know that my savings invested in power and light company stocks are helping to give my boys, and others, a better chance to come back alive! It's a comfort to me to know that the industry my savings helped build is able to supply all the power needed to give our boys the best possible protection in their fight for victory!"

This grandmother is one of the two million citizens, people from every walk of life, who are stockholders in America's privately operated electric power companies. Their savings, combined with the funds of insurance companies, and the endowment funds of institutions of every kind, made possible the building of the electric power plants and nation-wide web of power lines that produce and transmit 7-8 of America's electric power...more power than is produced in Germany, Italy and Japan combined.

In Texas, the Texas Power & Light Company is "all out" for victory...supplying the present power needs for the war effort in the area it serves...and planning for the increased needs of tomorrow!

40 Gas Ranges
you cannot buy

It takes that metal,
to stop the enemy

So Take Good Care of
Your Gas Equipment

Make it Last till We Win this War!

Since this country has to skimp on metal household goods, we urge you to keep your gas equipment in first class condition.

I. ROOM HEATERS: To store for the summer, remove dust inside and out; wrap in newspapers and keep in a dry enclosed place.

II. RANGES: Do not let food spill over (in top cooking, the simmer-burner heat prevents this; in oven-cooking, careful handling does it). Do not set hot vessels on the bare porcelain surface. (Use cork mats.) Do not use the oven to heat the kitchen in cold weather (prolonged heat will cut down the life of the oven walls). Do not clean up the range while the enamel is warm. When it cools, remove crumbs and spatters with a damp cloth. Do not over-cook foods. It means wear and tear on the range, as well as on the groceries.

SPECIAL NOTICE

The Government Order freezing all types of gas heating equipment has been amended. Floor Furnaces, Gasteam Radiators, Circulators and Radiant Heaters NOW may be sold and installed for use in rooms which do not already have some type of heating equipment. Likewise, under certain conditions, you are permitted to purchase and install Gas Ranges and Gas Water Heaters. You gas company will be pleased to advise and assist you with complete information and details.

With the Men In Uniform

Pvt. Edwin B. Roberson who was inducted in the army on May 29 at Dallas has been assigned to duty with the 8th Ordnance Service Company at Camp Bowie. Pvt. Roberson, a former electrician, is one of the many newly inducted married men. He volunteered through the local board. He is a son of Mr. and Mrs. Ed Roberson of this city.

Pvt. Bobby Lutkenhaus was transferred last week from Camp Wallace to New Orleans, La. In a letter home this week he said he enjoyed his trip and got quite a thrill out of crossing the Mississippi at Baton Rouge on a ferry. The trip was backed the beaches, three abreast, on the ferry and the crossing was fine. He sends regards to all his friends and gives his new address as follows: Pvt. Arthur B. Lutkenhaus, Jackson Barracks Area, 2nd Provisional Bn., Co. 24, Chalmette Slip, New Orleans, La.

It's Technical 4th Alois Rohmer now. He received the promotion last week, his father, Leo Rohmer, advised Monday. Alois is with the 33rd Armed Engineers Battalion at Camp Polk, La. He was inducted in the army on December 10, 1941, and received his basic training at Fort Leonard Wood, Mo.

Sailor Louis Roberg writes his mother this week that he has been very busy engaged the past several weeks on board ship in the Norfolk, Va., area. He has a new address, as follows: Louis E. Roberg, Receiving Station, N. O. B. South Annex, Building No. 10, Norfolk, Va.

Mr. and Mrs. Joe Lehnertz received a cable from their son, Pfc. Earl Lehnertz, from Australia Thursday. The 18-word message revealed that all is OK in Australia, sent hello to all, and gave a new APO number for his address, which now reads as follows: Pfc. Earl Lehnertz, ASN 18021387, Hq. & Hq. 46th A. visible to tap the canteen too frequently. Lesson that may serve them well a few months hence.

A day before all the men broke down and cried. The occasion was their first experience with gas—tear gas of a very weak mixture that was harmless except for its stinging to eyes and exposed skin. Men enter the gas chamber adequately protected and remain there until the mask has been removed and properly tucked away in the bag. A person can hardly avoid getting a whiff of it. It's possible but not easy to hold one's breath that long.

Probably the first time in the army's history, soldiers this week had the opportunity of signing the payroll check. Once under the old pay rate, then under the new. Obviously, no one objected to the extra trouble.

Congress never passed a bill that was more welcome here. At last the boys will get to jingle a little money in their pockets. They'll have something left after deductions for insurance, laundry, dry cleaning, toilet articles, etc. The number of men who were supplementing the meager remnant of 21 bucks with money from home is surprising. Of course this doesn't mean that soldiers henceforth will have money. A certain percentage will

pany. He is now with Battery I, 508th CAAA.

Lt. M. J. Endres, Jr., is back in the States after five weeks of ferry pilot activity to Hawaii and Australia. He sent his parents a telegram Saturday from California where he is now at Hamilton Field. The wire was followed by a letter in which Lieut. Endres gives details of his long trip. He said it was very interesting. Nearly nine thousand miles of ocean. Visits in Sydney and Newcastle, where he waited for planes back. Sydney seemed a little "old-fashioned," he said. A number of men still wear celluloid collars and the young women's dresses are well below the knees. Movies are good—all from the States, about six months old. He went swimming a number of times. It was a bit cool, because it's winter there now, but nothing like winter here. In Hawaii he saw several of his classmates from Luke Field, now at Hickam Field. And also enjoyed visiting with Sgt. Carl Wimmer, who is getting along fine and likes his work. He says he's hoping for a few days off, but it's very uncertain, and sends his regards to all the Muenster folks. His address is:

Lt. M. J. Endres, Jr., Ferry Command, Hamilton Field, Calif.

Pfc. Roman Trachta and his cousin, Ralph Helton, were agreeably surprised when they met on Angel Island last week. Neither knew the other was there. Both have been to visit Pvt. Elmer Fette, who is recovering from an operation at Letterman General Hospital, San Francisco. The future is rather vague, Roman wrote this week. He doesn't know where his next move will be. He is with the medical corps and Ralph is with the air corps.

Corp. Alfred I. Walter was transferred recently from Tacoma, Washington, to Fort Ord, California. His new address is:

Corp. Alfred I. Walter, Hq. & Hq. 3rd Bn. 34th Inf., APO 3, Fort Ord, Calif.

Pvt. Andy Yosten of Camp Wolters came in Saturday evening to spend Father's Day with his father, John Yosten, and family.

always be broke a few days after pay day. They enjoy the dice and cards too much. But those who want to get along will have a chance.

Compared with other wage scales, the soldier's salary is still a mere drop in the bucket. Workers on war projects get as much, often twice as much in a week as he does in a month—for a lot less work and without risking their lives. The scale would be more correct if

the two were equal.

In spite of early predictions to the contrary, some people are growing rich from this war. And, by the way, what's happened to that bill demanding a 100 per cent tax on all incomes over \$25,000.

Trust the soldiers to coin the new words. Mutton (for goat), of which our menu includes plenty, is "army venison." A chaplain is "G. I. Jesus."

Revision of GOVERNMENT REGULATION "W" Curtails Long-Term Credit Policies

Your Charge Account is due and payable as always on the 10th of the month following date of purchase.

The Federal Reserve Board now requires that your charge account "must be paid in full not later than the 10th of the second calendar month following the month in which purchased, or the account is considered in default." Any charge purchases made prior to June 1, that are not paid for by July 10, 1942, would cause your account to be considered in default.

When any customer's account is in default we are required by law, which imposes severe penalties for its violation, to refuse further credit to that customer until said defaulted account has been cured.

Under the Regulation the default may be cured by the acceptance of a written promise from the customer that account will be paid within 6 months, or less. Such payments to be made by substantially equal installments of not less than \$5.00 a month, or \$1.25 a week. These payments may be made weekly or monthly.

Any articles purchased on your regular charge account during the month of May, or previously, must be paid for in full by July 10, or your account will be considered in default.
