Lone Star Gas Rates Were Reduced in a Period of Advancing Prices

Cutting down here and eliminating there to make the household budget come out even, in these days of high prices, is no fun for the busy housewife. Her great home servant, Lone Star Natural Gas Service, causes her no worry, for it costs less today than at beginning of war. This spring, operating through an automatic water heater, it will provide her with all the hot water she needs to speed along house cleaning at a cost figured in pennies. Save with gas.
