

Tempo Increases As Kickoff Nears In Hospital Drive

A gratifying increase of interest and enthusiasm is apparent as the hospital building campaign approaches the kickoff stage. Lots of people are looking forward to the benefits that will derive from having first class medical service available here and confidently expect the hospital to thrive while helping toward the progress of the area.

Their confidence is encouraging, but in some cases it seems to have led to a question which needs to be answered. "Who will get the profit realized from operation of the hospital?" Accordingly some are wondering whether they cannot invest rather than contribute. They see a chance of sharing in dividends, and of holding stock which may at some time be redeemable, perhaps even at a profit. In short, they would like to get a financial return from the money they put into the project.

The answer to that question is inherent in the requirement by which the hospital authority qualified for its Hill-Burton aid. The authority is incorporated as a non profit organization. It cannot and will not have any profits to distribute.

The reason for that requirement is obvious. The federal government makes its grant to meet a community need, not to provide a profit to individuals.

Like the dividend conscious people, we all like to assume, however, that the hospital will be a financial success . . . that it will not only pay its way but even accumulate a surplus. And people have a right to know what will happen to the surplus if and when it is acquired.

The answer is that all of it will be used for improvement and expansion. As hospital people will verify, medical progress moves fast. Within a very few years after our hospital is opened there will be new or improved techniques and equipment. To keep up with such advanced new purchases will have to be made frequently. There will be abundant use for profits which may be realized from day to day income.

In general, it might be said that progress of the hospital will be determined entirely by operating profits. If profits are small, it will get fewer of the desired improvements. If profits are good it will get more of them. But whether large or small, surplus earnings will be applied in providing better service in every way possible.

We fervently hope all will go well in our hospital's business affairs. We like to think that it will be able to keep up with medical progress, thereby assuring us ever improving medical care. We also hope that it will grow and require the addition of more rooms. We hope that contributions made by ourselves and the federal government will be just the starting point from which the hospital advances steadily.

On the other hand, let's realize that big success is far from certain. Hospital management is a costly business. Supplies are expensive and payrolls run high. Besides there are charity cases. Many hospitals are operating in the red or barely making ends meet. We should be pleased if we can realize a small profit and moderate progress.

In another way we can give a definite affirmative reply to that profit question. Most of us will receive indirect cash dividends from the operation of our hospital. For some that will show up as savings in time and money when we travel less to visit our sick. Some will be employed there. Some will get more business, either from the hospital, or persons who work there, or people who come here because of it. Some may profit from new business or industry that locates here because the hospital made Muenster a better place.

So, people who think about the profit angle can still afford to take a good look at the hospital project. While it doesn't offer them a penny of share in its earnings, it does nevertheless offer a handsome indirect dividend. Whoever contributes can feel certain that he is also investing. Tax-wise this makes an attractive deal . . . an investment that is deductible.

Era Wins 22-8 In Title Contest With Callisburg

Era's Hornets are the 1960 football champs of District 12-B and will have the privilege of representing the district Saturday night in a bi-district game with the Newcastle Bobcats at Gainesville's Loper Stadium.

Era earned its title last Friday night by defeating Callisburg's rugged Wildcats 22-8 in a contest that was much closer than the score. Up to the closing minutes Callisburg still had a chance and was fighting gamely for it. Era cinched it with a final TD just before the game ended.

Meeting Newcastle, the champs of 12-B appear to be perfectly matched, that is, if the records are any indication. Both of the contenders have decisions over three teams of 12-B . . . Muenster, Saint Jo and Callisburg. Newcastle has the more decisive score against Muenster, Era the more decisive against the other two. On paper, Era is due for its biggest strain so far in defending its perfect season record.

Era was formally awarded the district trophy last Saturday in a meeting of coaches and superintendents of the loop. At the same time Callisburg received the runner-up award and Valley View the sportsmanship award. After that the coaches and superintendents made their all district selections.

Notes on Building and Improvement

Newest of the local building projects is the home just started for Tony and Herbert Yosten in the east part of town. It will feature 3 bedrooms, central heat, attached double garage, brick siding.

In the northwest part of town Felix Yosten is working on an addition that will more than double the size of his house. It includes a 16 x 28 basement with two rooms and a bath above and also a carport. Additional work will repair and remodel the rest of the house, then new roof and siding over all.

At Hank Walterscheid's brick work is finished and carpenters have about 10 more days on the new home featuring four bedrooms, 2 baths, central heat, attached garage. An extensive improvement job at the Gary Hess home includes kitchen built-ins, central heating, additional bath, remodeled utility and ripplewood paneling for upstairs rooms.

Another big improvement job is the Jim Dill home at Rosston. Main additions are double garage, central heat, fireplace, a bath and improvements on the existing rooms, then new roof and brick siding for all.

It won't be long until the Clyde Fishers can occupy all of their new house. Downstairs they'll have painters a few more days, then floor finishers, then they can move out of the room above the double garage, which they have occupied for several weeks. The house also has three bedrooms, two baths, central heat and air conditioning brick siding.

Tony Rohmer is near the end of a general repair and repaint job on the house he bought lately from Victor Koelzer.

Dr. Kenneth Dobbs now has his office in the house formerly occupied by Angie's Beauty Shop. The place got a general interior decorating job before he moved in.

Another interior decorating job has been finished in the Ray Otto home.

The B. J. Swirczynskis have a new roof on their home.

Both of the Muenster High basketball teams got lessons from the old timers Tuesday night in their first action of the season. The boys lost 34-31 to a team made up of faculty and ex-students, girls lost 20-18 to the former players.

The girls' contest was close all the way with the high school crowd but unable to get ahead. Scores by periods were 4-3, 9-8, 16-16 and 20-18. Others with the exes were Mrs. Bill Pratt, Mrs. George Petrus, Mrs. Henry Weinzapfel and Judy Cain.

Hornets made a big start for a 13-2 lead at the first quarter but the entry of Bob Gay and Doug Hellman changed things in the second period. By half time the faculty led 20-19. From then on action was about even with the faculty holding the lead 26-23 and 34-31 ending the next periods. Gay was high pointer with 12 for his one quarter of play and Dyer was next with 8. Hornet leaders were Noble McElreath 10 and Joe Hellman 8. Other players for the faculty were Carl King, Emmet Walterscheid, James Larsen, and Glenn Hellman.

Care of Lawn Is Program Topic at Garden Club Meet

"Lawns and Their Care" discussed by Mrs. L. B. Bruns at the November meeting of the Civic League and Garden Club furnished an informative topic for the program hour.

Program Chairman Mrs. McGannon presented Mrs. Bruns. The speaker emphasized that "good lawns are made, not born." She outlined steps to take before planting and proper care to maintain a lush cover. Her interesting talk included a discussion of soil testing, fertilizing, weed control and names of grasses that will do well in this area. She explained about watering and cutting and said all grasses have a height at which they look best. Frequent cuttings in different directions add to good looks and long life of a

SH Teams Split With Collinsville And Lick Lindsay

Tigerettes of Sacred Heart High were equal to the job in their first real test of the season, nudging the traditionally classy Collinsville High girls by a score of 26-25.

It started as a runaway for the visiting girls, who jumped to a 10-4 lead in the first period. But after that Sacred Heart started gaining. By half time it trailed 12-10. Ending the third and fourth periods Sacred Heart led 21-19 and 26-25. Hacker and Dangelmayr scored 15 and 7 for the local team.

In the second tussle of the twin bill Collinsville's Pirates took an easy one from the Tigers. Scores by periods were 10-4, 22-8, 27-12, 39-18. Kappas and C. Knabe hit 6 each to share Tiger scoring honors.

Tuesday night the Sacred Heart teams took a pair of wins from Lindsay. Lindsay girls showed a big improvement in holding the Tigerettes to a 38-31 score, and the two played on even terms for about a half. During the first two periods Sacred Heart had leads of 5-3 and 19-14. Afterwards action levelled off and the other two counts were 28-21 and 38-31. Tigerette leaders were Hacker 28 and Dangelmayr 4. Lindsay scorers were Hermes with 15, Hess and Schmitz with 8 each.

Long Illness of Mrs. K. Gehrig, 72, Ended by Death

Mrs. Katherine Gehrig, a resident here for 50 years, died Saturday afternoon at a Gainesville hospital after being in failing health since last June. She was 72.

Funeral services were held Wednesday at 9 a.m. in Sacred Heart Church with Father Alcuin Kubis officiating at the requiem high mass and delivering the sermon. He also conducted graveside rites in Sacred Heart Cemetery. Nick Miller Funeral Home was in charge of arrangements.

Bearers were John and Paul Fisher, David and Richard Trachta, Alois Rohmer and Ray Wilde.

Rosary services at the Miller Chapel Sunday were at 5 and 8 p.m., on Monday at 3 and 8 p.m., and Tuesday night at 8. Members of the St. Anne's Society, Third Order of St. Francis and Catholic Daughters of America recited afternoon rosaries. Mrs. Gehrig was active in the three organizations as long as her health permitted.

Mrs. Gehrig was born in Idaho Falls, Idaho, on June 14, 1888, and came to Muenster as a bride following her marriage in Idaho Falls to William Gehrig in 1910. He was in the saddle, harness and shoe repair business here until his death in 1933.

Survivors are one son, George Gehrig of Muenster; four daughters, Mrs. J. R. (Virginia) Carter of Fairbanks, Alaska, who flew home arriving late Tuesday, and Mrs. Al (Leona) Eberhart, Mrs. Charley (Alvina) Hellman and Mrs. Arthur (Emma Lou) Hess, all of Muenster; 19 grandchildren, three great-grandchildren; and two brothers, John and Nick Gergen of Idaho Falls. John Gergen attended the funeral. He arrived early Saturday morning and visited with his sister before she passed away.

Local Ex Gridders Beat Decatur 15-0

Muenster Exes played lots of football and overcame lots of penalties last Saturday night to beat Decatur Exes 15-0 on their home field.

The game was one of a pair matched with the Decatur team but indications Wednesday were that the second game is cancelled.

Muenster's first score came on its second play after gaining possession of the ball. Lawrence Noggler broke away for 45 yards and the counter.

The second TD was scored by Ronnie Herr on a 1 yard plunge shortly after Muenster recovered a Decatur fumble inside the 20 yard line. Two extra points following the first score were on a pass from Virgil Henscheid to Lennie Haverkamp. The other point was on a kick by Tommy Carr.

Muenster threatened at other times but had trouble satisfying officials. Penalties were frequent. At one time the situation was second down with 5 to go for a score and a series of penalties moved them back to midfield before they gave up possession. Decatur could not get its offense going. It made three first downs and never advanced beyond mid field.

LIVING COST AND LUXURIES

"Cost of living" quotations are based on the Consumer Price Index compiled by the U. S. Bureau of Labor Statisticians. What this index actually measures is not the cost of living, but the cost of living well.

The index reflects what the average city family spends to live. It includes such things

as recreation, beauty shop services and television sets. These are luxury items which few people would consider part of their basic costs.

The tendency to think of the price index as measuring the cost of living has done a great deal of economic mischief. Many collective bargaining contracts are based on this erroneous assumption. So are welfare benefits in many instances, and even the awards made by juries in damage suits.

The percentage of family income available for luxury items and leisure activities has increased considerably. Since the index is being revised to take this into consideration,

it will be even less of a cost of living index in the future than it has been in the past.

In short, the index will measure how well Americans are doing in improving their living standards. It indicates only remotely what it actually costs them to live on a scale which, while minimum by our standards, would be envied by the people of virtually any other country.

A LONE DISSENTER

On a recent evening we were present at a meeting where the speaker was holding forth on the benefits that would accrue to America with the enactment of the Proposed 23rd Amendment—the Amendment which will abolish the personal federal income tax and take the Federal Government out of competition with private enterprise.

The speaker stressed how nice it would be if three years from now, one would not have to struggle with form 1040, and on or before April 15, send Uncle Sam a huge slice of one's earnings. He asked for a show of hands of those who would welcome such a relief from both toil and attack on Pocketbook. Every hand went up but one.

Toward the close of his address, the speaker could contain his curiosity no longer. He asked the lone dissenter why he wouldn't welcome the end of personal federal income taxes. His answer was short, simple and much to the point.

"You see," he said, "I'm a certified public accountant. Each winter and early spring I derive a considerable income helping out poor unfortunates with that form 1040. Would you have me help kill that golden goose that lays those golden eggs for me?"

Well, anyway, he had a reason—if not a good one.

GAO ACCUSES MILITARY OF AIR SHIPMENT WASTE

When the Army moved a man from San Antonio, Texas to Karachi, Pakistan, awhile back it shipped his household goods by commercial plane. Government auditors said this cost \$14,830.

They said the stuff could have been sent by ship for \$1,749. And it turned out, they said, that the shipment would have got to Pakistan a week sooner that way than it did by air.

Among other household effects which the General Accounting Office (GAO) told Congress it found on other recent military commercial air shipments were a piano sent to Spain and a model ship flown home from France.

There was the matter of a sled shipped from the United States to Metz, France—in May, of all times.

The GAO—which keeps watch on government spending for Congress—said this and a lot of other stuff shipped by the military at commercial air rates could just as well have been sent by water for a fraction of the cost.

In a report to House and Senate, the agency said a sampling of military air shipments of household goods turned up 13 cases in which the air freight bill ran to \$125,470. Estimated cost of surface transport was \$23,000.

In some cases, it said, a delay would not have mattered. In others, it said the shipments actually would have arrived earlier by sea than they did by air.

In a 14th case discovered by the auditors an air line billing clerk inadvertently moved a decimal point with the result that the Army paid \$48,625.55, instead of \$4,862.55, to ship one serviceman's furniture and effects from New York to Asmara, Eritrea, in Africa.

The error wasn't noticed until the GAO started looking around. Now the government is trying to recover its money.

The GAO said something ought to be done to stop such waste. The Army, at its suggestion, has issued new orders, it said, while the Air Force still is studying the matter. No Navy cases were studied.

WORTH A MONTH OF SUNDAYS

Czech citizens of Texas have provided our State with one of the most interesting and recently beautiful spots to be found in the entire country.

At their Village of Hostyn they have constructed a rock and stone duplicate of the Grotto of Lourdes, just as it is found in France.

Hostyn is located in Fayette County, just six miles south of La Grange, in Central South Texas.

Nestled atop a hill, the Grotto and numerous chapels, monuments and statues of marble, rock and granite encircle a church.

Some tourists have been heard to respectfully comment that the visit to Hostyn was "worth a month of Sundays." It is truly a beautiful and moving area to behold. We should be glad it's in Texas.

The Big Bully

HOW TO "CATCH UP" WITH THE SOVIETS

We've all read prophecies to the effect that the Soviet Union is swiftly overtaking us in production, and that we're in danger of becoming a second-rate power.

An antidote to that has been provided by Bryce N. Harlow, deputy assistant to President Eisenhower, in a talk made before the Southwest Electric Conference.

The magazine Electric Light and Power summarized his statements thusly: "In order to enjoy the glories of the present Soviet system, he said we would have to abandon three fifths of our steel capacity, two thirds of our petroleum capacity, 95 per cent of our electric motor output, destroy two of every three of our hydro-electric plants, and get along on a tenth of our present volume of natural gas.

We would have to rip up 14 of every 15 miles of our paved highways and two of every three miles of our mainline railway tracks. We'd sink eight of every nine ocean-going ships, scrap 19 of every 20 cars and truck, and shrink our civilian air fleet to a shadow of its present size.

We would cut our living standard by three fourths, destroy 40 million TV sets, nine of every ten telephones, and seven of every ten houses; and then we would have to put about 60 million of our people back on the farm. . . . In answer to the claims that the Russians are leap-frogging us in

electric power facilities, Mr. Harlow declared that if they are to catch up with us by 1980, they must, in the next 20 years, build the equivalent of a brand new Hoover Dam every 21 days. . . .

Mr. Harlow also dealt with the military picture. We are, according to him, well ahead of the Soviet in various important weapons and other assets—including bombers, nuclear submarines, aircraft carriers, and allies and foreign bases.

No one with good sense underestimates Soviet power, existing or potential. But it's equally senseless to under-rate our own achievements and strength.

Can't Take Car For Personal Tax

A local taxing district cannot seize a person's personal car because he has failed to pay property taxes on it, the Attorney General's Department ruled.

However, the tax assessor still has plenty of ways to "get at" the car owner who tries to evade taxes.

An automobile—one only—is part of a person's homestead, said the opinion and cannot be taken for forced sale to satisfy a tax claim. However, it said, the tax collector can get a judgment that will allow attachment and sale of a second car, or any other property not included in the homestead exemption.

STARS TO STEER BY

By John J. Meng, President of Hunter College

Those of us who were in diapers when the Century was new sometimes have difficulty realizing how utterly different is the world our children live in from the one in which we grew up. Great changes in our times have brought confusion, uncertainty and license in national and international affairs.

The youth of today are not to blame for the world's problems. But they are responsible for the future. So they need values and goals—stars to steer their life by. Without true values, young people will invent foolish ones: a flashy convertible, a reputation for recklessness, big pay for easy work.

OUR CHILDREN need to know that one of man's greatest possessions is his mind. This is what makes him different from the ape. We must develop and deepen our minds if we are to love God and serve our country.

Have you ever thought about what we must do to gain the happiness of heaven? We must know, love and serve God.

THE FIRST of these is to know God, for what we do not know, we can neither love nor serve. The more we know Him, the more we can love and serve Him. One of the ways we can get to know God better is by studying the world and

the creatures in it. The proper use and development of our minds can lead us to God.

Furthermore, as civilization becomes more complex, the need for good thinking increases. America will remain strong only if her young people preserve the great ideals of human freedom—the importance of the individual person, government by the people, rule by law and not by men. Our youth must be alert to all the developments in our world. In short, they must learn how to think for themselves.

WHERE will our young Americans learn mature thought and responsible action? The greatest of all schools is the home. Parents, above all other people in the world, are best fitted to teach those values which give meaning to life.

Parents teach by doing good and living well. Kids fly forth these days like the fabled knight who jumped on his horse and galloped off in all directions. Yet they do come home!

When they return to the four walls of their true school house, their home, let them find there the example that will give them throughout their lives something good and noble to cling to and believe in.

MADE STRONG by this example, the young people of America, like the youth of all earlier ages, will meet with courage, forcefulness, and a keen sense of responsibility whatever challenges the future may hold. † Fulfill Future Service, Washington 17, D. C.

Farm Bureau Lines Up Work Committee

A work committee for Cooke County Farm Bureau was lined up at the regular meeting of the board of directors with President J. T. Cole naming the workers.

The special committee consists of Joe Hundt, Charley Kammerdiener, Henry Schumacher, Gus Lutkenhaus and Al Walter. They will make recommendations on what ac-

tivities the local Farm Bureau should participate in during the coming year.

In other business, directors agreed to offer local members fire extinguishers at cost. The Farm Bureau Safety Department plan enables any farmer to purchase a fire extinguisher for the farm at cost — \$9.50.

Anyone wanting to order fire extinguishers should stop by the farm bureau office on W.Hwy. 82.

Mrs. Bill Lindsay Hosts Tuesday Club

Mrs. Bill Lindsay was hostess for the November meeting of the Tuesday Nites Club, entertaining the group of ten in her home.

Games of Wahoo provided the evening's fun and the hostess served cake and coffee. Winners in the game were Mrs. Melton Ramsey and Mrs. Leonard Owen. Mrs. Oscar Miller drew the door prize.

For December the members planned a Christmas party for which their husbands will be special guests and they drew names for a gift exchange. Nine members and one visitor, Mrs. Johnny Rohmer, were present.

Don Cookes Mark 49th Anniversary

Forty-ninth wedding anniversary of Mr. and Mrs. Don C. Cooke was celebrated with a four day visit in Fort Worth with relatives. On the wedding date, Nov. 8, Mr. and Mrs. Harold Cooke entertained with a dinner party in their home for his parents.

Mr. and Mrs. Cooke divided their time as houseguests in the home of their son and her sister and brother-in-law, Mr. and Mrs. H. G. Andrews who were present for the dinner. Other guests at the party were the honorees' grandson Don Cooke II, their grandchildren, the Don Alexanders and daughter Dana and a nephew and his wife, Mr. and Mrs. Charles L. Collett, all of Fort Worth.

The Cookes also called on the S. M. Duffeys and visited by phone with Mrs. Jap Reeves, Mrs. Vernon Waggoner and the Gerald Bealls, all former residents north of Muenster, and enjoyed a tour of the new Gov-Tex building in Fort Worth.

Cancelled Stamps Sought by Sophs Of SH Hi School

It's annual stamp collecting time again for sophomore students of Sacred Heart High School and their class sponsor Sister Theresina.

Each school year the class solicits cancelled stamps as a mission activity. The stamps, sent to a collection center, bring money for needy missionaries in far flung locations.

All varieties of stamps are sought in the drive. Unlike previous drives, this year's collection of stamps will be held over and added to next year's campaign. Schools are not obligated to enter the competition each year and the local students feel they can make a better showing by entering on alternate years. It is a nation-wide contest and includes many large schools.

Last year Sacred Heart was among the top ten placing seventh. The year before it claimed second spot. With a landslide of cancelled stamps expected to go into the 1961 contest the students are eyeing place one for next year. Stamps may be left at the school or sent in with school children. Business firms which save stamps and envelopes and bundle them are asked to telephone the school when they have any sizeable amount and students will call to pick them up.

40th Anniversary Celebrated Sunday By Bill Kathmans

Observing their fortieth wedding anniversary, Mr. and Mrs. Bill Kathman were the honorees at a come and go party Sunday afternoon at their home from 2 to 5. Some 50 relatives and friends called, presented gifts in keeping with the occasion, and had punch, cake and cookies as refreshments.

The honor couples' granddaughters Sandra, Cynthia and Linda Insel, presided at the lace covered table, Sandra pouring punch and her two sisters serving. Flower arrangements were in red, carrying out the ruby anniversary theme.

Mrs. Kathman welcomed guests wearing a dark blue gabardine dress and red carnation corsage. Mr. Kathman had a red carnation boutonniere.

Mrs. Kathman is the former Miss Annie Lutkenhaus. Their wedding date is November 16, the celebration was on Sunday rather than in the middle of the week. The Kathmans recalled that their wedding day in 1920 was freezing cold but they had the usual old fashioned celebration. The late John Kathman was best man and Miss Frances Bernauer of Memphis, Tenn., was bridesmaid.

Out of town guests at the anniversary party were the couples' two daughters and their families, Mr. and Mrs. Stan Wylie and children George, Jimmy, Jeanette and William of Lewisville and Mr. and Mrs. W. E. Insel and children Sandra, Cynthia, Linda and Eddie of Gainesville, also Mr. and Mrs. Ben Lutkenhaus and son Raymond of Lindsay, Mr. and Mrs. Henry Sandmann and family of Valley View and Mrs. George Lutkenhaus of Gainesville.

In addition to Ben and Joe Lutkenhaus, Mrs. Kathman's family includes two sisters in Nebraska. Mr. Kathman has two brothers, Joe Kathman of Muenster and Clem Kathman of Portalis, N. M. Mr. Kathman was associated with the FMA and later the NTPA here, retiring from work the past April 1. They are at home at 121 North Hickory Street.

Firemen are Feted At Annual Dinner

Members of Muenster's Volunteer Fire Department and their ladies were treated to their annual dinner Sunday night, attended also by city officials and their wives, Deputy Sheriff and Mrs. Bill Pratt and Commissioner Earl Robison. The Rev. Fathers Alcuin Kubis, Bruno Fuhrmann and William Lane were special guests.

Mrs. Joe Lehnertz catered the banquet menu featuring country sausage and fried chicken with all the trimmings and after the meal the group played cards and dominoes. Fire Chief Joe Moster extended welcome and Father Alcuin led the invocation. About 60 persons were present.

The party was held in the Parish Hall where autumn leaves and pyracantha berries were used in decorations.

Mrs. Walterscheid Entertains Club

Get-Together Club members were entertained for their November social with Mrs. C. M. Walterscheid as hostess in the home of her daughter, Mrs. James Mollenkopf.

Three tables were arranged for a progressive 42 series which furnished the afternoon's diversion. Mrs. Al Walter ran up the high score for the top award and Mrs. John Kathman, a guest, drew the door prize. Mrs. John Wieler received a birthday gift from her sunshine pal.

Joining members in addition to Mrs. Kathman were Mrs. Joe Hoenig, Mrs. Henry Walterscheid and Mrs. Ben Seyler. Assisting the hostess and Mrs. Mollenkopf with serving was Mrs. Ervin Walterscheid of Gainesville who was here for a visit. Apple pie a la mode and cherry topped was served to the 14 present. Mrs. Wieler will be hostess in December.

Al Wiesmans Enjoy Old Mexico Visit

A visit to the Shrine of Our Lady of Guadalupe and seeing their first bull fight were highlights of Mr. and Mrs. Al Wiesman's visit in Old Mexico where they saw many other interesting sights and gathered up souvenirs.

The Mexico holiday was an 11-day trip for Mr. and Mrs. Wiesman starting with a visit in San Antonio with their niece, Judy Yosten, at Moye High School.

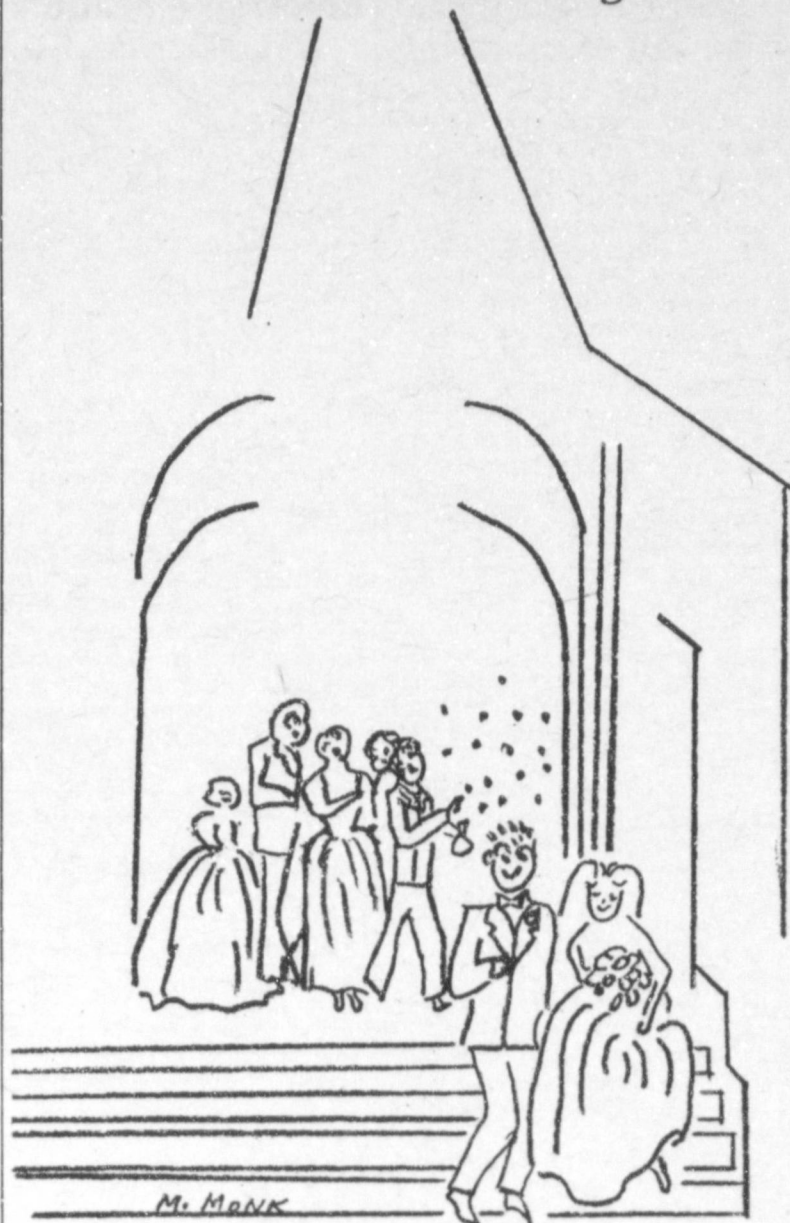

The bull fight in Monterey was fascinating but Mrs. Wiesman thinks it may be her last ... or maybe it's something you learn to like better by seeing more of, she says.

A scenic drive crossing the Tropic of Cancer let them see all kinds of fruits growing.

In Mexico City they visited the pyramid, museums and dozens of exotic places but the never-to-be-forgotten experience was the visit to the Shrine of Our Lady of Guadalupe and seeing the original painting. Hundreds of pilgrims were in and around the church, many of them carrying flowers to place at the shrine.

The drive home was on the Pan American Highway and included an overnight visit in Fort Worth with their daughter and family, the Edward Guthries. And they brought their two-and-a-half year old grandson Ricky Guthrie along to spend this week here with them.

Study Clubs Will Resume Meetings

Sacred Heart Parish Confraternity discussion clubs will resume regular sessions Sunday night, to meet once a month through May.

Some 15 clubs started in September and more will be functioning from now on. Omitted in the first listing was Werner Becker's group. The Fred Knabe's group is new.

Confraternity chairmen will have a meeting Friday night with the pastor to review the current lesson.

The clubs did not meet in October because the mission was in progress at the time.

Albert Henscheid, W. H. Endres, Bill Becker and Victor Hartman left Sunday to attend a state convention of mutual insurance companies at Edinburg, and also to visit briefly across the border. They are representing the Muenster Mutual Fire Insurance Association.

Weekend visitors with James and Linda Whitt were Jane Guthrie and Sharon Whitehead of Fort Worth who were guests in the home of Mr. and Mrs. W. B. Whitt. The Whitt

family took the visitors back to Fort Worth Sunday evening and stopped in to see their son and brother, the Rev. Billy Whitt and family.

Mrs. M. J. Endres returned Tuesday from a four-day visit in Sherman with her daughter, Sister Irma. Joining them there for a visit Sunday were Mr. and Mrs. Leonard Endres and children of Dallas.

Fine Pheasants

T. M. Hammer is back at home telling of a wonderful time on a pheasant hunt . . . and showing four pheasants to prove it. He spent seven days in Liberal, Kansas, with his children the Tom Hammers and the Rolland Patricks and some days they accompanied him. The prettiest pheasant feathers are being fashioned into a hat for herself by Mr. Hammer's daughter, Mrs. Charles Rosenberg of Gainesville.

4-H Club Formed At Public School

Add one more group to Cooke County 4-H Clubs. The newest is a girls' club at Muenster Public School.

First meeting of the ten members featured organization and election of officers. Charlotte Wolf helped in organizing the club and conducted the first meeting. Miss Evelyn Trietsch, assistant county home demonstration agent, was present for the initial meeting.

Club officers are Sherrie Pitman, president; Debbie Cain, vice president; Judy Pittman, secretary; Debbie Russell, reporter; Linda Owens and Joyce Pawluss, recreation leaders.

Post Office Helps Count Livestock

Rural mail carriers from the Muenster post office left some livestock survey cards along their routes beginning November 16.

"Information reported on these cards is used to set the yearly inventory of livestock and poultry on Texas farms," Postmaster Endres explained.

In distributing the cards, rural carriers pick boxes at random along their routes.

"This means that not every box will get a card," Mr. Endres said. "For this reason, it's important for everyone who gets a card to return it filled out so that USDA can get a true sample of the State's livestock holding."

Carriers assisting with the survey are: Henry J. Pels, Route 1, John W. Fletcher, Route 2.

Facts and figures secured in this survey are the basis for the Texas and National pig crop report and inventories of livestock and poultry on farms as of the first of the year. Stockmen and many others use this information in making business decisions.

Survey results will be widely distributed through Texas Crop and Livestock Reporting Service releases, newspapers, farm magazines, radio and television.

"This annual survey has been a joint undertaking of the Post Office and the Agriculture Departments since 1924," concludes Mr. Endres.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

Conservation begins with man himself. It starts anew each day. It makes him want to stop erosion, clear up muddy streams and protect wildlife.

Too much of the time conservation is looked upon as being the business of the farmers and ranchers . . . that others have no concern. But all people, as Americans, have a stake in conservation, whether they wish to admit it or not. Whatever a man's profession or business, there are many opportunities to apply the principles of conservation. For conservation is a way of thinking. And if enough people can be brought to a conservation way of thinking, this country can be made and kept not only the most productive but also the most attractive continent on earth.

Following are the specific aims of conservation — the challenge to conservationists.

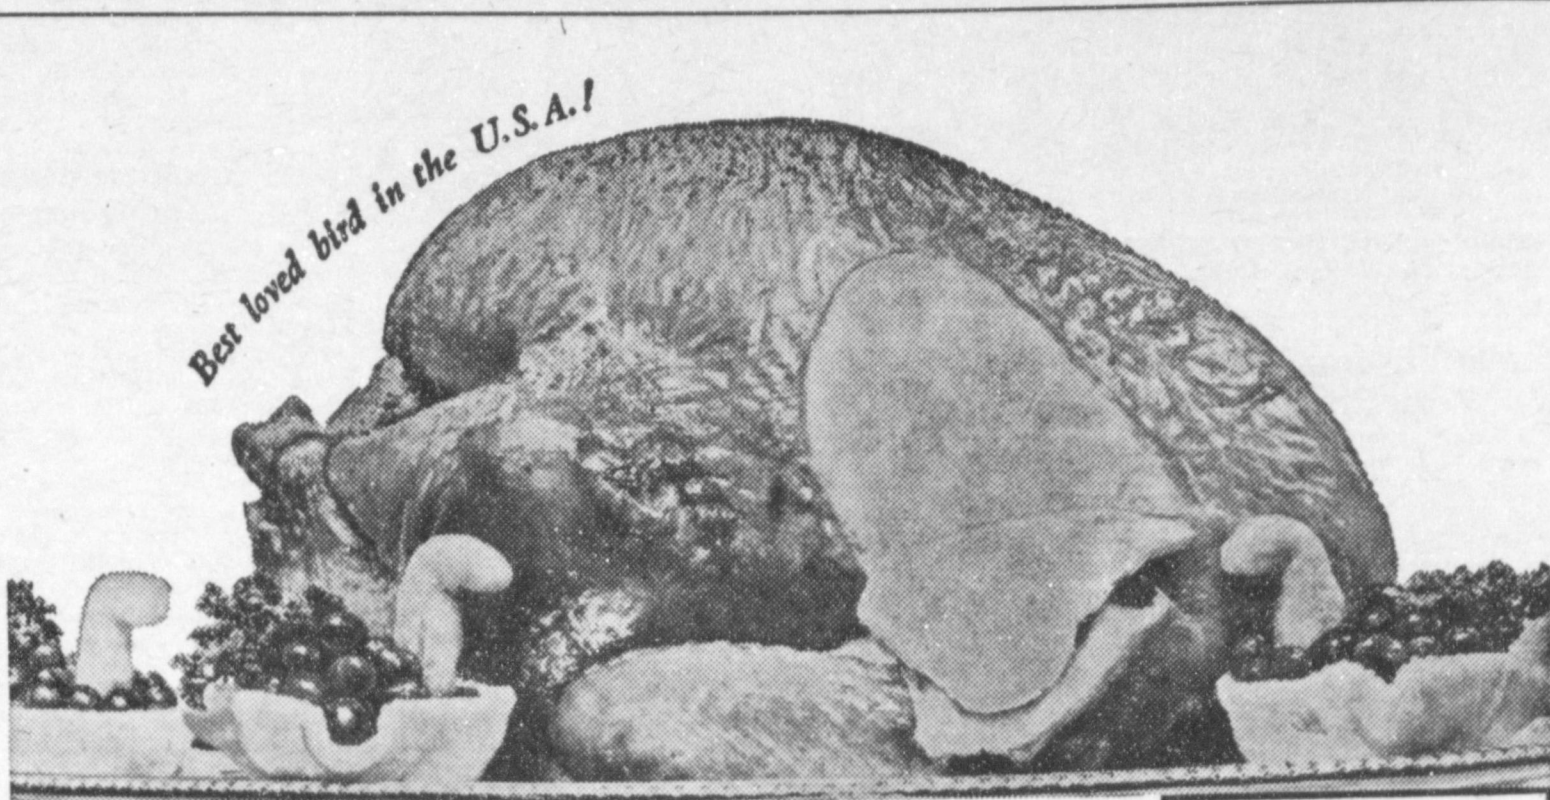

Keep the ground in place and the streams clear.

Make the rain soak into the soil where it falls and control any run-off that occurs.

Plant improved grasses and legumes, adding the necessary fertilizers to insure good growth.

Tom Hickman Talks On Civil Defense At NCCW Meeting

Featured speaker at the quarterly meeting of the Sherman Deanery NCCW at Lind-say was Capt. Tom Hickman of Gainesville, Civil Defense director of Cooke County, who discussed Civil Defense in his talk to the group of 77 women.

Representatives from all parishes of the deanery attended joining the host parish from Muenster, Gainesville, Denison, Denton, Sherman, Valley View and Pilot Point.

The afternoon began at 1:30 with Benediction of the Blessed Sacrament in St. Peter Church followed by the business session and program in the Parish Hall and concluded with a social period during which the Lindsay hostesses served cake and coffee.

The Very Rev. John Dues-

man of Sherman, deanery moderator, opened the session with prayer and Mrs. Gregory Hundt, president of the Lindsay NCCW unit, extended welcome. Father Damian, pastor of the host parish, introduced visiting clergy: Father Alcuin Kubis of Muenster, Father John Untereiner of Pilot Point and Father Joseph Thomas of Denton.

Parish presidents gave quarterly reports, Mrs. Herbert McDaniel presenting Muenster's. Deanery chairman of the Home-School Society, Mrs. Norbert Zimmerer, introduced Captain Hickman.

Mrs. M. J. Reesby of Sherman, deanery president, presided for business. Members voted a contribution of \$25 to the Bishop Lynch Memorial Burse, another \$25 for religious items for girls of the State School at Gainesville. . . . this presented to Father Anthony Gajda of Valley View who is chaplain for the school . . . and \$10 for layettes for the Holy Father's Storeroom. Mrs. Herbert McDaniel volunteered to get the layettes together and send them on their way.

The next meeting, in February, will be in Muenster.

Attending from Sacred Heart Parish were Mmes. J. M. Weinzapfel, Joe Swirczynski, Roy R. Endres, M. J. Endres, Paul Fisher, Frank Kathman Sr., Tillie Barrier and Herbert McDaniel.

NOTES FROM CITY LIBRARY

Dr. Tom Dooley's Three Great Books in one volume has been added to Muenster Public Library and should be among the most sought-after book on the library's shelves. Written as only Tom Dooley can write, it will stir the reader's heart.

Dr. Tom Dooley has been called "the splendid American" for good reason. He believes (as his friend and inspirer Dr. Albert Schweitzer does) in helping his fellowmen in underprivileged parts of the world, particularly in Southeast Asia. He not only founded an organization MEDICO to raise money to achieve that end, but he himself travelled an continues (despite illness) to travel into remote Asian villages to establish modest hospitals, to treat the sick, to train others to carry on his work, to turn over the hospital to native hands, then to go to another needy village and start the process all over again.

His amazing story is fully told in three famous books which have captured the hearts of America: "Deliver Us From Evil," "The Edge of Tomorrow," and "The Night They Burned the Mountain."

In "Deliver Us From Evil" he tells how the Doleys saga started Lieutenant (junior grade) Dooley was a Navy doctor stationed in Asian waters when Indo-China fell to the Communists. At the Navy's orders he and his medical men built huge refugee camps in Viet Nam for the hundreds of thousands of escapees from Communist terror seeking a passage to freedom. The things he saw and learned in Viet Nam he has never forgotten. (Nor will the reader.) They determined his whole life.

In "The Edge of Tomorrow" Dr. Dooley tells how he went back to Asia, the little kingdom of Laos, to continue his medical work in the primitive village of Nam Tha, five miles from the border of Red China.

In "The Night They Burned the Mountain" he tells of his most recent experiences in Laos in another remote village called Muong Sing. There he waged a fight against an enemy even more murderous than Communism, poverty, ignorance or malnutrition: his own battle against cancer.

As William Hogan has written in the San Francisco "Chronicle": The tall, good-looking, idealistic Tom Dooley emerges a kind of 'Mister Roberts' of the medical world rather than a saint in the classical tradition. He is a good guy with a good cause . . . I think more people should know about the Doctor Dooley story."

Quote from the St. Louis Globe-Democrat: Dooley has what few writing men possess: the power to make you see what he sees, to feel as he feels."

Illustrations in the book are authentic photographs taken on the scene, in the field, in the hospitals, among the natives. They also show Dr. Dooley and his two Texans.

There's room to burn in one of our two newest states, but the other is a bit on the crowded side. According to the Census Bureau, the population of Alaska averages out to less than half a person per square mile of land area — 0.4 to be exact. Hawaii, on the other hand, has 96.8 people per square mile. And it is exceeded by California, with a population density of 99.2.

One of the world's largest meteorites lies two miles west and six miles south of Odessa, in the far western portion of Texas.

The great meteor, a mass of iron, nickel and various other metals, rests 170 feet deep in a 10-acre pit.

This great visitor from outer space is estimated to have fallen to earth thousands of years ago.

The more you know, the more you know you ought to know.

Farm Economist Dr. Earl Butz of Purdue University predicts that by 1970 one farm worker will be able to produce enough goods to feed and clothe 45 to 50 persons — with the result that 2 million persons will leave farm work in the next 10 years.

Farm Facts

Of course, farmers provide us with our daily bread, as well as cotton and wool for clothing, but they are making another contribution to the American economy that sometimes is not recognized.

Farming, measured by almost any standard, is our biggest single industry and is a major customer of other industries. This industry is getting bigger instead of smaller.

In 1959 the gross income of farmers was \$48.3 billion. This was 9.7 per cent of our gross national product for that year.

With that money farmers buy 6.5 million tons of steel a year—half as much as the automotive industry uses.

They buy more petroleum than any other single industry—more than one-eighth of all the petroleum produced in the country. They use more electric power than Baltimore, Boston, Chicago, Detroit, and Houston combined. It takes \$6 billion worth of containers and packing materials to pack the food farmers raise in a year.

Last year farmers bought the equivalent of 15 billion gallons of crude petroleum, making them better fuel customers than any industry.

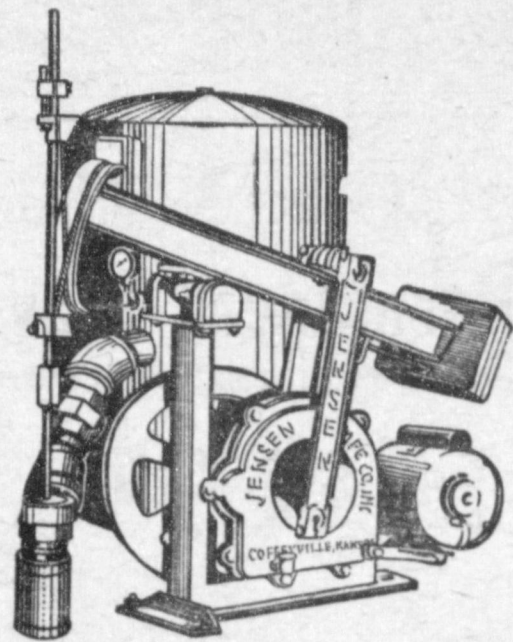

Citizens whose incomes amount to \$46 billion and with \$200 billion in assets, who buy from nearly everybody and sell to everybody, are important indeed to the U. S. economy.

For You And Your Town

No business man or woman in any town should allow a newspaper to go to press without his or her name or business being mentioned somewhere in its pages. This does not mean that you should have a whole, half or even a quarter page advertisement in each issue of the paper but your name and address should be mentioned even if you do not use more than a two line space.

A stranger picking up a newspaper should be able to tell what business is represented in a town . . . it is the best possible town advertiser. The man or woman who does not advertise does an injustice to himself or herself and definitely to the town.

Hospital Drive

Steve Moster, John Mosman, Martin Bayer, L. B. Bruns, Ed Endres and Paul Fisher.

The goal of the drive is \$250,000 as this community's share to match an equal amount of Hill-Burton funds toward construction and equipment of a 30 bed hospital. Application for the federal grant was approved early in September and the community now has to raise its half in order to qualify for the grant.

The hospital will be a non profit institution administered by the Benedictine Sisters of Jonesboro, Ark. Mother M. Philippa, superior of the convent, was here during the past week end to discuss details of administration with directors of the hospital authority and also to review building plans with the architect, J. R. Killbreck of Wichita Falls.

Mother Philippa disclosed that a staff of three or four nuns will have charge of the management and other staff personnel will be lay people. She also said that the nuns will be available September 1963. The architect added that, according to normal progress on Hill-Burton projects, the hospital will likely be completed about the same time.

Muenster's hospital is hailed as an important asset to the entire area, not just the Muenster community. Besides offering up to date facilities here it will relieve the strain on other hospitals of the area, thereby improving conditions in those places. It also improves the prospect of attracting resident doctors, particularly here and at Saint Jo, and supplies a valuable service helping toward the continued growth and progress of the area.
