

MUENSTER ENTERPRISE

VOLUME VIII

MUENSTER, TEXAS, COOKE COUNTY, FRIDAY, JUNE 18, 1944

NUMBER 30

Fundamental logic tells a fellow that when an "irresistible force" meets an "immovable object" one of them is not going to stand up to its claim. The titanic struggle now raging in Western France aptly illustrates the point. The impregnable Atlantic Wall of invincible Fortress Europe has been pierced and, as if to make the Nazi boast even more absurd, by a force that was not ballyhooed as irresistible.

Gloating over the incident this early in the game may be slightly premature, but it seems the natural thing to do. Enthusiasm will out when success is as remarkable as ours has been. So, in spite of the warning that hectic days are coming as soon as the Jerries can move up their reserves, this column entertains high spirits, confident that the good news will continue.

In that respect there is one important factor to support my optimism. With the beachhead and air superiority across the Channel already established, our chances of bringing up reserves appear to be at least as good as the enemy's. Perhaps even better, because he is hindered by our incessant bombing. Hence it is easily possible that we'll have plenty of power in plenty of time — in sharp contrast with the well known taunt about too little and too late.

For an optimistic guy like me this event suggests any number of pleasing possibilities. First of all there's the chance that the underground forces in France will open up with the extensive campaign of behind the line activity it has promised. That would prove quite a nuisance to the Nazis. At the same time we can expect more full scale offensives on other walls of the Fortress: continuous, vicious battering that will eventually break the German morale and start their clamor for an armistice.

If some of the reports already coming from liberated French cities are true, the vaunted stubborn German morale is already cracking. Frenchmen tell how the Jerries fear British and American strength, how they have lost confidence in their cause, how they admit that the propaganda about impregnable defense, secret weapons, and all that was only a bluff to us and an assurance to their own people.

In fact the most glaring admission of their desperate predicament is to be noted in their recent fatalistic statements. Goering says his Luftwaffe will defend the Ground defenders insist they will die before giving up their positions. The point is they are emphasizing heroics more than confidence.

And even the heroes seem to be more propaganda. The number of German captives clearly indicates that they are willing to surrender rather than die. Regardless of professed devotion to the little tin god with the ridiculous mustache, they give up when they find the odds stacked against them.

As those men go, so will the nation. As soon as it is convinced it hasn't a chance it will start yelling Kammerad. Not even the strong arm methods of Himmler's henchmen will be able to keep down the clamor. This is not only the German system of waging war as shown in previous campaigns, but the practical thing to do. There's no sense in enduring continued slaughter when nothing can be gained by it.

When will the Germans be convinced? That's the question. If our present phenomenal success continues, it may be a matter of weeks. If a stalemate develops, it may be a long time.

Regardless of time, this column ventures one prediction. Allied armies will not fight their way into Germany. They'll reach there of course, but the Wehrmacht will have surrendered before they cross the border.

Before someone reminds me, here's admitting that all the foregoing is just so much superfluous and rash comment. Superfluous in that it adds nothing to the vast volume that has already been said. Rash in that a few opinions will be remembered and recalled to my embarrassment as soon as they are proven incorrect. What makes the situation worse is the possibility that developments will double cross me before this gets into print. That's the risk a guy takes when he writes almost a week ahead of publication date.

Frequent showers lately have had me worried about the crop situation in Cooke County, particularly in the western portion of Cooke County. What appears to be a dandy yield only a few weeks ago may develop into another crop failure unless conditions there have been more favorable than here.

To be more correct, let's refer (Continued on Page 8)

OUR BOYS WITH THE COLORS

Receives Promotion
It's Technical Sergeant Jimmy Lehnertz now. The promotion was received two weeks ago in Italy, where the sergeant is stationed with the 5th army. In a letter to his parents, Mr. and Mrs. Joe Lehnertz, he reported that he was well and "on the go."

At Rhode Island
Arthur Felderhoff, S2C, who recently completed boot training at the Naval Station, Great Lakes, Ill., was last week transferred to the Seabees group and sent to Camp Endicott, R. I. for further instruction. He wrote his mother, Mrs. Joe Felderhoff, that enroute to his new station he enjoyed seeing New York City. His next move, he reported, will be the west coast.

Home On Leave
Joe Yosten, MMIC, and his wife arrived Sunday from Rhode Island to attend the funeral of his father, John Yosten, and will spend most of this week here on leave. He is stationed at Camp Endicott as a member of the Seabees and his wife resides in near by Davisville.

First Furlough
Home for the first time since his induction in the army in December, 1942, is Pfc. Lawrence Knabe, who has seen more than a year of service in Alaska. He arrived last week and has 21 days to spend with his parents, Mr. and Mrs. Gus Knabe & family. Following his return to the states two months ago, he was at Camp Chaffee, Ark. where he contracted pneumonia and spent several weeks in the station hospital. Also home for a ten-day furlough is Pvt. William Knabe of Fort Sam Houston. A number of social affairs are honoring the two brothers.

Ends Furlough
Pvt. Harold Pembroke, who spent a 15-day furlough here with his wife and children and his parents, Mr. and Mrs. A.M. Pembroke has returned to his army duties at his new station at Fort George G. Meade, Maryland. Previously he was at Camp Fanning.

Completes Furlough
Pvt. Eddie Magee left Wednesday to report to San Antonio following a visit here and at Lindsay with members of his family. Previously he was at a Louisiana camp.

At Replacement Depot
T. Sgt. Walter Huchtons is now stationed at Kearns, Utah, at an overseas replacement depot. It was learned this week. He was previously on duty at March Field, Calif. He is the son of Mrs. O. J. Huchtons and has been in the army air forces since September 1940.

Weekend Visitor
Cpl. and Mrs. John Durbin of Brownwood spent the weekend here with her father, Frank Yosten and family and she remained for an extended visit when Cpl. Durbin returned to Camp Bowie Monday.

In Mississippi
Cpl. Paul Yosten was recently transferred from Camp Normoye, San Antonio, to an air base at Jackson Miss. His wife spent a week here with her parents, Mr. and Mrs. T. Miller and other relatives and last week left to join him at his new station.

Lutmer Brothers OK
Mr. and Mrs. Herman Lutmer have letters from their sons in the service advising that they are well and busy. Pvt. Henry is still stationed with the 5th army in Italy and reports seeing quite a bit of activity. Pvt. Joe is on duty in New Guinea, writes that the weather is fine in the jungles — 140 degrees — and sent a native grass skirt to his sister, Bernice Lutmer. Ferd, a petty officer with the Navy, is also somewhere in New Guinea but so far, hasn't been able to locate his brother in that country.

Spends Furlough Here
Pvt. and Mrs. Jack Fletcher of Gainesville, Florida, arrived Monday to spend a 10-day furlough here with his parents, Mr. and Mrs. J.W. Fletcher, and her parents, Mr. and Mrs. W.B. Blake, at Denison.

Furlough in Australia
Cpl. Ray Swirczynski is enjoying a 15-day furlough in Australia, he has written members of his family. Now in the southern part of that country, he is some 700 miles from his army station. "It's not like being home, but just about the next best thing," he stated.

GETS DISCHARGE

—Ralph Bezner, son of Mr. and Mrs. John Bezner of Lindsay, has received a medical discharge from the Army and is back at home. He volunteered for training as a pilot with the army air corps and was called in July, last year. He took his basic at Sheppard Field and then transferred to Logan, Utah, for primary training. In October he became ill with rheumatic fever and was confined to a hospital at Brigham City, Utah, for almost eight months after which he received his discharge. He has three brothers serving in the armed forces, 1st. Lieut. Ray Bezner, army air corps; Chief Petty Officer Hugo Bezner and Storekeeper Second Class Herbert Bezner, members of the Navy Seabees. All three have served long periods overseas, and are now back in the states.

Enoch Spires Candidate For County Sheriff

Enoch T. Spires, well known Cooke county farmer, has authorized The Enterprise to announce his candidacy for sheriff, subject to the action of the Democratic primary next July 22.

Mr. Spires resides on a farm just out of the city limits east of Gainesville, and has been a resident of the county for 39 years, during which time he has made many friends throughout this section.

A family man, Mr. Spires is the father of five children, and he has never before aspired to hold a public office.

In reaching a decision to be a candidate for sheriff this year, Mr. Spires expresses the belief that he can be of public service as head of the law enforcement agency and he solicits the support and votes of the citizens of the county.

Mr. Spires is a man of exemplary character, has made a success of his agricultural pursuits, and his friends believe that he is well equipped to make the county a good sheriff.

In seeking office, Mr. Spires says that if he is elected, he will be guided strictly by the law and intends to show no partiality to any individual or group of individuals.

He would surround himself with deputies who are well qualified to be law enforcement officers, and his ambition is to enforce the law so that justice may prevail, and the peace of the county may be maintained.

Mr. Spires expects to make an active campaign as war conditions will justify, but asks every voter to investigate his claims for the office, and to govern themselves accordingly in casting their votes.

He is confident that no voter will be disappointed if he expresses a preference for Enoch T. Spires for sheriff. (Pol. Adv.)

OUT OF TOWN RELATIVES AT LINDSAY FUNERAL

Among out of town relatives at the funeral services for John Sturm last week were: Otto Nees, Noble Okla.; Mr. and Mrs. George Sturm and daughters, Mrs. Mart Sturm in Navy and Miss Georgia Ann Sturm of Wichita Falls; Mr. and Mrs. Albert Sturm, Gainesville; Mr. and Mrs. Joe Sturm, Muenster; Mrs. J. W. Parker, Corpus Christi; Mr. and Mrs. L.S. Bruns, Gainesville; Miss Rebecca Bruns, Oklahoma City; Mrs. Edward Sturm and son, Pilot Point, and Mr. and Mrs. A. Kleiss, Muenster.

Sam Risch of Milan, Mich., spent the week here visiting his brother-in-law, John Hartman and family, and his son, Cpl. Leonard Risch, stationed at Camp Howze. Another visitor at the Hartman home on Sunday in addition to Mr. Risch and his son was Cpl. Hank Meyers, also of Camp Howze.

Fifth War Loan Campaign Opens Here Monday

First Day Purchases Chalk Up About 5% Of Community Quota

Bond sales in Muenster on Monday, the opening day of the Fifth War Loan drive, chalked up about \$4,000 towards the local goal of \$85,000, and is a good beginning, according to Mayor J.M. Weinzapfel, local chairman. "This is a drive, however, in which there can be no let-up, until the quota is reached," he said. "It's going to take full cooperation of every citizen in the community to make the drive a success as this is one of the largest amounts ever assigned in any drive," he said. "But we've bought the others, and we can finish this job, too."

Realizing that the campaign comes at a busy time for everyone and being confident that local citizens will give to the fullest measure of their means, the chairman asks that persons purchase their bonds now, and get this out of the way so that they can get on with their crops, or whatever else they have to do.

Gainesville "Raided"
Civilian D-Day in Gainesville brought an invasion of 100 armored cars, half tracks and jeeps from Camp Howze on Monday.

Eight hundred troops rolled into the city with sirens shrieking and machine guns firing. In two minutes streets were blocked and guards were posted in front of every business establishment.

The result: More than \$125,000 in war bonds were subscribed in 15 minutes as the judge advocate held court with prominent citizens taken into military custody until they purchased bonds.

The county quota in the drive is \$1,290,000, John Hardy is chairman.

Food Preservation Demonstration To Be Held Here Monday

Newest methods of food preservation and storage will be demonstrated here next Monday, June 19, when the War Foods Committee will meet with persons of this section in the parish hall at 2:30. Heading the county committee to lead Muenster will be Mrs. Julia Kelly, county home demonstration agent and Mrs. Estelle Trew, of Gainesville.

All persons who possibly can, are urged to attend this session. Many helpful canning hints, along with the newest methods of canning and storing food will be demonstrated. Both pressure cooker and hot water bath methods of canning will be shown, and much valuable information will be available.

The meeting is to be open to the public and all are welcomed to attend, it has been emphasized.

SEVERE BURNS SEND FRANK HENNIGAN TO HOSPITAL FRIDAY

Frank Hennigan, son of Mr. and Mrs. H.P. Hennigan, is confined to the Muenster Clinic since last Friday as the result of painful burns sustained on his legs, hands and arms, when the tractor he was filling with gas burst into flame.

The burns range from first to third degree in severity and will keep young Hennigan in the hospital for sometime. His condition this week is reported satisfactory although he is suffering considerable pain.

J. H. COOKE RECOVERS FROM RECENT OPERATION

J.H. Cooke, 84 returned home Tuesday and is resting well following a major operation at Medical Arts Hospital in Dallas on June 6.

His son, Reeve Cooke, was at his bedside during the operation and all members of his family visited him during his illness. They included Joe Cooke of Odessa; Mr. and Mrs. Bob Cooke, Sweetwater; Mr. and Mrs. Don C. Cooke, Muenster, and Mrs. John Rice of Wheaton, Ill., who accompanied him home.

Pvt. Henry Neises of McClosky General Hospital, Temple was here Monday to spend the day with his aunt, Mrs. Frank Seyler and other relatives. Also visiting Mrs. Seyler on Monday were Mr. and Mrs. T.L. Anderson and children of Gainesville and Mrs. John Mosman and children of St. Jo.

Brief Illness Takes Life Of John Yosten Thursday Afternoon

Muenster K of C's Reelect A. Endres As Grand Knight

Muenster Council Knights of Columbus reelected Arthur Endres grand knight Wednesday evening during a regular meeting that featured the election of officers for the coming year.

New officers to serve on the executive committee are C.M. Walterscheid, deputy grand knight; Ben Seyler, advocate; Earl Walterscheid, inside guard; Bernard Wolf, outside guard; J.W. Fisher, treasurer; Paul Endres recording secretary, and John Klement, a member of the board of trustees for a three-year term.

Officers reelected for another year are J.P. Flusche, warden, and J.A. Fisher, chancellor.

Appointive offices, those of lecturer, chaplain and financial secretary, were made resulting in the re-appointment of Charlie Hellman for the former, Rev. Thomas Buerger for chaplain and Joe Luke for the latter.

Interesting reports of the recent state convention at Austin were given by Arthur Endres and J.W. Fisher, and all members were urged to participate in the forthcoming blood plasma gathering at Gainesville. Members were requested to register immediately so that they can donate on Muenster Day, June 20.

Muenster Receives First 1944 Wheat Thursday, June 9

The first load of 1944 wheat was brought to Muenster Friday morning, June 9, by Joe Trubebach and sold to Kimbell Mill and Elevator here for \$1.41 per bushel. The wheat was raised on Trubebach's farm north of the city. It tested 60, grading No. 1.

Trubebach was unable to determine how much the wheat would make per acre, but expected an average yield. One field in the bottom produced 30 bushels per acre.

Another load of wheat later the same day, was brought in by G.H. Hellman to Morrison's Elevator here. It tested 61 grading No. 1. Hellman also expected an average yield this season.

The first load of wheat last year was brought to Muenster by J.B. Wilde on June 10 and was raised on the J.H. Cone farm.

Combined wheat is coming in steadily to both local elevators. Melvin Hesse is in charge of Kimbell's and Eddie Rohmer is managing Morrison's.

MORE BLOOD DONORS URGED TO REGISTER

Time is running out for Muenster residents to place their names on the list of those who will donate blood for conversion into plasma needed in the treatment of wounded servicemen.

The mobile unit of the blood donor service of the American Red Cross will be set up at Gainesville June 19-25, and Tuesday, June 20, has been designated as "Muenster Day". More donors are needed to assure maximum operation of the unit.

Unassigned donors in the Muenster area are urged to make their appointment to donate their blood by telephoning the Muenster clinic or Fisher's Market, or to contact Miss Dorothy Hartman or J. W. Fisher.

PLANS MADE FOR XMAS MAIL SENT OVERSEAS

Although Christmas is 6 months off, plans are now being made by the Post Office, War and Navy Departments to handle packages to overseas servicemen. The volume for the coming season is expected to surpass last year's record.

From September 15 to October 15, Christmas gift packages for men overseas will be accepted. It has been announced. Such packages may weigh no more than five pounds and cannot exceed 15 inches in length and girth combined. Only one such package will be accepted from the same person to the same addressee during any one week, the War Department announced.

Funeral Services Held Monday Morning From Sacred Heart Church

Funeral services were held here Monday at 9 o'clock from Sacred Heart church for John A. Yosten, 70, a citizen of this community for 43 years, who died at his home the preceding Thursday. Pastor Rev. Thomas Buerger was celebrant of the requiem high mass, delivered the sermon for the occasion, and officiated at the burial in the local cemetery.

Serving as pallbearers were six nephews of the deceased: Henry Yosten, Urban Endres, Jimmy Endres, Werner Yosten, Buddy Yosten and Al Swirczynski. Arrangements were under the direction of Mrs. Nick Miller.

Mr. Yosten's death came as a severe shock to his family and his friends. He was ill only a week. A heart ailment was responsible for his death, and neither he nor his family had been aware of the fact that he was suffering from such a condition. He was active about his home until seven days before his death.

A native of Ridgely, Neb., where he was born May 10, 1874, a son of the late Mr. and Mrs. John Yosten, Sr., the deceased came to Muenster in 1901 and engaged in farming, first south of the city and then northeast of town until two years ago when he retired from active work and moved to the city to reside. On May 8, 1905, he was married to Miss Hattie Endres. She died in January 1941.

Mr. Yosten was a charter member of the Muenster council Knights of Columbus, and during his residence here took active interest in parish and community affairs. He was possessed of a gentle good-humored nature and had many friends throughout this sector.

Survivors are five sons and five daughters: Joe Yosten, MMIC, a member of the Seabees, stationed in Rhode Island; Frank Yosten, S2C, reported missing in Naval action since the sinking of the U. S. S. Jarvis in September, 1942; Cpl. Andrew and Pvt. Richard Yosten, of the army, stationed in England; and Walter Yosten, who resides at home. Mesdames Joe Horn, Ed Pels, Bernard Sicking, and Arnold Hesse, Muenster, and Mrs. Leo Hoedebeck, Wichita, Kansas, and 14 grandchildren.

Also surviving are a sister, Mrs. Joe Swirczynski, Muenster, and 6 brothers: Frank, Nick and Bob Yosten, Muenster; Matt, Howells, Neb.; Barney, Wisner, Neb., and George, Stanton, Neb.

Among out of town relatives at the funeral were Mr. and Mrs. Leo Hoedebeck and four children of Wichita, Kansas; Seabee Joe Yosten and wife, Davisville, R.I.; Barney and Matt Yosten, Nebraska; Mr. and Mrs. Al Swirczynski and daughter, Allene, Dallas; Mr. and Mrs. Stan Yosten and Miss Dorothy Mae Yosten, Fort Worth; Cpl. and Mrs. John Durbin, Brownwood, and Mmes. Alex and Walter Pulte, Gainesville.

SPECIAL SERVICES OBSERVE FEAST OF CORPUS CHRISTI

Sacred Heart parish observed the feast of Corpus Christi with the traditional services and with added pomp and splendor last Sunday.

At 7:30 in the evening the congregation formed a solemn procession to the two small chapels and attended benediction services then returned to church for the third benediction.

Special decorations of green boughs and streamers decorated the church and the procession route. Banners of the four parish societies were displayed and, the Muenster Youth Band, a group of flower girls, and Fourth Degree Knights in full regalia formed an escort for the Blessed Sacrament which was carried under a canopy by Father Thomas.

Weekend Pass

Sgt. Bernard Schmitz of Camp Chaffee, Ark., spent Saturday and Sunday here with his parents, Mr. and Mrs. H. M. Schmitz, on a weekend pass.

Earl Otto has received an honorable discharge from the Navy and is back at home here. He is the son of Mr. & Mrs. A. A. Otto.

LOCAL NEWS BRIEFS

Short Items of Interest About Folks You Know

Visiting Jerome Pagel Monday was Jack Slaten of Bowie.

Cpl. Joe Sylvester of Camp Howze was a weekend guest of the Joe Lehnertz family.

Mr. and Mrs. Joe Bergman had as their guests last Friday, Mr. & Mrs. John Vieth of Scotland.

Mrs. H.J. Fuhrmann is recovering from a dental operation performed at Gainesville last week.

Miss Dorothy Nell Fletcher is back in the city after spending three weeks with friends in Denison.

Mr. and Mrs. J.W. Fletcher had as their guest Monday, Mrs. W. B. Blakemore of Denison.

Mr. and Mrs. Anthony Laux of Lindsay spent Sunday with her parents, Mr. and Mrs. Henry Fleitman.

Mr. and Mrs. Horace Morrison of Norman, Okla., spent the weekend with her sister, Mrs. Orin Edelen and family.

Miss Catherine Swirczynski spent the weekend in Emporia, Kansas, visiting her sister, Mrs. Alex Knauf and family.

Mrs. Roy Schumacher, the former Miss Angeline Knabe, is visiting in Hammond, Ind., with her husband's relatives.

Miss Mary Ann Reiter joined the Enterprise staff Monday. She will replace Mildred Fette, who plans to continue her college work when the fall term opens at Teachers College, Denton.

Mrs. Albert Wilde and children, Wanda Gale and Douglas Wayne, have returned to their home in Sebastian, Texas, after spending a month with her parents Mr. and Mrs. Joe Bergman.

Mrs. R. R. Endres will be hostess to Catholic Daughters of America at their regular monthly social on Thursday evening, June 23. She will entertain in her home and ask that all members attend.

Mrs. Melvin Fisch, the former Miss Henrietta Wiesman, is in Chicago for a visit with her husband's parents. Pvt. Fisch was shipped from Camp Howze to a port of embarkation last week.

Miss Edith Mae Rhodes spent the weekend here with her parents and on Monday left for Glen Rose to be an art instructor at a girls' camp for the summer. She taught at Wichita Falls during the past school term.

Misses Johann and Margie & Billy Seyler were in Dallas Saturday and were accompanied home by their grandmother, Mrs. Frank Seyler, who has been visiting there with her daughter, Miss Catherine Seyler.

Little Patsy Fette had her tonsils removed at Sherman last week and was brought home Saturday after spending three days in St. Vincent's hospital. Her mother, Mrs. Joe Fette, stayed at her bedside.

Mrs. E.P. Buckley and Miss Juanita Weinzapfel drove to Oklahoma City Saturday to visit the former's relatives and were accompanied home by Miss Betty Lue Buckley, who had spent the past week there.

Mr. and Mrs. Joe Fleitman, Jr., are the parents of a daughter, Doris Lee, born at the local clinic on June 8. At the baby's baptism the following day Father Thomas officiated, assisted by Raymond Bengfort of Lindsay and Miss Elizabeth Fleitman as sponsors.

Mr. and Mrs. Bill Marshal and family have returned to San Antonio after a visit here with her relatives, members of the Wiesman Gremminger, Haverkamp & Knabe families. Mrs. Marshal was Miss Clara Wiesman of Wichita Falls before her marriage.

Mr. and Mrs. H.C. Billingsly and daughter of Ardmore, Okla., spent Sunday with her mother, Mrs. Wm. Wieler and other relatives and were accompanied home by their son, Leroy, who had

Political Announcements

The following persons have authorized The Enterprise to announce their candidacies for political offices, subject to the Democratic primary election, July 22, 1944.

For Congress, 13th District:
 GEORGE MOFFETT, Hardeman County.

ED GOSSETT, Wichita County (Re-election)

For District Judge:
 BEN W. BOYD (Re-election)

For District Clerk:
 MARTIN G. DAVIS (Re-election)

For County Judge:
 CARROLL P. SULLIVANT (Re-election)

For County Attorney:
 RAY WINDER

For County Clerk:
 TOM BLOUNT

For Commissioner Prec. 4:
 J. E. (Earl) ROBISON (Re-election)

For Commissioner Prec. 3:
 J. R. (Robert) LITTLE (Re-election)

For Sheriff:
 O. B. WINTERS
 CARL WILSON (Re-election)
 ENOCH T. SPIRES

For County Treasurer:
 MRS. EVA G. TOWNSLEY (Re-election)

spent the past week here as the guest of his cousins, Bert and Dan Hamric.

Mr. and Mrs. J. W. Patrick formerly of this city and now residents of Allen, Okla., were in Muenster for a visit last week. They advised that their son, Cpl. J. W. Patrick, has been overseas with the army for almost three months and when last heard from was stationed in England. He is an airplane mechanic.

Mr. and Mrs. Emmet Fette and Rosa Driever were among guests at Gainesville Tuesday evening for a program given to compliment editors and publishers of newspapers in this territory. The Cooke County Fair Association was host for the affair. Miniature golf, supper and carnival mid-way attractions furnished a delightful evening.

Mrs. Wm. Terrell, who has been visiting her parents, Mr. and Mrs. J. W. Fletcher, here for the past several weeks, spent last week in Fort Worth taking treatments for a leg ailment. Her husband who is taking special army training in New York, was recently promoted to the rank of sergeant and will be back at his post in Kansas soon. Mrs. Terrell will join him in the near future.

Miss Rose Mary Fisch, who underwent an operation for the removal of her appendix at Gainesville on June 1, was brought home Sunday and is resting well at the home of her parents, Mr. and Mrs. John Fisch. She will be confined to bed for at least another week. On June 3, Rose Mary's sister, Mrs. Richard Graff, submitted to an operation for the removal of her appendix at Sulphur, Okla., and has recovered normally, according to word to relatives here.

Miss Olivia Stock attended the monthly meeting of the County Council of Home Demonstration Clubs held at the club house, Fair Park, Gainesville, Saturday afternoon. She substituted for Mrs. J. M. Weinzapfel, chairman of the local 4-H Club girls' activity and member of the council, who was unable to attend. Miss Swift of A. & M. College Extension Service was guest speaker and delegates to the recent district meeting at McKinney gave reports.

Ena Bob Richardson who formed a number of friendships here and at Lindsay, as the result of a visit last July when he accompanied the late Ens. Richard Fette on a cross country flight and spent five days with members of the Fette family here was a recent casualty of the present war. It was learned this week. He served as a fighter pilot and was killed

A MECHANICAL MARKER OF THIS WAR IS THE BOPERS 40-AM ANTI-AIRCRAFT GUN. AN ELECTRIC BRAIN RUNS IT. ELECTRIC MUSCLES POINT THE BARREL AT TARGETS, AND THE SHELLS ARE FIRED AUTOMATICALLY.

NEW MEXICO INDIANS REPLACE WAR-SCARCE VERDUGUE STOVES BY REKINDLING THE FIRES IN THEIR ANCESTORS' MUD OVENS.

A NEW CHEMICAL "SHAVE" REMOVES ALL HAIRS FROM A PIG.

THE FROZEN FOODS INDUSTRY IS NOW FREEZING FRESHLY BAKED BREAD, CAKE, AND PIES.

FOURTEEN COAST GUARDMEN DISCOVERED A 35-FOOT UNMANNED BOAT BEACHED BY A HIGH TIDE, AND ABOUT TO BECOME A MOUND. THEY PUSHED HER BACK—ARE NOW EMPLOYED OFFICIAL SCOPERS.

Plant The Garden Again For Food All Summer Long

A good gardener is one who continues planting throughout the full spring period, according to J.F. Rosborough, horticulturist for the A. and M. College Extension Service. He recognizes, for instance, that beans being picked now won't last all summer and makes a second planting. In that way he assures himself a continuation of green string beans until dry, hot weather stops production.

This is also true of tomatoes. In most parts of the state the early crop will be picked in late June and July. Thereafter summer tomatoes, which are of a different type, must be looked to for the home table supply. Rosborough says. Varieties like Porter, Danmark and Cherry, though small in size are dependable for production because the plants are resistant to heat and drought. Small plants or the seed planted directly in the row, is the method of starting the second crop but its not advisable to prune or stake the plants. During the hot, dry weather a canopy of foliage is needed to prevent the fruit from blistering or becoming sunburned.

Green pepper, okra, squash, butter beans, eggplant, blackeye, cream, or purple hull peas, and shallot onions are hot weather, or heat-resistant, vegetables. Rosborough suggests that every garden should have space for them so

that midsummer will not find idle places in the Victory garden. Accordingly, if they are not already growing they should be planted in the near future.

Blackeye, cream or purple hull peas can be planted now for late June and July production. A second planting should be made in mid-June for late July and early August production. Allow three feet between rows and six to ten inches between plants for easier cultivation.

Don't run a Victory garden on half time. Rosborough counsels. Every foot which can be utilized and every plant which can be made to produce is going to be needed to keep the nation in food this year.

Your Health

BY GEO. W. COX, M. D.

AUSTIN, TEXAS.—The State Health Department's efforts to control venereal disease in Texas is showing highly gratifying results in the number of cases found, and cured in the quarantine and rapid treatment centers.

In a report this week, Dr. Geo. W. Cox, State Health Officer, disclosed that approximately 2000 infectious cases of gonorrhea and syphilis have been treated and dismissed as cured in the rapid treatment centers now in operation. Located at San Antonio, Corpus Christi, Mineral Wells, and El Paso, these hospitals have a combined capacity of 250 beds. It is expected that a fifth center will open at Waco about the middle

of June providing beds for 100 additional patients.

"At the present time," Dr. Cox said, "there are nearly 300 patients in these four hospitals and the treatment now used will effectively cure the average venereal disease patient."

The staff of trained investigators who trace contacts and locate the sources of infection have been concentrating their efforts in military areas with excellent results. All contacts found to be infectious and who refuse to take treatment from their family physicians are placed in quarantine and treated until cured.

Household Hints

Rub wax on window sills, venetian blinds and work surfaces and cabinets in Kitchen. It protects the finish and makes cleaning simpler.

Use an ordinary paint brush to dust your furniture, particularly if it has elaborate design. Cleans well and saves time.

French chalk dusted on will remove most grease spots from wallpaper. Leave it on for several hours, then brush off with a soft cloth or small brush.

To prevent gloss coming off white paint, wash with milk and a little soap.

When window shades become soiled turn them upside down,

stitch a new hem, and tack the old hem to the roller.

Dissolve a lump of salt in the kitchen sink every once in a while. Keeps it sanitary.

Keep eggs, matches, salt, fruit juice and rubber away from silver. They tarnish it.

Rub the meat of a pecan nut into a bad scratch on highly polished furniture. Then rub with furniture polish. The scratch can hardly be seen.

Coffee made the electric percolator way is made quickly, cheaply and with less fuss and bother. It's handy too. Can be plugged in for service at the table.

Busy farm women who cook for large families, hired men, or holiday celebrations, find the electric mixer a great joy and time saver.

—Keep 'Em Firing With Junk—

You Can't Look YOUR BEST—! Unless Your Clothes Look Their Best.

Conservation Farming Pays Big Dividends

By J.N. Gearreald

Conservation farming is the wisest possible and the greatest possible use of soil and water resources, so that each acre will produce the maximum amount of the crop it is best suited to produce. For example, it is wasteful and inefficient in wartime to plant peanuts on land that is better adapted to wheat, or to use for watermelons land that could grow peanuts. Upper Elm-Red District program is designed to further the practical application of this philosophy to the land.

Conservation farming is made up of a whole pattern of economic, agronomic and engineering techniques, because there is no one panacea for all the problems of how to use the land.

Not all of these techniques are new. Some of them are practices

that good farmers have been following for many years, such as crop rotations, and manuring. Others are measures that have been developed within the last decade or two. When fitted together, they comprise a system which enables the farmer to use his land as intensively as necessary and at the same time protect his soil from damage or loss.

Conservation farming does at least four specific things: 1. It maintains or increases crop yields per acre; 2. It protects soil against erosion by wind or water; 3. It conserves soil moisture; 4. It makes greatest use of soil improving crops and fertilizers for production. Fortunately, the relatively simple practices which are most effective in increasing crop yields per acre—a vital wartime consideration—will maintain the soil so that it can keep on producing at top levels throughout the war period and as long afterward as may be necessary.

Someone wants to know why they need so many bureaus at Washington. That's easy. They have to have some place in which to keep the red tape.

True or False?
Is fish a brain food? Sorry, but scientists say that fish does no more for your brain than any other food, and not even a tin of fish will make you a mental giant. But fish is a good protein food—equal to meat.

Dampening Clothes
Use warm water to dampen clothes. It spreads through the fabric more quickly. Let dampened garments stand at least half an hour, if possible, to allow moisture to penetrate. If you must iron immediately, use hot water and more of it.

Leo N. Henscheid, Mgr.

Münster

The TEXAS POWER & LIGHT COMPANY REPORTS TO YOU ON ITS PERFORMANCE DURING 1943

THIS COMPANY, during the war-year 1943, produced more electric power than ever before in its history. Every requirement for electricity was met promptly and effectively... for military installations... for war industries... for all of its regular residential, farm, commercial and industrial customers... and, in addition, the Com-

pany helped substantially in supplying needed power to adjoining areas of the great Southwest. Thus, did this Company's policy of planning and building ahead of actual requirements serve greatly in this time of national crisis. Here follows a few of the highlights of the Company's performance during 1943.

40,000 HORSEPOWER ADDED

Addition of a huge 40,000-horsepower turbo-generator increased the total capacity of the Trinidad power station to 158,000 horsepower... bringing the combined capability of the nine generating stations of the Company to 189,142 horsepower. Construction of the new power unit was started before Pearl Harbor... completed at a time when more power was needed in the Southwest for the war program.

EMPLOYEES SERVE WAR PROGRAM

More than 300 regular employees of Texas Power & Light Company are now in the Nation's armed forces... serving on every front. The employees on the home-front are actively engaged in all types of war work... selling War Bonds and Stamps... Buying War Bonds themselves... taking part in the various civilian war activities.

TAX BILL EXCEEDS PAYROLL

The Company made a substantial contribution to Victory through its 1943 taxes... the largest item of operating expenses, amounting to \$2,745,000, an increase of 42.6 per cent over 1942, and more than double those of 1940. The Company's taxbill in 1943 was equivalent to an average of \$16.92 for each customer served, and exceeded by 21 per cent the total of the Company's operating payroll.

MEETING WAR NEEDS ELSEWHERE

Through its vast network of transmission lines, the Company supplied electric power throughout the year to the Southwest Power Pool for delivery to a war plant in Arkansas... and, during the latter part of the year, made additional needed power available to adjacent areas.

SERVING THE HOME FRONT

Assisting customers in care and use of war-scarce appliances... training repairmen to replace those taken by war activities... providing counsel in food-preservation, plans for increased food-production... cooperating with the Red Cross, War Chest and other wartime home-front activities... are some of the additional ways the Company contributed to the Victory program.

SERVING A VITAL AREA

This Company serves a 52-county area in Texas, comprising 445 communities, of which more than 92 per cent have populations of less than 2,500. At the end of the year the Company was serving 162,022 customers, of which more than 25,000 were rural and farm homes. We were also supplying power at wholesale to 19 R.E.A. Cooperatives which serve a large number of additional farm homes. Among the Company's customers are many military installations and war industries.

Sanitation in Poultry
 A poultry house swept and visibly clean doesn't always mean that it is sanitary. Many disease germs, worm eggs and external parasites may be present but not visible. A house is at its best after it has been scraped with hoe and shovel, scrubbed with hot lye water, and then sprayed with a good cresol disinfectant after drying, says Albert Briant, County Agent.

Sanitation is expressed in the effort to keep surroundings and equipment clean in order to prevent disease and losses. Regardless, high death rates sometimes occur in flocks cleanly housed. This may be due to attempting to fit too many birds into too little space having inadequate equipment. This he believes verifies the adage that "it makes no difference how many birds you put into a house, they will die down to fit the house."

Sanitation also involves other safeguards against disease such as having disease free chicks, blood testing flocks regularly for pullorum disease, removing daily all visibly sick birds, and quickly destroying all dead ones.

Good chicks deserve a chance, which means protecting them against disease from infancy. Old stock are the most likely carriers of disease and parasites. Isolate the most old hens from the chicks and disease hazards not only would be greatly reduced but many poultry disease problems would disappear. That's the only way rump and colds can be controlled.

Old birds never should be brought in from the outside and placed with the farm flock. The double hazard in doing this is the possibility of contacting a disease, especially rump. If old birds have to be brought in they should be quarantined with about six of the home birds for one month. If neither develop disease the addition may be safe. But the best precaution to get rid of the old birds after the first laying season and replace them with pullets which have been reared separately.

One other big role in sanitation is cleaning brooder houses twice weekly or oftener to prevent coccidiosis. This is the only fool-proof method.

Report Reveals TPL Alert In Wartime Civic Activity

The report stressed the Company's close cooperation with Red Cross, War Chest, and other civic wartime activities. Much of the Company's advertising was devoted to support of War Bond sales, Army and Navy enlistment programs, and wartime conservation programs.

The report tells of a comprehensive program inaugurated by the Texas Power & Light Company to assist its customers in meeting wartime problems which included informing customers as to approved methods of caring for and using electrical equipment, conducting training schools to develop reliable appliance repairmen, stimulating interest in the growth of Victory Gardens, and furnishing information on nutrition, methods of canning and dehydrating foods. Special aid was directed to farm and rural customers through a monthly bulletin, "Farm Electrification News" which published plans and instructions for building homemade electrical farm equipment from non-critical materials.

More than 300 T. P. & L. employees were serving in the armed forces at the close of 1943, and the

PLANE TALK
 BY Rowland Burnstan

The helicopter is a type of aircraft that has received considerable publicity during the last two years. Contrary to general opinion, it is a device that has been known and experimented with by aeronautical engineers for at least thirty years.

In some instances it is similar to the autogiro, primarily in that it has a large rotor, or blades, which act as airfoils and provide the lift. Motion forward, backward, sideways, etc., is controlled by changing the pitch of the rotor blades. The chief respect in which it differs from the airplane and autogiro is that it does not have the conventional type of propeller or airscrew to pull it through the air, and the airfoils, or lifting blades, are mechanically revolved for flight.

The helicopter has advantages over the airplane and autogiro in that it can ascend and descend vertically, or it can hover at a fixed point in the air.

annual report pays tribute to them and to the remaining employees, who, despite the handicaps of reduced personnel and intensified operation, achieved the best safety record in the history of the Company.

Under the Company-sponsored program for employee welfare, a total of \$20,458 was paid to employees or their beneficiaries during 1943, covering hospitalization, sick benefits and death claims.

At the end of the year the Company was serving 162,022 customers, an increase of 5,894 during the year.

T. P. & L. operating revenues for 1943 increased 15% over 1942. A large portion of this gain, however, was absorbed by higher operating expenses and taxes. Taxes amounted to \$2,743,008, or an average of \$16.92 per customer served. The taxes paid by the Company exceeded its total payroll by 21 per cent.

Noteworthy in these days of rising living costs was the fact that the average household user of T. P. & L. service in 1943 paid 36% less per kilowatt-hour than in 1929.

Whether the year will show is entirely up to you, said the doctor to the sweet, young thing.

The most trusting are the most trustworthy.

Don't try to keep up with your neighbors; let them keep up with you.

To the People of this Community

There are many urgent reasons for buying War Bonds. First, the invasion needs money. Bonds pay for planes and guns and munitions with which to beat the Axis. Our fighting men must have the best possible equipment and it is up to us to let our money provide this.

A second reason is this: There is a shortage of goods now. Later on there will be plenty for civilian desires. Money put into War Bonds now will be available then. Business opportunities will be open then, too, and the "nest egg" saved now may hatch out commercially then.

Money put into War Bonds now will be deprived of its current potential as a part of the causes of inflation. You will be doing your part toward stabilizing the money situation by buying Bonds instead of dwindling stocks. That is a third reason.

But the best reason from a selfish viewpoint is this: Right now there is no better investment than War Bonds. There is no safer repository for your money. By buying Bonds you become a stockholder in the strongest "going" concern in the world today, the United States of America.

When you hope you don't intrude, you usually do.

One way to tell a woman's 1944 hat from a 1943 bird's nest: the hat will be on a woman's head. The nest will be in a tree.

The same slogan is appropriate for war bonds and victory gardens — dig down.

DRIVE IT HOME!

"That's the way I like to see them," said Gen. MacArthur when he saw the rows of dead Japs in the Admiralty Islands. In this war—the costliest, cruelest war of all time—our boys must fight with savage fury. Kill or be killed! And on how well each plays his part depends the lives of many of his buddies.

Here on the home front, too, just cheering the attack on isn't enough.

That's why there's a Fifth War Bond drive on now, a drive in which you're needed to support the men on the fighting fronts who are facing the most treacherous forces Americans have ever met in combat. We on the home front can't let them down—and we won't. So resolve now to at least double your Bond buying in the 5th War Loan drive. This is the time to do better than your best.

Gelatin Has Many Worthwhile Uses

A box of gelatin may have a place with your home laundry aids, as well as in your kitchen cupboard.

Gelatin is a good remedy for rayon dresses that become limp and wrinkle easily after washing. Mrs. Dora R. Barnes, clothing specialist for the A. and M. College Extension Service, says the process is simple: Just dip the dress in a gelatin and water solution.

Starching is not successful with most rayon fabrics, but plain granulated gelatin, softened and when dissolved in water likely will give the needed "body" or filling. The amount of gelatin used will depend on the stiffness desired, but usually two tablespoons should be enough. You might use less for sheer rayon, Mrs. Barnes says.

Here are her directions: "First, soak the gelatin a few minutes in a little cold water, then dissolve with boiling water. Pour the solution in a bowl large enough to hold the dress and add enough cold water to be comfortable for your hands. After the dress is washed and rinsed, dip it in the gelatin solution and squeeze it gently. Then roll the dress in a thick bath towel until it is dry

enough to iron. Finally, remember that ironing rayon requires low heat."

Dedication Of New Denison Dam Set For July First

Coincidentally with the announcement of July 1 as the dedication date of the \$54,000,000 Denison Dam, water in the lake which it impounds rose four feet recently as a result of heavy rains, bringing the water level to approximately 584 feet.

Tentative program plans for the dedication, under supervision of the United States Army Corps Engineers, Denison District, include Honorable Sam Rayburn and Senator Elmer Thomas as principal speakers and the presence of high government and military personnel. The business interests of Denison have formed a committee to assist in the entertainment of the guests.

Denison Dam, largest earthen rolled-filled structure of its kind in the nation, forms the fifth largest man-made lake, with a surface area of 140 square miles and a 1,250 mile shoreline.

Extensive plans for postwar recreational facilities include an impressive resort at Preston Bend on the Texas side and several

MOOS OF THE MOMENT

BY UNCLE BOB

of the Kraft Dairy Farm Service

With the coming of hot summer weather, every dairyman faces the attack of one of our most dangerous enemies—the insect. It's a merciless war and if the insect pests win it means irritated cattle and lowered milk production. The loss that insect pests inflict upon dairymen runs into the scores of millions of dollars every year.

There's no time like the present to open up a "second front" upon these allies of the Axis and we've prepared a handy guide to help you win the fight. It is called "Your Handy Guide for your War on Insects". It contains a brief description of the principal insect pests, where they are found, what they do, and what you can do in the way of control and treatment.

This guide may be tacked to the wall of your barn for ready reference. I am giving this guide away free. There is no charge or obligation of any kind. You may get the guide from your Kraft fieldman or by writing to me in care of the Kraft Cheese Company, 500 Peshtigo Court, Chicago, Illinois.

If we give our insects here at home the kind of a beating that the Allies are handing the "insects" in Asia and Europe, we'll be doing all right.

A few weeks ago I mentioned the studies made at the University of Minnesota which showed how much faster milk could be cooled with water than with air. Since then, I have had several requests for information on how to build a good emergency water cooler. A bulletin from Tennessee illustrates how one may be made from a barrel with a minimum of expense.

The diagram at the left is taken directly from this bulletin. This, of course, is an emergency device. The best cooling system is the milk house tank. If you can use one of the barrel coolers in the meantime, I suggest you write for Dairy Letter No. 4, Department of Agricultural Extension, University of Tennessee, Knoxville, Tenn.*

Now if I could just figure out some way of walking around in one of those barrel coolers during hot weather, I'd be mighty happy.

Of course, every dairyman who wants to do the best kind of a job should be thinking right now about the kind of a milk house he intends to have sooner or later.

Your county agent probably has plans for different types of milk houses which have been made up by the state agricultural extension service. Your Kraft fieldman or the manager of your nearest Kraft plant will be glad to co-operate in any way he can.

The fellow who wants to go to the city and make hay — hey, would be a lot better off if he would go to the field and make hay—hay for his cow.

Which brings up the subject of the right time for cutting hay. All of the extension services agree that hay has different food values at different stages of maturity. They also agree that it should be cut early for highest food values.

For example, in Bulletin 218, Minnesota advises that clover hay will be much higher in food value if cut when the first heads begin to ripen. They also recommend that all grass hays be cut before they come into bloom to get the maximum protein content. Sweet clover, too, should be cut before the first blossoms appear because the stems rapidly grow woody.

In Bulletin 242, Purdue University recommends that alfalfa be cut after the one-tenth bloom stage and before full bloom. In Bulletin 346 on soybeans, Purdue describes a series of chemical analyses to determine the food content of soybean leaves, pods and stems during the later stages of the growing period.

As a result of these analyses, Purdue recommends that soybean hay be cut when the pods are completely formed, the beans practically fully developed in the pods with the lower leaves turning yellow. This stage is superior to earlier ones for both milk and butter-fat production.

If you do not have Minnesota's Bulletin 218, write the Extension Service, University of Minnesota, St. Paul, Minnesota.* For the Purdue Bulletin, write the Extension Service, Purdue University, Lafayette, Ind.*

*NOTE: There usually is a 5c charge for pamphlets mailed to non-residents of a state; but possibly your own state has a free pamphlet on the same subject. Ask your county agent.

What news will Gen. Eisenhower get from us?

You know now what we've heard from him.

We've heard that Eisenhower and his Americans have hurled themselves like a thunderbolt against the bristling defenses of Hitler's Wehrmacht!

We've heard that they are smashing at our foe — sparing neither steel nor sweat nor blood in one final, furious assault that marks the supreme military effort of this War!

And what news do Eisenhower and his men expect from us?

Men and women of America — what the Invasion is to our fighting men, the 5th War Loan is to us at home!

For us, as well as for them, this is the crisis — the time for tremendous, overwhelming effort! Make no mistake! The 5th War Loan will undoubtedly be the biggest, most vitally important financial effort of this whole War!

If the 5th War Loan is to succeed, each one of us must do more than ever before — must buy double . . . yes, triple . . . the Bonds we bought last time.

Our men expect to hear that we are buying double — that we are matching their sacrifice as best we can — that the American nation, soldiers and civilians together, is making one gigantic effort to win this War!

That's the news our men expect to hear from us. Will you personally see that they get it?

And here are 5 More reasons for buying Extra Bonds in the 5th!

- | | |
|--|--|
| 1. War Bonds are the best, the safest investment in the world! | 4. War Bonds will help win the Peace by increasing purchasing power after the War. |
| 2. War Bonds return you \$4 for every \$3 in 10 years. | 5. War Bonds mean education for your children, security for you, funds for retirement. |
| 3. War Bonds help keep prices down. | |

A.—New hospital to be erected at Gainesville.—League considers joining Federation of Garden Clubs.—Row crops helped, grain little hurt by Sunday showers.—Frank Hoedbeck appointed city marshal.—Albert Steinberger and Monte Carter married at Gainesville.—Rev. Frowin Koerd on vacation in Arkansas.

Gainesville Fair Park Is Popular Amusement Center

Fair Park amusement zone in Gainesville is fast becoming one of the most popular playgrounds in North Texas and last weekend 15,000 persons enjoyed the various attractions on the grounds.

Highlighting the entertainment are the Bill H. Hames Shows the Southwest's largest carnival midway presenting 15 shows and rides, including twin ferris wheels, merry-go-round, Dodgem, Loop-o-plane and many others.

Permanent attractions which never fail to have large crowds of devotees on hand are the roller rink with its smooth floor and new skates, and the modern 18-hole miniature golf course which rambles over a large area of the fair grounds.

In Fair Park arena, there are special attractions each week. The next big rodeo there is scheduled for Saturday night and Sunday afternoon, July 1 and 2.

Persons who like to ride, will find gentle horses and new saddles at the riding stables in the livestock building. Wooten's Grill and Mathews' melon garden are popular eating places with sand-

ANSWERS for Victory Gardeners

What Kind of a Spray Shall I Use in My Garden Against Insects?

The kind of spray you use depends upon the kind of insect which you must combat. There are two general types of insects, and there are sprays suitable for each. You must consider whether you have chewing or sucking insects and then buy your spray accordingly.

What Is the Difference Between Chewing and Sucking Insects?

Chewing insects have mouth parts. We might say they have teeth, and they eat just like a cow eats grass in the pasture. Many of the eaters not only use their mouths to get food, but they use them also to burrow their way into the plants, thus making themselves a home. Typical of these are the borers which get into the vine crops, and the apple worm which eats its way into the apple. Other eaters live on the leaves of plants and will strip a plant if left alone. On the other hand, the sucking insects have long snouts or bills like a mosquito. They puncture the skin of the plant and draw sap through the snout.

What Are the Methods By Which You Kill the Two Types of Insects?

Most insects at some time in their lives can be destroyed through what we call a contact spray. In other words, a spray which will paralyze and destroy them when it contacts their bodies. Black Leaf 40 is such a spray and is used on almost all sucking insects. In fact, if it is used faithfully in the garden, it will usually do the entire job. For instance, on potato vines, Black Leaf 40 will kill the Colorado potato beetle in the nymph stage. However, the grown beetles can be readily destroyed with lead arsenate sprayed on the leaves and at less cost. So we handle potato beetles in that way. On the other

hand, lead arsenate is absolutely without effect on aphids. Therefore, Black Leaf 40 is used to control them.

How Shall I Apply Spray in the Garden for Best Results?

There are two important rules to follow for successful spraying. One is to spray early, before the insects have become numerous, and the other rule is to spray thoroughly. These rules apply no matter what type of spray material you are using. If you will follow these two rules, your insect problem will largely be solved for you. The

tendency on the part of the beginner is to neglect the under sides of the leaves. Insects hide away to keep from sunlight, birds and other enemies. Unless you get down and get under, you haven't done a job.

Why Do You Say Spray Early?

The need for spraying early in the season, as soon as the garden gets started, lies in the fact that once insects start breeding, each individual increases in tremendous numbers. It is a lot easier to destroy millions of "generations unborn" of insects than to wait until they are hatched. There is no use letting insects get a start on you in trying to solve this problem later! If you spray early in the year and do a good job, your crop will come through with much less attention when it reaches the ripening stage.

wiches, cold drinks and icecold watermelon.

There is entertainment for every member of the family. The smallest children delight in the

antics of the squirrels, the beautiful plumage of the peacocks and the sight of odd animals and birds to be found in the many cages, while grandmother will appreciate the restful gardens and comfortable seats.

There are beautiful lighting effects on the ground, shelter houses with chairs and benches, juke boxes to furnish music, and picnic area where the family may spread lunch.

These attractions will be on the grounds throughout the summer months and with gasoline and tire rationing preventing long vacation trips, many citizens of North Texas and Southern Oklahoma are saving their coupons to visit Fair Park amusement zone in Gainesville on weekends.

NOTICE

We, the subscribers, have this day entered into a limited partnership agreeably to the provision of the Revised Statutes, Title 105, relating to limited partnership, and do hereby certify that the name of the firm under which said partnership is to be conducted is Relax Theatre; that the general nature of the business to be transacted is the operation of a Motion Picture show, purchasing films, entering into contract with film companies, selling show tickets and other necessary incidental business pertaining to the operation of a motion picture show; that the partners here to have agreed to limit their interests and liabilities to the amount of capital or money they have contributed to the said partnership, that the names of the partners are:

Ben Seyler Muenster, Texas
Dr. T.S. Myrick Muenster, Texas
J.M. Weinzapfel Muenster, Texas

The said partnership is to commence on the 19th., day of May A.D. 1944 and to terminate on the 19th., day of May A.D. 1949.

Citation by Publication
THE STATE OF TEXAS

To: D.B. McGinnis Defendant

Greeting:

You are hereby commanded to appear before the Honorable District Court of Cooke County at the Court House thereof, in Gainesville, Texas, at or before 10 o'clock A.M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 10th day of July A.D. 1944 then and there to answer Plaintiff's Petition filed in said Court, on the 24th day of May A.D. 1944 in this cause, numbered 14104 on the docket of said court and styled R.J. McGinnis Plaintiff, vs. D. B. McGinnis Defendant.

A brief statement of the nature of this suit is as follows, to wit:

A suit for divorce from the bonds of matrimony for the reason of harsh and cruel treatment on the part of defendant toward plaintiff, for costs of suit and for general and special relief, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs. Issued and given under my

hand and the Seal of said Court, at office in Gainesville, Texas this 24th day of May A.D. 1944.

(SEAL) Attest:

Martin G. Davis Clerk
District Court, Cooke Co., Texas.

THE AMUSEMENT CENTER OF
NORTH TEXAS and SOUTHERN OKLAHOMA

They call it the 5th War Loan Drive.
But it's more than that. Much more.
It is Faith in America's future . . . Hope for
America's sons overseas . . . a way
to show them we're with them in the only way
we can all back the attack . . . with dollars.
* The goal is 16 billion . . . the most
important dollar drive in our history.
To raise it means raising our ante to
double the extra bonds we bought in the 4th drive.
Sacrifice? Yes, for most of us it will mean
sacrifice. But a pretty puny sacrifice
compared to living in slimy fox holes . . .
watching your buddy blow up . . . stopping
one with your own name on it.
* When the solicitor calls on you, remember
that a War Bond is the best investment
in the world, and remember also that
when you double your purchase you double
your stake in this sweet Land of Liberty.

Comedy & News

Paulette Goddard and Fred MacMurray are co-starred in Paramount's "Standing Room Only," the snappiest comedy hit of the season!

Gainesville, and his grandmother, Mrs. Anna Wiese here, while he is on furlough.

Sgt. and Mrs. John Fuhrmann left Friday to return to Camp Shelby, Miss., after spending a ten day furlough here with his parents, Mr. and Mrs. Mike Fuhrmann.

Father Conrad had the misfortune of stepping on a nail Thursday and suffered considerable discomfort and pain but was able to conduct the traditional Corpus Christi services Sunday.

S. Sgt. Lawrence Streng, accompanied by a buddy, Pfc. Palmer both stationed in Louisiana with the army, spent a three day pass here visiting the former's aunt, Mrs. Ben Hermes and other relatives.

Field activity was at its peak this week. Practically all the grain is harvested and combines ran long hours over the greater part of this sector. Wheat, according to reports, is above average this year.

Mrs. Bill Fleitman entertained members of Saint Cecilia's choir with a party in her home Sunday evening. A delicious buffet supper was served and informal diversion enjoyed by 15 members and their guests.

Mr. and Mrs. Otto Freabe left Monday to return to their home in San Antonio after a visit here with her parents, Mr. and Mrs. Joe Rauschuber. Mrs. Freabe is the former Miss Christina Rauschuber.

Mr. and Mrs. Joe Fleitman, Jr., of Muenster are the parents of a daughter, Doris Lee, born on June 8. At the baby's baptism Raymond Bengfort assisted as sponsor. Mrs. Fleitman is the former Miss Angeline Bengfort of Lindsay.

Of interest to a large number of friends here is the report that Grant Cox of Gainesville, a member of the Marines, has been injured in action in the South Pacific. He served as a tail gunner aboard a plane and was shot in the leg. Reports indicate that he is making a normal recovery.

**LINDSAY-MUESTER GROUP
ENJOYS OUTING SUNDAY**

A group of Lindsay and Muenster young people enjoyed a picnic and outing at Lake Murray Sunday. Headlining entertainment was motor boat riding, the group taking Joe Wilde's new motor boat for a try-out. Swimming, hiking and a picnic lunch concluded activity.

Personnel included: Rufus and Ralph Bezner, Leroy Metzler, Harold Schmitz and Johnny Schmitz and Misses Gladys Wilde, Anselma Paehl, Johann Sevier, Alma Marie Luke, Dolly Endres.

Storing Leftovers

Granted that it's smart meal-planning to use leftovers. But you're eating food without its full quota of health unless leftovers are refrigerated properly. To protect against "attack" by air, always store them on covered containers. Place leftover meats, and custards made of milk or eggs, high in the refrigerator — both these foods require a lower temperature than leftover vegetables.

The electric washer eliminates the scrub board and hand wringer from the farm home. It does better work in half the time.

Confetti---

(Continued from page 1)

to the situation as the possibility for another financial failure. Back during the lean years there were times when the production was okay but markets were so pitiful that farmers realized little or nothing from it. Then came rising war prices. Last year, for instance, the market offered some hope that farmers would be able to share a little of the nation's fabulous income. But the yield was so poor that it did not pay the expense of harvesting, not to mention other production costs. Many did not even pull harvesters into the field.

In spite of all that, we have the cheering fact that communities such as Muenster continue to prosper year after year. Most farmers are paying their current expenses, some a good deal more, by churning production of livestock, poultry, milk and eggs. That's the good old steady income. And at the same time they are gambling — yes, gambling, against markets and weather — for a jack pot on their grain crops. If they're lucky they come out with a fair winning. If not, well they're at least not in the hole starting next

year's game. Just now I'm hoping the weather doesn't beat them again. It's time for them to hit the jack pot.
