

MUENSTER ENTERPRISE

VOLUME VIII

MUENSTER, TEXAS, COOKE COUNTY, FRIDAY, AUGUST 4, 1944

NUMBER 37

In Oklahoma City they're planning a huge liquor party, but not the kind that appeals to connoisseurs of fine beverages. This one will be sponsored by the county at the expense of luckless bootleggers and sundry other importers who had their consignments short stopped by the guardians of the law.

Most likely Fort Sill officers are also contributing to the party — to the extent of the famous few hundred cases that were confiscated more than a year ago and now lie untouched in spite of a court decision that the seizure was illegal. Since the snafu, but before the court decision, the army decreed that no more liquor would be delivered to the army posts. The original shipper can't even recall the stuff because it has been paid for.

The significant point, however, is that more than 200,000 gallons are to be smashed and dumped into the sewer. As explained by the county attorney that is the only means of disposal left open since the state makes no provision for legal salvage through sale to hospitals or dealers in wet states.

From that it is obvious that Oklahoma laws need a little revising. Regardless of how much the dregs are elated over the disposal, the fact remains that this is colossal waste. For liquor has a legitimate market in other states. At prevailing prices it could easily be sold for \$40,000 or more, and the money deposited in a county or state treasury. And that ain't hay. Whoever thinks it is ought to talk it over with the taxpayers.

The principle behind the whole thing is just another version of the short sighted policy that prevented our national government to plow under grain and kill pigs in the early thirties. Here is an item banned by law, hence it must be destroyed regardless of the liquor shortage in other states.

It could provide for local taxpayers. In the other case our markets were glutted with food, so the government paid us to destroy it. All the while millions were starving in the orient and thousands were going undernourished here at home. At that time we could have prevented much suffering and saved billions for our taxpayers by letting foreign markets have our surplus at reduced prices.

Everybody could be happier if the men at the controls would discover that disposal does not necessarily mean destruction.

Unfortunately Hitler and his henchmen seem to have domestic affairs under control again. So the war will have to continue for a while longer — until the three sided squeeze convinces even them that their goose is cooked.

It's amazing how supposedly intelligent leaders can view the present odds and still persist in their folly. It's pathetic that men who have professed all these years to have the interests of their people at heart can continue a struggle so one sided. The incident fits with dozens of others to prove that their only motive is personal power. They are sapping the vitality of the German nation to eke out a few more months of miserable existence.

As if to add insult to injury, they're now throwing out a final drag net for all available manpower. Crippled, aged and disabled are chosen as the most recent sacrifices to their selfish ambitions.

Of course everybody would have been happy if the Prussian General coup had succeeded and brought the Nazi dynasty down with a crash. Had that happened armistice negotiations might already be under way. But that would remove the one great satisfaction the allies are hoping for after the war — to deal personally with Hitler and his buddies. We don't want to see him executed outright. That would be too good in return for the grief he has dishied out. Better to let him endure a normal span of years in misery, disgrace and mental anguish. The same for his cut-throat friends.

By accident a few nights ago I had an experience I would like to wish off on the paper hanger for keeps. One of those little bugs that are so much of a nuisance these summer nights crawled into my ear. Roused out of my sleep, I was gouging frantically with a match to get rid of it. Finally I gave up in disgust and the little devil crawled out of his own accord. It didn't last long. Only 10 or 15 minutes, but it seemed like hours. It wasn't really painful either. Just a maddening sensation that can drive a fellow nuts in time. Maybe Hitler and his cohorts would not have to be driven far, but that's my suggestion as a means of doing the job. See to it that they spend the rest of their days with lively, scratchy bugs in their ears.

OUR BOYS WITH THE COLORS

Lt. Hoehn On Leave
Lieut. (j.g.) Albert D. Hoehn, who saw action in the battles of the Marshall Islands and at Saipan, will arrive in Muenster this weekend to spend a 15-day leave with his father, A.T. Hoehn. He served aboard an aircraft carrier as an electrician and radar technician.

Another Promotion
It's Master Sergeant Jimmy Lehnerz now. The promotion was made three weeks ago somewhere in Italy where Sgt. Lehnerz is on duty with the 5th Army. His recent letters home have been making exceptionally good time, usually requiring only five days when sent by air mail. He writes, "Tell all my pen pals and all my friends hello, and if anyone asks why I don't write, its just that I'm too busy at the present time. I've been doing quite a bit of summer traveling, and it's not what you'd call a pleasure tour." He is the son of Mr. and Mrs. Joe Lehnerz and the oldest of five brothers in the armed forces.

Was With Invasion Forces
Pfc. Henry Pautler, in a recent letter to his parents, Mr. and Mrs. Joe Pautler, tells them of taking part in the invasion of France. At the time the letter was written he was in a rest camp.

Arrives Overseas
Cpl. Maurice Pangel, in a letter dated July 16, tells his parents, Mr. and Mrs. Jake Pangel, that he has arrived at his overseas station, that he is well and the place OK, in fact it is so nice he'd like to stay there for the duration. He did not give the name of the place however.

Home On Furlough
S. Sgt. Wilmer Luke of Shepard Field is spending a two-week furlough in this city with his parents Mr. and Mrs. Ben Luke.

At Camp Fannin
Pvt. Justin Hess, recent inductee in the army, is receiving his basic training at Camp Fannin, Texas. His complete address is: Pvt. William J. Hess, 38631092, Co. C, 54th Bn., 11th Reg., I.R.T.C., Camp Fannin, Texas.

Weekend Visitor Here
WAVE Agnes Fette, yeoman second class, of Norman, Okla., spent Saturday and Sunday here with her parents, Mr. and Mrs. C. J. Fette.

Enjoys Rome Visit
A recent letter from Pvt. Arnold Muller to his parents, Mr. and Mrs. Matt Muller, tells them of an interesting visit in Rome recently. Pvt. Muller is a member of the 5th Army and his company was commended for the cooperation, courage and fortitude during battles in which it participated. The letter of commendation, written by the commanding officer, was sent to Mr. and Mrs. Muller.

Get-Together In New Guinea
S. Sgt. Earl Lehnertz of this city and Cpl. Wilfred Bezner of Lindsay recently enjoyed a brief get-together somewhere in New Guinea, according to letters to home folks.

Overseas Assignment
Cpl. Joe Streng, until recently stationed at Fort Knox, Ky., has been given an overseas assignment and has been transferred to a port of embarkation, according to his wife who returned home last week after spending several months with him in Kentucky.

Praises Plasma Giving
Pfc. Harry Fisher, who serves with a medical battalion somewhere in New Guinea, on July 17 wrote his brother, J.W. Fisher, a letter in which he has this to say about the blood plasma program: "Your letter written Tuesday mentioning you had just returned from giving a pint of blood and were feeling fine, made good time over. I am glad to hear of the blood donor activities. I wish you could see how much good you are doing. The boys over here would like to tell each of the donors how proud we are of them. We may not all need plasma but we are happy to know that it is there to rely upon when and if we ever have to use it. We can go forth with greater confidence knowing it is there to depend upon. I often see cases where the supply is drawn on liberally. And it's not just a few times that it has saved the lives of men in my own company. Some time ago when we were hit during a raid we used literally gallons and gallons of plasma to save lives. We feel a deep appreciation to all who contribute to this noble cause."

MACHINISTS MATE

—Francis H. Dieter, 22, son of Mr. and Mrs. Val Dieter of Lindsay, volunteered for service with the Navy Seabees in April, 1943, and entered as a fireman, first class. Since being overseas he has become a machinists mate, third class.

PLANS STARTED FOR MAILING CHRISTMAS MAIL FOR NAVY MEN

DALLAS.—The Navy Mail Service has already initiated plans to handle the volume of Christmas mail for Navy, Marine and Coast Guard personnel stationed overseas. Mail this year is expected to exceed last year's record figures, according to Eighth Naval District Headquarters.

The 30-day period from September 15 to October 15, 1944, has been designated as Christmas Mail Month for Bluejackets, Marines and Coast Guardsmen outside the United States. With distances so vast and fleet operations so wide spread, every effort should be made to mail early in this period in order to assure delivery of packages to men in the farthest outpost.

Christmas gift packages this year will be accepted for mailing only within the present limitations of weight and size—five pounds in weight, 15 inches in length and 36 inches in length and girth combined. Perishable articles will not be accepted for mailing to discourage the mailing of fragile articles which cannot survive transportation to war zones.

Emphasis is being placed on the necessity of addressing packages properly. Incorrect addresses may hold up the mails an average of 90 days and some times longer. Last year, several thousand Navy Christmas packages were delayed due to this factor.

Catholic League Enjoys Inspiring District Meeting

Lindsay Is Host Sunday For One-Day Convention With Large Attendance

Turning their attention to such subjects as racial equality, the trend of modern youth and other prominent topics of the day, the North Texas district of the Catholic State League of Texas enjoyed an instructive and inspiring one day session at Lindsay on Sunday, July 30.

Those officially taking part in the meeting were state and district officers and delegates from parish societies of the affiliated units.

Special emphasis was placed on the problem of racial equality in the South. Rev. Thomas Buerger, Muenster pastor, and Rt. Rev. Edward Buerger, Windthorst pastor, basing their addresses on this topic.

The principle of white supremacy, it was pointed out, is based on the supposition that the colored belong to an inferior race and are not entitled to full human rights guaranteed by the American Constitution and Christian teaching. White supremacy, it was emphasized, denies the principle that God created all men equal and of inalienable rights. Moreover, it denies the validity of one of America's principal war aims for which American negroes are fighting and dying: the destruction of the Nazi theory of race supremacy. In opposition to the principle of white supremacy, the Church teaches the absolute equality of men, because all men have a body and a soul, and all have been redeemed by the sacrifice of Christ, the speakers stated.

Others appearing on the program were Ben Schwesmann of San Antonio; Rev. Paul Charcut of Pilot Point; Mrs. Ben Schwesmann of San Antonio, and Albert Schremp, organizer of the Catholic Life Insurance Union.

The day's activity opened at 10 o'clock with high mass and a sermon by Rev. Conrad Herda, Lindsay pastor, and at 1:30 the Catholic Day program opened. Paul Arendt, president of St. Peter's Society, Lindsay, gave the welcome address.

At 4 o'clock the business session took place with Joseph Lindemann Windthorst, president, presiding. There was roll call of delegates, advisors, reports and election of officers. Mr. Lindemann was re-elected president and Henry Osterman of Scotland was re-elected secretary.

Lindsay welcomed the district meeting with a well directed picnic program. Meals were provided for ladies of the parish and sandwiches and iced drinks were available, while a number of concessions featured varied entertainment.

Among clergy present at the conclave were Rev. Thomas Buerger and Rev. Richard Eydell, Muenster; Rev. Conrad Herda, Lindsay; Rev. John P. Brady, Gainesville; Rev. Paul Charcut, Pilot Point; Rev. Edward Devers, Decatur; Rt. Rev. Edward Buerger, Windthorst, and Rev. Father Ambrose of Subiaco, Ark.

Rev. Father Thomas, organizer for the district, was general chairman of the day's events. He was assisted by Rev. Father Conrad and affiliated societies of the Lindsay parish.

Sec. 3: On the 1st day of August, 1944, and on the 1st day of August of each and every year thereafter, every such person, association, organization or corporation engaged in the business of furnishing gas and electric light or power to the inhabitants of the City of Münster, Texas, and occupying or using the streets, highways, easements, alleys, parks, or other public places in the City of Münster, Texas, with poles, wires, pipes, gas pipe lines, conduits, and other fixtures, shall, as a condition to such further occupancy, pay to the City annually for such privileges a rental equal to two per cent (2%) of the gross receipts received by such person, association, organization or corporation from its business conducted in the corporate limits of the City of Münster, Texas, for the preceding year, which sum shall be paid to the City of Münster, Texas.

Sec. 4: Upon the receipt of the above rental by the City, the City Secretary shall deliver to the person, association, organization or corporation paying the same a receipt for such rental, which said receipt shall authorize such person, association, organization or corporation to use and occupy the streets, highways, easements, alleys, parks and other public ways of the City in carrying on its business for twelve (12) months from August 1st of such year.

Sec. 5: Any special charges accruing after the effective date of this ordinance, under the terms of any pre-existing contract or franchise, against any gas or electric light and power company, when paid to the City of Münster, Texas, shall be credited on the amount owed by such gas or electric light and power company on the rental charge imposed by this ordinance for the use of streets, alleys, and public ways.

Sec. 6: The rental for the privilege of using the streets, alleys, highways, easements and other public places of the City of Münster, Texas, provided for in this ordinance, is not charged as a tax, but is made for the privilege now enjoyed by such persons, associations, organizations and corporations, of using the streets, easements, alleys, and other public ways of the City in the conduct of their respective businesses; and such charges are additional to all ad valorem taxes against the persons, associations, organizations, or corporations mentioned herein.

Sec. 7: Nothing herein is intended to relieve any person, association, organization or corporation carrying on any business of furnishing gas and electric light and power of any condition, restriction or requirement imposed

by any law or ordinance of the said City of Münster, Texas.

Sec. 8: This ordinance does not grant a franchise to any utility or person, association, organization or corporation to use the streets, easements, alleys and other public ways, and shall never be so construed by the courts or otherwise, and the City reserves the right to cancel the privileges granted herein and to refund the unearned rentals paid to the City.

Sec. 9: The City of Münster, Texas, hereby reserves the right to put in effect at any time other restrictions and regulations as to the erection and maintenance of poles, wires, pipes, conduits and other appurtenances in the streets, easements, alleys and other public ways of the said City, and from time to time to require such poles, pipes, wires, gas pipe lines, conduits and other property, equipment and fixtures as it may deem proper, to be removed.

Sec. 10: Every person, association, organization or corporation who shall operate any gas business or any electric light and power business within the City of Münster, Texas, without paying the rentals provided for herein, shall be subject to a penalty of \$100.00 for each and every day that such person, association, organization or corporation shall conduct such business using and occupying the streets, easements, alleys or other public ways of the City of Münster, Texas, which said sum may be recovered by the City of Münster, Texas, in any court of competent jurisdiction, by a suit filed therein.

Sec. 11: Every person, association, organization or corporation, and the local manager or agent of every such person, association, organization or corporation, failing or refusing to make the report required by Section 1 of this ordinance, or failing or refusing to allow the examination provided for in Section 2 herein, shall, upon conviction in the Corporation Court of the City of Münster, Texas, be fined in any sum not to exceed One Hundred and no-100 (\$100.00) Dollars, and each and every day's failure or refusal as mentioned in this section shall be deemed a separate offense.

Sec. 12: The City Fire Marshal, Building Inspector, Electrical Inspector, and the City's police officers and any other person designated by the City, shall have the power, and it shall be their duty, to examine and inspect from time to time all electric light or other poles, gas pipe lines, pipes and other fixtures in the public places within the City, for the purpose of seeing that all the same are in a safe and suitable condition, and whenever any such item is found to be unsafe or unsuitable for the purpose for which it is used, the person using, possessing or maintaining the same shall be notified and required to place same in a safe and suitable condition.

Sec. 13: If any section, paragraph, subdivision, clause, phrase, or provision of this ordinance shall be adjudged invalid or held unconstitutional, the same shall not affect the validity of this ordinance as a whole, or of any part or provision thereof, other than the part so adjudged to be invalid or unconstitutional.

Sec. 14: This ordinance shall take effect immediately upon its passage, approval and publication, as required by law.

Farmers---

Since August 1 a new lumber order of the WPB is in effect. This means a more rigid regulation of lumber uses than has been imposed so far in the war.

Some "free lumber" is available under the new plan and farmers requiring more than the allotted 300 feet can purchase the necessary amount by getting a priority rating from the County AAA Office.

Or, bring us a list of your needs and we will secure a priority rating for you.

Water And Shade Are Important On Poultry Range

Water, which always is a necessary part of any poultry ration, is especially important to good management of pullets on summer range. Shade also contributes much to their health and comfort. During the hot summer months, says Albert Brient County Agent, pullets should drink large quantities of water. They will drink more if the containers are kept in the shade and supplied often with cool fresh water. But they will not drink enough if they are forced to go far from the feeders to get it.

Feed and water containers always should be shaded and additional shade should be provided for the places where the birds idle. Pullets are inactive in the middle of the day and they need a cool, comfortable space to spend this time. If natural shade is available, the range equipment should be placed so the birds can go to it easily. If no natural shade is at hand, brush arbors may be built for temporary use.

Moveable range shelters not only provide shade for the birds during the day but serve as roosting quarters at night. The simplest type of range shelter consists of a water-tight roof over wire sides or wall. This structure enables the owner to confine the pullets when necessary and at the same time protects them from night prowling animals. This type of shelter is light in weight and may be moved easily from one part of the range to another.

As an initial step in good management, Brient suggests that all under size, off color, off type or unthrifty chickens should be re-

moved when the birds are placed on range. Also any showing signs of disease or general unthriftness during the growing period should be culled immediately. If this is done fewer culls will be found when the birds go back to the laying house.

Confetti---

(Continued from page 1)

A front page item tells of a lad who found a wallet and returned it to the owner, who was so pleased that he gave the kid a reward and offered him a job as soon as he gets out of school. "That is the kind of man I want in my business," he said. "I want to hire him when he grows up. There are too few persons in the world like him."

Imagine that! A bit of everyday honesty is publicized as if it were one case in a thousand. The man bluntly states that a very small percentage of people can be trusted, and a publisher expresses the same opinion by giving the story a prominent place in his paper. I for one am not ready to concede that honesty is that scarce.

In my limited experience I can truthfully say that I know of more lost items that were returned than of those not returned. Making allowance for some that could not be identified with the owner and others that probably were never found, I am convinced that the percentage of dishonest people is far smaller.

I wonder which does the country more harm — inherent dishonesty in people or the constant cynical ballyhoo by those who assume that honesty is extinct. Certainly the situation is anything but encouraging to borderline cases. It takes a lot more character for a person to be honest when he knows all along that he's not trusted.

Which is exactly the case nowadays. Our whole legal set up, our administrative regulations, and many business systems operate on the principle that no one can be trusted and his evil intentions have to be guarded by an intricate system of checks and double checks. It amounts to a personal challenge — one that has often been accepted by men of cunning mind and weak character.

The corrective measure is simple. Return to educational methods that emphasize integrity more than cleverness. See that

people have a better understanding of their responsibilities to themselves and others, but, of course, that's unpopular because it involves the basic principles of religion. Do that and we'll find that even a larger percentage of wallets — still not accepting the man's cynical assumptions — will find their way back to their owners.
