Still Wanted: Man Willing to Serve as Mayor

In the current very appropriate fanfare over the magnificent space achievement of Astronauts Grissom and Young, and the equally magnificent work of scientists who sent them on their historic voyage and safe return, there is one point which has not received its due emphasis.

Our country is not building space history on human sacrifice. It is not wasting lives, nor exceeding reasonable standards of risk, in developing its space program. Not one person has died in the many flights that have been made to date. America can proudly say that the safety of its men is more important than the propaganda effect of a spectacular first.

This fact was brought out very forcefully by an article in this month's Readers Digest explaining the ingenious job of space tracking done by a pair of amateur scientists of Italy. Their achievement, considering their means, is comparable to those of the two countries that have been putting on the great space shows. With their improvised homemade equipment they have done an amazing job of gathering vital information on space flights. Comparison of their data with official American data revealed that their readings were fully reliable.

Their important service to humanity, however, is gathering information which apparently had been kept from the free world. They monitored secret Russian space flights some of which ended in tragedy. They have the records to show that most likely as many as ten Soviet corpses are hurtling through space at this time, unless possibly a few were burned to dust by re-entry of the earth's atmosphere.

The pattern of the Soviet space program as well as Soviet disregard for life, is thoroughly exposed by the record. Men are expendable. The first consideration is to be first in the space race. Launchings are rushed in order to get the jump on US, without the safeguard of adequate testing. Furthermore launchings are secret. If things go well the propaganda machine starts blaring. If it fails nothing is said. The world is not supposed to know.

We Americans can be proud that our space race isn't being (Continued on page 8)

With the city election less than a week away, the mayor's office is still waiting for someone to say he will accept the job. Passing of the deadline weeks ago left that spot on the ballot without the name of a candidate, and no one has indicated since then whether he is willing to serve if elected by write-in.

Mayor Earl Fisher stated this week that he does not want another term, repeating the reason he gave when he declined to have his name placed on the ballot. His own crowded work schedule plus the mayor's job is too much. So, he wants to drop the city job.

The rest of the ticket offers two contests for the three positions to be filled. Gene Hoedebeck, incumbent, is opposed by Henry Weinzapfel and W. J. Luke, incumbent, is opposed by Aubrey Tuggle. Mike Sloan is unopposed for the position being vacated by Ray Otto.

The election will be held next Tuesday, April 6, between the hours of 8 a.m. and 7 p.m. in the city hall. Election judges are Clive Gobble and R. E. Hamric.

35 Teams Enter Saint Jo Tourney

Volley ball activity of this area centers in Saint Jo next week as thirty five teams compete in the tournament sponsored by the Saint Jo Quarterback Club.

There will be 18 men's teams and 17 ladies' teams from Muenster, Gainesville, Nocona, Jacksboro, Montague, Prairie Valley, Callisburg and Saint Jo. Because of the crowded schedule they will start Saturday night this week and play every night next week except Wednesday.

The usual trophies will be given after the tournament: champ, runner-up and consolation in each division.

A true friend is one who thinks you're a good egg, even when your busted!

School Election Has No Contests

A ballot with four uncontested candidates awaits voters at the school trustee election to be held here Saturday, April 3. Two of those candidates are for the Muenster school board, the other two are for the county school board.

Ray Wilde and Charley Hellman are seeking re-election to the Muenster board. Joe Hundt is asking for re-election as Precinct 4 representative on the county board and Gordon Alexander is the candidate for Precinct 3 representative on the county board.

The election will be held in the public school Saturday from 8 a.m. to 7 p.m. with Emmitt Walterscheid in charge and George Petrus as assistant.

Lindsay Considers Independent School District

Changing Lindsay's school district from common on independent is the subject to be discussed in a special meeting next Monday night at 7:30 in the Lindsay Parish Hall.

The meeting has been called by the school board to explain how the school's operation can be improved by taking over its own management instead of remaining under supervision of the county superintendent's office. All property owners of the district are asked to attend.

Lindsay is the only twelve-grade school in the county operating as a common school district. And it has the largest public school enrollment outside of Gainesville.

Panthers Assume Role of Favorites In District Track

The Panthers of Saint Jo demonstrated in a convincing way last Saturday that they have the outstanding Class B track team of the area. Competing with 37 other teams at the annual Red River Relays in Saint Jo they ran up a whopping total of 101 for the meet's top honor.

Muenster was next high among teams of the local district with 26 points, but was only a tie for sixth in the meet. The other teams topping Muenster were Hermleigh with 57, Newcastle with 44, Lockett with 39 1/2 and Coppell 31 1/2.

As Coach James Polk saw the records, Saint Jo is the strong favorite to nail down top honors in the district meet scheduled for the Panthers' home track on Friday, April 9. And Muenster has a fair chance at second place, but other neighboring outfits are not to be taken for granted. Last Saturday Era made 17, Callisburg 13 1/6, and Valley View 10. Lindsay was not entered.

Those who earned points for the Hornets were Dale Klement, 1st in the mile; Roy Wimmer 3rd in 180 low hurdles and 4th in the 100 yard dash; and Roy Hartman, 3rd in the discus.

And there were other encouraging signs that did not show up on the record. Wimmer's semifinal time in the 100 yard dash was 10.5, which was the best time in the final. Wimmer's in the final was 10.7 and he came in fourth. And the sprint relay team was in the running until its chance was spoiled by dropping the baton.

Individually the boys are posting nice records, says Polk, even though most of them were swamped by the keen competition of the long list of talented entries Saturday. The Hornets are definitely better than last year. But he also observes that they need to be better to have a chance. The other teams are better to help is depth. The Hornets have 17 this year, compared with 9 last year. Depth is even a greater asset at Saint Jo, where more than 30 are in uniforms.

Sister Leonarda and Sister Richard were in Fort Worth Saturday and Sunday at a Liturgical Work Shop for organists, music teachers and others connected with church music. Over 260 priests, sisters and lay people attended. Anthony Luke, church organist attended a Sunday session. Both English and Latin songs were included in the series of class conducted by music authorities from as far as California and Minnesota.

Quality Strong, Quantity Weak at FFA Project Show

The Muenster FFA chapter's project show last Monday was strong on quality even though somewhat weaker than expected on quantity.

Edgar Dyer, chapter advisor said that all animals there were classified by blue or red ribbons; not a white ribbon in the show. However the number of entries was discouraged by gloomy, damp weather. Over 70 animals were expected and 45 were entered.

Judge of the show was Roger Corbin, vocational ag teacher of Callisburg High. After classifying and awarding ribbons he judged competitively to determine the grand champion and reserve champion of each division. Those awards were as follows.

Fat steers: Roy Hartman first and Joe Hartman second, with additional awards for best grooming to Roy and best showmanship to Joe. Jim Robinson and Ken Stormer also had blue ribbon steers.

Gilts: Dale Klement champ and Leon Walterscheid reserve champ.

Fat barrows, Leon Walterscheid had both champions.

Fat lambs: An animal raised by the chapter copped the grand champion ribbon, and Larry Vogel's was reserve champion.

Nine of those animals will be entered in the Cooke County Junior Fat Stock Show for 4-H and FFA members at Gainesville Friday.

Dale Klement will show five hogs. Roy and Joe Hartman and Jimmy Robison will each show a steer. Larry Vogel will show a fat lamb.

Committee Meet April 5

Members of the Gold Bond committee of the Lindsay Craft Club will meet Monday, April 5, in the home of Mrs. Ray Laux at 2 p.m.

NORMA LUTKENHAUS

Top FHA Award Approved for Two County Students

Two Cooke County students, members of Future Homemaking Chapters, have been approved to receive the State FHA Degree of Achievement, the highest award given to a Future Homemaker of America.

They are Miss Norma Lutkenhaus, daughter of Mr. and Mrs. August J. Lutkenhaus of Muenster and Miss Veda Elliott, daughter of Mr. and Mrs. Tom Elliott of Gainesville. Miss Elliott is the first Gainesville homemaker to win the degree. She's a sister of Merlin Wilson of Muenster.

Both will receive their certificates at the state meeting of the association on April 24 in Dallas. Each year about 300 girls earn this honor from a total Texas membership of 60,659.

The State Degree is for work done voluntarily with guidance of the chapter adviser and other teachers after a girl has completed two years of vocational homemaking.

The goals which she chooses must show growth and improvement in community, school and family life over a three year period.

The degree is made up of records of these goals plus stories of the girl's family, school and history of the town in which she lives. A philosophy of life finishes this book. Miss Lutkenhaus wrote 110 pages. Miss Elliott's book contained 186 pages. Their instructors are Mrs. Henry Weinzapfel of Muenster High School and Mrs. Velta Koebelen of Gainesville High School.

Recognition was given certificate winners at the Area 5 FHA meeting in Denton March 27. Also attending that meeting from the Muenster chapter were Kathy Yosten, Lillian Haverkamp, Betty Knabe, Debby Cler, and Mrs. Weinzapfel. At an area meeting Friday Joyce Rumley was the voting delegate and others attending were Sandra Cler and Dianne Amoroso.

Muenster Teams Win 2 Trophies At Tournament

Two Muenster teams came home with trophies last Saturday night from the volleyball tournament at Cooke County Junior College. Muenster Mill got the runner-up prize and SH Alumni ladies got consolation.

The Millers were nudged out of the champ title in a super hot contest made up of three hot games with Lindsay. Before that the Mill beat Callisburg, Whitesboro and SH High.

The Alumni gals took two consecutive games from Muenster Independents to get their trophy. Starting the tournament they got into the consolation bracket by a loss to Ben Harvey Seeds of Sanger. After that they beat Sanger Florist, CCJC and Muenster Independents.

Other Muenster teams in the tournament were SH High, SH Alumni men and Willie's Mobil.

This week three local teams are competing in a tournament at Sanger and all are in the champ bracket after winning their preliminary games.

SH Alumni ladies beat Roanoke, SH Alumni men beat the Pilot Point Fugitives and Muenster Mill beat Pilot Point KC's.

The two Alumni teams have their next games Thursday. Muenster Mill won two games straight Wednesday night over Sanger Motors.

Tuberculin Tests Given Wednesday To 650 Children

About 650 youngsters of the two Muenster schools bared arms Wednesday for tuberculin tests, which are recommended by the National Tuberculosis Association to discover TB cases.

Next Monday the same group of youngsters will report for readings of the reactions caused by the tuberculin tests. If positive readings are found the children concerned will be asked to report to a family doctor for further examination, probably including X-ray. If the reaction is negative nothing more will be done.

Administering the tests Wednesday were Mrs. Ben Harvey, secretary of the county TB association, Mrs. Mary Hardy, Gainesville school nurse, Linda Dickerson, Carol Fleenor and Carol Ann Morisak, three future nurses from Gainesville High School, and doctors Hejduk and Kralicko of Muenster.

The test is given by putting a drop of tuberculin liquid into the skin by use of a special skin piercing device that is hardly felt. After that the germs are allowed to work four days before examination.

Robert Hall Sells White Auto Store To Amarillo Man

Bernard McNamara of Amarillo is the new owner of White Auto Store in Muenster.

Mr. and Mrs. Robert Hall announced this week that they have sold the business and the new owner will possibly take over next week — depending on whether he finds suitable living quarters for their family of four. The McNamaras are a young couple with two small girls.

The White Auto Store has been owned and operated by Mr. and Mrs. Hall since they opened it in October 1963. They came here from Fort Worth.

The Halls say their plans are indefinite at this time, mostly because of serious illness of her 93 year old mother in Michigan. Mrs. Hall returned during the weekend from a two week visit there and expects to go back soon.

Nurses Aid Class Will Start Soon

Applications are being taken now at Muenster Hospital for enrollment in a nurse's aid class.

Young ladies and women interested in this class are invited to see Sister Mildred, hospital administrator, at the hospital.

The class will start as soon as the necessary number of students is enrolled.

Mr. and Mrs. Francis (Butch) Fisher are proud parents for the first time with the birth of a son Thursday, March 25. He weighed six pounds 15 ounces when he arrived at Muenster Hospital at 3:29 p.m. Welcoming a grandson are Mr. and Mrs. John Fisher, and Mr. and Mrs. John Ward of Houston. There are two great-grandparents, Mrs. T. N. Hayden of Houston and Joe Fisher Sr.

Mr. and Mrs. David Strittmatter of Lindsay announce the birth of a daughter, their second girl, at Gainesville Hospital Thursday, March 25, 8:05 p.m. She's an eight pound four ounce sister for Leslie. The grandparents are Mr. and Mrs. Clem Hermes Sr. of Lindsay and Mr. and Mrs. Joe Strittmatter of Pilot Point.

Proudly announcing arrival of their son, six pound six ounce David Michael Karr, are Mr. and Mrs. William Karr of Houston. Their little boy was born March 8 and is theirs by adoption since March 26. Mr. and Mrs. Al Walter are the maternal grandparents and Mrs. Walter was there to welcome the new baby home. And she attended his baptism Saturday, serving as proxy sponsor. Mr. and Mrs. Bernard Swirczynski are the godparents. Mr. and Mrs. John Walter and Mrs. John Hartman are the baby's great-grandparents. Mrs. Al Walter returned from her Houston visit Tuesday.

Texas House OK's Hospital District After Cut in Area

The bill for creation of Muenster Hospital District has been approved by the Texas House of Representatives and now awaits action by the Texas Senate.

However, the present bill differs considerably from the one that was originally introduced. In committee conference last week Wednesday it was amended to include only the Muenster school district and that portion of the Saint Jo district which is in Cooke County (the former Bulcher district).

The original Hospital bill also included all of the Myra school district and about the west half of the Era district, but residents of both districts sent delegates to Austin saying they were opposed to being included.

A report on the House approval was phoned to J. M. Weinzapfel Monday afternoon by Representative Don Hefton. He indicated then that the bill will probably take from one to two weeks to reach the Senate floor.

If the bill passes the Senate it will still need Governor Connally's signature, and finally will have to be approved by an election in the area concerned. The action by the Legislature grants permission and prescribes conditions whereby people of an area can establish their district.

Elimination of the Myra and Era areas from the hospital district reduces the valuation about 25 percent. Estimated valuations, according to figures of the county tax office, were about 8 million dollars on the originally proposed area. The valuation now is reduced to about 6 million.

Sunday Is Day of Recollection for KC, CDA Members

A Day of Recollection sponsored jointly by KC and CDA members of Muenster will be held next Sunday afternoon for members of those two organizations and their wives and husbands.

The service will be conducted by Father John Meyers of the University of Dallas. He was here early in the year to conduct a retreat for Sacred Heart High school students.

Sunday's program, to be held in church begins at 1 o'clock and ends about 5:30. There will be conferences at 1 p.m., 2:15 and 3:30, rosary at 1:45, coffee break at 3, Way of the Cross at 4 followed by confessions, and Mass at 5 followed by papal blessing.

Mrs. Marvin Maberry returned to her home at Rosston Sunday after being in Sylvester, Texas, three weeks at the bedside of her mother, Mrs. Ida Belle Kiser Gray, 84, after she suffered a stroke and passed away on March 23.

Funeral services were held March 24 in Sylvester Methodist Church of which she was a charter member. She had lived at Sylvester since 1905, moving to Texas with her husband from Monroe, S.C. He died in 1956.

Also at the funeral were Mrs. Marvin Maberry accompanied by his son and daughter-in-law, Mr. and Mrs. Marvin Maberry Jr. of Wichita Falls.

In addition to Mrs. Maberry survivors include two other daughters, one son, five brothers, five grandchildren and six great grandchildren.

A Basic Freedom

The unions' all-out campaign to force repeal of section 14b of the Taft-Hartley Act, which permits the states to adopt Right-to-Work laws if they so wish, could lead unknowing people to believe that this provision is a deadly weapon aimed straight at the heart of organized labor.

Anyone who believes that would do well to read the section. It says: "Nothing in this Act (Taft-Hartley) shall be construed as authorizing the

execution or application of agreements requiring membership in a labor organization as a condition of employment in any State or Territory in which such execution or application is prohibited by State or Territorial Law."

To make that seem, in any way, an anti-labor provision requires some massive twisting of plain language. It simply says that, in states which take advantage of 14b, each worker will have the right to join or not to join a union as he chooses, and in either case he can keep his job. No one can make him join—and no one can prevent him from joining.

If that is not a basic freedom, what is?

WASTEFUL OVERLAP!

FILLING RAT HOLES?

Did you know that the government has paid, to date, 26 billion dollars in interest on money it has borrowed to give away in its silly foreign aid program?

Does not such dealing result in placing the American taxpayers in "double jeopardy"? They have been forced to pay out 110 billion, 394 million to our enemies and those who were once our friends since World War Two. And as if that weren't punishment enough, they are being stuck with a 26 billion interest tab on the money government gave away that it didn't have.

By a strange coincidence, this interest tab amounts to almost as much as the amount of gold we "owe" all the nations we have been giving money to. They have enough of our dollars on hand so that they can claim 27 billion in gold from us, which is 12 billion more than we presently hold. We have lost nine billion dollars worth of gold to them already in the past 10 years.

Did you know that nearly all our foreign give away has gone to support socialistic governments all around the world and that very little of it has ever reached the "common men" in those countries that our government led us to believe we were helping?

Did you know that we have been told to "go to hell" by several recipients of our largess, but that we are still forcing our "aid" upon them?

Did you know that all the food we have given to foreign dictators to feed their starving people has had the American labels replaced by those of the dictators, including their pictures, so people would think the dictators were their benefactors? Tito of Yugoslavia, has done this for years.

Do you know that any business we do with Russia is on credit guaranteed by our government, and that the government is now asking Congress to grant the Russians "long term credit," meaning 25 or more years? We won't be doing business with Russia at all, but with the American taxpayers. The Russians have had long term credit. They owe us millions from World War One and billions from World War Two on which they never offer to pay even the interest.

No, we are not pouring our billions down rat holes. Rats would be more appreciative. And our mountain trade rats would at least "spend it with us."

IS THIS REALLY POVERTY?

The President's much-touted war on poverty isn't off the ground yet, so to speak, but apparently already it is out of control.

Like most projects the government gets its fingers into, the war on poverty is intended to help those who are considered to be living in poverty; that is, those with incomes of less than \$3,000 a year.

But, what is happening in New Jersey?

The salaries to be received by the war on poverty commanders in New Jersey are coming in for plenty of criticism.

New Jersey's anti-poverty commander is John C. Bullitt. Mr. Bullitt is receiving \$25,000 as the director of the New Jersey Office of Economic Opportunity. Further more, Bullitt's assistant is receiving \$19,000 annually.

Even worse as far as the state of New Jersey is concerned is the fact that Bullitt receives more than any member of the New Jersey governor's cabinet.

Take Newark, New Jersey. Here, the top man gets \$23,000, his assistant, \$18,000. But, this isn't all. Newark has hired at least 26 other staff members who are to receive more than \$10,000 annually.

There are fireworks also in Paterson, New Jersey, where a director was hired at \$18,500, a salary that is \$1,000 greater than that paid to the city's Mayor.

In one New Jersey county, \$52,000 of a \$67,000 anti-poverty grant has been earmarked for salaries and administration.

You can see from all this just how much help the man who needs it is going to get from the war on poverty program. If the New Jersey story is an example of what will happen throughout the country, the program will do very little except provide lush jobs for smart politicians.

Could it be that the war on poverty program is actually intended to provide pay-off jobs for party supporters?

Time alone will tell.

Medicare... Burden For Johnny & Mary

Johnny and Mary got married. Johnny was fairly young, but he had a job and he was in love. He knew he was going to have a financial struggle but what the heck, as we said before, he was in love. Johnny was 20 years old.

President Johnson's Medicare bill with top priority passed the Congress and became the law of the land. Medicare added another "deduction" to Johnny's rather meager pay check. He complained to his employer that he didn't want Medicare but he had to take it anyway. It was the law.

The benefits of Medicare are for people over 65 years old. Johnny and Mary sat down one evening and figured that they would be paying on Medicare 45 years before they would have a chance to use it. They should live so long!

And part of the irony was that they would be paying for benefits for Mrs. Astorbilt and Mrs. Gottrocks who didn't want or need the benefits but decided they might as well take them since they had paid lots of taxes, too. It was one way they could get back at the Internal Revenue Service. Johnny and Mary didn't understand the implications of Medicare until it became a law then it was too late to

write their congressman or their senator.

Johnny and Mary wanted to have a family and some other things, like a vacation at a nearby lake and a new car, but they were having enough trouble making ends meet. After all, they had to help pay Mrs. Astorbilt's Medicare benefits and help build a Great Society.

Flying Trip Takes Felix Yostens to Visit Relatives

A flying trip to Chicago, Ill., and Memphis, Tenn., to see relatives provided a happy week's vacation for Mr. and Mrs. Felix Yosten who traveled by air for the first time. Going with them was their daughter Gloria Yosten, stewardess for American Airlines. The trip was through courtesy of the airlines on completion of Gloria's first six months of duty.

The trio left Dallas by jet last week Tuesday and spent until Friday with Mr. Yosten's sister and family, the Nick Mayers in Chicago where snow fell all the time.

They returned to Dallas, spent overnight at Gloria's apartment, and took off for Memphis, Tenn., the next morning. The Yosten's son, Naval Airman Cyril Yosten, is stationed at the Naval Air Station in Memphis. He joined them by car on a trip to Blytheville, Ark., to pick up the Yosten's daughter, Sister Olivia, who went with them to Jonesboro to visit another daughter, Sister Estelle Marie, who was transferred there recently from New Iberia, La. The visitors were there until Sunday then flew back to Dallas and Mr. and Mrs. Yosten returned to Muenster Monday.

It was the first time the noted music makers were in Cooke County and Muenster and they said they would long remember the homemade German country sausage they had for breakfast. They are already looking forward to a playing engagement at the Medders' Vacation Ranch at Saint Jo when it is completed.

Other guests included Miss Cathy Medders, home from Hockaday School in Dallas, John Riggs who had a free weekend from classes at Subiaco Academy in Arkansas and was with his parents for the Horse Show in Saint Jo and the dance, also Miss Cindy Purcell of Fort Worth, Michael Shaw of Garland, who is a junior at Jesuit High in Dallas, Jimmy DeLoache, Mr. and Mrs. Harvey Lewis and Florene Smith, all of Dallas who were guests of the Medders family.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

It takes more than wood, mortar, and brick to make a house a home. A modest house can be made to look very impressive with a good landscape. The majority of the modern homes constructed in recent years are located on land which was recently farmed. As a result the home owner must establish his entire landscape.

As the new landowner he has inherited the problems and responsibility of protecting, conserving, and improving this land. If you have ever driven in the country during or shortly after a rainstorm and have seen the barren, washed away fields as well as the mud-filled ditches, you have an idea of what your land needs. Had these barren fields been protected by a cover of grass the erosion and mud would have been eliminated.

The soil problems involved and the things which must be done in order to establish a lawn, grow flowers and have a good garden are no different from those of a farmer on his land — just a much smaller scale. Suggestions from the Conservation Service, assisting the Upper Elm-Red Soil Conservation District, are about the same for the new home owner planning to establish a lawn and for the District Co-operator planning to establish a pasture. Follow these simple directions for the best results:

-Prepare a seedbed at least four inches deep.

-Work in some residue or manure.

-A complete fertilizer such as 10-20-10 should be worked into the soil before planting where seed or roots are scattered on the soil surface.

-Get the best grass seed or roots available.

-Seed and roots should be planted uniformly whether in rows or scattered on the soil.

-Firm soil around seed or roots by rolling or some other method.

For lawns that are seeded, the seeded area must be kept moist with daily watering, either morning or night, until the plants are 3 or 4 inches high. After that, water less frequently and wet the soil to a depth of 4 to 6 inches. Control weeds.

For further information, call or come by your local Soil Conservation Office.

NOTES FROM CITY LIBRARY

SPRING IS HERE

Officially calendar-wise Spring is here, but weather-wise Old Man Winter has been making a comeback and hanging on.

This is the season that turns people's thoughts and efforts to gardening, either vegetables or flowers, or both.

Muenster Public Library has a complete set of 14 volumes of the "New Encyclopedia of Gardening" by T. H. Everett, donated in memory of Dr. T. S. Myrick by his widow.

Every plant is described and growing instructions listed. Have you a soil problem? One volume is devoted to pests and diseases and insecticides to combat them.

The Library also has the "Garden Encyclopedia" by E. L. D. Seymour, a reliable source of information.

Cathy Medders Is Luci Johnson's Washington Guest

Cathy Medders admits to still being in orbit from a wonderful week in Washington where she was the guest of Luci Baines Johnson, daughter of President and Mrs. Lyndon Johnson, for events in and out of the White House. Each day was filled with adventure and excitement and never to be forgotten experiences.

Miss Medders' social calendar included attendance at a diplomatic reception for Luci at the Shoreham Hotel, attended by daughters of ambassadors from all over the world, and where she also met the famous Perle Mesta.

She had luncheon with Luci in the White House and visited also with Mrs. Johnson and Lynda. Luci was guide for a tour of the White House.

Also interesting was attendance at a dinner for Astronaut Scott Carpenter and meeting him and his wife. There was a tour of the Capitol, attendance at a broadcasting company's preview of new shows and meeting the stars afterward at a cocktail hour and buffet.

Cathy was the houseguest of Congressman and Mrs. Graham Purcell and they took her sight-seeing. Mrs. Purcell introduced her to women members of the Texas Society at luncheon and went with her on a congressional tour of the White House.

DETROIT — Plans to encourage establishment of a nationwide communications network to aid motorists in distress have been announced by the Automobile Manufacturers Association.

The system, to be known as H.E.L.P. for Highway Emergency Locating Plan, calls for the use of Citizens Band two-way radio equipment in private passenger cars.

Motorists in need of aid would make their needs known on CB Channel Nine where it would be picked up by a round-the-clock monitoring station within the 10 to 20 mile range of the equipment. Monitors would include volunteer citizen teams, police agencies, road service stations and hospital emergency rooms.

The AMA pointed out that well over two million pieces of CB equipment already are in use. Nearly all are transceivers, which both receive and transmit messages, and approximately half are in motor vehicles. Officials said the plan grew out of a growing concern by government agencies and highway safety groups over the lack of emergency communications facilities for motorists. They pointed out that this lack will become even more apparent as the nation expands construction of its limited access roadways.

In seeking a solution to the problem, various states and areas have experimented with systems of roadside telephones, solar powered emergency signal systems, roadside radio transmitters and emergency road patrols.

"Such systems, while commendable, may not be the most practical or economically feasible in attempting to cover the nation's entire road system," AMA said. Government agencies asked the industry to aid in developing improved systems.

A special AMA engineering task force has been working for more than a year in cooperation with leading radio manufacturers and volunteer citizen groups. A number of volunteer groups are successfully operating smaller programs in various parts of the country, AMA said, and are being urged to join H.E.L.P. to effect a coordinated plan throughout the nation.

Transceivers presently are available from radio supply shops throughout the country so that interested drivers can begin using them immediately. Prices vary depending on the number of channels provided and special features offered.

Operation of the transceiver requires merely turning on the set, switching to Channel Nine, pressing a button to talk and releasing it to listen.

Use of the equipment is controlled by the Federal Communications Commission but no operator's license is needed. An application for the required station license, valid for five years, can be sent to F.C.C. when equipment is ordered. Licenses are open to non-alien over the age of 18 years.

run that way. We alert the world, invite all to look and listen, and broadcast every detail from launching to recovery. And the record shows we have taken every known precaution for the astronauts' safety. While we have to admit that the Reds apparently are still ahead in the space race we can be glad that we don't operate their way. We don't offer human sacrifice to the god of science.

Another factor about the big race is also gratifying to us Americans. We are not defaulting on obligations to our own people or to other nations in order to be first with the spectaculars. We don't skimp on production of food, clothing, housing and human comforts to rush capsules into orbit. Nor do we ignore debts to other countries.

Lots of Americans are get-

ting tired of the propaganda about Soviet space supremacy. We can't help thinking it's a shabby kind of supremacy when it's achieved the red way, and we think more should be done by American publicity machinery to tell the real story. After all, the rest of the world, and especially our people, deserve to know more than just the Soviet side.

It might even be a good idea for US to go in cahoots with the Italian space scientists and put on a world wide broadcast for every Soviet space effort. World esteem might change if fizzles were publicized as well as triumphs.
