NUMBER 35

The folly of that famous, or infamous, wheat deal with Russia was emphasized again Monday in the report of unpleasant relations with the Soviets in connection with unloading a ship load of the grain in a Russian port. The captain of the American freighter relates how his ship was boarded and held captive for five hours on the open sea because of a hassle which developed while 32,000 tons of grain was being unloaded.

Soviet authorities, in their usual arbitrary manner, caused repeated delays. Unloading, which was finished in seven days on the ship's first trip, stretched out to 19 days this time. Apparently the reds were smugly satisfied with their harassment of the American skipper and his crew, probably because the loss of time caused a heavy loss in their earnings. At least that seems like the motive in view of their fury when the American skipper revealed his ace in the hole. The original deal permitted him a choice of \$3 per man-hour or 50 cents a ton for unloading. He chose to be paid by the hour and the reds suddenly realized they were charged for all the lost time they had caused. After the ship was gone they decided to bring it back to port and a patrol boat caught it 24 miles out, in open water. Despite threats the American skipper called the bluff and refused to go back. The Ruskiens were further infuriated at being out-foxed the second time.

We get at least some satisfaction out of the thought that our Yankee skipper made monkeys out of the reds, but let's not laugh too loud. In the end the laugh is still on us. Even though some extra thousands of dollars were added to the Russian bill as a result of the boorish interference we still have no assurance that it will be paid. The deal, you'll remember, was to guarantee Soviet credit by a loan from the Import-Export bank — meaning that American taxpayers will pay if Russia doesn't. Well, you know Russia's record of paying debts. Guess who will pay for the wheat and the big unloading charge.

And there's more to the story. American sailors at the port saw their wheat being loaded in a Soviet ship for transport to Cuba. Furthermore they were told by Russian sailors and officials that the red boat was going to Cuba, also that Russia accepted the grain in the first place as a favor to the American economy. That apparently is the version of the deal over there — adding insult to the injury of the double cross we have received.

Everything about the incident justifies the widespread resentment of Americans while the wheat deal was cooking, especially the administration's pressure forcing it through Congress after it had been turned down. Most of us recall that President Kennedy tried unsuccessfully to have it passed. After his assassination President Johnson brought it up again and Congress was urged to reconsider and approve it as a deal that was dear to JFK's heart. The implication was that turning it down would be a desecration of the former president's memory. Needed votes were gathered and it was passed on sentimentality even though it did not have a bit of merit. So, a deal that was ridiculous from the start gets even more ridiculous. It's a prize boner for the administration to live down.

One of the predictions about the coming presidential campaign already seems to be taking shape. Defections from party are beginning as people take a stand on liberal and conservative sides of the issues.

A few losers in last week's GOP convention tussle have announced that they will not support Goldwater. They intend to run as liberals, meaning that, indirectly at least, they will support the Johnson line, despite their claim that they intend to stay with the party. On the other side Wallace withdraws as a States Rights Democrat and his campaign manager announces his support of Goldwater.

Lots more of that is likely to happen as the campaign advances. When election day arrives labels will still remain but there will have been lots of switching and the real line-up will have become mostly (Continued on page 8)

Catholic League State Convention Opens in Lindsay

Delegates and visitors from more than 100 parish societies in the state along with about 150 insurance representatives will gather in Lindsay this weekend for the 66th annual convention of the Catholic State League of Texas and its affiliated insurance branch, the Catholic Life Insurance Union.

The weekend also marks another special occasion for the Lindsay parish. Bishop Thomas K. Gorman, who will celebrate a pontifical high mass Sunday, will also bless the newly completed gymnasium and grade school buildings. Abbot Alfred Hoenig will also be there.

The principal day of the convention is Sunday featuring the Pontifical Mass at 9 a.m. and an evening program at 8 p.m. with Dr. Charles Galvin, dean of SMU Law School, and Mrs. Mike Smith of D'Hanis as the principal speakers. The day also marks observance of the golden anniversary of the Texas branch of the National Women's Union.

The convention opens Saturday with welcome messages by the pastor, Father John Walbe, the mayor, Joe Bezner, and County Judge Bill Carroll. Nick Block of Lindsay will be convention chairman. The insurance section of the convention begins on Friday.

At a youth rally Saturday night the convention will award savings bonds and plaques to winners of the annual rural life essay contest, in which more than 600 students participated. The Catholic League, with affiliation principally in rural parishes, has a special interest in the problems and blessings of rural living.

Closing session, on Monday, will adopt resolutions for the convention.

Bill Nelson Dies In Oxnard, Calif.

A telephone call to the Fred Hennigans Monday evening reported the death Monday afternoon of Bill Nelson, husband of Fred's sister, the former Ellen Hennigan. Mr. Nelson died of a heart attack in Oxnard, Calif. The family moved there from Muenster.

Funeral services are set for Friday in Oxnard.

Survivors in addition to the widow are one son and two daughters and four grandchildren.

Crows 24, Jays 5; Cards 9, Hawks 2

With the Pee Wee championship securely tied up, the Cards kept on winning Wednesday night, apparently determined to make it a perfect season. They have a 7-0 record, as Crows stand at 4-3, Hawks at 2-5 and Jay 1-6.

Crows walloped the Jays 24-5 in the opener, getting 14 hits, 13 walks and 3 errors while the Jays got 1 hit, 7 walks and 1 error. Hitters for the winners were Jim Endres a home run; Eddie Knabe a homer and a single; John Schneider, triple, double and single; Allen Trubench, three doubles; Billy Pratt, double and single; Ricky Walterscheid double and single; Chris Hess, single. Mike Trubench's single was the only hit for the Jays.

Next game Cards won 9-2 on 12 hits, 1 walk and 2 errors and the Hawks made theirs on Ronnie Hess' single and 9 walks. Hitters for the Cards were Fred Fuhrman, homer and two doubles; Glenn Felderhoff, two doubles and a single; Jim Endres, double and single; Allen Hess, double and single; Jim Schmitz and Lynn Klement each a single. Pitchers were Jim Endres and Fred Fuhrman for the Cards, Ronny Hess and Dale Hellman for the Hawks.

Air Strip, Other Features Added To Guest Ranch

As plans progress for the Ernest Medders' Colonial Vacation Ranch at Saint Jo other innovations are being added. Newest additions to the vacation center include a landing strip.

It will accommodate flights in and out by flying vacationers and the Ranch will have its own plane with regular flights to the Dallas airport to pick up vacationers as they arrive and return them there after their visit.

The golf course previously planned for nine holes will open with 18 holes, it was announced this week.

Also in the plans is restoration of an ancient building on the property. It will feature antiques and western lore.

Pictures of the terrain will be taken Saturday from a helicopter as plans for the 100-unit luxury motel complex continue.

Mr. and Mrs. Medders who are developing the million-dollar project received a telephone call of congratulations Tuesday from Congressman Graham Purcell from Washington, D. C.

Angels 10, Twins 9; Mets 8, Colts 5

The Angels pulled ahead in the Little League Friday night by beating the Twins 10-9 while the Colts were upset 8-5 by the Mets. Standings for the loop now are Angels 4-1, Colts 3-2-1, Twins 2-4, Mets 2-4.

An early start did the jobs for the Angels, stacking up enough scores to hold up in spite of a Twin rally in the last two innings. Angels were working on 9 hits, 6 walks and 2 errors while Twins had 4 hits, 10 walks and 1 error. Angels' hitters were Mike Stoffels and Ken Schmitz, double and single each; Ted Endres 2 singles; Glenn Owen a triple; Glenn Rohmer and Tommy Tuggle each a single. For the Twins: Paul Hoedebeck a homer, Glenn Trachta a triple and a single, Steve Stoffels a single.

Practice Starts On August 17 for Football Teams

Practice for the 1964 football season is just a little more than three weeks away for the players of both Muenster teams.

Coaches James Polk and Adam Wolf said this week that they intend to get their Hornets and Tigers together on August 17, a week before the beginning of classes. That will allow the Sacred Heart boys two weeks of practice before their first tussle with Whitesboro. And it gives Muenster High three weeks to get organized for the opener with Lindsay.

The Hornets will start their practice in shorts, giving the fellows an opportunity to remain more comfortable while they go through conditioning exercises, and while they refrain from bodily contact.

Coach Polk indicated that the shorts may be required by Interscholastic League regulation, to assure that conditioning will precede the contact work. He will use them whether they are required or not.

The Tigers will not start in shorts unless regulations require them to Coach Wolf said that the boys have to go to hard practice as quickly as possible to get in shape in two weeks.

Better prospects face the Hornets this year, according to Polk's size-up of the team. Only two regulars from last year will be absent and all the rest of the boys have the benefit of experience and added weight. The over all improvement, Polk thinks, will easily offset the loss of Weldon Vogel, one of the outstanding players of the district last year. About 27 boys are expected to report for the team.

In the Tiger camp Coach Wolf expects to have about the same strength he had last year. Though he lost 12 from the '63 squad, including 7 starters, he has a good group of experienced reserves. Besides, the team will be heavier than last year. In general Wolf expects the defense to be stronger and the offense not quite as good.

Failure of Pump Fails to Cause Water Rationing

Water rationing was considered here during the weekend, but it did not become necessary as a result of a breakdown last Saturday. Even though the city's supply was dropping it had not gone low enough to cause concern before the trouble was corrected.

The cause was failure of the submerged pump at the No. 1 well, west of the bank. When it went out another was promptly ordered but was not in stock in Dallas. It had to be shipped from the factory up north by air freight.

Rufus Henscheid of Shamburger Lumber Co. went to Dallas Monday to meet the plane but found no pump consigned to him. Instead there were two of the same model for an East Texas oil man. Henscheid spoke to him by phone and got his OK to take one of the pumps in exchange for the pump that would arrive the next day. It saved a day for Muenster.

As things turned out the extra day was not needed, however. When installation was completed the supply was 350,000 gallons, 150,000 under the full mark.

At another time of the year the breakdown could have been taken in stride. However, it's different now as daily consumption is running over 400,000 gallons. All time peak was 430,000 gallons last week Tuesday and a new peak of 445,000 was reached this week Tuesday.

That's more than the total output of the other two wells. No. 3, on North Main pumps 150 gallons a minute, No. 4 on Maple pumps 135 gallons a minute. Their combined output is about 410,000 gallons a day, not enough during sustained peak consumption. Even then, however, the rate of loss is slow.

The new pump produces 165 gallons a minute and the combined output of the three is 450 a minute which figures to 648,000 gallons a day, a wide margin of safety over the current peak.

Work just finished on the water mains further improves the system. Additional 8 inch line completes a loop and allows pumping water into the mains in both directions. In case of extra heavy consumption two booster pumps will work together to put water into the mains. Normally only one booster pump works at a time.

Addition of a big consumer accounts for the big increase of water use this summer. The NTPA milk plant tied to the city line when its well failed in February.

Sisters Ann, Frances and Leonarda left Saturday for the motherhouse in Jonesboro, Ark., the Al Kleisses taking them to Dallas to board a train for the trip. Leaving this week Thursday were Sisters Helen, Aloysia and Agnes, also going to Jonesboro.

Jaycees Prepare For Big Crowd at Friday Fish Fry

Muenster Jaycees are working like beavers this week in hopes of making a super-duper event out of their fish fry Friday night. Their goal is to double the attendance of about 400, which rewarded their first effort last year.

The fish fry, under general chairmanship of Carl Walterscheid, is a money raising event, to start a fund for a community center building. Practically all members are included in the committee that has worked and will work Friday night. They urge people to buy tickets immediately if they don't have their's now so the caterer will have a better idea of how many to prepare for. Service will be faster if the cooks can plan better.

Featuring the party is a menu the Jaycees are proud of. People who come will get plenty of good eating, they say, besides helping a good cause. There will be fresh catfish — "all you can eat" — plus Pinto beans, baked potato, fried onion rings, tossed salad, pickles, lemon wedge, hot rolls and tea. And the charge is \$2 a person. Catering service is being donated by Rohmer's Restaurant.

Jaycees are hoping that lots of local people will choose to have their Friday supper at the fish fry. In addition they are expecting a good crowd of visiting Jaycees from Nocona, Wichita Falls, Decatur, Gainesville and Richland Hills. Other visitors due to be here are the Frohsinn Choir singers of Dallas.

Because of the fish fry the Little League baseball games scheduled for Friday night are postponed.

WHERE YOUR TAX MONEY GOES

Congressman Abele of Ohio has looked into some of the more unusual federal appropriations of our tax money. As recounted by the Associated Taxpayers of Idaho, here are a few:

\$15,200 for a study of society and demography in ancient Babylonia.

\$36,800 to look into the social behavior of ants.

\$2,100 to look in the behavior pattern of barren-ground caribou.

\$20,600 to try to learn about communication signals in birds.

\$13,700 to study the social structure in Madagascar.

\$65,400 to examine the behavior and ecology of the wandering albatross.

These studies are of specialized value. But it is difficult to see how they are the

responsibility of the federal government. They represent the sort of thing that is, and should be, undertaken by universities, foundations and the various private research centers.

A total of all the extra-curricular activities, so to speak, that the government now supports would reach a mighty impressive figure. Economical government can be achieved only if every non-essential expenditure is eliminated — whether the sum involved be \$10,000 or \$10 million.

LBJ Fades Norman Thomas

President Johnson, in an address of greeting to leaders of various organizations of so-called "senior citizens" who met in the White House last January 15, said:

"We are going to try to take all of the money we think is unnecessarily being spent and take it from the 'haves' and give it to the 'have nots' that need it so much."

This statement, at the time, was written off in many quarters as just another aphorism to reassure the medicare proponents that the Administration would go all-out for health insurance tied in with social security — so that the "haves" (who didn't need or want regimented medical and hospital services) would be paying for the "have nots."

But anyone who has given any thought to the President's pending "war on poverty" bill is sadder and wiser today — and ready to accept an earlier LBJ statement quoted by Robert Spivack in the N. Y. Herald Tribune of last December 1: "You say I am not a lib-

"Beware Lest You Lose the Substance by Grasping at the Shadow." — AESOP.

eral. Let me tell you I am more liberal than Eleanor Roosevelt, and I will prove it to you. Franklin D. Roosevelt was my hero — he gave me my start."

And, if that is not proof enough, there is the very recent praise of our President by Norman Thomas, standard-bearer of the Socialist Party, and its quadrennial Presidential candidate as far back as memory serves. In his encomium, Mr. Thomas made it plain, we thought, that since LBJ expects to run this year, he, himself, may now take it easy — secure in the realization that the banner of Socialism is in strong hands.

For the purpose of the measure now before Congress, "poverty" (which had been generally regarded as a condition threatening starvation) is the parlous state of a citizen with a cash income of no more than \$3,000 a year — who would then be eligible to economic salvation under one or more of the innumerable "programs" this Robin Hood legislation would provide.

Among those who are puzzled over this \$3,000 figure is South Carolina's Democratic Senator Strom Thurmond who points out that: "More than a million members of the US armed services make less than this amount," and that if \$3,000 a year is poverty, "it seems contradictory that in 1963 the Government collected \$3.54 billion in personal income taxes from the 4.1 million Americans having incomes of less than \$1,500."

Something is rotten in Denmark? No, in Washington. And you ain't heard nothing yet!

THE QUESTION REMAINS

The intimately related tax and spending problems grow more clouded.

A short time ago the powerful House Ways and Means Committee voted to increase social security payments and to increase social security taxes by 5 per cent to meet the bill. There are excellent arguments in favor of this move in view of the slow but steady rises in living costs that have characterized the "creeping inflation" of recent years. But, the pros and cons of that aside, this increased tax will go a long way toward offset-

ting the reduction in income taxes that went into effect this year.

We are facing an ancient truism — you can't have your cake and eat it too. And the government, despite the occasional lip service that is paid to the cause of economy, continues to operate on a "spend more, owe more" basis. The disastrous end result of this kind of policy has been seen the world around in the post World War I era. So, an old and increasingly important question remains to be answered: Will we learn from the tragic experience of others before our own economic sins catch up with us at home? The spenders in Congress have just voted a heavy increase in their salaries although they have failed miserably to show any ability to balance national expense with national income.

"Poverty" and "Politics"

The Secretary of Health, Education and Welfare has cast some light on the "war against poverty". According to him, the federal government now has 42 individual programs costing some \$42 billion in fiscal 1964, designed to combat poverty and to overcome its causes. In 1962, moreover, it is estimated that the total national effort for "social welfare" — by all levels of government and private organizations — came to the amazing figure of \$100 billion.

Statistics such as these, of course, cover a very wide list of projects, some of which approach the poverty problem indirectly as well as directly. But they do show the very urgent need for a top-level review of all the programs before we start spending billions for new schemes to be administered by a vast new bureaucracy with a poverty czar at its head. And they show, too, that local government and private enterprise are doing very much more in this direction than is generally recognized. It will be a sad day for all the taxpayers of this country and for all those who honestly are in need of assistance if "poverty" and "politics" become synonymous.

An octopus can change color instantaneously to any shade from white to dark reddish brown.

Ad Valorem Tax May Be Abolished Says Gov. Connally

AUSTIN, Tex. — Local governments in Texas may be the main beneficiaries if state government winds up the current fiscal period with an \$80,000,000 surplus as Gov. John Connally predicts it might.

Should such a surplus be reached, Connally told reporters, it is "fairly" certain he will recommend abolishing the ad valorem tax on property for state revenue purposes and leaving that source exclusively to local governments.

Connally said \$20,000,000 of the expected surplus could be set aside in a special fund to retire college building bonds backed by ad valorem tax contributions.

In predicting that the surplus will not be less than \$35,000,000 and probably will reach the \$80,000,000 figure, the governor joined those who have contended all along that the general revenue fund will be so far in the black by 1965 that new tax problems will be eased if not erased.

Connally also said he contemplates submitting to the Legislature in stages the recommendations of his Committee on Education Beyond the High School.

He still plans to call a conference on morals and ethics but said he has not picked a time. However, he declined to say whether he would recommend fair employment and public accommodations legislation in order to maintain some state jurisdiction over civil rights under the new federal law.

A Million Dollar Rain

When an inch of rain falls on a 100 acre farm it delivers this quantity: In volume, 4,356,000 gallons; in weight, 36,300,000 pounds. To transport this 18,150 tons of water would require 544 tank cars of four trains, each over a mile long.

On the basis of 1 acre this same inch of rain weighs 266,875 pounds. That is a lot of beating on well protected land and almost too much to ask

of bare uncovered soil. These figures may explain why it is important to keep a cover on the soil as much of the time as possible.

Nancy Klein and Cliff Truebenbach Say Vows at Mass

—Boyd and Breeding Photo

Miss Nancy Klein became the bride of Clifford Truebenbach in a double ring ceremony at nuptial mass Saturday, Father Alcuin Kubis officiating for the 5 p.m. service.

The bride was given in marriage by her twin brother, Kenneth Klein of Dallas. For her wedding she wore a gown of antique white taffeta, the Empire bodice enhanced with shirring and the long sleeves coming to points over her hands.  Father Paul Hoedebeck will end his summer visit in Muenster after the Catholic State League convention in Lindsay. He plans to return to Subiaco, Ark., with Abbot Michael Lensing when he returns after the convention.

Mr. and Mrs. Ernest Medders were guests of Mr. and Mrs. Earl Fisher Saturday night for the Casa Manana Musical "The Unsinkable Molly Brown," in Fort Worth. Afterward they visited Mrs. Medders' nephew and family, the Carl Webbs, who have just moved from Memphis, Tenn., to Fort Worth. They were seeing them there for the first time and enjoyed a tour of their new home. Mr. Webb is associated with the Medders' development program at Saint Jo.

Four grandchildren kept things lively three days the past week at the home of Mrs. Mathilda Wimmer. In Muenster with their grandmother were Shirley, Barbara, Rose Mary and Edmund Mages of Carrollton. Their parents, Mr. and Mrs. Eddie Mages also had a vacation during the time. They took their son Airman David Mages back to Abilene AFB after a visit at home. Returning, Mr. and Mrs. Mages stopped at Big Spring to visit her sister and family, the Lavel Kinsleys.

Native Bluestem Grass Responds to Good Management

Good management depends on the man. This has long been a recognized truth in the business world. Farming is a business and here, too, the man and management cannot be separated.

The picture shows the results of good management of Native Bluestem grass. The majority of native rangeland in the Muenster-Saint Jo area of the Upper Elm-Red Soil Conservation District would look as good and produce as

much as that shown if the same good management practices were applied.

This grass was first deferred or rested by removing every head of livestock for at least three months during the growing season. For the remaining nine months it was properly grazed by taking not more than one half by weight of the grass produced.

Personnel of the Soil Conservation Service will be glad to demonstrate a fast and easy

way of determining what is approximately half of the production.

Results of proper management were a thicker stand of grass and a large increase in the amount of grass produced.

Research has shown that when the right kind of management is applied on a continual basis it results in as much as 25 per cent increase in carrying capacity. For further information on management of native grass call or stop in at the local SCS office.

CDA's Make Plans For Coming Events

Planning for coming activity was the principal business at the July meeting of the local court Catholic Daughters of America July 10. Mrs. Al Schmitt, new grand regent, conducted the session.

The presentation of certificates to children for their summer reading program, the holiday bazaar, observance of the court's golden jubilee, and the sale of Christmas cards all came up for discussions.

Mrs. Steve Moster gave a six-month report on City Library and asked for volunteers on August 19 when certificates will be filled out and presented to students who have read 12 or more books during vacation time.

The benefit bazaar is scheduled for November, but already members are busy making handmade toys and gifts items for sale. This event is the court's annual best source of income for its charitable projects. Mrs. Ben Seyler's home is the collection depot for finished articles.

Observance of the court's 50th anniversary in December includes plans to honor charter members.

The organization has 270 dozen Christmas cards picturing the main altar of Sacred Heart Church in color as it appeared last Christmas. The cards are \$1.50 a dozen or 13 cents each.

Mrs. Steve Moster, retiring district deputy, was presented a personal gift from the court. Mrs. Gene Schmitt served ice tea and cookies after adjournment.

Paul Fisher Cows Lead County DHIA In Milk Figures

Two cows owned by Muenster dairyman Paul Fisher tied for the top spot in milk production in the Cooke County Herd Improvement Association for the month of May.

County Agent Neil Tibbets said the cows produced identical amounts of 2,800 pounds. One of the cows produced 112 pounds of butterfat to lead all other cows in the county in that department. The other leading Fisher cow produced 67 pounds of butterfat. The two cows had butterfat tests of 4.0 and 2.4.

High butterfat test for May came from cows owned by Richard Frasher and the F&M Dairy.

Thirty-one cows produced at least a ton of milk during the month, Tibbets reported. They are in herds owned by Jerry Hoenig, Paul Fetsch, Tommy Knabe, Wilfred Sicking, Fisher, Frasher, Hi-Lo and F&M Dairies.

Fetsch's herd produced the top average of butterfat—48—and the highest average production of milk—1,400 pounds.

Angels 1, Mets 0; Colts 13, Twins 4

(July 10 Games)

The tightest defensive game of the Little League season so far was the Angel's 1-0 win over the Mets Friday night. It was mostly a 3 up and 3 down affair until the last half of the last inning when the Angels combined their only two hits to bring in the one big tally. Gary Gieb got the first single and Mike Stoffels the next and both advanced as Ted Endres and Ken Schmitz got on base on errors. In all the Angels had 2 hits, 1 walk and 3 errors to work on. The Mets had more opportunities but they were scattered: 1 hit, 5 walks, 1 error. Carl Endres got the hit. Pitchers were Carl Endres and Tommy Hess for the Mets, Mike Stoffels and Leroy Hess for the Angels.

Next game the Colts walloped the Twins, hanging on to their tie with the Angels for league lead. Both teams have a record of 3-2-1. Twins stand at 2-3 and Mets at 1-4.

The Colts got 13 runs on 8 hits, 12 walks and 3 errors. Twins scored 4 on 2 hits, 6 walks, 3 errors. Hitters for the Colts were: Tim Endres a double and 2 singles; Leon Endres a triple; Alvin Hoenig, Stanley Endres and Don Schneider each a single. For the Twins Terry Wimmer doubled, Paul Hoedebeck singled. Pitchers were Don Schneider and Leon Endres for the Colts; Terry Wimmer, John Monday and Mike Hennigan for the Twins.

The grasshopper lived on welfare and sat in his doorway singing all day. When winter came, the ant had a whole bale of grass. But the ant had violated the Federal Farm Law for over-harvesting grass. He was fined \$162.50 and the surplus was seized. The grasshopper received the surplus in exchange for his food stamps.

Mr. and Mrs. Ed Schad and sons Eddie and Don have returned from a vacation trip, visiting relatives and friends, in San Antonio, Castorville and Corpus Christi.

The Johnny Arendts and children Sheila, Hank and Marian and Mrs. Arendt's mother, Mrs. H. P. Schad of Gainesville, are back from a vacation trip to points in Colorado, seeing places of interest for five days. Baby Lisa Ann Arendt stayed with her aunts in Muenster and Jay Arendt had his vacation with the Andy Arendts.

A splash party at Muenster pool was enjoyed by the Arendt family's women and children. Mrs. Paul Arendt Sr., her daughters, daughters-in-law, grand children and great-grandchildren were together. They brought homemade ice cream and cookies for refreshments.

Telling about a marvelous visit at the World's Fair and highlights of a trip through 18 states afterward are Mr. and Mrs. Bob Young and son Jimmy of Dallas. They kept her mother, Mrs. Joe Bezner Sr., posted on the way and have told a lot since they returned. They took their antique Oldsmobile, a model of the early 1900s, to the Fair and won a trophy for bringing it in over the most miles... were guests

of General Motors for the Fair. Touring Washington, D. C. and visiting President Kennedy's grave left never-to-be-forgotten impressions.

Mr. and Mrs. Carl Pelzel and children of Ennis visited her sister, Mrs. Richard Hermes and family, the latter part of last week. It was a part of the Pelzels' vacation.

Marilyn and Margie Stoffels are vacationing in Muenster on the farm with their aunt and family, the Jerry Hoenigs. Gerald Stoffels had his vacation there earlier. They are children of Mr. and Mrs. Henry Stoffels Jr.

Mr. and Mrs. Leonard Bengfort and children were Sunday dinner guests of her parents, the John Herts in Muenster, joining in a gathering that included Mrs. Bengfort's aunt and family, the Albert Vances of Hereford.

Mr. and Mrs. Johnny Wolf were among relatives attending the wedding of her brother Rodney Walter and Miss Elizabeth Starkey in Lubbock Saturday morning.

Henry Hess Jr. and Gene Block have returned from a week's trip going places and seeing things. They toured states, especially enjoyed Hoover Dam, Las Vegas and Salt Lake City.

Mrs. Sophie Stoffels has word that her daughter-in-law, Mrs. Billy Stoffels, is a surgical patient in a San Antonio hospital.

John Pelzel Clan Gets Together to Observe Birthdays

A reunion of the John Pelzel family was held Sunday in Pilot Point K of C Hall celebrating the birthdays of Mr. and Mrs. John Pelzel. Hers was July 14 and his was July 23. The group also included Mrs. Donnie Walterscheid whose birthday was July 11.

Those attending came with gifts and decorated cakes and covered dishes for dinner.

All the family, including Mrs. Ed Blumberg, attended making four generations present. Mr. and Mrs. Gene Pelzel and children Michelle and Matt attended from Lindsay. The Donnie Walterscheids and son Craig attended from Muenster. Others were present from Pilot Point, Fort Worth and Dallas.

Two Share Honors

A little girl and her daddy shared birthday honors Saturday evening when Mrs. Winston Fangman entertained for her husband and daughter Sharon Rose at the family home. It was Sharon's second birthday. A fried chicken supper with birthday cake and ice cream was served to about 30 guests who remembered both honorees with gifts. Those present included Sharon's grandparents, Mr. and Mrs. Fred Fangman of Pilot Point and Mr. and Mrs. Henry Hess of Lindsay.

Liberal and Conservative. That's how it should be. At long last the two party names will stand for two definite sets of ideals instead of the frustrating sameness we had all these years while liberals had control of both parties.

This looks like a good development regardless of which party wins the election. The end result should be a more positive alignment of conservatives and liberals resulting in a better balance of legislation and administration.
