Present signs point to a near cinch that Medicare will be the law of the land before the present session of our congress closes. In spite of overwhelming evidence of ill effects resulting from government interference with medicine in other countries, in spite of widely publicized disapproval by doctors and hospital personnel in this country, in spite of a much better plan recommended by the medical profession, in spite of the fact that Medicare will add a heavy load on the Social Security system — in spite of all those very valid objections, subservient legislators are meekly going along with the demands of our socialistic and bureaucratic administration.

It's easy to understand why American Medical Association members were talking about boycott at their convention. They know that Medicare is just the beginning of a complete socialized medicine system for this country. They feel, as most of us do, that this is a foot in the door and it will be only a matter of time until the rest of the body comes through.

Even if they could reasonably hope that the socialized medicine trend would go no farther, they can see plenty of headaches ahead just in the Medicare system. Complying with official regulations will require endless red tape and endless snoopervision by federal personnel whose job is to see that all the claims sent in are justified. Hours and hours of the time that used to be available for helping patients will be taken up in paper work.

Anyone can see what the result will be. All patients, those under Medicare coverage as well as the others, will inevitably receive less of the doctor's time. And that problem will be compounded by the fact that a larger number of patients will report for attention simply because they expect Uncle Sam to pay the bill.

People who have had to wait for their appointments can imagine what to expect when the patient traffic builds up. At the same time they ought to wonder if doctors can do their jobs as well under the increased pressure of red tape and bigger patient loads. After all doctors are only human, and human efficiency has its limits.

From the government's viewpoint the program likewise has its problems. The first is administration, which will require the addition of thousands of personnel to the federal payroll. Of course it is probable that this isn't considered a problem at all, but rather the first objective. Bureaucracy glories in adding more bureaucrats. As in so many federal programs that have been created, it seems that benefits are intended more for the bureaucrats than for the public. Just the same, the extra thousands will go on the payroll and their salaries will become a big item of additional government expense.

Next there's the additional expense resulting from abuse of the system. Like all the other relief programs that have been introduced, this one is sure to bring out a multitude of chiselers. And if official attitude remains as it has been, there will be little effort to deny phony claims. The bureaucrats will pay off, apparently on the theory that such policy increases the number of happy voters.

Now consider who will pay all of that cost. It will be added to social security assessments, which already are getting mighty big. It will be paid by people under 65 who have to pay their own medical expense in addition to the Medicare program.

At this time employee and employer together pay 7 1/2 per cent on earnings up to \$4,800. That's up to \$348 a year. Present law provides an increase to 9 1/2 per cent for both starting in 1968, an increase of \$96 a year. But if Medicare is adopted, it is proposed that, starting next year, the current rate apply on earnings up to \$6600. For many that raises the tax figure \$130.50 as a starter and \$148.50 more in '68. And eventually the combined tax rate climbs to 11.5 percent, which means as much as \$759 a year. In each case the employee turns in only half the amount stated. But, let's be realistic. Money turned in by employer actually has

Ceremony and Reception Observe Golden Anniversary of Joe Bernauers

Mr. and Mrs. Joe Bernauer, married in Muenster in 1915, celebrated the golden anniversary of their wedding in Muenster Saturday.

Highlighting the observance was an Anniversary Mass at 5:30 p.m. and renewal of vows pledged a half century ago. Father Andrew Wever officiated. A reception and buffet in the Parish Hall followed.

The 50-year bride wore an aqua suit, white accessories, and a white carnation corsage sprinkled with gold. She wore again a gold locket and bracelet she wore at her wedding in 1915. Mr. Bernauer also added a bit of sentiment by wearing a tie pin that his father, Adolph Bernauer wore at his wedding and on his golden wedding day.

Attendants 50 years ago were attendants again. They are Mr. Bernauer's sister, Miss Frances Bernauer of Decatur and Mrs. Bernauer's brother Theo Miller of Muenster. For the anniversary Miss Bernauer wore royal blue with white accessories and carnation corsage.

At Mass, before the vows were renewed, Father Andrew read a cable from Rome, a special blessing for the couple, from the Holy Father, Pope Paul.

At dinner, the anniversary cake was a conversation piece. Its third tier was topped with a gold nuptial cross... a cross with two joined wedding

Hospital Directors In First Meeting

Directors of the Muenster Hospital District had their first meeting Wednesday night and discussed the provisions of the hospital bill and the procedure of getting the district organized. Sister Mildred and Elbert Morrow, attorney who prepared the bill for the legislature, also attended the meeting.

The time was spent mostly in Morrow's explanation of the bill and legal requirements for calling and holding an election. No decision was made on an election date. Directors agreed that there is no need to rush because it is too late to assess a tax for the district this year. However they intend to proceed steadily and have their election as soon as convenient.

Another meeting is set for July 9. At that time the directors intend to elect their officers and continue with their organizing.

Ravens 19, Cards 2 Jays 11, Robins 8

After five games in the junior loop of the Little League Jays are still in front with a perfect score and the Robins are still winless. Between them are the Cards with a 3-2 count and the Ravens with 2-3.

In Wednesday night's opener the Ravens were on a slugging spree and swamped the Cards 19-2. They got 11 hits whereas the Cards got none, also got the benefit of 7 walks and 5 errors as compared with 9 and 3 for the other boys. The hitters: Wayne Grewing and Ricky Swirczynski each a homer, a double and a single; Allen Rohmer a triple and 2 singles; Ronny Flusche and Joe Walterscheid each a single.

Lots of walks made the difference in the next game and Jays slipped past the Robins 11-8. They were working on 3 hits, 15 walks and 0 errors, the Robins on 2 hits 6 walks and 2 errors.

Hitters were Jim Schmitz a double and Terry Walterscheid a single for the Robins; Jim Endres a triple and a single, Randy Wolf a single for the Jays.

Schedule Changes At City Library

City librarian Mrs. Joe Luke announced this week a change of hours for library day Tuesday each week. The library will close one hour earlier, at 5 instead of 6 p.m.

Work is organized to close at that time which is also closing time for city hall.

Thursday open hours remain the same; 8 a.m. to 4 p.m. Librarians have been doing a booming business since school closed. They checked out 1556 books during June. A new shipment of books for students' summer reading program has been received and other books, coming as gifts, are on the shelves.

City Cracks Down On Firecrackers

The city of Muenster has responded to the many complaints which it has received concerning the use of fireworks. Deputy Don King has been instructed to enforce the city ordinance on fireworks to the letter.

Anyone caught using the fireworks within the city limit is subject to fine. Parents are urged to remind their youngsters that violation of the ordinance is a misdemeanor and the penalty for conviction is a fine of at least \$20.70 and not to exceed \$200.

Use of fireworks in the city has increased to a point at which city officials no longer can overlook the violations. The noises and fire hazards are too frequent, they are becoming a nuisance and a danger, and more people are asking for enforcement of the ordinance. Parents who do not object to the fireworks are asked to take their children out of town for the noise-making.

Hospital Auxiliary Lists Achievements Of First Year

Muenster Hospital Auxiliary, at the end of its first year, has an enviable record of accomplishments — and hard work. A report of the past year's activity was presented to members at their meeting Thursday night.

The organization raised funds for hospital equipment through bake sales, ice cream supper, art show, a dance, card party, chili supper, silver tea, membership dues and a combined rummage sale, bake sale and quilt sale. The latter combined event in June brought in \$452.85. Herman Marcus Sr. of Gainesville bought the handmade quilt.

Funds have been used to buy an electrocardiograph, a breathing machine, a stomach pump, medical books, and hospital cots for a total of \$1,640.75.

The Auxiliary also redecorated a room for children patients, decorated the hospital for Christmas and Easter and made tray favors for the patient on those days, they give each patient a pillow, corsage and they spent hundreds of hours in volunteer work including landscaping the hospital grounds.

Mrs. Ervin Hamric, president, and Mrs. George Petrus, treasurer, gave the report. In the name of the organization Mrs. Hamric thanked everyone who helped in any way to make the recent benefit a success and extended general thanks to benefactors throughout the year.

Nothing that was left from the rummage sale went to needy families in the community and to a church charity for Latin Americans in Lubbock. Mrs. Don Muller took the clothing with her on her return to Lubbock after a visit here.

Informal installation of new officers was held during the meeting and plans were made for a new project, listed as a stretcher.

Volunteering for social committee were Mmes. Walter and Richard Grewing, Henry Pick, and C. M. Walterscheid. Mrs. Arthur Bayer accepted duties of publicity chairman. Elected officers are Mrs. Ervin Hamric, president; Mrs. Richard Grewing, senior vice president; Mrs. Clyde Fisher, junior vice president; and Mrs. George Petrus, treasurer. Mrs. James Polk was appointed secretary and Mrs. Al Walter, historian. There are 84 paid-up members.

Anger improves nothing except the arch in a cat's back.

Funeral services with Requiem Mass and military rites will be held Friday, 10 a.m., at Sacred Heart Church and burial will be in Sacred Heart Cemetery.

Pvt. Wilson who would have observed his 19th birthday June 28, was a victim of a vehicle accident while he was with his company on maneuvers.

His wife, Nancy, and one member of the honor guard arrived by plane Thursday last week. She is with her parents, the Charlie Haverkamps.

The couple married here on Nov. 30, 1963. He entered the army in August 1964 and was sent to Germany in April this year. His wife joined him there in May. He was a native of Muenster, a son of W. B. (Nig) Wilson.

Council Expects Short Hearing on Tax Equalization

Members of the Muenster City Council are confident they will have a short meeting next Wednesday night, July 7, when they will sit as a board of equalization to hear complaints about the year's tax assessments.

Almost every taxpayer in the city has received a card advising of a raise in property evaluation, and every such person has a right to know why the raises were made.

Most of the people already have their answer. An article in the Enterprise last week explained that the city needs more revenue and the method adopted to get it is to raise the value of all lots, whether vacant or occupied. That constitutes practically all of the raises, except where justified by changes of last year or newly found inequalities.

Several persons have been to the city hall since then to compare their assessments with others based on equal value. Without exception they have been pleased. The attitude is that a tax raise is okay if it applies equally across the board. Lack of other evidence of interest is taken as a sign that little if any objection is likely at the hearing.

The city council selected lots as a basis of its tax equalizing in order to bring the taxable value on land more in line with the actual value. Accordingly it raised all commercial lots 150 per cent and all residential lots 50 per cent. Business locations along Main Street and the highway were upped from \$200 to \$500 per lot. Other business locations were raised from \$100 to \$250. Residential lots with sewer available went up from \$100 to \$150 and others went up from \$50 to \$75.

Total raises were \$25,031.67. On its tax rate of 1.50 per hundred the city expects to collect \$4,216.26 more in taxes this year.

Sisters Geraldine, Bertha, Helen, Clementine, Leonarda and Mildred visited in Dallas and Mesquite Sunday. They made the trip in Ray Swirczynski's station wagon. Sister Helen's brother Al Swirczynski met them in Dallas, took them sightseeing and then to his home at Mesquite.

Prosperous?

In previous issues of this paper, we wondered if we had a rich community with money to spare as some people say, or just an average community. Let us inquire into the average income.

First, let's discuss the farm income, and see of the farmers are getting rich.

Almost all the grain the farmers sell is bringing around

2c a pound with an average yield of 20 to 30 bushels per acre. Yet when he goes to town, the 2c a pound wheat costs him 9c a pound to buy back as flour. Whenever he needs a new tractor or other piece of equipment, he has to pay three or four times as much as he did formerly while the price of farm products has remained the same or in some cases is less. One of

my neighbors said that right after the war he took eight 600 pound calves to the sale and used the money to buy a new pick-up. Several months ago, he was trying to trade for a new one when calves were a little cheaper, and he said that, counting taxes, he would need more than 30 calves to pay for it.

I have talked to some of the Grade A dairy farmers and they said if they could get a steady job in town, they would sell out; pay off the 7% to 8% interest, mortgage, and work in town; and at the end of the month they would be money ahead with a lot less work and worry.

How about the men working in the oil fields? Just look around and see the large number of people working in the oil fields and a large percentage of them are concerned about their future employment. Most of the oil fields are being water-flooded and they will start playing out in approximately five years. In ten years the majority of them will be through. Can Muenster find employment for these workers with new industry or something, or are they going to have to move someplace else for a job?

It looks to me as I sit under this old hackberry tree thinking, that our town will soon be filled with old worn-out farmers; young farmers that went broke because of low income, as compared to high cost of tools, equipment and machinery, interest, taxes, insurance, etc., and the oil field workers that will be out of work as the water-flooding depletes the oil fields.

What do you think?
 —C. J. Fette.

IT CERTAINLY ISN'T CREEPING

We decided we should check and identify, if we could, some of the property and production facilities owned by government.

We found to our surprise that the Atomic Energy Commission, a Federal Government Enterprise, owns more machine tools than three giant automotive manufacturing concerns, General Motors, Ford and Chrysler combined.

A last year's news release gave the U.S. defense department's estimated values of the property and equipment it owns at \$171 billion with some 6 billion being added annually.

Government ownership of real estate is not neglected either. Our government owns outright some 800 million acres of land or about one out of three in the nation. It owns some 421,000 buildings but this isn't enough to take care of growing bureaucratic appetites, so untold thousands of additional buildings are leased.

Taxes to support this mammoth enterprise are levied against private citizens to the tune of some 35 percent of the total national income.

One out of every six employed persons in the U.S. depend on government for a paycheck.

One out of every five dollars spent in our nation for goods and services is spent by government.

One dollar out of every four dollars and a half of personal income is accounted for by direct government payments.

We found that almost every type of business in the country has some form of federal

WHAT PRICE PATRIOTISM?

They were men of means and well educated — yet they signed the Declaration of Independence knowing full well the price they'd pay. What happened to them?

Five signers were captured by the British as traitors and tortured before they died. Twenty had their homes ransacked and burned. Nine of the 56 fought and died from wounds or hardships of the war.

Carter Braxton, a wealthy trader, saw his ships swept from the seas by the British navy. He sold his home to pay his debts and died bankrupt.

Thomas McKean was so hounded by the British that he was forced to move his family constantly and to keep in hiding. His possessions were taken and he was reduced to poverty.

British soldiers or vandals looted the properties of William Ellery, George Clymer, Syman Hall, George Walton, Button Gwinnett, Thomas Heyward, Edward Rutledge and Arthur Middleton.

At the Battle of Yorktown, Thomas Nelson Jr. noted that the British General Cornwallis had taken over the Nelson home for his headquarters. Nelson urged General Washington to open fire. The home was destroyed and Nelson died bankrupt.

Francis Lewis had his home and property destroyed. The British jailed his wife and she died within a few months.

John Hart was driven from his wife's bedside as she was dying. Their 13 children fled for their lives. His fields and grist mill were destroyed. For more than a year he lived in forests and caves, returning home after the war to find his wife dead and his children vanished. A few weeks later he died from exhaustion.

Robert Morris and Phillip Livingston suffered similar fates. Such are the stories and sacrifices of the American Revolution. These men HAD security, but they valued liberty more.

Mary Knabe Bride Of George Streng In Church Rites

Sacred Heart Church was the scene of the Saturday wedding of Miss Mary Jeanette Knabe and George William Streng who pledged vows at 11 a.m. Father Bruno Fuhrmann celebrated the Nuptial High Mass and performed the ring ceremony.

Parents of the couple are Mr. and Mrs. Robert Knabe and Mr. and Mrs. Bill Streng, all of Muenster.

Mr. Knabe presented his daughter for marriage. She wore an aqua two-piece lace suit with white accessories and a corsage of pink gladioli. She carried a crystal rosary belonging to her mother who received it as a silver wedding anniversary gift from her late parents. And she wore a gold chain with an aqua cross that her sister, Mrs. Arthur Bayer, wore on her wedding day. It was a gift from their late uncle Father Anthony Schroeder.

Miss Florence Walterscheid was maid of honor wearing an aqua cotton jacket dress and white accessories. Her corsage was pink gladioli. She carried an aqua rosary, a gift from the bride.

Bonnie Prescher of Valley View was best man for his cousin.

For her daughter's wedding Mrs. Knabe wore a floral green sheer with bone accessories. She had a white gladioli corsage. The bridegroom's mother wore white with pink accessories and had a pink gladioli corsage. Mrs. Henry Streng, grandmother of the bridegroom, had a white carnation corsage.

Anthony Luke, organist, and the men's choir furnished music for the Mass and sang "Mother of Perpetual Help" after the service when the bride and groom went to the Blessed Virgin's altar where the new Mrs. Streng lighted a vigil lamp.

Wedding reception and dinner were held on the patio at the home of the bride's sister and brother-in-law, Mr. and Mrs. Arthur Bayer. Immediate members of the two families were guests. Another sister of the bride, Mrs. Charles Hamilton of Fairview, Okla., presided at the bride's book. Also attending from Fairview were Charles Hamilton and the bride's brother Anthony Knabe.

Members of the house party included Mrs. Joe Lehnertz, Mrs. Gertrude Bayer and Mrs. W. M. DeBorde.

Among wedding gifts was a hand painted picture of the bride on a silk scarf sent by a brother, Robert Knabe Jr., in the army in Korea.

Following a short wedding trip the couple is at home on the Henry Streng farm southwest of Muenster.

Arts Activities Tells Change In Class Schedule

Due to overwhelming response to Arts Activities Children's Summer Program it has become necessary to divide classes in all three arts. Mrs. Earl Leonard, director of the program, Tuesday announced a new schedule of classes.

Schedule for Muenster and Lindsay children, regular classes, Monday 2 to 4 p.m., drama; Thursday, 10 to 12 a.m., painting; Friday, 10 to 12 a.m., sculpture.

Gainesville children: Monday 2 to 4 p.m., drama; Tuesday, 10 to 12 a.m., painting; Wednesday, 10 to 12 a.m., sculpture.

If a Gainesville child has a conflicting activity he may join a Thursday or Friday class.

Purpose of the re-arrangement of classes, Mrs. Leonard pointed out, is to accommodate parents who form car pools for transportation. Also, by dividing the classes each child receives more individual attention.

Some 60 children are presently enrolled and enrollment is expected to jump to 100 as the classes continue.

Arts Activities, Inc., sponsors of the program for Cooke County children is delighted with enrollment and often amazed at the talent of the young students. Enrollment is still open, all are welcome to participate, the sponsors said.

**Braves 9, Yanks 7
Dodgers 2, Giants 0**

The Braves continued their perfect record in the senior division of the Little League by slipping past the Yanks 9-7. In the other game last Friday night the Giants continued their winless streak by a 2-0 loss to the Dodgers. League standings now are Braves 3-0 Dodgers 2-1, Yanks 1-2 and Giants 0-3.

First game was a defensive contest decided by errors. Both of the Dodgers runs came in on errors. They were operating on 2 hits, 2 walks and 3 errors, the Giants on no hits, 3 walks and 1 error. Tim Endres and Chick Stoffels each singled for the winners.

Next game had more action and almost equal opportunity and ended on a close count of 9-7. Three strong opening innings gave the Braves the lead that pulled them through. They were working on 6 hits, 7 walks and 1 error, the Yanks on 3 hits, 13 walks and no errors, Braves' hitters were Carl Endres 2 singles, Ken Schmitz a tripple, Allen Trubenbach a double, Dale Hellman and Jim Lawson each a single. Yanks' hitters: Mike Felderhoff 2 singles, Ricky Walterscheid 1 single.

Local Mavericks Split Two Games

Muenster's unsponsored and unnamed baseball team, which has been mistakenly identified as a Jaycee team, and which can be appropriately called the Omphans or Mavericks, split a pair of games during the past week. They lost 5-3 at Whitesboro and beat the Gainesville Rebels 11-4.

Sloppy playing in the first inning cost the game at Whitesboro Sunday afternoon. Muenster's flock of errors allowed 4 early runs, which proved to be plenty. After that both teams played it close. Roy Reiter gave up 5 hits and the Whitesboro pitcher gave up 4. The Muenster hitters were Leonard and Roy Reiter, Carl Walterscheid and Wendell Richey.

On the local diamond Tuesday night the Mavericks put the game on ice with a 5 run first inning. The final count was 11-4 as Muenster collected 8 hits and the Rebels got only 3 off the hurling of Roy Reiter and Willie Walterscheid. Muenster hitters were Willie Walterscheid 2 hits, and Tommy Flusche, Roy Reiter, David Hess, Adam Wolf, Don Vogel, and George Petrus, each 1 hit.

Next games on schedule are Gainesville Rebels here Sunday afternoon and another Gainesville team here Monday night.

Deferred Grazing Pays Dividends in Better Grasses For Livestock and Improved Seed Crops for Farmers

The practice of removing all livestock from a certain pasture for a full three months or more during the growing season is called deferred grazing. The purpose of deferring one or more pastures is to allow the better bluestem grasses to improve their vigor, to make a strong root system, to make a seed crop, and to furnish some winter grazing. In the above SCS photo the pur-

pose has been accomplished on this deferred pasture. The last two years were below normal in grass production and as a result the majority of district cooperators found themselves overusing their grass rather than selling a few head of livestock. These same cooperators agree that this year has been an excellent grass year with plenty of grass. This abundance of grass gives these land owners a chance to defer or rest one or more of their overused pastures. Simply remove the livestock, and close the gate for three months or more. July 1, is an excellent date to start as the bluestem is beginning to make seed heads. By the end of the third month

a seed crop will have been made and, the land owner, will be pleased with the results which can be seen. For further information on grass management, call or come by the local office of the Soil Conservation Service.

The CAPITOL CHRONICLE OF FREEDOM

DESIGNED IN 1792 THE CAPITOL WAS STILL UNDER CONSTRUCTION SOME 21 YEARS LATER WHEN ON AUGUST 24, 1814 THE BRITISH PUT IT TO THE TORCH...

REBUILDING TIME WAS ESTIMATED AT 2 YEARS... PRESIDENT MADISON WAS AUTHORIZED TO BORROW 500 THOUSAND DOLLARS FOR THE JOB... IT ACTUALLY TOOK 14 YEARS!

AT NOON ON DECEMBER 2, 1845 THE CAPITOL WAS FOR THE TIME FINISHED AND THE NOW FAMOUS STATUE CALLED "FREEDOM" WAS PUT IN PLACE. ALMOST AT ONCE THE CAPITOL BECAME A CAPEL OF FREEDOM. UNION TROOPS WERE HOUSED THERE DURING THE CIVIL WAR AND THE VAULTS BENEATH THE BUILDING WERE USED AS OVENS TO BAKE BREAD FOR THEM.

"THE BUILDING OF THE CAPITOL TOOK SOME 70 YEARS. IT IS STILL BEING WORKED ON TODAY. THOUGH DESIGNED BY A SCORE OF ARCHITECTS UNDER A DOZEN PRESIDENTS, THE CAPITOL HAS BECOME THE UNIVERSAL SYMBOL OF OUR GOVERNMENT AND OUR WAY OF LIFE."

SEE A TRIBUTE TO THIS GREAT BUILDING ON TUESDAY JAN. 12, 1965 WHEN THE SAVINGS AND LOAN FOUNDATION WILL PRESENT "THE CAPITOL-CHRONICLE OF FREEDOM," A TELEVISION DOCUMENTARY PREPARED BY NBC'S AWARDS-WINNING LOU HAZAM. RAYMOND MASSEY WILL NARRATE. "THE CAPITOL" TRACES THE HISTORY AND SIGNIFICANCE OF A BUILDING THAT HAS BECOME A LIVING AMERICAN SYMBOL.

It was after midnight when the department store manager's phone rang. "This is Mrs. Smith," said the voice, "one of your customers. I want to tell you about the hat I bought at your store the other day. It's lovely. I like it better than any hat I ever had."

The sleepy, tired manager was a little exasperated. "That's fine," he said, "but why did you call me up just now to tell me?"

"Because," she said sweetly, "your truck just delivered it."

Rural Areas Have 52 Doctors for 100,000 Persons

There were only 52 physicians or surgeons for every 100,000 persons in rural areas of the United States in 1960. This compares with a ratio of 161 to each 100,000 persons in big cities and other urban areas.

So says the U.S. Department of Agriculture.

Dentists also prefer urban to rural areas. Nationwide statistics show that there were only 22 dentists for every 100,000 rural residents, compared with an average of 60 for the same number of persons residing in urban areas.

The USDA says that similar comparisons can be made throughout the medical profession.

Nurses in rural areas number 195 per 100,000, while the number in cities is 387. Optometrists number 3 in rural areas, compared with 11 in urban areas. Osteopaths number 1 to 3, while pharmacists number 23 for rural areas compared with 64 for urban complexes.

Hundreds Attend Homecoming at Lindsay Sunday

Homecoming crowds gathered at Lindsay Sunday from far and near to join in the day's celebrations which included dinner at noon — some 600 people were served in the Parish Hall — and a picnic and bazaar in the afternoon and evening in Lindsay Park. Many families gathered for reunions.

Father Damian Wewers of Fort Worth, former pastor, was among clergy present. Others attending from Fort Worth were the Ralph Bezners, the Joe Schads and Mr. and Mrs. Joe Pat Bohac and children Joey and Lisa. The Bohacs joined her parents, Mr. and Mrs. Ben Hermes.

Mr. and Mrs. Walter Huchton and children of Fort Worth attended with her family, the John Bengforts.

Mr. and Mrs. Francis Dieter of Dallas were guests of his mother, Mrs. Val Dieter, and they attended together.

Mr. and Mrs. Frank Walterscheid of Hereford joined relatives at the celebration including her sister, Theresa Loerwald, and the Al Walterscheids of Muenster.

The family of Mrs. Joe Bezner was together. Coming from out of town were the Leo Cutaia, the Bob Youngs and Jimmy and Mrs. Frank Benenate and children all of Dallas, Mrs. Isabel Galvan of Irving, the Bob Bezners and children Steve and Debbie of Richardson and Al Bezner of Wichita Falls. The Joe Bezner Jr. and Bruno Zimmerer families were in the party.

It was reunion day for the H. A. Lueb family. Mr. and Mrs. Lueb, Messrs. and Mmes. Oddis Minick, O. E. Wayland, Ray Lueb and Bob Metcalf and families, all of Oklahoma City and the Tony Wimmers, Marcus Fuhrmanns, Bernard Wolfs and members of their families, Mr. and Mrs. Dolphy Joe Hellman, all of Muenster, and Mr. and Mrs. C. KC State Deputy Declares War on Peddlers of Smut

Port Arthur, Texas. —The new head of 33,000 Texas Knights of Columbus is "declaring war on peddlers of smut, salacious publications and pornographic magazines."

In an address to a meeting here of all state officers, Dr. Joseph G. Murphy of LaMarque, who took office July 1 as state deputy of the fraternal and patriotic Catholic men's order, asserted:

"Murder and sex crimes have been linked to the junk available to teen-agers on news-stands. As we learned at our recent state meeting, this is a \$2 billion a year racket and 75 per cent of the obscene photos or writing, under the guise of art or editorial matter, is purchased by children."

"C. D. Carlson of Lake Jackson, a member of the Knights and an authority on this matter, has pointed out the problem is not Catholic nor Protestant, but a moral problem which may be too big for any

one organization. But Texas Knights will put their shoulders to the wheel with other groups, or start cooperative "deceency campaigns," to wipe out this sickening phenomenon of our age."

Dr. Murphy, a radiologist who has a long record of service in state and local posts of the Knights of Columbus, declared:

"We passed a resolution at our state meeting calling for a crusade against these forces of evil, and we are charged with assuming civic and moral responsibility for taking ap-

propriate steps to protect our youth and the family life of our communities from this lecherous business."

Dr. Murphy asserted the Knights of Columbus stood ready always to defend the constitutional freedom of the press but also were "not hesitant to fight abuses of that freedom or any other threat to our American way of life."

When the first capitol of Texas was built at Houston in 1837, lumber imported from Maine was used in its construction.

to be earned by the employee. So there you have a general idea of Medicare. A headache for the medical profession and porrer service for the public at a terrific price. The biggest beneficiaries will be the bureaucrats and the chiselers. As you look over the program it's hard to see it any other way. And experience in other countries indicates that you are seeing it exactly the right way. It makes a person wonder whether legislators can vote for it and still claim to have a conscience.
