VOLUME XXIX

MUENSTER, COOKE COUNTY, TEXAS 76252 MAY 28, 1965

NUMBER 27

A statement by FBI Director J. Edgar Hoover in this week's U.S. News and World Report confirms what many of us have thought for a long time. Demonstrations like those on the Berkeley campus of the University of California usually are either started by communists or exploited by communists after they get in motion.

During recent years there have been dozens of such rowdy affairs in various parts of the country, in all of which known communists or communist frontiers were known to have prominent parts. There is no doubt about it, because the FBI men know their reds as well as the typical red methods that are used in the demonstrations.

They know, as most of us have suspected for years, that the red inspired big disturbances are intended primarily to cause trouble and harm the American way of life. The clamor for human rights, which is usually used to spark the big shows, is actually a smoke screen, a rallying point to draw the support of sincere but shallow thinking people who don't know where they are being led.

The Free Speech Movement at Berkeley is a typical example. What could be more valid in this country than a plea for free speech? But after a while, expertly directed by well trained reds, the rally becomes a mob using our country's precious right of free speech to denounce its leaders, its policy and its institutions — hiding behind the guarantee of our constitution in order to destroy it.

This column has often wondered why that sort of stuff is tolerated. It has been unable to comprehend this country's over solicitous attitude toward treacherous cut throats who are only exploiting our standard of fairness in order to impose their unfairness on us.

The Hoover report stated that individuals involved in the Berkeley demonstration included 5 faculty members and 38 others who were connected with the University in some capacity. How do you like that? Five known reds were on the teaching staff. And there's no telling how many more protected their subversive potential by keeping out of the ruckus.

The point to note here is that people no longer have to be loyal to our country to qualify as teachers of its children. The new policy is that any person has a right to think as he pleases and he must not be denied a teaching job just because he does not conform to traditional American standards.

The absurdity of that viewpoint ought to be apparent to anyone who thinks. This phony regard for a teacher's right is a clear violation of student rights. The teacher, as they say, is free to think as he pleases. He can consider the pros and cons of communism and make up his own mind. But a student does not have that freedom. He is not able to weigh the issues freely because he does not get a fair presentation of both sides. He is brain washed by his red teacher who picks at the faults of Americanism and glorifies the merits of communism. In fact the student has to be at least partly sold on communism and partly unsold on his own country to get a passing grade from the red teacher.

It's all right to say that students should be allowed a free mind, but is that the kind of academic freedom we want for our children?

This column firmly believes that more thought should be given to the limitation of freedom in this country. Most of us have heard the classic example that freedom of speech does not allow one to panic a crowd by falsely yelling fire. And there are other limits just as reasonable. No one has a right to hide behind American freedom in order to work for its destruction.

America desperately needs a change of attitude toward subversives. Using the good services of J. Edgar Hoover and his FBI, it needs to crack down on every person caught in the act of doing Moscow's dirty work in this country.

The estimated economic loss from motor vehicle traffic accidents in Texas during 1964 was \$15.40 per second, or the staggering sum of 1,330,180 dollars per day.

Statement Clears Issue on Validity Of Hospital Deed

A question raised during the past week concerning validity of the deed by which the hospital location was given to Muenster Hospital Authority was cleared Wednesday in a special statement signed by Mr. and Mrs. J. M. Weinzapfel.

The problem resulted from a misunderstanding of a portion of the deed concerning deferred credits on the contribution for income tax deductions, especially use of the word lien.

The explanatory document states "Whereas, in said deed is inscribed a clause relating to a Deferred Contribution credit, which is inscribed as part of the condition, and 'Whereas the word Lien is mentioned along with this Deferred Contribution credit.

"Now Therefore, Know All Men By These Presents: We J. M. Weinzapfel and wife, Julia C. Weinzapfel, do hereby state that there is no financial lien being held by either of us against this property by reason of such wording in the herein mentioned original deed; that we claim no lien against the property by reason of the wording of such deferred contribution credits, and, in order to confirm such facts, we have Released, Discharged and Quitclaimed and by these presents, do Release, Discharge and Quitclaim unto the Muenster Hospital Authority of Muenster, Cooke County, Texas, any shown or inscribed lien, and all such are hereby released, however, we do not release any intentions and purposes for which this property was originally given, which is for the purpose of a non profit hospital only."

Hard work was the success formula recommended to graduates of Muenster High School at their commencement last Friday night. Mayor Tommy Vandergriff of Arlington quoted the scripture passage "Thou shalt live by the sweat of thy brow" and told the class that we have to do it that way because it's the Lord's way.

Nevertheless, he assured them, hard work has its rewards. It brings happiness, the satisfaction of having done one's part, along with the routine achievement of having earned one's living.

And don't fear the future, especially the horror predictions of nuclear destruction, Mayor Vandergriff advised. He said he is confident the human race has better sense than to wipe itself out, and above all he believes the Creator will not permit the end to come until He has revealed all of His wonders, of which plenty will still be developed.

The valedictory address was given by Margaret Ann Lawson and the salutatory by Joyce Rumley.

High school diplomas were presented to twenty graduates by Charlie Hellman, school board president, assisted by L. B. Bruns, superintendent. Elementary diplomas were presented to thirteen graduates by Jerome Pagel, vice president of the school board assisted by James Polk, elementary principal. And special awards were made by George Petrus, principal.

Tom Swirczynski gave the invocation, Rita Trubenbach the benediction, and a brass quintet from NTSU played the processional and recessional.

Special awards were made as follows by Principal George Petrus. Science, Dale Klement; Social Studies, Joe Hartman; Math, Shirley Klement; English and Speech, Norma Lutkenhaus; Agriculture, Joe (Continued on page 4)

Plans Mapped For Homecoming On Father's Day

Sacred Heart Parish has mapped plans for the annual homecoming celebration on Father's Day, June 20.

Headed by Father Alcuin Kubis, 30 committees are lined up to take charge of various details of the day which will include dinner at noon, picnic in the afternoon with carnival attractions and kiddie rides, reunions for old timers, and dancing at night.

The many committees are coordinated under general chairmanship of Dan Haverkamp. Ed Schneider and Sylvan Walterscheid.

Since everyone is welcome, even urged to attend, no special invitation is needed. However a committee will be mailing invitations to out of town former members and friends of the parish and city. Persons wishing to include someone in the mailed invitations may leave names with Mrs. Sylvan Walterscheid.

Sunday Designated Buddy Poppy Day

Sunday, Memorial Day, will be Buddy Poppy Day in Muenster.

Members of Muenster VFW Auxiliary will be at the church doors following all services in Sacred Heart Church to accept contributions and hand out the little red flowers.

The Auxiliary invites everyone to buy a poppy and give generously, reminding that proceeds of the campaign, other than the actual cost of the poppies, remains here in a special fund to help local disabled veterans and handicapped children.

"Keep Learning" Is Recommended To SH Graduates

Keep learning, whether in school or at home, as a means of keeping in pace in this fast moving world. Father Edward Devers, addressing Sacred Heart High graduates Sunday night, said that continued study is needed to do one's job properly and to attain a reasonable measure of temporal success.

Father Devers also emphasized the spiritual side of life, saying that success here is much less important than success hereafter, and each person's appreciation of that fact should be reflected in his every day living. Heed the teachings of Christ as faithfully as the new discoveries of our time, Father Devers urged. Those are eternal truths revealed personally by Him and, in spite of their oldness, mean as much to one's eternal destiny as the modern discoveries do to one's temporal destiny.

Services for the graduates were held at the 7 o'clock Mass in Sacred Heart Church Sunday. Fifty six eighth graders received diplomas from Father Alcuin Kubis just before the Mass and twenty five high school grads received theirs after the Mass. Students entered and left church by processional and recessional on the church organ by Frank Luke and junior high students sang during the Mass.

Special awards were presented as follows by Father Alcuin. Larry Reiter, JETS scholarship to A & M University, Bafour award and valedictory award, Donald Rohmer, scholarship to University of Dallas and salutatory award; Linda Zimmerer, national Latin test award; Shirley Vogel, bookkeeping award; Debra Schilling, math award; Cynthia Stoffels, shorthand award; Theresa Fleitman, English award; Mary Wimmer, typing award; Wayne Reiter, general science award.

Peggy Endres, 6th grade highest average; Lynn Joe Klement, 7th grade highest average; Susan Yosten, 8th grade highest average; Mona Voth, 9th grade highest average; Gloria Reiter, 10th grade highest average; Gloria Haverkamp, 11th grade highest average.

The award for the school's best average in religion was presented to Peggy Sicking (average 99); and the awards for Miss and Mr. Sacred Heart were presented to Theresa Fleitman and Danny Hoenig. (Continued on page 4)

Summer Baseball For Kids Will Be Organized Sunday

A meeting to organize the coming season of Little League baseball in Muenster will be held Sunday afternoon at 1 o'clock in the ball park. All boys who want to participate are asked to be there.

As during the past two years, the Little League program will be sponsored by Muenster Jaycees, with Virgil Henschel as general chairman. Assisting him as umpires and coaches will be Tommy Herr, Willie Walterscheid, Jerry Hoenig, James Harris, Charles Ashford, Adam Wolf, Willie Lewis, Clinton Endres, Bernard McNamara and Charles Wimmer.

Eligibility requirements remain the same as before. To participate a boy must be at least 9 years old but not more than 13 years old as of Sept. 31, 1965, and he must present a slip signed by a parent granting permission to play and excusing the sponsors of liability in case of injury.

When the youngsters report for their organizational meeting Sunday they will be divided into the 9-11 and 12-14 groups for pee wee and advanced leagues, then each group will be organized into teams and assigned to coaches. The intention is to have four teams in each loop so that a double header each week for each league will provide action for all teams. Permission slips for parents signatures will be given out at Sunday's meeting. Boys will have to return the signed slips before they are permitted to play.

Jaycees took on the Little League program reluctantly this year after two years of very poor adult interest. This year they are urging parents to see the games more often and give their kids more encouragement — as well as to help keep better order in the grandstand by children who are not in the game.

The paternal grandparents are Mr. and Mrs. J. J. Haverkamp. The maternal grandparents live in Spain.

Sunday Schedule Applies Monday At Post Office

Muenster Post Office will observe Memorial Day next Monday with a regular Sunday service schedule.

That means, Postmaster Arthur Endres explains, that no rural carrier service will be given but mail will be distributed in the post office. People with boxes can get their mail. He also said that someone will be on duty to dispatch mail. Letters mailed that day will go out on regular schedule. But no counter service will be given.

Memorial Service Sunday to Honor Victims of War

Deceased service men of Muenster will be remembered Sunday in the annual memorial service conducted by the local VFW Post and Auxiliary in cooperation with the pastor of Sacred Heart Church.

It will follow the 7:30 Mass at Sacred Heart Church. In previous years the service has followed the 10:30 Mass, but the time was changed this year in the hope that the cooler temperature of early morning will encourage better attendance.

The service begins with a procession from church to the cemetery. First stop there will be the crucifixion group in the center where Father Alcuin will lead in prayers for the deceased of the community and an officer of the VFW Auxiliary will place a floral arrangement.

Then the group will go to the service men's graves where officers of the Auxiliary will place bouquets of flowers and Buddy Poppies at the central monument and Camp Fire Girls will put flowers on all service men's graves.

After that Father Alcuin will lead in prayer and give the memorial address and VFW members will conduct military services consisting of a 3-volley rifle salute and taps.

Gold Star parents will wear flowers from the VFW Auxiliary for the services. Mothers will receive corsages and fathers will receive boutonnières.

City Council To Start Tuesday On Equalizing Tax

The annual job of equalizing city taxes in Muenster will begin next Tuesday and continue each Tuesday thereafter until the work is finished.

Members of the city council, who have decided again to act as their own equalization board, set up the schedule at their last meeting.

They have a two fold job — to render property for persons who have failed to make their own renditions, then to study renditions in an effort to establish equal assessments in relation to valuations.

People who have not previously rendered their property are reminded that they still are not too late, and that the council prefers to have them make their own renditions.

After all renditions are made, whether by owners or the council, valuations will be compared in an effort to determine fair assessments and make necessary adjustments.

Notification of changes in valuation or of renditions made by the council will be mailed to each property owner prior to a hearing to be conducted by the equalization board. Anyone who objects to his assessment will have an opportunity to be heard then. Date of the hearing will be announced later.

A report from Mrs. Arnold Henschel, city secretary, reveals that only 2.2 per cent of last year's city tax is delinquent at this time, and the amount delinquent is \$450.69. Taxes collected to date on last year's assessments are \$20,355.67. After the deadline for tax payments, on January 31, the delinquent amount was \$595.44 and the delinquent percentage was 3.2.

Continued gloomy weather for another week has added another .67 inch of moisture and has also caused another week of delay in urgently needed harvest work. Especially overdue now is baling oats hay.

Total rain measure to now for the month is 5.77 inch and the year's total is 13.40.

To the 1965 Graduates

by Tom Anderson
 An age-old maxim which will never be outdated is The Golden Rule: Do unto others as you would have them do unto you. But The Golden Rule should not be misconstrued to mean forced equality or share-the-wealth. If you are a person of good will and honesty, you don't want to be helped unless you are willing to help yourself.
 Christ was not a Socialist. Christ believed in the profit

motive. He recognized that three men had different talents and abilities in varying degrees. Some gained more talents with what they had, and these were rewarded with more talents. However, Christ took away the talents of the man who did nothing and gave it to the man who had ten talents. He congratulated those who profited. Judge, and be willing to be judged, not on great quantities born within, but the use made of them. No person "has everything." And discipline without talent can accomplish more than talent without discipline. Discipline itself is a great talent.

 One of the greatest mistakes many parents make is to try to take the struggle out of their children's lives. Character is made, not born. Hardship builds character, and ease rots it. The history of nations is the same as the history of individuals: "Wooden shoes trudging upstairs, and silken slippers tripping down." And shirtsleeves to shirtsleeves in three generations.

Tommy looked up from his book and asked, "Father is it true that a man is known by the company he keeps?"

"Yes, sonny," "Well father," asked Tommy, "if a good man keeps company with a bad man, is the good man bad because he keeps company with the bad man, or is the bad man good because he keeps company with the good man?"

Hospital Auxiliary Elects Mrs. Hamric As President Again

Principal business for members of Muenster Hospital Auxiliary at their May meeting Thursday night consisted of election of officers for a new year and plans for a benefit event the organization will sponsor.

Re-elected president is Mrs. Ervin Hamric. Other officers elected are new: Mrs. Richard Grewing is senior vice president, Mrs. Clyde Fisher is junior vice president, and Mrs. George Petrus is treasurer.

The organization's benefit bake sale and rummage sale will be a two-day event, Wednesday and Thursday, June 9 and 10, in the rooms back of Muenster Pharmacy. Committees are busy on various details in connection with the event. Members, and others who have things for the rummage sale are urged to get them to sale headquarters as soon as possible.

Members are also arranging a dining room where they will sell coffee, hot rolls and doughnuts to all who will visit them at coffee break time.

Sister Mildred gave a report on the hospital meeting she attended in Houston. Among those she saw there was Sister Mary Lin Koehler of Abilene.

Mrs. Leo Sicking and Mrs. Donald Endres served cookies and lemonade after adjournment and Mrs. Joe Hoenig won the door prize, a table centerpiece bowl and matching candle holders presented through courtesy of Muenster Pharmacy.

Mrs. J. Felderhoff Reviews Book for Paris NCCW Meet

Quarterly meeting of the Sherman Deane National Council of Catholic Women in Paris Thursday had about 80 members present in the Parish Hall for a program that featured a book review by Mrs. Joe Felderhoff of Muenster and business that featured the installation of new officers.

Mrs. Felderhoff reviewed "Grandmother and the Priest," a humorous story with a moral. The program theme was "Libraries and Literature." The reviewed book, authored by Taylor Caldwell, is in Muenster City Library.

Also on the program was a talk on Soil Stewardship Week by Mrs. Will Bierschenk of Valley View.

Mrs. T. L. Anderson of Gainesville, retiring president, conducted the business session and Father Joseph Thomas of Denton installed officers.

Heading the deanery executive committee for a new year is Mrs. Jack Barton of Denton, president. Other officers are Mrs. T. L. Anderson, first vice president; Mrs. Al Hess of Muenster, second vice president; Mrs. Ed Schad of Lindsay, secretary; Mrs. Willard Kuhn of Gainesville, treasurer.

The host parish won the attendance prize — the traveling Sacred Heart statue — relinquished by Valley View who won it at the previous meeting.

Attending from Muenster were Mmes. Paul Fisher, Al Hess, Joe Felderhoff, Frank Bayer and Frank Herr.

Attending from Lindsay were Mmes. Lawrence Zimmerer, Bill Fleitman and Ed Schad and Miss Anna Hermes. Others present from Gainesville were Mmes. Ted Neu, Leo Hoedebeck and R. J. Bethancourt.

Father Joseph Thomas introduced clergy present: the Rev. Fathers Harry Fisher of Gainesville, Carl Vogel of Denison, Francis Brady of Madonna Hospital, Denison, and his guest Father Michael Flood of Des Moines, Iowa.

Mrs. Del Drake of Paris extended welcome and when parish reports were given Mrs. Frank Herr reported for Sacred Heart Parish.

The afternoon began with Benediction at 1:30 in church and concluded with a social hour during which women of the host parish served a buffet of finger foods, coffee and punch.

At a shower for the bride-to-be, she told her friends: "I plan to have four children—two boys and two girls." "Why stop at four?" one girl asked. "Because," replied the bride-to-be, "I've been reading statistics and find that every fifth child born is Chinese."

College Expenses Spark Activity In Investments

The steadily rising cost of a college education is one of the major reasons why people are starting investment programs these days, according to Kenneth Davis, local securities representative.

Increasing numbers of his clients, says Mr. Davis, who represents Dittmar & Company, Inc. in this area, have started to buy mutual fund shares to accumulate funds to help meet their children's college expenses.

This trend is reflected nationally, with one out of every six Americans who own common stocks doing so through mutual funds. At the start of 1965, the Investment Company Institute recently reported, a total of more than 3 million people owned mutual fund shares valued at more than \$30 billion.

Today, four years' tuition fees and room-and-board at 20 typical publicly controlled universities cost from \$4,400 to \$6,000. Similar costs at private institutions go as high as \$8,600. As for the future, the College Examination Board has estimated that by the late 1970's meeting the same bills will require as much as \$12,500 for four years at a state university, while more than \$20,000 will be needed for the same span at a privately endowed school.

Not all of the Americans buying mutual fund shares in 1964 did so in anticipation of higher education expense. Retirement income was another important stimulus. These are two principal reasons contributing to the definite upward trend in the buying of mutual fund shares, reflected in the increase in purchases from \$1.2 billion in 1955 to \$2.5 billion in 1963, and a record high of \$3.4 billion last year.

First war movies were made during the Sudan Campaign 1898.

Tips Given for Freeway Driving

The recent rash of multiple car crashes on the state's superhighways has prompted the Association of Texas Fire and Casualty Companies to issue this list of accident preventing driving tips:

Slow Down When It Starts To Rain. Showers cause the oil on pavement to float. This makes roads dangerously slick. More than forty cars were involved in one big accident during the Mother's Day rain-storm.

Maintain Adequate Following Distance. Follow other vehicles at a distance of at least one car length for every 10 MPH of speed. Give yourself plenty of room in which to stop if the driver ahead of you slams on his brakes. "Tailgating" at high speed is a killer.

Keep A Constant Speed. Steady speed helps make the road safer for all drivers. Stay within the limits of your driving ability. Try to blend with traffic. Don't drive too fast. Don't drive too slow.

Stay In Your Lane. Unless overtaking and passing, stay in your lane. Needless weaving in and out is dangerous... and the sign of a poor driver.

Watch Out. Check the rear-view mirror every few seconds. Watch the traffic several cars ahead of you. Be sure that you don't get surprised into an accident.

Use Hand And Directional Signals. Before changing direction or speed, use hand or directional signals. Let the other drivers know what you are going to do.

Stay Alert. On superhighways, a false sense of security, monotony, fatigue and "high speed hypnosis" may dull your senses. This can be dangerous and even deadly. Check your speedometer at least once each minute. This will keep you alert and within the posted speed limit. If you get

sleepy, pull off the superhighway at the next exit or rest area. Stop, get out and walk around. Take a nap if you wish, but don't start driving

again until you are alert and ready to face the test of superhighway driving. The Association of Texas Fire and Casualty Companies

points out that superhighway driving can be a pleasant way to cover the vast distances found within the borders of the state. Whether you find

this to be true, the Association says, depends pretty much upon your driving habits and skills plus the observance of these Freeway driving tips.

THANKS

We are deeply grateful to all who helped us in any way during the illness and at the death of our loved one. We appreciate each kind deed, the words of sympathy, the flowers and the spiritual tributes. —The Sisters and Brothers of Tony Hesse.

My sincere thanks to everyone for remembering me while I was a patient at Muenster Hospital. The cards, prayers, visits and other kind deeds meant so much to me. Thanks to Dr. Hejduk, Dorothy Hartman, the Sisters and all the hospital staff for the best of care. Thanks to Father Alcuin, the Sisters of Sacred Heart School and the students for numerous visits and kind deeds. I am grateful too for the daily and weekly newspapers I received through courtesy of Muenster Livestock Auction and The Enterprise. My family joins me in thanks for everything. —Angie Hess.

The relatives of Florence Cole gratefully acknowledge every kindness in their bereavement. Heartfelt thanks for the beautiful bouquets, the beautiful flowers, the prayers, food, help, expressions of sympathy, and every thoughtful deed.

Springtime Theme Marks Lindsay Hi Junior Senior Prom

Springtime was the theme of Lindsay's junior-senior high school prom this year, and elaborate decorations brought spring in full bloom to the school gym. The Five Coaches of Sherman played for dancing. Senior parents were guests.

The grand march started through a white picket arch into a flower garden. A waterfall that originated at a grotto in one corner of the gym flowed into a stream which spanned the width of the building. To reach the dancing area, students crossed over a bridge, then through another picketed arch. Short white picket fence with climbing roses enclosed the garden and dance floor.

A wishing well centered the garden, and overhead a moon shone over the area. Under the class motto "The ropes of the past will ring the bells of the future" was a large bell which rang at intervals.
