Hospital District Bill Introduced To Legislature

Proposed federal legislation that would go far in discouraging the use of firearms by criminals was introduced last week by Representative Bob Casey of Houston. He asks for a law providing a mandatory 25-year sentence for use of or just carrying firearms during any robbery, assault, murder, rape, burglary or kidnapping.

The idea deserves serious thought. As he explains it, the crime problem for many years has been aggravated by extreme laxity of the courts, and criminals will be less inclined to take the chance if they know that the penalty is certain and severe. Another point is that criminals sentenced under that provisions would be out of circulation a long time and society would gain by their absence.

There can be no doubt that this idea is much better than the gun-registration bills which have been proposed to congress. Anyone knows what to expect under a registration law. Law abiding citizens who keep guns for hunting or protection of their property would not. In the end authorities still would have no adequate record of the guns that need watching. And the problem would be further complicated by the fact that many guns for criminal use would be stolen and rightful law abiding owners would become suspects in many crimes.

Of course it can be assumed that some criminals would find ways to beat the Casey provision. At times, perhaps often, they would manage to evade the penalty. Just the same, the law could help a great deal. As odds favoring the criminal get slimmer they become correspondingly better in favor of the public.

In Casey's opinion the principal merit of the law is that it leaves the court no discretion in sentencing the guilty. It would nullify the ill effects of deplorable court laxity which so often permits criminals to beat the rap.

It is a sad fact that courts of this country have been giving criminals better treatment than they deserve. Police in our major cities have complained for years that their efforts are nullified by judges who give criminals too much benefit of legal technicality.

Correction of this major national fault really should be included in the Great Society which now seems to be in the making. The economic breakdown of some areas certainly is no more serious than widespread legal and moral breakdown. Actually it is doubtful whether poor material standards are hurting our nation as much as poor spiritual standards.

We seem to have gone overboard in our concern for human rights. The courts bend over backward in making (Continued on page 8)

March 29 Set For Project Show Of FFA Chapter

Initial plans for the annual FFA Project Show got under way at the organization's regular meeting Monday night. The boys decided to have their show on March 29, just before many of the animals are due to go to the Cooke County 4-H and FFA stock show on April 2.

To take charge of the local show the members elected Jimmy Robison and Dale Klement respectively as chairman and assistant chairman. Chapter Adviser Edgar Dyer told the members that Dale Klement will be a candidate for district office at the next district election and Glenn Fleitman, now a district officer, is eligible for an area office.

Honor Roll Listed At Public School

The honor roll for the fourth six weeks period at Muenster High School was announced as follows this week by Principal George Petrus.

The A honor roll: Shirley Klement, Joyce Rumley, Doris Lutkenhaus, Paula Herr, Wayne Klement, Brenda Skaggs, Norma Lutkenhaus, Ann Sicking, Karen Vogel and Linda Wilson.

The B honor roll: Debbie Cier, Glenn Klement, Sandra Cier, Peggy Branch and Patsy Arend.

The bill to create Muenster Hospital District got its start through channels to the floor of the Texas Legislature Wednesday.

Don Hefton, representative of this district, presented it for consideration of a special committee which will advance it to a legislative sub-committee for further study before introducing it in the Texas House of Representatives.

Similar procedure will be followed in bringing it to the floor of the State Senate after presentation by Ralph Hall, senator of this district.

After presenting the bill to his fellow legislators Hefton called on J. M. Weinzapfel, president of the Muenster Hospital Board, to explain the purpose for creating the district and to present reasons why it should include the area designated.

Weinzapfel said that its purpose is to establish a sound financial structure supported by a tax to guarantee payment of the hospital's debt and current operating expense. He also explained that the intention is to use tax revenue to supplement the hospital's operating revenue, which in recent months has been sufficient for both the debt and current expense. While it is hoped that little or no tax is actually needed the provisions is wanted to assure financial soundness.

Regarding area, Weinzapfel said that Muenster now has about one third of the county's hospital facilities and feels justified in asking to have a third of the area in its district, especially since that area represents only about a fifth of the population and valuation. He also explained that Muenster is centrally located in the designated area and also has business dealings with practically all of the area, especially through the local telephone and rural electric systems.

Joe Galloway accompanied Weinzapfel to the special meeting.

Notes on Building and Improvement

Work starts this week on two new homes for the community.

On North Maple Mike Sloan will have a 3-bedroom brick veneer house with two baths, central heating and cooling and double carport.

About a quarter mile northeast of town Norbert Koesler will have a 3-bedroom brick veneer house with two baths, central heat and attached garage.

Just getting settled in their new house are the Dick Dittfurths outside the northwest city limit. It has four bedrooms, two baths, central heat, attached garage, brick veneer.

Another newly finished house is Community Lumber Company's on North Maple, now awaiting a buyer. It has three bedrooms, two baths, central heating and cooling, double garage, brick veneer.

Almost ready to move in are the Tommy Hesses in the southeast part of town. They have three bedrooms, two baths, central heat, double garage.

Also near finished is a remodel job for Richard Klement at Lindsay. He converted an attic into bedrooms and bath, installed central heat and refinished the downstairs.

Walter Scoggins at Myra has modernized his house. Walls of 3 rooms, formerly papered, are sheet rock and a new ceiling is installed at a lower level.

A bank appearance is vastly improved by installation of acoustical ceiling with built in lighting about two feet below the level of the old ceiling. And looks are due to be further improved by interior painting and a glass front door.

Parish to Observe St. Joseph's Day Friday, March 19

Sacred Heart Parish will have its traditional observance of St. Joseph's feast day next Friday, March 19.

The custom of keeping the day holy dates back to the early days of the community when the pioneers pledged to observe the day in a special way in honor of St. Joseph if he would preserve the church and the community from destructive storms. Two churches had been demolished by wind storms. There have been no serious storms losses since.

Observance next Friday will include evening Mass at 7 p.m. Members of St. Joseph's Society will receive corporate Communion.

After the church services, members of St. Anne's Society will join the men for supper and a social evening in the Parish Hall. That is also the day for the annual election of officers for St. Joseph's Society.

Plans for both the religious and social event were announced at a call meeting of both societies Sunday night. Sylvan Walterscheid conducted the men's meeting in the presence of Father Alcuin Kubis and Mrs. Al Walterscheid conducted the women's meeting in the presence of Father Andrew Wewer.

Other business at St. Anne Society's meeting included appointment of a telephone committee to contact members for dues. Father Andrew explained the new Mass liturgy. Mrs. Ervin Henschel won the door prize.

The longer the pipes in an organ the lower the tone.

Jaycees Present Muenster Story In New Brochure

An attractive new presentation of the story of this community entitled "Muenster, 75 Years of Stability" made its appearance this week.

Published by the Muenster Junior Chamber of Commerce, the folder brochure is intended as a compact and convenient answer for people who want to know about Muenster, especially those who might be interested in locating here.

It indicates the town's location on the map, presents statistical facts such as population, average temperature, and rainfall, tax rates, fire insurance key rates, number of business firms, bank deposits, etc., also enumerates the economic elements that support the area and lists churches, schools, hospital, rest home, stores and recreational facilities to show that it's pleasant to live in Muenster.

Industries and commercial activities emphasized are diversified farming, dairying, beef production, milk products manufacture, oil production, oil well drilling and servicing, feed processing, livestock auction, rural electrification, clothing manufacture, wood carving, car agencies and lumber yards. The brochure also points out that Muenster, though 75 years old, is mostly a new town with a high percentage of its homes and business houses built in recent years.

A pessimist is one who would complain about the noise if opportunity knocked.

Peggy Sicking Is Spelling Champ At Sacred Heart

Peggy Sicking, sixth grade daughter of Mr. and Mrs. Ed Sicking, outspelled her seventh grade sister Dianne to become the 1965 spelling champ of Sacred Heart School and the school's representative at a county spelling bee to be held in Gainesville.

The local spelling bee was held Wednesday in Sacred Heart gym. It started with 50 pupils, the top ten from each of the five rooms participating and continued more than three hours before the winner was decided. During that time the children spelled about 2600 words, and the Sicking sisters competed for about 40.

The word that tripped Dianne was "collateral." She used an "o" in place of the "e." Words were taken from the text of last year's National Spelling Bee.

The last three from each room to remain standing are the following, listed first second and third in that order.

Fifth grade (Sister Imelda), Cheryl Otto, Kathleen Rohmer, Carla Schilling.

Sixth grade (Brother Thomas), Peggy Sicking, Denise Walterscheid, Darlene Walterscheid.

Seventh grade (Sister Romana), Janie Pels, Kenny Sicking, Barbara Knabe.

Eighth grade (Sister Julia), Kaye Klement, Shirley Dittfurth, Vallie Voth.

50 Acres of Grass Lost in Fire at Earl Robison's

About fifty acres of pasture on the Earl Robison farm was lost Saturday afternoon in a fire that originated when embers from a small brush fire were carried across the road by a gust of wind.

It started about 1:30 o'clock and a call for help was sent promptly to the Muenster firemen, who found the blaze going strong when they arrived and sent a call to Gainesville fire department. By the time it came the fire was threatening to cross a creek and the Gainesville men went on guard on the far side. Meanwhile the Muenster men confined the fire and let it burn out. The fire died about 5 o'clock.

Others who answered the call and found the job practically finished were men from the Dangelmayr and Felderhoff places with stock spraying units.

Earl Robison says thanks a million to all who came.

Muenster Ballot Has No Candidate For Mayor's Job

There's an opening at the top of the Muenster city council. The ballot for the city election on April 6 will not show a candidate for the office of mayor.

Mayor Earl Fisher, now completing his first term in the office, did not ask for reelection because of his crowded work schedule. And no one else asked for the job, so the office had no candidate at the announcement deadline last Saturday.

This is the second time in recent Muenster history that the mayor's position had no candidate on the ballot. Herbert Meurer declined to seek re-election in 1961, but consented to serve when he was elected by write-in.

There will be contests for two of the three alderman positions, Gene Hoedebeck, incumbent, is opposed by Henry Weinzapfel and W. J. Luke, incumbent, is opposed by Aubrey Tuggle. Mike Sloan a candidate to succeed Ray Otto, has no opponent.

NATIONAL YOUTHPOWER WEEK

National Youthpower Week, which is to be observed from March 21 through 27, has a notable objective—to do something constructive about the poor nutritional habits followed by millions of the nation's teen-agers.

The Week is sponsored by the National Food Conference Association, supported by 66 major food industry firms. And there can be no doubt of the need for an effort of this nature. There are some 23 million teen-agers in this country and study after study has shown that an alarmingly high percentage of them fail to eat adequately. As an example, a Missouri survey of 36,000 high school students

found that only one percent of the girls questioned and 4.5 per cent of the boys indicated that they had the recommended serving from the four basic food groups on that day, and just 15.8 per cent had what might be considered an adequate breakfast. And the Department of Agriculture says that the older the child, the poorer the diet is apt to be—from childhood to teenage the percentage of young people with poor diets increases sharply.

There is irony in this. In much of the world, inferior diet is unavoidable because of inadequate production and low income levels. The people of those unfortunate nations would stare in disbelief at our stores with their endless supplies of top-quality foods—the meats, the breads and cereals, the fruit and vegetables, the dairy products. Their cost is within the reach of American families—yet dietary deficiency is rampant here.

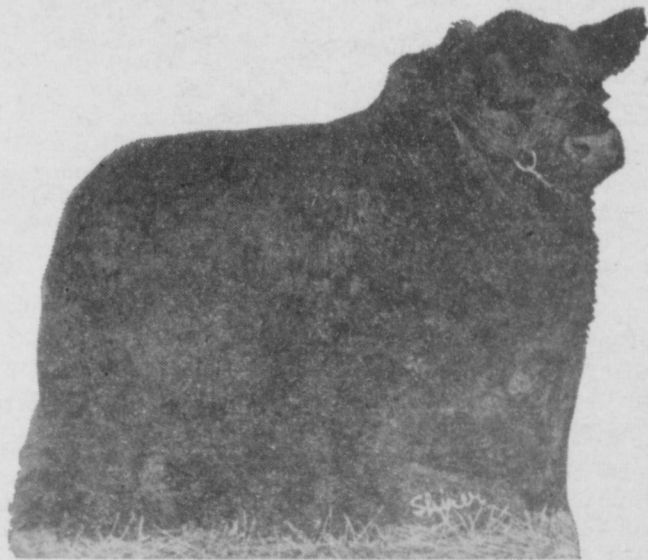

The Week is the culmination of a major program which started sometime ago. It should be continued in every home in the land—and, most particularly in those of the teen-agers.

DOCTOR UNDER THE GUN

A welcome visitor to the United States is the Reverend Bernard Druetto, brought to our country for the first time by the American Medical Association to address its convention in Phoenix, Arizona. Father Druetto is a medical doctor who built (with his own hands and the help of his parishioners) a hospital, a church and a compound for patients on Quemoy Island, only a machine-gun bullet distance from mainland China.

Each odd-numbered day on the calendar, Communist guns bombarded Quemoy. On even-numbered days, the guns are wearily silent. Father Druetto's hospital has been hit exactly 53 times by Communist shells. Each time, it has been repaired and enlarged. Father, or Doctor Druetto, if you wish, has been a China veteran for more than three decades. When the Communists overran his hospital in Central China in 1949, he was imprisoned and sentenced to death. His captors reported him executed to his family in France. He stood trial 28 times for treason against "the people's government." When his tormentors had reduced him to less than 80 pounds, they expelled him to Hong Kong to die. Die, he didn't. He headed, instead, for Quemoy, with all that he owned wrapped in an army blanket.

Today, he ministers to the spiritual and medical needs of Quemoy's almost 50,000 civilian farmers, fishermen, shopkeepers and children. His hospital will accommodate sixty patients. Several hundred attend Sunday Mass at his church. A few days ago, he roused his mobile patients for breakfast in the dining room. Minutes later, a Communist shell blasted through the dormitory roof and directly through the vacated bed of one of his patients.

In New York, someone asked him about the Soviet-Chinese rift. "Who dreamed that dream?" he snorted, and then noted that of the Communist shells which hit Quemoy, eight percent of the duds are Soviet manufactured.

By the time you read this, he'll be en route back to Quemoy. But he left behind a lesson in courage and reality.

MEDICARE, SO-CALLED

The proponents of medicare were challenged two years ago to show one case in this country where persons in need were not cared for locally or by hospital insurance. So far, they have not come up with one case.

Let's take Panola County. The doctors in this county have never so far as the records show, turned a patient away who needed treatment. Our local hospital has cared for many charity patients without government help except under present programs, and many that have been absolutely free.

A case in point that speaks volumes for the local care of the unfortunate, is seen in an incident that happened in this county last week. A woman was found lying unconscious by the roadside not far from Carthage. The local funeral home was advised and sent an ambulance to carry her to the Panola General Hospital. They did not ask if their fee would be guaranteed. They did not wait until a government form could be filled out. They did not ask the woman's name at the time. Neither did the hospital. They just did their part to relieve human suffering at the time and place it was needed. No assistance from the great White Father in Washington was sought. In fact, it was not even thought of. The incident simply means that we care for our own.

A Sensible Suggestion

It is evident that medicare is intended as a vote-getting measure. It is also evident that no great concern for the old people is involved. It will do two things—it will get votes from a certain sector of our populace and will add to the power of the federal government—both of which are undesirable even if the billions in tax revenues are not considered.

FROGS and FREEDOM

There's an old story that says you can't kill a frog by dropping him in boiling water. He reacts so quickly to the sudden heat that he jumps out before he's hurt. But if you put him in cold water and then warm it up gradually, he never decides till it's too late. By then he's cooked!

Men are just as foolish. Take away their freedom overnight, and you've got a violent revolution. But steal it from them gradually (under the guise of "security," "peace," or "progress") and you can paralyze the income tax. It started out as a harmless-sounding 1%. It would have been easy to jump out of water as tepid as this, but like the frog, we waited while it climbed ever higher. (try jumping out now!)

Worst of all, we never learn. Even today we cannot believe that Medicare is the same warm water that will one day boil us in Socialized Medicine. We see no connection between farm price support and Nationalized Agriculture. And if we draw a parallel between subsidized teachers' pay and federal control of education, we are called "extremist."

The tragedies of history are always repeated by those who refuse to learn them. To seek guidance from the past is not "turning the clock back" as we are so often told. It is merely a good way to keep out of hot water.

INFLATION IS HERE!

The one-hundred-cent dollar of fiscal 1939—when the gross public debt guaranteed obligations of the USA stood at \$49.89 billion—is now worth 44.8 cents, according to Virginia's Rep. Richard H. Poff, while the nation's obligations now total more than \$312.5 billion.

In a revealing tabulation of the nation's fiscal posture from 1930 through 1964, the Old Dominion Congress presents, year by year a statistical sermon on the wages of Federal extravagances.

In all these 35 years, budget surpluses have occurred just seven times—deficits 28 times. In only one year out of four, in all this time, has the Government of the United States taken in more than it has spent! At the end of 1964, the red ink figure for the period stood at \$287.29 billion, annual interest on the public debt at \$10.666 billion.

Inflation is not something to fear. It is here. It is something to fight—now.

Medicine At Work, a publication of the Pharmaceutical Manufacturers Association, says: "What is the rationale in using a system set up for retirement to provide medical assistance? What is the logic in socializing medical care when health insurance programs can function so effectively and are expanding every day; in fact, already covering most of our citizens. Why, then, remove health care from the private sector when the private sector is doing such a fine job? If private initiative disappears there may never be enough time to repair the damage that will ensue."

We believe that compulsory unionism infringes upon an individual's freedom of association, freedom of choice, and freedom of conscience. It can no more be defended than compulsory membership in a particular religion or a particular political party. And it is incompatible with a free society."

Folks used to worry because they couldn't take it with them. In today's tax climate their only worry is whether it will last as long as they do.

Activity was crowded into an Arkansas holiday over the weekend when Mrs. Joe Vogel, Welden Vogel and Misses Karen and Lillian Vogel were in Little Rock as guests of their daughter and sister, Mrs. Wayne Keys and family.

Joe Lukes Attend Funeral of Kin Killed in Crash

Mr. and Mrs. Joe Luke were in Rhineland Tuesday at the funeral of their relative and godchild, Leon Joelyn Michels, 22, who was killed Sunday in a one-car accident 6:45 p.m. seven miles west of Munday.

Requiem Mass was held at 10 a.m. in St. Joseph's Church with Father Herman Laux, pastor, officiating. He also conducted graveside rites in the parish cemetery.

Leon Michels was a 1962 graduate of Munday High School and a Munday farmer. His mother, Mrs. Leona Michels, is Mrs. Joe Luke's cousin and the family is well known here through frequent visits. Other survivors are three sisters and three brothers.

A companion in Michels' car, Howard Neil Smith, 29, of Munday, also died in the crash. His funeral was at Munday Tuesday afternoon. According to reports the car failed to make a curve, turned over four of five times and then caught fire. Both occupants were thrown from the car.

Hornets Also Ran At Track Meet In Iowa Park

Competition was too stout for Muenster's Hornets at the track meet in Iowa Park last Saturday. In the joint meet of top A and B track talent of North Texas, Coach James Polk's boys came home with only one ribbon. It was for Dale Klement's fourth place in the mile run, with a time of 4:56.

Though his boys barely scratched in the meet, Polk is encouraged. Their records were better than a year ago and they are showing steady improvement in practice.

However, it appears that competition from other teams will also be rugged this year. Saint Jo looked especially good at Iowa Park taking fourth place in the field of 19 teams.

Next action for the Hornets is participating in a meet at Gainesville Saturday. On the 20th they have an open date and on the 27th they will be at Saint Jo.

Tigers Will Open Baseball Season Next Tuesday

Baseball has started at Sacred Heart High after weeks of delay while Coach Walter Wolf and his Tigers waited for a touch of Spring in the weather. They started practice Monday with only a week to go before their season opener next Tuesday at Pilot Point.

Twenty two boys originally reported for the team, but Danny Wilde was hurt before practice started. Of the others there are four who were regulars last year and six who got in enough time to earn letters.

The '64 regulars are David Hess, Danny Hoenig, Melvin Koelzer and Leon Endres. They also lettered and the additional lettermen are Willie Wimmer and Dale Hofbauer.

Others on the squad are Steve Kralicke, Maurus Hacker, Rickey Stewart, David Hoenig, Ted Endres, Andy Klement, Douglas Martin, Larry Hess, Joe Bayer, John Streng, Stanley Endres, Steve Hess, Gilbert Hess, Jerry Otto, and Glenn Owen. Three of the boys are seniors four are juniors, nine are sophomores and five are freshmen.

Five games are scheduled for the balance of this month but the schedule for April is still in the making. Coach Wolf said he has verbal agreements with some other coaches but they still have to set the dates.

Games listed for March: 16th, Pilot Point, there, 4 p.m. 23rd, Alvord, here, 3:30 p.m. 26th, Alvord, there, 3:30 p.m. 28th St. John's, here, 12:30 p.m.

With St. John's it will be a double header to determine standing in the Texas Catholic Interscholastic League. If each wins one game the Tigers go to Ennis for the play off.

School Event Is Well Attended

Public School Week observance this year was somewhat better than last year. Spuerintendent L. B. Bruns disclosed that 95 visitors registered last Thursday noon at the lunch room and 116 registered Thursday night at the open house.

Those figures represent increases of 22 and 30 respectively over the noon and night registration last year.

The open house featured displays in all classrooms along with the annual science fair exhibits. And refreshments of coffee, punch and cookies were served in the homemaking department.

Muenster Men and Gainesville Ladies Win Tournament

Muenster Milling Company and the Whizettes of Gainesville won the champ trophies of the men's and ladies' divisions respectively in the volley ball tournament hosted last week by Sacred Heart Alumni in the SH gym.

Their opponents in the final games, and also winners of the runner-up trophies, were O'Neal of Nocona in the men's and Windthorst in the ladies' division.

Winners of the men's consolation trophy was Sacred Heart Alumni and winner of the ladies' consolation was O'Neal of Nocona. Their opponents respectively were Willie's Mobil of Muenster and the Muenster Independents.

The final games, though the important ones were not the exciting ones of the tournament. Action Saturday night, like Friday, was routine. Some contests were hot, others were one sided. But there were enough thrills Thursday night to meet the entire quota of an average complete tournament. Seven of the nine matches that night went into overtime and the last game did not end until almost 1 o'clock, about two hours after scheduled time.

In semifinals of the men's champ bracket Muenster Mill beat Field Ranch of Saint Jo and O'Neal beat Piggly Wiggly. In ladies' champ semifinal Gainesville Whizettes beat Muenster Powderpuffers and Windthorst beat Prairie Valley.

In men's consolation semifinal it was Willie's Mobil over Gainesville Wonders and SH Alumni over Muenster Punks. In ladies' consolation semifinals it was O'Neal over Saint Jo Tribune and Muenster Independents over CYC.

There were 28 teams in the tournament, 16 in the men's division and 12 in the ladies' division.

The reason a great many men don't take the boss home for dinner is because she's already there.

Easter Theme Is Used as Decor at Garden Club Meet

Muenster Civic League and Garden Club's March meeting Monday was held in the home of Mrs. Dan Luke with Mrs. Ben Luke as co-hostess.

Refreshments were served before the business session and members enjoyed choosing from an assortment of fancy pick-up foods served with coffee.

An Easter theme was carried out with a pastel yellow cloth on the dining room table and an arrangement of yellow daffodils and bunnies. A conversation piece was a fresh pineapple studded with fruit-filled skewers in Easter colors.

Mrs. Henry Weinzapfel, vice president, conducted the meeting. Mrs. Steve Moser presented the annual cemetery fund report and Mrs. John Mosman read the semi-annual report of work done by the local Soil Conservation Service.

Plans continue for an informal flower show later in the spring. Each member will make one arrangement.

Mrs. L. B. Bruns brought the program on flower arranging and Mrs. Arthur Felderhoff led a short study on lawn care. Mrs. Dan Luke showed a number of fancy Easter eggs she decorated with sequins, lace and tiny flowers.

In April Mrs. Joe Luke and Mrs. John Mosman will be co-hostesses. The program will include a film and a talk by Miss Bettye Dodds on plants that are poison.

Nation's Schools Get 6,758 Pieces Of GM Equipment

DETROIT—General Motors, in its continuing efforts to aid educational institutions, gave 6,758 pieces of automotive equipment to 761 colleges, universities, secondary and other schools during 1964, John F. Gordon, GM president, said today.

Of the schools benefiting from the Educational Donations Program during the year, 82 were colleges or universities and the remainder were high schools, vocational schools, and other schools, he disclosed.

"General Motors has long felt that it should offer assistance to our schools and colleges; that the students of today should be as fully informed as possible," Mr. Gordon said. "The donation of automotive components is but a part of our over-all program aimed toward this end."

"At the secondary level, in addition to the Educational Donations Program, we have a cooperative program with GM automobile dealers to provide passenger cars for student driver training programs. "The gifts of automotive components to colleges, universities and secondary schools with either engineering or vocational courses, are part of our attempt to aid the training of students," Mr. Gordon said.

During the past year schools received 716 modern automobile engines, 517 automatic transmissions, 269 differentials and rear axle assemblies, plus such other components as air conditioners, radios, Delcotron generators, power steering units, fuel pumps, power brakes, ignition systems, and tools and fixtures for use by students in acquiring the rudiments of a mechanical education or in completing specific engineering courses in college.

During the school year ended August 31, 1964, General Motors automobile dealers loaned 6,397 driver training cars to high schools throughout the United States. This was 25 per cent more than were loaned under the GM-Dealer Driver Training Program during the previous school year. Dealers received \$1,599,250 in allowance from GM as its share of the co-sponsored program.

In the twelve month period more than 524,000 young men and women received driving instructions in automobiles provided by Chevrolet, Pontiac, Oldsmobile and Buick dealers. As of the start of the current school year more than 3,200,000 students had received training in the nine years of the program's operation. General Motors has paid dealers a total of \$7,376,937 under the program since its inception.

"General Motors also offers educational opportunities to individual students," Mr. Gordon said. "The GM scholarship provides financial assistance to almost 400 entering freshmen each year at the 207 participating colleges and universities. In addition, there are some 700 students selected to enter the cooperative engineering programs at General Motors Institutes in Flint. In all, more than 750 colleges and universities receive financial aid under the various programs.

East Texas Tops West Texas in Cattle Population

COLLEGE STATION, Feb. 15. Despite the popular "Cow Country" image of West Texas, the state's cattle population is now greater in the eastern counties than in those west of Fort Worth and San Antonio.

Although Texas remains the No. 1 cattle-producing state, furnishing about 10 percent of the nation's beef, the increased production necessary to retain this rating has been primarily in East Texas, says Edward Uvacek, assistant professor and Extension livestock marketing specialist at Texas A & M University.

This is not because of an actual shift in production, but the result of a heavy increase in cattle numbers in East Texas counties. At the same time, West Texas production has remained relatively stable, said Uvacek.

This increased production stems largely from the conversion of crop land to cattle pasture in the land where cotton once was king. Fertilizers and irrigation, along with new grasses such as Coastal Bermuda, have increased the cattle carrying capacity of the land to a much higher level than drier West Texas ranchland.

This trend, says Uvacek, will probably continue in the future because of the greater amount of potential available pasture land in East Texas.

"I'll be ready in a few minutes, dear."
 "Oh, no hurry, I have to shave again anyway."

ing sure that every legal right of the accused is respected. A habitual criminal known to be guilty may be acquitted because of an irregularity in securing or presenting evidence. To you and me that sort of thing is absurd. It's unthinkable that a criminal should escape the penalty of his crime because someone on the side of the law got out of line or goofed on a detail.

One person's guilt cannot be wiped out by another's indiscretion. It would seem more correct to assess proper penalties for both the guilt and the indiscretion. That way at least a criminal would not escape his just punishment and be turned back to prey on society. The present way often makes us wonder whether laws protect the criminal or society.

A classic example of such miscarried justice appeared in the news this week. In Chicago two policemen heard people yelling about a "crazy guy" with a beer bottle trying to cut people. The officers found the offender and a companion and drew their revolvers and identified themselves as policemen. In the scuffle to take the lethal weapon from the trouble maker one officer was slashed in the face by the bottle and was shot in the foot by the other officer's gun.

In court the trouble makers were set free because, according to the judge's ruling, at the time the officers drew their weapons they had no knowledge a crime had been committed. How do you like that? We're told in effect that policemen have no right to disarm or arrest a thug threatening to slash or kill people with a broken bottle. They have to wait until a crime has been committed. No wonder the police and people of Chicago are putting up a howl.
