## Connally Signs Bill Authorizing Hospital District

People of this community are indebted to the administrator of Gainesville Memorial Hospital for her candid and honest statement last week presenting the financial problem currently facing that institution. She has served notice that sooner or later our county can be expected to assume at least a part of the responsibility of providing adequate medical care for its residents.

In other words, a tax is in sight, and the people of Muenster are notified that they will eventually pay toward a hospital away from home if they do not adopt a tax to help support their hospital at home. Unless we create our hospital district, and thereby exclude ourselves from the rest of the county's hospital problem, we too will pay a part of the county's help to the Gainesville hospital.

**At this point it's a good idea** to explain one of the provisions of our local hospital district bill. By assuming responsibility for indigents of our own area we automatically exclude responsibility for other indigents. We will not be able to get funds from the commissioners court for care of people in our district, nor can the court tax us for funds to care for people outside our district.

The Gainesville Hospital administrator stated that its expense for care of indigents averages about \$36,000 a year, and suggested that commissioners appropriate that amount for the fund. If that is done it will require a tax of about 10 cents per \$100 of valuation. Probably it can be done by just adding 10 cents to the existing rate. However, the assessment could not apply on taxes within the Muenster Hospital District. County tax in this district would be 10 cents lower than in the rest of the county. Or if another rate would apply our tax would be that much lower.

So, if there are any around here who feared we would be assessed a double tax, they can stop worrying. The law protects us in that respect.

**We of the proposed Muenster Hospital District** should be grateful to the Gainesville people who are bringing their problem into the open at this time. Their honesty is commendable. They are telling us, in effect, that they intend to get county help, and we'll be included in their plan unless we adopt a plan of our own.

**Another statement made by the Gainesville Hospital administrator** deserves special attention: "... we are one of the few counties in the State of Texas not fulfilling our moral obligation of providing financial aid to medically indigent members of the community." It is a fact that practically every large city of the state and many of the counties have accepted responsibility for successful operation of their hospitals. People generally think they have a duty to provide adequate medical care in their community and willingly assume the tax it requires.

That's something more to think of as we consider our coming hospital district election. In our hearts don't we really think that we have a duty to provide adequate care for the sick of our community? And if that isn't convincing enough, don't we also know in our hearts that other factors such as saving in time and travel and economic values make the hospital worth much more to us than the tax will cost us? Plain financial consideration as well as a sense of responsibility urges us to create our own hospital district.

**While we think of those things** let's remember also that the local situation is changed somewhat by the problem at (Continued on page 8)

## Lindsay Is Set For Homecoming

Lindsay community and St. Peter's Parish are extending a general invitation for attendance at their seventh annual homecoming celebration Sunday.

Festivities will start with dinner served country style in the Parish Hall from 11 a.m. to 1 p.m.

The rest of the events will be held in Lindsay Park during the afternoon and into the night. Attractions will include games, eats, drinks, rides for the children and an opportunity for visiting.

## Record Number of Pupils Enroll for Swim Classes

One of the largest classes ever in the history of swimming instructions at Muenster enrolled Monday for the current two-weeks Red Cross course. The total is 250, including 140 beginners, 80 intermediates, 18 swimmers and a special class of 12 adults.

Carl King, manager of the pool and supervisor of instructions, said the late start probably accounted for the record enrollment. In previous years children were discouraged by a definitely uncomfortable chill in both water and air. This time the early morning lessons are much more comfortable.

Because of the crowd one of the scheduled classes has been postponed. Junior life saving will be taught a few weeks from now. If enough interest is shown a senior life saving class well also be organized.

Present classes extend through next week and are scheduled so that each pupil receives five one-hour classes of instruction. Those who pass the courses will receive buttons from Red Cross.

Instructors are Carl King, Peggy Hellman, Ricky Endres, Paula Herr, Roy Reiter, Linda Owen, Debbie Fette, Bob Russell, Debbie Cain, Margaret Kralicke, Mary Wimmer, Carl Endres, Mary Ellen Endres, Mike Endres, Gary Gieb, Linda Fisher, Sue Flusche and Janice Wilde.

The nine directors named in the state law have the responsibility of calling an election to determine if the district is wanted. If it is approved their next duty is to transfer ownership and administration of the hospital from Muenster Hospital Authority to Muenster Hospital District and issue the bonds for debt retirement. The original directors continue in office, until election procedure provided in the bill becomes effective.

## BIRTHS

Proudly announcing a great-grandson are Mr. and Mrs. Don M. Cooke, Marc Allen Cooke, son of Mr. and Mrs. Don C. Cooke, Mark Allen was born Monday, June 21, weighing eight pounds nine ounces. He's a brother for Debbie and the first grandson for Mr. and Mrs. Harold Cooke of Fort Worth. He's the first boy of the fifth generation of Cookes to carry on the family name. Others welcoming him are the maternal grandparents, Mr. and Mrs. William Carroll of Fort Worth and another great-grandmother, Mrs. S. M. Duffey, also of Fort Worth.

From Fort Worth comes announcement of the birth of a daughter to Mr. and Mrs. Paul Yosten, former Muenster residents. Their little girl arrived Thursday night, June 17. She's a sister for their three other girls and two boys and a grandchild for Mrs. Bog Yosten and Theo Miller.

## Richard Muller, 48, Muenster Native, Dies at Gainesville

Funeral services were held Monday at 4 p.m. in Myra Baptist Church for Richard T. Muller, 48, of Rt. 4 Gainesville, a former resident of Muenster. He was a son of the late Mr. and Mrs. John (Shorty) Muller.

Burial was in Rosston Cemetery under direction of George J. Carroll & Son Funeral Home.

Muller was born in Muenster July 23, 1916. For the past 19 years he had worked on the Schad & Pulte Ranch. He was married April 21, 1934 to Miss Lois Brown at Marietta, Okla.

Survivors include his wife; one daughter, Mrs. Kermit Prestage of Gainesville; two sons, Bobby Joe Muller of Gainesville and Ronnie Muller of the home; seven brothers and three sisters and three grandchildren.

Among those at the funeral were Mr. and Mrs. Joe Bernauer and their daughter Sister Barbara, Mr. and Mrs. Matt Muller, Mrs. George Gehrig and daughter Dianne, Mrs. Rosalie Hoffman, Matt Schmitz and Theo Miller, all of Muenster.

## NEWS OF THE SICK

Mrs. John Wilde, a patient at Muenster Hospital since June 14, underwent surgery Tuesday for amputation of both legs above the knee. Family members reported she stood the operation well.

Walter Lutkenhaus is recovering normally after a hernia operation performed at Muenster Hospital Monday.

Mrs. Billy Don Wolf is recovering satisfactorily from surgery performed at Muenster Hospital Tuesday.

Frank Bayer was released from Muenster Hospital Friday, his broken left ankle knitting normally and in a walking cast. A compound fracture was sustained in a farm accident on May 29 while he was mowing hay.

Andy O'Connor was dismissed from Necona Hospital Monday after four days of medical care.

Mrs. James Mollenkopf is on the mend, convalescing at home from an appendectomy performed at Muenster Hospital last week.

Danny Fette is back home since Tuesday after four days in Muenster Hospital for observation and treatment of an eye injury.

Word from Amarillo reports that Frank Wilde has been released from hospital care but is still under treatment at an Amarillo rest home. He had lung surgery early this month.

## Below Average Harvest Season Coming to Close

One of the poorer wheat harvests of recent years is coming to a close in this community. Both local elevators were receiving only occasional loads Wednesday and expect to receive their last by the end of the week.

It's been a bad season in two ways for local grain farmers. Prices were low, and a normal yield at the beginning of harvest got poorer as cutting was delayed by excessive rain. Reports early in the season indicated a probable average of 25 to 30 bushels per acre, but grain coming in lately has dropped to an average of 20 or below.

Quality has deteriorated badly since harvest started. Tests are running at 55 to 57 and moisture content is generally high. In the past rain and dew accounted for dampness. Late in the season the moisture is being thrashed out of the well advanced crop of weeds.

The only compensation for late harvesting is the improvement in price. To begin, the local market was about \$1.25 a bushel. Now it is up to \$1.35.

## Joe Smiddy, 88, Dies Wednesday, Funeral in Tenn.

Joe Smiddy, 88, father of Mrs. Ernest Medders, died in Muenster Hospital Wednesday at 7:30 a.m. following an extended period of failing health and a stroke on Wednesday of last week.

The body was flown to Jellico, Tenn., where services will be held at 2 p.m. Sunday in the First Baptist Church. Elison Funeral Home in Jellico is in charge of arrangements.

Joseph Franklin Smiddy was born in Jellico, Tenn., March 17, 1877, and spent all of his lifetime there except the past five years. When the Medders family moved to Muenster her parents came with them. Joe Smiddy married Miss Sarah Jane Tye in Jellico 66 years ago.

He was a former merchant and coal company purchasing agent.

Survivors include his wife; the one daughter; four sons, S. D. Smiddy of Williamsburg, Ky., C. B. Smiddy of Kansas City, Kansas, Joe Smiddy Jr. of Wise, Va., and Robert Smiddy of Decatur, Georgia, and a number of grandchildren and great-grandchildren.

## Former Resident Mrs. Eva Gottlob, 76, of Azle Dies

Mrs. Eva Gottlob of Azle, 76, formerly of Muenster, died in Community Hospital at Azle Tuesday 2 p.m. following a prolonged illness.

Rosary for her was recited Wednesday at 7:30 p.m. in Azle Funeral Home and final rites with Requiem Mass were held Thursday morning at 9:30 in St. Paul's Church, Fort Worth, followed by burial in Fort Worth.

As Eva Muller, Mrs. Gottlob was born in Nebraska. She came to Muenster as a child with her parents. She was married in Muenster to the late Frank Gottlob.

Surviving are one son, Leonard Gottlob of Azle, two grandchildren, five great-grandchildren, one sister, Mrs. Joe Bernauer of Muenster, and three brothers, Matt Muller and Theo and Nick Miller, all of Muenster.

## Tax Assessments On Lots Raised By City Council

Following the practice of recent years, members of the Muenster City Council have again served as the City's tax equalization board. This has served the two-fold purpose of eliminating the cost of hiring non-council members to perform the chore, and, with the experience gained by council members, the procedure has helped reach the goal of a more truly equalized tax evaluation.

This year, to meet the demands for ever increasing city services, to keep pace with the higher cost of operating the many phases of city government, and to keep property evaluations based on a true worth, the council was forced to adopt a higher evaluation on land.

As a result, all lots along main street and the highway, that are used for commercial purposes or could be used for commercial purposes, have been re-evaluated at \$500.00 per lot. The majority of these lots had previously been on the tax rolls at \$200.00 per lot. All commercial lots outside of the Main Street, Highway area have been re-evaluated at \$250.00 per lot. These lots were previously on the tax rolls at \$100.00 per lot.

Residential property, which was formerly evaluated at \$100.00 per lot if sewer service was available, will now be evaluated at \$150.00 per lot. The residential property that does not have sewer service available will be evaluated at \$75.00 per lot instead of the previous base of \$50.00 per lot.

In 1964 the City had a total tax evaluation of \$1,386,494.00 which produced \$20,797.41 of tax revenue. For the year 1965 the City will have a tax evaluation of \$1,667,578.00 which will produce \$25,031.67 of tax revenue based on the rate of \$1.50 per hundred dollars of evaluation. As a result of the increase \$4,216.26 in additional revenue will be realized.

The City Council is of the opinion that this is the fairest approach since all property owners in the respective categories will have the same percentage increase as their neighbors. It is pointed out that a hearing will be held at 8:00 p.m. on July 7 at which time any citizen having a question regarding his or her taxes is invited to appear.

## Robert Myers, 56, Dies Suddenly Of Heart Attack

Robert Myers, 56, well known Gainesville implement dealer, died Tuesday at Gainesville Hospital an hour after suffering a heart attack at home about midnight.

Funeral services were held Thursday at 3 p.m. in First Methodist Church with burial in Fairview Cemetery directed by George J. Carroll & Son Funeral Home.

Robert Myers was associated with his father, Harry Myers, and a brother, James Myers, in the farm implement business. In recent years there was a change of ownership and the firm now is known as Myers, Cheany and Thompson, Robert Myers president.

He is survived by his wife, his father, brother and one sister.

## Dan Wilson, 18, Dies in Germany In Army Accident

Dan Wilson, 18-year-old Muenster soldier on duty in Germany, was fatally injured in an army motor vehicle accident Monday.

His father, W. B. (Nig) Wilson, received the report in a telegram from Washington Tuesday at 10:30 a.m. The message said that further information would follow.

Family members believe the accident happened during maneuvers. A recent letter mentioned that his outfit was leaving camp for a field problem.

Dan Wilson was born in Muenster June 28, 1946, and attended Muenster Public School. He married Miss Nancy Haverkamp here on Nov. 30, 1963, and entered the army in October 1964.

He trained at Fort Polk, La., and Fort Sill, Okla., and went overseas for duty in Germany in April this year. His wife joined him there in May.

A message to the family from the Red Cross Wednesday advised that Mrs. Wilson was enroute home by plane and that her husband's body would follow.

Survivors in addition to his wife and father are one brother, Sgt. Donald Wilson of Fort Hood, one sister Miss Linda Wilson of Muenster and the maternal grandmother, Mrs. Hattie Burk of Myra.

## Contract Signed For Sewer Line To East Muenster

Feazell Construction Company of Arlington has been awarded the contract to build a new sewer line serving the east part of town on its low bid of \$25,246.45. The contract was approved by the city council at its regular meeting Monday night.

Work is due to start within 30 days and is to be finished in 75 working days.

Specifications call for 2878 feet of 10 inch sewer main to serve much of the area south of the highway, including the recent annexation of about 17 acres in the southeast part of town. Across the highway the line will consist of 1524 feet of 8 inch main serving areas in the northeast part of the city which are too low for drainage into the present sewer line. A part of that 8 inch line will have to be beyond the city limit and the end will be at Third and Mesquite.

More sewer improvement work is also in sight. The city council and North Texas Producers Association are currently working on details of a deal whereby the milk plant will build a sewage equalizing tank for the city in exchange for the area just west of the plant which is occupied by the city's abandoned water reservoir.

The purpose of the equalizing tank is to save time and expense in treating the plant's waste. Sometimes the waste is strongly alkaline, sometimes it is strongly acid. In either case it is difficult to treat. But if the waste is mixed in a large tank before going to the sewer plant acids and alkalis have a tendency to neutralize each other and the sewer's digestive process is easier.

Another agreement by the City and NTPA is a special big volume rate for the water it uses.

A special accommodation for parking vehicles was also worked out by the city and the milk plant. Elm Street, just west of the plant, dead ends at the overpass. The street is now closed at First Street and the one block space between there and the overpass can be used as NTPA wishes.

It's a funny thing about life — folks work themselves to death trying to get where they can take it easy.

## Cathy Medders and Companions Leave To Summer Abroad

Family members saw Cathy Medders and her traveling companions Sister Barbara Maria and Sister Jeanne d'Arc off by jet from Dallas Tuesday on the first lap of their trip abroad.

The two nuns, from Memphis, Tenn., and Notre Dame, Ind., respectively, arrived Saturday for their first visit in Muenster. As guests of the Ernest Medders family, they saw Muenster for the first time and got acquainted, generally, at the homecoming.

In New York the trio met Miss Marie Wapple of Boston who joined them on the European trip. The four flew from New York to Ireland to visit in Dublin. Next stops will be London, Amsterdam, Brussels and Paris. They'll study in Paris several weeks, then travel again.

They'll see Switzerland, Austria, Germany and Italy, with a special visit in Rome and an audience with the Holy Father, Then Lourdes and a pilgrimage to the shrine. Then Spain and Portugal and a visit to the Shrine of Our Lady of Fatima. Last visit will be in Gibraltar and they'll leave from the Strait of Gibraltar to return home by boat early in September.

## Hundreds Return For Homecoming Here on June 20

They came from far and near to attend Muenster's annual homecoming celebration Sunday.

About 600 ate fried chicken and the trimmings including home made pie at the noon dinner. These and other hundreds joined on the grounds during the afternoon and evening for games, visiting and refreshments. Reunioning was going on all over the grounds and there was dancing at night.

Children stood in line for their turn to ride on the city's big red fire truck and the fish pond was popular with youngsters. The carnival area was frequently crowded and games did a booming business.

Old timers who remember Muenster's early days reminisced. These included John Walter and Joe Fisher Sr. who never miss a homecoming. They mingled with the crowds.

Coming the farthest to attend were four from Iowa, Mrs. George Bayer, 78, and her daughter Margaret of Wiley, Iowa, and another daughter Alice and her husband, Mr. and Mrs. John Schroeder, of Arcadia, Iowa. They were guests of the Bayer relationship.

Sister Bertha, here on a visit, took the opportunity to visit with former students of two generations. She taught at Sacred Heart School for 31 years.

## CORRUPTION OF LANGUAGE

It is a well-known fact that the average politician can talk for a good quarter of an hour without ever departing from well-worn ruts of cheerless and utterly barren clichés.

He will tell you that the party in opposition has played into the hands of evil men. He will insist that he has no axe to grind. He will say that he has plenty of grit for his mill. He will confide that the order of the day is his patriotic duty. He is holding up the banner, working shoulder to shoulder with men of good will. What has he said? Nothing.

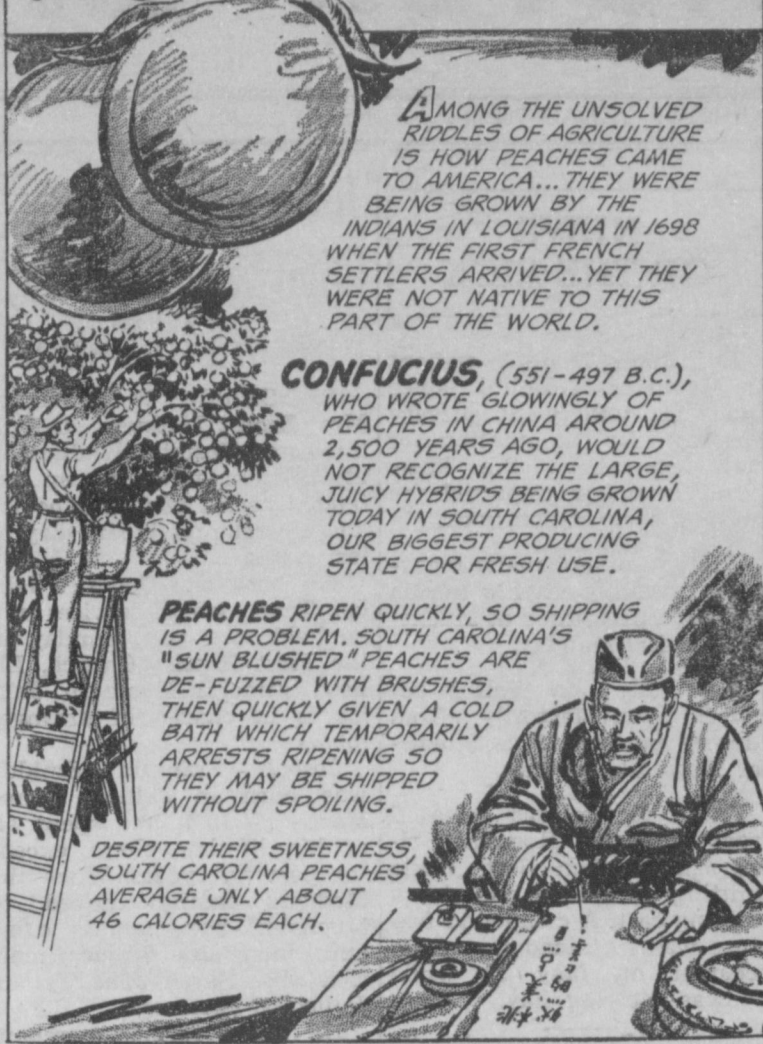

He may even lapse into bureaucratic style. He will render inoperative those who work against him. He will

mitigate against delay. He proposes to play leading role whenever his opposition exhibits a tendency to stray from the beaten path. He expects a mandate from the people.

And it is in response to prose of this sort that men troop to the polls and exercise their political prerogatives. The vigor of these expressions is akin to the rigidity of a piece of damp string.

Politics, indeed, cannot be forthright. If the truth were told, politicking would be a lost art. It is implicit in vote getting that a kind of hypnotic hold over dulled minds be obtained. The mentally alert constituent is an ever-present risk. So through a shining, toothy grin a cascade of words must pour un-

## In Our Time

AMONG THE UNSOLVED RIDDLES OF AGRICULTURE IS HOW PEACHES CAME TO AMERICA... THEY WERE BEING GROWN BY THE INDIANS IN LOUISIANA IN 1698 WHEN THE FIRST FRENCH SETTLERS ARRIVED... YET THEY WERE NOT NATIVE TO THIS PART OF THE WORLD.

CONFUCIUS (551-497 B.C.), WHO WROTE GLOWINGLY OF PEACHES IN CHINA AROUND 2,500 YEARS AGO, WOULD NOT RECOGNIZE THE LARGE, JUICY HYBRIDS BEING GROWN TODAY IN SOUTH CAROLINA, OUR BIGGEST PRODUCING STATE FOR FRESH USE.

PEACHES RIPEN QUICKLY, SO SHIPPING IS A PROBLEM. SOUTH CAROLINA'S "SUN-BLUSHED" PEACHES ARE DE-FUZZED WITH BRUSHES, THEN QUICKLY GIVEN A COLD BATH WHICH TEMPORARILY ARRESTS RIPENING SO THEY MAY BE SHIPPED WITHOUT SPOILING.

DESPITE THEIR SWEETNESS, SOUTH CAROLINA PEACHES AVERAGE ONLY ABOUT 46 CALORIES EACH.

til all sensibilities are numb. What the politician says has come to be far less important than his public relations stance. If he has an agile hand for shaking and a smooth flow of phrases that reach no conclusions, the man is a winner—especially if he photographs well.

It is into such hands that mighty powers are confided and the fate of the world is made to rest.

### WHY NOT COMMON SENSE?

We suggest a return to common sense as a safe course of action in our present economical and political situation. There is too much tendency toward sensationalism. Let some crackpot say or do something in opposition to the status quo and the TV stations, the newspapers, the radio stations, the magazines and other news media play it up in glaring headlines and sensational statements all out of proportion to its importance.

The nation is being brainwashed by all sorts of hog wash. The American nation has become almost maudlin about incidents that are stretched all out of proportion by news media. People are given time and space in print and on the air waves who would not have been noticed in past years.

A person who differs from others in his political beliefs is called an extremist. He is branded as a sort of freak. Let a person use his constitutional right to express an opinion, and immediately he is jumped on by all sorts of beatniks and political propagandists.

We repeat that what we need is a return to common sense.

—Carthage Panola Watchman.

### What Might Have Been

There is a somber irony in the fact that this year marks the 20th anniversary of the founding of the United Nations and that commemorative medals are to be sold to observe what is called International Co-operation Year 1965.

That brave phrase brings back the high hopes that were held the world over when the UN came into being in San Francisco. Once again, there was the feeling that was born in 1918—that the war to end wars had been fought. From now on the nations, meeting together, would see

that reason, justice, truth and understanding prevailed.

We all know what happened. How much of this may have been the fault of the UN is a matter of opinion and interpretation, and there is no profit in raking over tortured ground. But the world was never more disordered and that, tragically, is true at a time when its resources and incredible scope of knowledge are more than sufficient to make possible a civilization brilliant almost beyond imagining. The UN medal is a tribute to what might have been—not what is.

### Speaking of Civil Rights

The Supreme Court of Wyoming, by a three-to-one vote on April 7 reaffirmed the constitutionality of the state's Right to Work law.

In upholding the right of Wyoming to prohibit compulsory unionism, the Court clearly rejected the contention of the International Brotherhood of Electrical Workers (AFL-CIO) that the entire statute be declared unconstitutional.

Reed Lawson, executive secretary of the National Right to Work Committee, hailed the decision as a "clear-cut victory for the proponents of voluntary union membership."

And it should stiffen the spines of at least one Congressional delegation against the day when LBJ launches his blitz to blow 14-d out of the Taft-Hartley Act.

### NATIONALIZED RAILROADS

"What would nationalization of the rail industry cost? Initially at least 30 billion dollars, a rough estimate of physical assets owned by the rails, if the government were to buy them as proposed by the unions and pay a fair price. But that's only the half of it."

"Each year the railroads pay more than a billion dollars in taxes to federal, state, city and county governments. That would be lost if the government took over, and would have to be made up by the average citizen in the form of higher taxes."

"Many have forgotten that Uncle Sam once took over operation of the rails and it proved to be an expensive experiment, costing the government (that is, the taxpayer) \$2,000,000 per day for operating expenses, not to mention the loss of taxes."

—Dallas Morning News

### WHY CAN'T?

WHY CAN'T this nation be run without putting one out of every eight workers on the public payroll?

WHY CAN'T the Congress say "No!" to the phony medicare plan that will take 7c out of every dollar earned and don't they realize it's sure to wind up with every one of us holding the sack?

WHY CAN'T the government get out of competition with private enterprise and why keep running their over 700 enterprises when all are in the red?

WHY CAN'T something be done about the \$1,600 share of the national debt every new baby automatically has as a handicap along with the rest of us who let the red ink specialists do this to us?

WHY CAN'T government spenders be taught that money comes from people's sweat... not from over staffed, non-productive swivel-chair bureaucrats?

WHY CAN'T the tax bite be cut so the average person won't have to be taxed more than he eats or wears?

WHY CAN'T the government construct a building like sensible people instead of such as the Rayburn home for under-paid congressmen that cost \$280,000 for each Representative with quarters therein?

WHY CAN'T the taxpayers get mad enough to chew out those who waste their hard-earned money by pouring it down every foreign rathole they can find?

WHY CAN'T these people who claim to be such smart leaders do some leading in the direction of economy instead of bragging about spending another billion or two?

WHY CAN'T the administration borrow some guts, if they can't find any of their own, to tell the labor bosses that a \$2 an hour minimum wage would destroy jobs by the millions?

WELL... why can't they? Is it because they don't know how? Don't want to? Too lazy? Or just don't give a d...? —Hailey (Idaho) Times

The US sells more farm products — \$742 million worth during fiscal year 1964 — in Japan than in any other country.

### Overtones of Treason

Responsible Negro leaders are increasingly disturbed over the fact that a motley combination of beatniks, fellow travelers and outright communists is handicapping efforts to advance legitimate aspirations of the American negro. James M. Nabrit, Jr., president of the preponderantly Negro Howard University in Washington, has warned campus civil rights organizers against Communist infiltrators seeking "to cloak themselves in the mantle of civil rights and plot and plan to disrupt our fight for justice and full citizenship..."

"I think that in the incidents at Berkeley these people established a beachhead... They must be unmasked for the frauds they are. They must be fought in every arena and they must not be permitted to prevail."

How about that Dr. Bunche, Rev. Abernathy, James Farmer — and, for that matter, Dr. King? Only the leaders of the "civil rights movement" can expose the false prophets in their midst. And only the leaders (if they are big enough) can expel them — if it is not too late.

All Marines, regardless of their job specialties must be qualified as basic infantrymen.

Every year the world population increases by a number equivalent to the present US population.

## Local News BRIEFS

Mrs. George Bayer, her daughter Margaret of Willey, Iowa, and another daughter and her husband, Mr. and Mrs. John Schroeder of Arcadia, Iowa, returned home Tuesday after being in Muenster to visit relatives since Saturday. They came especially to attend the homecoming celebrations.

Mr. and Mrs. Victor Hartman had their children and grandchildren in and out Sunday and they all attended the homecoming having dinner together. The visitors brought gifts for Father's Day and in advance for Mr. Hartman's June 24 birthday. Mrs. Willard Hartman brought a decorated cake. Present from out of town were the Teddy Gremmings and children, the Willard Hartmans and the Gene Hartmans and their children of Denton, and the Walter Wolfs and family of Gainesville. Mrs. Keith Tompkins telephoned greetings from Arlington.

Mr. and Mrs. C. M. Flusche of Decatur joined relatives from Muenster and Lindsay at the homecoming.

Mrs. H. L. Herron of Denison was united here at the homecoming with children and grandchildren from Muenster, Lindsay and Pilot Point. She also visited other relatives including her sister Miss Annie Knabe.

Mr. and Mrs. John Schmitz of Gainesville were back Sunday to have Father's Day dinner with their daughter and family, the Joe J. Wimmers.

Dr. and Mrs. Martin Kralicke were getting Crowell friends acquainted with Muenster people at the homecoming. They had as guests Mr. and Mrs. William Garrett and Miss Mary Ford. Miss Ford is from Denison now. She's supervisor of nurses at the new Denison Memorial Hospital. Joining this group were Mr. and Mrs. A. J. (Moco) Schilling and son John of Crowell who were back in the old hometown for the homecoming program, also visited relatives of the Schilling family.

Dr. and Mrs. Martin Kralicke and children were in Vernon Saturday evening at the wedding of a friend Paul B. Ekern of Crowell and Miss Beth Gibson of Vernon. The bride's father told the Kralickes that he remembers Muenster from way back ... used to play baseball with a group of oldtimers.

John Schmitz of Thackerville was renewing old acquaintance, visiting Muenster and Lindsay relatives and friends at Sunday's homecoming. His daughter, Mrs.

Rosalie Cox of Dallas, was also among visitors after stopping at the homes of her sisters, Mrs. Ray Wilde and Mrs. Al Horn.

Surprises greeted Jim Walker for Father's Day. His granddaughter Shirley Luttmner and Danny Clifton of Valley View drove over in the morning to take him to services at Shiloh Baptist Church, then took him to Valley View for a dinner party in the home of his daughter Mrs. Leonard Luttmner and family. In the evening there was supper, then a freezer of ice cream to enjoy before the Luttmners brought him home.

Father's Day at the Bill Kathman home had all the family together for dinner. The Stan Wylies and children came from Grand Prairie and the W. E. Inseles and family came from Gainesville. They attended the homecoming in the afternoon. Jimmy Wylie stayed for a longer visit with his grandparents.

Miss Gloria Yosten of Dallas spent the weekend here and joined her family, the Felix Yostens, at the homecoming Sunday.

Father's Day and birthday were observed at the Joe Wilde home Sunday with a barbecue turkey dinner at noon. Mrs. Wilde entertained for her husband, son and two sons-in-law. Ray Wilde was the birthday honoree. He and his family, and the James Bezners and Rufus Bezners and their children of Lindsay attended and there was a round of gifting. Afterward they joined the homecoming crowd on the parish grounds.

Mr. and Mrs. Teddy Gremminger and children Wayne, Mary Kay, Robert and Brenda of Garland spent Sunday and Monday here dividing time between their families, the Ted Gremmings and the Victor Hartmans. They were overnight guests of the Gremmings. Both dads were remembered with gifts.

Misses Emma and Clara Fisher of Fort Worth flew in Tuesday from a vacation visit in California and came here to end their vacation time with their parents, the Charlie Fishers. They were in Los Angeles as guests of their sister and family, the David Shenks, Stephanie and Robert combining visiting with sightseeing.

Mr. and Mrs. Mark Kuta and children Kathy and Mark of Tucson, Ariz., spent a part of their vacation with Cooke County relatives. They were houseguests of her mother, Mrs. George Spaeth at Lindsay and of her sister and family, the Andy Schoechs here. A family gathering at Muenster City Park brought all the relationship together at one time for visiting. The Kutas went from here to Houston for the rest of their vacation.

## Salvation Army to Send Truck June 29

The Salvation Army truck will be in Muenster to pick up household discards, clothing, newspapers and magazines next Tuesday, June 29.

The truck will call at homes or business houses for furniture or other large discards. Telephone 759-4311 to leave name and address.

The Salvation Army needs small appliances, bedding, and furniture. Household discards given to the Salvation Army support a vital program of rehabilitation. Over 75 men are currently seeking new hope in life through services of the rehabilitation center. Salvage and discards are the sole support of the Men's Rehabilitation Center.

## At Kin's Funeral

Mrs. Charlie Fisher was among relatives at the funeral of her aunt, Mrs. Charlie Lang in Sherman Saturday afternoon. Mrs. Lang died Thursday in a Sherman hospital after a brief illness. Other relatives at the funeral included Mr. and Mrs. John Schmitz of Gainesville and Mrs. Mary Schmitz and Alphonse Schmitz of Valley View. Mrs. Lang's husband died about 10 years ago. Two sons and a daughter survive.

## Cost of Raising A Child to 18 Is About \$35,000

How much to raise a child? Plenty, according to the editors of Changing Times, the Kiplinger magazine. They estimate that raising a child to age 18 costs the average middle-class city family \$35,000.

"The price tag for raising a child to age 18 runs around \$12,000 for a family with a very modest standard of living and as high as \$60,000 or more for a pampered, upper-bracket urbanite. A comfortable-off farm family might spend around \$20,000."

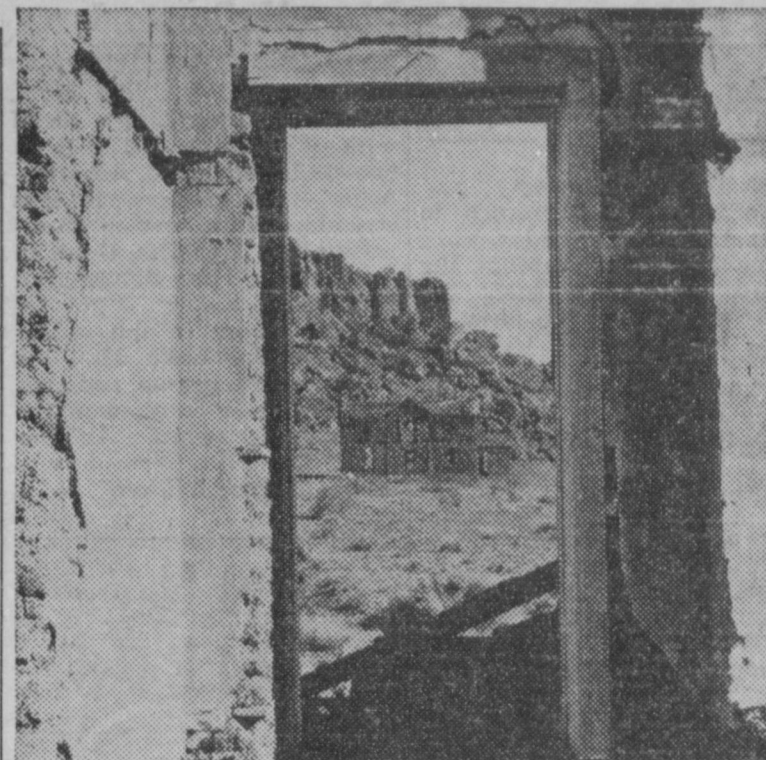

Just how much depends on many things, but the magazine points out that none of the totals include "the real crusher that may start at 18 — the cost of college."

Major expenses come to about \$28,000 and include: cost of being born, medical and dental, food, clothing, housing and transportation. A few of the itemized incidentals are diaper-service, haircuts, toys, allowance, school fees and supplies, travel, and amusements.

That it can be done for less is admitted. In fact, Changing Times reminds its readers that millions of families are living comfortably and bringing up their children for less. It points out that the Community Council of Greater New York figures that a family with a low to moderate income in New York City — a fairly expensive place to live — can enjoy a modest but adequate standard of living while spending about \$12,000 on each child. However, the figure doesn't include the child's share of the cost of housing.

Next to housing, food can be considered the family's biggest item for a child: about \$7,000 and that's only food at home. It can easily hit \$10,000 each, assuming that the neighbors' children are fed now and then and they feed yours. The weekly rate is \$4.15 for the first year; \$5.55 from 1 to 5, and \$7.90 from 6 to 11. At about 12 the girls level off for the next six years at around \$9.60 a week, while a boy in this family can be counted on to eat his way through \$10 to \$13 a week. Although considered a bit frugal, this bill might be \$7,000 to \$8,000 for 18 years.

The magazine's report concludes by observing that "the best things in life are not getting freer."

FRONTIER DEFENSE — Texas history is relived at old Fort Davis, key post in the defense system of West Texas from 1854 to 1891. Today the remains of Fort Davis are more extensive and impressive than those of any Southwestern fort. Visitors can inspect many officers' residences, troop barracks, warehouses, and the hospital. What is the difference between the quick and the dead? All too often the answer is "seat belts," according to findings of Cornell University's Automotive Crash Injury Research.

Noting that people with seat belts are 35 to 60 percent safer than are people without belts, auto manufacturers and others are taking measures to safeguard lives that would otherwise be lost.

Typical of the organizations vitally interested in the nation's auto safety is the Linen Supply Association of America, now conducting a "Let's Buckle Up and Live" campaign aimed at drivers of all vehicles operating on highways and in cities.

**Texas Derives Health and Wealth From Dairying**

Since June is traditionally known as Dairy Month, it's a good time to "look at how we stand," says A. M. Meekma, Extension dairy specialist, Texas A&M University.

Texas ranks 10th among the 50 states in the number of milk cows on farms, 11th in total pounds of milk produced (but 38th in milk produced per cow), 9th in the production of ice cream, 24th in the amount of cheese produced and 26th in butter, the specialist points out.

Quite a bit of income is created as a result of dairy industries activities. For example, in 1964 there were 16 million dairy cows on approximately 1 million U.S. farms whose production was valued at over \$5.2 billion — the second highest source of cash farm income. This product (milk) was processed in over 30 thousand ultra-modern dairy processing plants which distributed an estimated 58 billion quarts of milk a year in the form of fluid milk and its products.

And what about its nutritional merits? Meekma says that nutritionally, milk and milk products provide 28 percent of the nation's essential food nutrients. This, according to the specialist, represents 40 to 45 percent of the American families' requirements of

protein, 65 to 70 percent of their calcium, 59 to 76 percent of their riboflavin, 35 to 39 percent of their Vitamin A, and substantial amounts of other needed food elements. And all this, he concludes, for slightly more than 19 cents of each food dollar.

Furthermore, the specialist adds, in terms of today's factory wages, we are eating better for less. In 1929 it took 15 minutes of factory work to pay for a quart of home delivered milk. Today it takes slightly less than 7 minutes to earn this same quart of home-delivered milk.

Not only is milk and its products nature's most nearly perfect food — it is the best food on today's food market. And, emphasizes Meekma, "you never outgrow your need for milk."

**SOIL CONSERVATION DISTRICT NEWS**

OUR SOIL ★ OUR STRENGTH

What is Pastureized soil? Personnel of the Soil Conservation Service say there is such a thing as pastureized soil, and that many acres of land in this area are pastureized or exposed to nature's method of pastureization.

To show this is true, SCS men found a property line fence which had a good grass cover on one side and overgrazed grass on the other side. The air temperature was 105 degrees hot. The soil with a good grass cover had a temperature of 95 degrees while on the other side, where the grass was overgrazed and bare ground was showing, the soil had a temperature of 135 degrees.

Milk can be pastureized at 144 degrees; so, district co-operators who over graze their pastureland and range-land or leave their cropland fields bare are literally exposing the soil to nature's process of pastureization.

This also applies to the urbanite who mows his lawn too short. The uncovered soil becomes so hot that bugs, worms, and bacteria must leave the soil or die. The soil is then dead or lifeless and unproductive.

This is only one of many good reasons for leaving a cover on the soil. On cropland, legumes such as alfalfa, clover, or peas, make an excellent live cover. All crop residue should be left on top of or worked into the upper part of the soil where it is worth three to ten dollars per acre. This residue should never be bailed or burned.

On native bluestem range-land one should take half and leave half of each year's growth, while on tame pasture-land leave the grass four to six inches high at all times. Lawns should be mowed approximately two inches high during the hot summer months.

A good cover on the land will greatly reduce the soil temperature and insure a live, productive soil. Where there is no cover there is pastureized soil. Call or come by the local SCS office for help on all conservation problems.

The only exercise some people get is jumping to conclusions, sidestepping responsibility and pushing their luck.

**Be Careful About Taking Medicines**

There is a right way and a wrong way to do everything, including the taking of medicine.

When medicine is taken correctly, the exact dose is taken at the proper time under conditions that insure against error.

A pamphlet of the American Medical Association offers a few useful directions for taking medicines —

Store medicines in a cabinet, preferably locked, away from the reach of children.

Keep only medicines currently in use.

Destroy old prescriptions, because many drugs lose potency or may be chemically changed by time.

Read the label in a good light before opening the bottle or box. Read it again before taking the medicine.

If you have more than one box of pills or capsules to take, be sure one is closed before opening the other. This avoids switching covers, and also labels.

When pouring from a bottle, keep the label up so that any dripping will not soil it and make it hard to read.

When taking medicine at night, be certain that the light is on and that you are wearing glasses if you need them. It is easier to misread and misunderstand labels at night when you are sleepy than when fully awake during the day.

Keep medicines away from the bed. Make it necessary to get up and take them. Keeping drugs and medicines on the nightstand by one's bed is dangerous because an overdose may occur if the medication is accidentally repeated while sleepy.

Keep medicines in the original labeled container. If

you carry pills in a pocket pill box, identify them with a label. Never put medicines in containers identified as foods.

Avoid using medicine for children which is disguised as candy. Poisoning — or at least overdoses — can occur when children find and take medicine which looks and tastes like candy.

**DID YOU KNOW THAT:**

It is a violation of the law to either carelessly or deliberately set on fire the lands of another. In 1951 the Legislature made it a felony for a person to deliberately set fire to grass or forest land owned by another. They also enacted a law making it a misdemeanor to negligently set, or cause to be set on fire, the lands of another. The Texas Forest Service is primarily responsible for enforcing these statutes.

**Over 27 Billion Barrels of Oil Produced in Texas**

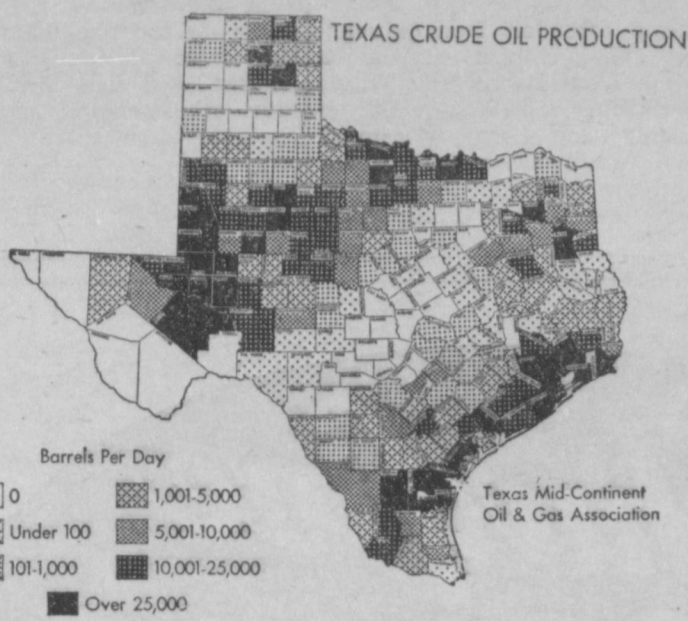

Texas has produced more than 27 billion barrels of oil during the past 69 years of recorded production, resulting in a statewide distribution of income which currently averages about \$3 billion a year, according to Texas Mid-Continent Oil & Gas Association.

With 203 out of the state's 254 counties producing crude oil, each section is marked by several prolific fields. "The widespread development of production in all sections of the state has been fostered by the state's oil and gas conservation laws," James L. Sewell, Association president, has pointed out. "By giving all fields in the state, regardless of location, a share of the market for Texas oil the Texas Railroad Commission has encouraged development of resources in every sector — both in drilling and in the building of a transportation system to get the oil to refineries."

Cooke County, which has had recorded production since 1926, has had a total crude oil output of 187,762,000 barrels up to the beginning of 1964. Cooke County production in 1963 was 9,678,000 barrels at the rate of 26,500 barrels a day. County production up to January 1965 was about 197,440,000 barrels.

Texas has 35 counties scattered over the state which produced at the rate of 25,000 barrels or more per day. The three largest are: Andrews, 195,000 barrels a day; Ector, 164,000 barrels per day; and Crane, 114,000 barrels per day.

The U.S. Navy's first atomic-powered aircraft carrier USS ENTERPRISE, is 1,040 feet long, has a flight deck equal to four and one half acres and has a total displacement of 85,800 tons when fully loaded.

**Proposed CONSTITUTIONAL AMENDMENT**  
PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON SEPTEMBER 7, 1965.  
SENATE JOINT RESOLUTION NO. 44 proposing an Amendment to Sections 2 and 25 of Article III of the Constitution of the State of Texas so as to provide for an increase in the membership of the State Senate from 31 to 39 members; to fix the membership in the House of Representatives at 150 members; to require apportionment of the Senate according to population; and to delete the limitation that no single county is entitled to more than one Senator.  
BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:  
Section 1. That Sections 2 and 25 of Article III of the Constitution of the State of Texas be amended to read respectively as follows:  
"Section 2. The Senate shall consist of 39 members. The House of Representatives shall consist of 150 members."  
"Section 25. The state shall be divided into Senatorial Districts of contiguous territory according to population, as nearly as possible."  
"Should the Legislature enact any enabling legislation in anticipation of this Amendment, no such law shall be void by reason of its anticipatory nature."  
"This Amendment shall become effective upon its adoption."  
Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the 7th day of September, 1965, at which election all ballots shall have printed on them the following:  
"FOR the Constitutional Amendment increasing the membership of the State Senate from 31 to 39 members, retaining the present membership of the House of Representatives, requiring apportionment of the Senate according to population, and deleting the limitation that no single county is entitled to more than one Senator."  
"AGAINST the Constitutional Amendment increasing the membership of the State Senate from 31 to 39 members, retaining the present membership of the House of Representatives, requiring apportionment of the Senate according to population, and deleting the limitation that no single county is entitled to more than one Senator."  
Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this state.

**Lindsay News**

Mrs. Joseph F. Neu entered Muenster Hospital last Friday and had major surgery Tuesday night. She is 93. Her condition was reported satisfactory Wednesday.

The Joe Schmidkofers and children joined her parents, the C. M. Flusches of Decatur and other relatives at Muenster Homecoming Sunday.

It was a bit of a reunion for the Matt Fuhrmanns Sunday when family members got together at Muenster Homecoming.

Mr. and Mrs. Alrich Zwinggi and children Danny, Donna and Chris of Gainesville spent the weekend in Tulsa, Okla., visiting the Oscar Zwinggis, Carol and Shirley. The children enjoyed swimming and visiting Mohawk Zoo.

Mr. and Mrs. Winston Fangman and daughters Bridget and Sharon visited during the weekend in Windthorst with her sister and husband, Mr. and Mrs. Gus Berend.

Henry Grewing Sr. has been hired by the Lindsay School District and the parish as custodian of the parish plant. He replaces Herman Martin who has retired.

Mr. and Mrs. Mark Kuta and children Kathy and Mark of Tucson, Ariz., visited her mother, Mrs. George Spaeth and other relatives several days while they were on vacation.

Donna Gayle Kuhn, daughter of Mr. and Mrs. Henry Kuhn Jr., was admitted to Gainesville Hospital Tuesday.

Miss Margie Gossett and Mrs. Joe Bengfort have been dismissed from Gainesville Hospital.

Hubert Bezner of LaHabra, Calif., writes his mother Mrs. Joe Bezner Sr. that he is on the mend after undergoing knee surgery.

**Dolores Voth and Jimmy Zimmerer Set August Rites**

Mr. and Mrs. John Voth announce the approaching marriage of their daughter, Miss Dolores Voth and Jimmy Zimmerer, son of Mr. and Mrs. Bruno Zimmerer, Lindsay.

Their wedding is planned for August 21 in St. Peter's Catholic Church with the bridegroom's uncle, the Rev. Francis Zimmerer, officiating.

Mr. and Mrs. Frank A. Sandmann, Miss Patsy Zimmerer, Truman Wolf, Miss Margie Neu and Tommy Zimmerer have been asked to be attendants.

Both are Lindsay High graduates and attended CCJC. The future bride is a student at a Beauty College in Denton and the bridegroom-to-be has completed his degree at NTSU. He will be teaching at Forest Oak Junior High School in Fort Worth next fall.

**Judy Bezner and A3c Roy Morisak Set Wedding Date**

Mr. and Mrs. Joe Bezner of Lindsay announce the engagement of their daughter, Miss Judy Bezner, and Airman 3c Roy Morisak, son of Mr. and Mrs. A. A. Morisak, 1115 Throckmorton St., Gainesville.

They have set their wedding for 4 p.m., October 23, at St. Peter's Catholic Church, Lindsay, with the Rev. John Walbe, OSB, officiating.

The bride-to-be is a graduate of Lindsay High School and the future bridegroom has completed a year at CCJC and is stationed at Bergstrom AFB, Austin.

**Jays 5, Ravens 3 Cards 13, Robins 10**

The Jays held on to their perfect record Wednesday night, nosing out the Ravens 5-3. And in the next game the Robins continued their losing streak in a 13-10 loss to the Cardinals.

In the first game each of the teams got two hits and the Jays also had 1 error and 8 walks whereas the Ravens had 2 errors and 9 walks, but the Jays had the benefit of better grouping. Jays hitters were Steve Taylor a triple and Gary Endres a single. For the Ravens Wayne Grewing and Ricky Swirczynski each singled.

Free bases on walks made the difference in the Cards favor the second game. They got 10 and the Robins got only 5. On hits and errors they almost broke even: 7 and 1 for the Cards, 7 and 2 for the Robins.

Jim Schmitz had a perfect night at the plate, getting two doubles and two singles out of four times up. Other Robin hitters were Terry Walterscheid, Earl Koelzer and Dan Sicking each a single. Glenn Felderhoff also had a big night, two doubles and a single out of four tries. Other Cardinal hitters were Kevin Sicking two doubles, Eddie Otto and Ricky Allen each a single.

**Someone Is Killed Every 16 Minutes In Home Accident**

Are you safe at home? Hardly. You're safer at a nuclear reactor site than you are in your own home, according to statistics. The nuclear industry has one of the best safety records on the books, less than ten deaths in twenty years.

Accidents in the home and on the way there are, on the other hand, among the leading killers of people. Motor vehicle accidents, falls, fires and similar accidents account for nearly 6,000 deaths yearly in Texas, and over 90,000 deaths in the nation.

An industrial hygienist commented recently that a worker's chances of accidental injury increased when he left his place of work. One study found seven off-the-job accidents causing absenteeism for every one happening on the job.

Every four minutes someone is permanently disabled, and every 16 minutes someone is killed by accident in the home.

Falls account for most fatal home accidents. Next in order of frequency are burns, scalds, explosion, mechanical suffocation, poisoning, gas and firearms.

The only way to avoid accidents is to prevent them with forethought, planning ahead—simply using your head.

No one is immune to falls, burns, cuts or other similar injuries. If you step on a chair to get dishes out of a top cabinet or change a light bulb, your chances for a fall are considerably higher than had you used a sturdy step-ladder.

Taking a chance on throwing gas on a smothering fire, using a faulty appliance just one more time, or attempting to adjust power equipment while the motor is running aren't even "calculated risks." They are just chances unnecessarily taken.

And, among children and youth, accidents are the leading killer. As a result, it is our responsibility to protect a baby completely through about 14 months of age, and then begin to train the child—slowly but surely—to avoid accidents and to protect himself.

**Haverkamps Unite For Father's Day**

Father's Day was reunion day for the Lee Haverkamp family. The clan got together for dinner at the home of Mr. and Mrs. Walter Haverkamp at Whitesboro.

Mr. and Mrs. Lee Haverkamp attended from Muenster, the Gilbert Boydstuns came from Dallas, the Travis Wickliffes and daughters from Irving, the Leroy Wiesmans and family from Fort Worth and the Richard Schumachers and family from Gainesville.

In the evening the Boydstuns and the Wickliffes joined the parents at Muenster Homecoming. Mr. and Mrs. Boydstun are spending a part of their vacation here.
