VOLUME XXIX

MUENSTER, COOKE COUNTY, TEXAS 76252 JULY 30, 1965

NUMBER 36

The election to decide whether people of this community will create a hospital district seems assured for the near future.

Until then voters of the area will be interested in a comprehensive review of facts relating to financing and construction of the hospital and especially the reasons behind present efforts to establish the hospital district with a tax to support debt retirement and care of indigent patients. In the coming weeks this column will do its best to present all the pertinent facts and also to explain why, in its opinion, the district should be established.

The dream of a Muenster hospital goes back many years. Pioneers had visions of it as one of the essential units of a well developed community caring for the religious, educational and medical needs of its people. But circumstances postponed the plan. The first effort came in the mid forties when about 200 local people contributed toward a fund to build a hospital and administer it on a cooperative plan. That idea was abandoned in 1948 and all donations were refunded.

The present project originated in July 1958, in accordance with provisions of a new state law permitting cities to establish hospital authorities with powers to build and operate local hospitals. Muenster Hospital Authority was established by the Muenster City Council.

The next important development in the project came in January 1960 when the Benedictine nuns of Jonesboro, Ark., agreed to administer the Muenster hospital. Other developments of the year were selection of the architect in August, selection of the building site in September, and securing approval for a Hill-Burton grant, also in September.

Some opposition was voiced at the time to federal participation in the project. It was assumed that Hill-Burton specifications would be more elaborate than the community needed, but it was soon learned that local plans already measured up to Hill-Burton standards. Also it was known that federal labor policy would increase construction cost, but the increase was estimated at much less than the amount of the grant. The community could gain substantially by accepting the Hill-Burton help.

It can be added here that policy of the state health department and Hill-Burton verified the architect's advice to build no less than a thirty-bed hospital — a point that deserves consideration by people who say that the hospital was overbuilt. The reason is that an adequately built and equipped system of central facilities, including operating rooms, delivery room, laboratory, X-ray, kitchen, storage, administration offices, etc., costs as much for 20 beds as for 30, hence the over-all cost per bed is much higher in the smaller hospital. Hill-Burton does not participate in a project less than thirty beds.

It can be stated further that the local hospital did not receive state and federal approval without detailed study of the community and its potential, a fact revealing expert opinion that the hospital does not exceed community need. Time will tell whether their appraisal was correct but for a few years at least, until the potential has a chance to develop, it should be accepted in preference to the inexperienced judgement of some local people.

Next on the project's schedule was the drive for funds. In November 1960 the campaign was launched under direction of a professional fund raising firm. The goal was set at \$250,000 to be matched by an equal amount which was available from Hill-Burton. Already on hand was a fund of about \$60,000 from the will of the late John Kreitz which was to be held in reserve as a starting fund for the hospital's operation.

As the campaign opened community enthusiasm ran high. Substantial donations came in early as dozens of solicitors worked throughout the area. Muenster people generally had visions of putting their drive over the top. But hopes of success faded as the drive ended just before Christmas with cash and pledges adding to slightly more than \$169,000.

Muenster Licks Saint Jo Boys 8-4

Roy Reiter hurled a steady if not spectacular game Monday night as the Muenster Mavericks beat Saint Jo 8-4. The ten hits and two walks that he allowed were well scattered over the nine innings, and he fanned 14 batters.

Saint Jo had two pitchers whose combined efforts struck out 11 batters while allowing 12 hits and 9 walks.

Muenster started strong, making all its runs in the first 5 innings. The visitors had only one tally until a late splurge produced 1 in the seventh and 2 in the eighth and the Mavericks coasted to victory.

Muenster hitters were Willie Walterscheid a home run and two singles, Adam Wolf three singles, David Hess a double, James Harris, George Petrus, Carl Walterscheid, Charles Ashford and Speedy Reiter each a single.

A return game with the Saint Jo boys will be played there next Monday night.

4-H Horse Show At Colonial Acres Has 51 Entries

An outstanding event for this area was the 4-H Horse Show at Colonial Acres Farm Saturday. The first of its kind to be held here, it was sponsored by Mr. and Mrs. Ernest Medders.

The day-long event drew entries from Muenster, Bowie, Bellevue, Henrietta, Keller, Era, Gainesville, Wichita Falls, Iowa Park, Nocona, Montague, Graham, Sherman, Valley View and Smithfield.

Fifty-one horses were entered by 4-H boys and girls to compete for trophies and ribbons in five halter classes and ten performance classes in senior and junior divisions. Top trophy of the show for the high point horse went to Kenny Callaway, 16, of Wichita Valley Farms.

Muenster had six entries in the horse show and two winners. Margaret Kralicsek was second and Lenore Fleitman was fourth in a halter class. Other local entries were Allen and Andy Trubenbach Jr., Allen Fleitman and Stephen Stoffels.

Performances were in the ranch's rodeo arena and spectators were under a tent, shielded from the sun. Smith kept up a running conversation of explanations and information for the audience.

German Day at State Fair Will Feature Muenster

For the second time in three years Muenster will be the honored city of Texas at the German Day celebration of the State Fair of Texas. At the 1963 Fair Muenster shared honors with West in celebrating the first annual German Day in Texas.

This year's observance will be very similar to the one two years ago, according to Joe Galloway, a member of the state wide German Day Council organized to create state wide pride and enthusiasm in the event and to honor Texans of German descent.

He said Muenster will again have an exhibit to be built and cared for by local Jaycees. And the city will again be represented by a special delegation including the mayor and Miss Muenster. The party will attend special ceremonies at the Hall of State and will be guests of the fair for luncheon.

A proclamation by Governor John Connally has designated October 17 as German Day in Texas. Festivities at Dallas will open the day before with the opening of an exhibit related to German art in the Highland Park Town Hall and the traditional Pioneer Ball starting at 7:30 in the Dallas Memorial Auditorium. Special events at the fair the following day besides formalities and luncheon will include a soccer game and folk singing and dancing.

German Day commemorates the establishment of the first permanent colony of German settlers on American soil at Germantown, Pa., on October 6, 1683. In Texas it honors especially the accomplishments of the early German pioneers of the state and acclaims the contributions of all Texans of German ancestry. A further purpose is to encourage American-German culture exchange and mutual understanding.

Members of North Texas Producers Association at their annual general meeting in Arlington Wednesday heard a report that their organization had sold over \$54 million in milk and milk products the past year and the income after cost was \$2,343,517.

Other income of the association including dues, service fees, milk hauling, etc., less operating expense, accounts for the organization's net income of \$795,167.

Principal feature of the meeting was an address by Honorable Ben Barnes, speaker of the Texas House of Representatives.

Over 600 persons attended the meeting. From Muenster were Mr. and Mrs. Martin Bayer, Mr. and Mrs. Andy Wimmer, Mr. and Mrs. Tony Wimmer, J. M. Weinzapfel, Larry Yosten, Henry Yosten, Frank Stoffels, Len Haverkamp, Andy Monday and Charles Davidson.

Mrs. Vincent Bozzone and daughter left Saturday for their home in Champagne, Ill. Capt. Bozzone is stationed at Chanute Air Base for his new assignment. Mrs. Bozzone underwent surgery at Muenster Hospital while the family visited here following their return from Okinawa. Seeing Mrs. Bozzone and Linda off by jet from Dallas were her parents, the John Strenge, and her sister Clara.

Mr. and Mrs. Ted Gremming joined by John Lerner, John Lerner Jr. and son Kevin, of Wichita Falls, spent the weekend in Jonesboro, Ark., having a vacation visit with Sister Yvonne Lerner at Holy Angels Convent. They saw all the other Muenster girls there and they sent best regards back home. Sister Yvonne will teach in Blythville, Ark., this year after teaching six years at Lake Arthur, La.

Enterprise Prints Text of Law on Hospital District

In cooperation with temporary directors of the proposed Muenster Hospital District the Enterprise is publishing the recently enacted state law which permits people of the area to vote on creation of the district with a tax to pay the hospital debt and care for indigents.

The law is published here so that all interested persons will have an opportunity to become familiar with its provisions before the election which is scheduled for September.

Because of its length it will appear in two or three parts. It begins this week on page 2.

Jaycees Plan for Over 600 Friday At Fish Fry

Muenster Jaycees are working like beavers this week with the intention of making a super event out of their third annual fish fry Friday night. Their goal is to beat last year's attendance which was estimated at more than 600.

The event is under the general chairmanship of Bernard McNamara and Adam Wolf. Tickets are selling at \$2.00 for adults and \$1.00 for children under 12 for which patrons are invited to come hungry and eat hearty. The tickets are available at White Auto Store and Tommy's Barber Shop and individual JC members.

Top item on the menu is fresh channel catfish and the side dishes include red beans, onion rings, macaroni salad, tossed salad, assorted relishes, tartar sauce, hot rolls, butter and iced tea. Members will prepare and serve under supervision of Emil Rohmer.

Top entertainment feature on the program will be vocal numbers by the Frohsinn Singers of Dallas and the Muenster Choir, including some joint numbers.

General invitations have gone out to all of the Jaycee chapters of North Texas.

Dodgers 5, Braves 10

The big boys of Muenster's Little League played the last game on their schedule Friday night but still have a make up game to play for the one missed on June 18. That one is scheduled for August 6. Teams will be idle this week to avoid conflict with the Jaycee fish fry.

Friday's games broke the two former ties in team standings. Now Dodgers are leading with a 6-1 count, Braves are next with 5-2, then Giants with 2-5 and Yanks with 1-6.

One big inning built on one hit, 5 walks and 2 errors was enough for the Dodgers 5-4 win over the Braves. During the rest of the game only one other Dodger got on base. Braves had 4 hits, 7 walks and 3 errors but they were scattered and netted only 4 runs. Hitters were Carl Endres 2 doubles, Alcuin Schilling a triple and Jim Lawson a single for the Braves; Doyle Hess and Fred Fuhrman each a single for the Dodgers.

In the second game the Giants took an early lead and held it until the fifth when the Yanks tied it at 9-9 with a 4 run rally. Next inning the Yanks added 1 and the Giants added 2. Giants were working on 11 hits, 4 walks and 2 errors; the Yanks on 4 hits, 7 walks and 5 errors. Giant hitters were Ken Walterscheid two triples and a double, Don Schneider a double and two singles, John Felderhoff a homer and a single, Alcuin Schilling, David Fette and Dale Hellman each a double. Yank hitters: Bobby Bruns a double, Glenn Rohmer, John Schneider and Stan Endres each a single.

Mrs. A. J. Endres, Dies of Attack After Surgery

Sudden death early Friday ended the brief illness of Mrs. Arthur Endres, 53. She died in Muenster Memorial Hospital at 3:30 a.m., about 12 hours after an attack which interrupted apparent normal recovery from surgery. She had been ill for several weeks before, entered the hospital Tuesday, underwent the operation early Wednesday, and became critically ill Thursday about mid-afternoon.

Funeral service for Mrs. Endres was held in Sacred Heart Church at 4 o'clock Sunday afternoon. It consisted of a funeral sermon by Father Alcuin Kubis and prayers at the casket, also by Father Alcuin. The customary Requiem Mass was postponed until 8 a.m. Monday.

Burial was in Sacred Heart Cemetery under direction of Nick Miller Funeral Home and Father Alcuin officiated at grave side services. Pallbearers were six nephews, Thomas and Roy Hartman, John Paul and Richard Endres, John Virgil Walter and Chris Kupper.

Rosary services at Miller Funeral Home were held Saturday at 4 p.m. and 8 p.m.

Mrs. Endres, the former Angeline Hartman, was born in Muenster on March 27, 1912, a daughter of Mr. and Mrs. John Hartman. She attended Sacred Heart School, was married to Arthur Endres on April 11, 1939. She was a member of St. Anne's Society, VFW Auxiliary and the Civic League and Garden Club.

Survivors are her husband; two sons, Sammy and Mike of the home; two daughters, Mrs. Howard Mollenkopf of Denton and Mrs. Roger Taylor of Muenster; her mother, Mrs. John Hartman of Muenster; four sisters, Mrs. Al Walter, Mrs. Albert Dangelmayr and Dorothy Hartman of Muenster and Mrs. Ed Mason of Houston; and one granddaughter.

FEDERAL GRANTS

Colleges may lose their federal aid money if one federal official decides a fraternity on the campus is practicing racial discrimination.

The official is Francis Keppel, commissioner of education, a fellow who has distinguished himself by also saying "schools can teach no less more important for all our children than integration..." Under this new dictum, not only could one college lose its grants if one fraternity dis-

criminate. Also, all colleges having chapters of a national fraternity, one of whose chapters discriminates, could lose their federal money.

Mr. Keppel believes this is required by the civil rights act of 1964. The law requires schools to assure the federal government that there is no discrimination in "making available for the use of students any building, room, space, materials, equipment, or property."

Says Mr. Keppel: "This language makes it apparent that an institution which maintains a fraternity system as part of its activities and over-all program is responsible under the civil rights act requirements for assuring that discrimination is not practiced by the fraternities in the system."

Well, fraternities have long been unpopular in many circles for various practices ranging from hazing to snobbery, with an occasional dash of envy thrown in. They make a convenient handle certainly. But that is not an argument we care to go into.

What interests us is the apparent leap into logic by the commission, an apparent disinclination to distinguish between university facilities and property owned by others.

We are fascinated also to see that yes, indeed, federal grants to colleges are not only a carrot but a stick. A stick that does not have much to do with education unless, of course, you believe that "schools can teach no less more important for all our children than integration."

HANDS OFF

Judging by the increasing rate of juvenile delinquency, too many parents are leaving to the schools or the police departments the job of training their children in concepts of right and wrong. Thus parents are delinquent before their children are.

It is now being proposed that courses in ethics or rules of behavior be added to the curriculum of American high schools. That would be a good thing.

But before that, every child at home and in grade schools and high schools should be impressed over and over with one simple rule, namely, "Keep your hands off other people and other people's property."

If this simple rule were followed through life, the record of crime we see in the papers each day would be practically nonexistent.

Next to the parent, the school should drill this rule into the head of every student not just occasionally, but every day when classes open. Examples taken from the daily news could be used to show how following that simple rule would save inestimable suffering and grief for juveniles and families.

THIS IS "WELFARE"?

The farcical poverty program which will waste billions of public tax money, federal aid to education, the medicare bill and many others are nothing more nor less than grandiose vote-getting bills through which the substance of our nation will be squandered on worthless and meaningless programs, the American dollar will be terribly inflated, the American taxpayer will be robbed of what he has rightfully earned, and a large number of professional bureaucrats will have a fat living at taxpayers expense.

Proposed CONSTITUTIONAL AMENDMENT NUMBER TEN ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965.

SENATE JOINT RESOLUTION NO. 47 proposing an Amendment to Section 4, Article III, Constitution of the State of Texas, to provide four-year terms of office for State Representatives.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 4, Article III, Constitution of the State of Texas be amended to read as follows:

"Section 4. The members of the House of Representatives shall be chosen by the qualified electors for the term of four years; but a new House of Representatives shall be chosen after every apportionment, and the members elected after each apportionment shall be divided by lot into two classes. The seats of the members of Class A shall be vacated at the expiration of the first two years, and those of Class B at the expiration of four years, so that one-half of the members of the House of Representatives shall be chosen biennially thereafter. Representatives shall take office following their election, on the day set by law for the convening of the Regular Session of the Legislature, and shall serve thereafter for the full term of years to which elected and until their successors shall have been elected and qualified. Except in case of an election to fill a vacancy, and except in the first election following each re-apportionment, a person who has been elected to the House of Representatives shall not be eligible to be a candidate again for membership in the Legislature until the term for

which he was elected has less than one year remaining."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified voters of the state at an election to be held on the first Tuesday after the first Monday in November, 1965, at which election all ballots shall have printed on them the following:

"FOR the Constitutional Amendment to provide for a four-year term of office for State Representatives."

"AGAINST the Constitutional Amendment to provide for a four-year term of office for State Representatives."

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time required by the constitution and laws of this state.

Sec. 4. In the event the Constitutional Amendment proposed in this Resolution is adopted by the people of Texas in the election in November, 1965, the Governor of Texas is directed not to issue a proclamation for the election and not to publish notice thereof for the Constitutional Amendment proposed by House Joint Resolution No. 1 of the 59th Texas Legislature, since the provisions of said House Joint Resolution No. 1 are included in this Resolution. But, should this proposed Amendment be rejected by the people of Texas in the election in November, 1965, then the terms and provisions of House Joint Resolution No. 1 shall be and remain in full force and effect and shall be proclaimed and published and submitted to the electorate in November, 1966, as provided in said House Joint Resolution No. 1.

IT WAS STARTED BY GUS, NOT KARL

"It was nearly two thousand years ago that the late lamented Augustus Caesar instituted what ultimately led to the downfall of the mighty Roman Empire and is today well on the road to the destruction of the United States.

"Gus had the Political itch just as does LBJ today; Gus was a card no less than LBJ proved to be 2,000 years later. Gus levied taxes that the populace could eat at the expense of the Roman Government.

"Just like today, the people flocked to the big towns to eat of the bounteous bread that good old Gus gave them and to see free circus. There were not enough farmers left to raise the wheat needed to make the free loaves, but Gus, like LBJ, was never perplexed; he sent the Roman Legions to Africa to make the Sahara blossom like a rose with wheat.

"Stay-at-homes waxed fatter and fatter until none were left that could wield the short Roman sword and shield with which Rome had mastered the world, or that known part that was considered worth the effort. It became a snap for a roughneck barbarian like Attilia to move out of the northern forest and put his heel to the neck of Rome...

"Too much credit has been dishd up to Karl Marx for starting the Cancer of Socialism. The credit should be given to ole Augustus Caesar and a meed should be scooped to LBJ.

"Watch your step, America."

Hot Bottle Will Draw Out Splinter

Doctors are willing to learn from non-professionals. There's evidence in a letter to the British Medical Journal from Dr. David Langley, who describes a "simple, safe, and sure" method for removing splinters taught him by "an old Dorsetshire hedger":

"A narrow-necked bottle is filled with hot water, and emptied again when the glass is as hot as possible. The neck of the bottle is then placed over the splinter, and as the bottle cools down a partial vacuum is created, thus drawing the splinter toward the surface of the skin. This procedure may be repeated several times, as necessary. The hotter the water, the larger the capacity of the bottle, and the narrower the neck, the greater will be the negative pressure created."

It's A Small World

When Rosa Driever was jetting back from California after vacation she got into conversation with the passenger beside her and discovered that they have a mutual friend. Mention of Muenster brought out the fact that she and Pearl Evans are old friends.

She is Mrs. Jack (Vera) Kern of Magnolia, Ark. Mr. and Mrs. Kern are long time friends of the Joe Dickerson family. The late Joe Dickerson was Mrs. Ray Evans' brother. The two families still live near each other in Magnolia. Mrs. Kern had been in San Francisco getting acquainted with a new grandchild.

Vacation Features A Number of First Time Experiences

Vacation this year for Rosa Driever featured a number of firsts. It was a vacation that left lasting memories and gave a wealth of experience.

She traveled by air for the first time, saw a new granddaughter for the first time, and visited in the new home of her son and family, the Michael Driever, at San Jose, Calif., for the first time. They lived in Santa Clara where she was there two years ago.

The trip from Dallas to San Francisco was by Astrojet in two hours and 15 minutes cruising at 35,000 feet, 520 miles an hour. Mrs. Ernest Medders took her to Dallas and saw her off. Also waving her off was her uncle, Dr. E. W. Laake of Dallas.

Mike and his wife Cleo and their three young daughters Kimberly, Rosa Roxanne and Angela Amanda met her on arrival at San Francisco Airport and it was the happiest kind of reunion. Eighteen-month-old Angela Amanda and her "Mo-Mo" were seeing each other for the first time.

Every day of the week was fun-filled... driving up into the mountains, out to the beach at Santa Cruz, and dipping into the Pacific. One night there was an outdoor barbecue party at home. Sight-seeing throughout the area included old mission churches. Weather was cool to cold with sleeping under blankets.

Also adding to vacation happiness was Michael's promotion which came that week. His company advanced him to foreman. Mike asked about all his classmates and other friends and sent best regards to all.

On the return trip Rosa was met at Dallas Airport by her aunt, Mrs. E. W. Laake, and before returning to Muenster visited at the Laakes' home which she was seeing for the first time.

Some students drink at the fountain of knowledge. Others just gurgle.

Barley is the world's fourth most important cereal.

A drunk stopped a passerby and asked the time. The passerby looked at his watch and told him. "I can't figure it out," muttered the inebriate. "All day long I get different answers."

Christening of their new grandson took Mr. and Mrs. Norbert Klement to Fort Worth Sunday for the service and Mr. Klement was godfather for James Edwin Marr

Jr., son of Dr. and Mrs. J. E. Marr. Dr. Marr's sister, Mrs. Helen Thompson, was godmother. Mrs. Thompson, who lives with her soldier husband and their children in Germany,

came to Fort Worth some time ago to attend the bedside of her mother, Mrs. W. E. Marr. Miss Shirley Klement accompanied her parents to Fort Worth and remained

there for an extended visit with her sister and family. She was among those at the christening in Holy Name of Jesus Church. Father Darius J. Sullivan officiated.

PUBLIC NOTICE

Proposed CONSTITUTIONAL AMENDMENT NUMBER EIGHT ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965. HOUSE JOINT RESOLUTION NO. 57

proposing an Amendment to Section 1-a of Article V of the Constitution of the State of Texas, by adding to said Section as presently written, the following provisions: requiring automatic retirement of certain District and Appellate Judges at age seventy-five (75) or such earlier age, not under seventy (70), as may be provided by law; creating a State Judicial Qualifications Commission and providing for its composition and the qualifications, methods of selection and terms of office of its members; defining the functions and procedures of said Commission, including the duty to investigate, and hold hearings in respect of, disability and misconduct of District and Appellate Judges and to make recommendations to the Supreme Court of Texas as for involuntary retirement or removal of such Judges; empowering the Supreme Court of Texas, in its discretion, to retire such Judges for disability and to remove them for misconduct, upon recommendation of the aforesaid Commission and consideration of the record made before it; defining misconduct for the proceedings of said Commission shall be confidential until filed in the Supreme Court with recommendation for retirement or removal; and providing that the removal provisions hereby established shall be alternative to and cumulative of those provided elsewhere in the Constitution.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Section 1-a of Article V of the Constitution of the State of Texas be amended so that said Section shall hereafter read as follows:

"Section 1-a. (1) Subject to the further provisions of this Section, the Legislature shall provide for the retirement and compensation of Justices and Judges of the Appellate Courts and District and Criminal District Courts on account of length of service, age and disability, and for their reassignment to active duty where and when needed. The office of every such Justice and Judge shall become vacant when the incumbent reaches the age of seventy-five (75) years or such earlier age, not less than seventy (70) years, as the Legislature may prescribe; but, in the case of an incumbent whose term of office includes the effective date of this Amendment, this provision shall not prevent

ings shall be by majority vote of those present, except that recommendations for retirement or removal of Justices or Judges shall be by affirmative vote of at least five (5) members.

"(6) Any Justice or Judge within the scope of this Section 1-a may, subject to the other provisions hereof, be removed from office for willful or persistent conduct, which is clearly inconsistent with the proper performance of his said duties or casts public discredit upon the judiciary or administration of justice; or any such Justice or Judge may be involuntarily retired for disability seriously interfering with the performance of his duties, which is, or is likely to become, permanent in nature.

"(7) The Commission shall keep itself informed as fully as may be of circumstances relating to misconduct or disability of particular Justices or Judges, receive complaints or reports, formal or informal, from any source in this behalf and make such preliminary investigations as it may determine. Its orders for the attendance or testimony of witnesses or for the production of documents at any hearing or investigation shall be enforceable by contempt proceedings in the District Court.

"(8) The Commission may, after such investigation as it deems necessary, order a hearing to be held before it concerning the removal or retirement of a Justice or Judge, or it may in its discretion request the Supreme Court to appoint an active or retired District Judge or Justice of a Court of Civil Appeals as a Master to hear and take evidence in any such matter, and to report thereon to the Commission. If, after hearing, or after considering the record and report of a Master, the Commission finds good cause therefore, it shall recommend to the Supreme Court the removal or retirement, as the case may be, of the Justice or Judge in question and shall thereupon file with the Clerk of the Supreme Court the entire record before the Commission.

"(9) The Supreme Court shall review the record of the proceedings on the law and facts and in its discretion may, for good cause shown, permit the introduction of additional evidence and shall order removal or retirement, as it finds just and proper, or wholly reject the recommendation. Upon an order for involuntary retirement for disability or an order for removal, the office in question shall become vacant. The rights of an incumbent so retired to retirement benefits shall be the same as if his retirement had been voluntary.

"(10) All papers filed with and proceedings before the Commission or a Master shall be confidential, and the filing of papers with, and the giv-

ing of testimony before, the Commission, Master or the Supreme Court shall be privileged; provided that upon being filed in the Supreme Court the record loses its confidential character.

"(11) The Supreme Court shall by rule provide for the procedure before the Commission, Masters and the Supreme Court. Such rule shall afford to any judge against whom a proceeding is instituted to cause his retirement due process of law for the procedure before the Commission, Masters and the Supreme Court in the same manner that any person whose property rights are in jeopardy in an adjudicatory proceeding is entitled to due process of law, regardless of whether or not the interest of the judge in remaining in active status is considered to be a right or a privilege. Due process shall include the right to notice, counsel, hearing, confrontation of his accusers, and all such other incidents of due process as are ordinarily available in proceedings whether or not misfeasance is charged, upon proof of which a penalty may be imposed.

"(12) No Justice or Judge shall sit as a member of the Commission or Supreme Court in any proceeding involving his own retirement or removal.

"(13) This Section 1-a is alternative to, and cumulative of, the methods of removal of Justices and Judges provided elsewhere in this Constitution."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State at an election to be held on the first Tuesday after the first Monday in November, 1965, at which election all ballots shall have printed thereon the following:

Recreation In The Redwoods

California redwood groves are at once impressive and foreboding. Where the more magnificent stands of the California Coast Redwood (*Sequoia sempervirens*) have been set aside as state parks, the adjacent open glades among the young growth redwoods are favored by family groups for a Sunday's outing, as in the picture above. Closer to San Francisco Bay, where logging was intense during the Gold Rush Days, there are many fine groves of young growth redwood, now culminating a century of growth.

Nearly everyone who makes a visit to San Francisco asks, "Where can I see the redwood trees?" The finest groves are two hundred miles to the North, along the Redwood Highway. Most

of these superlative groves are preserved in state redwood parks.

But while San Francisco has been growing outside its confined peninsular position, there has been another growth, silent and almost unnoticed. This is the return of the redwoods.

While the redwoods in the bay area never equalled the grandeur and sweep of the great forests to the north, nevertheless logging was a major industry in the hills ringing San Francisco Bay from the time of the Gold Rush until the 1880's. There were many fires among the clapboard shacks and buildings of the 49ers and the demand for lumber was great. But the Calif-

**8000 Persons Died
In U.S. Last Year
In Farm Accidents**

Whether you live on a farm or not, National Farm Safety Week, July 25-31, should serve as a reminder to you to promote safety in your home community and on the highways.

Accidents in the home and on the farm take a terrific toll each year, says the Texas Farm and Ranch Safety Council and most could be prevented. They cite a breakdown of the latest figures as evidence of the terrible toll. Last year, nationally, over 8,000 farm residents died from accidents and nearly 800,000 were injured. The cost of these accidents has been placed at \$1.5 billion.

President Johnson in proclaiming the special week said, "This tragic and needless waste

of human and economic resources is detrimental to the well-being of the Nation. I therefore view farm safety as a matter of vital concern.

"I urge all farm families, and all people and organizations allied with agriculture, to engage in a united effort to reduce accidents at work, in homes, at recreation, and on our Nation's highways and road."

Co-sponsors of the 22nd annual National Farm Safety Week are the National Safety Council and the U.S. Department of Agriculture. Special emphasis is being given this year to preventing accidents involving slow-moving vehicles, chemicals, electricity and in recreation.

Accidents can be prevented believes the Texas Council. It emphasizes that no benefits occur from accidents, but that all benefit when good accident prevention programs are established to attack the problem.

Non-farm individuals and related organizations are encouraged, by the Council, to participate in this special emphasis week promotion for the prevention of accidents everywhere. Adopt safety practices in your work, recreation and everyday living and encourage others to do the same, advises the Council.

Grand Old Opera Visited on Trip

Vacation for Mr. and Mrs. Gene Pelzel and Michelle was a trip to Nashville, Tenn., to attend the Grand Old Opera. They saw two performances and heard two western stars including Loretta Lynn, Porter Wagner, Hank Snow, the Wilburn Brothers, Hank Williams Jr. and Norma Jean. The opera is still held in the original building where it began in 1925. They also visited the state capitol.

On the return trip they went sight-seeing through Alabama, Mississippi and Arkansas, noticed that cotton and rice fields looked good.

During the five days they were away little Matt Pelzel stayed with his aunt and family the George Schmidkofers.

Confetti - - -

The drive was resumed in January and progressed slowly as it became apparent that little help was coming from some who had been expected to give substantially. Their refusal hurt the drive in two ways. When they declined others who were willing became discouraged and resentful, saying "Why should I sacrifice when people who are much more able will not help?"

Another difficulty at the time was the campaign to establish a county hospital supported by a county wide tax. It presented a possibility that Muenster people would have to pay tax to a county hospital while donating to their own. Some mentioned that as their reason for not giving.

The election failed by a small margin, so small that the clash with our project can be regarded as the deciding factor. People who escaped the expected tax had reason to be grateful to the Muenster hospital. But the outcome did little to improve the local campaign. Contributions of appreciation for tax savings failed to come in.

More on the subject will appear in this column next week and the weeks thereafter.

Pollution of Air And Water Costs 7 Billion a Year

Take a serious look at our country and you'll see some of the greatest achievements in the world's history.

Take a second look and you'll see our trash — our garbage and debris — pouring into our air... into our water.

No matter, you may think, we have plenty of air and plenty of water to carry this waste away. But this is not true. Our needs for good water and good air continue to grow while our supply of water and air remain the same, and we spoil much of what we have by dumping wastes into them.

Every person needs water to live. The basic water needs of each person — drinking, washing and such — average about 20 gallons per day. Today, however, the average American uses about 150 gallons a day. We soak our lawns, wash the car, fill our swimming pools and bathe as often as we wish.

Industry and agriculture have an even greater thirst for water. For example, production of one ton of synthetic rubber requires 600,000 gallons of water.

Every person requires air, minute by minute, in order to live. And, we take air as it is, not knowing what debris or chemicals are in it. It's a pleasure to breathe on a brisk day with breezes blowing and a clear, blue sky overhead. But we've coined a word — we call it smog — for overcast days when the supply of air and wastes hangs heavily about us.

Pollution of our air is a hazard to our health; it affects the development of chronic diseases such as chronic bronchitis, emphysema and asthma — to name a few. Further, air pollution costs us — as a nation — an estimated seven and a half billion dollars, or \$325 per family by annually ruining the paint on our houses and cars, soiling our clothes, corroding our buildings, ruining our crops and making our cattle sick.

The pollution of our air and water is something we can no longer afford. Your State Health Department has air and water quality surveys and other programs across the State.

But you as an individual have an important part to play. Support pollution control programs in your community, and think twice before you dump trash into your air or water.
