VOLUME XXIX

MUENSTER, COOKE COUNTY, TEXAS 76252 AUGUST 13, 1965

NUMBER 38

During the past two weeks this column has presented a brief summary of developments and a general idea of community attitudes since the local hospital project started back in 1958. It has refrained from going too much into detail about the sums involved in the fund campaign or in actual construction because it is waiting for a certified account, which is being prepared, of the hospital's recently finished audit. Obviously this writer feels no urge to dig through the records in order to prepare a financial statement when a much better statement is being prepared by experts.

In the meantime there are plenty of other relevant subjects which can be considered. First of all let's take the frequently voiced objection that the hospital was overbuilt, that the proposed district and a tax would not be necessary if the project had been confined to the community's size. The first answer to that contention is that the whole issue at this time is still a matter of opinion. Time will have to determine that. However there are a number of factors which can be listed as justification for planning the project as it is.

One of them is a basic fact of hospital structure as pointed out by the architect and the state health department. Central facilities account for most of the cost of a hospital. It is poor economy to invest that much unless space is provided for enough patients to make better use of the facilities. That's why our hospital is rated for 30 patients and can accommodate as many as 44.

As regards the central facilities it is possible that specifications could have been trimmed in various ways. But again planning was influenced by people who know modern standards of hospital excellence. The aim was to make it as good as possible, thereby assuring that adequate care would be available to patients. That has been done and the hospital has a very good rating, a source of both comfort and pride to the community.

A few features that have been mentioned as unnecessary expenses are the chapel, the administrator's quarters and the cystoscopy room. The first is a matter of measuring spiritual value in terms of money. Possibly it can be regarded as desirable but not essential. Some think it's well worth its cost, others do not, and that's about all that can be said of it. Next one, the sisters' home is not open to question. Its cost was a bargain — not only because it was essential to secure the sisters' services but especially because it enables them to stay near the job. Several emergencies have already proved the advantage of that arrangement.

And cystoscopy facilities, which required alterations and additions when the building was nearing completion, are also proving their value. The installation is well justified by the number of patients using it.

It is quite natural for a person considering the over all cost to say that it's a lot of money and surely some of it could have been saved. At the time, however, such a person can rest assured that many economies have been applied. High costs are offset by savings. The final result is a beautiful and functional hospital at a reasonable price. It is built and equipped to give us wonderful care. It is an outstanding community asset, a real bargain in relation to the services and savings it makes possible.

The obvious reasoning behind the complaints is that a smaller project could have been built with available funds and the debt was not necessary. Except, of course, that a smaller project would hardly have been adequate and certainly could not offer the standard of service that this one does. Furthermore a debt in this case is as reasonable as any other public debt. It's the method whereby people enjoy the use of many things while paying for them. For instance schools, churches, roads, sewer plants, etc. It's likewise the method of many individuals who use while paying for farms, stores, tractors, cars, appliances, etc. For the same reason it's good business for our community to assume a debt in order to have a hospital.

It has been said that ours (Continued on page 4)

Readiness Test For Beginners at SH Set Aug. 18

On Wednesday, August 18, the Metropolitan Readiness test will be administered to all children who plan to enter the first year primary classes at Sacred Heart School.

Parents are asked to have their children at the elementary building at 8:30 Wednesday morning. If all children are on time, the test can be begun promptly. Children will be dismissed around 11:00 o'clock.

A new feature of the Ungraded Primary Program will be introduced this fall semester. Instead of the former analogous grouping that has been a significant factor of the ungraded program, the teachers are introducing parallel analogous grouping. Grouping will still prevail, but each of the two first year primary rooms will have children of each level.

Sister Genevieve and Sister Henrietta are introducing this new feature in order to keep abreast with the latest teaching trends.

A reminder to parents: Health records are to be presented on Wednesday morning, August 18, when children report for the test.

Muenster Hornets Set Season First Workout Monday

If enthusiasm spells success Muenster High Hornets can look forward to a good season in football.

Coach James Polk said this week his boys are excited and enthused. Indications at this time point to a squad of between 25 and 35.

Practice will begin next Monday, August 16, at 7 p.m. and will be held each night at that time until classes start. The first week will be devoted to condition exercises and no pads will be issued. After school starts one-a-day workouts will be held during sports period.

First date on the schedule is open and Coach Polk expects to have it filled in time to release the season's list of games for publication next week.

The team has five lettermen holdovers. Seven were lost to this season when one defensive and six offensive members of the squad graduated. But there are reserves who have experience and added weight. And with the enthusiasm displayed Coach Polk and his squad have prospects for a fine team and a good season.

The store has been doing business since the second week of July but the grand opening was postponed until the place was completely stocked.

The new building is the second unit in a 25-acre site now under development in the northeast part of Lindsay. The site is identified as Park View Acres. The Superette adjoins the Cut Rate Bottle Shop which had its formal opening last November.

Like the first building, which it adjoins, the new structure is modern and good looking. It is made of Acme baked tile with a generous amount of plate glass.

L. V. Henry Resigns Position as Cooke County Attorney

L. V. Henry has resigned as Cooke County attorney.

He submitted his resignation during a special meeting of the Commissioners Court on August 4. The court was in a budget session when he tendered his resignation. He plans to resume private practice in Gainesville.

His decision to leave the office was prompted by a number of factors, he said. They include the heavy work load of the office, being on call 24 hours a day for seven days a week and the additional burdens to be imposed by the new Code of Criminal Procedure effective next January 1.

Henry has served ten consecutive years as county attorney. He was elected the first time in 1954.

New Man Joins TP&L Area Staff

Victory has his headquarters in the Sherman office. His duties are fourfold: to consult with farmers on the use of electricity on the farm, to help the area increase its production through progress in agricultural development, to assist with community development projects, and to conduct demonstrations and lectures to assist county agents and agriculture teachers in their youth work.

County Tax Rate Cut 4 Cents; New Rate is 80 Cents

Good news for Cooke County property owners is the announcement that the county tax rate has been cut.

The Commissioners Court in its meeting Monday sliced four cents off the county tax rate.

The current rate is 84 cents per one hundred dollars valuation, based on 25 per cent of the property's current market value.

The new rate will be 80 cents, effective on 1965 property renditions.

County Judge William Carroll explained that the tax reduction is due principally to hikes in oil and land valuations. Oil valuations are up \$2 million over 1964 figures and land is up a half million dollars.

Cooke County's tax rate remained at 74 cents for a number of years until it was raised in the mid-1950s to 84 cents. The ten cent hike was voted to purchase highway right-of-way throughout the county.

With the new tax rate there are only five counties in Texas that have lower rates than Cooke. Comparable 1964 tax rates in surrounding counties show Montague with 95 cents; Denton, \$1.04; Grayson, \$1.05; and Wise, \$1.10.

Sound financial condition of Cooke County is indicated in that despite the tax cut a ten per cent salary increase for all elective office holders was ordered by the Court. The pay hikes will be effective January 1, 1966, at start of the new fiscal year.

Rain 1.17 Inch

Rain last Friday night gave Muenster and vicinity 1.07 inch of moisture and a shower Saturday night dropped .10 of an inch more... every drop welcome but far from enough for current needs.

It helped silage and pastures that were drying up and permitted farmers to start back to fields that had been too hard to plow.

Only .18 of an inch was recorded in July on the city's gauge Total for the year now stands at 20.70.

ANY VOLUNTEERS?
 Frankly, we don't expect to see any great rush of volunteers in response to efforts of pro-Communist agitators to recruit an American brigade to join the enemy Communist Viet Cong in Viet Nam. A few, perhaps, may travel there to do fanatics and ammunition bandoliers and pose for propaganda pictures. But, by and large, the participation in "teach-ins" and "peace rallies" who clamor so loudly for US withdrawal from Viet Nam simply don't strike us as the type prepared to demonstrate their purported convictions in a manner which would require any real sacrifice or danger to themselves.
 Sit-ins, lie-ins and picketing are, after all, quite safe activities; the political powers-that-be can be counted on to order the police and possibly even the US Army to run interference for you. And should those same forces be directed to carefully remove you, you can always make a fuss, kick and bite and scream "political brutality."
 But, actually to risk one's life for his cause —? Well, that's asking a bit too much of the general run of campus capers and professional demonstrators. Witness the report recently that 10,000 participants at a University of California teach-in gave a standing ovation to a speaker who called upon "young American men and women to go and actively join" the Viet Cong in combat against American and Vietnamese troops.
 We haven't heard of any of that 10,000 actually doing that which they so lustily applauded. Even so, Communist recruitment is not something to be taken lightly. Precisely because of their moral degeneracy and physical cowardice, these types are ideally suited to another Communist purpose — terrorist bombing and sabotage. These are now commonplace events in South Viet Nam, and altogether too common here at home. Our newspapers testify to that. And official police reports document that, at an encampment in Michigan last May, an organization called "Students for a Democratic Society" gave training in the making of "Molotov Cocktails and other small explosives."
 It's high time that the administration puts a stop to this recruitment and training program. Student pranks and steam-letting are one thing. But Molotov Cocktails are a bit too heady.
 It's a fact that people like hard work... Success is not so much measured by one's position in life but by the obstacles overcome in reaching that position. There are plenty of rules for attaining success, but none of them work unless you do.

In Our Time
 AMERICANS USE ABOUT 65 BILLION GALLONS OF GASOLINE A YEAR, TO MEET THIS CONSTANTLY GROWING DEMAND, OIL SCIENTISTS HAVE LEARNED TO "SQUEEZE" MORE AND MORE GASOLINE FROM CRUDE OIL.
 FOR EXAMPLE, IN 1920 WHEN A BARREL OF OIL WENT INTO A REFINERY, ONLY 26 PERCENT OF IT CAME OUT AS GASOLINE.
 TODAY THE AVERAGE GASOLINE YIELD IS UP TO NEARLY 45 PERCENT, WITH ONE MODERN REFINERY REPORTING A YIELD OF 90 PERCENT.
 WITHOUT THESE TECHNOLOGICAL ADVANCES, THE NATION WOULD NEED 2.5 BILLION MORE BARRELS OF OIL PER YEAR TO MEET TODAY'S DEMAND FOR GASOLINE.

THE REFORMS OF THE SIXTIES
 A recent issue of one of the most widely read slick magazines in the country features an article by Senator Frank Church of Idaho, who alleges that the Radical Left has collapsed as a political force in the United States and that the danger is the Radical Right. The Senator tells us about "... the decline of the Communist Party in the U.S. Back in 1932, it ran candidates in 39 states and garnered a total of 102,991 votes. In those desperate Depression Days, the Communists were at work in labor unions and on college campuses. But the reforms of the thirties, the resurgence of free enterprise and its spreading abundance, robbed the 'class struggle' of its credibility..."
 That short quote gives the flavor of the Senator's remarks. Now let's look at the record.
 The Communist Party had 12,000 members in 1932. When Roosevelt recognized Russia in 1933 the membership rose to 16,000. A year later, it was 24,000. After four years of the "New Deal," Communist Party membership was 40,000 in 1936. By 1938 the "reforms of the thirties" had upped the membership in the Communist Party to 75,000.
 Only when Stalin and Hitler signed their pact did membership fall in 1939, but, during the American-Soviet alliance in World War II, membership began to climb again and rose to almost 80,000. The beginning of the "cold war" in 1947 brought membership back down to 59,000. It brought, too, a change in Soviet technique. Moscow doesn't press for party membership these days. The emphasis is on giving guidance and leadership and money to "peace" fronts, youth organizations and racial agitation fronts. Moscow presently finds these organizations more useful than an expanded membership. Also, de-emphasis on recruitment of members, as such, makes it more difficult for the FBI to place additional undercover agents inside the Communist Party itself.
 The record shows that when the US and the USSR are "friends," the membership in the party grows. This is because the Communist Party, USA, has no independent existence. It is a creature of the Soviet Union and its life and fortunes ride with those of the Soviet Union. As the Administration proceeds with its "Great Society" and further expansion of "the reforms of the Thirties," we will see membership begin to rise again. And the rise of the front organizations will keep pace, for the cadre technique has been too successful for Moscow to abandon it.

Youthful Drivers Involved in 29% Of Highway Deaths
 Youthful drivers, those under 25 years of age, represent about 15% of all licensed drivers in the country. Yet, they were involved in more than 29% of all non-fatal mishaps in 1964.
 The figures are contained in a report by The Travelers Insurance Companies compiled from a country-wide survey of state motor vehicles departments. The report has been published since 1931 and more than 4,000,000 copies are distributed.
 Older drivers, those over 65, were involved in 7.7% of the

fatal crashes, and represent about 7% of the driving population.
 A Travelers spokesman noted that excessive speed was the number one killer in 1964, as it has been for the past several years. He said that "the young driver's desire for speed, coupled with a lack of maturity, makes this category the most dangerous on the road." He pointed out that 'highway lunatics' can be found in any age group, but the fact remains that the greatest percentage of them are under 25 years of age.
 The over-all 1964 highway death toll stands at 48,000, with 3,840,000 persons injured.
 The Travelers survey covers a great number of factors, but as yet no one has been able to prove statistically that the woman driver is more dangerous than the male. Such things as the number of miles driven by the female or the male are not contained in motor vehicle department reports.
 Until this factor is decided, the woman can hold her head high, even though her driving ability is criticized by countless male drivers.

Steam is water gone crazy with the heat.

New Color Movie Of Texas Titled Land of Contrasts
 A Texas movie entitled "TEXAS — Land of Contrast" soon will be available for showing before civic groups throughout Texas and the nation.
 It is a professional job produced entirely with-in the Texas Highway Department, except for the guest commentator. Its estimated value is \$70,000. But the department self-produced it for \$9,300.
 More than 100 copies of the color film now are being made by the Department.
 In discussing the film Herb Petry, chairman of the Highway Commission, said "This is Texas as it really is — a Fun-tier State — offering recreational attractions to suit every taste. It features our forests, mountains, plains, seashore, caverns, lakes and many cultural attractions."
 Said Tom Taylor, director of the Travel and Information Division, "Texas is so large that to depict its many wondrous attractions in a single 30-minute film is virtually impossible. This, therefore, is the first of a series designed to make Texas better known to both residents and outsiders as a recreational center."
 A Blue Cross newsletter says that recent medical advances have reduced the mortality rate from infectious diseases to such a low level that persons between ages one and 35 must now be more concerned about fatal mishaps than about disease. At these ages, the leading cause of death is accidents.

Frequent Checkups Recommended for Nearsightedness

The nearsighted or myopic eye is usually longer than the average normal eyeball. Rays of light from a distant object focus in front of the retina, or seeing coat inside the eye, instead of on it. Vision for near objects is clear but distant objects are blurred.

There is no cure for nearsightedness. Glasses usually will correct the problem and permit relatively normal vision.

Even in healthy children, nearsightedness usually increase during the most active growing period because the eyes also grow larger. After full growth is attained there

is usually no further reduction in vision for distance.

Today's Health, the magazine of the American Medical Association, says that activities that are good for the normally sighted child are good for the healthy myopic child — plenty of fresh air, routine play and exercise to the point of normal fatigue, working in well-lighted rooms and eating a sound diet.

Some cases of myopia are seriously progressive and may be associated with disease. Fortunately, seriously progressive nearsightedness is rare in the United States.

Myopia is corrected with concave lenses. These glasses are thin in the center and thick at the edges, causing the rays of light which focus in front of the retina to div-

erge and strike the retina, thus making the image clear. In middle or old age nearsightedness may improve slightly because the eye usually becomes a little more farsighted. Rarely does this change make a nearsighted eye normal.

A frequent change of prescription for glasses usually is necessary for nearsighted persons until about the age of 25. It is important for nearsighted individuals to have annual eye examinations.

"Something wrong?" asked a clerk.

"Nope," said the lad, "just waiting for my chewing gum to come back."

Joyce Hacker and James Strittmatter Say Vows at Mass

Miss Joyce Hacker became the bride of James Strittmatter in nuptial services in Sacred Heart Church at 4 p.m. Saturday with Father Alcuin Kubis performing the double ring ceremony and celebrated the wedding Mass.

Parents of the couple are Mr. and Mrs. John Hacker of Muenster and Mr. and Mrs. Joe Strittmatter of Pilot Point. Anthony Luke was organist and the men's choir sang the Mass responses. Mrs. Norbert Walterscheid, aunt of the bride, was vocal soloist before the service and again afterward when the bride placed the traditional bouquet on the Blessed Virgin's altar.

For her wedding Joyce wore a formal gown of white peau de soie with appliques of Alencon lace embroidered with seed pearls and sequins. Lace also bordered the full skirt which flowed from a slim waistline into an aisle-wide train. The sleeves were long and tapered. A tiara of pearls held her elbow-length veil and her flowers were a yellow-throated white orchid and feathered carnations arranged atop her prayer book. She carried a crystal and silver rosary, a gift from the bridegroom. Her father escorted her up the aisle and presented her for marriage.

Attendants

Bride's attendants were Miss Eloise Strittmatter of Pilot Point, sister of the bridegroom, maid of honor, another sister Miss Janie Strittmatter of Pilot Point, and the bride's sister Miss Shirley Hacker, bridesmaids. They wore identical street-length dresses of Nile green silk organza with matching veiled halo hats and carried baskets of daisies.

Maurus Hacker, brides brother, was best man. Harold Strittmatter, brother of the bridegroom, and Ernest Walterscheid, cousin of the bride, were groomsmen. Thomas Duesman of Pilot Point and Alvin Hacker, cousin of the bride, ushered. Candle lighters and acolytes were J. D. and Johnny Luttmer, Donald Stoffels, Mike Felderhoff and Stephen Walterscheid. White gladioli adorned the altar.

Reception and Buffet

Wedding reception and buffet were held in the Parish Hall, attended by over 300 relatives and friends. Presiding at the guest book were Misses Maurine Evans and Barbara Pelzel of Pilot Point. Wedding dance was in the VFW Hall.

For her daughter's wedding Mrs. Hacker wore a pink brocaded dress with pink and white accessories. Mrs. Strittmatter, mother of the bridegroom, wore a blue shantung dress topped with a full length blue lace jacket. Both had white Carnation corsages.

Live in Denton

After their wedding trip the couple will live in Denton. For traveling she wore a pink suit and white accessories.

The bride is a graduate of Sacred Heart High School, attended the University of Dallas and was graduated from St. Paul School of Radiologic Technology in Dallas. She is on the staff at Flow Hospital in Denton. Mr. Strittmatter is a graduate of Pilot Point Gee High and is employed in Denton.

Out of town wedding guests included the bridegroom's grandparents, Mr. and Mrs. Herman Strittmatter and Mr. and Mrs. Henry Henzler of Pilot Point, others from Pilot Point and from Dallas, Denton, Fort Worth, Gainesville, Valley View and Lindsay.

The Herman Zimmerer family had a final get-together Thursday evening before their three nun daughters and his nun sister left, after a visit. They were among guests at the Zimmerers' golden wedding the previous Sunday. Leaving Thursday night were Sisters Mary Rose, Herman Mary and Barbara James and Sister Mary Fortunata. The whole family saw them off by train from Gainesville.

Mrs. Joe Bengfort has the cast off her left arm now. She sustained a break just above the wrist in a fall at her home.

Mrs. Ray Lewis and children Michael, Gigi, Rose Mary, Ann and Cecilia of Dallas drove over Aug. 3 bringing Sister Henry Ann with them. She spent Tuesday overnight with her sister and family in Dallas after arriving from San Antonio and was enroute to Oklahoma City. They went to Muenster to visit their father and grandfather, Mike Fuhrmann, at Golden Years Rest Home. Mrs. Albert Klemment joined them there for visiting. They had lunch with their brother and family, the Henry Fuhrmanns and talked to other Muenster relatives by phone. Sister Henry Ann left in the afternoon for Oklahoma City where she will be in the nursing department of St. Joseph's Children's Home.

Sister Michael Marie Fuhrmann will teach in San Antonio this year at St. Henry's Convent. She taught in Laredo last year.

Mr. and Mrs. Norbert Mages and daughters Lisa and Melinda enjoyed the musical Camelot at Casa Manana in Fort Worth Saturday.

Pvt. Billy Owen, on leave after finishing basic at Fort Polk, La., visited with his parents, the Clarence Owens at Fort Worth and his sister Mrs. Ray Laux and family here. About the first thing Billy did was get his band together to play at the Gainesville VFW Club. He saw lots of his old friends there. His next assignment will be in Alabama.

Miss Mary Ann Hermes, daughter of Mr. and Mrs. Julius Hermes Sr., was graduated Friday evening from St. Joseph's School of Vocational Nursing in Fort Worth. Attending her graduation were her parents, and Mr. and Mrs. William Hermes, Mr. and Mrs. Julius Hermes Jr., Mrs. Richard Hermes, Mr. and Mrs. Walter Hermes, Mr. and Mrs. Billy Zimmerer, Pat Hermes and Margie Hess.

Lindsay's Gold Bond committee will have a meeting Monday, Aug. 16, at the home of Mrs. Ray Laux, 2 p.m.

4-H Clubbers at Electric Program

A group of Lindsay 4-H clubbers attended the county 4-H Electric Day program Thursday. They toured the power generating plant and business office, and saw films which were interesting, especially one on mouth to mouth resuscitation.

The children took their lunches and as they toured the TP&L building on Rusk St. they were served finger foods including "Chinese Surprises." During recreation period the group sang and danced. The program began at 9:30 a.m. and concluded at 3:30 p.m. at Cooke County Junior College.

Native of Ireland Is Guest of Kuhns While Seeing USA

Mr. and Mrs. Jake Kuhn and family had as their guest recently, Miss Maire Keating of Dublin, Ireland, who was seeing this part of Texas for the first time.

It was Miss Keating's first visit to the United States. It started when she arrived by plane in July in New York. Then she went to Washington, D.C. where she visited Monsignor A. W. Behrens, representative of the National Catholic Education Association, and other friends. Monsignor Behrens had arranged for Miss Keating's trip to the United States as a part of the association's educational plan. He is a cousin of Mrs. Kuhn and assisted Miss Keating in arranging her itinerary to include Cooke County.

Traveling by bus, Miss Keating came through several southern states making stops including one at Gulfport, Miss., and from there on to New Orleans, La., for a sight-seeing stay. She came to Cooke County from that city and left by chartered bus from Dallas. She had a stop scheduled at El Paso and plans to visit in border cities in Mexico.

Her itinerary will take her to California to see the major cities and back to midwestern states, including Monsignor Behrens' native Iowa. Several days will be spent in Chicago, Ill., and Miss Keating also hopes to have time to visit relatives in Philadelphia, Pa., and Boston, Mass. Before leaving the United States in September, she will be joined by a group of friends to spend several days in New York City.

Miss Keating took a leave of absence from her work as a pharmacist's assistant to make this trip. She is accustomed to traveling as she had served as courier for Irish groups on the European continent.

During her stay the Kuhns took her to see National Supply Co., Cooke County Junior College, Colonial Acres Farm ranching interests in Muenster, and she gained first hand knowledge of farm life by being a guest of the Kuhn family.

One day Mr. and Mrs. Jake Kuhn and daughter Alta Louise and Mr. and Mrs. Willard Kuhn and daughter Paula spent the day in Muenster with the Urban Rohmer family. Sight-seeing included the church, oil fields, and Colonial Acres Farm.

The Irish visitor, who has lovely red hair and a pleasing personality, speaks well of the hospitality extended her during her stay in Cooke County. She stated that her experiences thus far have taught her many things about American people, all gracious to her and she will return to her native country with a deep feeling of friendship for America.

4 Bezner Sisters Visit at Lindsay

Four daughters of Mr. and Mrs. Jake Bezner were on vacation at the same time with their parents. They ended their visit Monday.

Sisters Anna Rose, Ramona and Kathleen came from San Antonio for eight days. Miss Viola Bezner came from Salt Lake City, Utah. She had two weeks at home. While they were together the family united several times for dinners and gatherings and they also visited in Subiaco, Ark.

When the nuns left they reported to their assignments for the school term. Sister Anna Rose went back to Tulsa, Okla., where she was last year serving as superior and principal of Holy Family School. Sister Ramona reported to San Antonio where she will be superior and principal of St. Mary's Elementary School, and Sister Kathleen went back to Ennis where she is principal at St. John High School. Viola reported back to Valley Hospital in Salt Lake City where she is nurse anesthetist.

Confetti . . .

is a poor community, apparently by way of reminding us that we cannot afford a hospital. That opinion is definitely subject to question. It's true that many of us have debts, and by the law of averages some will never finish paying. However that statement does not reveal the actual condition. People with debts are not necessarily broke. Most of them have far more assets than liabilities. Their net worth is still substantial. Besides, there are some with no debts at all and assets running into big figures. Our overall net worth is plenty to afford a hospital.

Another indication of financial stability is the local bank deposits — over \$3 million at the last report. Likewise the amount of money in local circulation. The total of checks cleared at the local bank in June was \$3.5 million — more than 10 times the amount of our hospital debt.

Few of us can be convinced that Muenster has a shortage of wealth, but even if it were true it would not change our attitude to the hospital. The point is that we can't afford

NOT to have a hospital. The money most of us can save because of it amounts to more than we will pay on its debt. We save time and mileage when we see patients here rather than drive to a distant city. We save when we see a doctor here because the hospi-

tal is responsible for his being here. And there's some value too in having a hospital near when we need it. Time makes a big difference when a person is hurting. In a few local cases time has been critical, possibly even the difference between life and death.

HOMEWORK IS A LIGHT SUBJECT!

Adequate, properly positioned lighting can make school homework easier and more effective... a big step toward better grades for almost any student.

Check the room or rooms used for study in your home for these common lighting faults:

GLARE—irritating, direct light from unshaded bulbs or improperly placed lighting sources.

CONTRAST—too great difference between light and dark areas in the room.

SHADOWS—cast from poorly placed lamps and fixtures.

NOT ENOUGH LIGHT—because of too few lamps... because the bulbs are too small... because room colors are too dark.

Dealers or TP&L Home Service Advisors will be glad to counsel with you on good study lighting.

Bossy Ain't What She Used to Be

COLLEGE STATION, —Old Bossy ain't what she used to be. She's been souped up to a bovine version of the hot rod! Records of Texas Dairy Herd Improvement Association document the change, says A. M. Meekma, Extension dairy specialist, Texas A&M University.

Back in the "dark ages" of 1948, the average cow on DHIA test in Texas produced only 5,547 pounds of milk. Today she produces 10,195 pounds of milk. And the milk she produces may appeal to customers more too, for the butterfat content has been lowered from 4.7 percent to 3.7 percent.

Best of all, from the producer's standpoint, returns per cow over feed cost have gone up from \$199 in 1948 to \$260 in 1964. One of the biggest reasons for this says Meekma, is that today's feeding techniques have improved so much. Of course, other production costs must be met by this income, and these costs have risen considerably since 1948.

It used to be that dairymen thought they were doing a good job when they fed cows an average of 2,000 pounds of silage, 2,500 pounds of hay, and 3,000 pounds of grain. But contrast this to the 1964 ration that averaged per cow: 5,400 pounds of silage, 4,000 pounds of hay, and a whopping 4,700 pounds of grain!

The average herd size has increased 39 cows over the 16-year period — from an average of 37 cows per herd in 1948 to an average of 76 cows per herd in 1964. Currently there are 26 DHIA organizations representing a total of 342 herds, reporting across the Lone Star state.

Fluoridation of Public Water Approved by AMA

Is fluoridation of public water supplies an effective method of reducing tooth decay.

Yes, says an official policy statement of the American Medical Association.

Is introduction of fluorine into public water supplies safe?

Again, the AMA says yes.

The position of the medical organization with regard to fluoridation is set down in a new pamphlet published by the AMA.

The association first endorsed the principal of fluoridation of community water supplies in 1951, and further reaffirmed this position in 1957.

The AMA's Council on Foods and Nutrition and the Council on Drugs in a joint statement declared:

"Fluoridation of public water supplies so as to provide the approximate equivalent of 1 part per million of fluorine in drinking water has been established as a method for reducing dental caries in children up to 10 years of age. In localities with warm climates, or where for other reasons the ingestion of water or other sources of considerable fluoride content is high, a lower concentration of fluoride is advisable. On the basis of available evidence, it appears that this method decreases the incidence of caries during childhood. Other evidence indicates as well a reduction in the rate of dental caries up

to at least 44 years of age.

"No evidence has been found to prove that continuous ingestion of water containing the equivalent of approximately 1 part per million of fluorine for long periods by large segments of the population is harmful to the general health. Mottling of the tooth enamel associated with the level of fluoridation is minimal. The importance of this mottling is outweighed by the caries-inhibiting effect of the fluoride.

"Fluoridation of public water supplies should be regarded as a prophylactic measure for reducing tooth decay at the community level and is applicable where the water supply contains less than the equivalent of 7 part per million of fluorine."

This statement was adopted by the House of Delegates of the AMA as official policy of the medical organization.

It costs about \$3,000 a year to send a daughter to a top-flight women's college, such as Radcliffe, but that the Federal Government plans to spend \$7,920 a year on each girl at the new job-corps centers of the anti-poverty program. In addition, each girl will receive an allowance of \$105 per month and travel expense will be \$75 to \$100 for each "student".

It is obvious, on this basis that Uncle had better solve the poverty problem.

Proposed CONSTITUTIONAL AMENDMENT NUMBER EIGHT ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965. HOUSE JOINT RESOLUTION NO. 57 proposing an Amendment to Section 1-a of Article V of the Constitution of the State of Texas, by adding to said Section as presently written, the following provisions: requiring automatic retirement of certain District and Appellate Judges at age seventy-five (75) or such earlier age, not under seventy (70), as may be provided by law; creating a State Judicial Qualifications Commission and providing for its composition and the qualifications, methods of selection and terms of office of its members; defining the functions and procedures of said Commission, including the duty to investigate, and hold hearings in respect of disability and misconduct of District and Appellate Judges and to make recommendations to the Supreme Court of Texas for involuntary retirement or removal of such Judges; empowering the Supreme Court of Texas, in its discretion, to retire such Judges for disability and to remove them for misconduct, upon recommendation of the aforesaid Commission and consideration of the record made before it; defining misconduct for which said Judges may be so removed; providing that the proceedings of said Commission shall be confidential until filed in the Supreme Court with recommendation for retirement or removal; and providing that the removal provisions hereby established shall be alternative to and cumulative of those provided elsewhere in the Constitution. BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Section 1-a of Article V of the Constitution of the State of Texas be amended so that said Section shall hereafter read as follows: "Section 1-a. (1) Subject to the further provisions of this Section, the Legislature shall provide for the retirement and compensation of Justices and Judges of the Appellate Courts and District and Criminal Courts on account of length of service, age and disability, and for their reassignment to active duty where and when needed. The office of every such Justice and Judge shall become vacant when the incumbent reaches the age of seventy-five (75) years or such earlier age, not less than seventy (70) years, as the Legislature may prescribe; but, in the case of an incumbent whose term of office includes the effective date of this Amendment, this provision shall not prevent

him from serving the remainder of said term nor be applicable to him before his period or periods of judicial service shall have reached a total of ten (10) years.

"(2) There is hereby created the State Judicial Qualifications Commission, to consist of nine (9) members, to wit: (i) two (2) Justices of Courts of Civil Appeals; (ii) two (2) District Judges; (iii) two (2) members of the State Bar, who have respectively practiced as such for over ten (10) consecutive years next preceding their selection; (iii) three (3) citizens, at least thirty (30) years of age, not licensed to practice law nor holding any salaried public office or employment; provided that no person shall be or remain a member of the Commission, who does not maintain physical residence within this State, or who resides in, or holds a judgeship within or for, the same Supreme Judicial District as another member of the Commission, or who shall have ceased to retain the qualifications above specified for his respective class of membership. Commissioners of classes (i) and (ii) above shall be chosen by the Supreme Court with advice and consent of the Senate, those of class (iii) by the Board of Directors of the State Bar under regulations to be prescribed by the Supreme Court with advice and consent of the Senate, and those of class (iii) by appointment of the Governor with advice and consent of the Senate.

"(3) The regular term of office of Commissioners shall be six (6) years; but the initial members of each of classes (i), (ii) and (iii) shall respectively be chosen for terms of four (4) and six (6) years, and the initial members of class (iii) for respective terms of two (2), four (4) and six (6) years. Interim vacancies shall be filled in the same manner as vacancies due to expiration of a full term, but only for the unexpired portion of the term in question. Commissioners may succeed themselves in office only if having served less than three (3) consecutive years.

"(4) Commissioners shall receive no compensation for their services as such. The Legislature shall provide for the payment of the necessary expense for the operation of the Commission.

"(5) The Commission may hold its meetings, hearings and other proceedings at such times and places as it shall determine but shall meet at Austin at least once each year. It shall annually select one of its members as Chairman. A quorum shall consist of five (5) members. Proceed-

ings shall be by majority vote of those present, except that recommendations for retirement or removal of Justices or Judges shall be by affirmative vote of at least five (5) members.

"(6) Any Justice or Judge within the scope of this Section 1-a may, subject to the other provisions hereof, be removed from office for willful or persistent conduct, which is clearly inconsistent with the proper performance of his said duties or casts public discredit upon the judiciary or administration of justice; or any such Justice or Judge may be involuntarily retired for disability seriously interfering with the performance of his duties, which is, or is likely to become, permanent in nature.

"(7) The Commission shall keep itself informed as fully as may be of circumstances relating to misconduct or disability of particular Justices or Judges, receive complaints or reports, formal or informal, from any source in this behalf and make such preliminary investigations as it may determine. Its orders for the attendance or testimony of witnesses or for the production of documents at any hearing or investigation shall be enforceable by contempt proceedings in the District Court.

"(8) The Commission may, after such investigation as it deems necessary, order a hearing to be held before it concerning the removal or retirement of a Justice or Judge, or it may in its discretion request the Supreme Court to appoint an active or retired District Judge or Justice of a Court of Civil Appeals as a Master to hear and take evidence in any such matter, and to report thereon to the Commission. If, after hearing, or after considering the record and report of a Master, the Commission finds good cause therefore, it shall recommend to the Supreme Court the removal or retirement, as the case may be, of the Justice or Judge in question and shall thereupon file with the Clerk of the Supreme Court the entire record before the Commission.

"(9) The Supreme Court shall review the record of the proceedings on the law and facts and in its discretion may, for good cause shown, permit the introduction of additional evidence and shall order removal or retirement, as it finds just and proper, or wholly reject the recommendation. Upon an order for involuntary retirement for disability or an order for removal, the office in question shall become vacant. The rights of an incumbent so retired to retirement benefits shall be the same as if his retirement had been voluntary.

"(10) All papers filed with and proceedings before the Commission or a Master shall be confidential, and the filing of papers with, and the giv-

ing of testimony before, the Commission, Master or the Supreme Court shall be privileged; provided that upon being filed in the Supreme Court the record loses its confidential character.

"(11) The Supreme Court shall by rule provide for the procedure before the Commission, Masters and the Supreme Court. Such rule shall afford to any judge against whom a proceeding is instituted to cause his retirement due process of law for the procedure before the Commission, Masters and the Supreme Court in the same manner that any person whose property rights are in jeopardy in an adjudicatory proceeding is entitled to due process of law, regardless of whether or not the interest of the judge in remaining in active status is considered to be a right or a privilege. Due process shall include the right to notice, counsel, hearing, confrontation of his accusers, and all such other incidents of due process as are ordinarily available in proceedings whether or not misfeasance is charged, upon proof of which a penalty may be imposed.

"(12) No Justice or Judge shall sit as a member of the Commission or Supreme Court in any proceeding involving his own retirement or removal.

"(13) This Section 1-a is alternative to, and cumulative of, the methods of removal of Justices and Judges provided elsewhere in this Constitution.

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State at an election to be held on the first Monday after the first Monday in November, 1965, at which election all ballots shall have printed thereon the following: "FOR the Constitutional Amendment providing for the automatic retirement of District and Appellate Judges for old age, creating the State Judicial Qualifications Commission, defining its functions; and empowering the Supreme Court, upon recommendation of said Commission, to remove District and Appellate Judges for misconduct and to retire such judges in cases of disability."

"AGAINST the Constitutional Amendment providing for the automatic retirement of District and Appellate Judges for old age, creating the State Judicial Qualifications Commission, defining its functions; and empowering the Supreme Court, upon recommendation of said Commission, to remove District and Appellate Judges for misconduct and to retire such judges in cases of disability."

Sec. 3. The Governor shall issue the necessary proclamation for the election, and this Amendment shall be published as required by the Constitution and laws of this State.
