A person's attitude on any subject depends upon his point of view. It has been said that a brat is a neighbor's kid who acts like your own cute child. A school athletic program is a foolish waste of time if you dislike it but a builder of health and character if you like it. Your job is a drudgery if you dislike it, a delight if you like it. A better home is a pleasure if you enjoy the beauty and comfort and convenience but an extravagance if you'd rather save the money.

To put it briefly, that about sums up the issue in our coming hospital district election. Some of us are enthused over the various benefits of having our own community hospital, others simply are not convinced that it is worth what it costs.

With that difference of opinion in mind, the column's intention here is to present a comparison of benefits and costs and invite people to decide for themselves whether creation of a district is worth as much to them as it will cost them.

First let's consider the benefits. No one can deny that nearness is a very desirable feature in a hospital. A person who is hurting wants medical attention as soon as possible and one who is critically ill may find it vital. And after the patient is there nearness becomes a factor of convenience and expense to those who visit him.

This is not just an idle remark. During less than two years since our hospital opened hundreds of people have learned from experience that nearness is an important consideration. They have saved substantially in time and money.

Nearness also pays off to another group of people, those who are not hospital patients or visitors but just calling at a doctor's office. Dozens of them every day are saving time and money by seeing a doctor here, which is possible only because the hospital is here. One of the facts of our time is that doctors locate where the hospitals are. The reason is obvious. Nearness of a hospital is important to them also. And our experience for several years was that we had no doctor until we had our hospital.

Another factor to consider is the economic value of a local hospital. It has a sizeable payroll, and it is a customer of local business firms for many of its needs. It has the same economic value as an added industry in the community. One way or another, by its nearness or by its expenditures, our hospital has a favorable effect on practically every family of the community.

Now as regards its cost. As most of us are aware, the hospital's cost is about \$900,000, of which \$600,000 has been spent and a debt of \$300,000 remains. Of course we have heard complaints that too much was spent in the first place. Costs could have been trimmed. On the other side it can be said that many substantial savings were applied and the result is an excellent hospital with excellent equipment.

Over all it represents about as much value as can be reasonably expected for the money spent. If any think it is more than we need they are entitled to their opinion. There are others who think it was not overbuilt.

Regardless of how one feels on that subject the fact is that it is irrelevant now. Refusal to help the hospital because it cost more than some person approves is a bit absurd, sort of like letting a house stand idle because its cost ran too high. The big consideration, and the only one that really counts, is what it will cost from now on to finish paying for the tremendous value we already have.

That amount is \$300,000 and will require a few thousand more to cover accumulated interest and costs of organizing a hospital district. The proposal is to issue bonds which will mature in about 25 years. Those details are indefinite now and will be worked out according to the best judgment of directors. The annual cost of meeting the debt and caring for indigents of the district is likely to be about \$25,000.

Next in order is an estimate of how much that will cost the individual taxpayer. First (Continued on page 8)

Hospital Provides Stretcher to Use At Ball Games

A stretcher which is available for moving patients to or from Muenster Memorial Hospital arrived at the hospital this week as a gift of the Hospital Auxiliary.

The stretcher is provided as a special accommodation to save people the time and expense of having an ambulance when conditions are favorable for the do-it-yourself service. A station wagon with the stretcher is a convenient substitute for an ambulance.

One use for which it is especially intended is a stand-by at local football games. The plan is to have it ready in a station wagon at all games for use in case of injury.

Another use for which it is especially intended is moving patients who can leave the hospital but are not able to walk. Likewise it can be used for bringing in bed patients. Persons who want it for such uses are welcome to it. However station wagon service is not included. Each person has to arrange his own transportation.

It is emphasized that the arrangement is intended for convenience and economy when circumstances justify its use, but it is not equivalent to regular ambulance service. For serious illness or emergency the special equipment and professional service are recommended.

It is a sturdy aluminum frame with a pallet adjustable from regular hospital bed height to about a foot. It also has side rails and adjustable back rest and is mounted on wheels. Its cost was \$189.

Garden Club Opens Season With Tea For New Members

Muenster Civic League and Garden Club opened a new season Monday with a tea for new members. Mrs. T. S. Myrick and Mrs. Arnold Rohmer were co-hostesses in the TP&L community room. They presided at a pretty table covered with a white cutwork linen cloth centered with red geraniums and trailing ivy. Mrs. Myrick poured and Mrs. Rohmer served an assortment of sweets.

Mrs. J. D. Hanna, new president, introduced new members and presented each a corsage. New members are Mmes. Martin Bayer, Ernest (Bobo) Jaska, Pat Stelzer, Al Walterscheid and Werner Yosten.

A get-acquainted period preceded the business session. After Mrs. Hanna opened the meeting, members stood for a moment in silent prayer honoring the memory of two members lost since the last meeting: Mrs. M. J. Endres and Mrs. Arthur Endres.

New year books were distributed by Mrs. Don Bayer, rules and by-laws were read by Mrs. R. N. Fette, and roll call was explained by Mrs. Hanna. She also presented officers, listed their duties, and announced committee chairmen.

Other officers are Mrs. Don Bayer, vice president; Mrs. R. N. Fette, secretary, and Mrs. Steve Mosier, treasurer.

Heading the standing committees are Mmes. Tony Greminger and Tony Otto, cemetery; Mrs. John Mosman, conservation; Mrs. Richard Cain, highway; Mrs. Joe Galloway, park and hospital; Mrs. Earl Fisher, sanitation; Miss Betty Dodds, books and magazines; Mrs. T. S. Myrick, wildflowers; Mrs. Don Bayer and Mrs. Dan Luke, program and year book.

On the membership roster beside each member's name is a flower, tree or shrub. At roll call each member will give a brief remark on the subject.

The organization's horticulture project this year is pecans. Program for the year includes talks on preparing plants for housewarming, making ceramics, Christmas ideas, raising young plants indoors, grafting and budding, lawn care, flower arranging, cutting geraniums, and a film, a social meeting and a guest speaker.

At Monday night's meeting the club re-organized after being disbanded for the summer months. No regular meetings were held but committee chairmen and assistants were active in work on their projects.

News of the Men in Service

Gets Into Uniform

Leaving Monday to begin army training was Jerome Fuhrmann, son of Mr. and Mrs. Henry N. Fuhrmann.

Completes Army Tour

Back to civilian life and off to college is James Walterscheid who soldiered in Saigon since August 1964. He was separated from the service in California last week. His wife Theresa, who stayed here while he was overseas, flew out to San Francisco to meet him and they returned to Muenster together for a few days of visiting with their families, the Paul Walterscheids and the J. W. Fishers. Sunday there was a going-away party for them at the Butch Fisher home and Monday Mr. and Mrs. James Walterscheid were off to Las Cruces, N.M., where he has enrolled in the University of New Mexico.

With Marines in Viet Nam

Marine Cpl. Richard Hess, son of Mr. and Mrs. Ed Hess, is serving with Marine Attack Squadron 214, Marine Group-12 at Chu Lai, Viet Nam. Flying the "Skyhawk" attack jet aircraft, the squadron provides close air support for U.S. Marine ground operations, as well as bombarding Viet Cong concentrations and supplies. Richard is a jet mechanic. His wife and their children live in Hawaii.

Telephone Greetings

Naval Airman Cyril Yosten telephoned Friday night to congratulate his parents, the Felix Yostens, on their silver wedding anniversary. His call came from his base at Quonset Point, R. I. Also telephoning was the couple's daughter, Miss Gloria Yosten of Dallas. Mr. and Mrs. Yosten didn't celebrate the anniversary. They plan an observance when their out-of-town children can be at home — perhaps the Christmas holidays.

Travels On Leave

Tim Hellman has been writing his parents, the Clarence Hellmans from various points in Germany, Denmark and Austria telling about a month's trip in company of a buddy while they were on leave from their army base in France.

Evacuated By Betsy

Betsy moved the Navy — at least a part of it. Navy men and their families were evacuated from Pascagoula, Miss., to Laurel on account of rising water. The Bill Birdens and their three sons were among those moved to higher ground. Mrs. Birden gave an account of the experience to her parents, the J. M. Weinzaepfels, in a telephone call, after they returned to Pascagoula.

Training With Medics

Kenneth Neu has started two weeks of training with the Medics at Fort Sam Houston. He visited his parents, Mr. and Mrs. Frank Neu and family at Valley View before going to San Antonio. His new address is :Pvt. Kenneth D. Neu; Co. B, 1st Bn., U.S.A.M. T.C., Class 37-A; Fort Sam Houston, Texas.

Tiger Cubs Have Big Roster and Small Schedule

The Tiger Cubs of Sacred Heart elementary school have lots of eager players competing for their team this season but to date they have a slim season on schedule.

The team consists of 33 seventh and eighth graders coached by Adam Wolf and John Streng under direction of the Tiger coach, Walter Wolf.

Walter says that only four games are on schedule at this time. First one is with Sadler-Southmayd kids Thursday night at 6 o'clock on Tiger field. The game precedes a contest of B teams from SH and S-S.

Other scheduled Cub games are with Lindsay here on September 28, Windthorst here on October 10 and Windthorst there on November 4. Wolf is looking for more games but says prospects are slim since most junior teams of the area have a solid schedule in their 9-B loop.

Members of the Cub team are Paul Bayer, Dale Felderhoff, David Fette, Earl Koelzer, Jerry Schmitz, Tom Henschel, Alvin Hoening, Lynn Joe Klement, Doyle Hess, Melvin Schilling, Clifford Zimmerman, Robert Bruns, Jerry Fleitman, John Felderhoff, John Dangelmayr, Dale Hellman, Henry Sicking, Glenn Rohmer, Kevin Swirczynski, Glenn Felderhoff, Ricky Miller, Leon Klement, Ricky Huchton, Fred Fuhrmann, John Schneider, Tim Hartman, Tommy Felderhoff, Alan Hess, Mike Trubebach, Gene Hess, Johnny Cunnigham, John Luttmner and Ross Felderhoff.

Tigers to Tangle With Callisburg Here Friday Night

Sacred Heart Tigers, still looking for their first win of the season, will take on another strong competitor this week. Callisburg's Wildcats jolted the area's football prophets last week by holding highly regarded Bells of the 11-B loop to a 14-14 tie and coming out ahead on statistics.

The Tigers and Wildcats will clash on the Tiger field Friday night starting at 8 o'clock.

To date the Sacred Heart boys have encountered two rugged teams, Whitesboro and Saint Jo, both strong favorites for the title in their respective loops this season. Since last week's achievement Callisburg can be rated as another tough one, definitely stronger than last year's team which was walloped 34-14 by the Tigers.

However, Coach Walter Wolf feels that his Tigers likewise are more potent than last year and he has a good opportunity to break into the win column.

A break for the team is the return of Dale Hofbauer, last year's strating center, after being out the first two games. Another break, Larry Hess apparently is recovering very well from the knee injury that eliminated him at Saint Jo. Wolf reports that Hess will likely be in the tussle and his usual hard running will be most welcome.

The rest of the boys are in good condition. Wolf says they are ready mentally and physically.

MHS Science Club Elects Officers

The Science Club of Muenster High School held its organizational meeting Tuesday night and elected officers for the current scholastic year. The club has 18 members and is affiliated with National Science Clubs of America and with Junior Engineers Technical Society (JETS) of Texas.

Officers elected are Dale Klement, president; Glenn Fleitman, vice president; Carl Mosman, secretary; Joe Hartman, treasurer; Virgil Swirczynski, reporter; Mrs. John Mosman, sponsor; Carl King, co-sponsor; Bobo Jaska, engineer advisor.

Sacred Heart and Sadler-Southmayd B Teams to Play

Reserves of the Sacred Heart Tigers will have their night Thursday. They'll be defenders of the school colors in a B string tussle with the reserves of Sadler-Southmayd.

The game begins about 7:30 on the Tiger field as the main event in a double header program. The evening's opener presents the Tiger Cubs in a game with seventh and eighth graders of S-S.

Boys to play in the B game are those who are not expected to be in the Tigers' regular game with Callisburg Friday night.

BIRTHS

Proudly announcing a seven pound three ounce son are Mr. and Mrs. Robert Vogel. He checked in at Muenster Hospital at 12 noon Tuesday, September 14, and made Mr. and Mrs. Urban Endres grandparents for the first time. He's the first boy grandchild for Mr. and Mrs. Ray Vogel. The great-grandparents are Mr. and Mrs. Werner Endres, Mrs. Emil Vogel and Mrs. Dovie Miller. He's the first great-grandchild for Mrs. Miller of Gainesville.

Announcing a daughter are Mr. and Mrs. Johnny Schmitz of Gainesville. The seven pound five ounce girl was born Monday, September 13, 1:55 p.m. at Gainesville Hospital. Others welcoming her are her sister Maquita, her brothers John Dave and Joey and two grandfathers, John Schmitz of Thackerville and Joe Mages.

Telephone call from Lubbock announced the birth of a son to Mr. and Mrs. Don Muller, formerly of Muenster. Their seven pound boy arrived 10:30 Sunday night, September 12. He's a brother for Ron and Gay Lynn, a grandson for the Joe Vogels and the Matt Mullers, and a great-grandson for Mrs. Emil Vogel.

NTPA Milk Plant OK'd for USDA Grading Services

The North Texas Producers Association plant here is one of six Texas dairy plants recently approved for and eligible to receive grading services of the U.S. Department of Agriculture.

The other five plants are Cen-Wes-Tex Cheese Plant, Ballinger; Butler Milk, Inc., Bonham; New Ulm Creamery Co., New Ulm; Round Rock Cheese Co., Round Rock; and Milk Producers Assn. of San Antonio, San Antonio — have been surveyed within the past 12 months by qualified, licensed USDA inspectors.

"Approved for NSDA Grading Service" is a recognition of high-level dairy plant operations based on critical evaluations of more than 100 different items.

The include plant facilities, condition of equipment, sanitary practices, processing procedures and quality improvement programs for raw milk and cream.

Evaluation of these items assures plant managers that their products will be of uniform high quality, will meet specific grade or contract requirements and will have good keeping quality.

This grading service is available on a voluntary basis, and fees are charged to cover costs.

E. R. Bartle, area supervisor for dairy inspection and grading of USDA's Consumer and Marketing Service, Minneapolis, Minn., is in charge of these dairy services for Texas.

The USDA plant survey program has been used by the dairy industry for more than 10 years.

Hornets Will Meet Warriors Friday In Season Opener

Coach James Polk's Muenster High Hornets apparently have a big job on their hands as they open their season Friday night with the Valley View Warriors of Kamay.

Last week the Warriors lost 30-0 to the strong Class A Holiday outfit, but Muenster boys are more impressed by the fact that Valley View defense held Holiday scoreless the second half. Also they are much impressed by one of the Warrior backs, who definitely will be hard to stop.

Those things mean competition will be strong but they do not mean that the Hornets have no chance, says Polk. The boys have been sharpening both their offensive and defensive styles, and they are confident. At this time the team's only handicap is Jimmy Robison's bad knee. It has been giving trouble lately, but possibly keep him out of the game. If so Tommy Tuggle will probably join Swirczynski, Klement and Stormer in the backfield.

Memories of Tour Abroad Recalled By Cathy Medders

Still bubbling over with memories of her summer abroad, Miss Cathy Medders got off over the weekend to classes at Hockaday in Dallas. She returned from the European holiday on September 2.

Each day of the trip was filled with new sights and experiences and meaningless dots on maps became stirring memories.

Among the most impressive was participation, among hundreds, in the candle-lighted processions at the Grotto of Lourdes, Cathy and her three companions, a friend from Boston, Miss Marie Wapple, and two nuns from Memphis, Tenn., Sister Barbara Maria and Sister Jeanne d'Arc, spent three days at Lourdes.

Fascinating — and a bit spooky — were the Catacombs of Rome where there were many highlights: visiting cathedrals and old Roman ruins. (Continued on page 4)

NOT SO MANY COOKIES

It is probable that no subject of an economic nature is more generally misunderstood than what happens to the income taken in by this country's major industries. There is a particularly flagrant lack of knowledge about the size of the profits that are earned.

So a breakdown of the experience of the nation's 100 largest manufacturers during a recent year may be of value. Here it is:

Of each dollar received from customers, 51 cents went to pay for goods and services bought from others.

Five cents was consumed by the cost of tools wearing out — that is, obsolescence.

Taxes accounted for nine cents.

The cost of human energy — wages and payroll items —

took 27 cents.

After all these bills were met, seven cents remained. This was the profit. But only about half of it was paid in the form of dividends to the owners of these businesses. The other half was used for reinvestment within the businesses themselves — that is, for expansion, new tools, and all the other things that are necessary if any enterprise is to keep its place in the sun in a competitive economy.

Those who still think that the hand of the stockholders goes deep into the cookie jar had best think again.

HOW TO KEEP OUT OF TROUBLE

If children were taught in the home by their parents and in the schools and Sunday schools by their teachers, one simple little rule of action, think of the sorrow and suffering it would save, not to mention the countless millions of dollars.

This rule of action wouldn't require any new laws, it wouldn't cost a dime of taxpayers money, it would reduce the cost of law enforcement and court trials. Respect for the rule would eventually become automatic with most children as they grew up.

There wouldn't be so many reports of murder, robbery, kidnapping, rape, purse snatching, automobile stealing, etc.

THE SPANIARDS, IN THEIR QUEST FOR GOLD IN THE NEW WORLD (1500-1600) OBSERVED THE INDIANS' USE OF A TUBER FOR FOOD WHICH THEY NAMED PAPA OR POTATO. THE PLANT THRIVED IN EUROPE AND IN TIME THE NUTRITIONAL VALUE OF THE POTATO MADE THE INCAN GOLD APPEAR INSIGNIFICANT.

DURING THE CALIFORNIA GOLD RUSH, THE POTATO FOUND A NEW ENVIRONMENT UNIQUELY SUITED TO ITS NEEDS... TODAY, CALIFORNIA IS OUR THIRD LARGEST POTATO GROWER.

BY CAREFUL SEED SELECTION AND CULTIVATION CALIFORNIA HAS DEVELOPED AN "ALL PURPOSE" POTATO KNOWN AS THE CALIFORNIA LONG WHITE. SO POPULAR HAS IT BECOME THAT ABOUT THREE-FOURTHS OF CALIFORNIA'S POTATO ACREAGE IS NOW DEVOTED TO THIS VARIETY.

And what is the rule of action that would reduce our vicious crime record, if it became part of the thinking of children when it was taught to them daily by their parents and schools, along with suitable illustrations of what it meant?

Rule — "Keep your hands off other people and other people's property." It's that simple to keep out of trouble.

'SLOPPY' SITUATION

That old saying, "Give 'em an inch and they'll want a mile," briefly describes a situation in Kentucky.

Last Friday hundreds of white and Negro youths, many of them school dropouts from big city slums, rioted at a federal Job Corps center in Morganfield, Ky., after complaining they were being fed "slop". Ingratitude for the government's helping hand and greed for something for nothing was latently demonstrated in this senseless riot.

You give these punks a square meal on a silver platter and they'll eventually want French cuisine by candlelight. You give them shirts for their backs and later they'll probably demand cashmere sweaters, hand knitted, no less. You give them a chance to make something of themselves, but instead they quickly learn the "gimmie" philosophy and their arms are outstretched for more handouts.

Yes, they are quickly learning the American way of "riot now and receive later." A demonstration a day is the way to make hay.

When is Uncle Sam going to wake up to the fact that continuous giveaways will not cure the ills of this country? On the surface the Job Corps would appear to be a worthwhile project with every chance of success, but the Kentucky riots seem to indicate that the road to disaster, too, is paved with good intentions. —Selby (Mont.) WHAT THIS COUNTRY NEEDS . . .

Just a few years ago a man's private life was his own business, and no one would dare inquire into his personal affairs.

Now every bureaucrat in the country thinks he has the right to check into all phases of a man's personal life, even inquiring as to what brand of toilet tissue he uses.

This all began with the passage of the income tax law

which, strangely enough, was not designed to raise money but was written to give the bureaucrats the right to investigate your personal life. This way they would know how much you made, how much you spent, how much you gave for charity if you did.

What this country really needs is a "None Of Your Damn Business Week" where you look these jokers in the eye and tell them to go fly a kite. Then we should pass the Liberty Amendment and stop this nonsense once and for all. —Santa Cruz (Calif.) Mining Journal

WARS THAT MUST BE POSTPONED

James F. Byrnes, now 86, is one of the nation's true Elder Statesmen. His career has been a remarkable one — Secretary of State, Supreme Court Justice, Governor of South Carolina. The other day, speaking to the American Legion's national convention in Portland, Oregon, he gave the country some valuable advice: "If we must fight another world war against North Viet Nam and other Communist countries, we must postpone the war against poverty, the Appalachian war, the expansion of recreational facilities, and many other welfare programs deemed desirable in time of peace."

This nation, rich as it is, cannot do everything. The cost of the war in Viet Nam, even if it remains confined to that country which is by no means sure is destined to reach enormous proportions. The special appropriations so far made, though large, are only a stop-gap nature and will meet only a small part of the bill. The result will be budget deficits far beyond any so far forecast. And no one can foresee the end.

If, with this, domestic programs of unprecedented scope and cost are also pushed ahead, the only predictable result will be major inflation — or regimentation of the resources and energies of the nation, paid for in the brutal coin of lost freedom and undermined initiative.

Headaches Are Warning Signs

Headache may well be humanity's number one malady.

It masquerades under many names — sick headache, coffee headache, hunger headache, fever headache and Sunday headache — to name a few.

But what really happens when your head hurts? A common misconception is that the brain hurts when you have a headache. But the brain itself — while marvelous — is an unfeeling mass of gray tissue. You can probe, cut, burn, or smash this tissue without its hurting.

Other structures of the head, however, are extremely sensitive to pain, including the scalp, blood vessels and some of the brain coverings.

Some of the processes causing headache include: swelling of arteries within the head; a pulling, inflammation or irritation of arteries within the head's pain-sensitive structures; prolonged contraction of neck muscles, a pain spreading from another source such as an inflamed eye; or an emotional disorder.

Headaches can be important since they may be the warning sign of a serious condition, which possibly could be controlled if detected early. They can indicate glaucoma, fever, high blood pressure, anemia, central nervous system injury or infection, epilepsy and tumors of the brain and head.

They can also warn of intoxication by such poisons as carbon monoxide gas. Or, a headache can indicate sensitivity to certain solvents, the elements in some liquors, or antihistamines or to noise.

Excessive use of sedatives, even those used for treatment of headache, can be dangerous and possibly cause a headache. Don't take larger amounts of painkillers than your doctor orders, and don't take them over a longer period than he advises.

A headache can be an important symptom. It might be triggered by life-threatening diseases in about one percent of its victims. Nine out of ten are the common variety which pass after a day or less.

Whenever you have a headache, don't make its treatment a do-it-yourself project. If your headache persists or recurs frequently, you will want to consult with your doctor.

'ABJECT SURRENDER' AT THE U. N.

Republicans and Democrats alike have condemned the Administration's "abject surrender" in dropping its demand that the USSR and other delinquent nations pay up their U.N. assessments.

Rep. John Byrnes (R-Wis.) called the announcement by Ambassador Arthur Goldberg a "sad day for the United Nations, a sadder day for the United States." Rep. Wayne Hays (D-Ohio) agreed, terming the American flip-flop "nothing more or less than a surrender to Russian blackmail."

Critics note that top American officials have for the past 18 months demanded that the Soviet-bloc nations be forced to pay their U.N. bills. —Human Events

A bum knocked on the door of a farmhouse and asked for something to eat. "First let me show you something," the housewife said, "Come with me."

She led him to a woodshed, behind which was a pile of uncut wood, a saw resting near it. "Do you see this wood?" she asked.

"Yeah, I see it."
 "You should say, 'I saw it.'"
 The bum looked at her shrewdly. "Lady," he said, "you saw me see it, but you ain't gonna see me saw it."

At the bedside of the dying dictator was his second in command, tears streaming down his face. The old dictator patted his aide's hand feebly. "Do not grieve so, Comrade," he whispered. "I want you to know that because of your loyalty I am leaving you my money, my cars, my plane, my country estate, my yacht - everything!"

"Thank you, thank you," cried the man. "You're much too good to me. Oh, if there was only something I could do for you!"

The dying man boosted himself up a bit. "There is," he gasped. "Take your foot off the oxygen tube!"

European Tour - - -
touring the Vatican, a general audience with Pope Paul, and being close up front for the Holy Father's Sunday Mass at Castle Gandolfo.

In Germany they toured Munich, visited Oberammergau and attended the Passion Play, climbed the Bavarian Alps. In Vienna they toured the Danube Valley and the girls swam in the Blue Danube.

Venice had a charm all its own with gondola travel and included a visit to a glass factory where Cathy bought blown glass dolls for her two young sisters. Of all the exotic foreign foods they thought the pastas and spaghetti of Venice was best.

They enjoyed the sights, scenes and atmosphere of the French Riviera and thrilled to the beauty of Switzerland. They visited Jungfrau Mountain, famous ski resort, but the weather was too warm for skiing. Interlaken, the wood carving center of Switzerland, was interesting and educational.

Highlight of Portugal was a pilgrimage to the Shrine of Our Lady of Fatima. And there were more memorable sights and visits in Holland, Belgium, England and Ireland.

It wasn't all travel for pleasure. It was study also... four weeks at a student center in Paris to study French. One of the nuns studied art. But there was opportunity for sight-seeing, eating at the sidewalk cafes, attending operas at the Opera House — they especially enjoyed Faust — visiting the Flea Market, shopping for Paris fashions, getting French coiffures, visiting the Chateaus, art centers and museums.

Cathy noted that skirts are not "way above the knee" in Paris. That's the "London Look." The girls missed seeing the Beatles who were in the United States while they were in London.

Going — they left on June 22 — they went by air jet from Kennedy International Air Port, to Ireland. When they landed at Shannon Air Port they were aware of a rough landing and de-planed to find the place swarming with ambulances and fire engines. They did not know until they landed at Dublin, their next stop, that they had landed at Shannon minus one tire

which left the plane on take-off at New York. Everybody congratulated the pilot for bringing the big jet down safely.

Last stop on the way home was at Gibraltar where they toured the Rock and boarded the Raffaello for an ocean voyage back home.

The sights, sounds and foods of foreign countries go together to make lasting memories and give a wealth of experience... "memory gems to lure one back," Cathy said.

because of offside. Next play Yetter hit Talley for an apparent TD but a clip penalty returned the ball back almost to its starting place. Then another pass reached the Tiger 24.

Two tries reached the 9 and the second play after that was a pass snared by Larry Hess at the goal line and run back to the 29. Then it was Kralicke 19 yards, Hess 17, Hess 7, Kralicke 3 and a penalty of 15, Tigers were on the Panther 10 but tragedy struck on the next play. Saint Jo took over on a fumble.

90 Attend Annual Reunion of Cooke Clan in Ft. Worth

Annual reunion of the Cooke clan was held in Fort Worth on September 5 at the R. D. Evans Recreation Center with ninety members of the family present. Mr. and Mrs. Don C. Cooke and Mr. and Mrs. Reeve Cooke attended from Muenster. The day-long event featured a catered meal and a business meeting with election of officers. The group voted to have next year's reunion at the same place. Visiting was the order of the day along with singing and musical numbers and the group joined in a sing-song.

To Don C. Cooke went the honors of being the senior member present and his 10-week old great-grandson Mark, son of the Don M. Cookes of Fort Worth, was the youngest family member attending.

For Mr. and Mrs. Don C. Cooke it was a happy weekend — Saturday through Monday — including a visit with her sister, Mr. H. G. Andrews, Saturday afternoon party attended by 26 relatives at the home of their son, Harold Cooke, eating out, and then back at the Harold Cooke home where Mr. and Mrs. Cooke entertained with a lawn party. Live Better While Living Longer

About 20 years ago the average American could expect to die when he reached the retirement age of 65. Today seventeen and a half million Americans are over 65, and the generation that can expect to live an average of 100 years may well be the generation now being born. But, just living longer isn't enough. Extra years mean lit-

tle unless they're healthy, active years. You can enjoy all the added years modern medicine has given you — can keep young in spirit, body and mind — by practicing a little moderation and following these seven simple steps:

1. See your family physician regularly for a physical check-up. Today he can diagnose and treat successfully almost any disease or ailment, if he finds it early enough. He can also prevent many of the illnesses that may otherwise come your way.
2. Watch your diet. As the years pass you usually need less food, and there is some shift in nutritional requirements. You will need more protein, vitamins and fluids, but fewer fats and calories. No one can feel young and peppy when he's carrying extra weight. It's not only tiring, it's a threat to your health. If you need to lose weight, see your physician. He can establish a proper diet by which you'll lose weight without missing out on important nutrients.
3. Get adequate rest. Both mind and body need peace and quiet to recoup from the rigors of the day. Know your limitations and avoid over-exertion and strain, both physically and mentally. Excessive emotional tension can wear you down too, so take each job as it comes; not everything at once. Plenty of rest can help you see things in their proper perspective, and a sense of humor is your best antidote for tension.
4. Pursue physical exercise. The mark of an "old" person is creaking joints, aching backs and a myriad of complaints. Keep all your body parts in good working order by using them. Frequent and planned

exercise — mowing the lawn, a brisk walk to work, a round of golf, a refreshing swim, or even a game of croquet — will give you a zestful enjoyment of life.

5. Fill your days with productivity. The quickest way to "old age" is through boredom. So keep up your interest in your work and your surroundings. By doing a good job and taking pride in your work, your enthusiasm for living will belie your years.
6. Participating in community affairs. Some people pursue the luxury of fussing and fretting about themselves at home alone. But, if you want to be among the happiest people — the doers — share your time and talents with such things as raising funds for charity, getting out the vote and participating in programs for civic improvement.
7. Prepare for your future. Another shortcut to "old age" is worry — and worry, besides putting you in an unpleasant frame of mind, can sometimes lead to illness. Many worries about tomorrow can be avoided if you plan today and budget for your future financial needs with such things as insurance and savings programs.

One of the most colorful and exciting attractions at the 1965 State Fair of Texas will be a precision riding troop of Canada's world famous Mounties, appearing October 9 through 17 as part of the Horse Shows in the Livestock Coliseum. The Royal Canadian Mounted Police Musical Ride, executed by 32 scarlet coated Mounties on black horses, demands precision and masterful riding with intricate maneuvers set to music. Dates of the 1965 "Exposition of the Americas" will be October 9 through 24.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

Terracing still holds the spotlight among various conservation jobs being completed in the Muenster-Saint Jo area.

Field terraces, a must on all sloping cropland fields, have been staked by the Soil Conservation Service personnel recently for Andy Fleitman, Herman Zimmerer, Katie Fleitman, LeRoy Sicking and Bruno Fleitman, all of Muenster. Terraces have also been built by J. C. Embry of Forestburg and Wright Embry of Saint Jo.

Recent rains have slowed terrace construction somewhat, but have stepped up other farming activities. Several district cooperators have taken advantage of the spring-like top moisture and top dressed pastures with fertilizer.

The rains have been a blessing on native grass pastures. Bluestem grasses are shooting up a seed head on pastures still being grazed. Of course, this would be the case to some extent every year if pastures were stocked for normal years rather than for a grass year, like we're experiencing now.

Time to Check Heating Equipment

With cold weather on the way Lone Star Gas Company reminds local residents that now is the time to have gas heating equipment inspected and pilots lighted before the temperature begins to drop.

All users of gas central heating systems, floor furnaces, wall heaters, unit heaters and other gas heating equipment should call a heating contractor or Lone Star Gas Company now to avoid any delay in having their equipment serviced.

Officers Elected By Junior Class

Muenster High Juniors have elected class officers for the new term and have started planning for their annual class play.

Officers are Wayne Klement, president; Kenny Stormer, vice-president; Linda Fisher, secretary; Jill Swirczynski, treasurer; Doris Lutkenhaus, reporter.

Mrs. John Mosman and Mrs. Henry Weinzapfel, class sponsors met with the students.

A committee headed by Brenda Skaggs, Jill Swirczynski and Doris Lutkenhaus is studying plays to select one for the class presentation.

FBI Director J. Edgar Hoover writes: "The motorist who stops and opens his car door to a stranger may be asking for a death ride for himself and his family. Many times, the innocent-looking young man on the roadside is a trigger-happy or knife-wielding killer. For safety's sake, drivers should exercise that part of valor considered best — discretion — and pass up hitchhikers."

James Bezner is the new president of the Lindsay Athletic Association succeeding Ray Haverkamp. Also newly elected is Bill McCullum as vice president and Mrs. Andy Arendt as secretary. Glenn Hellman continues as the treasurer.

Other organizational details of the meeting consisted of committee assignments on the association's several projects.

Mrs. Paul Arendt Jr. and Henry Fleitman are in charge of the concession stand at games and are to select their helpers.

Bill McCullum, Norbert Mages and Julius Hermes Jr. are in charge of ticket sales at home games.

Mrs. Bruno Zimmerer, assisted by the Junior class, has charge of concessions in the gym.

Paul Arendt Jr., Ray Haverkamp and Bruno Zimmerer make up the committee to re-stretch the cable beside the football field and add new cable at the ends.

The association also established a policy on use of its electric roaster recently acquired by trading stamps. Church, school and community organizations will be permitted to use it without charge. Another new item of equipment is a pop corn machine bought by the club.

Future elections of officers will be in April, the group also decided. The reason is to give new officers more time for planning a program for the new school year.

consideration there is that the county tax roll consists of two separate lists of taxpayers. The first is individual taxpayers, like most of us, and the other is utilities, railroad, oil companies, etc., plus individuals receiving oil royalties. Total valuation of all the proposed district is \$6,057,750, and the valuation on the list of individuals, which applies to most of us, is \$2,598,370. In other words individuals of the district will pay slightly less than 43 per cent of the annual assessment or less than \$11,000.

As regards the average taxpayer's share, the list of individuals has almost 1,100 names. In some cases persons have more than one rendition and their names appear two or more times. Nevertheless the estimated average tax per listing will be about \$10 per year. If you are an average taxpayer your annual tax bill for the hospital will be about \$10. To estimate your bill more closely look up your valuation on your last county tax receipt and figure it at a rate of 40 to 50 cents a hundred.

To estimate one's bill even more exactly a person should consider the income tax allowance for payments on the hospital tax. It's a deductible item, you know, and the net result is that average folks will actually pay 80 per cent of their hospital tax bill — and big income people will actually pay even a smaller percentage on their bill.

There is an estimate of the tax cost per individual. The next question: Do you think that is too much for the benefits you individually derive from having a hospital here? As most of us know it's a mere trifle compared with what many have already given as voluntary contributions.

Patricia Schmitz And Wesley Hubik Marry in Dallas

Miss Patricia Schmitz of Dallas and Wesley Hubik of Dallas were married there Saturday, September 11, at 3 p.m. in St. Edward's Church. Monsignor John Brady, pastor, officiated at the Nuptial Mass and performed the double ring ceremony.

Parents of the couple are Mr. and Mrs. William J. Schmitz of Lindsay and Mr. and Mrs. George Hubik of West.

Mrs. Schmitz, mother of the bride, who is organist at Lindsay, played the organ for her daughter's wedding. Mrs. Dave Walterscheid of Muenster was vocal soloist presenting "Heart of Jesus" and "Mother at Your Feet."

For her wedding the bride chose an original creation of pure silk bombazine combined with imported hand-clipped French Chantilly lace. The fitted basque bodice of lace had long sleeves and a scalloped Sabrina neck-line sprinkled with seed pearls and sequins. The bouffant bombazine skirt, edged in lace, billowed from the deep-pointed waistline over white taffeta.

Lace motifs drifted over the skirt and a pick-up effect edged with lace scallops was held with a lace motif to reveal a scalloped edged lace flounce at the center front hemline. The chapel train was detachable falling from the back bodice in wetteau effect.

Her bouffant veil fell in tiers from a double crown of lace studded with seed pearls and touched with crystals. She carried a crystal rosary, a gift from the bridegroom, and a white orchid atop her prayer book. Her father gave her in marriage.

Miss Judy Schmitz of Dallas was her sister's maid of honor; another sister Mrs. Paul Sandmann of Lindsay, and Mrs. James Bohannon of West, twin sister of the bridegroom, were bridesmaids. They wore floor-length gowns of turquoise peau de soie with fitted bodices, elbow-length sleeves, controlled skirts and detachable floor-length panel secured to the back bodice with a bow.

Ray Marak of Dallas attended as best man, Paul Sandmann and James Bohannon were groomsmen.

Brenda Sandmann of Lindsay, niece of the bride, was flower girl and George Hubik Jr. of West, brother of the groom, was ring bearer.

Wedding reception and dance were held in the SPJST Hall, attended by 300 guests. They were registered by Helen Barton and Janie Slama.

When the newlyweds left on their honeymoon she was wearing a turquoise two-piece suit with black patent accessories and the orchid she carried at the wedding. They will make their home in Mesquite. Both are employed in Dallas. She is a graduate of Lindsay High School and works for Collins Radio. He is a graduate of West High School and is an employee of Continental Electronics.

Windthorst Beats Lindsay 20-0 on Rash of Fumbles

Fumbles caused the downfall of Lindsay's Knights in

their season opener at Windthorst last Friday night. The outcome was a 20-2 loss but probably would have been very close, or possibly even a win, if Lindsay had managed to keep possession when they got hold of the ball.

The Knights' record of moving the ball was fine. They

advanced regularly for good total yardage in both running and passing plays. Three drives got as far as the 10, the 5, and the 17. But all of the good work was wasted by six fumbles and one interception. Except for those troubles, said Coach Henry Schroeder, the boys looked

good and the game could have been different.

Windthorst got all its points in the first half, two touchdowns on long runs and a third on a steady drive. Lindsay's only counter came when Andy Arendt caught a Trojan behind the goal.
