## Texas Will Vote November 2 on Ten Amendments

Voters of Texas will go to the polls Nov. 2 to decide the fate of ten proposed State Constitutional amendments. The ten proposals are part of 27 approved for vote by the recent 59th Legislature. One was voted on (and failed)

Sept. 7. The remaining 16 will be up for vote of the people next year. The ten proposed amendments to be voted on Nov. 2 are described briefly below in the order in which they will appear on the ballot:

Number One—provides for a method of payment for acquiring, constructing and equipping buildings and other improvements at certain state institutions of higher learning. It raises state ad valorem tax from 5 to 10 cents per \$100 evaluation and removes a restriction that none of proceeds be used for auxiliary enterprises. The interest rate on bonds or notes is increased from 3 to 4 percent per year. The Constitution now contains set dates for the maturing of

bonds for which is substituted a ten-year period.

Number Two — would increase Veterans Land Fund from \$200 million to \$400 million.

Number Three — permits Legislature to appropriate funds for use in the following categories: (1) needy aged, (2) needy individuals who are permanently and totally disabled, (3) needy blind, (4) needy children, and caretakers of such children. It would raise the appropriation limit for such purposes from \$52 million to \$60 million.

Number Four — provides for four-year terms of office for Governor, Lieutenant Governor, Attorney General, Comptroller of Public Accounts, Treasurer, Commissioner of General Land Office, Secretary of State, and any statutory state officer who is elected by the electorate at large, unless a term of office is otherwise specifically prohibited in the State Constitution. These offices are limited to two-year terms at present.

Number Five — would create an agency of the State of Texas Teacher Retirement System.

Number Six — would provide for an \$85 million Texas College Student Loan Fund available to qualified students attending institutions of higher learning.

Number Seven — would exempt certain charitable organizations from local ad valorem taxes provided the organization met certain conditions and expended at least \$1.5 million annually for free medical and hospital care for Texas citizens. Limited to counties having a population of 1,240,000.

Number Eight — requires automatic retirement of certain district and appellate judges at age 75, or such earlier age not under 70, as may be required by law. Would also create State Judicial Qualifications Commission. This provision would empower Supreme Court of Texas, at its discretion, to retire such judges for disability and to remove them for misconduct upon recommendation of the Commission created by the amendment.

Number Nine — would allow Legislature to set annual salary of Lieutenant Governor and Speaker of the House. They now receive the same compensation as legislators. The proposal sets the per diem allowance for Legislators at \$20 per day for the first 140 days of each regular session, and for 30 days of each special session. As Constitution now stands legislators are paid a per diem of \$25 per day for the first 120 days only of each regular session. The second part of this proposed amendment deals with vacancies in the office of Governor and Lieutenant Governor.

Number Ten — would establish a four-year term of office for State Representatives in lieu of present two-year terms. It would provide that half of State Representatives be elected biennially.

### NEW ATTENDANCE MARK SET AT SIX FLAGS OVER TEXAS

Six Flags Over Texas, nationally acclaimed historical theme amusement park located in Arlington midway between Dallas and Fort Worth, recorded 1,625,743 admissions through Sunday, October 10, topping the 1964 season attendance record of 1,622,566 visitors.

Another month and one-half remains on the Six Flags 1965 season with the Park operating on Saturdays and Sundays only until closing on November 28.

In announcing the new attendance record, Six Flags' founder Angus G. Wynne, Jr., president of Great Southwest Corporation, owner/operators of the popular tourist attraction, said "the success of Six Flags which has now shattered the previous season's attendance mark for the fourth consecutive year is a never ending source of gratification. It also is a challenging thing and one which we delight in accepting, for in order to maintain and increase Six Flags' popularity, we must put our best brains and talents to work each season for new ideas, rides, shows and attractions."

Six Flags, which opened in 1961, has now been visited by more than 6,500,000 people from every state in the Nation, and countless foreign countries.

### Water - Sanitation Group Presents Award to City

Special recognition was given to the city of Muenster last Wednesday at the 25th Anniversary dinner and meeting of North Texas Water and Sanitation Association. The event was held in Decatur with about 160 members and former members present.

A framed certificate accepted by Richard Grewing expressed appreciation to Muenster for having the most persons on the association's list of presidents. Local persons who held the office are Ben Seyler and J. J. Hoffman, both deceased, and J. M. Weinzapfel and Steve Moster.

Certificates were presented also to G. C. Sheets of Celina and B. F. Owens of Decatur, charter members who served as president. Steve Moster served on the program's award committee.

The purpose of North Texas Water and Sanitation Association is to hold monthly meetings at which members can discuss problems in water and sanitation management for their mutual benefit. Attendance at the meeting entitles a member to credit toward a license from the state health department.

The local organization is affiliated with the Texas Water and Sewer Works Association, which sponsors a statewide program for progress in water and sewage management. Muenster persons attending the Decatur meeting were Messrs. and Mrs. Richard Grewing, J. M. Weinzapfel, Steve Moster and Joe Moster.

Former Muenster residents Mr. and Mrs. Harold Beasley of Sweeters, Ind., were back for pop calls with old friends Friday. They make the rounds each year on their vacation trip.

**Lecture Series on  
Alcoholism Given  
To Local Students**

Juniors and seniors of both Muenster schools attended a lecture series on Alcoholism last week in the Public School Auditorium. The series, in four meetings, was given by the Rev. Benno Schluterman, principal of Subiaco Academy, Subiaco Ark.

Terming alcoholism as "voluntary madness," Father Benno said there are seven million alcoholics in the United States, 80 percent of them between ages 35 and 55 years. Seventy percent of them started drinking at the age of seventeen, according to statistics.

His series covered such topics as the "Virtue of Temperance," "Alcohol and the Body," "Alcohol and the Brain and Nerves," and "Pre-Alcohol Symptoms." Alcoholics, the speaker said, usually give as their reasons for drinking: custom, social pressure, relaxation and escape from reality. These subjects, too, were discussed in the lectures.

Three films were shown during the series: "Bottle and Throttle," "Out of Orbit," and "To Your Health."

The lectures will furnish test and quiz material for Father Benedict Buerger during religion classes at Sacred Heart High School.

tending with the group were Sisters Alberta, Mary John, Richard, Henrietta and Barbara.

The midway, exhibits, and free lunch through courtesy of the Fair Association were highlights of the day.

## New Generation...

Each new generation requires more and more electricity. To meet these increasing needs, Texas Power & Light Company is constantly planning and making improvements and additions to its facilities for producing and supplying electric power.

For example, TP&L recently completed a new 240,000-kilowatt generating unit at its Trinidad Steam Electric Station in Henderson County. A new unit at the Stryker Creek Steam Electric Station, in East Texas, will add 500,000 kilowatts in 1966 to meet customer needs. An additional new unit is also under construction at the Valley Steam Electric Station in North Texas.

TP&L invested about \$55 million in new and improved facilities in 1964. Approximately \$100 million more will be spent for construction of new generating units and other facilities during the 1965-66 period.

You can be sure that TP&L and the other investor-owned electric companies will continue . . . through use of private capital . . . to provide ample, low-cost, dependable electric service in the years ahead.

### Lindsay Athletic Assn. Makes Plans For Homecoming

In other business at the meeting Superintendent Glenn Hellman announced an elementary school basketball tournament scheduled for January 27 and 28.

Recognition was given to Norb Mages and his helpers for the work they have done on the play grounds. Swings have been painted, additional lights have been installed under the bleachers, in the gym and grade school dressing rooms. A sink and refrigerator have been added to the concession stand on the football field and repairs have been made to grade school equipment.

Work on the playground now includes equipment that includes two see-saws, a swinging ladder and swings. Monkey bars also are planned.

### Hornets

on Valley View's 33. Next play Bob Russell made 10, a penalty two plays later set the ball back to the 37, and Louis Hellman took a nice 25 yard heave from Virgil Swirczynski and zig zagged to the goal.

The third TD came on the first series after kickoff. Klement stole an Eagle pass and got the help of nice blocking on a 30 yard run to the goal.

On the next series Valley View made 33 yards on a pass. Alexander to Alexander, and Hellman spiked another pass attempt with his interception. Muenster had possession on its 20. Next play was a hard run by Stormer past mid field and brought back to the 15 by a clipping penalty. During the rest of the period the Hornets got back to the Eagle 29.

That was the end of a one sided half in which Muenster led 11-2 in first downs, 177-15 in rushing yardage and 71-33 in passing yardage. The next half was destined to be different as the Eagles had an easy time with Hornet reserves. The change did not come however until late in the third period.

After intermission Valley View started with a first down and kicked on the second series, and Muenster went 52 yards in 8 plays. The big one was a double reverse on which Stormer did some slick side stepping on his 30 yard scoring romp.

An Eagle fumble the second play after kickoff put Muenster back in charge on the Valley View 21. Klement plowed to the 4, Swirczynski sneaked to the 1 and then sneaked over.

Next score came in a hurry. First play after kickoff Swirczynski intercepted and got good blocking on his 40 yard return to the goal. Klement's sixth good kick made the score 42-0.

That's when Coach Polk sent in his little fellows. For the rest of the game they had the job except one 3 play touchdown drive and the kicking plays.

The Eagles responded promptly. Passes to Kupper and Alexander for 32 and 50 made the first Eagle score and another pass to Kupper added 2 points.

As the last quarter opened the Eagles started on their second TD. Six plays made 43 yards and the big one was a pass to Harold Alexander for 26 yards. Dan Alexander ran for two more points.

Next score was more of the same. Two passes to Harold Alexander made most of the yardage from mid field and Dan Alexander stepped off the last 3.

After the next kickoff Hornet regulars were given another bit of action. Three plays were enough. Klement made 30, Stormer made 18, Russell went 12 to the goal. For the first time of the game Klement's kick for point went wide.

The Eagles still had time for another drive which ended in a 2 yard charge by Prescher. He also made bonus points.

### Confetti

faculty members, try to remember that some of those fellows are our worst enemies. They are clever agents whose first aim is to spread communism. They poison young minds, recruit members, spread the red line, encourage and direct treasonable demonstrations. When challenged they claim a right to academic freedom. Well, what do you think? Does academic freedom include the right to advocate overthrow of our government?

In our hearts we know that such people do not belong in our schools. They are clever scoundrels exercising an unfair advantage over impressionable youngsters who have neither the knowledge or the mental maturity to see through their subversive teaching. We'll

have much less student trouble when such people are no longer around to poison their minds.

### Tigers

for a timely block putting the Tigers in business on the 13. Three plays later Clifford Sicking slipped away from three tacklers in a 10 yard romp to the goal. That made the count 14-6 late in the third quarter.

Then the Knights launched their last scoring drive, interrupted briefly by an exchange of fumbles. After 46 yards of gaining they fumbled and Ben Fleitman recovered on the 20. Next play they recovered a Tiger fumble at the same place. From there it was a 2 yard gain followed by Bin-del's dash for 18 yards to the

line. On the kickoff that followed Sacred Heart fumbled giving the visitors another fat opportunity. A pass gained 17 to the 11. Then a fine defensive stand by the Tigers stopped the Knights on the 2.

Sacred Heart made a first down and kicked into the line on the next series and the ball bounced back to the 7. It was another set up for the Knights, but they spoiled it themselves by a penalty back to the 22. The Tigers held again, had possession as time ran out.

### Sanger Kids Lick Pee Wees 30-0

Pee Wees of Muenster Public School were losers by a 30-0 count in their second 9-B encounter Tuesday night at Sanger.

Despite their loss the boys did a fine job, in the opinion of Coach James Polk. Most of the time they were kept under control by superior weight and experience of the Sanger boys but they played well defensively and made some good gains as well.

Sanger scored in each quarter. Best gains for Muenster were good runs by Carl Endres and Andy Knabe and passes by John Monday to David Stormer and Andy Knabe. However none of them went far enough to count.
