

As we approach the bicentennial anniversary of the signing of our Declaration of Independence the event which was the beginning of 200 years of marvelous progress, it would be a good idea to pause for a while and realize that this country really is something special.

Our success story is based not only on a political system that was admired throughout the world, but also on an economic system that was more successful than any since the beginning of history.

Just think: people of this country are, on an average, the best educated and informed people of the world. More of them are going to school and college, more money is invested in education and educational buildings and equipment than in any other country of the world.

American people live like kings and queens. They have more food, more clothing, more privately owned homes, more automobiles, more swim pools, more radios and TVs... in general more necessities and more comforts than any other country of the world.

With all this at our disposal, one might assume that the American people are fully and accurately informed concerning the capitalist or free enterprise economic system, the "money machine" which makes our superior standard of living possible.

Unfortunately, however, that is not the case. The fact is that average Americans are not only woefully uninformed but actually misinformed about the system of economics to which they are indebted for their better living.

An obvious result of this sad lack of information is that it makes it easy for the demagogues the pro-Soviet propagandists and the left wing teachers to spout the most outrageous lies about our country and get away with it. They say, for instance, that capitalism exploits the masses, reaping exorbitant profits on all sales, whereas the fact is that the average business has a very low margin of profit.

But the most obvious evidence is before us every day. We see average people enjoying a comfortable life, by far a better life than people have anywhere else, and especially better than in red countries which are so eager to discredit us. A very good comparison is the story of two visitors. A visitor to the USSR asked about a few dozen cars parked in front of a large factory which is widely proclaimed as belonging to the people. A guide explained that the vehicles belonged to the high ranking officials and party members who were directing the operation. Over here a Soviet visitor asked about the thousands of cars outside a big factory and was told that they belonged to the workers.

The very names given to communist countries and communist industries are monstrous lies. They say "the people's democracy" or "the people's factory", but no individual can personally claim his own share of it. According to the propaganda line every person has a great stake in the whole, but as his own property he has nothing at all. On the other hand America is made up mostly of possessions that are individually owned and can actually be claimed as personal possessions.

It is unfortunate that the average person in this country is not aware of these basic economic facts. Furthermore it is amazing. Imagine a nation full of normally sane individuals who need only to observe the obvious daily news to see that they have by far the better living, but still being deceived by the propaganda line. Apparently people just do not realize the significance when we have abundance and the Soviets have scarcity... that their so called superior system has been on the brink of disaster several times and had to be rescued by the very system that reds despise.

The big question is how can the propaganda be permitted to go on when its falsehood is so obvious? Average people like ourselves can see that US is far ahead, but political, educational and industrial leaders seem to be united in not only permitting

## Community Wheat Tops Expectations

The gloomy harvest outlook of slightly more than a week ago brightened enormously when weather allowed local combines to start rolling.

Yields are reported as surprisingly good, especially considering the dryness at growing time and wetness at cutting time, along with hail damage in some areas.

Wheat is estimated as averaging thirty bushels or more per acre across the community. This includes a few bumper crops of more than 50 bushels and a number of others that made 40 bushels. But unfortunately it also includes crops as low as 8 bushels per acre.

One or more of several factors are believed to be involved in the crop failures. Condition of the soil, variety of seed and shortage of moisture retarded growth. So grain was scarce, and in some cases

## Automatic Carwash Is Newest Business

The newest business in town is an automatic car wash just opened on Sycamore Street north of Wilde Chevrolet by Chris Cain and Dan Wilde.

It features latest designs in equipment with high pressure spray, hot wax unit, vacuum cleaner, and even a \$1.00 changer... along with paved surroundings.

## C of C Broke Even On German Week

Members of the Muenster Chamber of Commerce at their regular meeting Tuesday were pleased to learn that they broke even financially in their recent German Week festival.

David Bright reported that with almost all accounts now settled the special fund shows a balance of \$1,901.25, which is \$98.75 less than the \$2,000 originally deposited as starting capital. However the chamber's share is still due from five participating organizations. After those receipts, Bright estimated, the fund should be about even.

Members accepted the report as good news, especially in view of the fact that the event's entertainment and good will can definitely be regarded as bonus values. Another bonus was experience which will be helpful financially and otherwise at the next festival.

too short to be picked up by combines. Also hail caused severe damage in some areas.

Rain as the grain was maturing delayed harvesting for about a week. Since then the weather has been ideal and combines made use of all possible time, including last Sunday, and the two local grain dealers have been rushed daily into the night.

In the Lindsay area, which is usually a few days ahead of Muenster, many farmers had finished their wheat by Wednesday morning. Muenster farmers are expected to finish theirs by the end of the week, provided the favorable weather continues.

Oats, however, is barely started, except in fields where it was harvested early with a hay baler. Prospects for that crop also are encouraging. Overall it is comparable to the wheat crop, with both high and low yields, and the cash yield per acre should be about the same as for wheat. Baled oats is generally reported as good in both quantity and quality.

Local wheat market Wednesday is quoted at \$3.60 per bushel for hard wheat and \$3.20 per bushel for soft wheat. Most of the crop here is soft wheat, so, with a yield in the low thirties the cash yield average should be near \$100 per acre. At one time that would have been big money but it is mostly absorbed now by the high cost of machinery, seed, fertilizer, fuel and labor.

## Council Appoints Dallas Man as Municipal Judge

John Marshall, an attorney of Dallas, is the new municipal judge of Muenster succeeding Steve Moster who resigned recently because of conflict with other city duties. Marshall was appointed by the city council in its regular meeting Monday night.

The agreement is that the judge will preside at the city court the first Saturday of each month for the benefit of persons who wish to have a hearing rather than pay the fine specified on the arrest ticket.

In normal procedure the arrested person may pay the designated fine at the city hall or send it by mail. However if he wishes to contest the case he may appear before the city judge.

## Pratt and Lewis Win Run-off Races

Muenster voters rallied behind Sheriff Bill Pratt Saturday and helped sweep him back into office with a lead of more than 1200 votes over his challenger J. G. Whisnand.

County wide the win was 3113 to 1897, a substantial gain over Pratt's lead of 342 in the first primary when a third candidate Tom Taylor polled 423 to force the race into a runoff. In May Pratt received 2644 and Whisnand 2302.

Muenster's strong support was a big factor in Pratt's landslide victory. Previously his lead in the two Muenster boxes was 233 votes, and Saturday it jumped to 525 votes. This was due partly to the fact that Muenster polled 140 more votes than in the first primary, and a number of former Whisnand and Taylor supporters switched to Pratt.

Balloting in South Muenster went 110-35 for Pratt and in North Muenster it went 507-57 for Pratt... totals of 617-92 whereas they had been 383-150, and 39 for Taylor in the earlier election.

Likewise in the county wide count, Pratt gained and Whisnand lost from the previous totals while the total number of votes dropped by 351. Outside of Muenster the total number of votes dropped by almost 500.

This was the second time in Sheriff Pratt's political

## Boy Hospitalized By Dog's Attack

Dickie Trubenbach 7, son of Mrs. Betty Ann Trubenbach is in Muenster Memorial Hospital making good progress toward recovery from dog bites sustained last Saturday.

The boy was attacked by a German Shepherd receiving severe lacerations on his arms, shoulders and back and required some three hours of disinfecting and dressing the wounds. The dog is under observation for possible rabies infection.

Sad fact of life — square meals make round people.

## Early Sharing of Estate Advised to Avoid Taxes

"The ideal way to die is dead broke." That was the closing remark of Attorney A. V. Grant Tuesday in his talk on wills and estate taxes before a meeting of the Muenster Chamber of Commerce.

The essence of his message was to arrange one's estate in such a way that it will go to heirs rather than to IRS in inheritance taxes. He said it is very unfortunate that some people have the idea that they are providing well for their children but they neglect taking the steps to pass on their possessions. Sometimes they are just reluctant to give up control, sometimes they hold back fearing that some of the money would be used unwisely. Then time runs out and it's too late to make the intended division.

Even though a person does not die early, the delay can be very disappointing, Grant said. Too often Pop and Mom have more than they need but their kids are struggling and need the money then ra-

## City and County Plan Solution of Drainage Problem

Members of the Muenster City Council Monday night discussed a solution worked out with Commissioner Robert Bayer for the drainage problem on North Sycamore Street. Since the street is the city's east boundary line, the city and county will cooperate on the project. Bayer said work will start as soon as the schedule permits.

Two major steps are involved in the job. One is to establish a large drainage ditch east of the road to carry away the large quantity of water which accumulates in a heavy rain. The other is to install two large culverts allowing the water to be drained from west side of the road to the increased capacity ditch.

## Forestburg News

By Myrt Denham

Charlie and Gladys Barclay had themselves a fast four day vacation the last part of May. On the 27th they headed for Glenrose where they spent the nite with Mr. and Mrs. H. M. Scruggs. The next A.M. they headed for San Antonio where they spent the day visiting with Gladys' mother and two sisters — that nite they were in Jourdan with Gladys' father and wife — Mr. and Mrs. T. J. Linder. Saturday the 29th they were on their way to Port Lavaca to visit their daughter Glenda and family. Sunday the 30th found them in Edna visiting with Mr. and Mrs. Miller Rutledge. Monday the 31st they headed home with a stop-over in Alford so Charlie could check on all his kin there. Charlie Barclay is an old trucker and sure doesn't believe in long stops except at the Forestburg Cafe.

Mr. and Mrs. Jerry Orrell and son along with Mrs. Dot Webb and children of Gainesville spent the Memorial Day weekend on the Kalmichi River in Pushmataha County, Oklahoma. Jerry says this is north of Antlers, Okla., and is beautiful country. They camped out on the river and had a great time.

Helping Laura Belle Jackson celebrate her birthday on May 30 at the Forestburg Community Center were her husband Ted, Mr. and Mrs. L. C. Griffin of Arlington, Mr. and Mrs. Jack Wood, Kaye and Dennis and Mr. and Mrs. Joel Campbell, Kyle and Kevin all of Dallas, Mr. and Mrs. J. T. McCandless and Tod of Matador, Mr. and Mrs. John Brogdon and Carla of Miami, Mr. and Mrs. B. R. Jackson and Janace of DeCatur, Mr. and Mrs. Jack C. Dill and Vatori, Mr. and Mrs. Charles Dill and Keith, Mr. and Mrs. Larry Dill all of Forestburg, Sammy Miller of Fort Worth, and Rev. Rick Ricker of Saint Jo.

Mrs. Jerry Boelter of Arlington and her daughter Mrs. Susie Nation and children of Grandbury arrived in Forestburg Monday p.m. June 7 to spend a few days with Mrs. Boelter's mother Decie Ellzey.

The Dewey Homecoming which was held on June 6 was termed a big success and am told it was one of the largest crowds ever to attend. Folks were there from Arizona, Chicago and Georgia and of course many parts of Texas.

Well, our County elections are over with for a few years. All the stories, rumors, etc., are gone also — we hope. I am certain our candidates heard stories on themselves that they had forgotten and hoped that other people had also. They probably heard things on themselves that never even happened — such is the nature of things. If you want your life history dug up — just run for a public office. My husband said he shuddered to think of all the stuff people would dig up on him if he ever ran for a public office of any kind. Congratulations to the winners and condolences to the losers — perhaps the next time.

Mr. and Mrs. Bud Griffin Bowie were Sunday June 6 guests of Mrs. Vera Mae McGee. Mrs. Gordon Hill and sons of Wichita Falls and Mr. and Mrs. Gce.

The engagement and approaching marriage of Miss Mary Rose Morisak to Thomas A. Henscheid of Arlington has been announced by the bride-elect's mother, Mrs. Louise Morisak of Gainesville. She is also the daughter of the late Alfred A. Morisak.

### Hospital Personnel Busy Attending Workshops on New Developments

Münster Memorial Hospital, in line with its policy of keeping abreast of new developments in patient care, has been well represented during the past several weeks at special seminars and workshops.

The purpose of these studies is to become familiar with new theories, methods and equipment as revealed through hospitals and nursing schools, and to exchange ideas. The information is later shared with other hospital personnel. Typical activities are the following.

April 14. Herman Carroll, Judy Flusche and Joan Walterscheid attended a respiratory therapy workshop at Wichita General Hospital.

April 30. Pauline Stelzer and Joan Walterscheid attended a conference on Nurse and The Law at Grayson County College School of Nursing.

May 13 & 14. Herman Carroll attended a "Small Hospitals" meeting on problems applying to hospitals with 100 beds or less.

May 20. Lorena Taylor and Joan Walterscheid attended special sessions on supply and purchase and nursing admin-

istration at the Texas Hospital Association convention in Dallas. They also toured an exhibit hall with 330 booths of materials, equipment, supplies, etc.

May 19, 20, 21. Miriam Caplinger, business manager, Dolores Lippe, medical records librarian, and Margie Starke, medical records clerk, were in Little Rock, Ark., for an advanced medical audit team

seminar sponsored by the Arkansas Medical Research Association. They attended lectures and workshops on evaluation of quality patient care. The medical audit, now a requirement for hospital accreditation, was presented by staff members from the Joint Commission on Accreditation of Hospitals.

May 25 and 26. Joan Walterscheid and Ann Walterscheid were in Austin participating in the 9th annual conference for the Association of Degree Nursing Faculties of

Texas, sponsored by Texas Education Agency and the U of T system of nursing schools. Joan was one of six panel members (three directors of Nursing and three directors of Associate Degree of Nursing schools.) Their topic was "Issues and Concerns of Nursing Service & Education."

Joan represented nursing service from a small hospital where students (CCC nursing students) are assigned for experience. Mrs. Rebecca McClelland, director of the CCC program, represented the ser-

vice of a small school of nursing. Also on the panel were representatives of medium and large hospitals from Waco and Dallas.

SALE LOCATION: Hickory Smokehouse, Gainesville, Texas; located at 1040 E. Highway 82, East of I-35 in new shopping center.

LOCATION OF PROPERTY: The ranch is 7 miles North, Northwest of Muenster, Texas, and lies North and South parallel to paved Farm-to-Market Road FM-373. It is 1.8 miles West of FM-373 and 2.1 miles East of paved FM-2382. Watch for auction signs to define boundaries.

**YOU CAN BANK ON IT!**

One of the things happening among some of the country's top economists today is a move back to basics under the complicated sounding title, "micro-economics." Applying some of the principles of the "new" approach does prove useful in understanding some of the old economic clicies such as "spend money at home." Let's look at a town through a "micro" view. Call the town Supersmall . . . only five people: Aaron, Bertha, Charles, Dorothy and Edith. Economically the town is stable until Aaron receives ten dollars as a Christmas gift. He buys groceries sold by Bertha, who buys a new dress made by Dorothy, who buys a new battery for a car from Charles, who buys a special home-cooked meal from Edith, who puts the money in her savings account, which will be used by the bank for a loan to Aaron, who will buy from Charles . . . etc. . . . etc. At any point, if one of the people involved in the chain had spent the money out of town, all other economic benefits would have been lost. As things stand, the ten dollars could easily improve the economy of Supersmall by ten to twenty times the original value. Even though super-simplified, the "micro" look at a town's economy is very accurate. Think about it the next time you buy.

vice, a reception was held in the ranch home of Mr. and Mrs. Tom Puckett in Tyler. The bride's table held the three tiered wedding cake, flowers in muted pastel tones and candelabra. The cake was decorated with soft blue and green flowers. Guests were served from a lovely smorgasbord.

**Lawrence Martins On 4-Day Vacation**

Mr. and Mrs. Lawrence Martin crowded a lot of visiting and sightseeing into a four day vacation. Their first stop was at Big Sandy, Texas, to visit friends, Dr. and Mrs. A. D. Schmitt, who formerly lived in Saint Jo, where he practiced.

From there they went sightseeing in Tyler briefly and in Georgetown enjoyed a tour of Innerspace Caverns and a candle factory. In San Marcos they toured Aguilera Springs and Wonderland and saw the underwater show.

North of San Antonio they went through the Natural Bridge Caverns and Cascade Caverns. In San Antonio at Our Lady of the Lake College they visited an aunt, Sister Eleanor Pels and briefly with Sister Victorine Klein and Sister Alban Bezner.

On the return home the Martins stopped at the LBJ Ranch, and joined visitors for a bus tour of the ranch, where points of interest were the birthplace of the former president, the Johnson family cemetery, where LBJ is buried, and the Texas White House where Mrs. Johnson still lives.

Dr. and Mrs. Schmitt and Sisters Eleanor Pels, Victorine Klein and Alban Bezner asked the Martins to bring their good wishes to friends and relatives here.

A shrewd violin teacher finally found the way to make his young student practice. "Look at it this way, Charlie," he suggested. "The more you fiddle, the stronger your pitch-arm will get!"

**Two Ring Nuptial Unites Richard Lautenslager and Nanci Fuhrmann**

Miss Nanci Fuhrmann became the bride of Richard Lautenslager of Denton, Saturday in a late afternoon ceremony at Sacred Heart Church. Father Placidus Eckart, pastor, was celebrant of the Nuptial Mass at 5:30. The double ring marriage ceremony was performed by the Rev. Mr. Maurice Lautenslager, father of the groom and a deacon of St. Pius X Church in Dallas. Parents of the couple are Mr. and Mrs. Val Fuhrmann of Muenster and Mr. and Mrs. Maurice Lautenslager of Mesquite.

In a setting of lighted candles and bouquets of mixed spring flowers, the bride was escorted to the altar by her father. She wore a formal gown designed by Bridal Original, of white silk organza and Venice lace in a daisy pattern. The gown featured a wedding ring neckline of the lace, sheer yoke with matching lace outline and ruffle of sheerest organza with double ruffles at the shoulder. Tiny satin covered buttons trimmed the back of the dress and a white satin ribbon overlaid with lace accented the empire waistline and ended in streamers in the back. The A-line skirt was appliqued with matching lace above the wide, sheer ruffle which encircled the skirt and aisle-wide chapel train.

The fingertip length tiered veil of illusion was edged with a double band of Venice lace and was attached to a demi-cap of lace etched with pearls. The bridal bouquet was a cascade of daisies, pink sweetheart roses, feathered blue carnations, stephanotis and baby's breath. It was centered with a removable going-away corsage of daisies and carnations.

In keeping with tradition she had a blue-lace garter and borrowed pearl earrings from a sister-in-law, Mrs. Tom Fuhrmann; her "something old" was the gold wedding band of her late maternal grandmother, Mrs. W. H. Endres, now belonging to the bride's mother.

Traditionally, she also presented a pink rose to her mother and the groom's mother.

**Attendants**

Bridal attendants were Miss Claire Bowling, a friend of the bride from Sherman, as maid of honor and Mrs. Rob Buehrig, bride's sister of

Honolulu, Hawaii, Mrs. Fred Fuhrmann, bride's sister-in-law of Gainesville, Miss Anne Lautenslager, groom's sister of Mesquite, Miss Becky Fortenberry, bride's friend of Slidell and Miss Barbie Hess, bride's friend of Muenster. Miss Jennifer Fuhrmann, niece of the bride, of Euless was junior bridesmaid and carried the wedding candle which had the couple's wedding invitation incorporated into the design.

All bridal attendants were identically dressed in sheer polyester floor length gowns of powder blue flocked with tiny white daisies, made with a cape collar and butterfly sleeves edged with lace. Narrow blue ribbon accented the neckline and empire waist. Each wore a gold bracelet, a gift of the bride and each carried a white basket brimming with blue, yellow and pink carnations and white daisies.

Little Misses Brandi Fuhrmann of Euless and Valerie Fuhrmann of Irving, both nieces of the bride, were flower girls. They wore short dresses in powder blue, with puffed sleeves, full gathered skirts, with ruffles edged with lace. Each wore a gold necklace with heart pendant, a gift of the bride and they carried white baskets of daisies and carnations.

Best man was Tom Lautenslager, groom's brother of Mesquite; and groomsmen were Jim, John and Greg Lautenslager, brothers of the groom, also of Mesquite; also Scott Upchurch, groom's friend of Denton and Bruce Fuhrmann, bride's brother of Muenster.

Ushering guests were Tom Fuhrmann of Euless, Jim Fuhrmann of Irving and Fred Fuhrmann of Gainesville, all brothers of the bride.

The groom wore a white tuxedo; the groomsmen and ushers wore ice blue tuxedos. Mass Servers were Danny Lautenslager, groom's brother and Kent Fuhrmann, bride's cousin.

Jim Lautenslager, groom's brother gave the Readings for the Wedding Mass. Wedding music was given by friends of the couple. As guests assembled before Mass, Miss Pat Smith, bride's friend of Sherman, played "Colour My World" on the flute, with organ accompaniment played by the bride, Miss Lynda Jacobs, another friend from Sherman sang "More", "Let It Be", "Twelfth of Never", and "Wedding Song", accompanied by Anthony Luke, organist. As the bride and groom knelt at the Blessed Virgin's altar to light their wedding candle Miss Jacobs sang "Mother, At Your Feet." Tim Cole of Denton sang to his own guitar accompaniment, "If", "Time in a Bottle", "I Only Have Eyes for You" and following the recitation of vows "Whither Thou Goest". Anthony Luke, organist, played the processional "Come Saturday Morning" and the recessional "Joy".

Pews for guests were marked in the middle aisle with blue satin ribbon bows.

**Reception**

Following the Nuptial Mass, a reception with dinner and a dance were given by the parents of the bride, in the Community Center, with Mrs.

Heart High and Grayson County College School of Nursing and is a registered nurse employed at Flow Memorial Hospital, Denton. He is a graduate of St. Vincent de' Paul High School of Beaumont and received his BBA in Administrative Management from North Texas State University. He is Business Office Manager at Westgate Hospital in Denton.

Shows for the bride were given by fellow employees of Flow Hospital on May 28 and by former fellow employees at Westgate on May 29; on June 1 former classmates gave a surprise shower in the home of Mrs. Ross Felderhoff with Mrs. Leon Klement, Mrs. Mark Metzler and Mrs. Don Wiese as co-hostesses. A bachelor party for the groom was hosted by groomsmen and friends in Denton Thursday evening. The rehearsal dinner was hosted by the groom's parents at the Fuhrmann home for 35 guests the evening preceding the wedding. A bridesmaids luncheon was held in the Moss Lake home of Mrs. Urban Endres on Friday. Co-hostesses were Mrs. Robert Kupper and daughter Marliese.

Mothers of the couple wore formal length gowns, the bride's mother in pink polyester knit dress and jacket and the groom's mother in blue polyester knit dress and jacket. Both had white cymbidium orchid corsages.

Special guests were Mrs. Fred Morris of Columbus, Ohio, grandmother of the groom and Theresa Luke, great-aunt of the bride. Both wore corsages of daisies and carnations.

For their wedding trip, the couple flew to Florida. The bride's travel attire was a yellow dress and jacket, orange accents and earth-tone accessories, and the corsage from her bridal bouquet. When they return, they will be at home in Denton.

She is a graduate of Sacred

**Air Conditioning and your electric bill.**  
The summer months in Texas are that time when the largest factor in most electric bills is operation of air conditioning equipment. On the average, air conditioning accounts for about half of summertime bills. The most important single factor in holding down the cost of air conditioning is insulation.  
Proper insulation blocks out heat. Six or more inches is recommended for attics, three or more inches for walls and two inches around the ducts of central systems. Insulation dealers or a TP&L Service Representative will help you determine the amounts you have and the amounts you may need to add.  
Replace missing or worn weather stripping around door and window openings. Caulk around the outside of doors and windows where the frames meet the walls.  
You may want to install simple "storm windows" . . . plastic sheeting attached to lightweight wooden frames which completely cover window openings. Awnings will also help.  
Keep fireplace dampers closed when not in use. Close blinds or drapes to block out direct sunlight.  
Keep furniture and draperies away from air outlets and returns. Clean grills often.  
Check filters every 30 days. If you have the permanent type, clean them by manufacturer's directions; if they're the disposable type, replace them when they're dirty.  
Have your air conditioning equipment checked seasonally by a qualified serviceman. Set the thermostat on 78° or higher. Turn equipment off if you will be away from home for several days or longer.

Letters to the Editor

The following is an excerpt from a John Schmitz, former U. S. Congressman, Newsletter that I thought was very interesting and informative and would like to share with your readers:

Supporters of the Equal Rights Amendment have launched a new campaign to obtain ratification of ERA by the necessary states by 1977. Aware that the ratification drive has bogged down all over the country because of effective counter-attacks by Stop ERA forces, women's libbers are redoubling their efforts in favor of ERA.

The name of the amendment is good propaganda but misleading. In areas where women have been unjustly treated, legal means already exist to provide equality. The Equal Employment Opportunity Act of 1972 provides all the legal recourse women need to obtain equal pay for equal work, promotions and jobs based on ability, and equal working conditions. The Equal Credit Opportunity Act of 1974 provides for equality in the area of credit. Equal educational opportunities have been mandated by the Education Amendments of 1972.

Rather than offering a boon to "oppressed" women, ERA represents an attack on women. My wife Mary has said that she opposes ERA because she does not want to be lowered to equality. This comment is more than a quip. It represents an insight into reality which the women's libbers have ignored or refused to face. Until recently, society recognized that women had a special role to play in the preservation of all that is good in a society's heritage: the role of wife and mother, of nurturer and first teacher of the children who would grow up to take their place in that society. Because of the sacrifices demanded of women by this vocation, because of the total intellectual, emotional and physical commitment which a mother gives to her family, society gave women every possible support. Even a woman who worked outside the home because of necessity or personal vocational commitment was also given special considerations in tribute to her femininity. These supports were not offered because women were seen as inferior to men. Quite the opposite. Pagan society regarded women as inferior and in effect enslaved them. Even in the "enlightened" society of Golden Age, Athens, for example, women had no rights whatever. But when Western civilization became Christian, women received their true dignity and were accorded new rights. Some of these rights were equal to those given to men, but others went beyond those of men, giving women the highest status they had ever achieved.

It is only in the twentieth century that this status has come under attack, as part of an overall breakdown in morality and abandonment of Christian principle. ERA is part of the anti-life movement, which has denied personhood to the unborn child and encouraged women to reject motherhood. ERA is part of the anti-marriage movement, which has sent divorce rates skyrocketing. ERA is part of the anti-family movement, which denies that parents hold the primary responsibility for the care of their children and pushes day care and "child development" as replacements for the home and family ties.

ERA specifically denies to women the special supports which have been rightfully theirs. The highest constitutional experts can be called upon to show that the "Equal Rights Amendment" will lower the status of women in the following ways:

ERA would invalidate all state laws which require a husband to support his wife, and would instead impose on women the equal financial obligation to support their husbands.

ERA would impose on mothers the equal obligation to support their children.

ERA would deprive senior women of their right to be supported by their husbands and to be provided with a home.

ERA would eliminate the right of a wife to draw Social Security benefits based on her husband's earnings.

ERA would deprive women in industry of their legal protections against being involuntarily assigned to physically taxing or dangerous jobs, and to compulsory overtime.

ERA would require women to be drafted on an equal

basis with men, should the draft be restored, and would make women subject to military combat and warship duty.

But all of these pernicious effects are not the worst that passage of the Equal Rights Amendment would do. ERA would enshrine as the law of the land an anti-family, anti-woman philosophy. The Supreme Court has ruled that

abortion on demand, denying the right to life of unborn children, is constitutional. ERA would write a denial of the personhood of women into the Constitution, sending shock waves throughout society. One of the slogans of the Stop ERA movement is "You can't fool Mother Nature," and there is perhaps more profundity in that slogan than is commonly realized.

ERA is more than a bad law which should be defeated. It is part of a total misconception of reality and of the fundamental differences between men and women, differences which place corresponding demands on both men and women to fulfill their own special roles in creation. These differences also place demands on society to set up structures which will

provide maximum opportunity for personal fulfillment for both men and women. These differences cannot be wished away. They will remain no matter how many "liberated" women refuse to recognize them. And the refusal to recognize them will lead to untold harm — to children, to men, to women, to society. We see some of this harm already — in the

abuse and child neglect cases in the breakdown of discipline among children, in the increase in suicides, especially among the young.

The twentieth century is the century for "liberation" — liberation from God and from God's law. The women's growing number of child liberation movement seeks after this false liberty. But we must not seek only to stop

ERA. We must turn our attention to restoring women to their rightful status and dignity. The only real alternative is the degradation and humiliation visited upon women in an anti-Christian society.

FORT WORTH — A few weeks ago our farmer friends were very much discouraged with the prospect of the wheat. Now the harvest is nearly ended, and the cheering news is that the crop will be larger than expected. It will certainly be two thirds of a full yield, and, with the immensely increased acreage, we expect Texas to have raised one fourth more wheat than she has ever done before. In a few years we will be able to supply the world with bread.

SAN ANTONIO — Now is the season when none should take less than two baths a week. Men of business or laborers, if they would retire every night with a clean body, washed in the pure waters of the San Antonio River, would awake of a morning in much better condition to prosecute their duties.

SAN ANTONIO — Wm. Smith was arraigned Monday in the District Court, charged with the theft of a watch. He plead guilty, which plea

lies but spreading them. One of our country's current major tragedies is the intellectual conspiracy whereby free enterprise is forced to subsidize the damage done to it. Great American industries have accumulated billions of dollars in foundations which are using the money to promote socialism through left wing publications and left wing instructors and textbooks. The characters behind this educational treachery are plotting to make free enterprise pay for its own destruction. It seems like a stupid thing to do because if they succeed they have nothing left to exploit.

While glorifying our country's proud history, let's also get the record straight on what made it tick . . . and what has to be continued if it will keep on ticking.

They spent much time in Virginia, saw the world's largest shipbuilding company, sailed on Chesapeake Bay toured national historical sites of Yorktown, Williamsburg and Jamestown.

They visited Mt. Vernon and Washington, D.C. where they spent two days and were taken on two guided tours. Included were the White House, Lincoln Memorial, National Capitol, Smithsonian Institute, Arlington National Cemetery, the Changing of the Guard and the J. F. Kennedy grave.

They toured most of New England. Especially memorable were Valley Forge State Park and Independence Hall; they toured the U. S. Mint and saw Benjamin Franklin's grave.

They took the Lincoln tunnel; enjoyed a three hour boat trip around Manhattan and saw the Statue of Liberty. Continuing, they spent two days in Boston, where guides again directed sightseeing trips. They visited Cambridge, Lexington and Concord — saw the famous Old Ironsides ship and Bunker Hill.

As the bus tour turned to begin its travel home they visited the campus of Yale University. They drove through the beautiful Shenandoah Valley, George Washington National Forest and continued on into Tennessee, always stopping at places of historical importance.

On an overnight stop in Tennessee the Hoenigs enjoyed a visit with a grandson, James Pelzel, stationed in Memphis. The last night of the tour, was spent in Texarkana where the group had a farewell dinner. They returned to Fort Worth on June 4. During the 19 days they toured 19 states.

Jason Biffle, who recently celebrated his second birthday, is the son of Mr. and Mrs. David (Herky) Biffle of Muenster and grandson of Mrs. Jack Biffle of Lindsay, and Mrs. Dan Richardson of Forestburg. He is also the great-grandson of Mrs. Lyndell Richardson of Forestburg.

Jason's birthday was celebrated with a friend, Josh Kindiger of Gainesville at Leonard Park on May 22. Guests were each boy's grandparents and 15 friends who attended with their parents. Decorated birthday cakes, lemonade and cup cakes were served.

**Bernard Wolfs Vacation with Kin**

Mr. and Mrs. Bernard Wolf spent a five day vacation in Mission with their daughter and family, the Wilfred Klements and attended the graduation of their grandson Chris Klement. He was the first of their grandchildren to graduate from High School and was one of 79 seniors of Sharyland High in Mission, Texas. Chris plans to attend San Marcos College next Fall.

The Wolfs also vacationed for several days with another daughter and family, the Leroy Koppers of Corpus Christi. Returning through Fort Worth to visit the James Wolfs and in Dallas with the Truman Wolfs, they were accompanied home by Karen and Stephen Wolf, and Scott and Mark Wolf. The four grandchildren were here for a two week visit together.

But there were many other exciting things to add to the fun. There were days on the farm, picnics and fishing. There was a trip to Morton Museum, the Park and the Zoo in Gainesville. And, with their grandparents they explored the streets where the fine, very old houses stand. And one day while touring the Court House, they were received very graciously in the empty court room, given a conducted tour and explanation of court procedure.

Sunday the Truman Wolfs visited his parents & took Scott and Mark home with them. Karen and Stephen returned home Wednesday.

The man who's filthy rich will always find a woman willing to take him to the cleaners.

It is more blessed to give than to receive. Just ask the Internal Revenue.

The most difficult part of an undertaking is getting started.
