MUENSTER, COOKE COUNTY, TEXAS 76252 APRIL 23, 1976

NUMBER 22

There's an irritating angle to current comment about the principle of "majority rule" in South Africa and Rhodesia. The general idea is to create the "one man, one vote" system which, in theory, would establish a smooth democratic operation based on the count of votes.

In the first place, there's a lot of hypocrisy involved in the proposal to let the ballots decide. Most of the pressure supporting that view is provided by the Soviets and Cubans and other Communists who will have nothing to do with the principle in their own countries. Imagine everyone being given an opportunity to vote as he wishes in those dictatorships.

You and I know, and so do all the communist prodded puppets and their supporters, that the real goal in Rhodesia and South Africa is to kick out the present white rule and let the rival black tribes fight for the power grab. In that squabble the red aim is to exploit the local fuses by helping the tribal moguls who can be expected to follow the Moscow plan.

Reds would deny this, of course. Nevertheless we can't overlook the similarity of this situation with that of Angola where the former Portuguese colony was torn apart by red intrigue after which reds moved into the vacuum they had created.

Much has been said about the evils of colonialism in the past few decades. The propagandists claim that European nations were making fortunes and the colonies were being robbed. But too little was said about peace and progress of colonial rule, that the natives enjoyed a much better life than before... also a much better life than they have had since the whites were chased out. The goal now as well as then is a communist created chaos which eventually will be of benefit only to the communist countries.

In the process of this development the first step is a bloody tribal struggle to determine what tribal dictator would succeed the white controlled government. The reports are that tribal antagonism is cooking in both Rhodesia and South Africa, just waiting for the whites to be kicked out.

And another report says that some of the tribal leaders in both countries are supporting the present government because they feel that it is much better than they expect under majority rule. Another factor applies also in South Africa where blacks have demonstrated their hostility especially to Indians. Very recent history convinces us that these could be merely repetitions of the Angola affair.

When people hear the apparently reasonable proposal of "majority rule" they need to understand that they are actually promoting a different form of racism. White governments, which at least kept the peace and brought a relatively high level of prosperity to all, will be replaced by a form of despotism that will have nothing to do with "one man, one vote."

Calling attention to continued effort for anti-gun legislation, Paul Harvey urges congress to think over the deplorable lack of protection that all of rural America will have against crime.

Unlike city folks, these country people have no police near by... no defense whatever when a thug invades their premises with a weapon. As a matter of conscience, the legislators ought to consider whether they are violating a basic human right when they deny a person the means to protect his person and his place.

In fact the same principle applies to everyone. Though cities have officers, the important point is that criminals are crafty enough to attack usually when the cops are too far away to help. So rural and urban folks both need protection from the bad guys who, you can bet, will not comply when government calls for surrender of all guns. As the saying goes, when guns are outlawed only outlaws will have guns.

Maybe the subject needs to be considered on basic principle. The vast majority of people use guns properly but they are threatened with confiscation because a small minority...

The Honorable Omar Burleson, representative of this congressional district, is shown here with Midshipman Ramon Luke to whom he presented a special flag flown over the United States Capitol for use in Muenster's German Week celebration. An accompanying letter from George M. White, architect of the Capitol, certifies that the flag was flown over the Capitol on April 8, 1976. The flag will be on display in the community center during the four day celebration.

German Week Will Open With Historical Pageant

The PTO-sponsored Bicentennial Historical Pageant opening German Week in Muenster will be presented on Wednesday, April 28 at 7:30 p.m. in the MHS Auditorium. Sponsors are enthusiastic about the production and invite a full attendance. There will be no admission charge.

The cast of characters includes all ages from kindergarten through High School. The opening ceremony of the pageant will include the presentation of the flag that has flown over the White House and was brought to Muenster by Annapolis Naval Academy student Ray Luke. It was designated for use during German Week by Congressman Omar Burleson.

Trustees Reveal School Calendar For '76-'77 Year

Members of the Muenster School Board meeting last Thursday night adopted a calendar for the 1976-77 scholastic year. As required by state law they have scheduled 180 class days plus ten in-service days during which the teachers are occupied with a variety of duties such as faculty meetings, instructional workshops, grading papers, making report cards, etc.

The year starts with enrollment and in-service on August 16, followed by two more in-service days and the first class day on August 19. Likewise ending the school year, graduation will be on May 20 and the faculty will be on in-service duty through the 24th.

Breaks during the school year are as follows. Labor Day on September 6; Thanksgiving holidays on November 25 and 26; Christmas holidays December 2 to January 3; and Easter holidays on Good Friday and Easter Monday. In addition, students will be free while teachers have in-service duties on November 12 and 15 and February 21 and 22.

Last week's meeting was the board's first since election of three members, Urban Endres, D. J. Hellman and John David Meurer. Those three were given the oath of office after which the full board met and elected its officers as follows. U. J. Endres is president, Adam Wolf is vice president and Eddie Fleitman is secretary.

These days being told that someone thinks the world of you is no compliment.

Muenster CB Club On CD Duty During Stormy Weather

For the second time in less than two weeks, members of the Muenster CB Club were out on Civil Defense duty Monday night, keeping an eye on the rough weather which by-passed this community and left a path of destruction in northeast Montague county and southwest Love County, Okla.

Reports Tuesday revealed that a mobile home and a house were destroyed and two other homes were badly damaged in the area between Saint Jo and Caps Corner. Also, a barn was destroyed, trees and power lines were knocked down, and one person was slightly injured. From there the tornado apparently lifted off the ground until it came back down in Oklahoma, where four homes were reported damaged.

Another contact of a twister with the ground was reported near the Gainesville air field, but it left no damage.

The local CB Club participated 100 per cent in the Civil Defense weather watch. Eleven units located in all areas of the community and two were busy at the base station. They went on duty at 4:30 p.m. during heavy thunderstorms and a tornado watch and observed until about 10 p.m. when all units came in for a rest break. After that 6 units went out and watched until 12:30, when the weather improved. Throughout the evening local spotters were in contact with the local base which was relaying reports to the Gainesville CD base. Net result of the turbulence here was a very welcome general rainfall and a short, light hailstorm south of town about 7 p.m.

Solar Heat Captured in Experimental Unit at NBC

Use of the sun's energy to heat air and water in local homes may be just around the corner, according to Rufus Henscheid of National Building Centers. More and more people, feeling the crunch of utility bills, and fearing that rates will get worse instead of better, are looking anxiously for a way to capture some of the heat that goes to waste daily around them.

Doing that has already been accomplished, and solar heat is in use in some areas of the country. However, installation cost is still outrageously high so the present goal is to find a way of cutting the cost.

An experimental unit built at NBC appears to be pointing in that direction. It is a simple thing, a sheet of metal on which is mounted some 100 to 120 feet of copper water tubing covered by a double sheet of glass. In this case a double glass door was used and the unit is the size of that door. The pipe and the sheet metal along with the rest of the shallow, box-like structure are painted a dull black, the color that best absorbs the sun's rays. With styrofoam below and the double glass above, the unit is well insulated and loses little of its heat.

The unit's performance has been amazing. Exposed to the sun's rays for only a short time, the water drained from the copper tubing had a temperature of more than 200 degrees. Actually, some steam escaped with it.

This much is accomplished. It is known that the heat can be captured free of charge from the sun's boundless energy. And the question now is how to store the heat for use when the sun is not shining... that is, every night and cloudy days as well.

The proposed method is to use a big underground water storage tank, possibly up to 300 feet deep, around which is a well insulated house.

DST Will Arrive Sunday

Clock changing time is here again. At 2 o'clock Sunday morning the nation will officially return to Daylight Saving Time, which will be an hour ahead of sun time. According to the clocks, daylight will arrive an hour later but will also last an hour longer in the evening.

People are being reminded to set their clocks an hour ahead some time through the night Saturday. If they fail to make the change they may find themselves an hour late for church services Sunday morning.

The year now is divided evenly into DST and Standard time. Next time to change clocks will be the last Sunday of October, when the setting will be back an hour to agree with the sun again.

14 MHS Students Compete in UIL Regional Events

Fourteen students of Muenster High School will be in Stephenville this weekend participating in regional UIL competition. Eight are entered in scholastic events and the other six are in the girls track events. All of them qualified for the regionals by winning in the District 13-A competition.

The literary entries are Kathy Fisher in journalism feature writing, Pat Davidson in ready writing, Dean Sicking in science and number sense, John Eckart in number sense, Kathy Davidson in spelling and debate, Lisa Trubembach in debate, Doyle Klement and Damian Luke in debate.

Girls track entries are Gina Felderhoff in discus, Thelma Lewis in shot, and the relay team of Kathy Fisher, Robin Walterscheid, Laura Sicking and Melissa Weinzapfel in the 880 and 440 relays. In district the girls were first in the discus, shot and 880 relay, and second in the 440 relay.

Food Abundant For German Week

For those who have wondered about the availability of food during the German Week festivities, Thursday through Sunday of next week, the answer is gratifying.

There will be food galore at the concessions, to be eaten there or taken home. Included will be a variety of sausages on skewers, plates or sandwiches, along with cheese, kraut, pretzels, chips, etc., plus breads and pastries... all accompanied by lots of coffee, beer, wine and soft drinks.

And special arrangements for cafeteria service have been made for persons attending the three nights of dances in the community center. Mr. and Mrs. Ed Schneider will have an assortment of meats, with emphasis on sausage, plus a spread of breads, salads and vegetables.

City Missed in Latest Mailing of Sales Tax Checks

The city of Muenster was not included this week when State Comptroller Bob Bullock sent out sales tax rebate checks in the amount of \$11.9 million to 516 cities and towns. The reason is that collections for the period had not reached \$500, which is the minimum amount for the comptroller's check except at the end of the quarter. In such cases the amount is included in the next payment.

Among other cities also missing the payment are Saint Jo, Sanger, Pilot Point and Whitesboro. Area cities receiving payment are Bowie \$13,629, Gainesville \$5,799, Lindsay \$1,287, Nocona \$1,809.

Bullock noted that city sales tax collections increased from \$240.8 million to \$263.9 million in the past year, a gain of almost 10 per cent due partly to increased business and partly to improved collection procedure in the comptroller's office. State sales tax during the year gained 12.5 per cent, from \$1.128 billion to \$1.266 billion, which will enable the state government to get by easily another two years without a tax increase.

Drought Busted

The weather man made up for lost time during the past week, busting the drought that has been hanging on for months and giving local vegetation a new lease on life.

Land is in fine condition for maize and corn crops and the same applies to hay and pasture growing. In the bar-

gain, area lakes and ponds received lots of welcome run-off water from Monday evening's downpour of 2.95 inches between 5:30 and 7:30.

However the big question now is the outlook for small grain crops. The moisture is ample to carry wheat and oat heads through to maturity, but the number of kernels in the average head as well as the density of plants on the ground will have to determine the yield. The general belief is that the crop has been hurt in both of those respects in spite of the healthy bright green color that has persisted through the drought.

Rain of the past week measured 4.87 inches, which is barely under the combined total of 4.91 for the previous 5 1/2 months. It came as three days of light drizzle recorded at .62 inch Friday morning, .63 Saturday and .42 Monday, all of it soaking in perfectly. Then came the mini-cloud-burst which measured 3.20 Tuesday morning and raised the level of area lakes. Total for the month to date is 5.99, and for the year is 8.23, still below average.

Garden Club Hears Program on Plant Health and Beauty

Two 4-H members of Muenster Community Club, Charlotte Fleitman and Claude Flusche presented a Method Demonstration on "Growing Tomatoes" for members of Muenster Garden Club Monday night and answered a round of questions from garden club members. They were accompanied by Mrs. Don Flusche.

To complete the program Mrs. R. N. Fette led a discussion on "Keeping Plants Healthy and Beautiful", with information on insecticides, pro and con, with special reference to container grown plants for either indoor or outdoor culture.

Sylvia Hofbauer presided for the business meeting. She read invitations to the Iris Club Flower show on April 22 and Maggie House Club Flower Show on April 27, both in Gainesville. She also announced the Muenster Garden Club's Flower Show for June 10. Members drew assignments for flower arrangements.

Included on plans for next month is a pot-luck supper on May 10 in the SHH Library. Honorary members will be recognized.

Mrs. B. J. Swirczynski reported progress on the Myrick Play Center.

A general clean up-fix up joint effort is planned with the Chamber of Commerce for April 11-April 25. Kay Pagel is chairman.

Members were asked to volunteer for the Garden Club's Booth during German Week. Several announcements were made during the meeting, including the selection of the Al Felderhoff home for "Yard of the Month" honors; also

APRIL 16-22
FORT WORTH — The new constitution, adopted on February 15 by a majority of 80,000, went into practical operation on April 18. The change at home was not only more radical (than in the legislature and the courts) but infinitely more interesting, with a new slate of executive officers elected for the county.

FORT GRIFFIN — Henderson's band of horse thieves stole 26 head of horses from a rancher 18 miles from this place. A part of "Cow Boys" and Tonkaway Indians was organized and a vigorous pursuit instituted. A portion of the thieving band was overhauled on Croton Cree, 80 miles distant, two days later. Joe Watson, "Red," "Larapie Dan" and a man named Burr were captured. The thieves were accompanied by a prostitute called "Sally."

SAN ANTONIO — Continuing the tradition of military exploration of frontier areas in advance of settlement, Colonel Shafter has mapped the complete topography of the Llano Estacado. His report is at variance with the long-entertained opinion that the Staked Plains were sterile and unprofitable territory. He knows of certain localities where privileges to stockmen and farmers could be enjoyed as full as in other inhabited portions of the West. He strongly recommends that posts be established at several points on the plains, ostensibly to protect the frontier against Indians. But he also realizes that where posts are established, towns soon follow.

AUSTIN — The opening day of the 15th Legislature was April 18. The Speaker of the House and Secretary of the Senate were elected. In the Senate resolutions were passed to provide a copy of the new constitution to each senator and that ice be furnished the Senate at not more than two cents a pound. The senators drew the numbers of their respective seats in the Senate chamber.

AUSTIN — San Jacinto Day was celebrated April 21 all over the state. In Austin the celebration was the occasion of the finest display in the history of the city. Some 80 of the old veterans assembled. Eloquent oratory, a civic procession and banquets were featured in the celebration.

AUSTIN — The campaigns of the three candidates for U. S. Senator, Governor Coke, Judge Ireland and Judge Hancock, are in full swing. Legislators who are friends of Governor Coke caucused and counted 45 sure votes. They anticipate other votes for Coke in the final struggle that will go for Judge Hancock or Judge Ireland at first. It is not likely that the legislature will decide the issue on the first ballot.

SAN ANTONIO — We learn that there is a great dearth of means to purchase wool in the Corpus Christi market this spring and that the prices which will probably be paid will fall as much as five cents a pound short of last year's rates.

Advertised in Leading Texas Newspapers — C. Bain and Company's Line of Four Horse Coaches. Leave Stage Office, San Antonio, Tuesdays, Thursdays, and Saturdays. Time to Fort Concho 57 hours, allowing eight hours rest at Fredericksburg.

Perryman Denham ambled over to Bowie Saturday the 17th to visit his mother, Mrs. Joe Denham and to take in

HOFBAUER'S

Mrs. Bertha Thompson of Wichita Falls spent several days recently visiting her step-mother, Mrs. Martilla Brewer. Mrs. Thompson, Mrs. Frances Brewer, and also Mr. and Mrs. Frank Harris of Duncan, Okla., had dinner with Martilla on Easter Sunday.

The Jack Dills honored their oldest son Charles of Dallas with a birthday dinner on Easter Sunday. Charles was born on Easter Sunday 22 years ago. Others present for the occasion were Charles' wife Beth and their son Keith, the Ted Jacksons, the J. T. McCandlesses and Todd of Matador, the Bill Jacksons of Decatur, Janice Jackson of Weatherford, Elvin Jackson of Lubbock, Doyle Gates and the Larry Dills. Mrs. Shirley Brogdon and Pam of Miami dropped in later and also visited the Barney Brogdons.

On Saturday nite, April 17 the Howard Sockwells enjoyed a pot luck supper with the Eddy Gilmers and David, the Bobby Jacksons and Brian, the Kenneth Corleys and Bud all of Denton, the Bill Kenas, Kathey and Trey of Argyle, Doug and Gay Fowler of Dallas and Cliff and Todd Glasgow of Fort Worth. All these folks had their camping trailers parked on the Julie Pierce place east of Forestburg. Then on Sunday they went fishing at the Sockwell Lake and that nite they gathered at the Pierce place for a fish fry.

The A. G. Barclays spent Easter Sunday in Alvord with his mother, Mrs. Claud Barclay. Speaking of Charlie — he never seems to miss "roll call" every morning at Poole's Cafe. Am told most of our hard working gents start gathering in around 9 a.m. to start swapping tales. Can't figure out what they find to "yow" about every morning — all them ole cow stories have been told for years.

The Forestburg area finally got its long overdue rains. From late Easter Sunday till about dark-thirty Monday the 19th we had two inches in the Dewey area with more predicted to come. Might add that this column was written by candle-light as our electric power went out about 7 p.m. Monday. Makes me think about my "young days" on the farm except we did have kerosene lamps then.

Would like to mention that a very nice lady out Stoney Point way celebrated her birthday on April 21 — none other than Mrs. Ross Littell.

I BELIEVE more emphasis should be placed on preventive law enforcement and preserving the peace.

I BELIEVE the welfare of our young people should have a high priority, and anything that tends to harm or destroy their welfare and safety, should be dealt with in a swift and decisive manner.

Sew Fair set for April 27

Fairs don't always mean ferris wheels and cotton candy. Sometimes they mean learning more about sewing. A Sew Fair will be held on April 27. An afternoon session and an evening session will be conducted giving the same information. They will be from 1:30 to 3:30 p.m. and from 7:30 to 9:30 p.m. Exhibits will be open for home sewers to view thirty minutes before and thirty minutes after the program.

Programs to be given are: "Fashion and Fabric Trends" by Claudia Mitzel, Consumer Education Specialist and "Finishing Tips for the Ready to Wear Look" by Margret Vanderpoorten, Clothing Specialist. Both Miss Mitzel and Miss Vanderpoorten are with the Texas Agricultural Extension Service. "Care of your Sewing Machine" and "Sewing Machine Problems" will be presented by Mr. Gene Harris, with Singer Sewing Machines.

Exhibits will also be set up by several Gainesville Merchants and Family Living Committee Members. These will include proper pressing equipment, sewing trims, interfacing, sewing notions, and others.

Door Prizes will be given complimentary of several Gainesville Merchants. The Sew Fair is open to anyone interested in home sewing. There will be a .50c charge per person to cover expenses for the event. The Sew Fair is being sponsored by the County Extension Service, and the Family Living Committee.

JUNIOR 4-HERS
Junior 4-Hers met at Sacred Heart on April 6. Sixteen members and one adult leader attended. Dale Swirczynski presided and led the inspiration. Qualifications for invitations to the Achievement Ban-

quet were discussed. The bowling project created much interest. For the program members studied about chain saws, took one apart and examined the pieces. Joe Koerschner is club reporter.

Twenty five members were present for the April 6 meeting of Sacred Heart girls senior 4-H club. Mary Hinton attended and Sharon Rohmer presided. Sandy Voth read minutes of the previous meeting and conducted roll call. Stacie Walterscheid gave a report on the Method Demonstrations held recently at Sacred Heart High. Mr. and Mrs. Lee Toothaker were chosen as the club's nominees for "Deserving Senior Citizens in Muenster."

WALL PAINT.

It looks great when you put it on, and it stays that way. The colors match, and they don't fade or yellow. I've scrubbed it with scouring powder, and the paint stays put, while all the dirt marks I added came off.

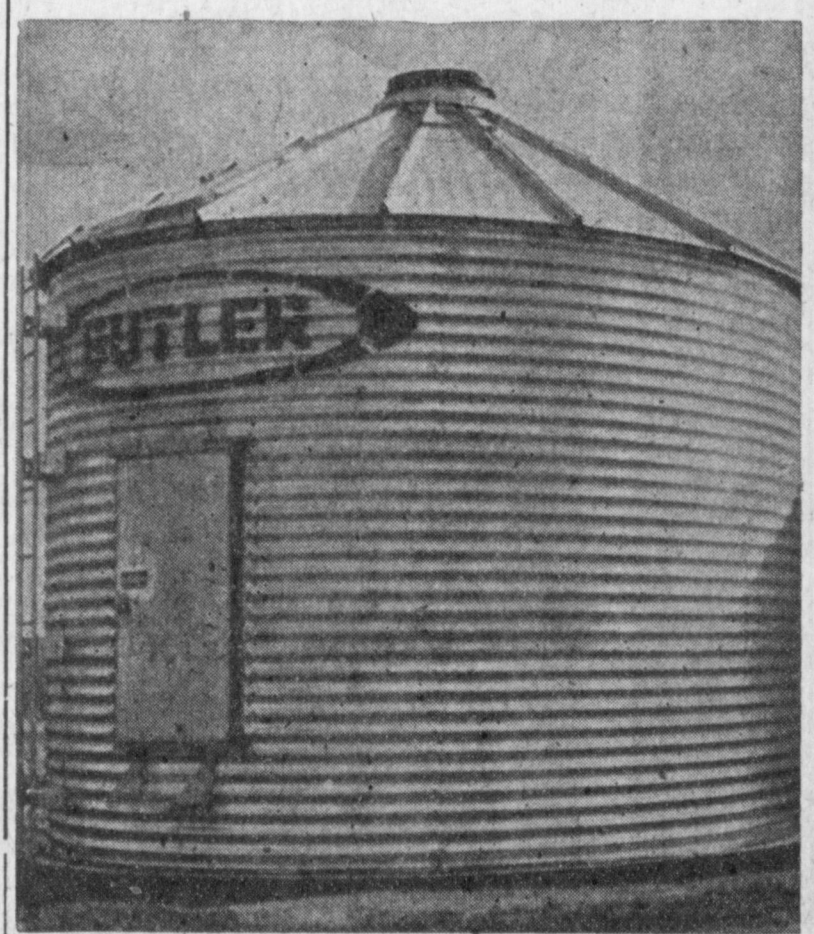

If you want your next wall painting project to be fast and easy, look great, and stay that way . . . try Satin-Tone, by Colony Paints.

YOU CAN BANK ON IT!

Protecting the currency of the United States from counterfeiting is the responsibility of the U.S. Treasury Department. Its agents must be constantly vigilant, because any successful counterfeiting operation could seriously hinder commerce of the country.

Often the trail to a counterfeiter begins with an alert bank teller, or others in the bank who daily handle currency. Some experienced bank personnel can immediately tell by the "feel" of a bank note that it is counterfeit, no matter how good the engraving, or printing job.

Once alerted by the bank that counterfeit bills are being circulated, trained Treasury agents have been amazingly successful tracking down counterfeiters. As a result, the country's currency has never been placed in serious jeopardy by bogus bills.

The U.S. has never taken kindly to those who would counterfeit its money. At one time, counterfeiting, or passing counterfeits, was declared "a felony punishable without benefit of clergy" . . . a legal malediction reserved for only the more heinous crimes.

Visitors in the Ross Littell home April 11 were the Hal Wallings and son of Wichita Falls, the Steve White family of Dallas and Mrs. Lizzie Gardner of the burg.

Volunteers to staff the society's booth during German Week were accepted and are now painting tables for use there.

Following both meetings St. Anne's and Saint Joseph's Societies enjoyed a joint social hour and lunch.

SENATOR TOM CREIGHTON

Is against collective bargaining and the right to strike for public employees.

Many Eastern states and cities, due to state laws which permit state and city employees to bargain collectively and unions which ignore laws forbidding strikes by public employees, are nearing bankruptcy. I want to be sure that never happens in Texas.

Union garbage men in New York City are paid \$18,000 a year. Strikes frequently stop garbage pick up and police and fire protection. Teachers in many Eastern cities have walked out in labor disputes, totally shutting down public schools for months at a time.

I don't believe that is what the citizens of Texas and the 22nd District want from their public employees. My opponent favors collective bargaining for public employees. I don't.

EVERYONE BENEFITS FROM THE HEALTHY ECONOMY IN TEXAS, including public employees. By using their right to collective bargaining and the threat of strikes, the public employees of New York have driven the nation's largest city to the edge of bankruptcy. Other cities, such as Detroit, are in nearly as much trouble.

AS LONG AS I AM IN THE TEXAS SENATE, I will be working to prevent that from ever happening here. I'll be working against greater collective bargaining rights for public employees. I'll be working to keep our right-to-work laws. And I'll be working to maintain a tax system in Texas that will continue to attract companies wishing to move here from the East—companies that don't like what is going on there any more than you and I do.

Hobbs Submits Statement To Voters of Precinct 3

My Fellow Citizens:
On February 2, 1976, I placed my name on the Democratic ballot for County Commissioner of Precinct 3. Since that time I have made a concentrated effort to meet each of you personally in Precinct 3. However, I know that I have missed many of you because of your busy schedules. If I have not visited with you personally I will put forth an effort to do so before the primary voting begins on May 1, 1976. However, for those of you I have visited with and those I have perhaps missed, I would like to tell you something about myself, my family and my views on County Government.

I was born on Dec. 7, 1929, in Vega, Texas, west of Amarillo. I am 46 years of age. I came to Cooke County in 1945 and am a graduate of a local high school; I have attended Cooke County College two semesters. I am married and have two children. I am a member of a local church and have been active in local civic and community affairs. I have lived in Cooke County for the past 31 years and I am a property owner and tax payer. After graduation and military service I farmed locally

for twelve years. I have been employed for the past 12 years in Precinct 3, in which Earl Taylor is now the County Commissioner.

I am keenly aware that the job of County Commissioner encompasses more than the maintenance of our roads and highways, as important as that duty might be. I believe in a strong independent voice in the expenditure of your tax dollars. I know we are going to have to find new and creative, responsible ways to meet the many problems facing our people. I believe that the spending of the tax dollars should be conservative and responsible. I believe it is important to stay abreast of State regulations on local governments in order to retain as much local control as possible because local government can be more responsive to our people's needs.

If elected your County Commissioner I will endeavor to approach every problem with an open mind. I will give you an independent voice in the affairs of County Government. I believe that the County, like your family and mine, needs financial planning and projection in order to avoid unnecessary borrowing and/or bond issues. Finally, what concerns you and your family concerns me and my family. My roots are deep in this County and I would never do anything which I did not believe is best for the majority of our citizens. Most important, I would not ever give you, the people, reason to regret nor apologize for your support. I sincerely solicit your vote on May 1, 1976.

Signed, Robert Hobbs

"How do rising fuel prices affect my electric bill?"

Texas Power & Light generating plants require enormous quantities of natural gas, lignite coal and, when deliveries of gas are curtailed, fuel oil, to produce electricity.

In 1975, TP&L's fuel costs were \$147 million, more than five and a half times greater than in 1970. In 1970, only 15 cents of each dollar paid to TP&L by its customers was used to purchase fuel. In 1975, fuel required 37 cents of each revenue dollar.

Unlike most businesses, TP&L cannot automatically raise the basic price of electricity as the costs of producing it go up. TP&L's rates are established and altered only by resolution or ordinance of city councils. For this reason, TP&L, and almost every electric company in the nation, has a fuel adjustment provision in its rates.

When TP&L's fuel costs exceed 70 cents per million BTU's (the equivalent of 1,000 cubic feet of natural gas), the adjustment

provision permits us to pass on to our customers the additional cost. TP&L makes no profit on the fuel it purchases.

"What is TP&L doing to offset rising fuel prices?"

To offset the rising prices of natural gas and fuel oil, TP&L and two other electric companies are constructing large generating units which use relatively low cost lignite coal as fuel. Two such units have been in operation since 1972, a third unit was placed in service in 1974 and a fourth in 1975. Five other lignite-fueled units are now under construction and still more are being planned.

For almost sixty-four years, Texas Power & Light has supplied dependable electric service at a fair price. We're working to keep it that way.

Hornets Lose 2 To Pottsboro and Win 1 at Frisco

Muenster's Hornets lost a double header to Pottsboro on the local field last Wednesday, then took a surprise win at Frisco Thursday. The double loss was a blow to their previous hot record dropping their standing down to 6-3, however the Thursday win upped the record to 7-3.

First game with Pottsboro favored Muenster 6-3 at the end of the fourth, then the visitors rallied and tied the count in the top of the fifth. Both teams rallied in the sixth with Pottsboro adding 5 while Muenster could add only 3. So, the measure of the Hornet loss was 11-9.

Nick Walterscheid and Dan Endres shared the pitching job and between them allowed 9 hits and 7 walks while fanning 4. Meanwhile the visiting pitcher allowed 10 hits as follows by the Hornets: Mike Davidson 3 singles, Kim Walterscheid and Tim Wolf each 2 singles, Nick Walterscheid a double, Dan Endres and Randy Reiter each a single.

The next game was an easy one for Pottsboro, apparently on the momentum built up at the end of the opener — or perhaps it was a Muenster let down after the first one went sour.

Tim Wolf pitched all the way giving up 4 hits and 8

walks and striking out 5. Pottsboro's pitcher allowed 2 hits and 6 walks and fanned 5. The Cardinals scored 1 in the second 3 in the third and 2 in the sixth whereas the Hornets were held to a single tally in the third. The two MHS hitters were Tim Wolf and Carl Pagel, each a single.

Thursday's game at Frisco was a turn-around of the first one with Pottsboro. This time Muenster was hopelessly behind by a 10-1 count at the end of the fourth, then put on three big innings of a sustained hit and run spree to salvage a 12-11 win from the seemingly impossible situation.

In the fifth MHS added 4 runs on 5 hits, in the sixth it added 3 runs on 4 hits, and in the seventh it scored 4 on 2 hits and 2 walks.

Frisco's run in the sixth gave it an 11-8 lead going into the seventh when Muenster filled the bases on a single and two walks before Tim Wolf put the Hornets ahead with a grand slam homer. That was the end of the scoring and the final count was 12-11.

Dan Endres and Neil Walterscheid gave up 7 hits and 4 walks in six innings and Tim Wolf kept the Coons under control in the bottom of the seventh. He gave up a lonesome walk that died on base. Frisco's pitchers allowed 17 hits and 3 walks and had 17 strikeouts while Muenster's trio fanned only 3.

Tim Wolf led the hitting with three singles and the grand slam homer. Mike Davidson got 3 singles, Dan Endres a double and a single, Bob Endres and Kim Walterscheid each 2 singles, Randy Reiter, Nick Walterscheid and Neil Walterscheid each 1 single.

Notoriety uses them for crime. Now, does it seem right that good guys should be punished because of the misdeeds of bad guys? ... especially when we know that the situation will be even worse when good guys surrender their guns and the bad guys keep them.

The only gun law that makes sense is mandatory tough punishment of anyone convicted of using a gun in a crime. After all, guns are not at fault, but only the persons who use guns for crime.

CB Club Has 2nd Weather Watch

Members of the Muenster CB club had their second session of community service Thursday night when they spent slightly more than three hours at a weather watch.

They had eleven spotters on the job at locations of 4 to 5 miles south, west and north of town from 8:15 to 11:30 p.m. Melvin Koelzer was the base operator receiving reports from the watching stations and forwarding them to the Civil Defense unit at Gainesville. However, conditions improved and the weather watch was called off at 11:30. Tim Hartman keeps the log book for severe weather.

The activity came the day after a meeting with the Gainesville CD coordinator Tom Watson in the Electric Co-op building. He showed a film on severe weather, also advised people to clear yards of lawn chairs, mowers, playthings, and other objects that might be tumbled around and damaged.

Region Qualifiers Of Hornets Run in Marietta Meet

Hornet trackmen went to the Marietta meet last Friday just to practice in certain events but not to try for the honors. MHS boys competing were regional qualifiers only and they limited activity to the events in which they will compete at the regional.

Albert Zimmerer ran his best half mile ever to win first place with a time of 2:03.3.

Also Mark W. Sicking set a new MHS record in the 440 yard run with .53 in the preliminary, and decided not to run the final but rather to rest before the 220 yard dash, in which he was third with 23.2.

Muenster was second in the 2 mile relay with a time of 8:46, and the runners were Dean Sicking, Mark L. Sicking, Andy Serna and Deryl Zimmerer.

And in the 2 mile run Andy Serna ran sixth.

Final pre-regional action for the Hornets will be a regional qualifiers meet Saturday at Saint Jo. Class B and A schools from all over North Texas are expected there to give their regional entries a final practice before the big event.
