

Omar Burleson's newsletter notes that gun control legislation, which seemed unlikely a month or two ago, is gaining support as its advocates are busy "compromising" with the opposition in the House Judiciary Committee. The present top objective is banning the "Saturday night special", the cheap low quality pistol used so much in crime.

This is the kind of proposition that sounds all right but needs to be considered with caution. Though it seems to be aimed only at the criminal, it may be loaded with other provisions that concern also the law abiding gun owners. It may be a foot in the door, and a big one at that, to complete gun control.

The answer to this proposal is still the same as it was originally. The country's problem is not with guns but with people. The only legislation that makes sense is that which sets a mandatory penalty on a crime committed with a firearm. It will serve the purpose of reducing crime because some criminals will be afraid to carry the weapon, and those who are caught will be taken out of circulation.

And the second major objection is that a gun control law would take guns away from the law abiding, but criminals would not surrender them. Anybody ought to know that this kind of control is a phony that makes the situation worse instead of better. So he has to wonder about the motives of the control advocates. Are they really trying to disarm the criminals, or us other people?

Despite the total lack of merit, this new effort can possibly be regarded as an indication of a better outlook in the future. Polls are showing a change in public attitude toward crime, a sign that lawmakers more and more will be expected to go after criminals instead of guns. Other polls are also saying that America has started the swing toward conservatism, so there will be fewer liberals after election to support the control legislation.

If those two signs are correct it is very possible that the present legislative effort is a desperate final attempt to get this law on the books... prompted by a belief that the chances will get slimmer from now on. And if that is the case it is most urgent that this effort be stopped.

A related subject of similar concern to the law-abiding is the effort to place an amendment on the "Criminal Justice Reform Act of 1975" imposing severe restrictions on the right of a person to defend his own home. Actually, some interpret the present law as already denying a homeowner the right to use a deadly weapon against a burglar unless gravely threatened. Some states, New York for instance, already limit the right of a person to use a fire arm in protecting his home and family.

One wonders how any sane person could have such an absurd idea. If the law were enacted, the only way a person could know whether he has a legal right to use a gun in his defense is to read the criminal's mind.

The amazing thing is that people with the ability to be in the legislature apparently think that a burglar has the right to rob us if he does not harm us. Where do they find that in the Constitution?

The idea suggests that a homeowner would first have to interview the burglar and ask whether he intends to harm anyone. Or, to put it another way, an intruder could advise the home defender that he is not allowed to shoot him unless threatened by death or serious injury, then go on with the burglary.

This thing could even go to the extent of making the homeowner liable to the burglar who raids his property. Suppose the intruder was injured and testified in court that he was not threatening to kill the home-owner or do any serious bodily injury... the home-owner, not the burglar would then be in trouble.

Those who advocate gun control seemingly have equal disregard for a person's right to defend his home. The old saying that a man's home is his castle would have lost its

Another Year of Progress Reported by Electric Co-op

By Gene Davenport
An enthusiastic crowd gathered in the Muenster Public School auditorium Monday evening, May 17, for the annual meeting of Cooke County Electric Cooperative.

After invocation, Vincent Zimmerer, secretary of the Co-op, read the Notice of the Annual Meeting and the minutes of the last meeting.

Following this action, Mike Sloan, general manager, made his report on the cooperative's operation. He discussed in some detail the increased cost of power produced from conventional fossil fuel sources, pointing out that even though these adverse conditions have existed over the past year, kilowatt hour sales increased 2,727,000 for a total of 216,718,000, just slightly over a 1% increase.

Average monthly kilowatt hour consumption by all consumers showed a decline for the first time in the history of the cooperative, reflecting conservation efforts by consumers to reduce their consumption because of the rapidly increasing cost of electricity.

Mr. Sloan then discussed the newly organized Public Utility Commission, stating that rural electric cooperative consumers as well as others will have a regulatory body independent of the utility itself which will provide a forum to which they can complain and from which they can expect to receive the facts regarding their cost of service as well as regulations to other conditions of their electric service. "While regulation by the new commission will be an added burden to us insofar as required reports and regulations are concerned, we are hopeful that regulation by the Utility Commission can provide the type of regulation where the consumers as well as the utility companies themselves will feel it is effectively carrying out the job for which it was created by the legislature."

Austin University in Nacogdoches and has been employed by Rio Airways in Killeen and Crawford Flying Service in Nacogdoches. sumption because of the rapidly increasing cost of electricity. 216 meters were added to the system bringing the total served to 6161. This was a smaller increase than in recent years, but considering the low level of home construction in the area and the overall economic conditions prevailing during the year, it was a greater increase than expected.

Mr. Sloan then discussed the newly organized Public Utility Commission, stating that rural electric cooperative consumers as well as others will have a regulatory body independent of the utility itself which will provide a forum to which they can complain and from which they can expect to receive the facts regarding their cost of service as well as regulations to other conditions of their electric service. "While regulation by the new commission will be an added burden to us insofar as required reports and regulations are concerned, we are hopeful that regulation by the Utility Commission can provide the type of regulation where the consumers as well as the utility companies themselves will feel it is effectively carrying out the job for which it was created by the legislature."

In his closing comments Mr. Sloan stated he has enough confidence in American ingenuity to think that when the people of this country set their minds to it, that other sources of energy can and will be found and developed to provide energy at a relatively inexpensive price. "I also feel that the cooperative will continue to grow and to serve your future needs for electric energy as we have in the past. With your continued confidence and enthusiasm of the employees and the directors,

Hornets in Playoff with Wildcats for 13-A Title

With a strong finish in an uphill season, the MHS Hornets moved into a tie with Callisburg for the 13-A title by clobbering Windthorst Monday in a double header.

Some two weeks ago Callisburg was 5-0 while Muenster was 1-1 and still faced four more, including Callisburg. Coach Nick Petro said then that the Hornet aim was four straight wins to tie it, then beat the Wildcats in a playoff. To now it has gone as he planned. The teams are deadlocked and the shootout is coming Thursday at 4 on Gainesville's Locke Field.

The Hornets had three great games down the home-stretch of their district race. Playing at Midway last Friday, they demolished Petrolia 11-0 as Tim Wolf allowed only one hit and no walks while fanning 10. Meanwhile MHS hammered Petrolia, and Mike Davidson headed the barrage with 3 for 3.

Tuesday they gave similar treatment to Windthorst in a double header here. First game was 12-1, called after 4 1/2 innings on the 10-run-lead rule. The next one went 6 1/2 innings with the Hornets winning 5-1.

In the first one Dan Endres pitched the full five and gave up 1 hit and 2 walks while fanning 4. On the other hand Hornet hitters were having a picnic of long hits. Mike Davidson got a homer and a single, Nick Walterscheid 2 doubles and a single, Tim Wolf a double and a single. And 10 stolen bases further improved the scoring.

In the next one Tim Wolf allowed 6 hits and no walks and struck out 4. And Hornet bats kept banging. Nick Walterscheid got 2 more singles, a record of 5 for 6 in both games. Also Neil Walterscheid hit 2, Tim Wolf, Randy Reiter, Kim Walterscheid and Lenzy Dyer each got 1 hit.

Baskets of peach-colored gladioli and white stock complemented the colors of the bridesmaids' dresses. Presented at the altar by her father, the bride wore a gown of white organza and re-embroidered Alencon lace, fashioned with the mandarin collar and bodice overlaid with the pearly lace, full lantern sleeves, appliqued with matching lace traced with pearls. The waistline was the perfect complement to the full circular skirt and flowing chapel length train. The elbow length bridal veil of white illusion was accented with appliques of re-embroidered Alencon lace and bridal pearls.

During the ceremony, the couple lighted the wedding candle, designating that Christ is the head of the household and center of their lives. Preceding the ceremony, as the bride approached the altar she presented a red rose to her mother, and as she turned to leave the altar she paused to give a similar rose to the groom's mother.

Mrs. Karlyn Hermes, sister of the groom, registered the guests as Kellye Klement another sister, gave guests a personalized "thank-you" scroll from the bride and groom. The reception and dinner were hosted by the bride's parents in the fellowship hall of the church. The bride's table was decorated with tiered candles and the bridesmaids' bouquets. Guest tables were decorated with baskets of pittisporum foliage and white flowers and green ivy. Mrs. Corinne Scholl of Tomball and Alicia Schmitt of Texas City served the wedding cake while Karen Patterson of Austin served the groom's cake. Silver Jubilee at Lindsay Honors Msgr. Hubert Neu

Monsignor Hubert J. Neu, who was ordained to the priesthood on May 30, 1951, by Bishop Augustine Dangelmayr in St. Peter's Church of Lindsay, was honored by parishioners of his home town and relatives who attended his silver jubilee Mass at 3:30 Sunday and held a reception and dinner following.

Concelebrating the Mass were Father Damien Wewers, pastor of St. Peter's and Father Francis Zimmerer, pastor of Assumption of the Blessed Virgin Mary, Decatur.

Monsignor Neu was accompanied to the sanctuary by his parents Mr. and Mrs. Joe J. Neu. Twenty five First Communicants formed an honor guard, carrying silver candles. Jerry Metzler was narrator. Jim and Sandra Bayer and Guy Bindel gave the readings. The Lindsay adult Choir provided music and led congregational singing.

In the Offertory procession were Brian Bindel bringing the ordination candle used 25 years ago; Aaron Hoenig presented wheat; Sandra Bayer presented a chalice of grapes; Guy Bindel carried the dove, symbol of the Holy Spirit; Chris Bayer carried the stole; Benny Bindel presented the chalice, Diane and Marilyn Neu and Carla Hoenig carried the bread and wine.

The Meditation following Communion, "Our Prayer for Monsignor Neu" was read by Benny Bindel. Sister Lenore of Muenster and Sister Ferdinand of Lindsay planned the Liturgy. St. Peter's Society and St. Anne's Society were in charge of arrangements.

Following the jubilee Mass,

dinner was served in the Cafeterium, catered by Mr. and Mrs. Walter Lutkenhaus. Centerpiece on the honored Monsignor's table was a cake in the shape of an open Bible, baked, decorated and served by Mrs. Jerry Walterscheid.

All of Monsignor Neu's brothers and sisters were present with his parents, and included the Charles Neu family, the Wilfred Bindel family, the James Bayer family and the Raymond Hoenig family. His grandmother, Mrs. Joseph F. Neu also attended.

Visiting clergy included Father James Gillespie of Gainesville, Father Placidus Eckart of Muenster and Father Anthony Gajda of Valley View.

Out of town relatives attending were Mr. and Mrs. Urban Flusche, Julie Flusche and Rick Falkiewicz of Dallas; Mrs. Regina Flusche. Mr. and Mrs. James Flusche and family, Mr. and Mrs. Lawrence Flusche, all of Decatur; Mr. and Mrs. Joe Simeroth and family of Fort Worth; Sister Patricia Ann Zimmerman of Jonesboro, Arkansas; Mr. and Mrs. Jim La Fan of Austin; Mr. and Mrs. Richard Zimmerman of Grapevine.

Hubert J. Neu was born in Lindsay on May 28, 1927, the son of Mr. and Mrs. Joe J. Neu. He attended St. Mary's School in Gainesville, Lindsay Schools and St. John Seminary in San Antonio and was ordained on May 30, 1951 by Bishop A. Dangelmayr in St. Peter's Church where he celebrated his First Mass the following day.

Parish assignments beginning in 1951 have included St. Bernard's and St. Monica's in

Sickings Host for Mother's Day Event

Several families gathered in the Wilfred Sickling home Sunday to observe Mother's Day.

Mr. and Mrs. Aubrey Chapman, Valerie, Trey, Charles and Anne came from Richardson; Mr. and Mrs. Joe Walter, Mr. and Mrs. Bill Graham, Kirk and Kyle, Mr. and Mrs. Keith Clegg and Mr. and Mrs. Sammy Sparkman came from Gainesville, Mrs. Larry Grewing joined the group in the afternoon. Other Sickling children there were Nancy, Gary and Tim. All the mothers were especially honored, receiving gifts, cards, flowers and love. Mrs. Wilfred Sickling prepared the noon meal. Group and family pictures were made and the children enjoyed horseback riding.

The Keith Cleggs were telling excitedly about their recent purchase of a big, old two story house on Denton Street in Gainesville. They have moved in and are remodeling it themselves. Of

unusual interest are the three fireplaces which they plan to restore. The Wilfred Sickling family helped several weekends with painting, cleaning and moving.

The Sammy Sparkmans have also moved recently. They are getting settled in the home they bought on Throckmorton St. Peggy and Sammy's parents helped them move.

SH Teachers Hear Calcutta Nun on Poverty in India

A group of teachers from Sacred Heart were privileged to hear a most remarkable woman speak when they attended a program Monday night May 10 in Fort Worth, in the Tarrant County Convention Center.

Mother Teresa of Calcutta, Albanian by birth, founder of the Missionaries of Charity in 1950, spoke to a crowd of over 3,000 and told of her work with the poorest of the poor. From the beginning,

the work of Mother Teresa attracted lay people in every part of the world who wished to have some part in the work of loving service to God in the person of the needy. Out of this group grew the "International Association of Co-Workers of Mother Teresa."

Because of her 25 years of work among the lonely, abandoned, wretched and destitute, Mother Teresa has been nominated for the Nobel Peace Prize.

Attending the program from Muenster were Father Stephen Eckart, Brother Thomas Moser, Ruth Felderhoff, Dorothy Bengfort, Anna Hermes, Sister Lenore, Sister Lillian Marie, Sister Fidelis, Sister Alberta and Sister Georgia.

The next time you wonder about the high price of food, keep this in mind: When a farmer has to know the botanical name of what he's raising, the zoological name of the insect that eats it up, and the chemical name of what will kill the pest — somebody has to pay for it.

Conceding Defeat

Is the opposition conceding defeat? Evidently they are since they are spreading rumors as to who my deputies will be.

I do not like to dignify rumors with an answer, but in fairness to those who do not know me well, I feel compelled to make the following statement.

No deals or commitments have been made to anyone to be a deputy, and I will not be obligated to any man or group of men when I become sheriff.

After the election there will be seven months in which applications for deputies will be taken, and from these applications, the best qualified men of integrity will be hired.

I am and will not be obligated to anyone except GOD AND MY CONSCIENCE.

We're diversifying
our "mix" of
generating plant fuels...
to keep
your electric service
dependable.

For more than 30 years, natural gas was the only fuel used in Texas Power & Light Company generating plants. It was economical in cost and there was an abundant supply available.

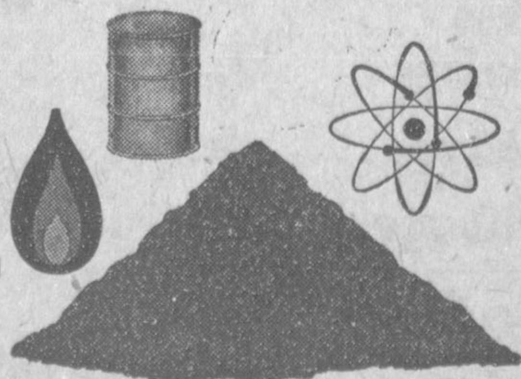

However, in recent years, the cost of gas has risen enormously and the supply is becoming increasingly uncertain.

During periods of cold weather in the last several years, and again this year, supplies of gas were curtailed drastically. TP&L used large quantities of oil to keep its plants operating.

Since 1971, TP&L has been steadily reducing its dependency on gas and oil with plants which use lignite coal as fuel. Lignite is a more economical fuel and it's readily available from huge deposits right here in Texas. Electricity is now being produced by two lignite-fueled plants in the TP&L area, one other is under construction and others are being planned.

TP&L and two other North Texas electric companies have a nuclear-fueled plant under construction. The first of two generating units is scheduled to be placed in operation in 1980 and the second in 1982.

It's essential that TP&L continue planning and building new generating plants to make possible use of lower cost and more readily available fuels and, at the same time, keep your electric service dependable.

Downward Trend in State Production Of Oil Continues

DALLAS — The downward trend in crude oil production in the nation's No. 1 energy state continued in 1975 for the third consecutive year, despite another 12 months of production at the maximum effective recovery rate in nearly all Texas fields.

Although the 1975 output of just over 1.2-billion barrels pushed the state's all-time cumulative production to more than 40-billion barrels, it was the lowest annual production since 1971 and more than 40.6-million barrels short of the 1974 production level.

The difference between 1975 crude oil production and the peak year of 1972 was more than 79.3-million barrels. Statistics compiled by the Texas Mid-Continent Oil & Gas Association also show that despite the continuing decline in Texas crude oil production last year the state once again set the pace among U.S. oil producing states, accounting for 40-percent of total U.S. production.

"This continued decline in the production of Texas key natural resource begs an end to federal price controls and other bureaucratic restraints," said the Association's president, Jack S. Blanton, an independent oil company executive in Houston. "Texas oil producers need a free market and every possible economic incentive to both generate and attract the capital necessary to continue to explore for oil, to drill wildcat and developmental wells, and to initiate costly secondary and tertiary recovery projects."

Cooke County, which has had recorded production since 1926, last year produced 7,251,654 barrels of oil at the rate of 19,868 per day. Production in 1975 boosted Cooke County's production total through the end of the year to 299,944,178 barrels.

In 1975, 30 counties produced more than 10-million barrels of crude oil, with Henderson County dropping below that figure and off the list compiled last year.

The top six, all with production in excess of 52-million barrels, are Scurry, Yoakum, Ector, Gaines, Hockley and Andrews.

Gregg County, the first Texas county to produce more than two-billion barrels of crude oil in the history of recorded production, remains the all-time leader with a cumulative production total through 1975 of more than 2.5-billion barrels. Ector County also went over two-billion barrels of total production last year.

Other counties with cumulative production in excess of one-billion barrels include: Andrews, Rusk, Scurry, Crane, Harris, Brazoria.

Members contributed to small gifts for residents of Hillcrest Manor. Members also discussed problems of rural hospitals and planned to communicate with state government officials.

One in Every Ten Persons Affected by Mental Illness

In setting aside May as Mental Health Month, the Texas Association for Mental Health has offered the following information.

One in every 10 Americans is suffering from a mental or emotional disorder requiring psychiatric treatment. Emotional complications are involved in at least 50 percent of all medical and surgical cases. Mental illness is found in every age group, economic level, and race.

Mental illness cannot be inherited. Certain physical factors which tend to make persons more likely to become mentally ill may be inherited, but the illness itself is not passed from generation to generation. A mentally ill person can't "snap out of it" by himself. Emotional problems and strange behavior are symptoms of an illness. A person can no more "snap out of it" than he can set his own broken leg.

Mentally ill people are usually not dangerous. Only about 1 or 2 percent of hospitalized mentally ill could be of danger to themselves or others. Most mental patients are quiet and harmless. Early diagnosis and prompt treatment can make the difference in temporary disability and long hospitalization. The further the illness is advanced, the more difficult and lengthy the cure.

Children are often affected by mental illness. The sad fact is that many do not receive treatment because of ignorance on the part of the parent or because of the lack of proper facilities for treatment. Above all, there is no disgrace in being mentally ill. It can happen to anyone. The important thing is to find immediate help.

Mrs. Andy Klement, chairman of this year's drive stated: "The Mental Health Association Bellringers are starting their jobs in collecting. Please be generous when they come to call. If you live in the country where it is impossible for the Bellringers to call, or if you work and are not at home during the day for them to see you, please send your donations to Mrs. Andy Klement, Route 1, Muenster, TX, or call her at 759-4554 to pledge a donation. Make checks payable to: Texas Ass'n. for Mental Health."

When someone offers advice, the first test is whether he, or she, has a selfish interest in your reaction.

the seniors will take place in the school gym.

There is to be a joint meeting of the United Methodist Church Vacation Bible School Workers and the Baptist Church Workers at the Baptist church in Forestburg May 21 at 8 p.m.

The 4-H girls have been having sewing classes so on May 17 Mmes. Mary Hays and Jewell Dill took them to Bowie to the fabric shops.

The teachers' appreciation supper took place May 10 in honor of all the Forestburg teachers.

On May 14 there was a Forestburg school board meeting open to the public. Topics centered around various problems at our school. The meeting was very much like the story we have all heard about — the mice in a community meeting deciding to bell the cat but they couldn't find a way to bell the cat without some brave little mouse doing it — so they adjourned.

The Forestburg 4-H members had a bicycle safety meeting May 12 with Mrs. Charles Cook of Saint Jo instructor. Leann Hays and Veronica Edwards gave the safety demonstration. At the conclusion 11 riders rode their bikes to Cleo Landier's house, led by Cleo in her car with safety flags and followed by Mmes. Judy Farrell and Imogene Evans. At Cleo's house they roasted weiners on an open fire.

On May 7 the annual New Harp pie supper was held in the building by the cemetery. Proceeds went for upkeep of the New Harp Cemetery.

Many out-of-town folks were in the burg area on Mother's Day and many Forestburgers made trips out of the burg, so won't even attempt to write about them all.

The project this year for the United Methodist women is taking cake and punch to the folks at the Yes-ter-Year Nursing Home in Saint Jo. On May 12 Mmes. Gladys Smith, Vera Mae McGee and Myrt Denham served cake and punch to these folks.

Recent visitors in the Alvie Riddles home were the J. W. Riddles, Billy Brewer and Donnie Russell families.

The John Morris of Naples, Idaho, visited with the Bennett Reynolds and J. J. Reynolds May 10. They also visited Josie Journegan in Nocona.

Mmes. Loveta Bewley and Eula Faye Galmor attended graduation exercises for David Sims and Steve Brodbeck at NTSU in Denton.

Mrs. Olita Lanier is sporting a good case of poison ivy on her face and neck. She got mixed up with the plant while gathering roses for the teachers' appreciation supper. By the way Olita celebrates her birthday May 25.

Mrs. Ida Kuykendall is out of a Bedford hospital and is staying with daughter, Mrs. Melba Richardson. She hopes to be home soon.

The Ray Jacksons visited the Bill Jacksons of Decatur May 15.

Mrs. Bruce Steadham celebrated her 94th birthday May 13 at her home. Friends and relatives dropped in.

Mrs. Cleo Lanier celebrated her 39th plus birthday May 17.

FIRST PERAL AWARD WINNERS are Mrs. John Cedillo (Rose), Mrs. Sammy Sparkman (Peggy), Mrs. Keith Clegg (Dianne) and Mrs. Wayne Mitchell (Joyce)

Mrs. Gladys Barclay headed for Glen Rose May 10 to visit friends till Tuesday.

Visiting the Calvin Greenwoods recently were the Homer Jacksons and sons of Bowie.

The Forestburg United Methodist Church gained a new member May 16 when Hal Hays transferred his membership.

Guests for the evening were Kittie Steele of Graham, founder of Kappa Theta Chapter, Keni Bass and Mibs Powell of Gainesville.

During the business meeting, plans were completed for next year. Several socials are planned including a Get Acquainted Breakfast on June 5. Philanthropic projects will be Southwest Diabetic Foundation, St. Jude's Children's Research Hospital and Hillcrest Manor.

The Bike Ride for St. Jude's Hospital is planned for September 26, the Little Miss Pageant for March 4 and 5. Entertainment programs will be presented at Hillcrest Manor on October 28, January 27 and April 28. Educational programs for the year will be included in a study of our country and the 50 states.

YOU CAN BANK ON IT!

While a dollar may not buy what it did just a few years ago, Americans pay for goods and services with paper money and think nothing about it.

It wasn't always so.

In the early days of the Republic, gold and silver coins (which have since passed from the American scene) were referred to as "specie," the most acceptable form of payment.

In times of stress, such as the Revolution, or of great expansion, banks often ran out of specie, virtually bringing commerce and industry to a halt for lack of money.

To meet this crisis, and because it was on shaky financial grounds in the first place, the Continental Congress began issuing paper money. Soon, that "paper specie" became virtually worthless, and the phrase, "Not worth a Continental" became a part of the American lexicon.

Play Time Booked For Pre-Schoolers

The pre-school activity program for May will be Play-time at the City Park on May 25, 9:30 a.m.-11 a.m. The sponsors have said "We feel that children will enjoy this opportunity to play games outside, but we must have your cooperation to insure the safety of each child. We are asking that a parent or some other responsible adult stay with the child. Drinks will be provided and each child may bring a sack lunch. If anyone needs more information, call Mrs. Dennis Hess at 2904 or Mrs. Clyde Walterscheid at 4229. In case of rain, the activity will be canceled."

Why does a man work so hard that he kills himself trying to earn the leisure time that he doesn't live to enjoy?

Paper Drive Summer Schedule Sister Mary John Seyler has announced the summer schedule for the Paper Drive. The project will be continued as during the past school year. The bins will be in place, on the west side of the SHHS building during the first full week of each month, that is June 6-12; July 4-10; August 1-7. Paper must be boxed, tied or sacked to prevent wind scattering. The collection has a two fold purpose -- to earn money for the SH School Fund and to recycle paper as an ecological aid. Sister Mary John emphasized word from the Paper Salvage Company. No plastic lined or re-inforced sacks or boxes can be used. The plastic causes a break down in the machinery that decomposes the paper.

Or if he disregards the law and keeps his gun he becomes as much a criminal as the burglar. Instead of getting help from the law he becomes liable for prosecution as a lawbreaker and/or liable to a suit for injury by the burglar.

Next step in the "be kind to criminals" movement is a law forbidding anyone to have a watchdog or lock a house - which would hamper a criminal trying to break into your house.

Mrs. Gene Brownrigg, executive director of the American Revolution Bicentennial Commission of Texas, delivered a motivating speech which inspired pride and gratitude for living "America, where people can express themselves. She discussed changes that have taken place in the past 200 years and cited significant changes in the last 100 years, pointing out that crime was twice as great then as it is today. There was nothing by the blacks in Atlanta, the Irish in New York, as well as the Chinese in San Francisco.

Regarding minority problems, thousands of youths from the ages of 8 to 10 were working in the mines and sweat shops of early America. Pneumonia and tuberculosis ravaged their society in the winter, and in the summer it was small pox and typhoid. She stated that the youth showed their distain to their parents by shaving their faces and cutting their hair very short. Mrs. Brownrigg concluded by pointing out many bicentennial events taking place and suggested that all individuals should have their own bicentennial celebrations by expressing themselves in whatever way they see fit.

Prior to the meeting the audience was entertained by the Gee Whiz Band from Nodona, with toe-tapping renditions of songs of the past that everyone could identify with.

Winners of the door prizes were: Charles Neu, Paul Hess of Lindsay; M. B. Bayer, R. F. Walterscheid, Lloyd Trubenbach, Mrs. Gerald Walterscheid, Mrs. Gus Lutkenhaus, Jerry Hennigan, Mrs. Matt Mueller, Mrs. Charles Cash, Joe Hess, A. Dangelmayr, Joe Knauf, L. I. Gala Prom Ends Social Calendar At Sacred Heart

Seniors and juniors of Sacred Heart High, their parents and the faculty enjoyed a formal occasion closing the school year on Saturday, May 15 in the Sacred Heart Parish Center. The hall was beautifully decorated by the juniors, who used the theme: "Colour My World". Included in the evening's festivities were the annual banquet and prom, a short program and a dance with music by 13th Our.

Decorations were outstanding. Guests entered under a flower covered arch at the main entrance, where ivy, hanging baskets and wind chimes gave a hint of the enchantment inside. Near the opposite wall was a bridge over a curving stream in a garden scene, with lighted hanging lanterns suspended from above, and a scenic wall background painted, by art students. This provided a popular area for senior pictures.

In the center of the hall, a glistening gold ball seemed suspended from the ceiling, with pastel nets floating over a green and blue world globe at least eight feet in diameter which rested on the floor. Ornamental iron lawn furniture was arranged in conversational groupings around the "World".

Areas around the "World" were reserved for dancing.

PENTECOSTAL PIETY Father Donald Gelpi has written wise and thoughtful words for persons, especially Catholics, engaged in the charismatic renewal.

What, he asks, is the relationship between sickness and sin, between physical and sacramental healing? Can people be cured through prayer? Are physical evils ever due to diabolical influences? What is a sane Christian approach to healing?

Questions such as these are crucially important for charismatic Christians. So are the answers suggested in this book at
