

MUENSTER ENTERPRISE

VOLUME VI

MUENSTER, TEXAS, COOKE COUNTY, FRIDAY, MAY 22, 1942

NUMBER 26

"Gainesville will install parking meters." And it might be a good idea to see that they are firmly installed in anticipation of their probable use as hitching posts.

Since the very beginning of war economy, Texans have been smugly confident that they were immune to the threats of gasoline rationing. And why not? With the world's greatest supply of oil in their own domain, they had no reason to suspect a shortage of the precious petrol. Cooke county especially, with its own wells and refineries, would seem to be exempt. But now comes the hint that rationing regulations already effective in the East will soon become nation wide.

In the long run, what's the diff? Whether a car is idle for lack of pushen juice or tires? Who knows but what this is a blessing in disguise — to make the rubber last longer.

One thing the regulation will certainly stimulate is a tendency toward more economical driving. There'll be less roaring acceleration to 40 in second gear and fewer useless trips. And there will be more carburetor weaning to get maximum mileage instead of souping up for extra power. There'll be more coasting rides, too. The guy who doesn't cut his switch as he tops a hill will rate as a plain sap.

All of which recalls the contest several years ago by a group of Muenster car drivers. They starved the carburetors, loosened the brake bands, and used a lot of other tricks that the garage greas-monkeys suggested. In driving, they took all down grades with a dead motor, and poked along at a snail's pace in order to lose as little power as possible through wind resistance. Net result was 25 to 50 per cent better mileage record than the fellows made in normal driving. When the shortage comes, you can bet they will be digging up those old tricks for their practical value. Unless they get the coveted X cards.

Considering Washington's reaction, it seems that a man who secures an X card is making a sea-line for the dog house. Notice what happened to those poor misguided Congressmen, many of them the innocent victims of cruel fate. After all the hullabaloo, it now develops that some were entirely guileless. They simply asked for their cards, not knowing what they would get, and misinformed clerks doled out the requisitions for unlimited purchases. Next thing they knew nation-wide invective was pouring down on their troubled heads.

Of course some of them had political schemes, as usual. They claimed a right to lots of gas to enable them to reach their constituents during campaign time. To which one editor retorts that they might try running on their records instead of excessive gas.

As another person interested in newspapers, Con offers an alternative for the customary campaign itinerary. Let the politicians present their appeals in the press — by the use of revenue bearing space, not the avalanche of free publicity that usually descends upon the editor's desk.

This year "I Am an American Day" has a special solemn significance that none of us should overlook. Unlike the good old days when we all enjoyed smooth sledding, we are now involved in a gigantic conflict which challenges us

(Continued on page 6)

What You Buy With WAR BONDS

The Garand semi-automatic rifle, which is the standard issue today for the U. S. army, is superior to the old Springfield rifle in many respects. We literally need millions of these fast shooting powerful rifles to equip our army. They cost \$85 each and are being manufactured at the rate of one a minute. They fire sixty 30-calibre shells a minute.

Every one of the 40,000,000 employed persons in America could easily buy one of these rifles for the army. Not that we need that many, but the reserve could go into shells and other much needed supplies. Buy more and more War Bonds and top the quota in your county by investing at least ten percent of your income every pay day.

Graduation May 24 Ends School Year

Grade School Exercises And Program to Be Held in Parish Hall at 8:30

The annual Parochial grade school commencement exercises and a program by the students will be held in the parish hall next Sunday evening, May 24, at 8:30, Sister Lucy, principal, and in charge of the program, has announced.

The opening number will be a group of musical selections by the School Orchestra, after which Alton Koester will give the salutatory address. A recitation by four students will follow and the graduates will give the Flag Salute. The presentation of the class gift to the school will be made by Lillian Wimmer and accepted in the name of the school by Paul Luke.

Margie Ann Endres, class valedictorian, will deliver the address of farewell in behalf of her classmates and Father Frowin will be the guest speaker and will award diplomas.

Featuring the evening's program will be a comedy, "Ghosts", with fifteen characters. Laura Lee Wilde will give an address explaining the awarding of prizes for promptness at Holy Mass and the awards will be made by Father Frowin.

A poem, "The Open Door", will be recited by Theresa Mae Pels and the class song will end the program. With this exercise the school year for Muenster will be ended. Classes at the Public school and Parochial High school were concluded May 1. These groups followed the six-day-a-week schedule permitting an earlier dismissal.

SOLEMN COMMUNION CLASS INCLUDES 33 CHILDREN THIS YEAR

Following the customary three-day retreat which began Monday and continued through Wednesday of last week, a class of 33 boys and girls of the Muenster parish made their Solemn Communion during the Holy Mass at 9 o'clock on Ascension Day, May 14.

The communicants and their candlebearers assembled at the school building and marched in procession to church, accompanied by the pastors, and the Muenster Youth Band which provided music for the occasion.

Rev. Father Richard officiated at the Mass and Rev. Father Frowin delivered an inspiring short sermon, a part of which he addressed to the communicants.

During the afternoon services the communicants were enrolled in the Confraternity of the Scapular and repeated the promises made for them by their sponsors at baptism.

Members of the class are as follows: Raymond Derichsweller, Donald Endres, Walter Haverkamp, Monte Hellman, Stephen Grewing, Victor Koelzer, Michael Luke, Daniel Luke, Alvin Noggler, Jerome Relter, Reynald Relter, Ernest Sicking, Daniel Starke, Leonard Walterscheid, Vincent Walterscheid, Donald Walterscheid, Kenneth Wiesman.

Gertrude Bindel, Isabel Eberhart, Bernice Grewing, Dolores Henschel, Martha Hennigan, Eugenia Herr, Lillian Knabe, Effrida Koester, Theresa Rohmer, Bernadine Sicking, Gladys Sicking, Sylvia Streng, Clara Magas, Nina Mae Owens, Evelyn Vogel and Joan Zipper.

2 MUENSTER MEN ESCAPE INJURY IN AUTOMOBILE WRECK

Matt Schmitz and Ira Yeakley escaped serious injury Sunday afternoon when the car in which they were driving, skidded on the wet pavement and turned over in a ditch beside the highway. The accident occurred west of the beacon light, between Lindsay and Muenster as the men were returning from Gainesville.

According to Matt Schmitz, the car skidded, turned over and landed beside the highway upside down after sliding on its top for about 15 feet. His 1942 Chevrolet coupe was badly battered and dented, but when turned on its wheels, with the assistance of the large crowd that gathered at the scene, the motor started and it was driven in under its own power.

Schmitz received only minor cuts and bruises and Yeakley sustaining a fractured collar bone and had several muscles of the right shoulder injured. The former did not even need to see a doctor, and Yeakley after having his shoulder taped, was able to get around as usual.

Both contended that it was the all-steel top of the car that saved their lives.

RIVER OF SUPPLIES THAT FLOWS TO RUSSIA

DIRECTOR OF WAAC

BOB STEADHAM IS INJURED FRIDAY IN FALL FROM HORSE

Bob Steadham was severely injured in a fall from a horse Friday afternoon at about 5 o'clock while at work on the ranch operated by William T. Bonner, south of the city.

Steadham was knocked unconscious in the fall and up to Wednesday noon had not regained consciousness, but hope is held for his recovery. X-Rays revealed that there were no other injuries except that of the head and a brain specialist was called in from Dallas.

Steadham is in the Gainesville sanitarium where he was rushed in an ambulance after the accident. His wife and his mother have remained at his bedside constantly and his father-in-law and mother-in-law, Mr. and Mrs. J. B. McDonald of Bard, N. M., arrived Tuesday.

WEDNESDAY IS DAY FOR TYPHOID AND DIPHTHERIA SERUMS

Next Wednesday, May 27, has been designated as Clinic Day, and set aside for the immunization against diphtheria and typhoid fever. Dr. T. S. Myrick announced this week. The serum will be given at the Muenster Clinic throughout the day.

Through the cooperation of the State Health Department, the diphtheria serum is available for only 25 cents and the typhoid serum, three shots for one dollar. For the typhoid the first serum will be given Wednesday and the following shots the following two weeks.

All children over six months of age should be immunized against diphtheria and may be given the typhoid serum, Dr. Myrick stated. He stressed, however, that all adults avail themselves of this opportunity to be immunized against typhoid. A dollar is only a fraction of the usual cost of typhoid serum and this opportunity may not present itself again soon, it was stated.

MUSIC RECITAL SET FOR SUNDAY, MAY 31

Sister M. Leonarda, instructor at the Sacred Heart School of Music, will present her pupils in annual recital in the parish hall on the evening of May 31 at 8 o'clock.

An entertaining program has been prepared including instrumental music and singing. Tiny tots, intermediates and advanced students will be on the program. There will also be selections by the Bugle and Tonette class, the Recorder class, the school orchestra, and the Glee Club.

ANDIMISHK, PERSIA—A view of the endless stream of trucks that flow steadily through Persia on the way to Russia from the United States and Britain with vital supplies for the gallant Red Army. In addition to this stream by road there is another, heavier stream by all available rail facilities. The government is cooperating in this great movement of material. In the current battles on the Russian front, in the Crimea and in the Kharkov offensive, where the Russians claimed Monday to have recaptured over 300 towns from the Germans, American tanks already are in action.

Herbert Meurer Is State Treasurer of Knights of Columbus

Herbert Meurer was elected state treasurer of the Knights of Columbus during the thirty-ninth annual state convention at Fort Worth last week. Other officers are Gus J. Strauss of Austin, state deputy by reelection; George A. Nicoud, Dallas, state secretary, reelection; and George E. Murphy, Beaumont, state advocate, and Adam Clay of Houston, state warden. Rev. Paul Charcut of Pilot Point was re-appointed state chaplain, and Galveston was chosen for the 1943 convention city.

The important role of the Knights of Columbus in the national war effort was revealed in reports Wednesday, the closing day of the convalescence.

Texas councils have purchased more than one million dollars worth of war bonds and stamps, James G. Fisher, retiring state treasurer, reported.

Menton J. Murray of Harlingen, state advocate, reported 90 per cent of the Texas members are engaged in some form of civilian defense. He said that about 30 blood donor groups had been formed in the Texas councils, members of which have given blood on more than 300 occasions for transfusion to members of the organization, their families, charity cases and emergencies.

Other reports were heard following a requiem mass Wednesday morning for the repose of the souls of deceased members at St. Patrick's church.

Entertainment included eight scenic tours for the women, a luncheon, theatre party, reception and bridge party.

At the banquet Tuesday night at Hotel Texas Francis P. Matthews of Omaha, supreme knight, gave the principal address in which he said, "I believe that organizations like ours can lead the way to an everlasting peace. Let us pray our order finds its way into the heart of every American Catholic man and help him become an example to our fellow Americans."

Matthews said the organization had never questioned color or creed when called upon to extend a service to mankind.

Gus J. Strauss, state deputy, urged members to extend every effort to be of some service to the Nation by engaging in the various phases of civilian defense program. Three bishops conferred a triple blessing on the convention.

Local Grand Knight J. W. Fisher and some dozen other knights and their wives attended the convention.

Rev. Father Frowin recalled this week that it was on the 21st of May twelve years ago that he embarked on the Bremen at New York for his world tour. He has visited every country in the world with the exception of Australia. He would have liked to have enlisted in the army as a chaplain and be sent to Australia, he said, but he was past the age limit. However, he still looks forward to seeing Australia some time in the future.

USO Drive Is Launched in Muenster

Local Quota Is \$175 Of County's \$2,490; Weinzapfel is Chairman

Cooke county's United Service Organization's financial campaign, launched last week at Gainesville, gained momentum this week when each community of the county was given a quota and chairmen were appointed to solicit donations. C. H. Leonard of Gainesville is county chairman and the county quota is \$2,490.90. Gainesville is being asked to raise \$1,500 and the remaining \$1,000 is being apportioned to the rest of the county.

Muenster's quota is \$175 and J. M. Weinzapfel is chairman. Mrs. G. H. Hellman and Mrs. Jim Cook are co-chairmen and will make a house-to-house campaign for donations. For those who will be in town anyway, and find it convenient to do so, contributions may be left at the Bank.

Plans for the campaign were discussed at a regional meeting of officials representing 12 counties last week in Fort Worth, which Mr. Leonard attended. It was explained that \$1,100,000 has been set as the quota for Texas. This figure is about 17 cents per capita, whereas Cooke county's quota is on a 10 per cent per capita basis.

On Saturday the entire regional staff met with civic leaders in Gainesville and discussed the part USO will play in furnishing recreation for soldiers at the Cooke county army cantonment.

Major W. H. Burns, special service officer of the 8th Corps Area, Fort Sam Houston, one of the speakers, explained that making a good soldier is not limited to the mechanics of training. "We learn," he said, "that they can't do that unless they get the relaxation they need. For this reason a soldier gets time off during the weekend so that he may go to town, mingle with civilians, and enjoy the recreation he likes best. When he goes back to work on Monday morning, he is refreshed, and more eager to learn. Thus we are able to train troops quicker and move them to the fighting fronts sooner."

The importance of recreation to the morale of the soldier is great. Any community is strained when an army camp is located nearby and if there are any recreational facilities available in a town they should be developed and made available to the soldiers. It was also pointed out that when a soldier goes abroad to fight, he fights more eagerly if he cherishes pleasant memories of the town back home where he was trained.

The major also said, "The president believes that the people of our country who can't join the army, want to do something to aid the war effort and that they are willing to give their time and money to entertaining the soldiers when they are off duty."

Muenster's chairmen will begin soliciting Saturday and hope to finish by the first of June. They expressed the belief that Muenster citizens would respond liberally to the campaign due to the important part USO plays in looking after the interests of soldiers, sailors and marines.

"HOLD ON TO YOUR WAR RATION BOOK" IS BOARD'S ADVICE

"Hold on to your War Rationing Book" is the advice of the county rationing board. It was also stressed that if any books are found or taken by mistake they should be returned to the local board.

It was pointed out that any person attempting to use a ration book other than his own family books is subject to a penalty of a fine and jail sentence.

Cooperation will be needed to handle the rationing program and persons are urged to return lost books to the ration board as quickly as possible.

4.25 INCHES OF RAIN

Four and one-fourth inches of rain fell here the first three days of the week, according to local readings. Sunday's precipitation amounted to 1.50 inches, Monday one inch of rain fell and on Tuesday 1.75 inches of moisture was recorded.

Short Items of Interest About Folks You Know
 ROSABELL DRIEVER, Society Editor

W. E. Corbin and son, Bailey, spent Sunday in Dallas.

A combined garage and machine shop has been completed at the Bernard Fleitman farm.

Albert Hoehn of Austin is recovering from an illness of measles. He wrote his parents this week.

Henry Stelzer returned Sunday from a two weeks' visit in Ohio with relatives and friends.

Miss Dorothy McKinney of Era spent several days of the week with the Alford Harrison family.

Since the beginning of the week Mary Elizabeth Endres is employed at the Muenster Refinery in the office.

Mr. and Mrs. Leonard Endres and sons of Denton spent the weekend here with his parents, Mr. and Mrs. M. J. Endres.

Mrs. J. S. Myrick arrived from Houston Thursday for an extended visit with her son, Dr. T. S. Myrick and family.

Mr. and Mrs. Tom Bradshaw and daughter of near Wichita Falls spent Sunday here with his sister, Mrs. T. S. Myrick and family.

Miss Margie Jo Cooper of Wichita Falls was the weekend guest of her parents, Mr. and Mrs. H. O. Cooper.

Mrs. Henry Weske left Monday to return to her home in Akron, Colorado, after a two week's visit with her parents, Mr. and Mrs. Henry Pels and family.

Mr. and Mrs. Joe Sturm had as guests Sunday Mr. and Mrs. Barney Newman and family and Tony Welk-hart, all of Norman, Okla.

Anton Dieter of Lindsay joined the personnel of Herr Motor company Monday. He is employed in the mechanical department.

Mrs. Leo Appel will be hostess at the regular monthly social of the Catholic Daughters on May 23. It has been announced. Mrs. Appel will entertain in her home.

Murrill Beyers and family moved Tuesday from the Hap ranch to occupy a house on the Dub Trew farm south of town where he will be employed.

Mr. and Mrs. Noel Jacobs who have been residing in Wichita Falls have moved to Denton to make their home. Mrs. Jacobs is the former Miss Cecille O'Connor.

Frank Hoedebeck and Gerald Stelzer left Sunday afternoon for A and M College to attend the annual Firemen's School conducted there this week.

The three children of Mr. and Mrs. Henry Koehler are recovering from mumps and measles that have confined them to their home this week.

Father Francis of Windthorst and Father Jos of Wichita Falls were here Tuesday afternoon for a "blitz" call at the local rectory to visit the local pastors.

Mr. and Mrs. A. H. Rebentisch of Dallas were weekend guests of relatives here. They visited her sisters, Mesdames J. W. Meurer, L. A. Bernauer and Louise Wies, and her brother, Frank Kaiser.

Mr. and Mrs. Henry Koehler and children spent several days of last week in San Antonio with relatives and were accompanied home by his sister, Miss Ida Mae Koehler, who will spend the summer here as their guest.

Miss Eugenia Walter of Fort Worth spent Thursday and Friday here with relatives and was accompanied back to Fort Worth by her cousin, Miss Harriette Schoech, who was her guest for the weekend.

Mr. and Mrs. John Ezell had as guests during the weekend, her parents, Mr. and Mrs. P. I. Brown. On their homeward drive Sunday the visitors were accompanied by Mrs. Ezell and daughter, Patricia, who will be their guests for about two weeks at Borger.

Muenster Players enjoyed a good attendance at the presentation of their play, "Where's Grandma?" at Windthorst Sunday evening. Father Richard and members of the Youth Band also made the trip. A band concert was given before the play.

Junior Cole of California, who is here for a visit with his sister, Mrs. Ed Wolf, received painful burns on his right arm Saturday when the wash boiler in which he was boiling work clothes, with gasoline added, boiled over on the stove.

Mr. and Mrs. Frank Schilling and daughter, John Schilling and Mike Schilling spent Sunday in Pilot Point with Mr. and Mrs. Henry Pelzel and were accompanied home by little Miss Rosina Pelzel who will visit indefinitely with her uncle and aunt, Mr. and Mrs. Frank Schilling.

The local Baptist church will observe the Lord's Supper Sunday at the 11 o'clock service it has been announced. Facilities for a nursery were arranged during the week and mothers with small children may bring them to church. Some one will be in charge of the nursery. It was stated.

Guests in the home of Mr. and Mrs. Joseph Flusche Sunday were Father Paul Charcut, Mr. and Mrs. Herman Mueller, Mr. and Mrs. Andrew Flusche and son, Leon, all of Pilot Point, Mr. and Mrs. Joe Neu, Mr. and Mrs. Raymond Zimmerman and children of Lindsay, and Mr. and Mrs. J. P. Flusche and children and Rufus Henschel.

Mr. and Mrs. I. A. Schoech left Wednesday morning for Springfield, Mo., where they will visit her sister, Mrs. Tom Donohue for two weeks. On their homeward trip they will be accompanied by Mrs. John Walter, who drove to Springfield with her son-in-law and daughter, Mr. and Mrs. Charles Everett when they returned to their home in Olney, Ill., Saturday.

Mr. and Mrs. Elwyn Hope of Fort Worth brought her mother, Mrs. Frank Seyler, who is convalescing from a recent major operation at Fort Worth to Muenster Sunday and the trio spent the day as guests of Mr. and Mrs. H. P. Hennigan. Mrs. Seyler accompanied them back as far as Gainesville where she is spending this week with her daughter, Mrs. T. L. Anderson and family. She expects to be back here next week.

Miss Dolly Endres won third place in a national essay contest sponsored by A. Pfbaum, publisher of the Young Catholic Messenger, Dayton, Ohio, it was learned this week.

The title of the essay is "What Our School Did For National Defense". More than one thousand students of the United States and Canada participated. The award received by Miss Endres is one dollar in defense stamps. Miss Endres completed her sophomore year at the Parochial High school this term.

Everything comes to him who waits—if he waits in the right place.

URBAN FLUSCHE AND THERESA MUELLER WED IN CALIFORNIA

Miss Theresa Mueller of Pilot Point, daughter of Mr. and Mrs. Martin Mueller of that city, and Urban Flusche of San Diego, California, son of Joseph Flusche of this city, were married May 10 in Saint Joseph's Cathedral in San Diego. Rev. Father Linneman officiated at the rites and at the nuptial mass.

The bride was given in marriage by her father. She wore a white lace floor length frock, made with sweetheart neckline, and long sleeves, full at the shoulder, and pointed over the wrist. Her veil was fingertip length and was worn with a wreath of orange blossoms. The bridal bouquet was composed of calla lilies.

Mr. and Mrs. Andrew Flusche of Pilot Point and Mr. and Mrs. Manual Bernd of San Diego were the couple's attendants. The ladies wore white costumes and hats with accessories of pink and carried arm bouquets of pink gladioli.

A wedding dinner honored the couple at the home of Mr. and Mrs. Manual Bernd following the ceremony. Guests were Mr. and Mrs. Martin Mueller and Mr. and Mrs. Andrew Flusche and son, Leon, of Pilot Point, Ed Conrady, Melvin Schindler, Ernest Snyder, Mr. and Mrs. Alois Linneman and Father Linneman of San Diego.

Mrs. Flusche is a native of Pilot Point where she attended school. Mr. Flusche was born and reared in Muenster and attended Sacred Heart School. Since last September he has been employed in an airplane factory in San Diego. They are making their home in that city.

General Meeting For All Discussion Clubs Next Tuesday, May 26

Next Tuesday evening, May 26th, following May devotions at 8:30, a general discussion club meeting will be held in the parish hall, Father Richard, director of the study groups, announced.

All members of the various clubs are urged to be present with their reports of the year's activity. This session will officially close the season's discussion club work.

Following the business a social hour will be held, it was disclosed.

MARJORIE DUFFEY AND HAROLD COOKE MARRIED APRIL 21

Mr. and Mrs. S. M. Duffey of Marysville have announced the marriage of their daughter, Miss Marjorie Duffey, to Cadet Harold Cooke, son of Mr. and Mrs. Don Cooke of Muenster.

The ceremony took place at Weatherford in the home of the Baptist minister, on April 21, with the Rev. N. L. Roberts officiating.

The bride attended NTSTC at Denton last year and is in school at Fort Worth. The bridegroom, who until recently had been stationed at Fort Sill, Okla., was transferred to Kelly Field, San Antonio, on April 23. At that time he received an appointment as flying cadet and is now in training.

4-H Club Girls Have Interesting Meeting

Muenster 4-H Club girls enjoyed an interesting meeting at the parochial school Monday morning with Mesdames Topy Gremmlinger and John Huschke, sponsors, in attendance.

Margie Ann Endres told the girls how to make necklaces and bracelets that are lovely and odd, using pecans, walnuts, cantaloupe seeds and corn, and Mary Ann Seyler showed the assemblage a number of pieces of such jewelry she had made.

Theresa Walter, secretary, read a letter from County Agent Nette Shultz, which told of a district meeting for 4-H clubs that will be held at Grand Prairie in the near future. Four girls from the county's eleven clubs will be sent there and each club is to nominate as a delegate one member. The final four girls will be selected at the county meeting on next Saturday, May 23. Four sponsors of clubs will also be selected to attend.

Muenster's nominee is Mary Evelyn Seyler who was chosen at the meeting by secret ballot. Mary Nell Hennigan and Margie Ann Endres have been appointed to serve on the election committee at the Gainesville meet.

After business, recreation provided by Rose Marie Becker and Edna Margaret Hratman was enjoyed.

VICTORY FASHIONS FOR WOMEN TO BE HERE THIS FALL

COLLEGE STATION, May 20.—Since clothing for this spring and summer is practically all manufactured and on the market, women and children won't be wearing many Victory fashions until fall or winter, says Mrs. Dora R. Barnes, clothing specialist for the A & M College Extension Service.

Women who do their own sewing, however, should become acquainted with recent orders of the War Production Board which will streamline ready-made garments to save cloth. Skirts and coats will be narrower. Two-piece dresses are out. So are big sleeves, woolen inner-linings, patch pockets, capes, hoods, all-over tucking, and wide belts.

Like the men, women will give up cuffs on their slacks and the trouser legs may be only 19 inches wide. This should make them safer to wear, Mrs. Barnes says.

Where color is concerned, black, brown, and blue may no longer be leaders, for these dyes are getting low. Gingham will be available as long as the dyes hold out, and print materials in four colors are allowed until Sept. 1. After that, dresses may be more somber, the specialist says.

No grade A leather is now available for civilians' shoes. The men in the armed forces will have the best.

Principal headache for women just now is the price and supply of hose. Nylons are playing out. Silk hose are also becoming scarce, are expensive and of poor quality. Rayon hose, recently introduced to the market, appear to be durable but 18 hours is required to dry them properly. One war-time innovation is bemberg hosiery, but these have not been tested by consumers thus far.

BIRTHDAY PARTY HONORS JOE WALTERSCHEID FRIDAY

Joe Walterscheid was named honoree guest at a party given in his home Friday evening for a group of relatives and friends. The occasion was his 63rd birthday. His wife and daughters were hostesses for the affair.

An informal evening of card games and refreshments was enjoyed.

Personnel of the party included: John Bayer, Frank Hess, Pete Rollman, Mrs. Joe Bayer and family, Mrs. Theo Walterscheid and family, Messrs. and Mesdames Joe Benzner of Lindsay, John Felderhoff, Adolph Walterscheid and sons, Martin Bayer and family, Johnny Bayer and family, Herman Danglmayr and son, and Johnny Wimmer, Vincent Becker and the honoree and his family.

GAINESVILLE GARDEN CLUB WILL HAVE FLOWER SHOW

The Maggie House Garden Club of Gainesville will have a Flower Show and Guest Day Saturday afternoon and evening in the Junior High auditorium. Mrs. Will Lake of Fort Worth will be the guest speaker.

A number of ladies of the Muenster Garden Club are making plans to attend.

- COUNTY ATTORNEY: JOHN ATCHISON
- COUNTY TREASURER: MRS. EVA G. TOWNSELEY
- COUNTY JUDGE: CARROLL F. SULLIVANT
- COUNTY CLERK: J. C. (Jim) REESE
- COUNTY COMMISSIONER, Pre. 3: J. R. (Robert) LITTLE
- E. A. (Babe) FELKER
- JOE BAUER
- COUNTY COMMISSIONER PRE. 4: JOHN A. FISHER

EGG CRATES NEEDED

COLLEGE STATION, May 21.—Don't hoard used egg crates and create bottlenecks in the movement of eggs to market, the Texas USDA War Board advised farmers this week.

The increased production of eggs makes it necessary that every effort be made to keep all egg crates in circulation, the board informed the 254 county USDA war boards in the state.

The state board warned that egg cases should not be held for speculation or for anticipated use over more than a reasonable period, pointing out that "this type of hoarding is to be deplored as much as the hoarding of other commodities vital to an all-out war effort."

The unprecedented production of eggs this year has made it difficult for some producers, farmers and dealers to obtain sufficient egg crates, the USDA group declared. At the same time, the board urged that crates be handled as carefully as possible to avoid damage.

Care in Use of Electric Refrigerator Plays Part in Victory Program

(Editor's Note: This is the first in a series of articles prepared by Home Service Advisors of the Texas Power & Light Company. The second, concerning care and use of the electric range will appear next week.)

"As a consumer in the total defense of democracy I will do my part to make my home, my community, ready, efficient, strong. I will buy carefully. I will take good care of the things I have. I will waste nothing."

HOME INTERIORS TO BE COLORFUL

Season's New Color Schemes Ready

The delicate pastels are still in favor this season both for side walls and ceilings. White predominates for trim, although ensembles in the same theme color are growing in popularity with the ceiling color slightly lighter than the side wall color and the trim color slightly deeper than the color used on side walls.

Deeper tones will be found in dining rooms with increasing interest in two-tone walls. Bedrooms are to be gay again with color freely used.

White ceilings are popular, although colorful ceilings are gaining in interest and carry the tone of bed spreads, draperies, etc. Painting the bedroom furniture, particularly new upholstery, in a blending color scheme, is thrifty.

Bathrooms will reach new peaks in brilliant colors with a preference for enamels with their smooth, tough, porcelain-like surfaces that can be washed down frequently.

Kitchens and breakfast nooks continue to be colorful. Conventional white kitchens are fast being replaced by color schemes dominating in greens, greys, blues and yellows to offset the glaring white of porcelain fixtures—but in washable quality finishes in both wall paints and enamels.

Play rooms get more clever every season. Originality in decorative scheme is strived for most, with smart designs painted on colorful walls and ceilings, the furniture in brilliant tones and floors stencilled with colorful patterns.

WAR GARDEN INSECT SERIES—No. 2

Protect Your Vine Crop From Insect Pests

Your war garden is bound to contain several vine crops, such as melons, cucumbers, squash and pie pumpkins. If you grow these, you will need to be vigilant.

Probably the first pest you will notice is the cucumber beetle. There are two kinds: One has its back striped with alternate yellow and black bands running lengthwise of the insect. It is active both on foot and on wing. It lays yellow egg clusters in cracks in the soil near the base of the plant and the young burrow down to attack the roots of the vine plants, while the adults feed on leaves and stems above the ground. The other cucumber beetle is spotted instead of striped.

The grown beetles are smart and detect arsenical poisons on the plants, moving to feeding grounds that are clean, so about the best way to destroy them is to keep after them with a spray or dust of Black Leaf 40. Use a teaspoonful to four quarts of water, with enough soap added to make suds, for the spray. Cover the plants thoroughly and be sure you hit the beetles, or you will not kill them. A dust will also do the job—make up as described hereafter.

Where beetles are a problem, it is best to plant extra seed and then thin your crop after the plants get a good start.

Watch For Aphids and Spray Early
Aphid is another pest to be watched. The minute you see curled, wilted or shriveled leaves on any of your vine plants, look closely inside the curl for tiny green, yellow or black insects. If you find them, you have aphids to deal with and quick action is called for. They are the most destructive aphid to be found in this country and can ruin your crops in short order. They not only attack vine plants but are found on strawber-

These words constitute the pledge taken by millions of American housewives during Civilian Defense Week. They epitomize the part our women must play in the struggle ahead.

There is no room for waste in America, whether it be in industry, the armed forces, or in the average home. "Conserve" has become a slogan of war-time America—conserve vitamins by getting the full nutritive value from the foods you serve, conserve all home equipment by using it efficiently and taking proper care of it. That is considered an all-important job on the home front for the duration.

In the modern home, the refrigerator assumes especial importance as a means of conserving foods. Care and maintenance of the electric refrigerator is relatively simple and

many years of continuous and economical service may be obtained by following a few common-sense rules:

Steaming hot foods should not be placed in the refrigerator as this will increase the operating time.

Place foods in proper storage zones and allow for circulation of air within the cabinet to assure proper preservation of foods.

Avoid opening the door of your refrigerator more often than necessary and keeping it open longer than necessary. The more warm

Clyde W. Yetter D.D.S.
General Practice of Dentistry
DENTAL X-RAY
SAINT JO, TEXAS

air that is allowed to enter the cabinet, the more the mechanism must operate to maintain safe food storage temperature. Safe storage temperature is approximately 40 degrees F. and a control setting which maintains this temperature is adequate.

Ice cubes can be frozen more quickly if the tray bottom or freezing surface is wet when the tray is placed in the freezing compartment. This form a solidly frozen contact between the tray and freezing surface which hastens the transfer of cold to the contents of the tray.

Do not use a sharp instrument to pry or force trays free from the freezing surface or frost from the freezing compartment. This may cause chipping or even puncture the surface which would entail costly repairs.

Defrost whenever the frost on the freezing compartment exceeds 1/4 inch. This frost in many cases acts as an insulator which retards the transfer of cold from the freezing compartment to the rest of the cabinet interior.

Clean the entire cabinet interior, including shelves and freezing compartment with a mild solution of warm water and baking soda each time you defrost. This eliminates all food odors and provides a refreshed atmosphere for healthful storage of foods.

Use mild soap and warm water on the cabinet exterior. Never use gritty or abrasive cleansers. If the finish is other than porcelain it is advisable to wax the surface 2 or 3 times a year with a good liquid polish wax.

Be sure to give the mechanical part of your refrigerator the attention it needs. If you have an open-

type mechanism in your refrigerator, it will need frequent oiling and adjusting. Have reliable servicemen do this and advise how often it should be repeated. Hermetically sealed units do not require oiling or adjusting.

POSTAL UNIT AT CAMP BOWIE HAS ADDRESS TROUBLE

BROWNWOOD.—"Private John Doe, Camp Bowie, is no way to address a letter to a soldier, Camp Bowie postoffice officials pointed out Saturday, in urging the public to use more care in addressing letters and packages to soldiers.

The Bowie postoffice, which has seven men detailed to do nothing but trace down soldiers who have mail with incomplete addresses, has handled such shining examples as:

"Private Jack White, First Tent to Left, Gate 3, Camp Bowie," and "John 'Keep 'Em Shod' Doe," Camp Bowie." They're looking for this case in the cavalry.

Lieut. Charles N. McMullen, assistant postoffice, said many persons consider the complicated numbers and organization names as superfluous, and address letters more simply.

Every letter and number given by the soldier on his address should be listed, Lieutenant McMullen said. The name, rank, company or battery or troop, battalion or regiment, division, if any, and camp name should be given to assure that the letter or package will reach the soldier.

GOT A HAIRPIN?

C'est la guerre; let's be cheerful about it. But a word seems in season as parting testimonial to that uncannily handy piece of hardware, the once-ubiquitous hairpin. Not to get involved whether there will be enough hairpins to do up lady's hair, but they do seem fewer and farther between of late for extra-torsorial duty. And a hairpin is never a hairpin—it held together the riven ravellings of life.

A culling of feminine confessions reveals that hairpins have been used: To clean a gas jet, to punch holes in an imitation belt, to retrieve a dime from the contrary recesses of a pocketbook lining, to

You Can't Look YOUR BEST— Unless Your Clothes Look Their Best.

Lone Star Cleaners

fasten a veil in the hair, to run a string through the laundry bag, to pick the backdoor lock (legal), to pick the family cash box (semi-legal), to hold back a curtain, to clip that grocery list on the electric bill, to mend a broken necklace clasp, to button baby's shoes, to rescue a rent hem, and for a makeshift cotter pin on a balky carburetor.

And, even then, man's loss is far greater than woman's in the event of a scarcity of hairpins. They made wonderful pipe cleaners.

Young Lawyer: "Now, my man, tell the court how many brothers you have."
Witness: "I have one brother."
Young Lawyer: "Be careful, or you'll be charged with perjury."
Witness: "Why?"
Young Lawyer: "Your sister has just sworn she has two brothers. Now, you had better tell the truth."

A floor-walker, tired of his job, gave it up and joined the police force. Several months later a friend asked him how he liked being a policeman. "Well," he replied, "the pay and the hours are good, but what I like best of all is that the customer is always wrong."

Electric Power

is ON the "front line"

NOW, TODAY!... electric power is on the "front line" of America's war effort... driving the machinery of production in factories and shops throughout the nation... speeding the work of America's millions of workers... building fighting power for America's victory!

Your privately-operated power companies, supplying seven-eighths of America's electric power (more than is produced in Germany, Japan and Italy combined) are helping to build America's fighting power. They had electric power ready to start the nation's productive might "rolling" in high gear and they are providing the power to "keep it rolling" faster and faster. These companies have volunteered in this war to keep electric power on the production "front line" twenty-four hours a day, seven days a week.

In Texas, the Texas Power & Light Company is "all out" for Victory... supplying without delay the power requirements of war production in the area it serves, as well as the needs of its regular customers... and planning for the increased war needs of tomorrow!

MORE THAN GUNS

When total war hits a nation, it means far more than steel and aluminum, airplanes and tanks, machine tools and auto industry conversion. It means hard work and sacrifice on the part of everyone—farmers and the people who make civilian goods as much as those who work in the more spectacular war industries.

The men and women who man the civilian front have the task of supplying the American people, as well as a large part of the rest of the world, with necessary food and clothing. Theirs is the task of keeping the best-fed and best-equipped army in the world—an ever-growing U. S. Army—in the field.

And that is no easy task in these days of scarcities—scarcity of raw materials, scarcity of labor and scarcity of time.

Theirs is really an enormous job, for the average American in the Army needs almost double the food and clothing he gets in civilian life. The average male civilian in this country eats 125 pounds of meat a year. The soldier gets 360 pounds. The civilian drinks 150 pounds of milk, but the soldier drinks 210 pounds. The civilian wears two pairs of shoes a year, the soldier three. The civilian gets one pair of trousers, the soldier five.

These manufacturers and producers of "non-essential" goods are making it their job to see to it that the civilian population—millions of whom are manning the production front—do not suffer for want of essential food and clothing, and that our soldiers have the highest quality of everything necessary to make them the strongest army ever known.

BUY YOUR WINTER'S FUEL NOW

We've all been advised not to hoard—and that's necessary advice indeed. But there is one basic commodity which the government wants us to "hoard" now—coal.

High officials are urging individuals to purchase next winter's coal stocks before summer ends—and preferably immediately. This, of course, isn't "hoarding" at all. It is, instead, a definite contribution to the war effort.

The reason for it is simple. If everyone waits until cold weather arrives before ordering coal, the drain on the mines and on the agencies which must transport the fuel, will be tremendous. Worst of all, that drain will come at a time—early in the middle fall—when crop movements are at their peak. And in addition, war freight of all kinds will be substantially heavier in the fall than now.

The point is to get every possible ton of coal into the hands of the ultimate consumer at the earliest possible time. So, buy your winter's coal today. Then you'll be doing your part to clear the transportation lines for war traffic. And you'll also make certain that you won't be out of fuel when you need it.

Economic Highlights

As Congress settles down to the intricate task of formulating a national economic policy for wartime, it is obvious that the road ahead is a rocky one, alive with pitfalls. All are agreed that new and heavier taxes are necessary. But there is a wealth of disagreement as to just what groups should be forced to

bear the bulk of the burden. And there is an equal amount of disagreement over such vital matters as wage and farm price ceilings.

The seven-point program laid down by the President in his recent message to Congress and the speech to the public which followed it, provides important groundwork. Only a relatively small proportion of the nation's newspapers went on record as being 100 per cent for or 100 per cent opposed to that program. The bulk of them approved it with reservations. Those reservations will afford fuel for red hot Congressional debates in the weeks to come.

Here is how matters shape up at

MÜNSTER

THE LONG HARD WAY

the present time:

1. Most economists are agreed that it will be impossible to stabilize the cost of living until very strict controls are imposed on farm prices. The President seems to share this view. But the strong Congressional farm bloc is apparently determined to fight that with all its power, and it has a good chance of coming out on top.

2. In many quarters the belief is held that it will be impossible to stabilize wages without additional legislation. The President said that he feels no such legislation is necessary. Congress will be watching labor with a careful eye, and if any widespread demands for wage boosts arise, it is likely to slap through a tough law in big time.

3. The proposal that tax laws be so framed that no individual can net more than \$25,000 a year will probably not be adopted. However, it is also probable that upper-bracket taxes will be so stiff that no one will be able to net a great deal more than that. This proposal is of little importance as a revenue producer—there aren't enough big incomes to make a visible dent in the cost of government.

4. Many are not convinced that voluntary War Bond sales will be adequate. The President intimated that forced savings plan might have to be adopted if the people don't buy more heavily. The figures on future sales will tell the story here. If purchases don't rise sharply, forced savings will be inevitable.

5. Most important of all, a great many experts of all economic and political persuasions, are dead certain that a workable tax policy will have to hit the lower-income groups far harder than current proposals call for. As Time says, "One economist's estimate is that the farm and labor groups, whose 1939 income was about \$45,000,000,000, will be earning at the rate of \$80,000,000,000 by this year's end. Out of this \$35,000,000,000 increase the present Federal taxes and all the proposed tax increases would catch only some \$1,500,000,000; according to this figure, the total Federal tax bill on the \$80,000,000,000 would be only \$5,000,000,000. Meanwhile

there is not much blood left in the rest of the turnip; businesses and business men will be earning \$35,000,000,000 by year's end (up only \$5,000,000,000 or so over 1939), will pay \$20,000,000,000—50 per cent—to the government."

Just how to tap these income groups is a very potent question now. Many of the most influential commentators, after looking the problem over from all possible points of vantage have come to the conclusion that the sales tax, much as it may be feared in some political circles, is the only feasible solution. Columnists Raymond Clapper and Walter Lippman belong to this school. Mr. Clapper recently wrote: "Now we get at the rich through the income tax. They pay far more heavily than the poor, proportionately. . . . The other half of the job is to get at the expanding buying power now going into the lower-income groups. . . . The only

practical way left to get at this money is through sales taxes and compulsory savings." Mr. Lippman wrote: "Until there is a tax bill which reaches the lower incomes, which have recently been in the aggregate greatly increased, and until there is a compulsory savings plan, the Administration ought not to pretend that it is dealing with inflation."

This gives an idea of what Congress is up against now. Even a year ago, a sales tax would have had about as much chance of passing as the proverbial snowball would have of surviving the heat of Hades. But war is a revolutionary force, and it produces its upheavals in the legislative halls no less than on the field of battle. So a sales tax, ranging from 2 to 5 per cent, is a definite possibility today.

Military authorities are said to believe that Hitler has the men and the equipment for one more grand offensive. If that offensive can be beaten, they reason, the Fuehrer will be on the way to eventual defeat and disaster. That is why every effort is now being given to supplying Russia with an ever-increasing stream of the implements of war. Hitler must break Russia if he is to win his global war. The Russians seem completely confident of their power to stop him if they receive adequate equipment.

Stalin has said that American and British help has reached gratifying proportions. This year the destiny of half the world may be decided in the U. S. R.

If a ship carpenter gets a dollar fifty an hour and works fifty hours," said the teacher, "how much money would he receive for his labor?"

"Well," said the boy who listened to the radio, "it would depend on the union scale, overtime, the check-off system and Mr. Lewis."

NEW DOPE ON BULLFROGS

In wartime all sources of food are important, and the bullfrog, never held in disrepute by food fanciers, has assumed even more importance as a vital natural resource.

For years many Texans have advocated a shortening of the season on taking frogs, which now may be gilled at any time of the year. Two local bills introduced during the last two sessions of the Legislature failed to pass, however.

The supply of frog legs at Texas restaurants and hotels is in danger of diminishing because, in the opinion of Game Department biologists, the supply of these cold blooded animals is being rapidly depleted because of overhunting.

Bullfrogs will not thrive in captivity. This has been demonstrated time and again.

But if their native marshy habitat is properly managed the frogs will multiply and the landowner can get a fancy price for his product.

To assist landowners in properly managing their property for bullfrog production the Game Department recently issued a bulletin on this subject, written after considerable research by a Field Biologist. You may obtain a copy free of charge by writing the Game Department, Austin, Texas.

One interesting fact recorded in the bulletin is that Texans are estimated to consume 800,000 pounds of bullfrogs annually.

A man never has too many friends but one enemy is too many.

BOMBERS

Via the Assembly Line

Uncle Sam's bomber plants are now operating on the same mass production principals as did the automobile industry.

This is Uncle Sam's method to beat the Axis plane production.

Indirectly advertising was the cause of this increased production.

Newspaper advertising told the general public the advantages of the automobile. Because of increased sales the manufacturers had to find a better and faster method of turning out their products.

Thus the same assembly line originally used for automobiles, is now a vital step in our plane production.

Newspaper advertising is the American way of increasing business.

Myra News

Mrs. John Blanton
Correspondent

Mr. and Mrs. C. J. Meek of Wheeler spent Sunday with Mrs. C. L. Maxwell.

Mr. and Mrs. Boss Platt of Gainesville spent Sunday here with Mr. and Mrs. N. Platt.

Ben Murry Fulton came in Friday from College Station where he attended A & M College the past winter.

Mr. and Mrs. Nolan Lemons, who have been living at Amarillo, have moved back here to make their home.

Miss Inez Fears of Dallas, was the guest of her mother, Mrs. Dora Fears, and Mr. and Mrs. Parker Fears over the week-end.

The infant daughter of Mr. and Mrs. F. J. Brown is critically ill here at the home of Mr. and Mrs. Edd Huddlestone.

Mrs. N. Melton and sons, Darrell and Glen, returned home Thursday from Dallas after a two weeks' visit with their daughter and sister, Mrs. Otis Gray.

Rev. and Mrs. J. M. Webb and Mr. and Mrs. Oscar Aldridge attended District Conference of the Methodist church at Denton Wednesday.

Mr. and Mrs. A. E. Barnes and

daughter, Myra Lee, spent several days last week in Fort Worth with his parents, Mr. and Mrs. L. B. Barnes.

Mr. and Mrs. Dave Chadwell of Gainesville visited Monday with Mrs. Ruth Needham and Mrs. Frank Needham.

Mrs. T. J. Pryor was accompanied to Sherman Tuesday by her sisters, Mesdames C. A. Crowson of Sanger and Stan Harrell of Valley View, on a business trip.

Mrs. Ray Hudson spent several days of the past week at the bedside of her brother, Paul Puckett, of Leo, who was operated on for appendicitis at the Gainesville Sanitarium.

Mr. and Mrs. Lester Bridges had as their guests Sunday Mr. and Mrs. Arch Stogwell and Mr. and Mrs. Jim Stogwell and son, all of Amarillo. They were enroute to Paris to visit other relatives.

Mrs. Doty Warner went to Gainesville Friday evening to be ready to report for work Saturday morning at the Teague Co. store where she has been employed as clerk.

Rev. and Mrs. Glenn Bridges of Fort Worth and Mrs. Clay Pennington of Jolly, Texas, spent the week-end with Mr. and Mrs. Fred McTaggart. Rev. Bridges, the newly elected pastor of the Baptist church here, preached at 11 o'clock hour but due to rain the evening service was called off.

Sergt. Jack Needham, who has been in Savannah, Georgia, spent the week-end here with his mother, Mrs. Ruth Needham and other relatives and friends. He was accompanied home by Warrant Officer Abe Wyecheck and Corporal Bill Lanford, who were also guests of the Needham family. The boys were enroute to Colorado Springs, Colo.

Mesdames Lula Moore, Nannie Dozier, Mr. and Mrs. Earl Ezell, all of Dallas, Mr. and Mrs. John Gregory and family, Mrs. Doyle Dees and daughter of Hood, Mr. and Mrs. Ewing Gregory, Mr. and Mrs.

Motorist Shown to be His Own Worst Enemy

Drivers have only themselves to blame for most automobile accidents. In 1941 that fact was even more clearly evident than usual. More than 62 per cent of the 46,700 cars involved in fatalities on the nation's highways last year were in apparently good condition when the accidents occurred.

Human rather than mechanical failure was the principal cause of motor vehicle mishaps. It revealed itself chiefly in excess speed, carelessness, and inattention, according to "The Wreckord," a new booklet of street and highway accident data published by The Travelers Insurance Company as a contribution to the cause of street and highway safety.

One bright spot in what is otherwise the darkest picture of automobile accidents in history was a sharp and gratifying drop in the number of fatalities and injuries caused by glaring headlights. There was no significant change in the totals of accidents caused by defective brakes or steering mechanism, tail lights which were obscured or had gone out, punctures or blowouts, unlighted headlights, and other defects. Altogether, though, accidents from these causes amounted to less than seven per cent of the 1,589,000 analyzed.

A Two Fisted FIGHTER

Don't judge a livestock fly spray merely by the number of flies it kills in the barn. Fly killing, of course, is important—that's why we have made Dr. Hess Livestock Fly Spray a good killer.

But you particularly want a fly spray that will go along out to the pasture with your cows and protect them from that day-long fly fighting. As a fly repellent, Dr. Hess Livestock Fly Spray is outstanding. It has been cow-pasture tested—we know definitely one spraying will keep your cows practically free from flies all day long.

WHY WE SELL

DR. HESS DIP

We handle Dr. Hess Dip and Disinfectant because we have a high regard for the quality of this product. We believe you need a quality product when you're dealing with lice and disease germs around the barn and chicken house. We believe you usually get exactly what you pay for—don't try to economize on dip—get Dr. Hess Dip.

Veteran Farmer Urges Soil Saving Methods

"Soil in the Muenster community didn't wash for ten or twelve years after the sod was broken out due to the high content of organic matter," Joe Walterscheid, veteran farmer of Cooke county, said Tuesday afternoon, in discussing land management at his home near Muenster.

Mr. Walterscheid continued with the explanation that native prairie grass built up a high degree of fertility in the soil by the annual decay of countless grass roots. This organic matter served to soak up the water as it fell, storing it in the soil, instead of letting it run off the field, taking the soil with it.

"We were able to make much better grain crops back when the land was new than we are today, because in the first place the land was more fertile and in the second place more water was stored in the soil, due to the organic matter, which prevented so much drought damage."

"Something must be done about this washing. If we don't stop the land from going down the creeks, future generations will have no place on which to grow food."

"Some of the land that was broken out of sod, was too steep or too thin for cropping and would be worth more planted back to grass where it will rapidly build back into a rich soil. Portions of the land suitable for cropping should have something turned back to the land regularly in order to build it up and keep it from washing," he concluded.

Experiment station data shows that Mr. Walterscheid's conclusions are correct. In a rotation of wheat, clover and corn, at Bethany, Missouri, the yield of corn was raised from sixteen to forty-six bushels per acre.

Health Officer Gives Hints For Prevention of "Summer Complaint"

AUSTIN, TEXAS, May 20.—The season of the year when the most complaints are received on account of diarrhea and dysentery or "Summer Complaint" is here and Dr. Geo. W. Cox, State Health Officer has issued a warning to parents in regard to this, and offers the following suggestions to prevent its occurrence among babies. The chief causes of diarrhea include impure milk water and contaminated foods, overheating, fever, for any cause, too much sugar or cream in the diet, overfeeding and underfeeding. Mother's milk is the safest food. However, if other milk must be used, the supply should be clean, pure and boiled. Any other articles of food should be fresh and clean and no unsuitable articles of food such as cake and candy should be given.

If a feeding formula is used, it should be one prescribed by a physician and it must be prepared with extreme attention to cleanliness and kept cold until used. The baby should be fed at regular intervals and should not be forced to eat when he is not hungry. The baby should be kept cool and comfortable in hot weather, should not be overclothed and should be given plenty of clean water to drink. Any infections which develop in the nose, throat, ears or other organs should receive prompt attention from a physician.

If diarrhea develops, feeding should be stopped or greatly diminished and an abundance of water should be given. Cathartics should not be given except on the advice

of a physician. If the diarrhea does not improve within a short time, a physician should be called and a complete examination should be made.

The three F's, flies, fingers, and food are the three sources of danger to the baby. Flies carry disease germs to the baby and its food. Fingers and hands that are not thoroughly washed before preparing the baby's food are likely to be germ carriers also. All milk and water that is intended for the baby should be boiled for five minutes, then carefully covered and kept in a cool place until used.

Substituting Honey Or Molasses For Sugar Is Simple and Successful

COLLEGE STATION, May 21.—By observing several simple rules, homemakers successfully can substitute honey or molasses for part or all of the sugar required in their favorite recipes.

Hazel Phipps, Extension Service specialist in food preparation, says the characteristic flavors of molasses and sorghum make many foods more delicious. Both vary in moisture and acidity, she says, so the amounts she recommends for sugar substitution are "approximate."

It takes about 1½ cups of molasses or sorghum to equal one cup of sugar in sweetness. Each cup contains approximately one-fourth cup of water so the liquid in a recipe should be reduced in proportion. In products which are leavened, about one-fourth teaspoon of soda should be used for each cup of molasses or sorghum.

Miss Phipps gives this caution: Molasses and sorghum burn easily, so the temperature for baking should be lower than the temperature for baking mixtures made with sugar.

Rules for substituting honey for sugar are quite similar. Mixtures with honey brown easily and high heat changes the flavor of honey, so cooking temperatures should be lowered. A cup of honey gives approximately the same amount of sweetness as one cup of sugar, so the exact amount may be substituted. However, each cup of honey, like molasses, contains about one-fourth cup of liquid, so the liquid requirements of the recipe should be reduced one-fourth cup for every cup of honey used.

Lindsay News

Pvt. Robert Beyer has been transferred from Fort Knox, Ky., to Camp Cooke, California.

Eugene Schmitz, Francis Dieter and Joe Hundt of Garland spent Sunday with their parents here.

Lieut. Lonis Gieb of Paris, Texas, spent the weekend with her parents, Mr. and Mrs. Henry Gieb and family.

Get your supply of Conoco Nth Oil now. It comes in a handy 5-gallon can and sells for only \$3.43. —Hoelker Grocery. (adv)

Mr. and Mrs. George Lutkenhaus and family of Muenster were Sunday guests of Mr. and Mrs. Ben Lutkenhaus.

Pvts. Valentine Fuhrmann and Ray Fuhrmann of Camp Wolters were weekend guests of relatives and friends here and at Muenster.

Anton Dieter has closed his repair shop here and since Monday is employed in the mechanical department of Herr Motor company at Muenster.

Lindsay's quota in the current United Service Organization's drive has been set at \$65 and Jake Bezner is local chairman. Soliciting of contributions is to begin this week.

Try some of our gallon-pack fruits. How about peaches? Good grade peaches for 48 cents a gallon. Hoelker Grocery. (adv)

Mr. and Mrs. Joe Schmitz had as guests Sunday Messrs. and Mrs. James Webb Claybrook and Richard Schmitz and children of Gainesville.

Rev. Richard Evid of Muenster was here Sunday to say the early mass and Rev. Father Conrad, pastor was in Muenster for the early mass in that parish.

Rev. Father Frowin of Muenster and Rev. Father Bernard of Subisco, Ark., who is visiting in that city, were among the out of town visitors at the parish picnic Sunday afternoon.

Ven. Sisters Agnes, Regina, Wilhelmina and Pulcheria left for the motherhouse in San Antonio last week to spend the summer following the close of school here.

Eleven new members were received into the Young Ladies' Society Sunday during impressive services. New members are Misses Anna Hermes, Frances Bengfort, Beatrice Block, Marcella Schmitz, Alice Sandmann, Dorothy and Mil-

AT PLAZA—SUNDAY - MONDAY - TUESDAY

Lon Chaney holds tiny actress Janet Ann Galloway in one of the chilling scenes in Universal's "The Ghost of Frankenstein," in which Bela Lugosi is prominently featured.

ded Dieter, Rosa Fuhrmann, Lucille Arendt, Mary Louise and Lucille Bezner.

Members of the local Mission Sewing Circle held a regular monthly meeting at their club room last Wednesday and engaged in quilting for the missions. A large number attended.

Johnny Weiss this week has received a promotion and is now a Private First Class, it was learned here. Johnny has been transferred from Camp Wolters to a camp in Arkansas and his new address is: Pfc. John Weiss, Reco. Co., 706th T. D. Bn., APO 256, Camp Chaffee, Arkansas.

Mr. and Mrs. F. J. Gruber had a letter from their son, Pvt. Randolph Gruber from Hawaii Monday. Randy said he was fine and that he and a group of his buddies, certainly enjoyed the peaches his parents sent him. Some of the boys who had never eaten peaches before, asked him if their delicious flavor came from a special roasting process.

Mr. and Mrs. Joe Bezner and son, Bobby, and daughter, Mrs. Mike Kelly, accompanied by Mr. and Mrs. Al Bezner of Gainesville, spent Sunday in Dallas with Mr. and Mrs. Jessie Galvan, and attended services at church during which their little granddaughter and niece, Peggy Lou Galvan, made her First Communion.

Pvts. Albert Hoelker, Albert Laux, Hugo Bengfort, Lawrence Schad and Alvin Loerwald of Camp Wolters spent Saturday night and Sunday here with members of their families. Ewald Hoelker accompanied them back to camp Sunday night and returned in Albert's car which he had at Mineral Wells since he was stationed there. This group expects to be transferred within the next several days.

You can always trade the present for a brighter future, if you're willing to pay the difference.

Camp Wolters. Joe Sicking and Ray Fuhrmann qualified as experts and Andy Yosten fell one point short of qualifying as a sharpshooter.

It's Sergeant Charlie E. Wimmer now. The parents, Mr. and Mrs. C. J. Wimmer, received word this week that their son was given the promotion recently at Schofield Barracks, Honolulu.

Billy Eberhart is now Mess Sergeant at Camp Wheeler, Ga., his parents, Mr. and Mrs. Ed Eberhart, were advised this week. Billy received the promotion when he returned to camp following his furlough here two weeks ago. He plans the menus, supervises the marketing and has general oversight of all cooking and baking at the camp.

Mrs. Ralph Richards and Mr. and Mrs. Carl Bentley of Duncan, Oklahoma, returned Tuesday from San Antonio where they had been visiting their son and brother, Sgt. Chester Bentley, gunner, at Randolph Field. Sgt. Bentley has been called for foreign service.

Pfc. Jimmy Lehnertz left Camp Hulen Saturday. It has been learned, although his new station has not been made known.

Ferd Yosten has been moved from Buffalo, N. Y., where last week he received his diploma for completing his mechanic's course. He is now at Long Island, N. Y., waiting to be transferred, his father, Frank Yosten, disclosed Tuesday after receiving a letter from him. Ferd is with the Army air corps.

Pvt. Lawrence Sicking was moved from Tacoma, Washington, to Fort Ord, Calif., last week, he wrote his parents, Mr. and Mrs. Wm. Sicking.

Pfc. Roman Trachta is now stationed on duty as Letterman General Hospital in San Francisco, his sister, Miss Dorothy Trachta, advised this week.

Cpl. Alfred Walter is now stationed at Fort Lewis, Tacoma, Washington. He was formerly at El Paso.

NEWS OF OUR BOYS IN UNCLE SAM'S SERVICE WANTED

This paper would appreciate receiving all possible news of our boys in Uncle Sam's service. When you parents hear from your son or sons, who are in the camps of the U. S. A., or on foreign soil, that's NEWS, and we would like very much to have it, for everyone enjoys reading about the home boys.

The next time you hear from your boy, stop by this office, or mail in the news. Only one requirement is necessary for written news, and that is that the sender sign his name; the name will not be published, but is necessary to assure authenticity of the item.

We are going to make every effort to keep our readers posted on our boys in the service, and with the cooperation of parents and friends, we can make this department most colorful and interesting.

Parochial Hi School Annual Distributed

Distribution of copies of "Cordis" edited by the senior-junior class of the Sacred Heart High school began Friday. This is the first annual for the school. The attractive book has a red plastic binding and an ivory embossed cover.

Pictures of the pastors, faculty, classes, favorite students, personnel of the staff, sports and snapshots are pleasingly arranged. The pictorial advertising concludes the book.

Sister M. Agnes, English instructor, supervised the staff in publishing the book. Members of the staff were Miss Celia Walterscheid, managing editor; Miss Rose Hennigan, staff artist; Leo Becker, boys' sports editor; Joe Starke, advertising manager; Miss Beatrice Reiter, personality associate; Miss Evelyn Wiesman, girls' sports editor; Miss Florene Endres, historical asso-

ciate; Miss Rose Marie Endres, essay associate.

"Cordis" was chosen for the name of the annual because it means "of the heart". Since it comes from the heart of the school, since it pulses with life of the school, since it emanates the spirit of the school, and since the Muenster church and school are dedicated to the Sacred Heart of Jesus, members of the staff named the annual "Cordis."

Confetti---

(Continued from page 1)

to exercise the magnificent characteristics of our nationality. Simple gratitude calls on us now to show our appreciation for the many blessings Americanism has bestowed. This is the time when, above all others, it behooves us to recognize our responsibilities more than our rights. It is time to throw every last pound of our effort into the balance to preserve the precious customs, traditions, and standard of civilization that have become our heritage.

Being an American today means a lot of things it did not mean a few years ago. It means a total disregard of selfish interests and whole-hearted application to those activities which insure the country's survival. It means work and achievement toward the nation's war effort.

To the fighting man it means intensive, serious training so that he can be a more efficient defender of his country. To the producer of war equipment it means constant effort toward greater output of better machines at the least possible expense to our country. To his employe it means diligent application to his job, not losing a minute of time regardless of other conditions he may dislike. To the shipper, on land or sea, it means safe and speedy transportation of every machine or part so that the nation's program will be delayed as little as possible.

To the farmer it means the extra effort to get a few more punts of milk, dozens of eggs, bushels of grain, or pounds of pork and the extra care to see that none of it is spoiled — any action that will add a little to this nation's and the world's storehouse of food. Also to the farmer it means a special effort to get along with old machinery thereby conserving the nation's supply of essential material. To the merchant it means a deliberate effort to sell less instead of more — again to conserve essential food and other materials.

To every person, child or adult,

it means getting along on as little as one can instead of as much as is permitted. It means spreading the butter and jam a little thinner, conserving fuel and electricity, wearing threadbare and patched clothing, getting along with the old washer or refrigerator for another season. Yes, and it means hearty cooperation in the salvage campaign, saving every old paper, every scrap of metal, every old tire, hose or overshoe for the victory scrap heap.

Americanism means even more. It means a cheerful generous attitude toward little sacrifice, not a spirit of grudging submission. It means a courageous confidence that the efforts will bear fruit in the eventual preservation of all those things we hold dear. And it means fervent prayer for Divine guidance to the end that we will succeed in our resolve to reach a glorious new era of peace, justice and happiness.

These are some of the duties that Americanism demands of us today. In that light how many of us can truly say "I Am an American?"

Another idea consistent with Americanism: The recent apparent turn in the fortune of war must not induce a feeling of over-confidence. The fact that the blitz has been slowed down is certainly no assurance that it is under control. The all-out victory effort must continue full speed until that happy day when the foe lays down his arms. To let up would mean not only to postpone the victory — perhaps even lose it — but to waste thousands of additional lives and prolong the world's misery.
