MUENSTER, COOKE COUNTY, TEXAS 76252 JANUARY 6, 1967

NUMBER 7

**Terrifying predictions of happenings this year and the next several years have just been revealed by Jeane Dixon, the Washington, D.C., lady who has become famous for many correct predictions in the past.**

A new year interview reported by her biographer, Ruth Montgomery, warns that our country is headed for a load of troubles, both domestic and foreign.

One of the dire predictions concerns the war in Vietnam, which is due to get much rougher and last three to five years longer, when Russia will dictate both a Vietnam peace and a world peace by threatening nuclear destruction to a number of American cities.

She emphasizes what many others have said for years, that our real enemy in all the global turmoil is Russia.

Mrs. Dixon did not foretell what conditions can be expected after the Soviet establishes itself as the world's boss. We can only hope that the right kind of people are running Russia by then. If not, the outlook is dark indeed. In fact, the outlook before the big Russian blackmail is about as dark. She describes the Vietnam war as a bonfire compared with the greater combats to come.

One wonders whether these gloomy developments are seen as events that will actually happen or just as possibilities unless we do something to change the course in Vietnam. She says we have it in our power to end the war in six weeks by bombing the shipping into Haiphong Harbor, but we are not facing up to the real enemy there — Russia. Apparently there's still a ray of hope if we'll start fighting to win. And there's talk now that the hawks are getting more influential in our war councils.

Contrasting with all the gloom, Mrs. Dixon has one pleasing prediction. Medical science is about to find a cure for cancer. Work on the project was proceeding well early in the century and was interrupted by World War I. Those theories are about to come forward and they will be carried to success in this century.

Predictions on internal affairs of this country likewise present cause for anxiety. The crystal ball reveals a mysterious sixth column working to take over the government. She says they are not communists but men with a great deal of money luring important men of government to do their bidding. There's a hint that the big tax-free foundations are involved.

Such a prediction could make one wonder who will be the good guys and the bad guys when the big Russian threat comes. Mrs. Dixon's biography foretells that Russia will eventually straighten out. Will they, then, get this country back in line? Those predictions considered together present quite a puzzle.

The article also presents a puzzle in domestic politics and government. This year and next will be Republican years and the Johnson program will be in trouble, but the 91st Congress will begin a new cycle of legislation far more socialistic than the 89th.

That prediction is made in spite of another prediction, that Republicans in 1968 will have their best opportunity since 1952, if the party will close ranks, and that two conservatives, Thurmond and Nixon, will be strong in the party. There's a mention that liberal Rockefeller will fail again to get the party's nomination and moderate Romney's chance is weak unless he can achieve a near miracle and overcome a difficult squabble. Such circumstances hint vaguely that the next election will repeat the last one, that conservatives will win at the convention but liberals of the party will help beat them in the election. Certainly it's hard to see how a conservative victory would be followed by more socialistic legislation than ever before.

Mrs. Dixon has ideas about the Kennedy assassination which differ from official views. Her crystal ball reveals accomplices and a plot that was hatched in Russia. A key to solution of the mystery, she says, is a young woman born in Russia and now living in this country. That woman handled both Oswald's rifle and another which fired a shot.

That view seems to fit other related facts much better than the one coming out of the in-

## Firemen Answer 50 Calls in 1966, 16 in December

The Muenster Fire Department made an even 50 calls during 1966 and divided them evenly between the city of Muenster and rural areas.

A year end summary of the organization's activity also reveals that more than half the calls were for grass fires, both in and out of town. There were 13 of them in the city and 14 in rural areas. However one significant change is apparent. Fires along the MK&T right-of-way, frequent occurrences in years past, dropped to only 4 last year. Nevertheless, Katy remains the department's biggest customer.

Heaviest losses of the year were severe damages at the homes of Werner Yosten and Maurice Pagel, both in the city limits. And the big fires outside of town were hay barns for Hubert Felderhoff and Paul Fisher, both completely destroyed.

The month of most activity was December with a total of 16 fire calls. Four of these occurred on December 6 and two each occurred on December 14 and 28.

Next busiest month was September with 5 fire calls. January, April and October had 4 each. February, June, July and August had 3 each. March and November had 2 each, and May had only one call.

This year the firemen are getting off to a busy start. They answer two calls Tuesday and two Wednesday.

## Firemen Sponsor Dystrophy Drive

The Muenster Volunteer Fire Department, in cooperation with most other firemen of the state, are again sponsoring a local campaign to raise funds for the Muscular Dystrophy Association of America, which uses the money for complete patient service and research programs on the disease.

Lambert Walterscheid and Jerry Wimmer are co-chairmen of the local campaign and are this week distributing special canisters for donations to most of the business houses of town. The canisters will remain for about a month, after which their contents will be forwarded to the Dystrophy Association.

## MHS Teams Lose Pair at Lindsay

Muenster High's basketball teams opened their district schedule with a pair of losses at Lindsay Tuesday night.

In the first game Lindsay's girls stormed ahead to a 36-11 half time lead and then coasted to their 55-23 win. Debbie Cain and Sue Flusche scored 12 and 9 for Muenster, M. Fuhrmann and J. Zimmerer made 22 and 12 for the home team.

Next time the Hornets almost broke even in the first and last periods but fell behind 7 and 13 in the second and third. The final count was 53-32. Top scorers for MHS were John Monday 14, Chris Cain and Sam Sparkman 8 each. For the Knights they were D. Arendt 11, R. Hundt and R. Zimmerer 10 each.

## Public Invited to Join Discussion on More School Tax

Trustees of the Muenster School District at their meeting Thursday night will consider a petition asking for an election to authorize a tax rate of \$1.50 per \$100 of valuation for the school's operation.

The petition has been completed with the required number of signatures and a date for the election will possibly be decided at the meeting.

The proposal, as shown on the petition, does not affect the present 50 cent maximum for debt retirement, which is included in the present maximum of \$1.00. In effect, Superintendent L. B. Bruns pointed out, the maximum total tax rate will be doubled. However the rate to be actually assessed each year would be determined by the current budget.

The tax rate now in effect was set up in 1949. Since then expenses at the local school have increased enormously. Teacher pay raises, inflation and growth of both faculty and enrollment are the reasons. Board members have two ways of increasing revenue to meet the higher costs. One is by increasing valuations, which is permissible without voter approval. The other is the proposed method of increasing tax rate and leaving valuations at their present level. That method requires voter approval and the board will ask for the approval because members think the average taxpayer prefers it.

People who want to learn more about the tax alternatives or the increased expenses that require greater tax revenue are invited to attend the board meeting. It begins at 8 o'clock.

She also won the title of Miss Cooke County 1967 and gifts offered by Gainesville merchants.

Mr. and Mrs. Wolf repeated as First Baby Contest winners. They won the Muenster contest last year with a six pound seven ounce boy, Kevin, born at 6:24 p.m. Jan. 3, 1966.

## County Officials Begin New Terms, Only One Change

The beginning of new terms of office makes little difference at the Cooke County court house this year. Of the ten who posted bond and signed oaths there was only one newcomer. All the others were continuing in office.

Even the new one is far from a stranger. Anna Mae Shorter, succeeding Milton Thomason as district clerk, has been deputy district clerk for the past twelve years. Her successor as the deputy clerk is Miss Linda Morgan.

Those who continue in office are Wm. Carroll, county judge, Wm. Sullivan, county attorney, J. H. Riley, county clerk, Ruby Davis, county treasurer, E. F. Carson, county superintendent, Earl Robison, commissioner of Precinct 4, W. B. Hudspeth, commissioner of Precinct 2, Carl Burchfield, justice of peace of Precinct 1, and D. F. Card, justice of peace of Precinct 6.

## Medders Host at Holiday Parties In Coliseum

A holiday ball, preceded by a cocktail hour and followed by breakfast, in Colonial Acres Coliseum was an event Thursday night, Dec. 29, with Mr. and Mrs. Ernest Medders as hosts entertaining relatives and friends from six states.

Guest of honor was the mayor of their former hometown, Jellico, Tenn., the honorable A. B. Foreman, who attended with his wife and other guests from Jellico.

Kin from Tennessee, Kentucky and Virginia spent most of the holiday season with the Medders and these all had tables surrounding the dance floor.

Jan Garbor and his band and singers furnished entertainment.

Mrs. Medders called the relationship together at intermission, and along with the hosts' family, the group totaled more than 60. Pictures were made.

The coliseum was lavishly decorated as at other social events hosted by the Medders. Yule decor was featured everywhere. Eighteen chandeliers decorated with blinking red lights and eight-foot felt Christmas trees revived the Christmas spirit for some 500 guests. Muted lights were in white lanterns in the ceiling. At the west end of the coliseum was a ceiling-tall white fir tree covered with lights and satin balls.

Guests were seated at round tables covered with red cloths and centered with modernistic trees in bases of white fir and tiny snowballs surrounded by crystal votive lights.

Cocktails and tables of hors d'oeuvres were arranged for the first part of the evening and breakfast at 11:30 included roast turkey and beef, prime ribs, ham, vegetables, condiment trays and fancy breads.

Among out of state guests were Mrs. Medders' brothers and sisters-in-law, Mr. and Mrs. S. D. Smiddy of Williamsburg, Ky., and Mr. and Mrs. Joe Smiddy and daughter Elizabeth of Wise, Va.

Nieces and nephews present included the Charles Smiddys and children Gloria, Bob and Carolyn, and Jack Smiddy and children Harold and Beth, all of Knoxville, Tenn.; James Smiddy and daughters Pam and Melissa of Cleveland, Tenn., and Mrs. Bill Brewer of Matawan, N.J.

Other out of town guests included Bill Wheeler and son Jerry and Ray Ellison of Jellico; Jim Snyder of Cayahaga Falls, Ohio, Mr. and Mrs. Fred Stickle and daughter Betsy Ross and Mr. and Mrs. Kyle Rosenbaum, all of Ewing, Va., Mr. and Mrs. Richard Hummel and Nancy of Blackburg, Va., and Mr. and Mrs. Walter Whitt of Norton, Va.

The following night, Mr. and Mrs. Medders were co-hosts with their daughter, Miss Cathy Medders of Dallas Hockaday, for a similar event for young people, including about 200 from Dallas — Hockaday students and their dates. These came to Muenster by train. Buses met the Santa Fe at Gainesville at 8 p.m. and returned the young people to the Santa Fe station at 1 a.m.

Father Harry Fisher had a four-day holiday vacation with his family here. He returned to Fort Worth Tuesday.

## Mrs. B. G. Lyons Lifelong Resident Of Marysville Dies

Mrs. B. G. Lyons, 80, native and life-long resident of Marysville, died at 11:55 a.m. Tuesday at Alta Loma in the home of a daughter, Mrs. W. O. Grant, where she had been a guest since Thanksgiving.

Death followed a stroke on Christmas morning and another one on Friday.

Scott Bros. Funeral Home of Saint Jo was in charge of funeral arrangements. Services were held at 2 p.m. Thursday in Marysville Baptist Church and burial followed in Marysville Cemetery. J. T. Marlin, Church of Christ minister officiated.

## Year End Snow Ups '66 Moisture Measure to 37.51

The first snow of this season arrived just before the first of the year and added a tenth of an inch to the moisture measure of the month and year. It fell on Friday, the 30th, so it was recorded on the last day of 1966.

That made the year's measure 37.61 inches and the month's total 1.47 inch.

The snow did not last long. It melted as it fell on the street. On cooler surfaces some of it lasted until the next morning.

## Garden Club Will Meet Monday at 8

A lecture by Clive Gobble on planting trees and treating tree wounds will feature the January meeting of Muenster Civic League and Garden Club to be held next Monday night at 8 o'clock in the community room of TP&L building.

Also on the program is an election of officers. Hostesses will be Mrs. Larry Yosten and Mrs. Werner Yosten.

## Gov. Connally To Visit Saturday In Gainesville

Governor John Connally, along with his wife and other honored guests, will be in Gainesville Saturday for formal opening ceremonies of the Ranger Arms rifle manufacturing plant and a luncheon and reception at Cooke County Junior College.

The Ranger plant, recently completed, is producing a revolutionary new hunting rifle invented by Homer E. Koon Jr.

According to an official program released by Gene Davenport, Chamber of Commerce manager, the governor's party will arrive at the Gainesville airport at 11 o'clock and will be met by the mayor and other city officials and an honor guard from the Texas National Guard.

From there the group will go by motorcade to the Ranger plant on East Highway 82 for ceremonies and inspection.

Then the motorcade will go through Gainesville via Grand Avenue and California Street to the college for the reception and wild game barbecue. Among others joining the party there will be State Senator Ralph Hall, State Representative Alonzo Jamison, and Herb Klein, Dallas businessman and world famous big game hunter.

At the luncheon Mr. Koon will present the plant's first rifle, bearing serial number 1, to Governor Connally and the public is invited to attend.

## Long Worry List Faces Legislators As Session Opens

Come Tuesday, Texas legislators will be back in session at the state capitol.

Pressing money matters and

certain new taxes head the "worry list" confronting the lawmakers. But a broad montage of other problems on the agenda promises an interesting, high-voltage session. It is sure to be one that will continue through the full 140-day period and may even go into extra innings.

Gov. John Connally in his "state of the state" message to the solons later this month will outline spending recommendations which will require more than \$100,000,000 in new taxation. Included will be his own \$911,500,000 budget.

Numerous tax proposals are expected to be offered. These include expansion on the sales tax, a one-cent-per-gallon boost in gasoline taxes, a franchise tax raise and many

other proposals.

Growing cities, with finance problems of their own, will occupy much of the Legislature's attention. Mayors will plug for a one-percent local option city sales tax. (Governor Connally prefers a rebate of gasoline tax revenues for street purposes.)

While most legislators apparently are prepared to vote for new taxes, few indicate they will support a \$44,000,000 raise in state college tuitions.

Headline topics before lawmakers this year will include:

Teacher pay raise — teachers want raises ranging from \$61 to \$100 a month. This would cost the state some \$68,000,000 a year. A majority of lawmakers are committed to some form of increase. Connally is expected to recommend much less.

Constitutional revision — the governor and the State Democratic Party advocate revision by convention. Lt. Gov. Preston Smith favors a more-cautious approach.

Legalized sale of mixed drinks and horse racing.

Annual legislative sessions.

A long-range plan for water pollution control.

A 20-percent pay raise for all state employees.

Driver safety legislation: increasing the minimum age for drivers to 16 and requiring periodic re-examination of all drivers.

Among other measures to be considered are: a minimum wage bill; an industrial safety act; increased workmen's compensation benefits; reconsideration of some provisions of the new code of criminal procedure; daylight saving time (should Texas accept it or pass a special act to retain standard time?); and a \$75,000,000 bond-financed, 12-year program advocated by the governor to acquire and develop new state parks.

### Liquor, Si; Betting, No

An Associated Press survey of Texas senators and representatives indicates that while horse-race betting again doesn't seem to have a chance in the 60th Legislature, legalized mixed drinks may.

In 1965 the Legislature let the horse-racing proposition die in a sub-committee. And the liquor-by-the-drink bill — which has been up in every session since World War II — was killed in committee.

Judging from its early answers to a questionnaire, AP concluded that mixed drinks have gained support, while betting seems to have lost some of its appeal. Some legislators said they would not vote for either issue and expect neither to pass. Both will again be hot issues.

On another section of the questionnaire, approximately three-fourths of the senators and representatives figured that new taxes will be in order for the 1967 session. But there was no unanimity as to what kind of taxes.

Only one senator — Henry Grover, Houston Republican — said he would vote for few or no more taxes. No member of the House said he would vote against new taxes. However, several legislators did say they were undecided.

The leader of more than five million Negro Baptists, Dr. J. H. Jackson, president of the National Baptist Convention, defended his concern for equality, but said, "any group of people who turn their backs on law and order are not working in the interest of freedom."

### NUMBER ONE NEWS STORY

This being the time of year when lists of the great news stories of 1966 are drawn up, we're curious to see how the Indonesian uprising is rated.

Since there is a technicality, it may not get first place. After all, it started in 1965. But the repercussions have been such that we consider it not just one of the top news stories of 1966 but of the twentieth century.

Since details have a way of becoming hazy with the passing of time, a brief review may be in order. Toward the end of September 1965, the Indonesian Communists decided the time was ripe to size the country. After all, Bung Sukarno was on their side and who could stand in their way? They therefore seized and murdered six anti-Communist generals, set up headquarters in Jakarta and established a revolutionary council to run the country.

On Oct. 1, the people of Indonesia and the world were told that the Communists were in control. Radio Peiping was crowing mightily. Fortunately, however, that turned out to be exaggerated propaganda. Enraged by Communist atrocities, the Indonesian people went on a rampage against the Communist Party of Indonesia and everyone supporting the party. By the time things settled down early in 1966, an estimated half-million Reds had been killed, and Sukarno, who had given the Communists so much encouragement, was merely a figurehead.

But that is only part of the story.

Communists have always maintained, as an article of faith, that history is on their side. They say historical materialism insures that they will rule the world, and nothing whatsoever can stop the "wave of the future" set in motion by Karl Marx.

Indonesia proved the utter fallacy of this Communist claim, and this explains the turmoil in Red China as this is written. Mao's leadership, which of course extended to the Indonesian Communists, has been shown up, and this has forced him to set up a clamor in the streets to distract attention from his failure. The Red Guards rampaging through his kingdom are a desperate bid to remain in power despite the loss of face and prestige in having tried, and failed, to seize power in Indonesia. Mao's blunder brought on the total elimination of the third largest Communist Party in the world.

So we vote the Indonesian uprising the number one story of the year.

And it is not over yet, as Mao well knows.

One of the worst fires in the nation's history occurred Oct. 9, 1871, when a forest in Peshigo, Wis., burned, resulting in 1,152 deaths.

One acre of healthy forest requires 20 years to grow enough lumber to build a 5-room house the Agriculture Department reports.

### THEY WERE THERE

Two U. S. pilots who have flown many missions in Vietnam have publicly accused the Pentagon of sending combat pilots on missions against worthless targets, and with far less than a full load of bombs and ammunition, just to give the "statistical" impression that a great deal of pressure is being put on the enemy regime in North Vietnam.

One of the pilots, whose letter was published in the authorized magazine "Aviation Week", remains anonymous, presumably because he is still on active duty and flying such missions. The other identified himself as Navy Lt. Norde Wilson, who resigned from the service after flying 125 missions in Vietnam.

In a letter to Congressman William E. Minshall, of Ohio, Lt. Wilson said that many other pilots are planning to quit because they are fed up with the "weak wills" and "blundering" of civilian officials in Washington, and because many of the targets assigned for attack are not worth "any one of our lives or planes."

It isn't only pilots who are called upon to risk their lives on pointless and futile missions, and evidently it is not only pilots who are fed up. The Marine Corps announced on October 17 that "about 500" resignation requests from commissioned officers were being "deferred" because the officers have skills which are vitally needed in the Vietnam war.

What good does it do to retain in service men with "vitally needed" skills of war if they are not permitted to use those skills to the fullest?

The sending of a combat pilot on a mission may cost his life, without fully equipping him to inflict the greatest possible injury upon that enemy, has to be a crime. For the sending of ten planes — and crews — to do the job that five could do, means exposing crewmen and planes needlessly to the flack and rockets of the enemy. Somehow it seems like a court martial offense, though it is quite conceivable that the people responsible are beyond the reach of a court martial.

We've seen no more eloquent indictment of the conduct of the war in Vietnam than the report that 500 Marine Corps officers want to resign.

And if that doesn't shake you, too, then tell it to the Marines.

The deputy in charge of the posse protested vigorously. "Are you trying to sneak this varmint into Heaven when he ain't even fit to live in Texas?"

**Visitors From Ohio Feted by Family**

Things got back to routine this week for the Al Fleitmans after a wonderful holiday season shared by their five children and families including the 22 grandchildren and their daughter and family, the Gene Strassbergs and Brenda, Karen, Kenny and Cheryl of Dayton, Ohio, who arrived on Dec. 21 to spend a week's vacation. They were all together for Christmas in the Fleitman home for dinner and at other get-togethers and dinners honoring the Ohioans. This group included Mr. and Mrs. Leon Krebs and five children of Gainesville, the Herbie Fleitmans and two sons of Denison, the Eddie Fleitmans and five children and the Henry Felderhoffs and six children. The Strassbergs started home

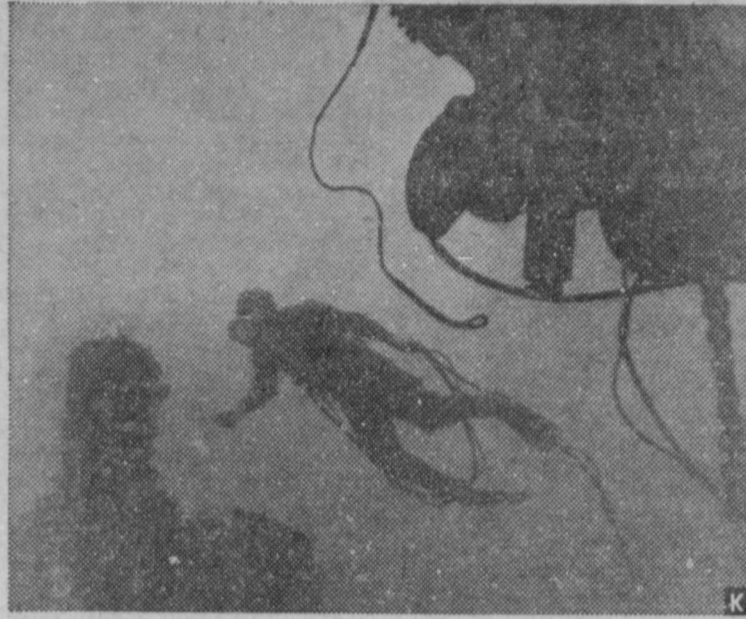

on Dec. 28 and on the night before were honored at a farewell reunion in the K of C Hall with dinner and a dance. The Hootenannys played for dancing. The musical group is composed of J. D. Caplinger, Norbert Koesler, Buddy Yosten, Eddie Fleitman and son Allen Fleitman.

Other entertainment during the evening was by Doris Felderhoff and Lenora Fleitman, playing their clairnets and singing. Mmes. Caplinger, Koesler and Yosten were special guests.

The Strassbergs phoned her parents to report safe arrival home in spite of icy roads and lots of snow on the way to Dayton.

Father Sylvester Schad was a Muenster and Lindsay visitor a few days last week. He came by plane and returned in a new Chevrolet.

**Man Unlocks Ocean's Secrets**

The secrets that have long lurked in the briny deep are beginning to yield to modern ocean-engineering techniques.

Spurred by the demands of the oil and mineral industries, ocean engineers have developed new ways of exploring that sea around us that occupies nearly three fourths of the earth's surface.

The design of small submarines offering chambers from which divers can operate is hailed as a significant breakthrough by officials of Ocean Systems, Inc. an affiliate of Union Carbide.

Already in use are pressurized diving chambers that transport the diver to and from his work. Commonplace are dives of 700 feet. But with each improvement, the depth increases. By spring, dives of 1000 feet should be possible.

Keeping abreast of these developments, designers are fashioning new tools and equipment to extend the diver's capabilities. One item on the drawing board is an underwater fork lift.

Important advances have also been made in the field of acoustic and television sensors designed to help man chart the world below. Time was when weighted lines were used to measure depths. Now acoustic devices have taken over.

New processes for offshore oil drilling offer further proof that the sea's the limit for today's ocean engineer.

### Confetti - - -

It was most suspicious that reds from all over the world were shouting accusations against right wing extremists almost instantly. What better way was there to stir up turmoil in this country than to commit the crime in a city known for its leaning to the political right? Nation wide ugly tension, and possibly more violence, was avoided only by the capture of Oswald, the known communist.

It's undeniable that Mrs. Dixon's predictions are terrifying, but they are not completely devoid of encouragement. The word "if" is frequently used and sometimes implied. Some of those statements could be mere warnings instead of actual predictions. They could be dire consequences that can still be avoided if our national leaders will ap-

ply sufficient statesmanship.

They could also be reminded that men running the world without God make a big mess of things, and it's high time to start asking for Divine guidance. When calamity strikes, people get on their knees. It might help to do some praying when calamity comes in sight.

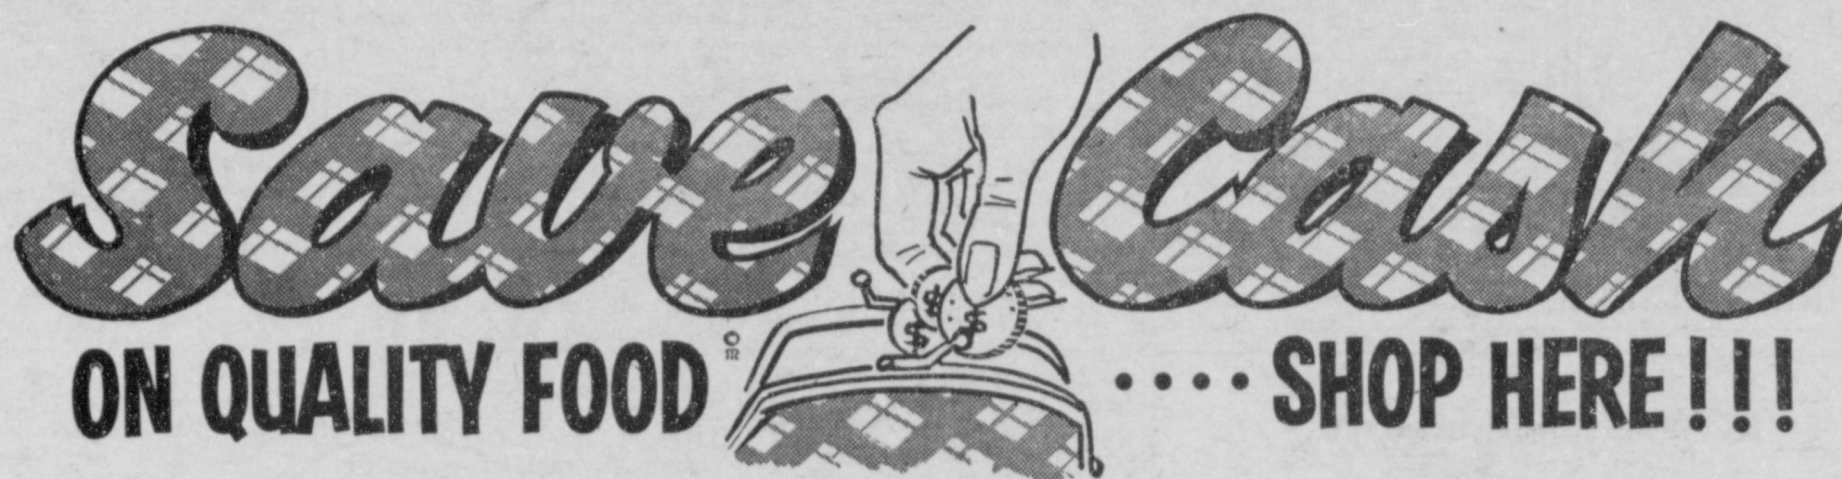

Sister Josephine Elise visited her mother, Mrs. Joe Bengfort and family during the holidays and saw all the relationship at a reunion with a gift exchange on Dec. 26. She left Friday to return to St. James School in Alexandria, La. where she is principal.
