POISON GAS — NO PROTESTS

Yemen is a small country in the Middle East. It has a population of some 5 million, and is rich in oil, pipelines, western capital - and a strategic location. And, it is a member of the United Nations.

Historically, Yemen has been ruled by an hereditary monarchy, pro-Western and anti-Communist. In 1962, Dictator Nasser decided that he wanted a friendly "socialist" government in Yemen and sent in 55,000 troops to topple the anti-Communist regime. It is said that he is spending \$750,000 a day on the military campaign, which the Soviets have underwritten with almost \$3 billion worth of military equipment over the past six years; jet bombers and fighters, submarines and destroyers.

On January 5, 1967, Egyptians

using Soviet - built planes bombed Ketaf, a Yemen village, with poison gas, killing a quarter of the residents. An American reporter on the scene wrote: "In Ketaf... the stench of death seeped from scores of hastily-dug graves where terrified survivors buried victims of the gas attack before fleeing."

A Red Cross investigator at the scene told a UPI reporter that, "we are convinced like you (that it was poison gas), but we cannot become involved in politics."

In England, Prime Minister Wilson told the House of Commons that he had evidence strongly suggesting that poison gas had been used in Yemen by Nasser's troops.

Believe it or not, the U. S. State Department extended diplomatic recognition to the Nasser occupation government just three weeks after it en-

tered Yemen, and before it controlled any major city in the country, a decision which undoubtedly pleased Nasser and the Kremlin greatly. Now ponder the fact that the U.S. State Department has taken no action — indeed, has not even protested the use of poison gas by the Egyptians. No sanctions against Egypt have been mentioned by the UN. Rhodesia, yes. The United Arab Republic, no. Is the United Nations selectively color blind.

Why has the State Department been so strangely silent? Why has the press generally ignored the use of poison gas in Yemen? Where are the professional protesters and petition signers? Where are the pickets? When Red China sets off an atom bomb, or Soviet minions in the Middle East overrun a country, the pickets don't appear.

Here, where a clear case of aggression and use of poison gas exists, we thought it high time that someone spoke out.

POTENT ADVICE

Bernard Baruch was one of those rare individuals whose insight, wisdom and ability to communicate with others made him a legend in his own lifetime. His words live on as a vital force in the affairs of men. His advice is still potent today. An example is a statement recently credited to Mr. Baruch in the Granite Falls, Minnesota, Tribune: "History and tradition tell us that great nations have died as much from internal decay as from external blows. Rome fell not because the barbarians swarmed in but because the character of her citizens grew soft and their capacity for self-discipline waned. Will future historians come to the same conclusion about us?"

Internal decay comes from public apathy. Relegating to federal agencies the responsibility for the solution of all community and personal problems and the responsibility for vitalizing our economic system is the road to lost independence. America will not fall by internal decay if her people jealously guard the economic and political liberties which gave them their representative form of government and personal liberty. But, they must remain the masters of their own destinies.

U. N. MAKES AMERICAN LAW

The United States of America and all of her citizens have been directed by the U.N. Security Council to cease trade of certain goods with Rhodesia. In that one act lies the future of your nation. In this ruthless move by the unelected "representatives" of the "United" Nations, Ian Smith's nation may lose her year-old independence, but more significantly, the United States may lose her independence as well! This demand was not voted by you, it was not decided by your elected Congress, it was not even dictated by your President. It was decided by the so-called United Nations, which thus dictates domestic law in the name of world peace. Worse yet, this rule by the rabble in the Tower of Babel is completely legal. This is what all the shouting was about when certain Americans wanted the protection of the Bricker Amendment. That Amendment would prevent the invasion of American domestic law by the world government body.

—Montrose, Calif., Ledger

BASIS OF FREEDOM

A prominent businessman compares the strength and well-being of various nations to illustrate the impact of education: "For example, if endowment with natural resources were the sole criterion, Japan and Norway would be poor, which they are not, while Brazil and Indonesia would be rich, which they are not. If, as some of the opponents of foreign investment allege, 'colonial exploitation' were the stumbling block to progress, Siam and Abyssinia would be rich, which they are not, while Canada and Australia would be poor, which they are not. If lack of heavy industry is the handicap, then Denmark and New Zealand, where agriculture predominates, would be poor, which they are not. If high population density drags down living standards, the Netherlands and Japan should be poor, which they are not. If capital for investment is the required ingredient, then Kuwait and Venezuela would be rich, which they are not."

Then this businessman asks, rhetorically, "Could a main factor be a high level of education spread widely over the population? If it is, the United States should be very rich, which it is; Western Europe should be fairly rich, which it is; Latin America should be fairly poor, which it is; and Africa should be very poor, which it is."

This is an impressive argument in behalf of unqualified support of education.

SAUCE FOR GOOSE, NOT GANDER

The National Association of Manufacturers says "A prominent accounting firm has advised its clients that Internal Revenue Service is concerned by the level of expense account spending again, and suggests that substantiation requirements be met scrupulously."

Citizen taxpayers would be interested in knowing whether the expense accounts of their public servants, paid with tax dollars, are scrutinized as carefully from the standpoint of their relation to public business, as are those of their taxpayers employers. From what one reads, they are not. Apparently, they come under the special privilege umbrella, "the king can do no wrong."

HANDLE PROJECTILES WITH CARE

All the talk about unsafe automobiles is rather amusing. There are four major causes of car accidents regardless of car safety: 1. Discourtesy of the average driver. 2. Just ordinary drunks. 3. Disregard of all highway speed and warning signs. 4. Car speeds beyond the ability of most drivers to handle.

Don't blame the car when the news story says, "car left road on curve, passenger killed." The car wasn't doing the driving.

"WORSE OFF TODAY"

The results of many years of a "little bit of inflation" are beginning to be felt, and the public is apparently becoming aware to some degree that government fiscal policies can breed inflation. Findings of a recent survey conducted by the Opinion Research Corporation show that 8 out of 10 people surveyed are concerned about inflation. Seventy-one per cent feel that the best way to curb it is through reduction of federal spending.

The grimmest findings of the survey dealt with inflation's impact on people. It revealed that the effects of inflation are being felt more seriously by the elderly and those with little education. More than 4 in 10 persons, 60 years and older, report that they are "worse off today" than a year ago. These are the very people who are supposed to be helped the most by Medicare, Medicaid, Social Security and all the other paraphernalia of the expanding welfare state.

No matter how worthy the goals of government programs, unless they are within the means of the taxpayers to support, they will end in the spreading of impoverishment as inflation saps the strength and character of our people.

Talk on Juvenile Delinquency for Home-School Group

Highlighting the monthly meeting of the Sacred Heart Home-School Society Tuesday night was a talk on Juvenile Delinquency by Bill Medley of Gainesville, junior probation officer for Cooke County.

He was introduced to the assemblage by Steve Moster, program chairman for the month.

Medley said child training begins at home at an early age and that cooperation of both parents is essential. He urged parents to listen to their children's problems. Even though they seem minor to the parents they are major to the child.

He said obedience is important. Parents should know where the child is going and the time of return. He said cars are not ruining teenagers, it's parents' control behind the cars. A child needs responsibility, he should be part of a working team at home and he said "Love them."

He closed with "Love them, do what you think is best and hope for the best."

Norbert Koessler, president, presided and Father Benedict led the opening prayer. Sister Roberta explained the current candy sale which will continue through March 10 as a school library benefit.

Sixty members were present in the high school library. Hostesses served cookies and coffee after adjournment.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1: That Chapter 477, Acts of the 59th Legislature, Regular Session, 1965, be amended and the same is hereby amended by adding thereto a new section to be known as "Section 6(a)", which said section shall read as follows: "Section 6 (a): The Board of Directors of the District by majority vote may, from time to time, adopt a fiscal budget year other than the one specified in Section 6 after making a finding that such new fiscal year would be in conformity with the reporting or accounting requirements of any state or federal agency."

SECTION 2: That Chapter 477, Acts of the 59th Legislature, Regular Session, 1965, be amended and the same is hereby amended by adding thereto a new section to be known as "Section 6 (b)", which said section shall read as follows:

"Section 6 (b): In event a new fiscal year is adopted under the provisions of Section 6 (a) of this Act, notice of the public hearing (required by Section 10 of this law) on the adoption of a proposed budget shall be given at least thirty (30) days prior to the

beginning of the fiscal or budget year the budget is to cover."

SECTION 3: The fact that under Medicare reports are required to be filed with the administering agency on the basis of the fiscal year ending June 30th of each year, and the further fact that the Hospital District is now required to prepare two audits by reason of these new regulations creates an emergency and an imperative public necessity that the Constitutional rule requiring bills to be read on three several days be suspended, and said rule is hereby suspended, and that this Act shall take effect and be in force from and after its passage, and it is so enacted.

Lindsay News

Rita Gossett, 14-year old daughter of Mr. and Mrs. Milton Gossett, is recovering from an emergency appendicitis operation performed at Gainesville Hospital Feb. 22.

Four candidates have filed for four vacancies coming up on the Lindsay School Board in the annual election. Asking for re-election to two-year terms are Gregory Hundt, Julius Hermes Jr., Norbert Mages and Rudy Dieter.

The Gainesville - Lindsay Knights of Columbus Council will have a communion breakfast in Lindsay on Sunday, March 12, following attendance at the 9:30 Mass in St. Peter's Church and corporate Communion. A retreat for all men of the parish will be held on the same day following breakfast. Men and young men of the parish are invited to attend.

Lindsay girls had a bake sale Sunday following church services. They are raising money for track uniforms.

Mr. and Mrs. Walter Nortman were among guests at the golden wedding Mass and reception honoring his brother-in-law and sister, Mr. and Mrs. Joe Strittmatter in Pilot Point. Others attending from Lindsay were Messrs. and Mmes. Harold Nortman, Ray Hermes and Pete Block. The John Kuntz family attended from Valley View.

Public Reminded 6 Weeks Left for Safety Inspection

With about six weeks left in which to have motor vehicles inspected, a special appeal went out today from Captain Marvin Blount, Motor Vehicle Inspection Service of the Texas Department of Public Safety, urging motorists to obtain their 1967 inspection stickers immediately.

Captain Blount advised that about 60% of the registered vehicles in this area have not been inspected and will need to meet the April 15th deadline. "At the present rate of inspection it look as if there will be 30% of the car owners waiting in long lines the last few days of the inspection period. With crowded inspection stations on this deadline date, immediate service cannot be rendered and car owners will suffer unnecessary loss of time and inconvenience."

Some of the things automobiles are inspected for are brakes, lights, reflectors, horn and windshield wipers, while commercial vehicles are inspected for the above plus additional items required by law.

Approximately 45% of the vehicles already inspected have required some adjustments or repairs which require more time for both the owner and the inspection station. "If car owners obtain the 1967 inspection stickers now they will avoid unnecessary delays in inspections", advised Captain Blount. Captain Blount concluded by adding, "It is less expensive to have a motor vehicle checkup than to have a motor vehicle breakdown."

Father Elias Visits Lindsay 3rd Order

Members of the Third Order of St. Francis, St. Peter's Parish, had their annual meeting with Father Elias Koppert, provincial from Chicago, Monday. It was a luncheon meeting in the home of Mr. and Mrs. H. S. Fuhrmann.

Members provided covered dishes for the noon meal.

Prayer, routine business and a conference by Father Elias took up the afternoon.

Attending with members was Brother Louis Fuhrmann, visiting in his parents' home. He has been dismissed from the hospital after medical care at Van Buren and has a ten-day leave before returning to Subiaco, Ark.

Accompanying Father Elias for the visitations this year throughout the area is Father Bertin Miller.

Tung Chi-ping, a former member of the diplomatic corps of Communist China, stated recently in a Reader's Digest institutional message: "During my two years in the United States I have come to believe that the sense of individual worth is one of the strongest qualities that Americans possess."

"You've been fighting again," his mother remonstrated. "Didn't I tell you to count fifty before you fought with anyone."

"Yes," answered Johnny, "but Billy's mother only told him to count to twenty-five."

"And upon what income do you propose to support my daughter?"

"Five thousand a year."

"Oh, I see. then with her private income of \$5,000 a—"

"I've counted that in."

reason for efforts to increase trade and consular representation with Russia.

As amazing as our conduct of the war is the administration's efforts toward more friendly relations with Russia — even while it supplies our enemy, and in spite of our experiences in almost all past dealings.

That consular deal is a real lulu. We know from ex-

perience that Russian consulates over here are spy nests— with benefit of diplomatic immunity. Red agents carry on their dirty work until caught and then escape prosecution. All we can do is send them home. One would think we'd want to close Soviet consulates, not open more of them.

In return for our favor we're promised a big concession. A citizen of ours when arrested will be permitted to talk to our consul within four days. Just that, but still no assurance

Such miserable begging for of a fair trial. Still a shabby treatment compared to our treatment of every Russian arrested here. Instead of such an agreement we ought to serve notice that we demand the kind of treatment we give. Otherwise we'll close consulates instead of opening them. Soviet friendship may be the clue to the farce at Haipong. If we'll agree to than kind of consular deal we'll likely overlook a trifle like supplying our enemy.
