VOLUME XXXI

MUENSTER, COOKE COUNTY, TEXAS 76252 APRIL 7, 1967

NUMBER 20

**Going on Daylight Saving**  
Time was the lesser of two evils for the people of Texas, and that's probably how it was regarded by state legislators when they voted 90-56 to go along with the federal Uniform Time Act. The point is that most Texans prefer to have all of the country remain on regular time, but since that isn't the case they'll go along rather than put up with the confusion of schedules.

Bill Smith of Beaumont, author of the bill to exempt Texas from DST, argued unsuccessfully that DST is artificial and unnecessary. He's right. A time system which has 12 o'clock out of balance with dawn and dusk, in which the straight-up hands no longer signify mid-day or midnight, simply seems to be phony. It's hard to see it any other way. And there's no question that it's unnecessary. People who want to start work earlier can do it without setting clocks ahead.

On the other hand, it must be admitted also that a general nation wide shift to an earlier schedule can be very confusing unless all activity of the entire economy is coordinated. So if the nation wants to start and end the day an hour earlier it can have no simpler method than by changing the clocks.

As far as Muenster is concerned, this is a new experience. Heretofore our clocks have been in tune with the sun, and so have the work schedules. But we're going to have problems now. Farmers, for instance, will likely stick with the old schedule simply because it's the best way to get their job done. Businesses that serve them will probably want to keep their schedule. But others may prefer to quit work and go fishing in mid afternoon. So there may be two schedules here. Well, let's wait and see.

The current strike by the American Federation of Television and Radio Artists (AFTRA) against the broadcasting networks points to a possible problem in labor relations. The public has cause to wonder whether news reporters and commentators who now march in the picket lines in support of union bargaining demands can be completely objective in treating future news stories about labor-management differences.

That problem is spotlighted by the Chet Huntley incident. It seems that Mr. Huntley, of the famous Huntley-Brinkley news team, is in danger of being booted out of the union, and thereby becoming unacceptable as an employee because he crossed a union picket line to give his regular telecast. AFTRA's contract with the networks stipulates that they employ only those individuals who are union members in good standing.

It's a nationally publicized fact that Huntley jeopardized his good standing by disregarding the picket line. We wonder whether others might jeopardize their good standing by remarks that union bosses do not like. If such is the case it seems that reporters might be inclined to a little extra caution in avoiding remarks that could be disapproved by the upper echelons of labor.

Of course, we ordinary folks don't know what goes on in those labor disputes. We only hear what is reported to us. Well, how many of the reports are slanted, even unintentionally, by the fact that the reporter personally has to lean to one side?

That's one of the problems of our highly complicated system. Experience many years ago showed working people that they have to be organized for their own good. Too many employers, took advantage of them. Unions corrected most of the old abuses and raised standards of living. But they also created new problems. Some union bosses have been as unscrupulous as the old industrialists, and have applied unwarranted pressures on both workers and employers.

Maybe it's not too much to hope that we are working toward a balance of labor and industrial interests, in which both sides can arrive at fair deals without friction, ill feeling and strikes.

## Plant Exchange Set for Friday

Gainesville Garden Club members are holding their annual plant exchange Friday, April 7, at the pavilion in Leonard Park.

Everyone is invited to leave, take, or swap plants.

## Fisher Wins Mayor Race By 4 Votes

In the hottest city election that Muenster has had in a long, long time, Earl Fisher was returned to the mayor's office Tuesday by the slim margin of just four votes. He received 189 votes and his opponent, Michael Sloan, received 185.

Another race in the election was less exciting. Incumbent Gene Hoedebeck won over Earl Waterscheid 290-83 in the contest for Position 5 on the council. Positions 3 and 4 were occupied without contest by Herbert Miller and Rody Klement. Miller received 367 and Klement 370.

The total number of votes cast was 377, however several votes were lost by incorrect procedure.

Along with the mayor and three aldermen just elected, the city has two aldermen whose terms continue until next year. They are Richard Grewing and Aubrey Tuggle.

Retiring aldermen succeeded by Miller and Klement are W. J. Luke, who declined to seek re-election, and Mike Sloan, who was in the mayor's race.

## Muenster Entries Judged Champs In Stock Show

Muenster entries won both of the top prizes in the beef division of the Cooke County Junior Fat Stock Show in Gainesville last Friday.

Billy Bayer had the grand champion and Steve Fette the reserve champion, both heavy Black Angus.

However the calves missed top honors at the auction following the show. A Hereford shown by Jim Richardson of Gainesville, champ of the light steers sold to Gainesville National Bank for 50 cents a pound, a total of \$387.50. Bayer's steer sold to Stockmen's Feed Store for 41 cents a pound, a total of \$375.15. And Fette's sold to Muenster Livestock Auction for 26 cents a pound, a total of \$241.80.

Animals at the show were classified according to merit and the champions were selected competitively from the blue ribbon winners.

In the heavy steer class all 27 entries got blue ribbons. Muenster exhibitors in that class were Billy Bayer, Mark Bayer, Carl Bayer, Clinton Bayer, Steve Fette, Sherry Pitman, Don Hartman, Tommy Felderhoff, John Dangelmayr, Jim Dangelmayr and Lynn Joe Klement.

## Co-op Customers Get \$163,899 in Capital Refunds

A sum of \$163,899.75 is currently being divided among people and business firms who were customers of the Cooke County Electric Cooperative during the first thirteen years of its operation.

The checks, identified as Capital Credit refunds, are the profits during those first thirteen years of operation. Those profits were used for expansion and improvements which are paid out now, so the money is being refunded to the owners, who are also the customers.

On an average, according to Michael Sloan, co-op manager, each check represents about 13.5 per cent of all electric bills paid by that customer during the thirteen years, 1939 to 1951 inclusive.

The total number of checks issued is 5160, and the amounts vary from a few cents to several thousand dollars. The largest single check was to the Continental Oil Company for \$4,100. The largest total of checks to one customer was \$5,425.15 to Hollandsworth Drilling Co., of Longview, former owner-operator of the Gatewood field south of Muenster.

Mailing of the checks started last Friday, March 31, and will continue through this week. Refunds paid this time are small compared with those to be paid the next time, Sloan said. Capital credit accounts now on the record reach into the millions, because the co-op has made big gains in both the number of consumers and average loads. The first period, by contrast, is the time when the co-op was just getting started. Customers were few and their average bills were small.

## Hess Clan Scores In Five Events At Kamay Relays

The Hess Clan of Sacred Heart High, assisted by Clifford Sicking earned 28 points in the Wichita Valley Relays at Valley View, Kamay last Saturday.

Muenster High's only points were earned by Ken Stormer when he took second in the 100 yard dash.

Top team of the meet was Saint Jo with 78 points and the next high was Notre Dame of Wichita Falls with 73. Era scored 54 for third place.

Directors of the Muenster Hospital District at their combined meeting and hearing Wednesday night adopted a budget of \$263,698.95 for the fiscal year beginning October 1, 1967.

The figure represents an anticipated increase of \$46,153.74 over the actual volume for the year ending December 31, 1966, which was the approximate gain of that year over the preceding year.

## School District Merger Fails

By a decisive count of 92 to 51, voters of the Myra school district last Saturday turned down the proposed consolidation of Muenster and Myra districts. In Muenster the vote was 174 to 2 in favor of the merger.

As a result the dormant Myra district will be divided by the county school board instead of by the Muenster School board. The district now has been dormant for almost

the full two years allowed by law and is due to be divided after the close of the present school year.

The effort to consolidate with Muenster originated several weeks ago when some residents became concerned about reports on the method of dividing the Myra district. A petition for consolidation with Muenster resulted, and the election was ordered. In the meantime representatives of Myra, Muenster, Era and Lindsay agreed on a plan of dividing the district if the election should carry.

The intent of that agreement was to establish boundaries whereby, as much as practical, people could be in the district of their choice. A further agreement provided that people who then were outside their preferred district would be permitted to transfer their children to the school of their choice.

About ninety children are involved. At the present time they are attending the schools of their choice — Muenster, Lindsay and Era.

 So now it is out — the CIA has been shuttling money taxed from conservatives and liberals alike to promote socialism at home and abroad. Amid the screaming from conservative ranks The Lance would raise a mild voice in defense along the line that while the CIA is blameworthy, it is not alone in sinning in this regard.  
 The Department of Agriculture has been using tax money to sell its socialistic programs

for years. The Welfare Department does it. The Department of Labor does it. Health and Education does it in great gobs, Interior does it. Exterior does it, were there such a thing. In short — government has been spending tax money to promote government — i.e., socialism — right from the start. The only thing about today's exhibition and/or revelation is that CIA was caught competing with our colleges in doing it and the colleges have more friends staffing the media cartel, so up goes a clamor.

 We have found our local postoffice considerate at all times, and our thoughts about innovations is not directed at them. They have instructions from the higher ups. As I was told the other day, when I said that I was less than enthusiastic about the zip code, a postal employee replied that he was less enthusiastic, too, until a postal supervisor (or some titled person) made a special trip to let him know that he should be enthusiastic. "Now I'm enthusiastic," he added.

**HELPING THE TAXPAYER**  
 The American Farm Bureau Federation, the nation's largest general farm organization, has asked for action to end the government's wheat and feed grain subsidy programs completely. This would reduce federal spending and help avoid a tax increase.

Charles B. Schuman, president of the Federation, recently said, "We were told that the nation and a hungry world need increased production of wheat and feed grains. But in spite of its expressed desire to increase production, the government is continuing to pay farmers to restrict their plantings."  
 "Therefore," he continued, "a logical question is whether it would not be patriotic and humane for farmers to disregard the Administration's sign-up campaign and refuse to participate in the feed grain program for 1967. By reducing subsidy payments for acreage cuts, this would free needed funds to help balance the budget and avoid a tax increase."  
 It should be recognized that a free market in agriculture, as elsewhere, is the most productive market. The direct cost to the taxpayers for the control and subsidy programs is in excess of \$3 billion annually. If Mr. Schuman's advice were taken, farmers, consumers and taxpayers would all benefit.

**Americans Pay \$22 Million a Day On Motor Fuel Tax**  
 New York — State and federal motor fuel tax collections are expected to average nearly \$22 million a day during 1967, according to Oil Facts. This is 80 per cent more than the amount collected in 1957.  
 At current rates, which average 10.5 cents per gallon across the nation, motorists will pay about \$8 billion in motor fuel taxes this year.  
 All revenue from the 4-cent federal tax and most of the motor fuel tax revenues collected by the states are used for highway purposes. However, the Bureau of Public Roads reports each year some states divert part of their fuel-tax money to non-road projects. The amount thus diverted in 1965, for example, is estimated at more than \$216 million.

Recent census reports show that in fiscal 1966, motor fuel taxes were the leading single source of state tax receipts in Nebraska, New Hampshire, New Jersey, Oklahoma and Texas.

THE LEGISLATIVE SESSION is now in the last half of its regular 120 days of meeting. During the first 60 days, a period devoted primarily to the "free" introduction of bills and resolutions, there were 519 bills presented in the Senate. The tempo picks up and runs high in the last 60 days when the legislators get down to action on all the bills that have been proposed. I introduced 31 bills which I hope are passed before the session is completed.

One of my bills, which already has been signed into law by the governor, was the HEMISFAIR appropriation of \$5.5 million to build and equip the Institute of Texas Culture for the 1968 exhibition in San Antonio. I consider this measure a good investment in two ways — the Hemisfair will bring in new taxes of \$12 million per year and it will also attract a large amount of out-of-state tourism.

ANOTHER BILL that I sponsored would reestablish graduate programs at East Texas State University leading to the Doctor of Philosophy in English, in the School of Arts and Science, and in the School of Education. This Act has passed in the Senate and was sent to the house for approval.

THIS WEEK ... One of the most important questions facing the Senate this week was the Sunday Closing Law. The bill finally passed when an eight-hour filibuster ended. After serious reflection, I decided to oppose this bill because it does not square with my beliefs in free and unfettered enterprise. CERTAINLY, I think it better business for stores to be open only six days per week, yet I do not feel that this is a proper area in which government should interfere with private enterprise. THE BILL has passed — the

Other '67 Fords went on a bone-jarring steepchase ride and a grueling trip up and down the Los Angeles Coliseum steps. The results were always the same: still quiet, still strong.

**Year after year, you're ahead in a Ford - ahead in quiet, ahead in strength.**

Year after year, we do things you'd never do to demonstrate Ford's quiet and strength. This year's tests were the toughest yet. But the durable Ford came through again — quiet and strong. That's because the 1967 Ford is the strongest, quietest Ford we've ever built. Over 150 important parts have been strengthened and improved. And the '67s offer plenty of convenience and luxury features too. SelectShift Cruise-O-Matic transmission that's fully automatic and fully manual. It all adds up to a pretty strong argument for saving at your Ford Dealer's now. Quieter because it's stronger...stronger because it's better built.

A philosopher is a man giving other people advice about troubles he hasn't had.

A child's education should begin at least one hundred years before he was born.

One small child to another: "I have to go to bed at 8 o'clock. My mother is a half hour meaner than yours."

"Any physical defects?" asked the draft doctor. "Yes," replied the inductee. "No guts!"

### Ninth Birthday

Darell Walterscheid, nine years old Sunday, celebrated his birthday at the family home south of Muenster. His parents, Mr. and Mrs. Julian Walterscheid, were hosts and grandparents, uncles, aunts, cousins and young neighbors were guests for an afternoon party that ended with a buffet supper and included birthday cake and ice cream.

Some folks never reach the top of the ladder because they mistake it for an escalator.

Success has been defined as the art of making mistakes when no one is around to notice them.

### 52nd Anniversary For the Joe Linns

The telephone and the mail brought greetings and relatives and friends stopped by to congratulate Mr. and Mrs. Joe Linn, long-time Muenster residents, on their 52nd wedding anniversary Sunday.

Long-distance calls came from California from their sons and families, the Bob Linn of Covina and the Jeff Linn of El Monte. The latter reported that 16-year-old Joey was back at home recovered from an emergency appendicitis operation.

### Ruby Shumaker, Randy Wimmer Say Vows at Mass

Wedding vows were exchanged in Sacred Heart Church Saturday afternoon by Miss Ruby Shumaker and Randy Wimmer with Father Alcuin Kubis officiating at the 4 p.m. Nuptial Mass and double ring ceremony.

Parents of the couple are Mr. and Mrs. Arthur Lutkenhaus and Mr. and Mrs. Charles E. Wimmer.

The bride wore a bouffant white lace gown over taffeta with long sleeves and a sequin-sprinkled skirt with tiers of lace ruffles. A crown of pearls held her waist-length veil and she carried white carnations. She was presented for marriage by her grandfather, Albert B. Knabe.

Bride's attendants were her sister, Mrs. Norman Koelzer and the bridegroom's sister, Miss Sharlene Wimmer. They wore full-length blue crepe Empire dresses, the bodice covered with white lace and lace forming the elbow-length sleeves.

A free-floating panel of lace-covered crepe was attached with a bow at the back of the Empire bodice. Their matching pillbox hats were covered with circular veils and their flowers were white and yellow pom pom mums.

Roy Wimmer of Fort Worth, bridegroom's cousin and Eddie Hellman were best man and groomsmen.

Donald Hellman and Dwayne Schilling ushered.

Easter lilies and white gladioli, greenery and candles adorned the altar. Anthony Luke, organist, and the men's choir sang the Gregorian chant Mass, "Missa de Angelis." Mrs. Norbert Walterscheid was vocal soloist presenting "On This Day" before Mass and "Mother at Your Feet" after the service when the bride placed the traditional bouquet on the Blessed Virgin's altar.

Wedding reception and buffet dinner were held in the Parish Hall where Misses Gloria Morrison and Jackie Wimmer, cousins of the couple, registered some 300 guests.

Members of the houseparty included Mmes. Joe Lehner, Gertrude Bayer, Lawrence Martin, Ferd Luttmer, Arnold Hess and Ed Pels and Misses Lola Voth, Cindy Bindel and Mary Knabe.

The bride's mother attended the wedding in a yellow costume with white accessories and the bridegroom's mother wore a blue suit with white accessories. Both had white carnation corsages.

When the couple left on their honeymoon the bride was wearing a blue crepe sheath with white accessories. Both attend the local schools and he is employed by Felderhoff Brothers Drilling Co. They will be at home in Muenster.

Wedding guests included the bride's grandparents, Mr. and Mrs. Albert B. Knabe and the bridegroom's grandparents, Messrs. and Mmes. Matt Neu of Lindsay and C. J. Wimmer.

Among those attending from out of town were Messrs. and Mmes. Paul Luke and Tommy Gressett of Dallas, Dale Hess of Lewisville, Paul Hess of Lindsay, and Paul Devers of Valley View, Jerry Mosman of Dallas, Miss Carol Mosman of Denton, Daniel Devers, Alfred and Leonard Hacker of Valley View.

**SOIL CONSERVATION DISTRICT NEWS**

BE OUR SOIL ★ OUR STRENGTH

By Sammy Dobbs

The Upper Elm-Red Soil and Water Conservation District has located within its boundaries some of the best native grass ranges of the entire State.

High quality grass produces high quality livestock and likewise the region is recognized for its high quality cattle. "But unless we understand and work with nature to preserve this great resource, it will diminish before our very eyes," say soil conservation technicians.

Before the white man came to this country with his "scientific" farming, the grasslands carried more animal units per section than they do today. The reasoning behind this unbelievable statement is found in the study of the balance of nature which the white man offset. The vast herds of buffalo, deer and antelope that once dominated this country always roamed from one area to another in their grazing habits, thus deferring the grazing and allowing the grasses to recover, but when the white man came he fenced the ranges thus concentrating the grazing on one specific area. This practice has continued now for over a century and many high forage and high protein grasses have already vanished.

Grass must have a rest period if it is to survive and be a vigorous, healthy plant, soil conservation technicians emphasize. We usually rest our bodies eight out of every twenty four hours so that they can replenish their food reserve, but many times we expect grass to continue to survive year in and year out with out a rest. Grass is living just as we are living and we both have to rest to be at our best. This is why deferred grazing is such an important practice in grass management. When the grass is allowed to rest during the growing season, it takes this opportunity to store food in its roots and produce more leaf surface which is actually the food factory of the plant.

If the grass is continually grazed too close, no food will be produced from the leaves and it will have to depend on its stored food in the roots. When the stored food is gone, so is the plant.

Many ranchers in the Upper Elm-Red Soil and Water Conservation District have already discovered the value of deferred grazing and are realizing a larger and more stable income from their livestock enterprise.

**DRIVERS BILLS**—Modernization of Texas' license plates and driver's license would be accomplished by a pair of bills introduced in the House by Reps. Milton Schiller of Cameron and Dick Cory of Victoria.

Cory's bill would provide for a color photograph of the licensee on the driver's license. Persons under 21 years of age would be issued different-colored licenses. Proof of birth date and fingerprints would be required in the applications.

A bill by Schiller calls for reflectorized license plates. Motorists would pay the added 30 cents cost per plate.

**Mullins Hosts for Family Gathering**

Last of Mr. and Mrs. Carl Mullins' holiday company started home Sunday. Some were guests for 12 days, others came and went during the holiday weekend and all were together for an Easter Sunday reunion. Four generations were together.

The Mullins' son and daughter-in-law, Mr. and Mrs. Tommy Mullins and three-month-old Craig were on vacation from Anniston, Ala., where he's a court reporter. They also visited her parents, Mr. and Mrs. Roy Stamps at Gainesville. Grandparents hadn't seen the little boy since he was ten days old. Some were seeing him for the first time.

Returning home Sunday were Mr. and Mrs. A. E. Mullins of Lubbock.

Other visitors, sisters of

Mrs. Mullins, Miss Neva Bruce of Lubbock and Mrs. Veida Tate of Wichita Falls, also left Sunday.

Others with shorter visits were cousins, Mr. and Mrs. Walter Hoover and son David Hopper and Miss Ola George, Mr. and Mrs. C. S. Teague of Tom Bean and Mrs. R. B. Caraway of Sherman.

The Mullins' other son and family, Mr. and Mrs. Carl R. Mullins and two sons of Plainview, who had planned on joining the relationship during the week were unable to make the trip. He is with the Texas Department of Public Safety and was on the Robert Whirty-Rose Marie Martin case. Relatives saw his picture in the newspapers.

What this country needs is a man who knows what this country needs.

A diet is for people who are thick and tired of it.

A famous lady was making a speech when suddenly the microphone made a loud funny noise. She came up with this limerick:

"I went with a Duchess to tea,  
Everything was as fine as could be  
Till her inside made a noise.  
But she lost none of her poise  
So everybody thought it was me."

**Southwest Sports And Vacation Show April 11-16, Dallas**

The 19th annual edition of the Southwest's oldest and largest outdoor living extravaganza — the Southwest Sports & Vacation Show — will open a 6-day engagement Tuesday, April 11, at the Dallas Memorial Auditorium.

Sports Show Producer Martin P. Kelly promises "the largest number of exhibitors, greatest variety of displays and the most spectacular program of live entertainment" in the show's history.

The Sensational Bruno, who performs a series of daring acrobatic stunts at the top of a slender pole, and the Four Fuller Brothers, who sing, dance and play 14 musical instruments, will headline the 10-act, tank and aerial show.

Other top entertainment attractions will include Joe Podgorski, The Fisherman; Sparky and Li'l Sparky, sea lion hinks; The Rodos Troupe, tumblers, acrobats and gymnastics; The Berosini Chimps, a performing gorilla, orangutan and five chimps; The Amazing Runos, who soars over objects from a tiny trampoline; Less Canadiens, lumberjacks who engage in riotous canoe tilting battles, and The Great Bob, an outstanding trapeze

act.

A mecca for vacation-planning families of the Southwest, the Dallas sports show will offer everything needed for a vacation — all under one roof. Recreation minded Texans can select a camper, a sports car, a trailer or an airplane, choose a fishing rod and reel, buy hunting equipment or pick out a boat and motor.

And at every booth, they can secure expert information on where to use them — from the rugged tundra of the Arctic Circle to the antebellum leisure land of Mississippi or in Texas' own vacationlands.

In the Sports Show's main arena will be scores of factory displays of fishing tackle, firearms and sporting goods manufacturers from the United States and foreign countries.

The South's only major travel show will present a panorama of vacation ideas, along with the practical answers to the questions of "where to go, how to get there, where to stop, what to bring, how much does it cost."

Leading the way in extending a personal invitation to vacationers will be the recreational areas of Texas, whose displays will completely encircle the auditorium's main floor concourse.

The Exhibit Hall will be transformed into the camping and marine center with a dazzling array of self-contained mobile homes, travel trailers, campers, utility vehicles, foreign cars, boats, motors and even the unique amphibious Jiger from Canada. The nation's three leading automobile manufacturers, Chevrolet, Ford and Dodge, will present special exhibits of their revolutionary new recreational vehicles.
