VOLUME XXXI

MUENSTER, COOKE COUNTY, TEXAS 76252 AUGUST 4, 1967

NUMBER 37

The nation responded admirably to President Johnson's plea for a national day of prayer for racial peace. Millions of people in thousands of churches asked Almighty God to lend His Hand in bringing order out of the current wave of anarchy. While they were praying more riots were breaking out in several places across the country. It was almost as though the black power fanatics were adding insult to injury.

There was a note of irony in the president's plea. Calling on God to help us out of this mess seems out of place in a country that forbids prayer in public schools and elects to snub God in the UN rather than cause friction with communists. Officially America has not been on very friendly terms with God and LBJ was rather presumptuous in expecting His help.

Nevertheless, there can be no doubt that the idea is a good one. In keeping with the old Christian belief that prayers—that is good, sincere and humble prayers in a spirit of "Thy Will be done"—are never wasted, we can be confident that some good will result. We may not realize if or how it's done, but He will. He'll respond somehow, somewhere.

Perhaps the first response will be in the attitude of those who pray. To say sincerely "Thy Will be done" implies a willingness to seek His Way as we try to clean up our own mess.

That idea suggests another old time belief—God helps those who help themselves. Prayer is a waste of time if we sit back and expect Him to do the job Himself. He has blessed mankind with the mental and physical abilities to work out our own problems and He expects us to work at it.

That idea, in turn, suggests another which hasn't been heeded sufficiently in recent years and which, by its absence, could have a bearing on some of the tragic conditions that have developed. Perhaps we should have adopted the motto "government helps those who help themselves."

A blistering commentary along that line was delivered last week in the House of Representatives by Congressman Abernathy of Mississippi. He pointed the accusing finger at politicians of both parties who for the past 14 years have engaged in a bidding contest for Negro votes.

For several years they cultivated rebellious incidents in the South in seeking the favor of negro voters. They made big issues of their support for civil rights no matter what other rights were violated in the demonstrations and riots. No matter how far the civil rights fanatics got out of line, the politicians could find no fault with them. No matter how strong the evidence of subversive implications, they declined to investigate.

They even made excuses for the lawbreakers, saying they would do the same if they had to endure the same conditions. They invited still more violence by predicting that more and more civil rights legislation must be passed to avoid widespread rebellion by the blacks.

Meanwhile, demands of civil rights leaders kept going up and up, with blackmail threats of more violence if the demands were not met. And all the while the violence has been tolerated. When riots ended the agitators and arsonists and looters and killers were allowed to go free while breast beating politicians wailed "it's all our fault."

A sorry example of this attitude was a remark last Sunday by the mayor of Detroit. He accused Congress of doing too little and added that its reluctance might spark the gigantic riot which now threatens to break out in Washington. His statement ranks with several others of recent years as a classic example of inviting trouble.

Nothing is more obvious than the fact that the civil rights movement for these many years has been a one sided affair. Congress and the administration gave and gave, often violating the rights of others in the process. And all the time black leaders were chanting gimme. Gimme more and more. They keep on complaining that theirs is the underprivileged race while the record shows they want to be the pampered race—and they have achieved much of that goal.

They have made a big is- (Continued on page 8)

## Plans Shaping For County Fair; Dated Aug. 14-19

The annual Cooke County Fair under direction of President V. S. Payne is gradually shaping up for a big week of exhibits and entertainments. It is booked for August 14 to 19 at the county fairgrounds.

Exhibits will include livestock, crops, vegetables, foods, 4-H projects all competing for prize money in their fields. Commercial displays will also be there.

Entertainment comes principally under two headings. First three nights are free, and all will be in the baseball park starting at 7:45; Monday it's a Go-Go with lots of rock & roll bands. Tuesday it's a square dance exhibition, Wednesday it's an old fiddler's contest.

Another special event Wednesday is a horse show starting at 9:30. Trophies and ribbons will be awarded to 6th place in each class.

Entertainment feature the last three nights is the championship rodeo in the rodeo arena, which is sporting a brand new set of pens. Red Gordon's Band, one of the outstanding variety bands of the area will provide the music for all performances. A downtown parade directed by Cecil Ward and Jim Smoot will introduce the rodeo. Any who wish to enter will be welcome.

Carnival atmosphere of the fair all six days and nights, will be provided by the Bill Hames Shows.

## Lone Star Farmer Award Received By Ken Stormer

The Lone Star Farmer degree, highest state award that can be earned by an FFA member of Texas, has been received by Kenneth Stormer of the Muenster chapter of Future Farmers of America.

It was presented to Don Hartman for Stormer at the state FFA convention in Dallas. Stormer could not be there for the presentation because he is spending the summer in a course on forestry at Colorado State College, Fort Collins, Colo.

Hartman and Edgar Dyer, adviser, were the Muenster chapter's only representatives at the state FFA convention. Hartman was the voting delegate.

In earning the Lone Star Farmer degree Stormer attained an outstanding record in other student activity besides meeting the rigid requirements of his FFA projects. As an exceptional athlete he was a four year member of the football team, the track team and the baseball team, also a one year member of the basketball team.

He was vice-president of his freshman class, treasurer of his sophomore class, secretary of his junior class. In the chapter he served one year as president and one year as vice president, also was a member of the chapter's leadership team (first in the district) and was a member of land judging and grass judging teams.

## Schools Will Have Separate Systems Of Bus Service

Muenster schools will have their separate bus systems this year after many years of a cooperative deal in which both contracted for the services of a local bus company.

The company was dissolved last week and its assets, a fleet of nine school buses, was divided between the public school and Sacred Heart. There were two each '65, '64, '63 and '62 models and the schools took one of each model. That left one older model still jointly owned. Sacred Heart sold its share in the vehicle to the public school.

The special transportation system was organized to eliminate the duplicate routes of separate systems. Both schools saved money by using it.

This year, however, major changes will be made at the public school. Anticipated increase of enrollment will enable it to participate in the Foundation School program, which will provide for a big increase in operating budget.

One of the factors in that budget is a substantial allowance for operation of the school's buses. However, that applies only to operation of the school's own vehicles, not to the cost of contracting for bus service.

The school board estimated net costs in the two methods and decided it can gain several thousand dollars a year by running its own buses and accepting the state's help.

Compensation to the school is determined by the number of children hauled and mileage over the different types of roads. Superintendent Bruns has completed his route map and now awaits approval by transportation officials of the Texas Education Agency.

A public hearing of the budget for the coming year at Muenster Public School has been scheduled for Thursday night of next week, August 10. It will be held in the superintendent's office starting at 8 o'clock.

The budget, prepared by Superintendent L. B. Bruns and the school's auditor, will be heard and considered by trustees of the district at their regular monthly meeting. Interested persons are invited to attend for the report as well as the board's decision.

The budget, as adopted by the trustees, will be the official estimate of revenue and expense for the coming year.

## Loop Lead Lost in Season Finale by Count of 4 to 3

League play is over for The Center softballers, Muenster's team in the Cooke County League, but the '67 season probably is not over. There's lots of talk lately in favor of a tournament inviting any team from the county, whether or not a member of the league.

The league itself is red hot as the end approaches. Muenster's final record is 10-4. Linda Jo and First State Bank likewise have 4 losses each and can possibly end the season with a 10-4 count. To do that they must beat Bell and Bullard, which now lead the loop with 3 losses each, and the league lead could be shared by the five teams. Other possibilities: Bell and Bullard can share the title or either can take sole claim to it.

Muenster lost its chance to take top spot in its final game, Tuesday night. Bell won it 4-3. Two of Bell's runs were made by the first two men at bat. Carter walked, Agee took base on an error and they came home in Carr's hit.

Muenster caught up in the third on a single by Flusche, a double by Felderhoff, a single by Wolf and a steal by Felderhoff.

Bell regained the lead in the fourth on a homer by Hackler followed by a walk, a sacrifice and a single.

Muenster's catch up attempt in the seventh fell short by 1. Flusche doubled and scored on Felderhoff's single.

Hartman pitched for The Center, struck out 4, walked 2 and allowed 6 hits. Puckett fanned 9, walked none and gave up 9 hits.

The Center's hitters were Flusche and Felderhoff each a single and a double, Wolf 2 singles, Willie Walterscheid, a double, Leonard Reiter and Dennis Hess each a single.

Bell hitters were Hackler a homer, Carter 2 singles, Carr, Sherrill and Puckett each a single.

Monday's game was an easy 11-1 win over IOOF. Hartman and Willie Walterscheid as pitchers fanned 7 while giving 3 hits and 2 walks. Curtis Brooks for the Odd Fellows walked 7, allowed 9 hits and fanned none.

Muenster hitters were Tommy Herr a homer and a double, Joe Felderhoff 2 singles, Carl Walterscheid a double, Tommy Flusche, Alvin Hartman, Roy Reiter and Dennis Hess each a single.

Team members for the league season were Adam Wolf, sponsor and manager, Glenn Richardson, Alvin Hartman, Willie Walterscheid, Carl Walterscheid, Joe Felderhoff, Tommy Flusche, Dennis Hess, Leonard Reiter, Roy Reiter, Allen Reiter, Tommy Herr and Dink Heidtspeth.

## Carl Kings Quit Muenster Faculty

The faculty of Muenster Public School, complete just a few weeks ago, isn't complete any more. Mr. and Mrs. Carl King have resigned to join the Gainesville school system. Superintendent L. B. Bruns said they submitted their resignations Saturday and, up to Tuesday noon, he had no replacement in sight.

Mr. King has been math teacher here for seven years. His wife has been elementary teacher for six years.

The US Department of Housing and Urban Development this week announced the appointment of Mrs. Mary E. Birden as a housing intern in the Fort Worth office of HUD. She is starting on a one-year internship that will include comprehensive indoctrination in all HUD programs. She is a native of Muenster, daughter of Mr. and Mrs. J. M. Weinzapfel.

## New Class Building Crowded for Time

Whether or not the public school's new classroom building will be ready for the first class day remains a big question. Progress is apparent lately, but will there be enough of it to finish the job in just three weeks?

Steel framework for the building was finished Wednesday and heydite tile walls will be started Friday. Estimated time to finish the outside wall is one week, which will leave two weeks for the roof and all interior work.

The building will house eight classrooms, each measuring 20x30, and two restrooms measuring 16x30. It will have a ten foot corridor down the

middle, a restroom and four classrooms on each side. Overall dimension is 136x50 feet.

Another new building doesn't have a chance to be ready at or near the start of school. However, it is less urgently needed.

It's a combination athletic dressing room and shower, with one classroom. Overall measure will be 137x30 feet. An added feature is public restrooms for the convenience of people attending football games. They will be only a short distance from the north end of the west side grandstand.

The new building adjoins the present agriculture wing at the north end of the school. It will not need a west wall. The east wall of the ag building will serve that purpose.

Forms for floor and foundation of the building are ready. So are sand base and plumbing. Concrete is due to be poured Thursday or Friday.

After that the construction schedule will be about the same as that for the class building. Delta Steel Corp. of Dallas will erect the frame-work. Walls of heydite tile blocks with styrafoam filling will come next. Then comes the roof and inside work.

## Sr. Roberta Hesse To Do Nursing In The Belgian Congo

Sister Roberta Hesse has left her Muenster relatives know that she will leave Fort Worth on August 19 for the Belgian Congo to nurse in a hospital at Djuma. She volunteered for this assignment.

One or two other nuns from OLV Convent will go with her. They will fly to Belgium first for a visit at the mother-house of the Sisters of St. Mary Namur of which they are members. Sister Roberta, a registered nurse, has been serving as superior at OLV Convent.

Her sister, Sister Christina Hesse, who taught in Kenners, N. Y., last year will be closer to home when the fall term opens. She'll be on the teaching staff of a school in Beaumont. Presently she is attending summer school at the University of Dallas.

## ULTIMATE IN BIG THINKING

One of the mottos by which go-go America tries to live is "THINK BIG!"

No one does this better than the U.S. Department of Defense.

By thinking big, Defense has managed to outgrow the Pentagon, which is merely the biggest office building in all this big, big world.

By thinking big, the Defense Department's headquarters and administrative staffs currently total 73,100 military and civilian employees in the Washington area alone — the numerical size of five combat divisions.

By thinking big, Defense now needs 86 acres of office space to house this booming desk-bound army.

By thinking big, Defense has

doubled its administrative costs in the past two years to \$3.1 billion — more than the total budget of most foreign governments.

This, students, is big thinking at its biggest.

## RUSSIA'S FIAT AUTO PLANT

If Soviet Russia wants a Fiat plant and wants to build it and finance it with Russian money, that's fine. Financing it with American taxes is a different matter entirely.

There is something indecently wrong with a government which taxes the parents and wives of boys and men being killed in Vietnam to benefit the government of a country furnishing supplies to their killers.

AUSTIN, Tex. — Newspaper readers throughout Texas soon will be seeing long columns of type about important issues as Secretary of State John Hill begins to advertise the six proposed constitutional amendments to be voted on November 11.

Fourteen additional amendments will be in the 1968 ballot.

Eight of the 20 amendments are of interest mainly to special groups (eg: legislators or state employees). Eight others would provide local governments with new powers or duties. Only four of the group directly affect most Texans.

Amendments to be voted on this year will appear on the ballot in this order:

No. 1, House Joint Resolution 3, to permit counties to put all tax money in a single general fund rather than dividing income in specific amounts among separate funds for earmarked purposes as is now required.

No. 2, HJR 37, allowing cities and other governmental units within hospital districts to levy taxes for participation in mental health and mental retardation community centers.

No. 3, HJR 17, reviving the veterans land program and authorizing a total of \$400,000,000 in bonds to finance continued purchase of farm and ranch land by veterans, including those who have served in Southeast Asia during present hostilities.

No. 4, HJR 6, authorizing counties to pay medical, doctor and hospital bills of county law enforcement officers injured in line of duty.

No. 5, HJR 12, authorizing a \$75,000,000 state revenue bond issue for the development of state parks and recreational areas. Bonds are expected to be financed by a small admission fee.

No. 6, HJR 27, permitting state officers and employees to hold non-elective positions under the state or U.S. governments where there is no conflict of interest and where the state might benefit.

That's all for '67. Top interest in these amendments doubtless will center on the park bond proposal and the veterans land amendment.

Hospital mental health and mental retardation groups will emphasize the importance of Amendment No. 2 to the new community center approach of treating mental patients close to home.

Calling the 1967 election for Veterans Day and a Saturday, undoubtedly, was to assure a large voter turn-out for the land fund amendment. A substantial campaign to urge its passage already is taking form.

Gov. John Connally is the principal backer of the parks bond issue. Last December he unveiled a 10-year plan for acquiring and developing 150,000 acres of recreational lands and historical sites. This would more than triple present state park acreage and open a variety of new facilities for outdoor recreation.

Only opposition to the amendment to date has been based on the \$1 a car park-entry fee, initially proposed by Connally to finance the vast program; and scattered com-

plaints that facilities included in the governor's master plan do not adequately serve some areas of the state.

He is expected to spearhead an intensive fall campaign — supported by parks, recreational and outdoor groups — to put over the bond issue.

The veterans land amendment would add another \$200,000,000 to state bonds previously authorized and through which 35,300 veterans have purchased farm and ranch properties at low interest rates spread over a 40-year pay period.

This amendment would raise the amount which could be borrowed under the program from \$7,500 to \$10,000. The program was initiated in 1949. Additional bonds were approved by voters in 1951 and 1956. Amendments to enlarge the bond authorization were rejected at elections in 1963 and 1965. Opposition came mainly from Dallas and Houston.

Proponents emphasize that, while thousands of veterans have benefited from the program, it has cost the state no money and actually has turned a profit of \$2,500,000 a year while providing an expanded land market.

Opposition has adopted the argument that it is not the function of the state government to engage in the loan business and that veterans have had plenty of time to participate. Some also contended that "cheap money" invites purchases of land not needed and which will not be put to productive use.

Amendment No. 2 specifies that the legislature, in providing for creation of hospital districts, does not have to require that the districts assume full responsibility for community mental health and retardation centers and services. It would permit cities and counties to levy taxes and issue bonds for such services. Subdivisions within existing districts would be authorized to do so unless statutes creating the districts expressly prohibit.

An attorney general's opinion held that the constitution does not allow political subdivisions within the boundary of a hospital district to levy for medical and hospital service. Under that ruling, cities and counties located in such districts were restricted from participating in establishment

of community health centers. Therefore, only hospital districts could establish such centers, a key part of the mental health program.

Amendments No. 3, No. 4 and No. 5 are self explanatory and apparently non-controversial.

Amendment No. 6 is aimed primarily at permitting educators, who are paid from state funds, to serve on federal advisory boards.

## SOVIET SYMPATHY

The most significant statements made by Soviet Premier Kosygin during his recent visit to the United States were voiced at the press conference held at the UN prior to his departure.

In the question and answer period, Kosygin was asked if Russia is going to continue to supply arms to the Viet Cong and the United Arab Republic. He replied that he considers these conflicts "wars of national liberation" against aggressor forces.

Kosygin added that Soviet "sympathy and support" would go to these "national liberation" movements.

But the Russians it will be recalled, were not so sympathetic with the national liberation revolts that took place in Poland and Hungary during 1956. Rather than support these nationalist movements, the Soviets opposed them with armed forces and cruelly crushed them. Of course, these were attempts to become liberated from Russian domination. Who was Kosygin trying to help? History all too clearly records the Russian attitude towards national liberation in their own backyard.

District Judge Lester H. Loble of Helena, Montana, says publication of the names of juvenile offenders, and their parents, has been directly responsible for cutting the crime incidence in his area — in half.

If you help a man who is in trouble he'll never forget you ... especially the next time he's in trouble.

"How does it feel to live to be 100?" the reporter asked the old man.  
"Pretty good," was the reply, "considering the other choice!"

The old-fashioned way to achieve world peace is being advocated again.

### Adoptive Parents And Children Have Picnic in Park

Muenster City Park was the scene of a picnic Sunday at noon for adoptive parents and their children of this area. The youngsters had a splash party while the grownups visited in the afternoon.

It was so much fun those present decided to make it an annual event. In previous years the group saw each other at the Bishop's annual party for the children, a get-together in Dallas hosted by Bishop Gorman. Since the number of children has increased to 750 those parties were discontinued on account of lack of room two years ago.

Mrs. Alvin Fuhrman sent notices to area parents inviting them to Muenster.

Attending with their families were Messrs. and Mmes. Andy Roewe and Carl Lindemann of Windthorst, Kenneth Wiesman of Austin, Mike Luke of Dallas, Bill Graham and William Pulte of Gainesville, Ray Hermes and Doc Kasparek of Lindsay and Martin Klement, Joe Hofbauer, Arthur Bayer, Alvin Fuhrman and Steve Moster of Muenster.

Also Tony Sicking of Gainesville who, with his brother Steve Moster and their sister Theresa Sicking, are the first children adopted here through Catholic Charities in 1919 by the Leo Mosters and Joe Sicking.

Other guests were Fathers Andrew and Benedict and Mrs. Frank Yosten.

Joining them in the afternoon was Father John A. Matzner of Dallas, diocesan director of Catholic Charities, and a visiting priest, in Dallas to study the diocesan set-up to take to El Paso with him for his diocese.

First at Mrs. Schoech's relatives gathered for visiting. Then at Mrs. Yosten's, all the clan was together to greet Sister John Leonard. Twenty-seven were there and had refreshments of iced lemonade and homemade cookies.

The school year will soon be under way again and young eyes will be working at one of the most important tasks they'll have in a lifetime... studying.

If there are school children in your family, take a good look at the lighting used for home study. Lamps should provide evenly distributed, glare-free, shadow-free light over the work area. The light source should be close to books and papers, but not so close to cause direct or indirect glare.

You can be sure of adequate and good quality study lighting with specially-designed, economically-priced lamps which are available at electric appliance dealers.

sue of rights but have failed miserably in responsibility. They called on Washington for constant help but did nothing to help themselves. They blamed the ghetto for miserable living but made no effort to make their homes livable.

Their dependence on welfare handouts and their record of crime has been far out of proportion to their population, but they remain callously indifferent to their duty to society. Above all they have acquired the twisted idea that every grievance, real or imagined, gives them the right to go on destructive and murderous rampage.

No one will deny that society has a big job keeping up with its needs. Conditions keep changing requiring constant improvement. Most people try to remedy that situation as they encounter it. Many others could if they would — by applying the old time American virtues of personal pride and self reliance.

Negro dissatisfaction, which is blown up as the big cause of racial trouble, would be less prevalent if Negroes made more effort to help themselves instead of demanding handouts from Washington. They'll

be less dissatisfied with the country when they have more reason to be satisfied with themselves.
