VOLUME XXXI

MUENSTER, COOKE COUNTY, TEXAS 76252 JULY 14, 1967

NUMBER 34

Several members of Congress were expressing grave concern Monday, some in a very critical manner, over a new military involvement by this country. They think the Congolese affair is strictly a civil war and US had no business sending three plane loads of soldiers to give "logistical" help to Mobutu.

Suppose our men get into the shooting and circumstance requires that we send in more soldiers to help them. It's easy to imagine that this thing can escalate and we'll have a big mess on our hands.

President Johnson, after being cheered by an improved rating in an opinion poll last week, has picked a strange way to sustain his popularity. Some of the men on Capitol Hill think he's getting too big for his britches. Taking sides in a civil war is a violation of US policy. It even violates UN policy. Or is one to believe that LBJ fell for Mobutu's claim that it was aggression by "foreign mercenary parachutists of Belgian, French and Spanish origin." A different policy applies in case of aggression. But is Mobutu's word sufficient to establish that as truth?

The situation is made even worse by the fact that we're helping the wrong side. The revolutionaries, who have been condemned by Washington, are the people loyal to Tschombe, the man who really belongs in the Congo's top job and who was ousted with red help a few years ago. This is just another of many cases in which we are double crossing our friends and helping our enemies.

One often wonders about the US State Department. It has a rare talent for opposing people who are on our side in the struggle with world communism. It supports the UN effort to wreck Rhodesia and South Africa. It wants to establish trade and friendly relations with Russia. It tolerates Cuba's trouble making at our doorstep. It has been pulling those boners for years, helping the countries that hate us and plot our destruction.

Regarding Rhodesia and South Africa, we wonder whether official Washington's attitude was changed by the Arab-Israeli war. Since Suez is blocked by sunken ships, and must hereafter be regarded as very vulnerable, the route around Africa takes on new importance. And friendly ports along the way become more important to us. Suppose our cooperation with UN were to bear fruit, suppose those two countries were turned over to natives and went the way of other African countries, could our ships then depend on help from them when needed?

The arrival of Russian war ships in Egypt, following the arrival of vast new supplies of war equipment to the Arabs, makes a person wonder how long it will be until the Middle East trouble flares up again. Apparently the Soviets are on a face saving mission after the debacle by their Arab stooges and their own failure to influence a UN condemnation of Israel. Could be the Moscow mobsters are using bully-boy pressure to help Nasser get a more favorable settlement out of the Jews.

That makes it a touchy affair for us as well as the Israelis. Will Israel stand its ground confident that the Soviets are bluffing?—Confident that the Arabs still can't be sure of Soviet help and therefore will not risk any more fighting?

Or is this the real thing? Is Russia really behind the Arabs and ready to help them wipe out the Jews, as threatened before. If that's the case it looks like trouble for us as well as Israel.

One major problem is Russia's current encouragement to Arabs to nationalize all of their oil fields. It would mean the loss of billions of American investments and would also give Russia the opportunity to step in as the middle man and take over the entire distribution of that oil — and, of course, the use of that oil if it should be needed for the Soviet war machine.

Isn't it a strange predicament? LBJ and our State Department know about Moscow's envious schemes, and still they go out of their way to build those bridges of

School Board Requests Change in Division Of Myra District

The Myra school district has been divided, but not to the complete satisfaction of the Muenster school board — and the county trustees have been asked to re-consider.

Charley Hellman, president of the Muenster school board, said Wednesday that the division in most respects is satisfactory to the people concerned as well as to the school boards of Muenster, Lindsay and Era. The policy, in general, was to place landowners in the districts they preferred unless the boundary lines created thereby were too irregular and complicated.

The final result is that one dividing line generally follows the north-south pavement through the town of Myra. East of that is Era and Lindsay and west is Muenster except: 1. the entire town of Myra, including west of the

Mrs. Klement is in Fort Worth for a few days with her daughter and family.

Center Ball Team Wins 1 and Loses 1

Muenster's team in the Cooke County soft ball league took its second loss of the season Tuesday night and dropped from first to second place on the list. It has a record of 5-2 while Bullard leads with 5-1 and Bell Telephone is third with 4-2.

A clash of Bell and Bullard Friday night will decide whether Muenster is tied for second or in a three-way tie for first.

Tuesday night Bell cashed in on hits and errors while holding the Center under tight control. The score was 12-3. Hartman pitched for Muenster allowing 8 hits and 2 walks while fanning 8. Puckett, the other pitcher struck out 9 and gave up 4 hits and 1 walk. Muenster hitters were Len Reiter a triple, Tom Flusche, Carl Walterscheid and Alvin Hartman each a single.

Monday's game was even more one sided, as the Center clobbered 100F 16-3. After counts of 9, 2 and 5 in the second, third and fourth, Muenster did not take its half of the fifth inning. Dink Hudspeth, pitching for Muenster, gave 3 hits and 2 walks. Willie Walterscheid led Muenster hitters with 2 homers and Glenn Richardson got 1 homer. Other hitters were Joe Felderhoff, Len Reiter, Alvin Hartman, Tommy Herr, Tommy Flusche and Dink Hudspeth.

Day Nursery Opens Monday
Mrs. Wilfred Bindel announced this week that her licensed day nursery, named Kiddie Playhouse, will be open for business next Monday, July 17, and will be shown at Open House on Sunday the 23rd from 3 to 5:30 p.m. The location is 727 N. Elm Street.

Building Notes

The biggest and most urgent building job of the community is the classroom building now just getting started at the public school. Trustees have slim hopes that it will be ready for the start of school, but if it isn't they want the fewest possible days of delay. Forms for the floor are up and sub-soil work is under way. Probably the floor can be poured early next week. The building will measure 50x136, will have eight 20x30 classrooms and two rest rooms. It will have heydite tile walls, baked enamel on steel roof, acoustical ceiling, fluorescent lights.

Also on plan for the school is a 30x100 field house for MHS athletes. It will go up as fast as possible, allowing for priority to the other building.

A new home for the Steve Grewings got started last week in the 500 block of North Elm. It will have four bedrooms, two baths, central heating and cooling, double garage, brick veneering.

A new house nearing completion is the duplex on North Pecan for Dorothy Hartman and Helen Hess. Bricklaying is going on outside and cabinet work inside.

Also well advanced is the weekend home being built by Ricardo DeBlanco of Dallas on his farm near Valley Creek. It's an eight room house with studio, central heating and cooling, and double garage.

Another new home under way is that of Werner Becker Jr. in the Hood community southeast of town. It is an all electric house with three bedrooms, two bathrooms, central heating and cooling.

Dan Hamric has a good start on major remodeling in the former Casper Haverkamp house. He's changing inside and outside and will finish the job with three bedrooms, two and a half baths, central heating and cooling, fireplace and double garage.

A remodeling job for the Henry Huchtons is just finished. A 16x38 addition includes utility, den and half bath, and a carport is also added. Finally the old and the new got new roofing and siding.

In South Lindsay a new home is well advanced for Mrs. Henry Krebs. It's a 2 bedroom house with central heating and cooling, brick veneer, double garage.

Also in Lindsay Gene Pelzel is on a fix-up job for his home, mostly repainting and repainting.

Mr. and Mrs. Leon Fuhrmann have started a fix-up, paint-up project on the former Higgins house in Myra.

The David Bright family has moved into the Weinzapfel house at First and Oak Streets. Before that the place got general improvements, consisting mostly of pre-finished paneling, ceiling tile and paint.

Final Service for Tony A. Green, 67

Funeral services were held Saturday at 2 p.m. in Geo. J. Carroll & Son Chapel for Tony A. Green, 67, of Gainesville. He died Thursday afternoon while mowing his yard.

He was born in Marysville, the son of the late Mr. and Mrs. E. L. Green.

During his boyhood he lived several years on a farm about five miles southeast of Muenster. He was a long time employee of City Service Co. in Indiana and moved to Gainesville after his retirement about five years ago.

Among survivors are his wife, one step-daughter, one brother and five sisters, including Mrs. Lee Livingston of Myra.

Add one more to Muenster young people enrolled in summer school. Steve Kralicke is attending night classes at Cooke County Junior College. He has a summer job at Shamburger Lbr. Co. Steve was a freshman at the University of Houston the past year.

New residents in Muenster since Monday are Mr. and Mrs. Thomas Williams moving from Dayton, Ohio. She's the former Suzanne Hesse, daughter of Mr. and Mrs. Meinrad Hesse. Mr. Williams is enrolled in the second summer semester at NTSU in Denton and will be a teacher and coach at Sacred Heart High this fall. Mrs. Williams will again join the nursing staff at Muenster Hospital.

Deposits Gain and Loans Decrease in Muenster Bank

Deposits at Muenster State Bank have gained during the past year and loans have dropped. The figures were revealed last Thursday in response to orders from the state banking commission for a report as of June 30, 1967.

Deposits in the Muenster bank on that day were \$3,340,657.34, representing an increase of \$174,826.87 for the past year and an increase of \$158,999.68 since the previous call on April 25.

Loans during the year dropped \$95,093.20 to \$1,816,366.57. During the three months loans declined \$68,919.78.

Banks whose deposits increased for the year are Muenster State and Gainesville National. Those whose deposits decreased are First State and Valley View National.

Banks whose loans increased are Gainesville National and Valley View National. Those whose loans decreased are Muenster State and First State.

Mosmans Talk to Tim in Panama By Radio-Phone

By a combination of ham radio and telephone Tim Mosman, in the Panama Canal Zone, visited Sunday with his parents, the John Mosmans, here.

Tim got in contact with another ham operator in Houston who made the long distance phone connection with Muenster.

John said the reception was as clear as a normal telephone conversation and was accomplished by holding the phone next to the set. The only difference was that they had to use the radio method of communication, each using the word "out" as a signal to change the radio from transmit to receive and vice versa.

Tim had good news worthy of the special call. He has been commissioned, now has the rank of Second Lieutenant.

NEWS OF THE SICK

British Friends Of Dr. Hejduk Set Memorial Service

Muenster friends of Dr. B. F. Hejduk were pleased to learn last week that a special remembrance for him has been planned by his friends in London. A letter from Mrs. Cinwin Howell of that city to Dorothy Hartman states that a memorial service is set for next Sunday, July 16, in the Czech Chapel on Farin Street.

Dr. Hejduk, a surgeon on the Muenster Memorial Hospital staff, was one of four victims of carbon monoxide poisoning on May 29 in Gainesville. He had been living here since August 1964.

In a crowded and illustrious career for more than 20 years preceding his coming to Muenster, Dr. Hejduk taught and practiced his profession in many places, including London. He first came there after World War II started as chief surgeon of the Czech Army in Exile and was assigned to special duty with the U S Army. Again he spent two years in London after escaping from the communists in his native Czechoslovakia in the 1950s.

Dorothy Hartman, who was Dr. Hejduk's office assistant, has written to inform his several correspondents since the tragedy.

Last 1967 Class On Water Safety Going This Week

The last of this season's water safety instructions got underway Monday morning as Carl King, pool manager, registered 38 youngsters for two life saving classes. There are 33 in the junior group and 5 in the senior group.

The two classes are working simultaneously and both are under direction of Miss Peggy Hellman. Carl King assists her as demonstrator. Class time is 8 to 11 a.m. at the pool each day Monday through Friday. In addition the students have to study a Red Cross water safety manual.

First part of the safety program was finished last week when 192 children received awards for completing four levels of swimming instructions. Total number enrolled two weeks before was 247.

Pins were presented to 78 beginners, 60 advance beginners and 29 intermediates, and swim suit patches were presented to 25 swimmers.

NYC Mobile Unit Will Be Here With Vocational Data

Free vocational information jointly sponsored by the Neighborhood Youth Corps and the Educational Resources Cooperative Association will be available at a mobile unit during a one day program at the city hall on Friday, July 14. Both young and old people are welcome between 9 a.m. and 4 p.m.

The program will consist of a film strip and individual interviews to persons seeking information on different types of job opportunities. It is made possible, according to Tom Riddlehuber of the NYC Gainesville office, through the cooperation of ERCA by making its mobile unit available. ERCA is a non profit educational program operating on a grant from the Health, Education and Welfare Department.

E. F. Carson, county school superintendent and supervisor of the area NYC, urges young people to visit the unit and learn about different kinds of jobs. He said occupations should be chosen, because the right choice can determine whether a person succeeds or fails whether he keeps or loses his job.

Carson further stated that there are many things to consider in choosing a job. It helps to know something about the kind of work involved and also knowing what work one can do well. It has been estimated that there are about 35,000 different kinds of work, and it helps to know which of those are better suited to one's talents and skills.

Some of those questions can be answered at the ERCA mobile unit here Friday, Carson said.

Have you noticed it now takes four cents for you to say your two cents worth on a penny postcard?

Funeral Service Held Thursday for Mrs. Ben Sicking

Mrs. Ben Sicking, 80, a resident of Muenster for about 75 years died Tuesday, July 11, at 2 p.m. in Muenster Memorial Hospital. She had been in the hospital 36 days after falling at her home and injuring her back. She suffered a stroke about two weeks ago.

Funeral services were held Thursday morning at 10 o'clock in Sacred Heart Church with Father Alcuin Kubis officiating at the Requiem High Mass.

Jerome Voth Takes Oil Job in Kuwait

In spite of the tensions prevailing in Arab countries, Jerome Voth has returned to the oil field development of that area. He left Dallas by plane at 3 p.m. Friday and was due to arrive at Kuwait at 8:30 Saturday. His family, the Joe Voths, received Tuesday a card from Frankfurt saying he was on schedule.

Jerome is employed on a drilling rig in the big Kuwait field and expects to see another home townner, James Hess, regularly. He returns to the Arab fields after two years of similar work in Libya. He has been home for almost three months.

Another local youngster on a similar mission is Steve McElreath. But he's slightly closer to home — in Algeria. He left Monday.

FLASHBACK DREAM

Dreams are not usually the best kind of grist for the editorial mill, but we had one the other night that set us to thinking. It came shortly after we had listened to some nasally insane remarks by one of our duly ordained experts on foreign policy, and after this we must have dozed because the next thing we remember we were in the Senate gallery in Washington. Suddenly a funny looking geezer stood up and addressed the chair, which happened to be occupied by Henry Wallace. The chair addressed him back as Senator Wee Willie Phulliam. And Senator Phulliam opened up as follows:

"Leave us first, Mr. President, realize there are no simple solutions to complex problems. Those who call for total victory, like our warmongering President, don't realize world opinion's dead set against us."

Senator Wee Willie pulled his glasses down on his nose

and continued:

"We must not harden the resistance of the German, Japanese and Italian people by our senseless bombing in which thousands of innocent nazis and fascists are slaughtered by the men in our B-29's. So I say, let's stop the bombing and give Hitler, Hirohito and Mussolini a chance to negotiate. And to show them that we're going to give them what they ask for, let's right now start bringing our boys back home, where they can vote for peace."

"Many of those GI's don't believe in this war any more than I do, and if I'm not over there why should they be? Why should we make our men oppose a principle that is so strong that millions of nazis and fascists are willing to die for it? I ask you, is this the democratic way?"

"Furthermore I am in full sympathy with the bundists who throng our streets we must Ban the B-29's. Negotiate, Get Out of Germany, and Stop Bombing Berlin. Some benighted people say these idealists are traitors, but I say unless the United States makes love instead of war the time will come when we will stand alone."

"Therefore I say to you that we must shout defiance to our President and his military advisers, and demand that he negotiate and show our true friends that we want peace and nothing else but their continued good health."

At this point, Senator Phulliam, who had been getting fuzzier and fuzzier, turned into a dove and flew straight through the skylight.

UNION'S DON'T ALWAYS WIN ELECTIONS

NLRB reports that during the first three months of 1967 there were 1,761 secret ballot representation elections in which "no union" was selected in 696 (or 39.5%) of the cases. In the last quarter of 1966, the result was even more significant, with "no union" being selected 855 (or 43%) of the 1,922 representation elections. These figures warrant attention by employers who feel all is lost and they don't have a chance when a union attempts organization and a secret ballot election is ordered by NLRB. Fact is that the employer definitely does have a chance!

A SORRY SPECTACLE

According to a newspaper report from Portland, Oregon, a U.S. communist party organizer, in speaking to a group of college students on college property, said: "Americans eventually will adopt communism because the present political system gives them no way to participate meaningfully in the decisions controlling their lives."

It was most noticeable that no college authority answered this challenge. No support was offered for our representative form of government under which every adult man and woman has the right to on a secret ballot.

What would happen to a U.S. citizen who dares to address a Russian college audience in like manner and criticize the communist system? A U.S. communist, under the protection of the U.S. Constitution, has the privilege of criticizing the U.S. political system which guarantees his right to free speech, which he wouldn't have in Russia.

We need a few "organizers" to teach United Statesism in our educational system to counteract the isms that have the privilege of trying to tear it down. Lack of such teaching leaves our young people at sea and open to the wiles of those who destroy us under the cloak of academic freedom.

"WELFARE" UNLIMITED

The cost of welfare is now borne about one-third each, by the city, the state and the Federal Government. A strong move is under way to transfer the whole burden to the latter. We shall hear much more of the federalization of welfare. This move is in the wrong direction. Welfare should be localized in the community — a matter of neighbor to neighbor. Few people will impose upon their neighbors. They will strive more diligently to provide for themselves. No one wants to be known as the town drunk, and very few women would engage in the profession of raising illegitimate children if they had to be supported by their own community. On the other hand, there is no hesitancy on the part of most people in accepting anything they can get from Uncle Sam. Herein we are at the root of the problem of our rapidly expanding welfare costs.

JUST A NEW RAID

While there really isn't such a person, most of us look upon ourselves as average Americans.

In which case the first two and one-half hours of each day you work is for taxes, mostly for Uncle Sam. During the other five and one-half hours we earn our bread and butter, earn our rent or real estate taxes and insurance, earn enough to buy clothes, to pay medical bills, to spend for incidentals and entertainment and to save for a vacation.

And, whether he accepts the ideas or not, the average man in business and that phantom person we call a corporation (that's the way it's viewed by Internal Revenue Service) has a silent partner who is entitled to half, or more, of all the profits. In the corporate sense, Uncle Sam takes a mere 48 percent of

all profits from the corporation itself, then taxes each shareholder on the dividends he receives as earned income, where it is subjected to rates that vary from 25 to 75 percent.

If you feel like you are caught in between your own rising living expenses and the rising cost of government, you're right. This is when most of us begin to wonder, become practical.

So when you're restless and lie awake at night you suddenly remember the Great Society dream of your President, who, with a voice coming from Cloud Nine, extols, a continuing war on poverty. Now you suddenly realize it amounts to a new raid on your pocketbook.

FLBA of Sherman Will Meet July 15

Mr. G. C. Hodge of Bonham, president of the Federal Land Bank Association of Sherman, announced today that the annual stockholders meeting for the association will be held in Sherman, Saturday, July 15, 1967 at 9:30 a.m., at the Texas Theatre.

The meeting this year will be a special event to celebrate the 50th Anniversary of the Federal Land Bank System. The establishment of the Federal Land Bank of Houston on April 3, 1917, marked the beginning of this farmer-owned credit system. The local association has approximately 600 member-stockholders who own all of the stock in the local organization.

Five per cent dividend checks will be delivered at the meeting. The program will be dedicated to the "American Farmers — Providers of Plenty."

Other members of the board of directors in addition to Mr. Hodge are: Mr. T. G. McGraw, Vice President, Sherman; Mr. J. T. Cole, Muenster; Mr. Hugh S. Morgan, Gainesville; Mr. W. W. Westbrook, Bells; and Mr. E. J. Cappelman of Bonham.

John Sicking Books Two Day Display Of Luxury Tractor

The farm tractor of tomorrow will come to Gainesville on Sunday, July 16, for a two day showing.

It will come complete with an upholstered, heated and air-conditioned cab, two-way radio, stereo tape player, AM-FM radio, closed circuit television, arm chair seat and nylon carpeted floor.

The ultra modern tractor will be at Sicking Tractor Co., 400 Summit Ave., Sunday afternoon and Monday 8 a.m. to 10 p.m. The firm's manager, Johnny Sicking, said the tractor, a demonstration unit, is on a six months tour through the heart of America's farm belt. It is visiting some 20 states.

The tour sponsor is Allis Chalmers, and the tractor is a Model 190-XT, featuring many of the same comforts that are found in modern cars.

Sicking said that farmers throughout the country are being asked to fill out a questionnaire with 13 specific questions. The form asks, for example, whether a customer would buy a bucket seat for his tractor, and if so, how much would he be willing to pay for the more comfortable seat.

He pointed out that every "luxury" item on the tractor is available from various suppliers. It was just a matter of putting them all together in one attractive package." He emphasized that some of the features such as the adjustable steering wheel, console grouping of controls, and wide roomy platform are standard equipment.

"We're looking for guidance from farmers in future tractor designs," he said. The answers to the survey are being tabulated by Allis Chalmers for computer analysis.

Farm Tractor of the Future?

Could be, and with more comfort than the average living room. Designers at Allis-Chalmers built two demonstration units like this to show the degree of sophistication than can be reached in modern tractors. They are surveying farmers at several large farm shows to learn what farmers want in equipment, comfort and convenience. The customized cabs include features such as (1) two-way citizens band radio; (2) stereo tape player; (3) AM-FM radio; (4) pressurizer that keeps the cab free of dust, dirt and pollen; (5) and (6) closed circuit television with camera focused on the implement behind the tractor; (7) electronic seed planting indicator; (8) air conditioner; (9) convenient grouping of operator controls; (10) and (11) rich, black, upholstered arm chair and cab interior; (12) plush nylon carpeted floor; and tinted glass.

Mrs. Ralph Poteet is shown enjoying cooking on her electric range in her Gold Medallion Home in Mesquite.

You don't have to live in a Gold Medallion Home to ENJOY ELECTRIC COOKING*

*but it helps!

The kitchen is the heart of the modern home . . . and the flameless electric range is the heart of the modern kitchen.

If you are about to replace your present range, remodel your kitchen, or build a new home, talk to homemakers like Mrs. Ralph Poteet of Mesquite and learn first-hand of the many advantages of electric cooking.

You'll find that electric cooking is cool cooking . . . heat doesn't spill out into the room. It's clean . . . no fuel combustion to stain pots and pans or to discolor walls and curtains. It's automatic . . . simply set and forget. It's economical . . . costs only about \$2.25 a month for a family of four.

If you put your heart in your cooking . . . you'll love an electric range.

Electric cooking is only one of the enjoyable features of living in an all-electric Gold Medallion Home. When Mr. and Mrs. Ralph Poteet of Mesquite recently modernized their home to include an all-electric kitchen, laundry, water heater, ample lighting and air conditioning . . . their home also became the
