How pure Edwards Limestone helps us brew a better glass of beer

Cold spring water reaches us as fresh and clear as it is in the Country of 1100 Springs. Pure Edwards Limestone keeps it that way. The stone absorbs the water and keeps it sealed and crystal clear all the way to the brewery. This is the brewing water that brings out all the flavor in Pearl's fine grains and hops.

Proclamation on Farm Safety Week Issued by Judge

County Judge William W. Carroll has officially proclaimed July 23-29, 1967 as FARM SAFETY WEEK in Cooke County, according to C. J. Kammerdiener, President of the county Farm Bureau. The local farm organization is coordinating activities for the special farm safety campaign.

President Johnson and Governor Connally have previously designated that week on national and state levels as a period to call attention to worthwhile safety practices that can reduce disabling injuries and death.

The county farm leader said the accidental death rate for farm residents has increased since 1961. "If this trend is to be reversed and the needless suffering and losses substantially reduced, each of us must have a renewed effort," Kammerdiener continued. He emphasized that farming remains one of the most hazardous occupations in America today. He also said that farm and ranch families can reduce these costly farm accidents by using some of the tools of safety, such as seat belts, fire extinguishers and SMV emblems.

In his official proclamation, County Judge Carroll said: "All the citizens of Cooke County are deeply concerned about the safety and well-being of farm families from whom we receive our abundance of food and other essential agricultural commodities.

"Farm and ranch accidents reap a grim harvest of approximately 150 fatalities and thousands more suffer painful disabling injuries each year in Texas, plus the great economic loss and physical and psychological damage suffered by members of farm families that are involved."

President Taft introduced the automobile officially to the White House in 1909 by replacing the stable of horses with automobiles.

Mrs. Hoenig Hosts Idle Eight Club

Mrs. Joe Hoenig was hostess for the July meeting of the Idle Eight Club entertaining in her home. A progressive 42 series furnished diversion for the afternoon.

When tallies were totaled Mrs. R. R. Endres was high score winner, Mrs. Norbert Walterscheid, a guest, was runner-up, and Mrs. Jake Pagel secured the consolation award. The hostess served a dessert course and coffee.

Three Are Honored At Dallas Dinner

Mrs. Johnny Moster whose birthday was Monday had an early celebration on Wednesday last week, sharing honors with a niece who had a birthday Sunday and her son Cpl. James Moster for whom the party was a farewell get-together.

The Moster family went to Dallas where her brother-in-law and sister, Mr. and Mrs. Russell Herb and their children were hosts in their home. Little Patty Sue Herb was the five-year-old honoree.

Both Mr. and Mrs. Herb work in bakeries — Mrs. Herb is a cake decorator — and she had done up a beautiful cake for the three honor guests.

One cake section was inscribed with "Happy Birthday Betsy," for Mrs. Moster, another section was lettered with "Happy Birthday Patty," and had five candles, and the other section was inscribed "Good-bye Jim." And there were three miniature figures, a lady, a little girl and a soldier.

After dinner the cake was served with ice cream and then the group saw Cpl. Moster off by jet from the airport at 1:30.

He returned to Fort Benjamin Harrison, Indianapolis, Ind., after a two-week leave with his parents and family.

Bake Sale Adds \$300 to Fund for Cardiac Equipment

Muenster Hospital Auxiliary members are pleased with the success of their recent bake sale which netted \$303.30.

A report on the benefit event was presented at the July meeting of the organization Thursday night. Receipts have gone into the fund for the hospital's cardiac equipment, the Auxiliary's current project.

Members plan to make a payment after their August 15 ice cream social.

Plans for the annual ice cream party were made at the meeting and a committee was appointed to take over details — homemade ice cream, pie, coffee, cold drinks and table games. Committee members are Mmes. Martin Kralicke, Rufus Henscheid, Walter Grewing, Arthur Bayer and Henry Starke.

Mrs. Starke, president, conducted the meeting. Sister Mildred led the opening prayer and Mrs. Dickie Pagel won the door prize.

Lindsay News

Mr. and Mrs. Gene Pelzel and children Michelle and Matt joined in a family reunion Sunday afternoon in the KC Hall at Pilot Point. It was a surprise birthday celebration honoring Gene's parents, Mr. and Mrs. John Pelzel. His birthday was Sunday and his wife's was July 14. All family members took covered dishes for supper and gifts for the honorees. Pictures were made. Those present were from Dallas, Fort Worth, Pilot Point, Muenster and Lindsay.

Mr. and Mrs. Martin Friske had as their guests for 10 days their son and daughter-in-law, Mr. and Mrs. Jere Friske and little son John of Anaheim, Calif. One day the visitors, joined by his parents and sister and family, the Barney Sandmanns, Steve, Roger and Karen, spent the day at Six Flags. Jere and family also visited the Sandmanns at Howe two days.

The three nun daughters of Mr. and Mrs. Herman Zimmerer are reporting for their teaching assignments this week. Sister Herman Mary who was in Alexandria, La., last year is assigned to St. Pius School in El Paso, Sister Barbara James, in New Braunfels last term, is at Granger, Texas this year and Sister Mary Rose continues at San Antonio.

Joe Mage's of Muenster is convalescing at the home of his daughter and family, the Gene Pelzels, since being dismissed from Muenster Hospital Saturday.

Misses Janie and Donna Zimmerer are spending a week vacationing in Dallas with their aunt and family, the Frank Benenates. Joe Bezner Jr. took his nieces to Dallas Tuesday when he went for his son Kenny who had a 10-day visit with the Benenate family. Frankie Benenate accompanied them home for a family, Frankie Benenate and Steve Bezner of Richardson accompanied them home for a visit in Lindsay.

Mr. and Mrs. Albert Bauer Jr. and children left Monday to return to LaFeria after a week's visit with her mother, Mrs. Paul Arendt Sr. and other relatives in Lindsay and Muenster. A number of family dinners honored them and family reunions were held in the homes of Mrs. Arendt and the Andy Arendts. One day the visitors and her mother drove to Lawton, Okla., to visit the Ernest Arendts.

Soil Conservation -- constructed over 30,000 feet of terraces on cropland. In addition about 17 acres of cropland has been planted in Bermuda Grass.

A basic soil and water conservation plan has been developed on the Glenn Hellman 150-acre farm two miles northwest of Lindsay.

Part of the cropland that needs terracing will get terraces this summer after crops are harvested. About 20 acres of shallow soils will be converted from cropland in improved pastures.

Hellman has purchased a chain saw and has plans for thinning out undesired trees along a creek and leaving only about 100 large pecan trees. This common Bermuda Grass pasture will be improved by fertilizing and proper use.

Soil Conservation Service technicians assisting the Upper Elm-Red Soil and Water Conservation District have staked out terrace lines on the Damon Fuhrmann farm four miles northwest of Lindsay. These terraces will be built with regular farming equipment.

Many cooperators of the district are now shredding their waterways and pastures to control weeds. Waterways that conduct the flow of water down the slope from terraces should be the best on the farm. This is necessary if erosion in waterways is to be controlled.

Grassed waterways are the key to sound conservation practices on many farms. They should be fertilized and weeds controlled each year. Use of grassed waterways for roads on farms in traveling with farm equipment from one field to another should be avoided.

The time for staking out new waterways is from now until October. Cooperators of the district who have waterways planned and not established should contact the local SCS office for assistance. These areas can then be ready for planting in the spring of 1968.

Important Visits To Your SS Office

There are four times when it is especially important for area residents to contact the local social security office, according to Gus Jones, district manager.

First, if a worker in your family dies, some member in the family should contact the office promptly to determine if survivors insurance benefits are payable.

Second, if you become disabled be sure to contact the office. As a result of the 1965 social security amendments a person may be eligible to receive monthly disability benefits if his disability is expected to last a continuous period of at least 12 months. A person no longer needs to be per-

manently disabled to qualify.

Third, when you reach the age of 62, you should at least stop by or telephone the office to discuss your situation, particularly if you are no longer working for low earnings. Remember, you do not have to be completely retired to get social security benefits.

Fourth, when you are within 3 months of age 65, you should contact the office if you have not already filed an application. It is especially important to contact the office at this time, so that you can be enrolled in the medicare program. You do not have to be eligible for monthly payments to be eligible for the medical insurance protection. Filing an application during the 3-month period before you reach 65 will insure

this protection effective with your 65th birthday.

Jones wishes to remind area residents that the office remains open to 7:45 p.m. every Thursday for the convenience of those who are unable to call or come by during the regular hours of 8:30 a.m. to 4:45 p.m., Monday through Friday. The office is located at 315 West Mulberry in Sherman.

A representative may be contacted in Gainesville each Tuesday and Thursday from 9:30 a.m. to 12:00 noon at the Federal Building.

The longest sermon was delivered by Clinton Lacy in 1955. It lasted 48 hours 18 minutes and ranged through texts from every book in the Bible. A congregation of eight was on hand at the close.

many with good jobs.

No one can deny, of course, that our country has some pitiful cases of poverty. They are underfed, ill-sheltered, ill-clothed, exposed to disease. They deserve help. However, poverty too often is a relative term. Many people are classed as poor because they are below the average economic level. But they are not really lacking in basic needs. And, still speaking relatively, they are actually fortunate in comparison with people back in their native lands. Millions of Americans, though poor by our standards, are rich by foreign standards. Poor negroes over here live much better than their distant kin in Africa.

The history of this country is mostly the story of poor

people who endured hardship and made sacrifice while working their way to a better life. Every generation has had them. Every generation has seen them make the grade — on their own efforts, not on envious demands for unearned benefits.

Another big fallacy is the theory that ghettos breed delinquency and crime. The truth is that people still grow up clean and decent and proud in poor housing whereas some make slums out of whatever kind of housing they have.

Good weather is no safeguard against traffic accidents. A report by The Travelers Insurance Companies points out that 80 percent of the 52,500 traffic deaths in 1966 occurred in clear, dry weather.
