VOLUME XXXI

MUENSTER, COOKE COUNTY, TEXAS 76252 FEBRUARY 9, 1968

NUMBER 12

After official statements that our Pueblo was 16 miles from shore when captured, unquestionably beyond the 12 mile limit required by communist countries, some of our leaders seem to be leaning toward an admission that it was actually inside the limit. They are willing to admit that violation as a condition for the return of her 82 man crew.

The idea has some merit from the average American's point of view. We have a traditional deep respect for the lives of every one of the captives. We would accept an unjust accusation and offer apologies if that will guarantee the safe return of our men. The world wide damage to our prestige and honor would be excusable because this happens to be a case in which the end justifies the means. We can justify our action with the thought that we only told a white lie for a good purpose. We can endure a blow to our national pride in order to rescue countrymen in distress.

Yes, a deal like that can be rationalized, but deep in their hearts most Americans will be ashamed of their country for doing it. They will resent it as a degrading blot which somehow could have and should have been avoided.

Another equally distasteful side of this affair is the possibility that the suggested deal may be only a cruel and treacherous trap set by the enemy. One can be sure that such an admission of guilt would be exploited to the limit by all communists, but there is no assurance that it would be followed by release of the prisoners. Perhaps the reds would only use the statement as a basis for more humiliating and more costly demands.

The situation is disturbing and delicate. We will need both courage and skill to save national prestige while getting back the captured men. It's time to pray that our leaders will be equal to the job. An especially irritating thought relative to the Pueblo incident is its unfairness. It is estimated that the Soviets have eight times as many spy ships in operation as we do. It is well known that through the years those ships have often violated this country's boundaries. Our country made official protests on several occasions but never went to the extreme of capturing a ship and making an ugly incident of it.

Even now a suggested retaliation is to seize one of the Soviet ships snooping just outside our three mile limit and offer to exchange it for the Pueblo.

Another irritating thought is the fact that we have always observed international maritime custom in setting a three mile limit to our coastal waters and have recognized the right of other countries to do as they please beyond that line. But reds, while taking advantage of the custom, set up a twelve mile limit for their shores. According to their claims the Pueblo was captured ten miles off the North Korean shore. That was still much farther out than dozens of red spy ships now operate without fear of being molested.

Can anyone explain why we allow this advantage to the enemy? It seems we've been played for suckers. As in all their dealings, they take more than they give. But why do we permit them to do it?

Even so, lets not disregard the original Pueblo report that it was surrounded 16 miles off shore. Regardless of unfair boundary regulations, our ship was still in the open sea. That brands the capture as piracy or an act of war. The reds, not we, were at fault.

The Pueblo incident is only one of many which show emphatically what a Frankenstein this country has created in some 35 years of help to the communists. No people of the world, not even the reds themselves, have been equal in promoting them to their present stage of global power. And the magnitude of our blunder is further magnified by the fact that we have seen so many clear signs telling us unmistakably that they were unworthy of our trust or help, that they were plotting our destruction and double crossing us constantly while accepting our aid.

From the day of diplomatic recognition in 1932 they have been cheating, stealing, spying and breaking agreements. That continued before the world war when we gave billions to build up their industry and agriculture. It continued during the war while their sur-

Strong Majority Adopts Sales Tax

By a strong majority of 203 to 24, voters of Muenster approved a one per cent city sales tax in a special election last Saturday.

The city was one of four in the state adopting the tax and joined a long list which have adopted it since the tax became legal. The other three cities were College Station, Willis Point and Caldwell, all by decisive votes.

The tax will become effective on July 1. After that date the present sales tax of two per cent will be raised to three per cent.

All of the tax collected will be sent to the state comptroller of public accounts who will remit two per cent to the state as before, and remit one per cent, less a collection fee, to the city.

Expected revenue from the new tax is estimated by the city council to be about \$9,000 a year. However estimates based on Texas Municipal

City Council Sets Hearing Date for Proposed Paving

A big street improvement program is in sight for Muenster this summer if it is wanted by residents on the streets concerned.

In addition, the existing pavement in several areas is due for a repair job followed by another course of surfacing.

Members of the city council discussed the program at their meeting Monday night and set Monday, March 4, as the date for a hearing in which property owners may express their approval or disapproval.

The program recommended by the council and specified for the hearing includes 26 blocks on thirteen streets. The city's participation throughout the program is paving the inter-sections and alleys, also furnishing the concrete gutter at alleys to connect the curb and gutter at each side.

A property owner's share in the project consists of paying for curb along the property front and pavement from curb to center of the street for the length of the property front. Corner property will need slightly more curb and gutter.

The price of concrete curb and gutter is estimated at \$1.50 per running foot, the cost of pavement is estimated at \$2.25 per running foot.

Property owners do not share in the cost of pavement repair and resurfacing jobs. Maintenance of pavement is the city's responsibility.

County Registers 10,488 for Voting

Voting strength of Cooke County is at an all time high this year. As registrations ended last week Wednesday the total number of certificates issued was 10,488. Another record was 923 registrations on the last day.

Mrs. Jo Hillis, county tax assessor-collector, said the figure probably will be slightly smaller after all names are assembled into voting boxes and arranged alphabetically. If anyone has received two certificates it will be discovered then and the correction made. Some duplicates are expected in cases of both husband and wife applying. The revised total and strength of each polling box will be available soon.

The final figure will reveal for the first time the county's actual voting strength. In the last general election year, 1964, the county issued 8,347 poll taxes and exemptions. However there were several hundred persons over 60 in communities of less than 10,000 population who could vote without the poll tax certificate or exemption.

His program is one made possible through Projects Change, funded by the Federal Government under Title I.

MHS Teams Lose To Era, Callisburg

Basketball teams of Muenster High School were completely blanked in their four encounters of the past week. Last Friday they lost to Era, Tuesday they lost to Callisburg.

Playing Era in the Muenster gym, MHS girls started with an 8-4 lead at the first quarter, but then the visitors took over. At half time Era led 19-15 and in the third quarter jumped to a 34-17 lead. Last quarter was more of the same and ended 52-24. Linda Wilson and Debbie Cain each made 10 for Muenster.

In the boys game Era was out front 10-3 and 22-16 in the first two periods. Next quarter was cold for both sides and ended 31-16. Finally both did better for the 47-28 final tally. Top scorers for MHS were Tommy Henscheid 11, Sam Sparkman 10, John Monday 6.

Callisburg was hotter than ever and Muenster colder than ever in the girls' game Tuesday night, and the champs started with a first quarter lead of 35-0. After that, while Callisburg reserves got lots of action, team scoring was near even. Counts ending the next three periods were 41-10, 56-21, and 61-34. Linda Wilson scored 21 and Debbie Cain 7 for Muenster.

In the second game Callisburg gained all the way for leads of 22-10, 40-23, 53-33 and 72-46. Leading scorers for the Hornets were Sam Sparkman 24, Mike Cason 10, John Monday and Tom Henscheid 6 each.

Muenster teams have two more games ahead of them. Friday night they will take on Saint Jo in the ocnest scheduled as the season finale and next they will make up the game with Valley View postponed because of bad weather.

Auto Inspections Slow, Says D P S

More than 4,250,000 vehicles still have not been inspected for 1968 auto safety stickers reports the Texas Department of Public Safety. April 15 is the deadline.

Col. Homer Garrison Jr., DPS director, said only 1,574,387 cars have been through inspection lines. A total of 5,702,862 were inspected in 1967.

Garrison urged drivers to have cars inspected soon in order to avoid those long lines which develop every year near the deadline.

Inspections will be a little tougher this year. Items covered include steering, wheels, rims and front seat belts where anchorages are part of the manufacturer's original equipment. Garrison observed that some drivers may have to install seat belts before they can get a stamp.

There are 5,336 inspection stations in Texas.

District Gains 27 In School Census, New Count is 768

A gain of twenty seven for a new high in the scholastic population of the Muenster School District has been recorded for this year.

Superintendent L. B. Bruns revealed this week that the unofficial count after completion of the new enumeration is 768.

Most of the increase, he said, results from the annexation last summer of a part of the formerly dormant Myra district. The addition made little if any change in the local enrollment because the children were transferring to Muenster.

The new census figure is subject to verification by the Texas Education agency before it can be considered as official. A normal problem is duplication when a child moves from one district to another. It may be listed by both. Such mistakes are corrected when the TEA finds a child on two lists. Last year's count here was originally 742 and reduced to 741 by TEA.

This year's increase is the biggest of several years here, according to Superintendent Bruns. It also figures in a gain of 86 for seven years. The census was 682 in 1961. Counts for the successive years since then were 702, 709, 711, 731, 733, 741 and 768.

SH Alumni Sets Feb. 18 for 1-Day Volley Tournament

A quickie volleyball tournament in Muenster is on schedule for Sunday, February 18. The event, sponsored by the Sacred Heart Alumni Association, is open to men's and ladies' teams of the community and will be played in the Sacred Heart gym.

The number of entries signed up by Saturday this week, deadline date, will determine whether the tourney will be single or double elimination. A small number of entries would permit champ and consolation brackets for both the men and ladies. But a large number of entries will restrict it to champ brackets only.

Whatever the kind of tournament, awards will be presented to the title winners.

Teams that wish to enter are asked to notify Charles Bayer Saturday or before. Entries cannot be accepted after that because the tournament schedule will be drawn up then and mailed to the participating teams.

VOTING CHANGES

Another change which takes effect this year may alter the voting habits of some voters... and the filing habits of some candidates. It is the provision that there can be no write-in votes in the primaries... except for party officers, such as the county and precinct chairmen.

This means that if a candidate wants to garner any votes, he'll have to get his name on the official ballot (and, incidentally, pay his pro rata part of the cost of holding the party election) ... or

HOW DO YOU GET OBLITERATE ON THE BALLOT?

You vote for the best Republican or Democrat, sure he will work for what's best for the country, but somehow the bureaus and bureaucrats, the deficits and debts, keep on mounting.

How do you get a place on the ballot where the American people can vote NO to hazy theories, NO to spending billions we haven't got for too many programs of questionable value, NO to courts more interested in kindness to criminals than laws and protection of decent citizens, NO to those many bureaucrats whose chief aim is to perpetuate their often-useless jobs?

Put places to mark these on the ballot and you'll roll up the biggest patriots' landslide in history. And it's high time.

HOW LONG IS A PIECE OF STRING

Bouncing Betty Furness, President Johnson's special adviser on consumer affairs, is at it again. She is insisting that manufacturers tell purchasers exactly how long a product can be expected to last.

This is the same lady who garnered headlines early in her advisership by encouraging irate, but misguided housewives, to blame the supermarkets for high prices. If Betty suggested that massive spending and continued budget deficits had anything to do with inflation and high prices, it was not reported by the press. Neither do we recall reading that she had anything to say about featherbedding, fringe benefits, wage increases without increased production, or other matters pertinent to the spiraling cost of living in our country.

President Johnson, according to the news accounts, feels that he has a real glamourpuss of a campaigner in Miss Furness. He pointed out to some of the government employees beholden to him how many speeches she has been making each week, and how well she was selling the Administration's "protect the customer" line.

Why shouldn't the housewife, Miss Furness asked, "know that there are 'x' number hours of service in her washing machine or that the life expectancy of a toaster falls short of a golden wedding anniversary? The manufacturer knows, and the marketer knows, what the design-life of a product is. Shouldn't the consumer also know?"

Now that does seem pretty bold talk for Miss Furness to use before the American Marketing Association. But she seems not to have asked that there be matching assurances from the consumers.

Will the purchasers for example, promise to follow the directions for use of the equipment? Will they pledge, good,

bad, or indifferent care for the equipment? Is the man of the house one who has a hobby of taking everything apart, but seldom gets anything back together without having pieces left over? Does the purchaser think that appliances need the oil recommended by the manufacturer? And how may the manufacturer determine how many people will be having their clothes washed in that washing machine? Will it be used by a tidy elderly couple, or a family with ten dirt-collecting youngsters?

It would take a lot of paperwork on somebody's part to answer all those questions for the manufacturer. But paperwork never stops bureaucrats.

If she had used "dishwasher" instead of "washing machine" in her example, it would be simpler. We have one at our house which seems to last a lifetime. Me.

TAX TIME IS YOUR TIME

Taxes cost more than any other item in the household budget, says Tax Foundation, Inc. Americans work 2 hours and 25 minutes every 8-hour working day to meet federal, state and local taxes. In fact, an additional 6 minutes were needed to meet taxes in 1967 over the amount needed the previous year.

Other expenses include: Housing and household operation, 1 hour and 25 minutes; food and tobacco, 1 hour 14 minutes; transportation, 40 minutes; clothing, etc., 30 minutes; recreation, 18 minutes; medical, 21 minutes; all others, 1 hour and 6 minutes.

FROM THAT FIRST TODDLING STEP—

WHAT A BIRTHDAY!

Sunday, February 25, is an anniversary which few people, if any, will celebrate by baking a cake!

On this date, in 1913, the federal government was authorized to levy an income tax. Congressional leaders felt at the time that rates could never reach 10 per cent and, indeed, the first year of tax brought the government only \$80 million, or a per capita bite of 82 cents.

By contrast, in 1966 revenue from corporate and individual income taxes totaled \$85.5 billion, and the per capita tax yield was \$434. While the per capita disposable income in 1966 was \$2584, or 7.2 times the \$358 of 1913, the per capita tax payments were 529 times the 82 cents of 1913.

In 1913, a single man earning \$5,000 a year paid a \$20 tax; in 1966 he paid \$671. In 1966 the rates ranged from 14 to 70 per cent, a far cry from Congressional predictions back in 1913.

Of Mr. Taxpayer's total tax bill in 1913, 70.5 per cent went for state and local government and 29.5 per cent for the federal government. In 1966, 66.5 per cent to federal, 17.9 to state and 15.6 to local.

In 1913, people did locally what they wanted done. Today, they give their billions in tax money to the federal government and fight among themselves to see who can get the most back.

Torino...for people who know there's more to a performance car than painted stripes.

1968 Torino GT Fastback (Top)
 1968 Torino GT Hardtop (Bottom)

Anyone can paint stripes on a car. Ford's performance champs earn their stripes the hard way. Torino swept the first five places in the Riverside 500. It's the Pace Car for the Indy 500. It's the hottest-selling new car in the country! Fairlane took first place in its class for braking and for economy in the Union/Pure Oil Performance Trials—in fact, Ford Motor Company cars won more classes than all other manufacturers combined! If it's performance you want, ride with a winner! See the man with Better Ideas... your Ford Dealer.

FACTS ABOUT THE 1968 TORINO

When Torino takes the first five spots in the Riverside 500, first time out, you know it's tough! These cars, of course, were driven by professionals and were modified to meet the special demands of competition. But, the same kind of basic durability and maneuverability are built into every Torino we make. So if you want stripes, get 'em on the car that gives them meaning! Choose from three GT models—fastback, hardtop and convert-

ible. All with a 289-cu. in. V-8, wall-to-wall carpeting, all-vinyl interiors, styled steel wheels and wide-ovals. Or choose the regular hardtop or 4-door sedan. Like the GT's, they've got a new, longer, 118 in. wheelbase for smoother riding comfort, more room and more trunk space. You can even have a Torino Squire wagon, with 2-way Magic Doorgate. A modern gas dryer keeps permanent press pressed best.

Impressed?

Or did you assume that permanent press will always come out looking as crisp as when you bought it. Well the fact is, it won't! Not unless your dryer has a rapid cooling and tumbling cycle. You see, heat sets creases. And permanent press that sits under a heavy load in a hot dryer can come out with more creases than when it went in. Modern Gas dryers have this special cool-down cycle.

Modern gas dryers keep permanent press permanently pressed best.

Great-grandchild Visits Mrs. Pagel

Last week was one of special happiness, on two occasions, for Mrs. Carra Pagel — getting acquainted with her only great-grandchild.

She saw the little girl, seven-month-old Jackie Schniederjan, for the first time when her parents, Airman and Mrs. John Schniederjan, brought her to Muenster for a visit. And she joined a family gathering at the home of her daughter, Mrs. Henry Schniederjan at Dallas.

Airman Schniederjan was on leave before going to Thailand. He had been stationed at Vandenburg Air Force Base in California and this was the baby's first trip to Texas.

Before Airman Schniederjan left for overseas duty the family was together at the home of his parents, the Henry Schniederjans, for a farewell gathering.

Going from Muenster to Dallas to attend were Mrs. Carra Pagel, Mr. and Mrs. Charlie Pagel and sons Darrell, Carl and Curtis and Miss Lou Cole.

Mrs. John Schniederjan and daughter will remain in Dallas with her parents while her husband is in Thailand.

St. Anne Society Plans Donation Of Church Window

Members of St. Anne's Society are planning to donate a stained glass window to Sacred Heart Church. That was the principal business at the organization's meeting Sunday afternoon.

After accepting the project, on suggestion of Father Alcuin Kubis, members discussed ways and means of raising \$600 for the project.

New officers assumed duties and Mrs. Tommy Herr, new president presided. Other 1968 officers are Mrs. Al Walterscheid, vice president; Mrs. Arnold Rohmer, secretary; Mrs. Leo Henscheid, treasurer.

Mrs. Frank Herr announced that Sherman will host the quarterly deanery meeting of the National Council of Catholic Women on Feb. 21.

Mrs. Raymond Zimmerman was welcomed as a new member on transfer from Lindsay. Father Andrew Wewer, spiritual director, led the opening and closing prayer and Mrs. Al Hess won the door prize.

After adjournment, three of Sister Richard's speech and drama students entertained with a short program. Kaye Klement read poetry and Linda Rohmer and Laurie Truebenbach presented a duet act.

Auxiliary to VFW Reports \$214.86 for MOD Campaign

The 1968 March of Dimes collection here totaled \$214.86. That amount was reported at the February meeting of Muenster VFW Auxiliary, sponsor of the drive. Mrs. Tommy Hesse was general chairman.

Mrs. Don Flusche presided at the Monday night session and, with Mrs. Joe Sicking, gave a report on presentation of gift certificates to students who won in the recent Voice of Democracy Essay Contest.

Muenster High winners were Gracie Moser, Mona Voth and Shirley Klement. At Sacred Heart High, winners were Linda Rohmer, Stan Endres and Mary Ann Yosten. Certificates were in the amounts of \$15, \$10 and \$5, provided by the Veterans of Foreign Wars Post, co-sponsor of the contest with the Auxiliary.

Honor roll requirements for the month, announced by Mrs. Joe Hoenig, chairman, and voted by the membership consisted of a contribution to the Cancer Research fund and participating in an Americanism program.

Members voted fifty dollars from their treasury for cancer research and will present a U.S. flag to Muenster Public Library.

Plans for a benefit dance in February were postponed until March due to conflicting events this month.

Twenty-three members were present and Mrs. Joe Sicking won the attendance prize. Before the meeting, VFW Post members joined the Auxiliary for a program in which Misses Rohmer and Yosten read their essays and Miss Margaret Kralicke gave a dramatic interpretation, "Three Faces of Eve."

After the meeting the two organizations joined again for a covered dish supper provided by the women with the men as guests.

Name Omitted

Linda Miller was a blue ribbon winner in the Cooke County Favorite Foods Show in the junior meat division. Her name was missing when the list of winners was published in last week's Enterprise.

28th Anniversary Party for Couple

A surprise party honored Mr. and Mrs. Hugo Lutkenhaus Thursday night in observance of their 28th wedding anniversary.

Hosts were their daughter and son-in-law, Mr. and Mrs. James Krahl, entertaining in their home at Gainesville. The group of guests enjoyed a buffet and table games.

Attending were Mr. and Mrs. Lawrence Wimmer, Mr. and Mrs. Ervin Hamric, Mrs. Willie Walterscheid, Mrs. Harold Walterscheid, all of Muenster, Mr. and Mrs. Johnnie French of Sivells Bend, Miss Clara Richter of Dallas, Mr. and Mrs. Sheldon Lutkenhaus, Vickie Schniederjan and Elmo Self of Gainesville.

A Vaudeville team broke up after a long and checkered career and, for several years, its two members lost track of each other. Finally one of them entered a dilapidated hash house on the lower East Side and recognized his waiter. "I don't believe it," he gasped. "You—a waiter—in this joint."
"True," replied his ex-partner with great dignity, "but I don't eat here."

Senior Play Will Weave Eerie Spell

Random quotes from the cast point to bone chilling situations as "The Skull," senior play of MHS, weaves its eerie spell on February 23.

A few of those quotes were passed on as follows by the director Gareld Payne.

Herbie Sicking: "They're coming, they're here."

Leon Walterscheid: "I know it was a scream. It had to be a scream."

Karen Vagel said at rehearsal "I'm already scared and I don't have any fingernails left. I hope the audience will have the same feeling."

 Volley ball teams of this area which intend to compete in a Prairie Valley tournament dated March 11-16 are reminded that the date has been changed to February 19-24.

An announcement this week by the Senior Class, tournament sponsor, states that a conflict is responsible for the change, also that the advanced date makes it necessary for participating teams to rush in their acceptances. Teams contacted and other interested teams may enter the tournament by sending the entry form or a post card to Prairie Valley Seniors, Rt. 3, Nocona, Tex. 76255.

Individual trophies will be awarded to team members of the champ and runner up teams of both men's and ladies' divisions (six trophies to each team). In addition, team trophies will be awarded to consolation winners.

Salvation Army To Call Feb. 12

Gifts of bedding, furniture, toys, bicycles and other household items are deductible at fair value from taxable income, notes Major Byron A. Freeman, commanding officer of the Salvation Army Men's Rehabilitation Center for North and North Central Texas.

The Salvation Army Truck will be in Muenster on February 12 and will pick up items at homes and businesses in response to a call to 759-4311. "Leave a note with your items if you are not going to be at home when the truck comes and we will mail you a receipt supporting your claim for a tax deduction," said Major Freeman. "The donor sets the fair value of the item," he added. The amount is then deducted on the income tax form just as a regular gift of money to any recognized charity.

The Salvation Army completely sustains a large rehabilitation center that serves this area of Texas through the salvage of discards. Men suffering from some form of disabling, personal problems are helped back on their feet by the Salvation Army Rehabilitation Center each year.

The only trouble with being a good sport is that you have to lose to prove it.

The first commercial production of completely molded plastic shoes has been announced by Seilon, Inc. The shoes are molded of a modified polyvinyl chloride (PVC) compound blended especially for this use, and are being introduced in a line for boys 3 to 12 years of age. They will combine almost unlimited color styling possibilities with exceptional durability, flexibility and low-cost production, according to the manufacturer. SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

Great Plains Conservation Program in Montague County is helping Upper Elm-Red Soil and Water Conservation District cooperators to conserve water and reduce soil erosion. Gullies are being shaped, brush is being cleared, engineering structures are being built and grass is being established and properly managed to reduce soil and water loss.

Some district cooperators who have Great Plains contracts have recently started applying their programs. Dale Magee has shaped 26 acres of gullies. Seedbed has been prepared and he will soon sod 100 acres to Coastal Bermudagrass. Clitis Dunn has cleared 44 acres of timber, is shaping 26 acres of gullies and will sod 185 acres to Coastal Bermudagrass and seed 9 acres to Native bluestem grass.

Howard Sledge has the seedbed prepared and will seed 160 acres to Native Bluestem grass. Pauline Seay has shaped gullies, cleared 15 acres of timber and plans to sod 23 acres to Coastal Bermudagrass.

T. J. Price recently completed a grade stabilization structure, shaped 7 acres of gullies and has the seedbed prepared to sod 37 acres to Coastal Bermudagrass. These are only a few of the Great Plains producers who are doing soil and water conservation work. These landowners signed a contract with the Soil Conservation Service to carry out their conservation plan. In turn they were assisted with 50% to 80% of the cost of carrying the practice out.

The landowners also agree to carry out proper grassland management on their farms. This is to keep a good cover of grass on the land at all times. By keeping a good cover, more water will go in the soil for future use and less water will run off. By reducing the run off water, soil erosion will also be reduced. That is the objective of the Great Plains conservation program.

Upper Elm-Red Soil and Water Conservation District Supervisors state that this is another outstanding program in the district. The Great Plains Program provides the land treatment part of the Flood Prevention Program.

Carolyn Block, president, presided in the presence of 17 members and four adult leaders. Ralph Hermes led the 4-H motto and Betty Rohmer called the roll.

Confetti - - -

vival depended on our gifts and led-lease. It continued after the war when our foreign aid bolstered their economy.

It continued while we permitted and even helped the Soviets gobble up most of Eastern Europe after the war. It continued while we helped in developing the UN monstrosity which has been a constant tool of the reds, while we often betrayed our real friends in cooperating with the communist expansion scheme.

No doubt the greatest irony of all history is the development of the present state of affairs. A system so weak and corrupt and economically absurd that it could not survive on its own merit has beggared, borrowed and stolen from us until it grew into a great world power. Now that power is a serious threat to our existence.

Before many years history books will tell that Americans of the past 35 years were the greatest suckers of all time.
