ON MIDDLE CLASS MORALITY

Repeatedly, in recent months, we have been coming across the phrase, "middle class morality." Each time we see it in print it is like a wet mop in the face. The hippies head for a Haight-Ashbury in San Francisco to rid themselves of it; movie reviewers find enlightenment in movies which portray persons trying to escape it; even book reviewers are given to hailing authors who create depraved demons who deplore their middle class morality upbringing and violate whatever they

fancy middle class morality to be.

It has come to be a standard phrase in the terminology of the literary license takers who defend any behavior as being simply a protest against middle class morality. At least two national magazines of recent date have devoted space and photographs to young people who represent to be busily engaged in purging themselves of this middle class morality malady, in order to be useful spokesmen for and cohorts of the unorthodox and unclean out our time.

There must be 150 million people in this land who came out of middle class morality

and that is three out of every four living and breathing Americans.

The code did not differ greatly from one part of the country to another, nor from one religion or color to another. In essence it has been: work a full day for a day's wage, save for a rainy day, fear God, defend the Flag, help the sick and the poor, preserve the family, and do unto others as you'd like them to do unto you.

It was never a complicated code, and it was inbred, in every American community. It wasn't imported from any land; it wasn't carried here by any national or religious group. It was part of the beginning and the growth of America. Each incoming group had to prove itself, to be sure. And it took a little time. But the once-hated Irish did it; the Jews did it; the Chinese did it; the Negroes did it. They didn't do it as a group, or a race; they did it as individual Americans who liked the code and adopted it as a way of life and then stood proud as a peer of every other American who earnestly endeavored to pay his own way and held his God and his Country higher than himself.

Middle class morality doesn't tolerate either malingers or maligners. Middle class morality isn't a sickness of our society, it is the spine of it.

DR. J. H. JACKSON, TEACHER

The largest Negro organization in the United States is the National Baptist Convention. It has six-and-a-half million members. The president of the organization for the past fifteen years has been Dr. J. H. Jackson.

Dr. Jackson addressed the convention recently. His words bear repeating, and we shall hope that they will be heeded by our readers of every race. Here, in part, is what a wise teacher had to say:

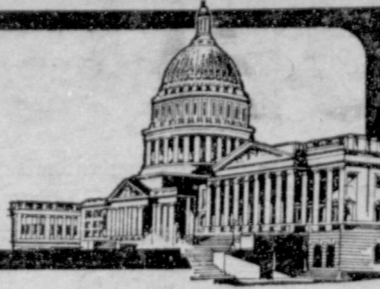

"While we have lost many of the white 'liberals' who have supported the cause of civil rights from an unselfish point of view, ... the Negro race has won as companions other white 'liberals' who are determined to use the Negro race to help them divide and destroy the unity, fellowship, and life of this nation. The purpose of these white 'liberals' is the complete regimentation of 22 million Negroes as an army, to be marshaled under their leadership and direction, and to be used by them at will.

"There is a way out. Negroes in the US must assume the same type of responsibility for saving this nation as any other group of American citizens. I am still convinced that, in the long run, dedication to the laws of this land is better than any form of lawlessness or any acts of civil disobedience.

"Negroes must make it crystal clear that they will not be used or deceived by politicians who make long and loud promises, but are exceedingly short of fulfillment.

"Any group of white Americans who condone us in any form for law-breaking, and who encourage us to demonstrate in such a way that we hinder our own growth and development — such leaders do not plan to give us first-class citizenship or to recog-

Whose Rights?

The art of precise definition of the meaning of words, as is well known, is called semantics. And it now seems that some English words need redefining. It might be well to start with the word "rights."

For some time a group of unknown size, led by a Caesar Chavez, has been trying to organize the workers in the California vineyards. In fact, this group has had the support of the auto worker's union, the teamsters, other factions.

But an apparent notable lack of support has been among the farm workers themselves, best evidenced by the fact that there are sufficient workers to prune the vines, and harvest the grapes.

Unable to get workers to go along with the demands for unionization, a lot of time, money and effort have been expended in seeking a national boycott on the sale of table grapes.

In many cities, especially those with a labor oriented administration, the public institutions have been forbidden to buy fresh table grapes.

This is perhaps understandable, because politicians who depend on unions to stay in office must dance to the union's tune, but the amazing development was the fact that some of the big food chains stopped handling grapes.

This attempt to boycott a product is in violation of the American spirit, and there is

©National Federation of Independent Business

probably no operations in this country more susceptible to a secondary boycott than the big corporate food chains. Thus, it seems so ridiculous that they would cherish the viper that may at any time strike at them.

But the Chavez group stoutly maintain it has a right to engage in boycott tactics. In fact, they even tried to deny to the fighting men in Vietnam the enjoyment of fresh grapes, as if these poor GI's are not already being denied enough. However, despite the protestations made to the Pentagon, the Pentagon would have no part of it, so at least the men in the foxholes were not denied.

Largely overlooked, and undoubtedly on purpose, is the possible damage such tactics pose to the hundreds of small grape growers. The propaganda released does try to convey the impression that all grapes are grown on huge feudal holdings of a few bloated land barons.

While California does have some large corporate farming ventures, there are many small acreages, family owned, and largely family worked. These vineyards support families, send their children to school. Yet blindly, and with what can only be called malice, this group seeks to destroy the livelihood of these family farms by shutting off their markets. And in this whole ballyhoo about "rights" no voice is raised about the rights of the owners of these family farms. There surely is needed a redefining of the word "rights."

Governor Speaks At State Meeting Of FB Leaders

Governor Preston Smith gave his first public speech since his inauguration to the Texas Farm Bureau Legislative Meet in Austin. More than 400 farm leaders and about 100 senators and representatives attended the banquet at which he spoke.

"Migration of people from the rural areas to the cities needs a solution," Gov. Smith said the outflow of farm people to the city "offers problems for both rural and urban communities. We are overcrowding our facilities in large cities and we are upsetting the economic base of our rural areas." He said the fact is the farmer and the city dweller have the same interests. Unless we utilize our resources and provide the in-

nize us as equals under the law.

"Let us rise above all movements and all plots, and work as Americans to make America a free land of free people in which and by which the democratic process can unfold in its fullness, and the right of all can be protected without compromise."

The militants and the malcontents make headlines. Dr. Jackson makes sense.

The hillbilly rode into town with a jug of white lightning under his arm. He stopped the first townsman he saw, suddenly pulled out a pistol and ordered: "Take a drink outen my jug."

The surprised man took a long swig and gasped, "Gosh, that's terrible stuff."

"Ain't it," agreed the hillbilly. "Now you hold the gun on me."

centives of free enterprise to farmer and industrial worker alike none of us shall prosper."

Speaking to the FB Leaders in the afternoon prior to the banquet was Rep. W. S. Heatley of Paducah. He said he is opposed to the recommendations of the committee on public school education, and to a state minimum wage. He said farmers cannot make any money now to pay state sales taxes; therefore he is opposed to the removal of the sales tax exemption on farm production items.

Others speaking at the two day meet were Texas Farm Bureau President Sidney Dean of Victoria, who outlined to Smith the legislative program of the Farm Bureau; Senator William N. Patman of Ganado spoke on "Effective Contacts With Elected Officials";

and Senator J. P. Word of Meridian, who gave the complete process on "How a Bill Becomes Law."

Secretary-Treasurer Roger Fleming, of the American Farm Bureau Federation stated, "The key to effective action begins with the county leaders." Farmers must take a more active part in civic affairs of their counties. Farmers must serve on local boards; and be active in their local service clubs and Chambers of Commerce, if we are to assure agriculture full consideration in the future, he said.

Leaders from Cooke County attending the meet were J. T. Cole, president; and Martin Krahl, policy development chairman.

Peruvian 4-H's Tell Experiences At S. H. Assembly

In a general assembly of students and faculty at Sacred Heart School Tuesday afternoon guest speakers and entertainers were two 4-H girls from Peru currently visiting in Cooke County 4-H homes.

Miss Carmen Dominiquis and Miss Betsy Gaviria arrived last week and four families, the Paul Endreses of Muenster, the Nick Blocks of Lindsay, the Jay Pybases of Sivils Bend and the David R. Smiths of Downard - Fairplains are sharing host duties.

Carmen is visiting the Paul Endres family now, will also visit the Blocks and Pybases, two weeks at each place. Betsy is a house guest of the Smiths for two weeks and will go to Denton county to visit 4-H families there.

The girls sang and danced and told about their country and life in Peru and their experiences thus far since leaving their homeland.

The CAJP, a division of the International Youth Exchange, sponsors the 4-H youths in an effort to expand World Understanding between nations, to make it possible for a youth of one country to visit the home of a fellow 4-H member in another part of the world to be treated as a member of the family, sharing and receiving ideas.

Carmen is secretary of Peru's CAJP chapter and works for the Department of Agriculture. She was born in the city of Piura, a farming-petroleum area of northwest Peru. She and her family now live in the capital, Lima, the largest city in the country. Her father is in the Peruvian military, a sister teaches in an English school there, and a brother is a mechanical engineer on a ship presently off the coast of Washington. Carmen enjoys outdoor activities and looks

forward to vacations with her grandparents who still maintain a farm in Piura.

Betsy lives in the tropical forest near the Amazon River. She enjoys outdoor activities especially horseback riding and fishing. Fish caught in the Amazon are one of the main sources of food for people in her area. She is talented in folk dances and native songs of Peru.

The girls also told about having quite an adventure thus far visiting Ecuador and Mexico City during flight layovers before arriving in the United States at the Houston airport. Kenneth Denmark, State 4-H Club leader, met them and drove them to A&M University where they toured the campus and had a day-long session which included tutoring in English.

Bernice Thurman and Dona Brewster, Cooke County Extension workers met them in Lewisville and brought them to Gainesville where they visited the county extension office before going to their host families' homes.

Carmen and Betsy are charming representatives of their homeland. They are eager to meet county 4-H members and engage in "Learn and Share" sessions with them.

What is a successful livestock man? Is it the man who has the most cows? Or, could it be a man with fewer cows, but makes the most money? A familiar sound these days is to cut expenses. The successful livestock man must also continue to look for ways to reduce expenses. This time of year, tons of expensive hay is being fed to livestock. This is necessary, unless the livestock man made some plans last summer. Plans such as deferring or setting aside some grass during the summer to be used as hay during the winter. By feeding some protein, the livestock will harvest their own hay in the pasture. This will reduce an expensive hay bill.

Cecil Chaney, Soil Conservation Service technician states that Little and Big Bluestem, Indian, Swish and Side Oats Grama grasses are good grasses to leave for winter forage. These grasses cure

out better and do not mat down during the winter months. But plans must be made during the growing season to set aside or defer grazing to let the grass grow.

"Another good grass for winter use is Ermelo Lovegrass. This grass not only cures out good for winter but it will green up about 15 to 20 days earlier in the spring than Bermuda grass. This time of the year green forage is usually needed," the SCS technician said.

The Upper Elm-Red Soil and Water Conservation District supervisors believe that the successful livestock man will have a balanced forage production. The SCS technicians will be glad to assist district co-operators in analyzing their available forage and needed forage by months to take care of the livestock on the farm." If more grass is needed, now is the time to make plans for establishment."

Why doesn't a spider get caught in its own web?

The spider never gets caught in its own web for two reasons. The chief one is that a spider runs along its web on the dry silk threads. It avoids the sticky, insect-catching ones. Also, a spider's body is oily, and the oil helps to keep the spider from sticking.

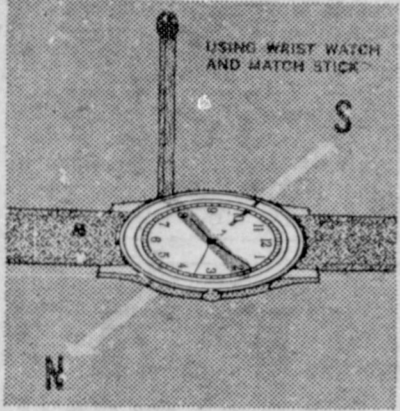

If you had artificial wings could you fly like a bird?

Man is specialized for life on the ground. In order to fly with artificial wings a man would have to be built somewhat like a turkey! Birds' entire bodies are specialized for flight. They have extremely large and powerful breast muscles to move their wings, and a keel-like projecting breastbone to give these powerful muscles a firm attachment. Birds are also light in relation to their size; much of their bulk consists of feathers. Hollow bones further cut down total body weight.

extremely light. It would take 1,000,000,000,000,000,000 (a billion billion) uranium atoms to weigh an ounce!

Can a watch tell you more than just the time of day?

Your watch can also be a direction guide, you can find North by using your wrist watch. Place your watch face up on the ground.

Place a short stick (a matchstick will do) upright at the edge of the watch. Turn the watch carefully until the hour hand and the shadow of the stick coincide. Halfway between the shadow and 12 o'clock will be South for people in the Northern Hemisphere. North will be opposite South. If you live in the Southern Hemisphere, halfway between the shadow and 12 o'clock will be North.

How big is an atom?

Atoms are so small that they cannot be seen even under the most powerful microscopes. An atom is smaller than anything you can imagine. Even a speck of dust is gigantic when compared to an atom. About 25,000,000 atoms placed side by side would stretch only across the head of a pin. Compared to anything in the everyday world, an atom is also

Tax Man Sam Sez:

If you are in business for yourself, or you are fortunate enough to earn sufficient income so as to require an estimated income tax return each year, you will be getting an additional tax form package from Internal Revenue within the next few days. The Internal Revenue Service Centers have gone through all the taxpayer accounts on the computer tape and are sending out a set of controlled vouchers to all the individual income taxpayers who must file an estimate. You will use these numbered vouchers to file your estimate and make your quarterly payments.

In the past, you waited for your bill from Internal Revenue and sometimes the taxpayer and the computer crossed in the mail or just plain got crossed — anyway the good tax folks hope that this will help you send your estimated tax payments through on time without any mix-ups.

MHS Teams Split Pair with Era, Lose Two to Forestburg

MHS basketball teams resumed their losing streak in the past week of action, dropping three out of four in their win encounters with Era and Forestburg. They divided with Era and lost both to Forestburg.

St. Anne Society Will Redecorate St. Peter Rectory

Members of Lindsay St. Anne's Society at their January meeting made plans to redecorate St. Peter Parish Rectory — paint up, fix up and replace carpets — in preparation for the silver sacerdotal anniversary of the pastor, Father John Walbe. He will observe his twenty-fifth anniversary as a priest in May.

Committee in charge of the rectory redecorating program consists of Mmes. Ben Hermes, Frank Haverkamp Sr., Bruno Zimmerer and Joe Paul Fuhrmann.

In other business conducted by Mrs. Joe Paul Fuhrmann, president, Mrs. Nick Block was re-elected for a two year term as vice president. Other officers continuing in office for another year with Mrs. Fuhrmann are Mrs. Frank Haverkamp Sr., secretary and Mrs. Charles Stoffels treasurer.

Mrs. Fuhrmann read a letter from the Korean orphanage concerning the orphan the society has adopted. A Korean calendar was included and was on display.

A report on the clothing drive for the Holy Father's store rooms revealed that society members packed and shipped 1550 pounds of clothes, shoes and bedding in the campaign.

Refreshment hostesses Mrs. Wally Luttmner and Mrs. Alvin Loerwald served coffee and cookies after adjournment and Mrs. Ben Hermes won the door prize. The meeting started with the recitation of the rosary.

last Friday were both dandies. MHS girls were behind 8-5 at the first quarter and gained to a 19-12 half time count. Then the visitors gained, trailing 25-21 at the third quarter and leading 33-31 at the end. Tension was terrific in the final seconds as MHS shot — and missed — a final effort to tie the count. Scorers for Muenster were Debbie Cain 19, Debbie Yosten 7, Joan Monday 5.

Next game MHS led by counts of 12-7, 31-15 and 43-26 in the first three quarters, then Era put on a rally that closed the gap to 5 points with two minutes to go. However, a final spurge gave Muenster a 57-46 final lead. Point makers were John Monday 24, John Felderhoff 11, Tommy Henscheid 8, Mike Hennigan 6, Dale Cash and Mike Cason 4 each.

At Forestburg the hosting girls gained in every quarter but the second, in which both teams scored only 2. Scores ending the periods were 12-7, 14-9, 25-13 and 39-25, and MHS scorers were Debbie Yosten and Joan Monday 8 each, Debbie Cain 7 and Kathy Swirczynski 2.

The Hornets' chances of a win at Forestburg were blasted when three of them fouled out of the game. John Monday, normally the team's top performer, went out before the second minute of the second quarter and Mike Hennigan went out a short time later. John Felderhoff fouled out in the third period. Nevertheless the Hornets almost broke even in the last three quarters. Scores by periods were 16-11, 37-29, 50-42 and 67-60.

Dale Cash hit 17 and Mike Cason 15 to lead the MHS effort. Other scorers were John Monday 9, Gerry Cash 6, Tom Henscheid and John Felderhoff 5 each, Mike Hennigan 2, Bobby Bruns 1.

Muenster teams will end their district schedule at Valley View Friday night and the final district activity will be tournaments at Gainesville starting February 13 and 20. Until then Muenster teams have three practice games: Nocona B here on Feb. 3, Chico there on Feb. 4 and Saint Jo here on Feb. 11.

Three of the games were played here last Saturday with teams of Immaculate Conception of Grand Prairie. Junior high girls were winners, junior high boys and the Tigerettes were losers.

A good second half after following 10-4 at intermission, did it for the junior girls. Ending the third they were behind 12-11. Next quarter they hit 5 while their visitors went scoreless. Scorers were Darlene Wolf 8, Nancy Furmann 6, Susan Endres 2.

Junior high boys were a close second for three quarters — by counts of 5-4, 14-12 and 20-19. Then the visitors got hot and gained to the 31-25 final score. Gary Endres and

The week's second win was at Gainesville State School Tuesday night. The final tally was 20-9. Margaret Kralicke made 11, Donna Endres 4, Peg Sicking 3, Donna Rohmer 2.

Tiger A and B teams ran into a pair of sizzling hot outfits at St. Peter's in Dallas. In the opener Tiger reserves were clobbered 72-38. In the main event it was worse with Sacred Heart going down 115-55.

Leading the Tiger effort in the B game were Andy Truebenbach 14 and Ronnie Hess 6. Next game Lee Roy Hess hit 31, Melvin Schilling 11, Tim Endres 8 and Ken Schmitt 5.

On Sacred Heart's schedule next week are boys and girls games here with Denton State School Friday and boys and girls at Slidell Tuesday night.

Clifford Sicking has joined the clerking staff at Hofbauer's helping after school and on Saturdays.

Muenster Juniors Win Two Games

Junior teams of Muenster Public School took both ends of their double header basketball contest with Rad Ware Monday night.

Glenn Richardson's girls won 30-18 in the first game and his boys won 29-25 in the second.

Muenster girls gained gradually for leads of 8-6 and 20-11 the first two periods. Both teams were cold in the third, which ended 22-14, and Muenster gained again in the last period for the 30-18 count. Scorers were Doris Felderhoff 13, Joyce Swirczynski 8, Janet Swirczynski 4.

Richardson's boys trailed 5-4 and 11-8 the first two quarters and tied at 14 ending the third. In the fourth they were behind 5 points with two

minutes to go then hit a hot streak and won 29-25. James Endres was high with 17 points. Curtis Klement made 6, Hank Trachta 4 and Lonnie Hellman 2.

district assess its own local taxes to raise the balance of funds needed for its operation.

Justice in this matter seeks a method which gives equal help to rural and city children. While such an adjustment would require rural districts to pay more than now, it would at least avoid the opposite extreme whereby urban districts would get an unfair share of state support. It avoids the absurdity of adopting one injustice to correct another.

An old Chinese proverb: If thine enemy wrong thee, buy each of his children a drum.
