## Mrs. Pat Stelzer Withdraws from Hospital Ballot

The election for directors of the Muenster Hospital District will be routine after all. A contest which was indicated by five candidates for four positions ended Monday when Mrs. Pat Stelzer asked Secretary Rufus Henscheid to have her name taken off the ballot.

Her reason for withdrawing, she said, is a realization that she should not serve the hospital both as nurse and director. Choosing between the two she decided that she can be more useful to the hospital and the community by serving as a nurse.

Four unopposed candidates remain on the ballot. They are incumbents J. H. Bayer, Jimmy Jack Biffle, Paul Fetsch and Al Trubenbach.

## Field Day Presents Cutability Project

Briefing on a local beef cutability project was the principal feature of a field day held Tuesday morning at Tony's Feed Lot north of town. About 200 beef producers of the area attended the event, which was sponsored jointly by County Agent Neil Tibbets, Tony's Seed and Feed, and Texas Power and Light Company.

The project consists of feeding sixty steers to choice grade and arranging for cutability grading by a federal inspector on each carcass at slaughtering time. Cutability refers to the amounts of edible red meat and fat produced and these tests will indicate which animals did the better job in that respect. That information then can be used as a guide in a breeding program to produce better quality carcasses.

As explained at the meeting, the actual weight of edible meat varies widely because of cutability. In two steers weighing

## Area Gets Second March Snowfall

The groundhog was right. His prediction on February 2 was followed by six weeks of very wintery weather which ended Tuesday with ideal Spring weather, just a few days before the season's official arrival.

Included in the past week's siege was this month's second snowfall and the heaviest of the winter. It accounted for almost all of the day's moisture measure of .65. Total was probably near six inches, however it melted fast and the highest accumulations at one time was about 3 inches.

Moisture for the week was 1.77. The month's total is 2.45 and the year's total is 7.57 inches.

## Domino Tourney To Start Monday

Muenster Knights of Columbus are all set for the Cooke County Domino Tournament which they will sponsor in the K of C hall beginning next Monday at 7:30.

It will be a double elimination tournament, according to Willie Walterscheid, chairman. A team is not eliminated until it has lost its second match. And trophies will be presented at the end to first and second place winners.

Walterscheid also pointed out that the game is dominoes only... not 42. Time limit is one hour for a match of two games out of three. Teams may be men or ladies or mixed. Entry fee is \$1.00 per person.

Duration of the tournament is unknown at this time, however it is expected to extend into the second night and possibly longer. Number of entries will determine that and the number of starting teams is expected to be about 50.

Lyle Klement, Muenster 4-H Clubber, showed the grand champion winner in Saturday's Cooke County 4-H Livestock Show in the swine division.

## Big Test Awaits Hornets Saturday In Saint Jo Meet

After missing two weekend track meets because of severe weather, Glenn Richardson and his Muenster High Hornets are looking forward to the team's first big event of '69 at Saint Jo Saturday.

It will be the annual Red River Relays, which has become known as one of the outstanding Class B meets of North Texas. Thirty seven teams were there last year. Forty or more are expected Saturday. Favorites of the meet are Celina, which romped away with honors at Iowa Park three weeks ago, and Lokett, which has won several Saint Jo meets in the past.

The two previous meets missed by the Hornets because of bad weather were at Holliday last Saturday and a practice meet at Saint Jo the week before.

Up to now the only action for the Hornets was a dual meet with the Panthers last week at Saint Jo. It was a keenly contested affair in which Muenster edged the hosts 225-219. The Hornets took first place in eight events, the Panthers in six. Meanwhile Clifford Sicking and Bobby Young had a hot contest for individual honors, and Young was the winner by a count of 39-36.

First and second place winners in each event were as follows:

440 relay: Saint Jo, Muenster.  
880 yard run: Klement, M., Lutkenhaus, M.

## Monday Is Date For Project Show Of Ag Students

Boys of the Muenster chapter of Future Farmers of America will have some fifty to sixty animals on display at their annual project show next Monday.

The event, to be held in the FFA pens on the Muenster High campus, will begin about 11 o'clock as the boys bring their entries and start grooming. Judging will begin at 1 o'clock.

The judge will be Lloyd Smith, vocational ag instructor at Valley View High School. He will judge on the basis of merit rather than competitively. Each entry will receive a ribbon... blue, red or white.

About fifteen of the project animals will go to the annual Cooke County Fat Stock Show next week Friday and Saturday. Dairy and breeding stock are not included in that show. It is intended only for the animals which were raised for slaughter, and most of those animals will be sold at auction to meat processors Saturday.

## City Water Tank And Tower Given Repairs, Paint Job

A repair and re-paint job is nearing completion on the city water tower and tank. Inspection last week revealed a number of pits in the tank also seepage at the joint of standpipe and tank, after which a special meeting of the city council approved immediate repairs and new paint.

The job included removing paint inside of the tank, filling pits with welding metal and welding the leaky seam joining tank and standpipe.

Last stage is a new paint job inside and outside the tank and on the supporting tower. And there will be less lettering. The name MUENSTER will be at the south side, and that's all. HORNETS and TIGERS which have been on the east and west sides since the previous painting in '62, are omitted this time.

## THE FACE OF COMMUNISM

For nearly four hours, East and West German border guards stood by and watched a teenage youth bleed to death in a strip of no-man's land pocked with mines. His legs had been blown off in an attempt to escape from Communism.

This news dispatch appeared in newspapers in November. It was sent from Coburg, West Germany. It stirred no particular comment that we saw. It certainly brought no demonstrations, no marches, no bitter denunciation of the Communists, such as we have come to expect against the United States. In this con-

nection, we think of the "student" marches on the U.S. Embassy in Paris and London, in Moscow and other cities, and the pickets at the White House when U.S. troops used tear gas, instead of grenades, to dislodge some Viet Cong in Vietnam a year or so ago.

Where were the "bleeding hearts" while a boy lay on the ground back of the Berlin Wall, and suffered the agony of both legs blown off by a Communist land mine? Where were the marchers, the self-righteous critics who are quick to denounce America, and the Americans who are quick to denounce their own country.

Perhaps it was because it was only one boy so mangled. Was it because it was only one incident?

But, it has happened before. And there have been no vast demonstrations in front of the Soviet embassies, no loud howling protests from the liberals.

A West German border policeman heard the explosions of two mines, and the cries of the stricken boy. "Help! you East Germans! Get me out of here! I've done nothing wrong ... I'm just 16 years old ... I don't want to die!"

But, no one moved. The West German guard said he saw a group of Communists standing watching the boy lying bleeding to death in the mine field. He said he had orders not to violate the border. Besides, the boy could not be reached unless the other mines were blown up, and only the East Germans knew where they were.

"By 7 p.m." according to the news report, "the screams had ceased. Then the East Germans set up floodlights and trained them on the motionless body. About 8 p.m., the East Germans broke open the fence and blew up seven mines in an apparent effort to retrieve the boy."

Those who would compromise with a government, with people and an ideology who would build a wall to keep their people in, who would surround it with mines, armed guards, barbed wire, and who would stand by impassively and watch a boy with his legs blown off bleed to death — those who would compromise with all of this under any excuse, in Paris, in Vietnam, in Washington, would have to possess a very special set of values, and a very special conception of right and wrong.

The Berlin Wall is the front window of Communism's show case. We have had a peek at what is beyond, in Czechoslovakia, in North Korea, in North Vietnam and certainly in East Germany.

Some very well intentioned people contend we can compromise with Communism. Most of these people would deny angrily that they would advocate compromise with evil.

But, it is difficult to argue away the picture of Communist guards standing and watching a 16-year-old boy screaming and dying in agony without a move to help him.

This is the face of Communism.

There are too many in this country and the world who will not look at it. To do so means trouble. It is safer — much safer — to criticize their own country — to criticize America.

This is part of the perspective we must regain.

## WHAT MR. NIXON SAID

A statement of opposition of "freedom of choice" school plans issued by Robert H. Finch, secretary of Health, Education and Welfare, is a repudiation of the stand taken by Richard Nixon in his presidential campaign.

Mr. Finch, in a tribute to Ralph McGill, publisher of the Atlanta Constitution, said: "I consider it neither legally nor morally defensible to 'turn back the clock' and the accept as public policy so-called 'freedom of choice' plans which do not bring about effective school desegregation."

Mr. Nixon, in an interview last September on Station WBT in Charlotte, said he favored freedom of choice plans.

"I wouldn't want to see a federal agency punish a local community," he added.

In a television speech beamed at the Carolinas during the election campaign, Mr. Nixon said he believed the Supreme Court school decision was correct.

"But on the other hand," he added, "while that decision dealt with segregation and dealt with segregation and said we would not have segregation, when you go beyond that and say that it is the responsibility of the federal government and the federal courts to, in effect, act as local districts in determining how we can carry that out, and then to use the power of the federal treasury to withhold funds or give funds in order to carry it out, then I think we are going too far."

It is proper to remind Mr. Finch and the administration of Candidate Nixon's words last September. Mr. Nixon's commitment to freedom of choice school plans was one of the reasons why many Americans voted for him instead of Hubert Humphrey or George C. Wallace. He pledged in effect, to relax the iron control that the Johnson administration exercised over local schools.

To fulfill his promise, President Nixon has an obligation to bring Mr. Finch into line with the stated Nixon philosophy in local schools.

## NO POVERTY

Although poverty may be widespread in the United States, as many critics contend, it hasn't struck government yet. According to the Tax Foundation, Inc., federal, state and local governments will collect an equivalent of \$3,927 from each American family in 1969.

It's significant to note that this average cost is approximately \$600 more than the Federal Government says is necessary to move a family of four above the poverty level.

## 20 BILLION DOLLARS WORTH OF FEDERAL CONFUSION

Everyone knows that duplication of effort is wasteful. But listen:

20 federal agencies and departments handle 470 educational subsidy programs.

112 poverty aid programs are handled (or confused!) by 11 separate agencies.

69 vocational programs operated by 8 different federal agencies are supposed to be training manpower.

43 separate programs for children are administered by 5 different agencies.

56 various water programs are "managed" by 7 unrelated federal agencies.

It (and more of the same) adds up to 1091 federal-assistance programs costing you more than 20 billion dollars a year! And yet Washington says all its spending is necessary; it cannot possibly balance the budget!

Give some people an inch, they want another inch and before you know it they have become rulers.

## DISCIPLINED RABBLE

On March 10, Vice Admiral John V. Smith, the senior member of the negotiating team at Panmunjom when the USS Pueblo was captured, told the Navy's board of inquiry that the North Koreans were, "Mongolian savages ... disciplined rabble ... and one step above animals."

Admiral Smith is a veteran of 35 years in the US Navy. He is perhaps, more mindful than most that the Navy mascot is a goat. It is possible to speculate that he doesn't appreciate the "goat" symbolism in this affair. He termed his six months of what was called negotiating with the enemy "a most unpleasant experience." "It eventually," he said, "turns one's stomach."

A few days earlier, another top-ranking military man spoke to the Rotary Club in Taipei, seat of the Republic of China. Major General Richard G. Ciccolella is the chief of the US Military Assistance Advisory Group.

General Ciccolella made it clear very quickly that he was speaking only for himself, which is the kind of disclaimer that the Reuther Memorandum and the pressures of the Senate Foreign Relations Committee make incumbent upon our military leaders these days. Nonetheless, General Ciccolella left no blank spaces as to where he stood:

"Although we have defeated the military campaign of the enemy in Vietnam, our military commanders cannot deliver the type of military victory our people have so long been accustomed to. This is due in large part to the limitations we have placed on the level of power permitted, the fact that US commanders are not permitted to pursue the enemy to effect his total destruction, the sanctuaries we permit the enemy to operate from and the very nature of the guerilla campaign."

And then he pointed to the one glimmer of hope in the Paris end of the war: "We can win in Paris," he said, "and we can get concessions from the Communists so as to arrive at a just and honorable peace only if we apply the full range of pressures available to the free world — political,

economic and military." Perhaps General Ciccolella and Vice Admiral Smith should be dispatched to Paris to sit with Ambassador Lodge at that famous table of disputed design. We doubt that either of these gentlemen would be awed by the enemy's "disciplined rabble," and, moreover, some American combat soldiers might be spared. The painful pattern of the Korean War is reappearing. While the talk-talk continues, too many American men are dying.

Sister Maureen will direct the musical roles and Brother Thomas Moster will be in charge of dramatics.

Some of the musical numbers are Camelot, How to Handle a Woman, If I would Leave You, and the Simple Joys of Maidenhood.

**WHY THE DIFFERENCE?**  
 Students have been in the forefront of demonstrations in both the United States and Czechoslovakia. It is significant that the Czech students are working against the Communists while the primary American student demonstrations have favored Communists.  
 Why the difference? Perhaps it's because the Czechs have lived under the Reds and the American demonstrators have not.

**Where will your fertilizer be ... come summer?**

Will it be where the plants need it most?  
 Probably not, if you apply conventional fertilizer this spring. Come summer, the critical supply may be left "high and dry."  
 During the heat of summer, roots are most active down in the deeper zones where the moisture supply is more abundant. Trouble is, that may not be where the food is.  
 Phosphate, for example, loses much of its effectiveness by becoming locked up through fixation in the soil.  
 But UNIPELS contain two forms of phosphorus (as well as potash and two forms of nitrogen) for continuous plant feeding throughout the growing season.  
 A unique "phospho-nitric" process makes the phosphate in UNIPELS 100% available, yet makes it resist fixation regardless of how it is applied!  
 Come summer, the phosphorus and other nutrients in UNIPELS are down in the rich moisture zone actually stimulating root growth and proliferation for greater nutrient intake.  
 Make sure your fertilizer is where the plants need it most this summer — plowdown UNIPELS this spring. Visit us soon.

### St. Patrick's Day Party by Pupils Honors Teachers

A St. Patrick's Day party Monday afternoon given by second graders of Sacred Heart School honored their teachers Sister Alberta as a welcome back courtesy and Mrs. Nan Richeson as a farewell tribute. It was a surprise for both.

Sister Alberta had just re-

turned from a six-week course in speech and dyslexia in Dallas and Mrs. Richeson of Gainesville who was substitute teacher was ending her stay.

Mrs. Mel Stephens, religion teacher for the second grade during Sister Alberta's absence, planned the event assisted by roommothers who provided green punch and other refreshments which students served.

### Billy Bayer Wins On Mixer Design

Billy Bayer, sophomore at Sacred Heart High School, has won a ten dollar prize from Progressive Farmer Magazine on a plan for a feed mixer he designed and submitted.

The mixer is made of a 55-gallon drum, one end removed, a plow disc at the bottom with an auger running from the bottom to the top. A two and a half horsepower motor is used to supply the power for the mixer.

Billy is the son of Mr. and Mrs. Martin Bayer and a member of SH 4-H club. He plans to build the feed mixer as a 4-H project.

### Fuhrmans, Millers Attend Telephone Meeting in Houston

Muenster Telephone Corporation was represented at the 1969 Texas-Oklahoma Telephone Convention in Houston the past week by owners Alvin Fuhrman and Billy Joe Miller and their wives.

Convention headquarters was the Rice Hotel and while the men tended to business their wives were entertained one of the highlights was a brunch featuring foreign foods with waitresses dressed in native costumes of the various countries.

Mr. and Mrs. Fuhrman also attended the Pioneer Luncheon and everybody was at the banquet and dance. Texas Governor Preston Smith was banquet speaker.

Former Muenster residents Mr. and Mrs. Jake Horn of Windthorst were among those attending.

Also of interest were displays of telephone equipment.

Mrs. H. J. Fuhrman accompanied her son and daughter-in-law to Houston and spent the time with her son and family the Jerry Fuhrmans.

A farmer who was extremely practical visited his son at college and was invited to attend a chemistry class. In one corner of the laboratory he saw several students working diligently and after asking the professor what they were doing he was told they were looking for a universal solvent.

"And what's that?" asked the farmer.

"That's a liquid that will dissolve anything," said the professor.

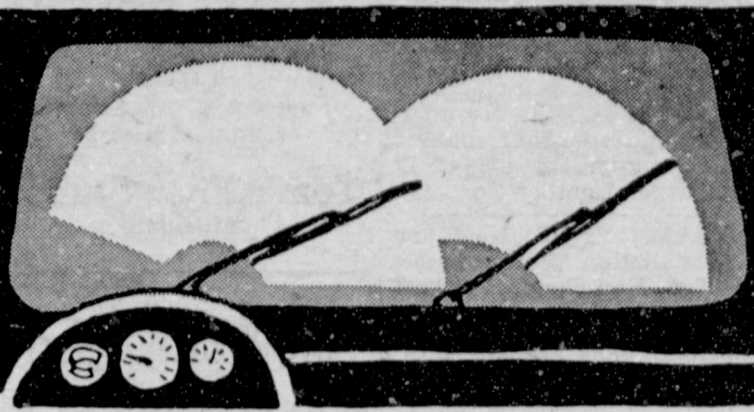

"It's a great idea," agreed the farmer, "but when you find it, what are you going to keep it in?"

Thanks to the inspiration of such organizations as Future Farmers of America and 4-H Clubs, this young man and thousands of other American girls and boys are realizing the thrill of being "businessmen" — operating their own businesses and earning profits for their ingenuity, investment and hard work. As young people explore their potential in the business future of our country, they also learn more about their unique American freedoms — freedom to succeed, freedom to invent new and better ways to do the job, freedom to be self-supporting individuals.

**Flowers of Texas Pictured in Lavish New Color Folder**

AUSTIN — "Flowers of Texas" — a spectacle of bloom and blossom — introduces some 60 species of Texas' most beautiful flowers, shrubs and trees in all seasons.

The Texas Highway Department, which released the lavish new color folder today, expects it to be one of the most popular items among the family of recreational and travel literature produced by the Department.

The new folder was designed for two purposes — to erase any notion held by out-of-State residents that Texas is an arid, barren wasteland — and to enhance the pleasure of both Texans and visitors by identifying some of the State's most common and colorful plants.

Far from being a wasteland, the folder points out that Texas leads the nation with an abundance of blossoming plants — more than 5,000 species of wild flowers alone. Closeup color photographs illustrate tropical plants of the Lower Rio Grande Valley, wild orchids from the Big

Thicket, bright plains flowers, and vivid blooms of thorny cacti.

Flower fanciers and garden clubs have frequently asked that such a publication be added to the family of travel literature produced by the Texas Highway Department. In response to that demand the new folder lists 56 species by common and botanical names, including facts about blooming season and where they are usually found. Other species are illustrated in landscape views.

Free copies of the new "Flowers of Texas" folders may be obtained at all Highway Department offices and Tourist Bureaus. They are available upon request, and in limited quantities to garden clubs and similar organizations.

Requests by mail should be directed to the Texas Highway Department, Travel and Information Division, P. O. Box 5064, Austin, Texas 78703.

**3.2 Million Cars in Texas Do Not Have Inspection**

Austin — Colonel Wilson E. Speir, director of the Texas Department of Public Safety, today reminded motorists that only one month remains before the 1969 motor vehicle inspection deadline.

To date, an estimated 2.8 million vehicles have received the inspection required by state law. The Department of Public Safety said some 3.2 million additional vehicles remain to be inspected prior to midnight, April 15.

Speir said 42.2 per cent of the vehicles inspected so far required mechanical adjustments prior to issuance of an inspection sticker. The defect most often has been misalignment of headlights.

The Department of Public Safety urged motorists to get the inspection soon to avoid long lines which develop at inspection stations as the April 15 deadline approaches.

Texas has 5,466 licensed inspection stations. The required inspection fee is \$1.75.

## Lindsay News

Classes at Lindsay school dismissed Tuesday for the remainder of this week due to absenteeism on account of illness. A performance by Puff the Clown scheduled for Thursday was postponed. A new date for the show will be announced.

Vacation time came early for Mr. and Mrs. Gene Pelzel this year as they joined Mr. and Mrs. Doug Reiter of Gainesville for the horse races in Hot Springs, Ark., Friday through Sunday. Michelle and Matt Pelzel stayed with their aunt and family the Nick Dieters while their parents were away.

Mr. and Mrs. Irby Macready were godparents Sunday at the baptism of their new nephew, Joseph Patrick (Joey) Hubik, son of Mr. and Mrs. Wesley Hubik of Mesquite. The christening was held in St. Pius X Church in Dallas. On their return home they were accompanied by Mrs. William J. Schmitz who had visited her daughter and family getting acquainted with the new grandchild since Thursday.

Mrs. Martin Friske has been dismissed from Gainesville Hospital where she was a surgical patient.

Lindsay CCD Discussion Club group met Sunday night in the homes of Messrs. and Mmes. Lawrence Zimmerer, Harold Nortman, Richard Hermes, Joe Paul Fuhrmann and Frank Haverkamp Sr. The next meeting will conclude the current series of discussions.

Lindsay-Gainesville Knights of Columbus will have corporate Communion Sunday at the 9 a.m. Mass in St. Peter's Church and will have breakfast afterward.

Illness among students of Lindsay School cancelled a student program that had been planned for last Thursday night and there were no classes on Friday. A new date for the program will be announced.

Word was received here Tuesday of the death that morning of Mrs. John Reinart of Manning, Iowa. She was 83. Relatives include a sister-in-law Mrs. Joe Neu Sr. and nieces and nephews of the Reinart and Neu families.

### Provincial Meets With Third Order Group at Lindsay

Members of the Third Order of St. Francis, St. Peter Parish, had Father Elias Koppert, provincial from Chicago, with them Saturday for their annual visitation.

The group met for a noon luncheon in the home of Mrs. Paul Arendt Sr. and Father Elias conducted his conference afterward.

Others present were Mrs. Joe Prescher, Mr. and Mrs. Tony Hermes, Mr. and Mrs. Ben Hermes, Mrs. Adolph Fuhrmann, Mrs. H. S. Fuhrmann and Father John Walbe.

### Student Council At Lindsay Plans Coming Activity

Lindsay High Student Council members, meeting Wednesday, made plans to enrich the treasury and to campaign for offices in the coming election. Hank Arendt, president, presided.

It was announced that Puff, the magic clown, will give a program Thursday this week, sponsored by Gainesville Jaycees, and the 25 cent admission will go into a scholarship fund for some Lindsay student.

Steve Zimmerer was elected official parking attendant at school for the remainder of the term and was reminded to give tickets for improper parking. This fee also will benefit the treasury.

It was also announced that Color Day will be May 1, and that freshman students will be in charge of clean-up on the school grounds.

Plans for a pre-election campaign gained momentum and official campaigning will start next Monday. Wednesday will be speech-making day and Thursday will be election day.

According to the Arizona Farm Bureau, crop production per acre has increased 124 per cent since 1950 despite 50 million less cropland acres in production. Crop Production Per Man Hour has increased 148 per cent, and Livestock Production Per Man Hour is up 149 per cent. Food is a good buy in America because of the productive ability of our American farmers and ranchers.
