VOLUME XXXIII

MUENSTER, COOKE COUNTY, TEXAS 76252 JULY 25, 1969

NUMBER 35

The greatest show in the history of civilization was performed before the greatest crowd during the past week-end as Astronauts Armstrong and Aldrin completed their epic journey to the moon. It was a marvelous achievement which, even in this age of scientific sophistication, can be regarded as only a little less than a miracle.

For us Americans there is added satisfaction in the fact that this great performance was put on by our country. We are proud to think that American scientists worked out the intricate procedures that made every stage of the mission work to perfection, and we were pleased by many statements from abroad giving richly deserved praise to the featured performers and their back stage supporters.

The comment seemed to reveal that U.S. rates higher than the average foreigner than propagandists would have us believe. Many of the people implied that they expected us to beat the Soviets and hoped all along that we would.

At the same time there is some disappointment in knowing that the show was not broadcast in Russia, China, North Korea or North Vietnam. Consistent with red custom, those people were not permitted to learn the truth. They were not given an opportunity to doubt the superiority of communism or to overcome some of the contempt they are taught to hold toward us. We can't help thinking that world relations would have been slightly improved if red masses could have seen what we saw.

Another disappointment was the criticism of some Americans who say that the money was wasted, whereas it should have been given to the poor. The obvious fact in most of those cases is that the speakers were the professional "poor people" who want to get their lazy hands on more handouts. They like being supported by welfare funds rather than by their own earnings. They represent a program which gives priority to national pride rather than their selfish demands.

Hearing those critical statements one is inclined to think that the billions we now spend on relief is more than enough. The only fault is that too much of it is taken by underserving characters. Congressman Purcell had the right idea in saying a few weeks ago that we do plenty to relieve poverty and hunger, but too much is going to the moochers.

So, to put it bluntly, our poor are not deprived by the space program but by those who take funds which are intended for the poor. Lots more poverty would be relieved if undeserving people had the honesty and pride to get off the rolls, or if politicians had the gumption to kick them off.

Getting back to the Apollo mission, we can go on and on marveling at the precise perfection which made it possible. As one commentator remarked, the lunar age is here only because of our great progress in the computer age. Our sharpest mathematicians working with pencil and paper could never figure out the thousands of intricate instructions needed to carry out the thousands of operations. Such as the exact number of minutes for each stage of burn to put a vehicle in earth-orbit... then break away for flight to the moon... and entry into the moon orbit... and separation of rockets... and the exact retro blast in minutes and seconds for LM's soft landing on the moon.

The same precise computation applies to lunar blast off, rendezvous with the command module, and the long flight back to earth finally ending in splash-down at the exact time and place determined several days before.

All this is getting to be old stuff in space flight. It has been done so often that we are beginning to take it for granted. Nevertheless each new flight is a brand new adventure in perfection.

Armstrong, Aldrin and Collins, like the astronauts of previous flights, are rightfully praised for their bravery. Their risk is enormous. But their bravery obviously is no greater than their confidence in the computer operators who plan the flight, and in the master technicians who make the equipment.

## Lynn Joe Klement Gets State FFA Top Award, Lone Star Farmer Degree

The Lone Star Farmer Degree, highest award at the state level of Future Farmers of America, was received last week by Lynn Joe Klement at the state FFA convention in Fort Worth.

He was one of two Cooke County members to receive the degree. The other was Isaac Stevens Jr. of Era. Steve Montgomery of Forestburg also received the degree, and three boys of Bowie, two of Nocona and two of Sanger.

The Lone Star Farmer degree is awarded for outstanding work both in and out of the FFA chapter. Lynn Joe qualified with a long record of successful projects in agriculture, election to the chapter's vice presidency and selection for last year's MHS award to the outstanding agriculture student.

In addition he has been an honor student for three years of high school and received special awards this year as outstanding student in science and social studies and made the highest grade at MHS in a national math test. He is a son of Mr. and Mrs. Ray Klement, will be a senior next year.

Others at the convention with him were Edgar Dyer, chapter adviser, and Leon Klement, son of the Edgar Klements, as the chapter's voting delegate.

Forestburg members attending were Freddie Williams, Gary Brewer, Harold Huddleston, Steve Montgomery, Terry Brewer and Gary Covington.

At the election of officers Murray Edwards of Clyde was named president and Peggy Wilborn of Anahuac was named state FFA sweetheart. Principal duty of Edwards as head of the FFA will be to visit member schools throughout the state. On an average the president visits about half of the chapters during his term.

The members chose San Antonio as their convention city next year.

Bill Becker is a patient at Muenster Hospital since Tuesday when he broke a hip in a fall. It happened on a sidewalk curb near the hospital when he was taking his wife for a check-up... after he got out of the car to help her out. Both had been hospitalized recently for broken ribs received in a car accident. Mr. Becker is awaiting surgery to pin the bone.

Andy O'Connor is back at home after three months of therapy at Gainesville's Golden Acres Rest Home. There's some improvement in his condition and therapy will continue at home.

Mrs. Lena Bernauer has been confined to her home, 708 N. Weaver in Gainesville, following dental surgery.

Mrs. Johnny (Vida Mae) Hacker was dismissed from Muenster Hospital Tuesday to continue convalescence at home following surgery.

Thursday: Admit — Mrs. David Huchton, Lindsay, Huchton baby girl born, Mrs. W. R. Rich, Saint Jo. Dismiss — Mrs. Anthony Kucera and baby girl, Gainesville, Mrs. Jerome Hennigan and baby girl, Fort Worth.

Saturday: Admit — Karen Westfall, Gainesville, Mrs. Carra Pagel, Dismiss — J. T. Bryant, Montague, Mrs. David Huchton and baby girl, Lindsay, Albert B. Knabe, Angela Laake.

Sunday: Admit — Lynn Bailey, Saint Jo, Mrs. Newell Dean, Nocona, Mrs. Gene Hoenig, Dismiss — Martha Glassley, Nocona (died).

## Jaycee Fish Fry Date Is Friday

All systems are Go with the Muenster Jaycees this week as they are getting set for their seventh annual fish fry. It will be in the city park Friday night starting at 7 o'clock.

Again it's a benefit event to raise funds for the organization's big current project, improving the park, for which the chapter received awards at last year's state and national conventions. Much of the work is finished, much of it remains to be done.

Fried fresh water catfish will head the menu and the trimmings will include fried onion rings, potato salad, red beans, cole slaw, hush puppies, iced tea and hot coffee. Bottled drinks will also be available.

The meal will be prepared and served by Jaycees and their wives under direction of Rokhmer's Catering Service. Tickets will sell at \$2.50 for adults and \$1.25 for children under 12. Dinner music and entertainment will be provided by Corky and the Del Rays.

Jaycees are extending an invitation to all of the community to come and have good food and a good time for a good cause. Good response will enable them to speed up their project producing the better looks and better facilities at an earlier date.

The members are trying again to continue their custom of making each fish fry better than the one before. Their effort includes invitations to other members and friends all over North Texas and arrangements for two special attendance prizes — one for the chapter with the most members here and one for the chapter traveling the most man-miles.

The project receiving the benefit from the fish fry got started a number of years ago when the Jaycees installed two asphalt tennis courts and backstops and made repairs and additions to park equipment. Then came the main stage for which the chapter received state and national awards. Underbrush and low limbs have been cleared from an area of about three acres and a deep ditch was filled in. Meanwhile the city cooperated by extending the park driveway and by furnishing sod and water and materials for park equipment.

Jaycees this year planted the cleared area to carpet grass, which is now established, built several concrete platforms for picnic tables, and have conducted a general fix-up, paint-up campaign on park facilities.

Jaycees Sponsor Meeting, Film on "Water for Texas"

A meeting and film favoring passage of the "Water for Texas" amendment in the special election on August 5 will be held next Tuesday night at 8:30 in the Muenster High Auditorium.

Purpose of the meeting is to explain the threatening water crisis in Texas and the solution proposed in the Texas Water Plan by the Governor's Committee of 500, also to answer questions concerning the giant multi-billion dollar project.

Muenster Jaycees have joined the state Jaycee organization in supporting the amendment and are sponsoring the meeting here next Tuesday night. Jerry Wimmer is chairman.

The program will be presented by Paul Painter of Everman, one of the six members of the Texas Jaycee Water for Texas Committee.

## Rifle Accident Fatal to Youth

Ernest Walterscheid, 16, son of Mrs. Alphons Walterscheid, died early Monday in a Wichita Falls hospital where he was taken Sunday afternoon after being wounded in the head by an accidental shot from a .22 caliber rifle.

Hospital officials said he died at 8:54 a.m. without regaining consciousness following brain surgery.

## Rain measures .75

The shower Sunday night measuring .75 inch was the first moisture of this month, according to Steve Moser's weather bureau records. It was most welcome but far short of local needs, hardly enough to warrant a pause in the community's prayers for rain.

Up to Sunday more than a month had passed since any significant rainfall. Three showers in mid June added to 2.11 inches and .16 fell later in the month. Total moisture for June was only 2.42 inches. The year's rainfall to date is 23.56 inches.

## Rifle Accident Fatal to Youth

The youth and several companions were swimming in a pond on the farm of his brother David. Ernest left the group to go to the car for the rifle. It discharged accidentally as he removed it from the auto.

His younger brother Giles, on hearing the shot went to investigate, found Ernest bleeding but conscious and summoned the youths who rushed him to Muenster Memorial Hospital where first aid was administered until an ambulance arrived to transfer him to Wichita Falls. The bullet entered near the left eye and came out on the top of his head.

Requiem Mass and funeral services were held Wednesday morning at 9 o'clock in Sacred Heart Church with Father Bede Mitchel officiating and Nick Miller Funeral Home in charge of arrangements. Burial was in Sacred Heart Cemetery.

Bearers were Ross Felderhoff, Alan Fisher, Tim Hennigan, Leon Klement, Earl Koelzer Jr. and Rickey Walterscheid.

Rosary was recited at the Miller Chapel at 4 p.m. Tuesday and a wake service was held there at 8:30 p.m.

Ernest was born in Muenster on Oct. 2, 1952, tenth of the 12 children of Mr. and Mrs. Alphons Walterscheid. He was a student at Muenster Public School.

Surviving are his mother; five brothers, Wilmer of College Station, David of Muenster, John of Lindsay, Leon and Giles of the home; six sisters, Mrs. Weldon Bezner, Mrs. Melvin Voth and Mrs. Bonny Prescher, all of Lindsay, Mrs. John Reiter and Mrs. James Voth, both of Muenster and Miss Nita Walterscheid of the home, and his grandmother, Mrs. John Schilling of Muenster.

## Representative of Lone Star Gas Co. Will Reside Here

A new Muenster resident is Albert Lippe, recently appointed representative for Lone Star Gas Company, succeeding A. J. Phillips, who has been transferred to Sherman.

Lippe is living at the A-OK Motel until he can move into a house and bring his wife and three children to town. Their present home is in Aomernath.

Like Phillips, Lippe is assigned to Muenster and Saint Jo. Phillips lived at Saint Jo.

The last things to do before heading off for your summer vacation should be to check your home. Be sure that light switches and water taps are off and be extra sure that all doors and windows are firmly secured.

## 305 Finish Swim Classes

Muenster's annual free swimming classes sponsored by the Cooke County Red Cross chapter was completed last Friday and Saturday by 305 pupils, over 95 per cent of the 319 who had originally enrolled. Vacations and illness were responsible for failure of the few to finish the course, according to Mrs. Nolan Baugh of Sivelis Bend, who kept records of each pupil's progress.

The record indicates that 192 received pins in the beginners division, 47 in advanced beginners, 34 in intermediates, 3 in swimmers and 18 in adult ladies. In addition eight finished the junior life saving class and three the senior life saving class.

The courses given here consisted of the standard Red Cross instruction under direction of Mrs. Robert Lewis, Misses Melissa Lewis and Mitzie Brannon and Ted Westmoreland, all of Gainesville, all having the Red Cross rating of water-safety instructor. On completing the classes the group hosted the kiddies to treats of cake and Kool-ade.

It was fun to work with them, Mrs. Lewis said. Children behaved very well and the assistant instructors worked patiently with them. Lots of progress was made.

for three periods each day through ten days. Some of them started each day by taking the junior or senior life saving classes. Their compensation for the service will be free passes to the swim pool. Twenty-one boys and girls were on the list.

The swim course consisted of ten days with three hours of instruction each. As children enrolled they were divided into two groups assigned to alternate days and each of the groups was divided into three periods. After those divisions there were about 50 pupils each period, an average of less than three for each instructor. The full course for each child consisted of five one-hour periods.

Marysville Church To Have Revival

Revival services will begin Sunday at Marysville Baptist Church and will continue through August 3. Services will be held each evening at 7:30.

Bro. D. A. Fox of Gainesville Bethel Landmark Baptist Church will be guest preacher. Dexter Dennis of Saint Jo will be in charge of the song service. The congregation extends a general welcome to everyone to attend.

## Firemen Answer 24 Calls During First Half Year

The firemen of Muenster started the year with a big rush, making ten calls in the first ten days, then settled down to an easy schedule and made only 14 more calls until the end of June.

Nature of their calls was about the same as usual. Grass fires make a long majority and the other fires are varied. During the past half year there were 18 grass fires, house fires at Mel Stephens' and Lee Livingston's, an oil rig fire at Jimmy Jack Biffle's, a combine fire at Alfred Sicking's, a burning car on the highway and a trash fire.

Both of the house fires fortunately were stopped early. Livingston's damage was very slight. Stephens had heavy damage to clothing but little building damage.

Service was almost evenly divided between town and country. There were 11 calls in the city and 13 outside.

In the present hot and dry weather firemen are aware that danger of fire is at its worst and spreading of grass fire is also worse than usual.

Accordingly they are asking for special cooperation from the people who call them. In most cases the most valuable help is guide service by someone who knows the area. The firemen can save precious time if they are directed to gates, ditch crossings, etc. They get such help on many of their calls and invariably are able to get to the fire more quickly. They want other people to know that they are helping themselves when they help firemen get on the job sooner.

The most effective highway safety sign is on the side of a police patrol car.

TEXAS GOVERNOR Preston Smith discusses accident prevention with state safety leaders as he proclaims July 20-26 Texas Farm and Ranch Safety Week. George Wm. Joe Smetana, right, Waco, President, Texas Farm and Ranch Safety Council and Vice President, Farm and Ranch Safety, TSA, shows the new SMV (Slow Moving Vehicle) emblem which will be required on all vehicles, designed to operate at a maximum speed of 25 miles an hour, beginning next January 1. In spite of a declining rural population, farm and ranch accidents increased in Texas by some 1,800.

## PROTESTORS' VICTORY

There has been a great deal of debate on whether or not the anti-war demonstrations are detrimental to national security. There is little doubt that the majority of U. S. citizens are in favor of maintaining a strong defense as a means of regaining the peace that all sensible men seek.

One question the adherents of war resistance movement might ponder is what the enemy in Vietnam is doing to exploit the antics of the radical protestors. The answer can be found in news releases from Hanoi that invariably follow the statements of a few of the less rational doves in our government and in the well-financed peace demonstrations. The North Vietnam communist leaders boast of this as being the will of the majority of Americans. They know that this is false, but the Vietnam people have no access to the truth and must accept the word of their rulers as gospel.

Another aspect of the radical dissenters' actions is not quite so conspicuous, but equally destructive. This is the closing down of Reserve Officers Training Corps (ROTC) programs on campuses and the harassment of service recruiters on university campuses. School administrators find it easier to surrender to the demands of the violent than to continue to give academic credit, or in some cases even to continue the ROTC programs. Even as they close the military training programs they encourage new courses in many fields that have no reason for being except as sops to the demands of radicals and special interest groups.

The banning of armed forces recruiters on campuses has caused the Marine Corps to fall short of its needs for new

officer material and to lower standards for officer recruitment. This decline in standards should be viewed with some concern. These officers will be the men in charge of leading our sons in battle. Their knowledge and ability could mean the difference between life and death, victory or defeat for our soldiers. This seems to us to argue for more forceful measures in coping with violent demonstrators.

## DON'T PRODUCERS COUNT ANYMORE?

There is no need for studies or investigations to explain why taxpayers are on the edge of revolt. A few paragraphs from an editorial in the Oceanside, California, Blade-Tribune—an editorial that recently was reprinted in the Congressional Record—tell the story. The Tribune's ire was aroused by a proposal of the Secretary of Health, Education and Welfare to give cash to the needy rather than to provide necessities on the theory that this would "preserve the dignity and freedom of choice" of the poor.

Says the Tribune, "What about the dignity and freedom of the hard-working industrious Americans who are working their fannies off to pay their taxes so the government can give it away? Don't we count anymore in America? Or do you have to be from a broken home or a lazy home or a I-don't-give-a-damn home to count?" The taxpayers' revolt is, in reality, a revolt of the producers against the demands of the nonproducers. The smart politician knows which side his bread is buttered on. He should also know who provides the butter.

## "WHEW!"

## ...IT'S BEEN HOT!"

"And I've been really busy keeping you folks cool!"

Throughout much of the area served by Texas Power & Light Company, Summer 1969 temperatures have already soared to the 100-degrees-or-above mark on more days than in 1968 or 1967!

In thousands of homes and businesses, Reddy Kilowatt and electric air conditioning, evaporative coolers and fans have been on the job, providing comfort, day and night.

So, if your electric service bill is higher this month, think of the many extra hours of work you've asked Reddy to perform.

Electricity is still the biggest bargain in your family's budget!

A British comedian once boasted that he could make a pun out of any subject.  
 "How about the queen?" challenged a friend.  
 "The queen," quipped the jokster, "is not a subject."

Mr. and Mrs. Joe Felderhoff and daughters Christy, Jenny, Ann and Rose have returned from a vacation trip to Joliet, Ill., where they visited her mother Mrs. William Frazier. Sight-seeing on the way included the zoo at St. Louis

and the historic old St. Louis Cathedral.

 Marry August 30

Mr. and Mrs. Joe Trubenbach have announced the approaching marriage of their daughter Doris and Wayne Klement, son of Mr. and Mrs. Walter Klement.

The wedding will be solemnized in Sacred Heart Church on Saturday, Aug. 30, at nuptial Mass at 5 p.m.  
 Both are graduates of Muenster High School, and live in Dallas and work at Texas Instruments in the Richardson plant.

**Four Generations Attend Reunion Of Endres Family**

Four generations of family were together Saturday evening in Muenster City Park, children, grandchildren, and great-grandchildren joining Mrs. Werner Endres in the get-together that included a catered meal.

It was the first time in five years that Mr. and Mrs. Jack Gorman and children of Rockford, Ill., were back for a visit with her mother. The reunion gave other family members an opportunity to visit with them.

Also attending from out of town were Mr. and Mrs. Robert Kupper and children of Marlin who were four-day visitors with her mother during the week the Gormans were visitors.

Grandchildren attending from out of town were Mr. and Mrs. Jim Fuhrmann of Irving, Mr. and Mrs. Tom Fuhrmann and daughter Jennifer of Eulless, Sgt. and Mrs. Robert Buehrig of Fort Worth, Miss Mary Ellen Endres of Dallas, Sammy Endres of Beaumont and Chris Kupper of Houston.

Present from Muenster were Mrs. Endres' children and families the Arthur, Gilbert, Paul and Urban Endres and the Val Fuhrmanns. Also guests were Alphonse and Miss Theresa Luke and Mrs. Joe Luke.

The Gormans and children Dana, Timmy, Connie, Jay, Gerrie and Richard started back to Rockford Monday. The Kupper family left Monday to return to Marlin.

Mrs. Claude Walter and children Amy and Alan of Miami, Okla., ended a ten-day visit Wednesday with Mr. and Mrs. Al Walter. They made the trip with Mr. and Mrs. Charlie Faust, also of Miami, who brought them to Muenster and went on to Mississippi on their vacation. The Faustus were back Tuesday, spent overnight with the Walters, and the Miami group returned home Wednesday.

## Mrs. Myrick Back From Visiting Kin

Mrs. T. S. Myrick is back at home after being away two months, most of the time with her daughter Margaret and family, the Arthur Bordaues, at Mexico, Maine. With them she traveled to Arlington, Va., for a visit with her sister Charlie and family, the Mike Tarantolas and John. Their other son Michael is a captain in the Army presently in Taiwan.

From there the Bordaue family and Mrs. Myrick went to Ivy, Va., to visit Mrs. Myrick's sister Miss Lou Bradshaw and she joined them on a trip to New Bern, N.C., to visit the John Myrick family. They were packing for a move to Aurora, N.C.

Mrs. Myrick went back to Ivy for another short visit with her sister Lou and then flew to Dallas where her son Jim Myrick and family of Arlington met her Sunday and drove her to Muenster. When she returned home she found her daughter and family, the Pat Stelzers back after being in San Antonio six weeks.

## Consumer Buying Seminar July 29 Features Fashion

The third annual Consumer Buying Seminar is planned for Tuesday, July 29, at 10 a.m. at Cooke County Junior College. Consumer information will include facts on fabrics and fashion for fall. The program is sponsored locally by J. C. Penney Company and will be presented by Mary Estes and Janie Rank, of Arlington Distribution Center.

Tuesday's Free Fashion "Peek In" will be presented in two parts. The first will include information on fabrics and will be illustrated by colored slides. The final portion will be a show of fall fashions. Cooke County models include Lou Ann Pybas, Cathy Sellers, Joanie Rohmer and Peggy Schumacher.

Educational programs in Family Living are planned and carried out by the Family Living Committee in Cooperation with the Extension Service of A&M University. Mrs. Harvey McCabe is Chairman and Bernice Thuman and Dona Brewster are Extension Home Economists.

The program is free and open to the public.

## Tax Relief Asked For Texas Rural Water Systems

August 5 will be a turning point for rural Texans if the public gives approval to Amendment Four.

Many of the state's non-profit rural water supply corporations are being taxed heavily; and if the taxation continues, the systems will be forced to make drastic changes. At the present time, some systems' tax bills are ranging to near \$20 per member per year. In most cases, the systems' officers will be forced to raise the normal monthly minimum of \$7.00 to \$9.00 for that first 3,000 gallons if present taxing continues.

With approval of Amendment Four on August 5, the rural water supply corporations will be given the same tax break as the municipal systems in the state, no taxes.

"Each resident of the state will be given an opportunity to vote on Amendment Four; and if a favorable vote develops, rural Texas will continue to grow," stated Jerry Johnson of Nacogdoches, President of the Texas Association of Rural Water Corporations. He continued, "Approval of Amendment Four will also eliminate double taxation. In some cases, the member owners are being taxed through their system; and, in all cases, the installation of the rural water system created an increased value of their property and they are being taxed on that increase."

Mr. and Mrs. Jack Tuggle enjoyed a tour of the Wax Museum in Dallas Sunday.

Two Texans, Allen Case and Betty O'Neil, headline the cast for the Dallas Summer Musical's fourth show of the season, "Destry Rides Again," opening at the Music Hall July 22 and playing through Aug. 3. Case, a former Dallasite and a frequent star on television Westerns, will play the peace-loving sheriff of Bottleneck, Tom Destry; and Fort Worth's Betty O'Neil will be the saloon hostess, Frenchy. Stanley Carlson will play Wash Dimsdale and Audrey Guard, Rose Lovejoy. Others include Ian Candenehead as Kent, Bill Le Massena as Major Slade and dancers Tony De Vecchi, Ted Forlow and Evie McGehee in the exciting Whip Dance.

## MHS Teacher at Biology Institute

Mrs. Marie Mosman, science teacher at Muenster High School, is one of 29 college and high school teachers from thirteen states attending a summer institute in radiation biology at the University of Kansas, June 9 to August 2.

Designed to provide laboratory and academic experience in radiation biology, the course offers eight hours of graduate credit. It is funded by the Atomic Energy Commission and participants are sponsored either by AEC or National Science Foundation.

## Swimming Safety Tips Offered by Medical Assn.

Dr. L.S. Thompson, chairman of the Texas Medical Association committee on public health, offers the following basic safety rules that will help to avoid a tragic water accident for your family--

1. Learn to swim and to relax in the water.
2. Never swim alone.
3. Do not swim when overly tired or when the water is extremely cold.
4. Do not overestimate your ability and endurance.
5. Swim at protected pools or beaches under the supervision of a trained lifeguard.
6. If a boat overturns, stay with it and don't try to swim a long distance to shore.
7. Never dive into waters of unknown depth.
8. Try new activities, such as water skiing or SCUBA diving, only after learning the skills from qualified instructors.

"Many families will do most

of their swimming this summer in private pools, in their own backyards or in those of a friend or neighbor." Dr. Thompson said. "There also are some special safety precautions for private pools--"

1. Make certain the pool is kept clean and the water chemically purified.
2. Walk, don't run, about the pool. Horseplay should be forbidden.
3. Fence the pool and keep the gate locked to keep out small children.
4. Keep handy rescue equipment, such as long poles and ring buoys.
5. Keep bottles and glasses away from the concrete or metal pool deck."

The TMA committee chairman emphasized that good manners and common sense in boating will prevent most accidents. "We all know the rules: Don't overload the boat; have life preservers for each occupant; don't stand up or change seats in a small boat while underway; keep a watchful eye out for other boats, swimmers and fishermen; and give all a comfortably wide berth. We know the rules, but there still are drownings be-

cause someone ignored them," Dr. Thompson said.

Knowing about artificial respiration and how to apply it could save a life. The mouth-to-mouth method is not very difficult, but start immediately, even in the water; the victim can survive without oxygen to the brain for only a few minutes; with the victim's face up, pull the chin forward, make certain the windpipe is clear; put your mouth over the victim's mouth, pinch shut the nose, and blow; repeat 12 or 15 times per minute; keep it up until medical help arrives.

## FEDERAL GRAVY

A lot of money can be made in the hunger crusade. Somebody who knows it is Robert B. Choate. A Bostonian, Mr. Choate describes himself as a hunger crusader and a consultant on malnutrition. He is paid \$100 a day to advise the Department of Health, Education and Welfare.

Mr. Choate, a veteran of the hunger campaign waged by Sen. George S. McGovern's investigating committee, won't have to worry about malnutrition. He's on the Gravy Train.

**CCJC Counselors On Full Time Duty**

Counselors are now on duty at Cook County Junior College from 7:30 a.m. to 9:30 p.m. to assist students who plan to attend college this fall.

It is important that students meet with counselors to arrange for tests or interest inventories that are necessary for college enrollment. The counselors will assist students in obtaining transcripts from schools previously attended, fill out request forms for financial assistance, and send notifications to local draft boards when necessary. Counselors will also assist students in completing the required medical forms for college entrance.

Students may obtain information from the counselor relating to jobs that might be available as a result of training at CCJC, or information regarding the transfer of credits from one institution to another.

Regardless of the college students anticipate attending in the fall, counselors at CCJC are interested in helping them plan their careers. It would be to the student's advantage to visit the campus early and avoid the fall rush.

**Antonettis Give Talk to Hood Club**

Dr. and Mrs. Alfredo Antonetti were guest speakers for the Hood Community Club Thursday evening. They showed pictures and talked on their former home in Havana, Cuba, pointing out the contrast of the Cuba they knew and as it is today.

William Hermes presided for a large group attending. Walter Berry and Jim Blount were asked to check on new screen doors for the club building.

The next meeting will be an ice cream supper on Aug. 21, 8 p.m.

**Ray Wilde Named Director of TADA**

Ray Wilde, owner of Wilde Chevrolet, has been appointed to the key post of area director of the Texas Automobile Dealers Association. As such he will report to TADA directors on activity relating to motor vehicle buying in the Muenster area and will work with legislative and government officials on matters pertaining to the car business. TADA represents franchised new car and truck dealers in Texas.

**New SMV Emblem To Feature Texas Farm Safety Week**

Texas Governor Preston Smith has proclaimed July 20-26 Texas Farm and Ranch Safety Week and called on rural residents to make use of the new SMV emblem on slow moving agricultural vehicles as added protection when traveling on Lone Star State highways.

He also urged rural residents to take advantage of modern technology designed to remove many of the hazards in agricultural enterprises and cited that in spite of a declining rural population and advances in agricultural technology, farm and ranch accidents in Texas continue to steadily increase.

Last year 297 Texans died as the result of farm accidents, an increase of six percent in the number of fatalities over the previous year. Injuries for the past year are estimated at 33,200 as compared to 31,400 in 1967.

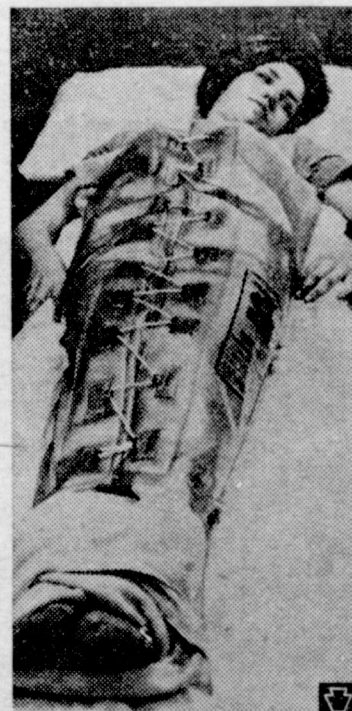

"If we are to reverse this trend, we must renew our efforts to prevent accidents among our rural residents as they go about the hazardous task of producing the commodities needed by the entire population," the Governor said in his proclamation.

The Texas observance coincides with observance of National Farm Safety Week, proclaimed by the President, to focus attention on farm accident prevention throughout the nation.

"What am I to do with this?" grumbled the motorist as the police clerk handed him a receipt for his traffic-fine payment.

"Keep it," the clerk advised. "When you get four of them, you get a bicycle."

A new life-saving device which has proved promising in emergency situations in hospitals across the nation is now being tested by Army and Navy doctors in Viet Nam.  
 Developed by Cleveland's famed neurosurgeon, Dr. W. James

control the bleeding. Within a period of 18 1/2 hours she had required 55 pints of blood, more than 5 times the amount normally present in the body, and, in addition, 10 liters of other fluids.

After her abdomen was closed, she was placed in the suit in the hope that its pressure would keep her alive until her husband might have a last word with her. With inflation of the suit the blood pressure rose and, to everyone's amazement, the bleeding ceased. The suit was removed after 24 hours with no recurrence of bleeding. She eventually left the hospital and has remained in good health.

Although in this case the use of the G-Suit proved curative, its chief function is to "buy time" in an emergency until bleeding can be brought under control by the surgeon.

**Pressure Closes Wounds**  
 "The pressure which the suit brings to bear on bleeding arteries and veins in the abdomen works to close these wounds even as it raises blood pressure," said William O. Eason, director of research of the Kendall Laboratories. "Even more important, by diverting blood to the heart and brain it acts to preserve the function of these vitally important organs."

The same pneumatic principle was applied by Dr. Gardner and Kendall researchers in developing a plastic inflatable splint. It also serves as a compression dressing to reduce edema and to control bleeding in an arm or leg. Known as the Curity G-Splint, it is now widely used in emergency first aid and on the battle field.

## SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

Bottled water sales are expected to reach \$60 million this year. It is sold in supermarkets in plastic half-gallon bottles, sold to residential customers in five-gallon bottles and vended in machines to customers who bring their own containers.

As our population continues its steady climb upward and the demand for pure water increases it seems logical that the sale of bottled water will increase, says Eual Davis of the Soil Conservation Service. One of the reasons for this increased sale is the increased pollution of our present supply of pure water, Davis continues.

The sad part of this fact is that water pollution can be reduced or eliminated if known ways and means were put to use. No doubt future generations will judge most harshly a race of people who had the ability to prevent water pollution, but simply would not do so.

Agriculture has always been a major contributor to water pollution and soil erosion is the number one offender. After every rain SCS personnel observe that hundreds of acres of productive cropland receive serious soil erosion. This need not happen today because there are more and better ways of control.

The Soil Conservation Service has advocated for years a complete terrace system, good waterways, a proven cropping system and the conversion of less suitable crop-

land back to grass as the way to end soil erosion. We still believe this to be true, however, we have made several improvements which we feel will benefit district cooperators.

One of these improvements is parallel terraces which can be farmed with multi-row equipment, farmed faster and more economically. You not only save money but you also save the soil. If your dislike for the old type terrace system has kept you from terracing your land come by and see us about the new type—parallel terraces.

If every landowner will control soil erosion on his farm, ranch, and city property it will allow future historians to write that agriculture is no longer a major contributor to water pollution. Cost-share assistance is available through the local ASCS offices. Local directors of the Upper Elm-Red Soil and Water Conservation District urge each landowner to do his part in Soil and Water Conservation.

**Boys Win Both Boy-Girl Games**

Boys were the winners of both of the boy-girl softball games which closed out this year's season in kids' baseball and softball.

In spite of playing under handicap the boys took the junior game 24-18 and the senior game 21-16.

The first handicap was that boys had to play softball after a season of baseball. Another, their pitcher box was 15 feet farther back.

The long pitch was especially hard on Danny Endres and Bob Schmitz of the little boys, who gave up 26 walks. That plus hits by Nancie Fisher and Kim Klement and a few errors brought in the 18 runs. The boys made their 24 on a flock of errors, one walk and 13 hits off pitchers Connie Walterscheid and Barbara Hess. Hitters were Danny Endres, Mike Davidson and Leon Bayer two each and Willie Smith, Bob Schmitz, Roger Endres, Damian Walterscheid, Frank Moster, Mark Hess and Danny Fisher.

Next game was the same kind of play. Girl batters looked the pitches over and got 22 walks along with 12 hits. Hitters were Pam Schneider 3; Janet Bayer, Doris Felderhoff and Linda Voth 2 each; Patty Dittfurth, Janet Swirczynski and Nancy Fuhrmann 1 each. Girls pitchers were Nancy Fuhrmann, Janet Swirczynski and Janet Bayer.

Boys again played the other style, swinging at almost everything within reach. So they got 18 hits along with 7 walks. The hitters were Alan Miller 3 including a homer; Ronnie Flusche 3; Glenn Henscheid 2 including a homer; Randy Wolf, Kenny Hess, Gary Endres and Chris Sicking each 2; Curtis Klement, Kevin

Sicking and Mark Stoffels each 1. Boys' pitchers were Gary Endres, Alan Miller, Curtis Klement and Randy Wolf. Boys' pitchers were Gary Endres; Alan Miller, Curtis Klement and Randy Wolf.

Umpires of both ball games were Butch Fisher and Dan Hamric.

Only one detail remains in the boys' season, according to Willie Fisher, Jaycee chairman for the program. Each boy is expected to have his uniform cleaned and return it to his team manager. And please hurry, says Willie, to reduce chances of misplacing any of the items.

A woman was being congratulated by a friend after both her son and daughter were married within a month of each other.

"What kind of boy did your daughter marry?" asked the neighbor.

"Oh, he's wonderful," gushed the mother. "He makes her sleep late, wants her to go to the beauty parlor every day, won't let her cook — and insists on taking her out to dinner every night."

"That's nice," said the neighbor. "And your son? What kind of girl did he marry?"

The mother sighed. "Oh I'm not so happy there. She's lazy, sleeps late every morning, spends all her time at the beauty parlor, won't cook, and makes them take all their meals out."

A fellow who was called by his draft board was examined by his family doctor who happened to be on the board. He passed easily and was put into the service, which burned him up. He returned to see the doctor.

"You're one heck of a doctor," he blurted. "It's funny that you always found something wrong with me when I was paying for the visit to you!"

**Cub's Meeting to Include Swimming, Ice Cream Monday**

A splash party and ice cream supper are booked for the July meeting of Muenster Cub Scouts Monday night beginning at 7 o'clock in City Park.

Cubs are urged to be there and bring their families with them. The boys will have an opportunity to work on swimming badges.

Teacher: "Who was the greatest inventor?"  
Billy: "Edison."  
Teacher: "Why Edison?"  
Billy: "Because he invented the phonograph so people would sit up all night and use his electric light bulbs."
