MUENSTER, COOKE COUNTY, TEXAS 76252 AUGUST 27, 1971

NUMBER 40

That stunt by Governor Preston Smith last week most likely was seized as an opportunity to do something spectacular in behalf of his candidacy for re-election. He made a real effort to create the image of going to bat for state employees and teachers. His action was all the more dramatic because he was defying the President of the United States.

The big question, however, is did he do himself more good than harm? The several thousand persons who have been favored by his refusal to cooperate with the President possibly appreciate Smith's effort, because they had a chance to get pay raises. On the other hand there are millions of other Texans who think state employees and teachers, like the rest of us, ought to share in the national sacrifice that is needed to pull through the economic strain. Very likely many of the teachers and state employees have the same idea. They don't like being marked as privileged characters when other people are told to tighten their belts.

In taking his stand Smith lined himself up beside two other characters who tried to make a big impression by backing up their men, George Meany, AFL-CIO president, and Harry Bridges, Longshoremen's president, said they would ignore Nixon's request. They would not expect their members to make the sacrifice.

There's an implication in their statements which deserves notice. Both men spoke as if they were calling the shots. They will decide whether workers will demand more pay, and strike if they fail to get it. It seems to indicate that these men are just what they are usually called — union bosses. Rank and file members aren't free to form their own policies. Decisions come down from the top.

Again we are inclined to think that the defiant statements do not express the sentiment of many of the persons favored. They are good Americans, concerned with our economy, and are ready to make their share of the sacrifice that is needed to pull the country through these critical times.

The spirit in which the President's plan was accepted by most other Americans was gratifying. A big majority approved, admitting that it's high time for a bit of sacrifice to offset the greed which got us into this mess. They are willing to carry on for 90 days under a freeze of present wages and prices. Many, we're sure, would like to keep going at this level, hoping that this is finally the end of inflation and they can stop worrying about a financial crash.

While feeling grateful about the good signs, however, we ought to be concerned about the bad signs. When three big shots like Smith, Meany and Bridges chose to condemn the program and press their demands for inflationary pay raises they started a movement of non-cooperation which can possibly get worse instead of better. Since this is a voluntary-compliance arrangement there will be a number of people who find their good intentions overcome by greed, after which others will resist being the suckers and will join the non-cooperation. The big problem with an honor system is that it requires honor, which becomes more scarce as the opportunity for an easy buck becomes greater. This may be a cynical attitude toward the American public, but it is what has been indicated for several years in the greedy developments which brought on our crisis.

The prospect is no more promising when we think of compulsory controls. That's what we had during the war, when the benefits, if any, were offset by the expense of hiring thousands of enforcement personnel, the red tape of long reports, the resentment of snooping, and the frequency of black market dealings. We found then that compulsory controls are not our dish and the memory offers little hope of success if we try again.

Considering the difficulties, it seems that the President chose the method which has the best chance to succeed. Our government and our economy are built on freedom, and we make no real progress in any venture except through our freedom to do things because we want to — maybe

Attorney Named To Collect City's Delinquent Taxes

Julian Smith, Gainesville attorney, has been assigned the job of collecting delinquent taxes for the City of Muenster.

A contract with him at the standard state designated rate of 15 per cent was approved by the city council Monday night. He has also been approved to collect for the school district.

Smith's job will be to seek payment of delinquent taxes along with interest and penalty, and if payment is not made to have charge of legal procedure of a sheriff's sale to recover the taxes.

In other business the council decided to ask the highway department to correct a malfunction in the traffic light at Main and the highway. The gadget which extends stop or go duration according to traffic density apparently responds at times to parked cars, and the signal does not change for minutes at a time. Whatever the problem the Highway Department is being asked to fix it.

The city also approved installation of a drop box for persons who wish to pay water bills while the office is closed. And it approved extending South Walnut Street across the railroad right of way to connect with Eddy Street.

Tigers Will Meet Prosper High in Scrimmage Friday

Tom Joy and his Sacred Heart Tigers are starting their football season with a change of schedule. A scrimmage booked for Thursday night with Pilot Point B has been cancelled because of a conflict of dates following changes on the Pilot Point coaching staff.

Joy started Monday looking for another opponent and made contact Wednesday. He will take his boys to Prosper Friday night for action starting at 7 o'clock. Fans who want to go are reminded that Prosper is off Highway 24 about half way between Denton and McKinney.

Joy is eager to see what the Tigers can do under pressure. After a week of workouts he is well pleased with their progress, and particularly with their enthusiasm and willingness to work. Joy also feels that his passing game is better than last year. Gary Endres has been on target with his throwing and Kenny Hess, Kevin Pels and David Krahl have been catching well. Blocking for the passer also seems to be better.

Likewise the running department seems to be doing well. It was strengthened by moving Melvin Luke there from tackle, but there's still a problem as to whether he can be spared in the line. Joy feels as though his roster has about leveled off at 20. He lost two since the first practice. He's temporarily down to 19 while John Bartush is out with an injury.

Policy Meeting Set Wednesday for Local FB Members

Farm Bureau members of the west part of Cooke County are urged to attend a policy development meeting Wednesday night, September 1, at 8 o'clock in the VFW hall.

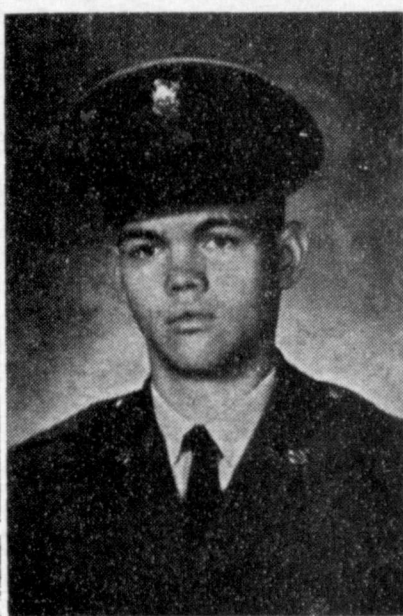

This is one of the grass roots meetings at which members begin the policy development which continues through the county, district, state and national meetings. Good speakers are on the program. Members and wives are urged to attend.

Parents of children who will attend CCD classes this year are reminded that registration will follow the Saturday night Mass and all Masses Sunday.

Hornet Fans Form Quarterback Club

A quarterback club, with a primary mission of helping the MHS Hornets and a secondary mission learning more about the Hornet games, had its organizational meeting Monday night in the MHS field house.

About 30 persons attended and elected their first officers as follows: Willie Walterscheid, president; Dan Hamric, vice president; Harold Flusche, secretary; Ray Klement, treasurer. Their terms last one year.

Membership dues were set at \$5 a year and become part of the fund which is earmarked for support of the team. Fund raising drives and personal help are also anticipated when projects are adopted.

Special for the members and their families are the weekly Monday night meetings for a film of the preceding game and discussion of high spots, and low spots, along with prospects of the coming game.

Swimming Pool Will Close Sunday

Last chance to have a swim in the Muenster swimming pool will be next Sunday. The closing that day will also be the season closing.

During the past two weeks, since the start of school, the pool has been closed except the weekends. Last week, and again this week, it's open only on Saturday and Sunday.

Final Rites Held At Windthorst for Herman Bindel

Herman Bindel, 62, of Windthorst, a native of Muenster, died of a heart attack about 9 a.m. Tuesday morning in a Wichita Falls hospital following an illness of several years.

Funeral services were held Thursday morning at 10 o'clock in St. Mary's Church, Windthorst, with Father Cletus Post officiating and also conducting grave side rites. Burial in the Windthorst Cemetery was directed by Owen Brumley Funeral Home of Wichita Falls. Rosary service was held Tuesday and Wednesday nights at the funeral home chapel.

Herman Bindel was born in Muenster on April 13, 1909, a son of the late Mr. and Mrs. Peter Bindel. He attended school here, moved to Pilot Point in 1945 or 46 and to Windthorst about ten years later. He had been in poor health for a number of years.

He is survived by two sisters, Mrs. John Grewing of Muenster and Mrs. Fred Steinger of Windthorst.

Hornets Get First Test in Scrimmage With Callisburg

With about ten days of practice behind them Coach Richardson's MHS Hornets will have a rugged test Friday night when they take on the Callisburg Wildcats in a practice scrimmage.

It's going to be a real test of the boy's ability, says the Hornet skipper. Callisburg, which is due for promotion next year to Class A, has an extra potent B outfit featuring a speedy backfield. They will give Muenster a lot of competition.

Regarding the Hornets, Richardson says he is pleased on several counts. Their attitude is good and they look good on both offense and defense. Even more important, they are in fine physical condition. That, says the coach, makes them less subject to injury and more able to play a strong fourth quarter. He named endurance as a big factor in schools with small squads.

The team's roster, after starting at 36, is down to 31, which makes it necessary to cancel previous plans for a B team schedule. After naming a first team with adequate reserve strength there would not be enough left for a second team.

Candidate Appears To Succeed Hall As State Senator

A candidate to succeed Ralph Hall as state senator for the Ninth Senatorial District was not slow in coming forward. He's District Attorney Larry Miller of Greenville, who today announced his intention to seek the office in next year's election. He will make his formal announcement later.

Miller now serves as district attorney for the 196th Judicial District of Texas, which coincides with Hunt County. Prior to that he was county attorney of Hunt County.

He is a native of Hunt County, attended ETSU, graduated at Baylor and received a law degree from University of Texas.

The Ninth Senatorial district now includes Collin, Cooke, Denton, Grayson, Hunt, Kaufman, Rains and Rockwall counties and a portion of Dallas County, however some changes may be made in the senate redistricting, which is due later.

Mr. and Mrs. George Koelzer have moved into the house formerly occupied by the Glenn Richardsons. The move came before the Richardsons' new house was finished, and they are spending a few weeks in a camper beside their home.

Building Notes

Building activity in the community continues at a steady pace with five commercial and six residential new buildings under way and several homes getting remodeling jobs.

The big one is Cooke County Electric Co-op's combined office, warehouse and service department a mile and a half east of town on Highway 82. It will have about 17,000 square feet of floor space, is scheduled for completion about December 1.

A warehouse for Gilbert Endres has the structural steel mostly in place after which the pointed steel siding and inside insulation should be installed in a few days. It's 96 x 60, with walls 24 feet high, has an office in the southeast corner, will be finished in about three weeks.

The suite to be occupied by Dr. Graham in the 50 x 55 addition to the Medical Center has been finished. The other suite is waiting for a tenant to specify the color of finishing desired.

Don Hess and Sylvan Walterscheid have finished all except the refrigeration at their slaughtering and meat processing plant on North Mesquite.

A smaller commercial job is the 15 x 30 concession stand west of the football field at Muenster High School. It has an outside of painted steel, a panel board lining and kitchen facilities. It will be ready for the first home game on September 10.

Newest of the residence jobs is Dolphy Joe Hellman's just beyond the southwest city limit. Foundation work is still underway. It will be a 2-story house with 3 bedrooms, office, fireplace, double garage, central heat and cooling, brick veneer.

Jack Davis and Glenn Richardson have about three more weeks to wait for their new homes in the southeast part of town. Both have three bedrooms, two baths, attached garage, central heat and air conditioning, brick veneer. Richardson gave up his former home early, is living now in a camper beside the new house and has furniture in the garage.

Wayne Trachta's house is at a temporary standstill, waiting for workers, at about the halfway stage. It's on North Sycamore, has 3 bedrooms, 2 baths, central heat and cool, brick veneer, attached garage.

Houses finished and ready for occupancy are those of Donald Hennigan about 7 miles west on Highway 82 and Robert Klement 5 miles south. Hennigan's has 3 bedrooms, 2 baths, double garage, brick veneering, central heating and cooling. Klement's has 4 bedrooms, 3 baths double garage, brick veneering, central heating and air conditioning.

Nearly finished is the Don Fenley home south of Myra with 3 bedrooms and baths, brick veneer, double garage, central heat and cool.

Mr. Sam Tuggle has moved into her two bedroom brick veneer house on West Third. James Walterscheid has a repair and remodel job going on the former Joe Fisher house south of town. Included are interior changes, and re-finishing, kitchen cabinets and air conditioning.

Dr. Antonetti also is renewing an old house, with repairs in and out and new interior paneling and paint. At the same time he's repairing and adding to the barn. The place is the former Wolf home west of town, will be occupied by the Cecil Sawyers.

Carl Schilling has finished an extensive home improvement job: new panel board, inside and outside paint, carpeting, central heating and air conditioning.

Marie and Nora Truebenbach are installing new panel board, cabinets and floor cover in their kitchen.

Last week's fire at Floyd's Bar has been followed by new paneling and wiring and paint. Roofing jobs are under way at the VFW Post and Muenster Enterprise.

Sister Theresina, teacher at Sacred Heart High received a cable from her relatives in Switzerland on August 17 telling her of the death of her brother, Friedrich Grobe, who died suddenly that morning. He would have been 61 years old on Sept. 28. In addition to Sister Theresina, survivors include his wife, five children, one brother and another sister.

August Rain Nears All Time Record

Locally the weather appears to be going from one extreme to the other. After a ten months drought, which was probably the community's driest ever for that length of time, the rain now is crowding the all time record for wetness.

Measures Wednesday on Steve Moster's gauge were .25 at 7 a.m. and .33 at 4 p.m. bringing the month's total to 11.57 inches.

That is topped by only two other months since records were started here in 1946. April of 1957 is still the champ with 12.43, and September 1970 is next with 11.61 inches.

Total moisture for the year now stands at 20.86, which is still below normal for this time of the year. Of that, 11.57 came in August and 9.29 in the previous seven months.

Benefits of the big rains are apparent in lush growth of hay and pasture. Hundreds of acres of hay have been cut this week and only a small part has been baled. The rest will be slightly damaged. However conditions are fine for more growth and another cutting should be ready in a few weeks.

65th Anniversary Celebrated by Joe Swirczynski

Mr. and Mrs. Joe Swirczynski who were married in Muenster 65 years ago on August 21 celebrated the anniversary Saturday at Mass in Sacred Heart Church and at a covered dish supper in their home.

Mr. Swirczynski who is recuperating from surgery was able to attend Mass celebrated by Father Placidus Eckart at 5 p.m. He also conducted a renewal of the couple's vows. Sister Yvonne Lerner played organ music during the service.

Attending with the Swirczynski children from Muenster were Mrs. Clarence Erpding of Colorado Springs, Colo., who is on a two week visit with her parents, Mrs. Alex Knauf of Colorado Springs who is spending the summer with her parents, Sister Monica, a granddaughter from Pocahontas, Ark., who was on a vacation visit with her parents, the Herman Swirczynskis, Al Swirczynski of Mesquite, the Ed Swirczynskis of Fort Worth. Fathers Placidus and Leonard were special guests, as were Mr. and Mrs. Nick Yosten and Mrs. Bob Yosten.

Mrs. Charles Bayer baked and decorated the anniversary cake for her grandparents.

Mrs. Townsend Miller arrived Sunday for a visit with her parents here and with her husband's mother at Gainesville.

Program for Free Lunches Resumed At Public School

The program for free and reduced price lunches for school children is in effect again at Muenster Public School, Superintendent L. B. Bruns announced this week. Size and income of a family are considered in determining what children are eligible for free lunches, and what children qualify for the 20 cent meals.

Standard charges for the school lunches are 35 cents for elementary students and 40 cents for high school students. Mr. Bruns said that every student has received an explanatory letter, a chart and application form for the free or 20 cent lunch. Parents are asked to consult the chart to see if they can qualify for the program's benefits. They are also reminded that some families whose size and income do not qualify them for benefits may still qualify if they had unusually high expenses through sickness or other misfortune. Persons who have doubts are urged to state their problems.

Any family that thinks its children can qualify for the free or reduced price lunch is urged to fill out the application blank and return it to Mr. Bruns. Those who are eligible will be notified in a few days. Children who receive the benefit will be treated like the others and no one will know who pays and who doesn't.

Affirmed: Vietnam War Has Been Won

In this day of managed and mismanaged news few Americans would venture the view that the war in Vietnam has been won by the Allies. But that idea has been gathering strength in our editorial mind for about a year now, and it is good to have it supported by the Hudson Institute, famous think tank on the Hudson River in New York.

The North Vietnamese are no longer capable of undertaking any large pitched battles. They have been reduced to hit-and-run guerrilla actions that could never win the war. Such actions seem to be rear-guard moves designed to conceal the fact that Hanoi is putting its best foot forward in

the United States, not in Indochina. America is the main target of the Communists. If we can be shorn of our will, the rest will be easy.

Hanoi had no choice. A reasonable estimate of the North Vietnamese casualties is 3,500,000 dead and wounded, in a country with less than ten million males, including infants and old men.

The North Vietnamese have fought without a navy, without bombing planes, without effective supply lines. More than anything else they have been engaged in terrorizing the freedom-loving people into surrender. Their only hope has been to confuse and frustrate the American people. It is a war of propaganda. Who said the cold war was over!

U. S. Press Assn.

U. S. Battered By Defeatists

A very prominent columnist whose work is syndicated by a large American newspaper is now spreading the word that the United States has suffered its first great defeat, in Vietnam. And he deprecates American successes in other wars as having been the result of the fact that our allies were able soldiers and strategists.

This is pretty thin stuff when you recall that our allies in World War I were all but defeated when United States Marines stood off a mighty German bid to cut through American lines to get to Paris. American soldiers, sailors and airmen also gave a great account of themselves. Gen. John J. Pershing insisted that the Americans have their own, separate sector of the battle line.

In World War II our allies in Europe and Africa consisted chiefly of Britain and Russia. In the Pacific and Asia the Americans fought with little assistance but with a valor unsurpassed in history. No one would want to deny the great parts played by the British and Russians in winning the war in Europe, but neither can it be denied that without America our allies would have lost.

We did not lose the Korean War; we simply halted it at the 38th Parallel. Nor has the war in Vietnam been lost. We have kept South Vietnam free, as well as Laos and Cambodia. America will be around long after the journalistic defeatists have withdrawn into the isolation they are winning for themselves.

Does Red China Belong in U. N.

Before we load the U. N. down with an intolerable burden, we ought at least to ask Peking's leaders whether they intend to abide by the U. N. Charter. We will be buying a pig in a poke if we accept another flagrant violator of the principles of the U. N., while turning our backs upon a respected law-abiding member, Nationalist China.

The United Nations already harbors a member that attacks other members by invading their territory and quartering large numbers of troops thereupon. There is another member that makes a business of training guerrillas and exporting revolts to other members of the U. N. throughout Latin America. Both of those members use the U. N. headquarters in New York for purposes inimical to the United States.

If for no other reason except our own protection, we ought to consider whether adding another totalitarian member will improve or finally wreck the organization and speed the world toward that final conflict which the Communists seek.

There is nothing in contemporary diplomacy that requires the United States to help put Red China into the U. N. If ever a veto were indicated, this is the time to consider one. It would be the first veto cast by the U. S. compared with 104 by the Russians. To further weaken and degrade the U. N. is unwise.

ABLE BODIED WELFARE APPLICANT

Lower Welfare Costs

Welfare recipients who are able-bodied shall accept work as a condition of eligibility for benefit payments. This provision has been in New York State law for more than a quarter-century.

What happened when someone decided to enforce this provision?

Well, one commissioner of welfare investigated the rolls in his county and found 50 men who were able-bodied and who, in his opinion, were able to work. He then directed them to report at the highway department.

Fifteen of the 50 remain on the rolls because of legal reasons, which are being processed, and two others can't work because they're ill. BUT . . .

Eight promptly asked to be taken off the relief rolls and two moved away.

Five refused to report for work; so, their benefits were cancelled.

Then nine more decided they wouldn't work either — thus, no more benefit checks.

Nine did report for work. They immediately began their highway clean-up jobs, being credited at \$1.85 an hour to pay for the relief they receive. Two of these men proved to be exceptionally good workers and accepted permanent jobs in the highway department, becoming self-supporting citizens.

Suppose every welfare commissioner followed this example! It would make a big dent in the welfare mess and also clean up our communities.

— Industrial Press Service

Red China is the outlaw among the community of nations. Among other reasons, it was so branded by the U. N. itself for invading South Korea.

Peking is asking that we disarm Free China, abandon South Vietnam, and keep Japan disarmed as the price of her friendship. If we do these traitorous deeds she will make other demands, such as disarming South Korea and abandoning the Philippines to the Communist dragon.

In conscience we cannot do any of these things. In place of her unjust demands, why do we not make some just demands of her? We should make her promise to stop supporting guerrilla activities in the U. S. and elsewhere, and give up her huge narcotics trade, for a start.

One out of every 20 persons in the U. S. wears a uniform on the job. According to the best available estimate, this represents a total of about 10 million persons.

Edmonton, Alberta, the Oil Capital of Canada, has more than 7,000 producing oil wells within a 100 miles radius of the city and natural gas reserves estimated at more than 20,000 billion cubic feet.

Your Shadow

What would you guess is the fastest-growing business in the United States? Electronics? Wrong. The correct answer is government. Roughly one of every seven employed Americans now works for the government — federal, state and local. And government em-

ployment is growing much faster than employment in private enterprise. In effect, every six private workers in the U. S. must support themselves and the seventh who theoretically works for them. It is now apparent why taxes at all levels are high and going higher? — Everett, Wash., Herald.

State Fair Theme Oct. 9-24 Features Expo-Trans-Port
 Sixteen super-charged days await State Fair of Texas visitors when Big Tex leads them through the new and different world of EXPO-TRANS-PORT, Oct. 9-24, in Dallas.
 The world of transportation, present and future, will present an exciting show as free entertainment, a bright new musical, and a fascinating theme exhibit all contribute to the fast-paced fun.

 Free entertainment features for 1971 will send the Fair into high gear. Jesse Lopez will perform daily on the outdoor Mobil Stage, and trumpet king Al Hirt will appear in the Cotton Bowl.
 More free shows including the Alamo Jazz Band, Regal Tahitians, Don Hall Family and the Dr. Pepper/State Fair of Texas Circus will add to the excitement.

Mr. and Mrs. Frank Haverkamp Sr. and Richard Haverkamp have returned from a week's vacation in Louisville, Ky., visiting relatives and friends and sight-seeing. They also stopped in Oklahoma City to visit a daughter, Mrs. Bobby Bierschenk who had surgery.

Joe Bierschenk, formerly of Lindsay, has sold his farm at Grandview and is planning to move to Weatherford to be near his married children. Mr. and Mrs. John Neu and nephew Chris Neu visited him four days recently. He is Mrs. Neu's brother. The Lindsay trio also visited at Weatherford with the Alfred and Victor Bierschens and the W. J. Wrights.

Mrs. John Arendt is recovering normally from surgery performed at Muenster Hospital.

Mrs. Adolph Pittner observed her 80th birthday Aug. 21 in Muenster Hospital where she underwent surgery on Aug. 19.

Mrs. Katie Wilder of Muenster visited her daughter Sister Benedict Zimmerer Sunday afternoon and saw other relatives and friends at the KC picnic.

Mr. and Mrs. Nick Block and daughter Carolyn, joined by another daughter and family, the Herbie Fleitmans of Denison, had a three-day camping-out vacation at Platte National Park in Sulphur, Okla.

Sister Ethelreda returned to the motherhouse Saturday August 14 for treatment of an aggravated heart condition.

Mrs. Mike Dieter and Mrs. Henry Zimmerer have been dismissed from Gainesville Hospital.

Jimmy Betzen of Hereford is here to spend the school term with his uncle and aunt the Clarence Zimmerers. He is a junior in Lindsay High.

School taxes in Lindsay Independent School District will be raised from the current 33 1/2 percent to 42 per cent per \$100 true value. This was the decision of the school board at its recent meeting. The tax rate was set at \$1.25 for local maintenance and .22 for bonded indebtedness.

Change Revealed On Doctor Charges In Medicare Pay

There may be an increase in the amount Medicare will now pay on your doctor's services according to the Social Security Administration.

Persons covered by the medical insurance portion of Medicare are eligible to receive payment for 80 percent of the "reasonable and customary" physician's charges over \$50 they incur each year. The "reasonable" charges are based on what the majority of doctors in your area charge for a particular service.

For example, if your doctor charges \$8 for an injection, but most of the doctors in your area charge \$5, Medicare will pay \$4, or 80 percent of the "reasonable and customary" \$5 charged by the other doctors.

The Social Security Administration annually determines what is the customary charge for all physicians' service in each area. Effective July 1, information obtained in 1970 will be used to pay reasonable charges on your doctor's bills. All payments before that date are based on 1969 figures. Since doctor's fees are rising at the rate of six percent a year, this means Medicare will probably pay more on your doctor's bills.

Before a fee can be considered customary and reasonable, it must have been in effect for a certain period of time. Then, research must be done to determine what these charges are. Therefore, there is a lag period between when the charges increase, and when Medicare will pay more. This lag is to your advantage, since it prevents higher costs for the insurance. If increased charges were recognized as quickly as they are made, or if customary charges were paid in full no matter how high they are, this would encourage more rapid increases in medical charges. Medicare premiums and social security taxes would have to increase accordingly.

A representative may be contacted in Gainesville each Tuesday and Thursday from 9:30 a.m. to 12:00 noon at the Federal Building.

Community Event Honors Mrs. Neu On 100th Birthday

Relatives and friends from far and near gathered Sunday afternoon in Lindsay Cafeteria to greet Mrs. Joseph F. Neu who was celebrating her 100th birthday. Guests included 119 direct descendants of the centenarian.

Granddaughters served lime punch and cookies from a pretty table centered with a handsome birthday cake made by a granddaughter Mrs. Jerry Walterscheid of Muenster.

The four-tier confection was a conversation piece with the top tier ornamented with a gold crown and the figures 100. The next tier featured small figurines, four boys and three girls—Mrs. Neu is the mother of seven—the next tier was ornamented with 35 yellow roses, one for each grandchild, and the other tier was decorated with 91 yellow rosebuds, one for each great-grandchild.

Thirty-one of the grandchildren and 83 of the great-grandchildren attended the celebration.

One of the special guests was Mrs. Neu's brother John Reinart, 89, of Manning, Iowa.

The honoree greeted and visited with all who attended the 2 to 5 p.m. party. She had a purple orchid corsage and so did her daughters. Pictures were taken.

Two Celebrations Fete John Schmitz On 85th Birthday

Mrs. Al Horn helped her father, John Schmitz observe his 85th birthday last Thursday with a come and go party in her home. Forty-five relatives, friends and neighbors called between 4 and 6 p.m. Mrs. Horn served birthday cake and home made ice cream to her guests and pictures were made.

Mr. Schmitz opened his gifts and then wished the 24 little children who attended with their parents a "Happy Birthday" too, and gave each of them a gift of an assortment of small toys and party favors to open, enjoy and take home.

He was a guest later in the evening in the Julius Metzlers' home where their small daughter Kay Lynn was observing her 8th birthday the same day with dinner and a party. Other guests were the little girl's grandparents, Mr. and Mrs. Phillip Metzler and Mr. and Mrs. John Hess. Centerpiece for the dinner table was a decorated birthday cake done in a clown theme by Mrs. Horn.

Mr. Schmitz at 85 enjoys very good health and each year observes his birthday with an unusual activity. This year it was bicycle riding—last year he swam in the Red River. He keenly enjoys the competition of horse shoe and domino games. Fishing is an almost everyday pleasure. Gardening and cooking are other hobbies. His time is taken up now by planning and planting of fall gardens for himself and several of his neighbors and relatives. Preparation of turnip sauer-kraut is an annual activity and eagerly awaited by the fortunate recipients.

because it's economically wise, maybe because it's morally right.

Well, in this case we find a deplorable lack of willingness to do what is wise and right—and it was made worse by the three maverick national figures who balked. What we needed instead was an effort to inspire nation-wide team play. Nixon's announcement should have been followed by widespread endorsement of prominent figures, pointing out that something needed to be done and this is the chosen method, and it now becomes everyone's duty to join the program and pull in the right direction.

Instead we heard the customary analysis: Will it work or will it fail?—casting doubts minutes after it was introduced. And then came the statements of non-cooperation.

It's a little late now, but not too late, to try an appeal to loyalty, integrity and common sense. This column is still old fashioned enough to think that the American public will pull together as a team if their leaders will quit the bickering and work together.

Vultures are health protectors in warm lands where they eat carrion, being guided to their food not by smell, but by sight. Its amazing vision is an important factor in the vulture's longevity.
