NUMBER 38

Senator John Tower says he is co-sponsoring a bill which would be very effective in shortening and even eliminating railroad labor disputes, which have plagued our country with exasperating frequency in recent years.

One of the provisions of the bill is to extend the cooling off period for 30 days in hopes a negotiated settlement would come forth. Another calls for a special board to direct continued or partial operation of the railroads up to six months while the strike ensues.

The third, and this seems the most promising, is the President's appointment of an impartial board to select as a final binding solution, one of the solutions offered by the opposing sides. The board would be required to choose one solution completely and would not have the option to compromise. In this way both sides would have inducement to offer reasonable solutions in hopes theirs would be chosen.

Obviously this method is much better than the old one in which both sides go to extremes in their proposals, both intending at the start to make concessions in their negotiations and eventually compromise on a settlement they can live with. The trouble with that is that both sides stubbornly insist on their own proposals hoping by hard bargaining to concede as little as possible to the other. That results in delay often dragging into months during which the entire country may be inconvenienced or deprived of some basic service.

Senator Tower mentions that labor and management are not the only sectors who have to pay the price for strikes. Many people give little thought to the labor troubles. They think the two contesting parties are the only ones concerned whereas, in fact, the general public is affected the most.

Invariably in recent years management has given in to labor demands, often to exorbitant demands. But management did not absorb the higher wages. Rather it raised the price of its products, so we the public indirectly have shelled out for the increases. One of the country's great needs in this respect is an honest presentation so the public will know it is their concern and they have a right to howl when \$8.00 per hour wage earners strike for a 50 per cent raise.

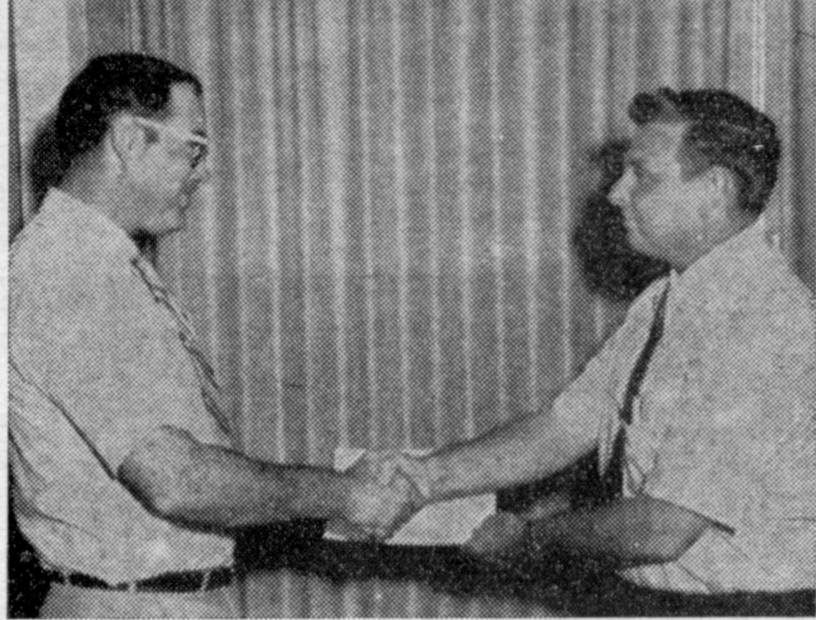

An honest presentation of facts would also have helped last year when grape pickers of California were being enslaved by the Chavez boycott. And it would help now as lettuce workers are being victimized by the some plot. The union becomes supreme dictator of growers and workers and consumers have to pay the price.

The same applies in every field of the national economy. The wage-price spiral has been going up for a couple of decades and the cost always falls on the consumer. It is the public's problem that the price of food, clothing, appliances, automobiles and services continue to rise as fast as, or even faster than, their income. It is their concern that many of our products are priced out of the market — at home as well as abroad. Because when those workers lose their jobs they go on the welfare rolls, which are supported by our taxes.

George Meany, boss of the AFL-CIO, stated a few weeks ago that wage-price control may soon be needed to prevent economic disaster. He insinuated that this is the administration's problem whereas he should have admitted that no one needs to control labor if it will control itself. He himself is to blame for much of our trouble. He encouraged the greed which brought on this mess. If he were a labor statesman of the caliber that his position needs, he would have taken the lead long ago in establishing a wage price balance that is good for all of the country.

In the absence of such labor leadership, it would be a good idea for Congress to act on proposals like Senator Tower's. Let's have a method that arrives at the best settlement with the least delay from factions that have a motive for being reasonable.

While Congress is at labor-management reform it might also enact a few other improvements. One is to eliminate the deal whereby striking people can go on welfare and

SCS Work Unit Gets Safety Award

Eual G. Davis, District Conservationist, SCS, Muenster, left, being presented a safety award certificate by John K. Bradley, Jr., Area Conservationist, SCS, Gainesville, in recognition of the Muenster SCS personnel's safety record of 15 years without a disabling injury or motor vehicle accident. Distance traveled during that time was about 300,000 miles.

Safety in general and safe driving in particular is an important item in Soil Conservation Service operations. Personnel of the Muenster Work Unit traveled 18,100 miles in 1970. They drive and work in every conceivable situation in a year's time. On 2 lane, 4 lane, and super highways as well as graveled and ungraveled country roads. In heavy city traffic and in seldom traveled backcountry areas. In a years time they will drive through or across many of the farms and ranches in Cooke and Montague counties. On

farm roads, across cropland fields, pastures, heavy timber areas, gullied land, creek bottoms, up and down mountains, and through plowed ground. They drive and work in all seasons summer, winter, spring, and fall. Rain, sunshine, snow, cold and heat. The men themselves stake ponds and survey through green-briars, brush, up and down gullies, pond dams, over rocks, through plowed ground, and tall grass. Much of their time is spent around heavy equipment while it is in operation. For 15 years the Muenster unit has done this kind of driving and work without a disabling injury or motor vehicle accident. You can't do that without an awareness of safety at all times.

Personnel of the Muenster Work Unit are Eual Davis, Arlin Naegeli, Ray Endres, part time help from Wilfred Reiter, and summer help from Ronnie Wimmer.

Hay Fields Are Lush After Fine Showers

Last Friday's downpour of 2.8 inches was wonderful for the city and a small area nearby, but unfortunately its benefit was limited in the greater part of the community. Reports at the local SCS office reveal that most ponds and

lakes still need a lot of runoff whereas a few are up to a nice level.

On an average, however, the community's general moisture condition is very pleasing. A number of scattered showers seem to have reached all surrounding areas giving pasture and hay crops a fine start. Eual Davis of the SCS office says all farmers have prospects for a lush hay cutting and some expect two cuttings. Many think they will have enough to last through the winter. Now if other areas can get a nice gully washer the ponds and lakes can return to normal.

Last Friday's rainfall was Muenster's best since September of last year and the month's present reading of 4.21 inches is also the best since September. The community's total for 1971 now stands at only 13.50, which is far below normal for this time. The total since October 1970 is only 16.15. For the first seven months this year the total is 9.29 inches.

Hornet Football Practice Begins Monday, 5:30 a.m.

At 5:30 Monday morning, while it's still night, the MHS Hornets will be out with Coaches Glenn Richardson and Bill Moore to start their football season. And through the rest of the week they will have two workouts a day, at 5:30 a.m. and 6:30 p.m. After that they will be on the afternoon practice schedule. Through Tuesday morning they will be working in shorts, then they will put on the pads.

Richardson said he expects to see 38 boys headed by twelve lettermen. If all of them report, and remain, it will be one of the largest squads in Hornet history. Also it seems likely that this year's team will be the biggest in over all average of recent years. Nevertheless it will still be the light weight team of the district, as it was last year. Also it is rated last in pre-season standing, according to Texas Football Coaches Magazine. Richardson said that publication favors Pilot Point, Frisco and Nocona, in that order, but the Hornets will make every effort to change some ratings during the season.

With more than three full line-ups, Richardson expects to have two schedules. The B team schedule will be announced later.

The A team will have their first test in a scrimmage at Callisburg and another with Archer City on the local field. Then they'll go into the regular season of five non-conference games followed by five conference games. All games will start at 8 o'clock. The schedule:

Sept. 10, Valley View, here
Sept. 17, Saint Jo, here
Sept. 24, Whitesboro, here
Oct. 1, Lindsay, there
Oct. 8, Era, there
Oct. 15, Lake Dallas, there
Oct. 22, Pilot Point, here
Oct. 29, Frisco, there
Nov. 5, Sanger, here
Nov. 12, Nocona, here

Kids Asked to Return Uniforms

Now is the time for kids of the summer baseball program to turn in their uniforms and have their deposit checks refunded.

Supervisor Tom Joy announced Tuesday that boys are to bring the uniforms to their team managers before Sunday and the managers will return them to him on Sunday. As he receives uniforms he will return deposit checks to the managers, and boys can come to them for the checks.

Joy said he plans a general repair job on all uniforms, mending tears and re-sewing all rips on reams and lettering, then pack them away for next year.

Mary Ellen Endres To Graduate at UT

Mary Ellen Endres is one of 170 students who have been named tentative candidates for Bachelor of Arts degrees from the University of Texas College of Humanities.

She is a daughter of Mr. and Mrs. Paul Endres, a candidate for graduation at the end of the summer term.

The only thing that gives me of us more for our money today than ten years ago is a penny put in the scale at the drugstore.

Bank Deposit Hits All-Time High of \$5.137 Million

An all time high deposit of \$5,137,601.22 at Muenster State Bank has been reported by President Herbert Meurer. That happened on Tuesday, Aug. 3, and the figure on Monday, the 9th, was only slightly lower with \$5,101 million.

He said the total for more than a month has been near the 5 million mark. First time it got above the figure was on June 16, when it reached \$5,031 million. For most of the preceding year deposits averaged about 4.5 million.

Meurer said that several factors may possibly be combined to account for the increase. One is that crops turned out better than expected, also the recent drought forced an increase of cattle sales. Also some money has been transferred to the bank and two local building funds maybe at or near a high balance.

Decatur Native Named Assistant Coach of Tigers

Sacred Heart Tigers reporting for their first football workout Saturday night will find a new man as assistant to their coach, Tom Joy.

He's Payton Fullingim, a native of Decatur and a spring graduate with a bachelor of science degree in education at Texas Christian University. Besides helping in football he will be head coach in junior high basketball and track.

Fullingim attended TCU on a football scholarship after a fine record at Decatur High including selection as an all-state defensive lineman. He played at TCU his first and second years then had to quit because of an injury.

SH Cubs Expect 10-Game Schedule

For the first time it seems that the little fellows at Sacred Heart High will have a full schedule of football this year. Tom Joy, who will coach the youngsters, says that they will have games with junior teams of all the TISC schools and they will try for games with four schools of this area. They will start practice Tuesday.

To simplify transportation problems the junior games in TISC are all booked with the varsity games. Play will precede the big game, probably starting at 5 or 5:30. Tuesday nights will be favored for games with teams of this area.

Muenster 4-H'ers Win on Records In County Contest

Sixty-one 4-H Club members entered record books in this year's county 4-H record book judging. Top winners in each category had their books submitted for district judging at Denton. From there books compete for state and then national awards.

Of 26 blue ribbon winners in the county ten were from Muenster. They are Lenora Fleitman, senior, Achievement; Chris Felderhoff, junior, Agriculture, Thomas Felderhoff, senior, Citizenship; Margie Felderhoff, senior, Clothing; Paul Reiter, junior, Field Crops; Gayle Sicking, senior, Food Preservation; Kim Reiter, senior, Home Management; Allen Fleitman, senior, Horse; Sandy Reiter, senior, Natural Resources; Peggy Endres, senior, Santa Fe.

Record books are compiled on 4-H yearly projects and include news clippings, correspondence, picture stories, 4-H stories and project record forms. Judging on the county level was by a group of Cooke County residents.

Today it costs as much to amuse a child as it did to educate his father.

Both Schools to Register Friday

Registration for the students of both Muenster schools will be held Friday afternoon and classes will start Monday at Muenster Public School and Tuesday at Sacred Heart.

Superintendent L. B. Bruns said the public school schedule is set up for buses to start their routes at 1 p.m. Friday and registrations to be held between 2 and 3, after which buses will take the students back home.

There will be no buses running for Sacred Heart students. Registration in the grades is

to be done by the parents and none of the students is expected to report. In high school, students will be expected to provide their own transportation to come in and register for themselves. Enrollment time in both departments is 1:30 to 3 p.m.

Monday morning at the public school buses will run at the regular time and the regular class schedule will begin. Tuesday Sacred Heart will start its regular bus and class schedules.

Phone Company On Schedule with Building Project

The date for changing over the Muenster Telephone Corporation from old to new equipment has been set at October 17, and indications now are that the new system will be ready at that time.

Alvin Fuhrman, co-owner and manager, said Monday that 59.61 miles of cable had been plowed into the ground at the close of last week's activity. This is slightly behind schedule but not enough to prevent finishing on time. The entire project calls for 180 miles of cable. And crews started Monday at making the many thousands of wire splices to join sections of cable.

Also under way for about two weeks is an exchange at Rosston to be completed about September 1. And installation of new equipment in the Muenster exchange got started Monday. It will include equipment for direct distance dialing and facilities to change over multiple party lines to one party lines. A Bell System line to Muenster for long distance calls is ready and waiting for the connection on October 17.

Narrow Escape for Lt. Mike Fuhrmann

A story of a narrow escape was told to the Adolph Fuhrmanns in a telephone call Monday night by their son Lt. Mike Fuhrmann, who is training as a Marine helicopter pilot at Jacksonville, N. C.

Earlier, in the day, he said, he was piloting a chopper on a training flight trip to Chicago. Sixteen other service men were with him. On their return they ran into a storm which damaged the machine and forced an emergency landing. Luck was with them and they found a clearing waiting for them at the top of a mountain. Good fortune remained with them as the damage turned out to be small and simple. Repairs were made in a few minutes after which the group finished the flight without further incident.

\$1.662 Million Budget Adopted By County College

Regents of Cooke County Junior College have adopted a budget of \$1,662,930 for the coming year, and have also approved a tax rate of 30 cents per \$100 of assessed valuation.

Dr. A. E. Shasteen, president of CJC, pointed out that the amount paid in by local taxpayers amounts to only 9 per cent of the school's budget. The remaining 91 per cent is supplied by the state and federal governments. He also said that the local 30 cent tax includes 20 cents for maintenance and 10 cents for bond retirement.

In other business the regents approved employment of two new faculty members. Dale Alsop, physics instructor, is receiving a PhD at NTSU. Robert Chaloupecky, PE instructor, is getting a PhD degree at Oklahoma State University.

Principal revenue items listed in the budget were State Funds, \$851,496; Federal Funds, \$105,000; Local Funds, \$294,500; Taxes \$100,000; Auxiliary Enterprises Income, \$220,000; Plant Fund Income, \$53,837.

Principal expense items are Administration, \$208,680; Instruction, \$573,775; Vocational-Technical and non-credit courses, \$190,144; Operation and Maintenance, \$149,080; Repairs \$48,000; Auxiliary Enterprise, \$222,000; Plant Fund Expenditure, \$128,520.

County Tax Rate Raised 11 cents

Members of the Cooke County Commissioners Court in session Monday increased the rate of county tax from 88 to 99 cents per \$100 of assessed value. Valuations continue to be based on 20 per cent of the market value.

Reasons given for the hike are to provide for higher cost of operation, materials and supplies and also to provide for purchase of right-of-way to widen Highway 82 west of Muenster and for a traffic loop from Radio Hill Road to IH-35 south of Gainesville. More extra money is needed for creation of the new 235th District Court and employment of a probation officer and a juvenile officer.

In other business the court appointed Mrs. Boyd Neely as county librarian to succeed Mrs. James Neu, who resigned. And Mrs. Marvin Bledsoe will succeed Mrs. Neely as assistant.

Center Ball Team Wins 1 and Loses 1

The Center's baseball team broke even in a pair of games during the past week. They lost 5-2 to the Gainesville Merchants and won 10-6 over Tom Hess and his NTSU college boys.

Roy Reiter pitched in the Gainesville game, striking out 9 and allowing 1 walk and 3 hits. However, two of the hits were homers and a few Muenster errors helped account for the 5 tallies.

Muenster's two runs came on a 2-run homer by Doug Dennis driving in Dale Klement. Other hits were a single each by Dale Klement and Bobby Bruns.

Next game Gary Howard hurled 5 innings, Roy Reiter 2 and John Schneider 2. Between them they fanned 14 and allowed 6 hits and 5 walks.

Muenster hitters were Tim Endres 3 singles; Dale Klement and Doug Dennis, each a double and a single; LeRoy Hess and Gary Howard, each two singles; Roy Reiter, John Schneider and Bobby Bruns, each one single.

Next action for the Center will be with the Gainesville Police next Sunday at 2 in Gainesville. Tuesday night at 8 they will take on the Gainesville Merchants here.

Joe Linns Move To Landers, Calif.

Long-time Muenster residents, Mr. and Mrs. Joe Linn, left Wednesday to make their home in Landers, Calif. That type of climate, in a high altitude, was recommended by Mrs. Linn's doctor for her heart condition. After an overnight visit in Dallas with Mr. Linn's sister and husband, the W. B. Parkers, Mr. and Mrs. Linn flew to Los Angeles where their son Robert Linn met them. Meanwhile their other son Jeff Linn and his wife are enroute to California in his parents' car and their household things in a U-Haul trailer. The Jeff Linns flew in from California Saturday and visited over the weekend in Sherman with his uncle and family, the Bill Clarks.

Stop That Rubbish

Stop it, you anti-Americans! Stop criticizing everything and everybody and every motive and every action except your own. Stop constantly sniping at your government. What in the world is the matter with you? You have the most wonderful nation on earth, a nation that has gone to extraordinary lengths to uplift the poor, feed the hungry, comfort the afflicted and extend justice to everyone. Yet here you are, applauding the very people who degrade and mock America, who tell you how selfish and corrupt Americans are.

Your own eyes and your own common sense should

tell you that in no other land, under no other system, is the individual more respected or better treated. Nowhere is a person as free to do what he wants with his life. Nowhere in the world, despite our occasional overemphasis on getting and spending are charity and service to mankind more practiced or revered than right here in America.

For the past couple of years you have allowed a small handful of hypocritical critics to flagellate us and our government.

Be realistic, America. Where is your sense of proportion? We aren't a debased or rotten nation. We have our share of criminal misfits, but most of us are pretty decent people — hard-working, law-abiding, God-fearing. All of us want a better life for ourselves and our children, and most of us want a better life for our neighbors too.

HARMFUL EFFECT
But this anti-Americanism is corrupting our national soul.

It's having a harmful effect on our children, who are beginning to believe it. This false picture is making it easier for the haters, the doomsayers and the malcontents, those with the biggest mouths and the smallest consciences, to mislead and confuse us. It is twisting our values, making it difficult for our children to know right from wrong.

Thousands of American boys have been killed in Vietnam by being trapped in hamlets where men, women and children were paraded as villagers, when actually they were armed with Vietcong Molotov cocktails, bombs and what have you. Our boys were trying to be decent and suddenly they found themselves completely surrounded by villagers armed to the teeth and destroying them. But the poor bleeding hearts in America, these anti-American so-called patriots, instead of having any sympathy for our boys who, of course, had to fight back, felt sorry only for the old men and children who got hurt in the mix-up.

Of course they would get hurt in that kind of a mess. We had a lot of boys killed in that action. The anti-Americans had no sympathy for our boys, but they had all kinds of sympathy for the poor villagers who were simply used, innocently or otherwise, by the Vietcong. This is war, make no mistake about it, but these anti-American loudmouths seem to believe we have no right to wage it in our own defense.

DIDN'T ENLIST
One U. S. senator actually said that American prisoners of war in Hanoi might as well stay there, because they certainly wouldn't have been prisoners if they had had enough sense not to enlist for a useless and barbaric war. Well, the fact is they didn't enlist — they were drafted.

And many of the very men who supported President John F. Kennedy when he went into Vietnam and who supported the Tonkin Resolution, later, when the war became unpopular, turned about-face and blamed the whole thing on President Lyndon Johnson. And now they are blaming it on President Nixon, who didn't have a single thing to do with starting this war.

But the very men who are loudest in their criticism of President Nixon and the present situation in Vietnam, which gradually is being solved, are the very ones who really helped start the whole mess. This is the worst display of national hypocrisy we have witnessed in this country.

TERRIBLE ATMOSPHERE
It is unbelievable that so small a minority of Americans, these loudmouths, could create such a terrible atmosphere in this country. If it were not for the loudmouths, the world would know almost nothing about what is going on here, because it is so much more peaceful here, and safer, than any place else in the world. But to hear these bleeding hearts yell, you would think Russia is a Utopia compared to America.

Stop this anti-American rot. Because if you don't America's youth will be consumed by the stench of this hypocritical rhetoric.

Stop it, America, before it is too late!

Hippie Hoffmann

Abbie Hoffmann's latest, "Steal This Book," is distributed by Grove Press. The book is complete with diagrams on how to make Molotov cocktails, lessons in getting the right gun to do the job, and other suggestions for living in "Pig Empire," this "prison that is Amerika. It shows you where and exactly how to place the dynamite that will destroy the walls."

In his concern for the people, Mr. Hoffmann offers lessons on how to kill people or kick cops in the groin. He urges his readers to steal from retail stores. He ignores the fact that shoplifting accounts in large measure for the rise in retail prices.

Undoubtedly Mr. Hoffmann will accept the royalties coming from the sale of his book, availing himself of all the privileges of that capitalist system which he is so intent on destroying. Such illogic should come as no surprise to those who recall his occasional appearances on national television during the trial of the Chicago Seven, when he gave viewers the distinct impression of being mentally deranged.

The moral question raised by Mr. Hoffmann's book is this: How can publishers legitimately exploit mental and moral illness for financial profits, especially when the material published endangers the lives and property of Americans? If a publisher turns out books offering lessons on how to kill people and destroy their property, he is responsible in part for those readers who take his books seriously and put them into practice. An unbalanced Mr. Hoffmann is only partially responsible for the consequences of his book. Whatever death and destruction such literature helps produce also finds its origin in the publishers who promote these ideas.

Beating the System

Many stories have appeared telling of abuses of the federal government's food stamp program. Now one comes to light that equals or tops the best of them — or the worst. It also helps to explain how hippies can thrive on thin air.

After interviewing one of these freeloaders, a columnist for the Oakland, California, Tribune, writes, "He boasts that for 50 cents he buys \$28 worth of (food) stamps. . . . Each week he uses the stamps to buy exactly \$27.51 worth of groceries and gets 49 cents back in cash as change, the maximum amount of cash change he can get on a purchase. Then he adds one penny for the 50 cents to get his \$28 worth of stamps for the next week. The fourth week of the month he sells his food stamps to friends for \$15 cash. Thus in a month he's paid out 53 cents for \$112 worth of stamps, for which he gets \$83.53 worth of food and \$14.47 net profit in cash. . . . It seems there is always a way to beat the system — particularly the system of a burgeoning welfare state.

Justified Resentment

Advocates of measures to deprive law-abiding private citizens of the right of gun ownership have a problem. They find themselves confronted with a growing body of irate citizenry which is sick and tired of seeing criminals riding roughshod over the sanctity of person and property while those who uphold the law are castigated by the politicians as if they were criminals simply because they oppose abridgment of firearm ownership.

Typical of the reaction of gun owning sportsmen and concerned citizens to sweeping antigun measures was apparent in the state of Connecticut when several gun control bills were being considered by the State's General Assembly. Some 4,000 hunters, target shooters, gun collectors and ordinary freedom-loving individuals packed the State Capitol to make known their views. Typical of those views was the comment of one opponent of the antigun proposals who happened to be a woman. She said, "Sportsmen resent being told they must have an ID card, permits and licenses to enjoy their sports. They are tired of seeing persons who use firearms in crime go free while law-abiding citizens are harassed. . . ."

"Beauty is not a Gift, It's a Habit."

The gun control legislation already on the books has not been effective in curbing crime, and there is little reason to believe further legislation would help the situation. That is why gun control advocates that tar the law-abiding and the criminal with the same brush are finding growing public resentment toward lenient treatment of criminals and proposals to disarm the law-abiding citizen.

Back from Trip to Denver, Colorado

Mr. and Mrs. Victor Hartman are back in Muenster after a vacation. They were gone a week. Vic made a trip to Colorado with a daughter, Mrs. Keith Tompkins and children Sharon, Karen and Jim. And Mrs. Hartman stayed in Arlington with the other Tompkins children Judy, Mark, Brian, Mary Beth and David.

The group in Colorado headquartered with the Teddy Gremmings in Denver and saw all the sights in and around the city. Among highlights were an old gold mine, Cinderella City — largest shopping center in the world — and Mother Carbin's Shrine.

On the way back they stopped at Red River and Santa Fe, N. M., for sight-seeing and at Lubbock for a pop call and coffee with the Don Mullers.

Reduced Rates for DDD Phone Calls Start September 1

An adjustment of long distance telephone rates announced by Bell Telephone Corp. on August 1 features a new reduced rate for Direct Distance Dialing and increased rates for operator-assisted calls within Texas. The new schedule goes into effect September 1. Alvin Fuhrman of Muenster Telephone Corp. revealed this week that the new Bell rates will apply here beginning September 1 even though DDD service will not be available for about 6 more weeks. Target date for starting DDD on the local system is October 17.

The Bell statement says that the new DDD rate will be available in towns which are not equipped for DDD when station-to-station calls are placed by providing the operator with the Area Code and complete telephone number, and when the operator is not required to provide any additional assistance.

Comparing previous rates with those which will go into effect Sept. 1, Bell pointed out that an evening 3-minute station-to-station call under previous rates for a distance of 300 miles would have been 85 cents. The same call under the new customer dialed rate will be 66 cents.

Another new rate permits a DDD call after 11 p.m. anywhere in Texas at a cost of 22 cents or less under a new 1-minute initial rate period.

The announced increase applies to person-to-person daytime calls. Previously the charge for 3 minutes person-to-person up to 300 miles was \$1.70. The new rate for that call is \$2.30.

Fuhrman said that the rate changes are based principally on two considerations. Calls that do not require operator assistance cost the phone company less and the customer therefore can be charged less. Also lower rates are offered for late calls to relieve congestion on the lines during day time.

Another change concerns addition of two holidays, Labor Day and July 4, to the list of days on which reduced rates apply for DDD calls. The other three holidays are Christmas, New Year and Thanksgiving. On those days evening rates apply from 8 a.m. to 11 p.m. If a holiday occurs on Saturday or Sunday the Saturday-Sunday rates will apply.

Don't strain yourself trying to reform the world. It has been here a long time without you and will last a long time after you depart.

Linda Lubbers and David Vogel Wed At Nuptial Mass

After honeymooning in Florida Mr. and Mrs. David Vogel will make their home in Muenster. They were married Saturday, Aug. 7, in Sacred Heart Church.

The bride is the former Miss Linda Lubbers, daughter of Mr. and Mrs. William Lubbers of Southmayd. The bridegroom's parents are Mr. and Mrs. Lawrence Vogel of Muenster.

Father Placidus Eckart celebrated the Nuptial Mass at 5 p.m. and performed the double ring ceremony.

Given in marriage by her father, the bride wore a gown of white peau de soie and Chantilly lace with scalloped neckline, bishop sleeves gathered with wide cuffs, and a chapel-length train. The gown was designed by the bride and was made by her friend Mrs. D. L. McKinney.

Her elbow-length veil fell from a satin bow enhanced with Chantilly lace roses, and her flowers were a cascade of white and pink roses.

As the bride entered the church she handed her mother a pink rose and on leaving after the services presented her husband's mother a pink rose.

Bride's attendants were her sister Miss Patsy Lubbers, maid of honor, Miss Karla Vogel, sister of the groom and Mrs. Larry Vogel, a sister-in-law, bridesmaids. They wore floor-length Empire dresses of peau de soie and embroidered lace. The maid of honor was in pink and carried pink and white roses. Miss Vogel was in green and her flowers were white and green roses. Mrs. Vogel was in yellow and carried yellow and white roses.

Gene Vogel was his brother's best man, another brother Larry Vogel and Marvin Tischler, a brother-in-law, were groomsmen. Ivan Koelzer and Charles Cox were ushers.

Carolyn Tischler, groom's niece, and Larry Lubbers, bride's brother, were flower girl and ring bearer.

Anthony Luke, organist, and Mrs. Norbert Walterscheid, vocalist, provided wedding music. Mrs. Walterscheid sang "On This Day" before Mass, "Panis Angelicus" at the offertory, "O Lord I am Not Worthy" at communion and "Mother At Your Feet" after the services when the couple went to the Blessed Virgin's shrine where the bride placed a long-stemmed pink rose on the altar.

Wedding reception and dinner were hosted by the bride's parents in the Parish Hall and a dance followed in the VFW Hall.

Three hundred guests were registered by Misses Mary Guffee and Judy Malopzky. Other members of the house party were Mrs. Marvin Tischler, Mrs. Charles Cox, Mrs. Ivan Koelzer and Sister Gemma Vogel.

For their trip to Florida the bride changed to a pink and white pantsuit with white accessories. She is a graduate of Sadler-Southmayd High School and has been employed at the Ben Franklin Store in Whitesboro.

He is a graduate of Sacred Heart High School and served two years in the Army with the rank of Spec. 4 when he was separated from the service. He is employed at Community Lumber Company.

The rehearsal dinner was held in the Lawrence Vogel home where places were laid for 25 guests and the honor couple presented gifts to their attendants.

The antelope, a native American, has no close relatives, nor has it ever had any on other continents.

The jury foreman announced: "We find the defendant not guilty."

"What possible reason can this jury have for such an astonishing verdict?" asked the judge in amazement.

"Insanity, your honor," was the response.

"What!" explained the judge.

"All 12 of you?"

SOIL CONSERVATION DISTRICT NEWS

By Arlin Naegeli
 What benefits can be obtained by deferring of grassland? The benefits may vary as to the use of the grassland involved. To the livestockman looking for a reserve feed supply this is an excellent way to build up a forage supply for later use.

For the deferral to give the best results the grassland should be rested during the growing period of the key or most desirable grass in the field. Locally, most desirable plants are summer growing and need to be rested from early spring until frost. There are however some soil types which have an abundant amount of cool season grasses and need rest during the period in which they make most of their growth. It is estimated that through the use of regular deferrals and proper use of the grass a field could carry 25% more livestock than the same size field under continuous grazing.

Other benefits obtained from deferrals are an increase in wildlife. Wildlife species such as quail and deer like to be undisturbed and deferrals offer them the peace and quiet they want. Livestock do graze plants that are good wildlife food. With planned deferrals these plants are also rested and provide the wildlife with food and cover and gives them a better place to live.

During periods of light rainfall, such as now, deferrals do make the difference. It is not too late to start your deferral this summer. For more information about the benefits of deferral of grassland, contact your local Soil Conservation Service Office.

Time is a luxury to many of us and it doesn't seem to last any longer than the dollar we lose while we're enjoying it.

Salvation Army Needs Furniture And Appliances

The Salvation Army's Men Social Service Center which serves most of North Texas has issued an appeal for discarded furniture and repairable household appliances.

Capt. William Swyers, commanding officer for the center headquartered in Fort Worth, explained that the goods are needed to sustain the rehabilitation program.

This program helps homeless and handicapped persons working at the center learn a useful trade while they are being rehabilitated, adds Swyers.

After the discards are repaired, they are placed in the five Fort Worth thrift stores for sale, providing the center with its main source of income. The center receives no welfare or United Fund money.

"This program is really the backbone of our rehabilitation project," says Swyers. "If we don't have anything for them to repair, then we can't teach them a trade."

Discarded clothing, such as suits and coats, and blankets, quilts and mattresses are also needed by the center, according to Swyers.

Donations in Muenster will be picked up during August by the Salvation Army truck on the third Thursday. Residents who have items to donate should call 759-4311 the day before the truck is scheduled to make its rounds.

Mr. and Mrs. Ray Swirczynski, their daughter Jeanne and her friend Carol Felderhoff returned Saturday from a flying trip to Disneyland and other places of interest in California. They made the round trip aboard a 747 jet and had a fabulous time.

Sight-seeing tours took them to NBC Television Studios, Universal Studios — they saw several TV and movie stars — ate lunch at Universal commissary, went to Long Beach and Marineland on tours and took a boat cruise to Catalina Island. They also saw the Queen Mary.

live off of us while they are gouging us for higher prices. Another is to eliminate compulsory unionism, which gives union bosses too much power in the manipulation of our economy and even our government, which furthermore has fouled up the organization itself. The undeniable fact is that good unions do not need compulsory membership and bad unions do not deserve it.

'lecreation

'lecreation. It's a word we coined to describe the vital role electric power plays in making all kinds of recreation possible.

We provide the electric power for lots of cabins, marinas, restaurants, resorts, and access areas around here. Power to make life a little more fun. Power that lets you get away from it all, and still enjoy a few comforts of home.
