VOLUME XXXV

MUENSTER, COOKE COUNTY, TEXAS 76252 SEPTEMBER 17, 1971

NUMBER 43

A few weeks ago a question came up concerning the proper voting place of 18-year-olds who are attending college. Should they register and vote in their home towns or where they are living while attending school?

At first sight this appears as only a matter concerning the convenience of the students. Certainly it would be more of a bother for the young people to vote absentee or flock back home on election days, so, voting on campus would generally be preferable.

But people representing the permanent population claim that the issue goes a lot deeper. This is a matter of part time residents, here today and gone in a few years, possibly acquiring the voting power to control local elections.

One can imagine how they could establish conditions favorable to themselves and leave the tab to be picked up by the other people. For instance a town like Denton facing a proposed bond issue to finance a vast recreational program appealing principally to youngsters.

The law says that only taxpayers can vote in such an election, but it's a fact that anyone can qualify by rendering a small item of property for taxation. So the come and go youngsters could have the balance of power to vote benefits to themselves and impose most of the debt on the older permanent residents.

Obviously this kind of deal isn't fair. Fundamentals of justice tell us that it's wrong to let people vote their hands into other people's pockets. But as we think it over we realize that this violation of justice has been going on for a long time. Many of our current economic troubles trace back to the fact that demagogues are buying their way into office by favoring benefits to the something-for-nothing people at taxpayer's expense.

Anthony Harrigan of Southern States Industrial Council observes that United States is fast becoming two nations. One includes productive citizens, taxpayers and workers. The other includes non-productive types, welfare and food stamp recipients, consumers of goods and services paid for by other people.

The laws of the nation, states and local communities are rewritten to supply the wants and meet the demands of the drone population. It is a trend that must be reversed to avoid eventual destruction by the parasitic elements of our population.

Existence of this fact is alarming, and the attitudes of people is even more alarming. On the national level especially, legislators and bureaucrats are unmoved by taxpayer pleas for more economy but they are most solicitous for the tax eaters. A food stamp recipient complains about standing in line waiting for handouts and the welfare service strives to provide more comfort and faster service at added expense to the taxpayers.

Welfare people form an organization to press demands for a bigger share of our earnings and politicians go all out to pacify them, never bothering about our interests in the case.

A horrible example of the mess is New York City, with a seventh of its seven million citizens on welfare, and half of them added to the rolls during the term of the ultra liberal John Lindsay, who now wants to be president. After what he's done to a great city we can imagine what he would do to our great nation. Along with his misguided generosity he can surely be depended upon to bestow increased ballot power to this element which is already raiding the treasury.

The trend of recent years, when the vote was bestowed on drones and illiterates, who can be easily swayed by demagogues, needs to be reversed. If we hope to have a return to responsible government we should bring it back to the control of responsible people.

Hindsight on this subject seems to confirm what poll tax advocates claimed a number of years ago. That system tended to produce a more responsible electorate because persons not sufficiently concerned to pay a poll tax were not expected to vote intelligently. Also there seems to have been a good reason why this nation in its early years allowed only property owners to vote. The policy then was that control of government should be in the hands of people.

## Record Budget of \$877,653 Adopted By Cooke County

Members of the Cooke County Commissioners Court in session Monday adopted an all time high budget for the fiscal year beginning January 1, 1972.

They anticipate expenditures of \$877,653 in three funds as follows. Road and Bridge fund, \$355,734; Road and Bridge Lateral Fund, \$36,744; Administration \$485,175.

Receipts of \$931,509 are expected from the following sources. Ad Valorem Tax, \$495,800; Vehicle License Fees, \$175,000; Officers Fees, \$188,146; State Funds, \$47,024; Other Revenue \$25,539.

The ad valorem tax is based on a tax rate of 99 cents per \$100 of valuation — an increase of 11 cents — on the total county valuation of \$52 million.

The breakdown of the 99 cent tax is as follows. General fund, 48 cents; Jury fund, 4 cents; Road and Bridge fund 21 cents; Permanent Improvement fund, 3 cents; Road and Bridge special fund 15 cents; Lateral Road fund, 8 cents.

Due to the price-wage freeze the new budget does not include pay raises for county personnel. Elsewhere the budget is subject to later amendments to pay bills of indigent patients at the Gainesville and Muenster hospitals. Another possible change concerns an expected federal grant to hire two additional county employees at a total cost of \$11,000.

County Auditor Tom Blount reported that the county's sound financial condition is indicated by an estimated balance of \$105,000 at the end of this year, and approximately \$130,600 will be transferred from the general fund to various other funds.

Blount also said that the county has no bonded indebtedness and continues to operate on a cash basis.

## Hornets Nudge Eagles In 42-34 Scoring Spree

The meeting of Muenster's Hornets and Valley View's Eagles was another traditional thriller, and again the Hornets managed to come out ahead. The score was 42-34 after Muenster's strong second half comeback to overcome a half time deficit of 26-22.

The teams did their scoring in spurts. MHS led with a pair of quickies, then the visitors got four touchdowns and the Hornets retaliated with four more. Valley View added another in the closing seconds.

Muenster got an early start as Valley View fumbled the kickoff and Henry Knabe recovered on the 26. Eight plays made it from there, Jim Endres going over on a quarterback sneak and also kicking an extra point.

After the next kickoff the Eagles moved for two first downs and fumbled again. Six plays made 26 to the 12 and the next three tries gained only one yard. On the last chance play Endres connected with Mark Lippe across the line. Endres kicked for another point.

Then the Eagles took charge. Ricky Barthold passed like a pro as the team went 66 yards to its first TD. Darrell Wolf and Dale Calhoun were prime

## Parents Asked to Control Children At Football Games

Muenster parents attending football games are urged to request to keep their children under control and avoid recurrence of unpleasant incidents like last Friday's.

Principal Charles Cash said he had complaints about rowdy behavior which embarrassed the school and annoyed the visitors, even to the extent of scuffling in front of the visitors' stand and colliding with the cheer leaders.

## Crippled Hornets Take on Saint Jo Here Friday at 8

The price of Muenster's victory last week may prove to be a severe handicap this week. Coach Glenn Richardson said that three more players were injured and his squad has shrunk from 33 to 27.

Mark Lippe, end, has dislocated the shoulder which gave him trouble last year and for which he had surgery during the Spring. He may be out for the rest of the season. Alan Miller, end, and Allen Fleitman, guard, have twisted knees and probably will miss the next game. Former injuries are Roy Klement's and Ronnie Wimmer's broken hands and Kevin Sicking's broken ankle. Added to all this is a hand laceration sustained Tuesday by Tim Felderhoff.

That makes for a rough situation, he said, as the Hornets take on the Huskey Saint Jo Panthers who have just had their spirits lifted enormously by breaking a two year losing streak with a one sided win over Sacred Heart. The Panthers, with a half dozen boys weighing over 200, will have a definite weight advantage.

As regards Hornet performance last week, Richardson was pleased with both offense and defense on the ground but sees a need of improving the passing attack and passing defense. The Hornets completed too few and let the Eagles complete too many.

Friday's game will be played here starting at 8 o'clock.

## Ronald J. Endres Is UTA Graduate

Ronald Joseph Endres was among 335 persons who received degrees at the University of Texas at Arlington following the second six weeks of summer school. He received the Bachelor of Business Administration Degree in Accounting.

Ronald is a son of Mr. and Mrs. Ray Endres and a graduate of Sacred Heart High School.

## Paul Hoedebeck Slightly Better

Word received Wednesday by Mr. and Mrs. Gene Hoedebeck from the Army regarding their son Spec. 4 Paul Hoedebeck revealed that he is slightly improved, is conscious, and that his wife is at his bedside. The message further advised that he is still on the very seriously ill list and cannot be moved to a military hospital at this time.

The young soldier, stationed in Frankfurt, is in a German hospital since Sept. 4 when he was injured in a fall from a train.

His wife, the former Dianne Wiese, flew to Germany last week Wednesday to be with him.

Details of the accident have not been learned.

## The Men In Service

Back From England  
T.Sgt. and Mrs. Pat McCallion and children Dianne, Neil and Nancy are back from England where he was assigned the past three years and nine months. The family arrived here last Wednesday and spent until Monday with her relatives of the Leo Rohmer family. She is the former Agnes Rohmer. Sgt. McCallion will be retired from the Air Force at the end of this month after 20 years of service. Until then the family will be at Tucson, Arizona.

Back From Vietnam  
Spec. 4 Jerry Kneupper is at home in Gainesville visiting his parents Mr. and Mrs. J. P. Kneupper and family after serving a full year in Vietnam. After his 30-day leave he will go to Fort Carson, Colo., to finish out his Army hitch until April 1972. Highlight of Jerry's tour in Vietnam came in the last month when he was selected to be escort for Phyllis George, Miss America, who was there on a tour. He escorted her in his area around Da Nang. Jerry is a graduate of NTSU, Denton, and Miss George is from Denton. Snapshots of them came home with the young soldier.

Good Conduct Medal  
Army Spec. 4 Steve Hess, 20, son of Mrs. Arnold Hess, has received the Good Conduct medal at Fort Hood. The medal is awarded on a selective basis for those who distinguish themselves from among their fellow military personnel through exemplary conduct, efficiency and fidelity during their active military service. Spec. Hess received the award as a clerk in Company B, 1st battalion of the 2nd Armored Division's 66th Armor.

Ends Army Tour  
Pat Hennigan Jr. is back at home, a civilian again after serving in the Army, the past year in Korea where he was an administrative specialist and was a Spec. 5. He returned to Muenster Sunday after a round of visiting with relatives following his separation from the service at Fort Lewis, Wash. He visited uncles, aunts and cousins, the Andy Johnstons in San Francisco, the Bill Neils and Miss Alma Hennigan at Los Angeles, the Frank Hennigans at Albuquerque and finally his brother Mike Hennigan at Fort Sam Houston, San Antonio. Mike is due home in November, finished with his Army hitch.

On 21-Day Leave  
Pfc. Tommy Joe Trachta is spending a 21-day leave with his parents, the David Trachtas, before going to Fort Lewis, Wash., and then to Hawaii for a 90-day data processing school. He was at Fort Polk, La., for basic and advanced training.

3 Property Titles Change at Auction  
Three changes in ownership of Muenster real estate resulted from last week's auction sale of the Matt Schmitz Estate.

W. L. Eddy purchased the two lots and building occupied by the former Schmitz blacksmith shop.

Rody Klement purchased the twelve lots facing Elm Street on block 23. They are located west of the Shamburger property.

J. M. Weinzapfel bought five lots in Block 38, at the corner of Elm and Third.

## Tigers Will Meet Trinity Valley in First TISC Game

Tom Joy and his Sacred Heart Tigers hope to be back in their own class Friday night as they take on Trinity Valley of Fort Worth in their second game of the season and the opener of their TISC race. After being outweighed by an average of about 40 pounds it will be a relief to play boys of their own size.

Even so, the Tigers will be slightly outweighed. But on comparative scores in first games it is hard to determine who has the edge. While Sacred Heart was being crushed 43-0 by Saint Jo, Trinity Valley was clobbered 47-0 by Newcastle.

Furthermore, says Joy, the Tigers are capable of a better game than last week's. They were in a slump, probably awed by the tonnage in front of them. Emphasis in this week's practice is in blocking and tackling, where they had their main troubles. Likewise they're working on pass defense to be ready for a reported "fair passing game." Speed and quickness is expected to be slightly in favor of Sacred Heart.

Physically the Tigers have one casualty. Kevin Pels has been sick and will not be up to par for the game. Otherwise they are fine, coming through the last game with only minor injuries.

The game starts at 8 p.m. and will be preceded by the Cubs' game with Trinity Valley juniors starting at 6 p.m.

Coach Joy recommends the following route for Tiger fans going to the game: Follow IH 35 through Fort Worth to South Loop 820. Go east on S. Loop 820 4 miles to Anglin Dr. Exit. Turn right on Anglin and follow about 3/4-mile to stadium in Forest Hills Park.

## SH Cubs Tie 6-6 With Alvord Kids

Sacred Heart's Tiger Cubs had to settle for a 6-6 tie in their opening game at Alvord Tuesday night.

It was a defensive contest all the way with Sacred Heart putting on the evening's only sustained drive, which got underway early in the fourth and went 65 yards in three first downs before the 3 yard scoring play by Mark Hess. On four other occasions the Cubs were stopped by fumbles before they could get going and once by an interception.

Alvord managed five scattered first downs for the night. However one of them was a big one going 95 yards for a score.

## Potent Panthers Pound Undersize Tigers 43-0

The undersized and understaffed Tigers of Sacred Heart High did not have a chance in their opener last week with the Saint Jo Panthers. They were annihilated 43-0 in the first half and gave up 2 more points in the second half when caught behind the goal for a safety.

First stringers of the Panthers played the first half and dominated the action in a big way. They led 15-0 in first downs, 206 to -9 in rushing and 101 to 0 in passing yardage. However the game was better matched in the second half when the Panther rookies had the field. During that period Sacred Heart led 3-2 in first downs and 18 to -3 in rushing but Saint Jo led 33-0 in passing yardage.

The way of the game was apparent in the opening minutes as Saint Jo marched 74 yards in nine plays to the first score. The Panthers got possession of the ball six times and went all the way on every possession.

Jeff Seymour went 4 yards for the first TD and Ricky Newton kicked for an extra point. On the next one-quarterback Seymour sneaked in from the 2 ending a 33 yard drive and Newton added another point. Again just before the quarter Seymour went 17 for a score and Newton kicked the bonus point.

Then Newton scored from a yard away and a pass for bonus points failed; Seymour passed 1 yard to Greg Smith for a TD and again for a PAT and finally James West scored the last TD from the 5 and a pass for bonus points failed.

## County UF Campaign Goal Set at \$52,643

The Cooke County United Fund president, Art Oake, announced recently that the budget committee chaired by Don Howeth has completed its work of receiving requests and designating allocations for 1972. The goal for the 1972 campaign has been set at \$52,643.00.

As was the case in the past year, twelve agencies will benefit and share in the U.F. Their allocations for 1972 are: Boys Club - \$10,345; Boy Scouts - \$5,500; Camp Fire

## Nine Dates Listed As Legal Holidays For Texas Banks

One of the many laws passed by this year's state legislature and effective as of September 1, 1971, pertains to bank holidays designated by the state as days in which all Texas banks must be closed.

Herbert Meurer, president of Muenster State Bank, this week brings those dates to the attention of its patrons. Nine holidays are listed as follows.

New Year's Day, January 1. If the date falls on Saturday, the closing date will be the preceding Friday, if it falls on Sunday, the closing date will be the following Monday.

George Washington's Birthday, third Monday in February.

Memorial Day, last Monday in May.

Independence Day, July 4. Labor Day, first Monday of September.

Columbus Day, second Monday of October.

Veteran's Day, fourth Monday of October.

Thanksgiving Day, fourth Thursday of November.

Christmas Day, December 25. If the date falls on Saturday the closing date will be the preceding Friday, if it falls on Sunday the closing date will be the following Monday.

Robert Haverkamp flew in from Nigeria, West Africa, to spend a short vacation with his parents, the Alois Haverkamps, and Monday this week started classes in Odessa. It's a six-week oil school for Santa Fe Oil Co. employees. Rainard Walterscheid is also enrolled. He has been on vacation from his job in Singapore.

Sacred Heart was a different team starting the second half against players of their own caliber. Following kickoff they started from their 32 and moved 56 yards to the Panther 12 in six plays. Then suddenly they ran out of steam. Next

Muenster High seniors have taken on a new project to raise funds for their class treasury. They are selling Hornet sweatshirts.

Girls - \$5,500, Camp Sweeney - \$7,000, Council on Alcoholism - \$1,500, 4-H & FFA - \$1,550, Muenster Youth Council - \$600, Red Cross - \$10,000, Salvation Army - \$6,500, Texas Rehabilitation Center - \$350, Tri-Hi-Y - \$600, and Campaign expenses and dues - \$3,898.

Mr. Oake also announced that the campaign chairman for 1972 will be Charles Draper, manager of inventory at Southland Paint Company. Prior to his Gainesville employment, Draper was with the U. S. Air Force Academy in Colorado Springs, where he was a coach and purchasing officer for the Athletic Department.

Mr. Draper indicated the 1972 campaign emphasis will be "if you don't do it, it won't get done!"

## Grass Judging Contest Set Oct. 5 By Soil District

The board of directors of the Upper Elm-Red Soil & Water Conservation District, along with other agricultural workers in the district, set Tuesday, October 5th, as the date for the annual grass judging contest.

"This will be our 22nd annual contest," said J. H. Bayer, chairman of the board. "The board started this contest back in 1950 and it has lasted down through the years and has proven to be one of our best contests for the youth of this district," Bayer said.

The contest will be held at Cooke County Junior College in Gainesville. Registration will start at 1:00 p.m. and actual judging at 2:00 p.m. This contest is open to all agricultural extension service 4-H Clubs and Future Farmers of America Chapters in the three county district. "We hope to have at least 100 students competing in this year's contest," Bayer stated.

This is a unique contest in that it is based on actual knowledge of fifty plants growing on the farms and ranches of this district. These plants are identified by giving them the correct common name and then classified as to grazing value, wildlife value, annual or perennial, native or introduced, and as to whether cool season or warm season growing plant. It would be purely accidental to make a very high score by guessing.

The students who apply themselves study and practice for a number of days before the contest to learn as many of the common plants growing about them as possible. With the help of their advisor they can become very proficient in learning the common plant characteristics. This type of information is helpful to them all through future life as many of them will own and operate farms.

Chairman Bayer stated that plans call for a meal to be served to all team members and their coaches after the contest. Awards will be presented winning teams and high scoring individuals.

This contest will have a junior division for the first year agriculture students and a senior division for advanced students. A team will be composed of four students with the team score made up of the three highest scoring individuals. Each school or County 4-H Club is requested to enter a team in each phase.

The sweatshirts are available in white with red lettering or red with black lettering in the full range of sizes for youths or adults; and the price is \$4.00.

The class intends to submit its order on October 1. Persons who want one may contact a senior before that date.

## 10 Commandments For Parents

Popular entertainer Sam Levenson is known for his humor and his sharp repartee. But that Sam Levenson, the performer, has another side to his character, is well demonstrated by the altogether serious and non-funny rules for parents which he calls his "Ten Home Remedies for Juveniles." They read as follows:

2. Thou shalt make thy home

a sanctuary of love and devotion.

3. Thou shalt honor the teachers of thy children and teach thy children to honor them.

4. Thou shalt not condone the faults of thy children through a misguided sense of family loyalty.

5. Thou shalt teach thy children respect for the law and keep them from the companionship of children who indicate disrespect for the law.

6. Thou shalt not lead thy children into temptation by providing them with the

## The Real Red China

There is a lot of juvenile ecstasy over President Nixon's visit to Peking. The media tend to gloss over the fact that Mao has publically stated his indifference to the appalling human price that would be exacted by a thermonuclear holocaust, which China's growing capacity to launch a thermonuclear strike makes ever more possible.

The editors of Communist China 1949-1969 do not explicitly conclude that any softening of America's hard line policy toward Red China will help her economy. It will, however, enhance her ability to produce the means needed to wage just such a war, and therefore will not be in America's self-interest and those of the free world.

"Communist China" (Dr. Shih, New York University Press) gives the lie to those who wish to believe that Red China is coming around. Even though her leaders have stopped murdering millions of "bourgeois reactionaries," Red China's foreign adventurism, domestic repressiveness and cultural stagnation give evidence that things are not looking up in the land of Mao. Red China is not coming around.

Those who champion setting up normal relations with Red China might inform themselves of what passes for intellectual freedom there. Try reading Dr. Shih's essay on "the State of the Intellectuals." Shih writes of the Red Chinese attitude: "Intellectuals and semi-intellectuals who are useful in various degrees and who are basically loyal should be given appropriate work, trained adequately and led gradually to correct their weaknesses in the course of our sustained struggle, in order to enable them to remould themselves to adopt truly the point of view of the people, and to get along with the veteran party members and other members of worker and peasant stock." The Communist Party takes precedence over everyone and everything.

8. Thou shalt protect the morals of thy children from the indiscretions of youthful ardor and inexperience.

9. Thou shalt conduct thine own affairs in such a manner as to set an example worthy of imitation by thy children.

Meanwhile Congress has authorized huge credits by Export-Import Bank — in effect credit guaranteed by the U. S. taxpayer — for trade with Communist nations. Our government appears hell bent on repeating the "scrapiron to Japan" blunder on a larger scale.

## Purcell Proposes Amendment to Stop Bussing Children

A Constitutional amendment to halt federally imposed bussing of school children was proposed today by U. S. Representative Graham Purcell. "Unless this step is taken," the Texas Democrat stated, "we will see the irrevocable destruction of the world's most effective educational system — the neighborhood school-house."

Purcell's amendment, if ratified, would prohibit the forced assignment of children to schools outside their neighborhoods. "After all," the veteran legislator said, "what we're seeking is the best education possible for every child in the United States regardless of their race. Shuffling youngsters from one school to another over the course of their fundamental education seems to be the most self-defeating program anyone ever dreamed up."

Congressman Purcell insisted that the emphasis should be turned instead to an improvement of the educational quality of public schools. The proposed amendment would also require the government, from federal to local levels, to concentrate available resources on substandard schools.

I have seen the welfare system corrupt thousands, making beggars of once proud and industrious people. I have seen otherwise proud citizens shun the responsibility of caring for aged parents and shift the burden to public aid. I've seen precinct captains help people get on the welfare rolls and then threaten to get them off if they don't 'vote right'. The welfare system is not the 'American Way' — it must be drastically revised or abolished altogether.

## Forgotten Lesson of History

The sale of American scrapiron to Japan before Pearl Harbor, soon returned to us in bullets that killed thousands of Americans, used to be the guilt-laden symbol of policy that recklessly put profit above national security.

Despite the opposition of the Chiefs of Staff and the Defense Department, Washington has withdrawn its opposition to the sale of \$12-million worth of British computers to Soviet Russia. The doors have thus been opened to similar sales by American producers. Its backwardness in computer technology has been one of the critical bottlenecks in Soviet industry. Moscow has promised that the British computers will not be used for military purposes. But at the very last, as Admiral Hyman G. Rickover has warned, they will "free other computers of Soviet design for weapon use."

Expert analysis of Soviet weapons on display in the Israel-Arab war of 1967 and in the protracted conflict in Indochina has identified the low quality of trucks as a conspicuous weakness in Soviet military equipment. Under a \$700-million contract the Mack Truck company would cure that weakness by building the world's largest truck factory in Russia. So far there has been no sign that our government disapproves the deal. Only a year ago a similar proposal by Ford was blocked by Washington — that's how fast the hope of profit is taking priority over the logic of national security!

### Club Starts New Year at Party for Officers, Guests

Mrs. Arthur Endres received members of the Muenster Civic League and Garden Club and their guests in her home Monday night to open a new club year. Mrs. Pat Stelzer was her co-hostess. The meeting honored outgoing officers and welcomed new and prospective members.

Mrs. Steve Moster registered 30 guests and pinned each with a clover identification. Name cards were silhouettes of sunbonneted girls in many colors with inscriptions "How does your garden grow?" Mrs. Moster chose a color to complement each guest's dress. The novel cards were made by Mrs. Stelzer.

Presiding at the tea table were Mmes. Joe Fisher, John Fisher and Stelzer. The board held the crystal punch service, trays of assorted cookies and other sweets and an arrangement of long-stemmed red roses by Mrs. Dan Luke.

Another arrangement using yellow and orange gladioli, apricot mums and yellow carnations stood on a table where displays arranged by Mmes. Endres, Stelzer and Ernest Jaska told the story of garden club work. A poster of silhouetted gardeners portrayed club aims and purposes and accented the theme of this year's activities: "Gardening for Beauty and Bloom."

Another poster listed club projects, among them donating books to Muenster Public Library, placing books on Ecology in schools and libraries, landscaping hospital grounds and a continuing project of many years — landscaping and maintenance of Sacred Heart Cemetery. And selling place mats and wild flower stationery.

Another poster invited "Come and learn with us" ideas and listed guest speakers for the coming year. On display were several copies of new study guides on Ecology. Samples of items for sale throughout the year were shown. These include Christmas wrap, wildflower notes and stationery and reversible place mats. This is a state project in which the local club participates. On another table, booklets on flower arranging were available for purchase.

Also shown were hand-screened Christmas cards designed by Sister Roberta Charlotte, OSB.

Mrs. Endres' guest from out of town was Mrs. David R. Smith of Gainesville who is zone coordinator for District 2, Texas Garden Clubs, Inc. She also is president of the Gainesville Council of Garden Clubs and a member of Town and Country Garden Club.

Next month's meeting will feature "Growing Irises and Bulbs" by Mrs. Paul Endres. Mrs. Joe Hofbauer and Mrs. R. N. Fette will be co-hostesses. Roll call will be answered by naming a bulb.

Sunday visitors with Mr. and Mrs. John Herr were children and grandchildren Mrs. Earl Shepherd and children of Dallas, the Leonard Bengforts and family of Lindsay, joining the Don Wilsons and sons, the Richard Herts and children and Mrs. Tony Marr and Shelly. The Q. D. Pettigraw family of Kaufman missed the gathering. Their ten year old daughter Sherrie was a shut-in with 30 stitches in her body. She walked through a glass door.

They also drove through the city, visited the new Cowboy Stadium at Irving and toured the University of Dallas campus. Finally they had a wiener roast at a roadside park.

While all this has been going on, the permanent teeth are slowly developing in the jaw bone so they can come forth at the proper time.

### Early Dental Care Is Foundation of Good Adult Teeth

"Pedodontics" is a big word with a simple meaning — the care and treatment of children's teeth. A major part of pedodontics is preventive dentistry, and preventive dentistry for the very young is the one great hope for a realistic solution to our dental woes.

If a child's teeth are properly cared for up to age 15, a strong foundation has been laid for minimizing dental troubles in later years.

At about 6 months of age the four front teeth — two upper and two lower — begin to peek out. These front teeth are incisors, the cutting teeth. By age 7 to 11 months, four more teeth, upper and lower, start to come in. These are the lateral incisors at either side of the central teeth. Then Mother Nature wisely skips a few spaces in order to properly shape the jaw. In 12 to 16 months, the back teeth or molars, come in. Then the cuspids show to fill in the space between. At about 24 months, the second molars come in.

Up to this point all teeth which have erupted are primary teeth, and although temporary they are vital. They help shape the face, help the youngster learn to speak distinctly, and help him nutritionally.

While all this has been going on, the permanent teeth are slowly developing in the jaw bone so they can come forth at the proper time.

The first permanent teeth to erupt are molars — sometimes called "six-year" molars simply because they emerge at about age 6. Because they do not replace the first teeth but come in just behind them, these molars tend to confuse parents who think they are also temporary teeth.

This error can lead to unfortunate consequences. Since the "six-year" molars are permanent teeth, they will not be replaced if lost.

Family dentists strongly emphasize the importance of watching for the six-year molars. They are important to the structure of the mouth. The manner in which they interlock with their opposite teeth will determine the eventual shape of the jaw, facial contour and regularity of alignment of other teeth.

Because of their importance, these first permanent teeth are often referred to as the "keystone of the dental arch."

The strength or weakness of adult dental health — barring loss of teeth through accidents — can invariably be traced to habits of preventive dentistry learned or left unlearned in childhood. And when it comes to preventive dentistry, the pedodontist is a child's best friend.

## NOTES FROM THE LIBRARY

By Bettie Luke

Two new books on gardening are on the shelves at Muenster Public Library: "Helen Van Pelt Wilson's African Violet Book" containing articles on leaf propagation, seeds to seedlings, how to hand pollinate, pests and diseases and much more. The book has beautiful illustrations.

Also "Betty Ajay's Guide to Home Landscaping." The author's many years of professional experience as a landscape designer convinces her that the problems discussed in this book are the most crucial to successful landscaping and yet they are the ones most often ignored. The book also contains a list of plants for special purposes.

Come and read with us.

## Hornets - - -

all the way. Try for extra points failed. The Eagles led 20-14.

Shortly after that Jim Endres tried a pass to the left side. Wolf of the Eagles intercepted and breezed 30 yards to the goal. Another try for points failed putting the Eagles ahead 26-14.

The Hornets' comeback effort was stopped again by an interception on the second series. Four plays later Valley View kicked and Muenster was 71 yards away. Four plays reached midfield as the clock showed 49 seconds. Three passes made the next 50 yards — to Rickey Swirczynski for 22 and again for 12, then Endres rifled for 16 yards to Alan Miller across the line. Hank Trachta stormed over for bonus points.

Starting the second half Muenster moved 37 yards to the Eagle 21 then Endres hit Miller with a pass to the 5 but a vicious tackle caused him to fumble.

The Eagles made two first downs and Barthold set the Hornets back to their own 22 with one of his long booming kicks. After two first downs to midfield and an exchange of kicks Muenster was back to its 30. At that point Swirczynski sifted through on a sweep to the left and did lots of fancy side stepping on his 70 yard run to the goal for the go-ahead score. Trachta added 2 and the count was 30-26.

After an Eagle first down and another long kick by Barthold Muenster was on the 11. One play lost a yard, then Endres hit Miller in the open and he went 81 yards to the 9 before being caught from behind. Henry Knabe stormed over but a holding penalty nullified the TD and set Muenster back to the 20. Two plays later Endres hit Swirczynski across the line.

The Eagles got to midfield on kickoff and made first

downs to the 30, then completed a pass to the 5. However on offside penalty nullified the play and set off a series of set backs that probably holds a record. Three major penalties followed the five yard penalty then Barthold was thrown for a 15 yard loss and fumbled. Muenster took over on the 2 and Hank Trachta crashed over.

With seconds remaining the Eagles got their last TD, a bomb to Mills for 74 yards. Another pass to Mills added two points.

The first half of the game was more even than the score. Muenster led 13-12 in first downs and Valley View led 197-196 in total yardage. In the next half the fine runs of Knabe, Trachta and Swirczynski netted 172 yards while Eagle runners had a net loss of 5 yards. However Eagles led 149-114 in total passes.

Each team made 7 first downs in the second half.

four tries netted a yardage of -2 and they had to give up the ball on the 14.  
 Saint Jo's first effort was a fumble recovered by Mark Schmitt. The Tigers, on the 12, had their second scoring opportunity but went backward again. They lost 8 yards on the series.  
 The final Panther score came near the end of the game after Sacred Heart was on its 20 following a punt. Two tries failed to gain, then set-backs of 11 and 9 gave Saint Jo the 2 pointer.

**Class Officers in Junior Hi Elected At Public School**

Officers of the two junior high classes at Muenster Public School have been announced as follows by Principal Charles O. Cash.

**SEVENTH GRADE**  
 President, Brenda Barnhill; vice president, Calvin Otto; secretary-treasurer, Jimmy Wolf; reporter, Darla Stoffels; sponsors, Mrs. Gwen Trubench and Mrs. Loretha Cash.

**EIGHTH GRADE**  
 President, Bobby Endres; vice president, Sheila Grewing; secretary-treasurer, Kimberly Klement; reporter, Joe Walterscheid; sponsors, Mrs. Patsy Sloan and Mr. Billy Moore.

Mrs. Larry Yosten of Rusk was back in Muenster Tuesday and overnight visiting her mother-in-law Mrs. Bob Yosten and her daughter Miss Vivian Yosten who lives with her grandmother and attends Sacred Heart High. Mrs. Larry Yosten reported son Matt attending Lon Morris Junior College at Jacksonville. He commutes. Tuesday evening Mrs. Yosten went to Valley View to join relatives in the golden wedding celebration of her uncle and aunt, Mr. and Mrs. Frank Rauschuber.

During 1970 6,500 people were killed as a result of driving off the roadway. Reasons for this type of accident are tired motorists, unsafe cars, and those under the influence of alcohol.

**LOUSY LUCK IN FOOTBALL CAN'T GET ANY WORSE**

Raw deals from Lady Luck seldom if ever come rougher than that dealt out to Valley View's Eagles in a series of football plays here last week. Misfortune not only dealt a hard blow, it kept on pounding.

The whole calamity started with a 25 yard pass completion to the 5 yard line. A lineman was offside on the play, so the gain was nullified and the team got a 5 yard penalty instead. That was 30 yards of tough luck.

On the next play someone was called for holding, so the ball was moved back 15 yards more, to the 50. That was followed by a perfectly legal play, but fouled up execution, which netted a 3 yard loss. At this point it was second down with 33 to go for a first down.

Another fouled up play came next and the quarterback, caught for another loss, tried to turn the play into an incomplete pass. But officials ruled it as intentionally grounding the ball and stepped off another 15 yard penalty. So it was still second down but 48 to go.

Still, that wasn't the end. A frustrated Eagle on the next play had his mouthpiece draping from the side of his helmet. Another major penalty; still second down, but now 63 yards from a first.

After that kind of miserable luck for five plays anyone would think there had to be a turning point. But not yet. It just got worse. On the next play the quarterback was scrambling behind the line looking for a chance to throw the bomb when a blitz hit him and he fumbled. The loss was another 15 yards, and Muenster recovered just 2 yards from the goal. Total loss from the original line of scrimmage was 68 yards.

Figuring yardage from the point of the pass completion, it's a total loss of 93 yards in the series — at least, a challenger if not the champ for the all time record of going backward.

And to think it happened to Ricky Barthold, one of the classiest high school quarterbacks of North Texas. For a player of his ability this ought to be a full season's quota of bum luck.

Aggravation caused by dripping faucets that hike water bills has been ended for homeowners by a new faucet that looks like any other two handle faucet, but is trouble-free, maintenance-free and drip-free. Delta Faucet Company engineers have come up with a new valve unit that eliminates the most troublesome part of the faucet — the compression washer. They perfected the Delex rotary cylinder valve design that does away with metal, doesn't need compression or compression washers and has no stem threads to wear out, no washers to crush, tear or replace. They've used modern "space age" materials, including Teflon to eliminate friction. Get details from your local plumber or plumbing contractor-supplier.

**ASCS Office Has  
Official Answers  
On Prices, Wages**

All residents of Cooke County may obtain answers to questions on operation and interpretation of the Presidential order of August 15 on prices, rents, wages and salaries from the Cooke County Agricultural Stabilization and Conservation Service (ASCS) Office, according to Chester Calhoun, Chairman of the County ASC Committee.

County ASCS offices throughout the United States have been chosen as information centers to answer questions from all citizens on President Nixon's Executive order which is designed to stem inflation and strengthen the national economy.

The Cooke County ASCS Office is receiving official answers to questions concerning the President's action, and any person in Cooke County who wants or needs precise information should get in touch with the County Office, Calhoun said.

The Cooke County ASCS Office is located at Room 222, Federal Building. The mailing address is P. O. Box 460. The telephone number is 665-4328. In charge of the office is A. R. Robbins, County Executive Director. The office has a staff of 4 persons.

"Ours and all ASCS offices throughout the nation, will function as information centers in all locations outside of highly urbanized areas," Calhoun said.

County ASCS offices are not to handle complaints or appeals, he said. They will serve only to provide official information. Persons with complaints will register them with the most convenient district or sub-district office of the Internal Revenue Service. Forms are available in the ASCS offices for registering complaints.

"Neither will interpretations or guesses be made by ASCS county office people. They will answer only those questions for which they have been supplied answers. If they don't know the answer to a specific question, they will say so. If a member of the public wants the county office to obtain an answer, the question will go by phone or mail to the nearest IRS district office," Calhoun said.

At a restaurant counter, one man asked for a ham-on-rye, apple pie, and coffee. "Sounds good," nodded the friend. "I'll have the same, except make it goat beef, chocolate pie and tea."

As I understand it, we were an underdeveloped country 180 years ago, with a population of three million. While we were underdeveloped, some of the now underdeveloped countries were then developed. Now that they are underdeveloped, we are becoming underdeveloped helping those underdeveloped countries become developed again. When we finally become underdeveloped and the underdeveloped nations are developed, I wonder if they will come to our aid?

**Well, What Do You Know?**  
 fun, games and knowledge

by MARTHA GLAUBER SHAPP, Editor, The New Book of Knowledge

**Would you like to learn to make horse reins?**

A rainy day is a good time to learn to make horse reins. They are made on a wooden spool. You can buy a spool for horse reins, or you can make one very easily. Take a large empty wooden spool. Hammer four short nails with very small heads into one end. Place them at even distances from one another.

holding and over and off the nail toward the center of the spool. Continue around and around the spool, keeping the wool outside each nail, picking up the bottom thread and passing it over the thread you're holding and over and off the nail each time. The finished horse reins, which look like knitted rope, come out through the hole in the spool. When you have 2 or 3 yards and want to stop, cut off the wool about 1 foot from the spool. Draw this short piece of wool through the loop of wool around one of the nails and make a loose knot. Do this with the other three loops of wool in turn. Then your knitting won't unravel.

If you place your long piece of knitting on a table and carefully wind it into a flat circle, you can sew it together with an overcast stitch to make a table mat or a doll's rug.

**Prison Rodeo Will Have TV Stars on All Performances**

Based on the long and colorful history of the annual Texas Prison Rodeo, the 40th annual event to be featured each Sunday in October promises to be filled with plenty of action, plus the best in entertainment as special guest stars join tough convict cowboys in this fast-moving two-hour show.

Held in the prison's \$1 million stadium in Huntsville, the show begins at 2 p.m., following a pre-show special by inmates at 1 p.m.

Guest stars for this year's Prison Rodeo series include Dottie West and the Heartaches on October 3; Connie Smith and Nat Stuckey on October 10; Charlie Walker on October 17; The Waylon Jennings Show on October 24, and the Porter Wagoner Show on October 31.

Also included in this year's rodeo series will be the popular chuckwagon races and the thrilling chariot races which will be highlighted each Sunday.

According to Hoot Crawford, arena director for the rodeo, he will have a big choice of convict riders since more than 300 hopefuls have applied for a place on the program.

In addition to the bronc riding and bull riding events, the Texas Prison Rodeo offers its own brand of the Mad Scramble, Calf Tussle, Wild Horse Race and the Hard Money event, which pits 25 convict cowboys against one bull with a money sack tied to its horns. Jim Batten, rodeo supervis-

or, says that there are plenty of good seats available for all performances, and block tickets may be obtained by writing Texas Prison Rodeo, Box 99, Huntsville, Texas, enclosing check or money order. There is no reduction in the price of children's tickets. Net proceeds finance the rehabilitation programs for more than 15,000 inmates of the Texas Department of Corrections.

**Little Monsters Drop 16-6 Contest At Valley View**

The Little Monsters of Muenster Public School looked better on the field than on the score board in their game with the Valley View Juniors Tuesday night.

They lost by a count of 16-6 after playing a fine game. Coach Glenn Richardson said he was well pleased with their effort, both offensively and defensively, and expects them to develop into a good team.

Their scoring play Tuesday night was a pass from Danny Endres to Damian Walter-scheid for 15 yards. It was the finishing touch for a steady drive of about 65 yards early in the final period. The team made other drives earlier in the game but could not keep them going.

Valley View's scores came on two big break away plays. One went up the middle for about 45 yards, the other around end for about 35 yards.

Next on the boys' schedule is a game at Callisburg on Tuesday, the 28th.

Discontents do arise from our desires oftener than from our needs.

**Confetti - - -**

ple who have to pay for it. Moving back in that direction is hard, but it's really the only way to restore sanity in government. If we're going to preserve economic stability the country has to reduce and eventually remove the opportunity that drones now have of voting their hands into responsible people's pockets.

**This isn't a bitter attitude toward the have-nots.** It's a matter of avoiding calamity farther down our present course. As benefits increase to the undeserving and the load increases on the taxpayer it's inevitable that more will choose the gravy train and fewer will be left to pay the bill. Eventually all will be in need and none left to pay, and a dictatorship will rise to bring order out of chaos. People need to realize that our present folly is headed for disaster followed by tyranny.
