VOLUME XXXVI

MUENSTER, COOKE COUNTY, TEXAS 76252 FEBRUARY 11, 1972

NUMBER 12

Shocking news to many of us who still hang on to the idea of superiority in the American way of doing things is a graph showing US at the bottom of a list on output gains per man-hour from 1965 to 1970. Our gain averaged 1.9 per cent per year while Japan gained 14.2 per cent, the Netherlands 8.5 per cent, Sweden 7.9 per cent, Belgium 6.8 per cent and Canada 3.5 per cent.

Industrial output is determined mostly by two factors: the degree of technological advancement and the degree of application of the people on the job. As regards the first factor, other industrial countries of the free world are moving up, because, to a great extent, of the help we gave them in modernizing their methods and equipment. Even so, we are still first in technical advancement.

But that second factor makes the difference. The attitude of American labor isn't what it used to be. Too many workers have lost their old time feeling of integrity and pride in their work and are interested mostly in how much they can get and how little they can get by with. That, primarily, is the reason behind featherbedding, slow-downs and sloppy work.

Furthermore it is the big reason behind the rising cost of American products, leading to the loss of markets abroad and here. When we think of our declining volume of exports and our increasing volume of imports we have to realize that this country is simply pricing itself out of the market. Hundreds of factories have closed down here in the past two decades because their products were undersold by foreigners.

Still another factor is involved in our predicament. That's the cheapness of foreign labor, which is deeply resented by millions of American workers who feel the pinch of the competitive market.

There, again, the American attitude has been the big cause of trouble. Demands for wage increases not justified by production increases have upped unit prices to the dismay of consumers both here and abroad.

We have developed false ideas of the value of money. So many people were concerned about increasing their income without realizing that they were forcing price increases which affected themselves as consumers. We've vastly increased earning and spending levels but that doesn't mean we've prospered proportionately. Prosperity depends not upon the money we earn but upon the things we are able to buy with our earnings.

With that fact in mind, let's assume that American labor all these years had been operating on the principle of a fair day's work for a fair day's pay. No featherbedding, no slow-downs, no shoddy work, no wildcat strikes. No raises unless justified by more production and no other undeserved concessions. On the part of labor bosses an honest, dedicated leadership to see that workers get their fair share of the economy's progress, no extortion or exploitation but teamwork with industry in improving the economic well being of everybody.

Such conditions, if now in effect, would put a lot less money in people's pockets. However we can be sure that it would give us a higher standard of living. Considering a more conscientious application to the job and a lower wage rate we can be sure of a more favorable price-wage ratio than we have now. A week's pay would buy considerably more than it does now.

Besides increasing domestic buying power the lower price level would increase our foreign market. And along with that it would increase the value of savings. Imagine the money a person laid aside in 1940, what it can buy now, what it could buy if we had a more sensible level of both wages and prices.

Then take into account the possible increase of employment resulting from more buying power of savings, current earnings and greater export value.

For many years we have taken our advice from false prophets. We thought prosperity was measured in dollars, (Continued on Page 8)

Late Filing Candidates Spark Political Interest

Local interest in 1972 politics took a sharp upturn Monday when eight candidates beat the year's filing deadline by getting their names on the dotted line before 6 p.m.

In races that concern the voters of Muenster, two of those late announcers are running for sheriff opposing Bill Pratt, two are trying for commissioner of Precinct 3 opposing Earl Taylor, three are candidates for state representative of District 23 opposing Bill Sullivant, and one is a candidate for state senate of District 22 opposing Tom Creighton and Tom Holmes.

Even more activity concerns Commissioner Precincts 1 and 2. Five are running for the job now held by retiring commissioner C. W. (Shorty) Rudd of Precinct 1. They are C. E. Watson, John Hargesheimer, D. L. Rogers, Ernest Reeves and Jesse Rivoire. And three are going for the unexpired term of the late Edd Hames of Precinct 2. They are Mrs. Edd Hames, Vernon Friedrich and G. M. Boyd-stun.

The toughest contest to develop out of Monday's filings apparently is for the office of state representative. It will have both Democratic and Republican primary races followed by the long campaign to the November general election.

Since late in 1971 Bill Sullivant of Gainesville and Lynn Vowell of Valley View were

the candidates. Monday brought a switch as Vowell dropped out and Jim Ashley of Gainesville threw his hat into the ring.

Meanwhile two of the county's three GOP hopefuls also signed to try for state representative. They are Roger Martin of Gainesville, a 1970 candidate for governor and Billy Mayo of Tioga. So, until May 6 it will be Sullivant vs. Ashley and Martin vs. Mayo. After that the two winners will run until November.

While those races developed eleven other hopefuls were fortunate enough to get by without a race. Nine of them will be on Muenster ballots.

The Democratic ballot on which local people will vote for county and district offices will have the following candidates:

For Congressman, 17th District: Omar Burleson, re-election.
For Board of Education, 17th District: James M. Binion.
For Judge, 16th District: W. C. Boyd, re-election.
For Judge, 235th District: W. A. Hughes, Jr.
For District Attorney, 235th District: Jim Hatcher.
For Tax Assessor Collector: Jo Hillis, re-election.
For County Attorney: Jerry W. Woodcock.
For Sheriff: Bill Pratt, re-election, Jessie Ramsey and Carroll Banks.

For State Representative, District 23: Bill Sullivant and Jim Ashley.
For State Senator, District 22: Tom Creighton, re-election, Tom Holmes and E. Carney Marsh.
For Commissioner Precinct 3: Earl Taylor, re-election, Richard Neu and Joe J. Luttmer.
For County Surveyor: Martin B. Moore Sr.
For County Democratic Chairman: Billy Ray Hill.
County and district candidates on the local Republican ballot will be as follows:
For State Representative, District 23: Roger Martin, Billy Mayo.
For County GOP Chairman: John L. Tracy Jr.

For State Representative, District 23: Bill Sullivant and Jim Ashley.
For State Senator, District 22: Tom Creighton, re-election, Tom Holmes and E. Carney Marsh.
For Commissioner Precinct 3: Earl Taylor, re-election, Richard Neu and Joe J. Luttmer.
For County Surveyor: Martin B. Moore Sr.
For County Democratic Chairman: Billy Ray Hill.
County and district candidates on the local Republican ballot will be as follows:
For State Representative, District 23: Roger Martin, Billy Mayo.
For County GOP Chairman: John L. Tracy Jr.

Delinquent Taxes Higher This Year

The community's tax paying record, as indicated by records at the two local tax offices, is slightly poorer than a year ago.

As of expiration of the January 31 deadline, tax collections are 93.9 per cent complete by the Muenster school district and 91.9 per cent complete by the city of Muenster. Last year at the same time the school district had reached 94.5 per cent and the city 94.6. A year earlier it was 94.2 for the school district and 93.8 for the city.

Mrs. L. B. Bruns, tax assessor-collector for the school district, said that receipts up to the deadline were \$147,783.07 out of total assessments of \$157,405.43, which is based on a rate of \$1.65 and total valuations of \$9,539,723.

Mrs. Theresa Krebs, city secretary, said that collections before February 1 were \$27,307.62 out of total assessments of \$29,696.82. The city has a tax rate of \$1.50 and valuations of \$1,979,788.

Delinquent people will find that their tax is upped by a penalty at both offices and the charge will keep going up. At the school office the charge is 1 1/2 per cent for the first five months making 7 1/2 per cent in June. It jumps to 11 per cent in July and goes up 1/2 of 1 per cent each month thereafter.

The city's penalty starts at 3 per cent in February and goes up 1/2 of 1 per cent the next four months making 5 per cent in June. From then until January it increases 1 per cent per month.

The Hornets were never colder than in their half of the Nocona show. Despite a good floor game and lots of shooting they failed to get those all important points on the board. They hit only 19 of 82 field goal tries and 13 of 26 free throws. Meanwhile the Indians made a bad start trailing 14-12 at the quarter and then stormed to leads of 36-26 and 63-34. Muenster gained in the fourth, but it was too late and the final count was 75-51.

Jerry Eckart was top scorer with 13. Jim Endres made 12, Mark Lippe and Tom Otto, each 9, Lonnie Hellman 4, Ronnie Felderhoff and Allen Fleitman each 2.

The girls game at Lake Dallas was close the first half with Muenster ahead 13-9 and 23-19 but it was all Muenster's the second half as the Hornets pulled away by scores of 33-21 and 53-34.

Doris Felderhoff hit a big 37, Dolly Bayer 13, Janet and Joyce Swirczynski 2 and 1.

The Hornet-Falcon fracas was a classic for the fans. MHS trailed 15-10 at the quarter, led 34-30 at the half, trailed again 49-47 at the third period and finally won 68-66. The see saw by periods was only part of the story — the lead also changed during the periods. The big thrill for Muenster came 4 seconds from the end when, with the score tied at 66, Mark Lippe hit a 25 foot jump shot. Jim Endres, with 28, was top scorer. Jerry Eckart made 13, Tom Otto 12, Mark Lippe 10 Randy Wolf 5.

A resolution passed by the council and presented to Stoffels states that Mike, as coach, is the prime mover of the Boys Club, embracing fair play, sportsmanship, honesty, mental and physical development, and that such accomplishments have been recognized and supported financially and morally by the Muenster Jaycees and KCs and the VFW.

Therefore, the resolution continues, the council extends congratulations to the Boys Club and recommends support and encouragement by all citizens.

Resolution Praises Mike Stoffels for Boys Club Work

Special recognition and praise to Mike Stoffels was extended by the city council Monday night for his work in behalf of the boys of Muenster.

Along with returning A stringers there will be players moving up from the B team. Both the Muenster High's basketball teams ended in third place of the District 12-A race. The girls, with a 6-4 district standing finished behind Frisco and Pilot Point and ahead of Sanger, Nocona and Lake Dallas. The boys, with a 5-5 standing are tied for third and fourth places. Ahead of them are Nocona and Pilot Point, each with 9-1, behind are Frisco and Lake Dallas, each with 1-9.

For the full season the combined record of the two teams is slightly better than fifty-fifty. The Hornets have a record of 14-11, the girls are 13-14.

Mr. and Mrs. Mike Kleiss and daughter Michelle have moved from Muenster to Sanger where he was transferred by AMPI to the company's truck repair shop.

Originaly scheduled for March 20-25, it has been moved forward a week to March 13-18. As formerly planned, it will be held in Sacred Heart gymnasium.

Teams wishing to participate are asked to contact Sylvia Walterscheid, Rt. 2, Muenster, Phone 759-4437. Entry deadline has been set at March 3 in order to allow time for drawing up brackets.

Originaly scheduled for March 20-25, it has been moved forward a week to March 13-18. As formerly planned, it will be held in Sacred Heart gymnasium.

City Council Sets Election April 1

The annual city election to name three members on its council was officially ordered by the council at a regular meeting Monday. It will be held on Saturday, April 1, with Clive Gobble and Lee Toothaker in charge.

Places to be filled are Numbers 1, 2 and 4, now held by Richard Grewing, A. T. Tuggle and Rody Klement. None of them has indicated whether he will seek re-election.

MHS Teams End Season with Three Wins out of Four

Muenster high teams ended their basketball season Tuesday night with a pair of wins at Lake Dallas. Along with their win and loss at Nocona Friday they have a 3-1 record for the week.

Friday night the Hornets were blasted 75-51 by the loop leading Nocona Indians and the girls came through with a close 56-52 win. Tuesday the girls took an easy one 53-34 and the boys won a 68-66 thriller.

For most of their contest at Nocona, the MHS girls were ahead comfortably. Scores were 13-9, 27-20 and 42-31 ending three periods. Then Christi Stormer and Lenora Fleitman fouled out and the Indian gals started closing the gap. Shortly before the end they had a 1 point lead but a final Muenster rally won by 56-52. Doris Felderhoff was high with 33 points, Dolly Bayer hit 2, Janet and Joyce Swirczynski got 3 and 2.

The Hornets were never colder than in their half of the Nocona show. Despite a good floor game and lots of shooting they failed to get those all important points on the board. City Orders Raise in Water, Sewer Rates

An ordinance authorizing an increase of water and sewer rates for the city of Muenster was passed by the city council in its regular session Monday night.

The new rates, which become effective on the March billing for water and the May billing for sewer, will increase the minimum monthly bill (for 1000 gallons of water consumption) from \$3.80 to \$4.25. And it will increase an average bill (for 6000 gallons of water consumption) from \$6.50 to \$8.25.

Now as before sewer charges are based on the volume of water used — because most of the water used is discharged into the sewer. In order to make allowance for water used on lawns and gardens the water volume for each residential customer is based on consumption during the winter months. Business customers are charged on the basis of that month's consumption.

Previously the minimum rate was \$2.50 for water and \$1.30 for sewer. That minimum sewer rate applied until water consumption, for 6000 gallons, reached \$5.20 and thereafter the rate was one fourth of the water bill. At 10,000 gallons, for instance, the water charge would reach \$7.20 and the sewer charge would increase to \$1.80, for a total charge of \$9.00.

Now the minimum rates are \$2.75 and \$1.50 for 1000 gallons or less. Thereafter the sewer rate is 15 cents per 1000. Whereas it was formerly the same (\$1.30) from 1000 to 6000, it now increases gradually from \$1.50 to \$2.25. The rates for 10,000 gallons now are \$8.60 for water and \$2.85 for sewer, a total of \$11.45.

As pointed out by City Superintendent Steve Moser the old charge up to 6000 gallons was not proportional. The new schedule will be more fair. Moser said that over 70 per cent of the city's customers are in the under 6,000 range.

Regarding the water charge the former minimum was \$2.50 and thereafter the rate per thousand was 55 cents for the next 4,000, 50 cents for the next 10,000, 45 cents for the next 10,000, 40 cents for the next 15,000, 35 cents for the next 360,000 and 30 cents thereafter.

The new rate is \$2.75 for the minimum and thereafter the rate per thousand is 65 cents for the next 9,000, 60 cents for the next 10,000, 50 cents for the next 30,000, and 40 cents thereafter.

The ordinance also includes other changes of regulation concerning water and sewer. It specifies the charges for water and sewer lines to development areas, special charges for oversize lines and meters, charges for standard water and sewer connections, allowance on sewer charge for commercial connections watering lawns, etc.

The ordinance is published elsewhere in this paper.

2 Institutes Set For Dairymen by Extension Service

The Dairyman's Institutes (two of them) are scheduled this month, one in North and one in Central Texas.

First will be Feb. 22 at Denton, and the second, Feb. 23 at Stephenville.

Dairyman will thus have two chances to hear recognized authorities (six from out of state) discuss computerized dairy rations, contracting for herd replacements, beating the drought, prevention of mastitis, on-t-be-herd herd replacements, marketing, and taxes.

The Denton Institute will begin with registration at 9 a.m. in Tropicana Motor Inn, and the Stephenville Institute, at 9:30 a.m. in Tarleton Center at Tarleton State College.

Both end at 3 p.m., and are sponsored by the Associated Milk Producers Inc. (AMPI) and the Texas Agricultural Extension Service.

Volley Tourney

Sacred Heart High's chapter of the National Honor Society will sponsor a volley ball tournament in the SH gym next Sunday, the 13th, starting at 10 a.m.

The ladies' bracket is full and the men's bracket still has two open places. First teams to call Doris Schmitt, 759-4214 will be welcome as entries.

8 Games Listed on Baseball Schedule At Muenster High

The baseball season at Muenster High will consist of a double round robin schedule with five teams participating. That will make a loop schedule of eight games starting on April 4 and ending on May 9. Make up dates, if needed, will be May 11, 12 and 13.

Superintendent L. B. Bruns disclosed this week that the MHS team will be coached by Bill Moore, and the district will include Muenster, Whitesboro, Sanger, Frisco and Petrolia.

The schedule is as follows. Apr. 4, Whitesboro, here. Apr. 14, Frisco, here. Apr. 18, Sanger, here. Apr. 21, Petrolia, here. Apr. 25, Whitesboro, there. May 2, Frisco, here. May 5, Sanger, there. May 9, Petrolia, there.

Preparations are under way this week by the Sacred Heart Alumni for its third one-day volley ball tournament of this season. It will be held on Sunday, February 20, in Sacred Heart gym.

Joe Felderhoff, chairman, announced that entries are being accepted now and the sign-up deadline has been set at February 15 to allow time for drawing up schedules.

He also said that a bracket of eight teams is wanted in each division and visiting teams will be welcome along with the home teams. The teams will be entered on a first come first signed basis. Entry fees at \$1.00 per player and a list of the players will be expected when the team is entered.

Admission price for spectators will be 50 cents for adults and high school students and 25 cents for grade school children.

The tournament will start at 10 a.m. and matches, limited to 30 minutes each, will start on the hour and half hour. At the end trophies will be awarded to the champ and runner up and the consolation winner of each division.

Boy Scout Anniversary

The anniversary of the founding of the Boy Scouts of America falls on February 8, and this February the Scouting organization will be 62 years young. The nation has good reason to cherish its Boy

Scouts as never before. As they pursue their anniversary observation, adults will be reminded that such things as self-reliance and good citizenship remain very much in vogue where it counts most — amidst a major segment of the youth into whose hands the reins of community leadership and business will fall a few years hence.

One of the most important aspects of Scouting is an appreciation of the outdoors and of learning to live with the most rudimentary tools of survival. Under the patient guidance of volunteer Scout leaders, young boys from every walk of life come to that amphitheater of nature where all are equal — the Boy Scout camp. They return a little wiser, a little more humble and with a little more understanding of the great land in which they are privileged to live. The entire nation benefits from the Scouting experience, thus the entire nation should extend best wishes to the Scouts on their 62nd birthday.

Honoring Abraham Lincoln

Lincoln's Birthday, February 12, calls to mind the life of a great American, the first President to repeatedly attack slavery as immoral, the only President who had to hold the States together under such trying conditions.

He had only one year of formal education. Whatever else he acquired he "picked up from time to time," he said, "under the pressure of necessity." That he was born in a simple log cabin is true, though his family was no poorer than the average small farmer in Kentucky in those days, struggling for food, warmth and protection against wild animals and inclement weather.

Yet when the renowned Senator Stephen Douglas agreed to debate him, Douglas confessed to his Chicago associates that in clarity, force, and dexterity Lincoln was the toughest opponent who could be brought against him. Douglas got a taste of Lincoln's repartee when he said to his towering, 6'4" opponent on the platform: "How long do you think a man's legs ought to be?" Lincoln replied: "I think they ought to be long enough to reach the ground." Wrote the New York Evening Post: "Stir him up and the fire of his genius plays on every feature . . . and you have before you a man of rare power and of strong magnetic influence. He takes the people every time, and there is no getting away from his sturdy good sense, his unaffected sincerity, and the unceasing play of his good humor, which accompanies his close logic and smoothes the way to conviction."

He kept referring to the containment of slavery and "its ultimate extinction." Seven slave states seceded from the Union between the time of his election and his inauguration. Four more states seceded later. His immediate problem was preserving the Union, an issue he settled once and for all. In 1864 he was re-elected with the overwhelming electoral vote of 212 to 21. His second inaugural address was on the theme of reconciliation: "With malice toward none, with charity for all, with firmness in the right as God gives us to see the right, let us strive on to finish the work we are in, to bind up the nation's wounds, to care for him who shall have borne the battle and for his widow and his orphan, to do all which may achieve and cherish a just and lasting peace among ourselves and with all nations."

Final victory came a little over a month later when Lee surrendered to Grant on April 9, 1865. Five days later he was killed. It was tragic loss,

Building Budget For TP&L in '72 Is \$111.5 Million

Texas Power & Light Company will spend \$111,500,000 for the construction of new facilities in 1972. T. L. Austin, Jr., TP&L president, announced.

The construction budget is the largest in the Company's 60-year history, and expenditures will allow TP&L to keep pace with the growing electrical demands of customers in its 51-county service area.

A major portion of the expense is involved in the construction of eight major generating units. When completed over the next several years, the new units will be capable of producing more than 5 million kilowatts of electric power.

One new unit is located on Tradinghouse Creek near Waco; two units near Tatum in Rusk County; two units near Fairfield in Freestone County; two units near Mount Pleasant in Titus County and a generating unit in Hood County. The Freestone County and Titus County units will be owned jointly by TP&L, Dallas Power & Light Company and Texas Electric Service Company.

In addition to its power plant construction, the Company will build or improve transmission lines, substations and distribution lines and service centers in various parts of its service area.

Austin noted that on a nationwide basis, total generating capacity of the electric utility industry in the United States in 1971 reached an estimated 389.4-million kilowatts. This was an increase of 9.1 percent over the 1970 total of 356.8-million kilowatts.

Austin estimated that investor-owned electric power companies had invested a total of more than \$105 billion in electric plant equipment, excluding nuclear fuels, at the end of 1971. Expenditures for new construction by these companies during the year were a record \$12 billion, or 14.7 percent of the total new construction expenditures by all American businesses.

Taxwise, the investor-owned electric power companies are expected to have a 1971 tax bill of \$3.61 billion, about \$155 million greater than their 1970 tax bill, he said.

He said that within the next five years, the investor-owned electric companies are scheduled to place about 146 million kilowatts of new generating capacity in service.

Experience is knowing a lot of things you shouldn't do.

St. Joseph Society Plans Observance Of St. Joseph Day

Members of Saint Joseph's Society at their February meeting Sunday afternoon completed plans for their observance of St. Joseph's Day March 19.
