VOLUME XXXVI

MUENSTER, COOKE COUNTY, TEXAS 76252 MARCH 3, 1972

NUMBER 15

One of the statements by President Nixon at the banquet preceding his departure from Shanghai Sunday night comes close to telling the story of his historic visit to Mainland China last week. "This is the week, that has changed the world," he said. "The Chinese and American people hold the future of the world in their hands."

There's no doubt that improved relations between the two countries can have much influence on other countries, and even more so on each other. As they work together in building the bridge "across 16,000 miles and 22 years of hostility which have divided us in the past," they can arrive at an understanding which offers important assurance to many people in these turbulent times.

The Soviet Union, principal threat to world peace, should be less inclined to throw its weight around since it has learned that U.S. and China are heading for mutual defense agreements. Perhaps it's not too much to hope that Russian power politics will simmer down as it realizes that two of its potential foes are getting their heads together.

Tensions all over can be greatly eased by the knowledge that U.S. and China, two of the great powers, are making sincere efforts to get along. And, of course, U.S. and China themselves can enjoy some relief from knowing that they have less cause to fear each other.

Despite a few encouragements, however, we find less reason to cheer about the attitude toward Taiwan. According to the communiqué at the end of the visit, the United States "reaffirms its interest in a peaceful settlement of the Taiwan question by the Chinese themselves. With this prospect in mind, it affirms the ultimate objective of the withdrawal of all U.S. forces and military installations from Taiwan. In the meantime it will progressively reduce its forces and military installations on Taiwan as the tension in the area diminishes."

This gets close to the condition that many people feared would happen. Proposing peaceful settlement by the Chinese themselves is about equivalent to endorsing the take-over of Taiwan by Mainland China. The joker in this is that Taiwan will not submit to the peaceful take-over. What happens then? Would our country look the other way as the Chinese solve their problem?

To this column's way of thinking the agreement is not fair to little Taiwan. It has remained free and independent through the past 22 years because of our protection. After the protection is withdrawn it becomes helpless. And after the take-over, who can be sure that there will be no communist type purge to get rid of political enemies? The new U.S.-Chinese relationship would be much more meaningful if it had included provisions to assure Taiwan's continued existence as a free and independent nation. There were problems in doing that, of course, but it might have been possible if leaders there had been consulted before the historic meeting. That is, if the Nationalists had been willing to quit their claim to all of China and settle for sovereignty over Formosa only.

Actually the chief difficulty in this affair is the attitude of the Nationalists themselves. Since 1949 they have maintained that theirs is the rightful government of all China. Last fall at the U.N. they insisted that delegates favor them over the government which was actually in power. Even today they make no claim to Taiwan's sovereignty as a nation. Rather they maintain, as the Red regime does, that Taiwan is a part of China, and that Nationalists and Communists are both contenders for control of all.

All of which presents a gloomy prospect for the people of Taiwan — unless relationships before the take-over will improve sufficiently to prevent the kind of blood bath that followed the take-over of Mainland China in 1949.

According to present attitudes of the competing Chinese factions, that is what's likely when it's all settled over there. On the other hand we all have a deep down hope that the better relations started by Nixon and Chou will gradually relieve tensions everywhere. We can imagine Chiang and his people calm-

## Incumbents Are Only Candidates On Ballots to Date

April 1 will be re-election day at Muenster, according to the list of candidates Wednesday following the close of the filing periods for city council and school board elections.

Ballots for both of those elections will list only the incumbents as candidates and, up to the present time, the same applies to ballots for the hospital board election.

However, there's still time for a contest to develop in the latter election. A candidate can get on the list by filing with Board Secretary Rufus Henscheid on or before March 6, by presenting a petition signed by at least 15 qualified voters.

The indication now is that the community's three elections will list ten candidates, all incumbents, for the ten available positions.

Names on the school district ballot will be Ed Cler and Ray Swirczynski.

Names on the city ballot will be A. T. Tuggle, Richard Grewing and Rody Klement.

Names up to now for the hospital district ballot are Rufus Henscheid, Sylvan Walterscheid, Ray Voth, Albert Dangelmayr and Norbert Felderhoff.

## Sharon Rohmer Is Spelling Champ At Sacred Heart

Sharon Rohmer, eighth grade daughter of Mr. and Mrs. Urban Rohmer, is Sacred Heart School's 1972 spelling champ. She won the crown Monday, and will represent her school in the county bee on March 25 at Cooke County Junior College.

Runner-up and county alternate is Frank Moster, eighth grade son of Mr. and Mrs. Steve Moster. Second runner-up is Arnold Yosten, eighth grade son of Mr. and Mrs. Buddy Yosten.

Sharon and Frank competed against each other for 35 minutes before he tripped on "disciple" which she spelled correctly and then spelled "discomfiture" to win the bee.

Forty students participated in the spell-down — the top ten from grades 5 through 8. Twenty-seven of the contestants were boys and this is the first time in five years that boys are runners-up.

Father Placidus presented the championship trophy and commissioned Sharon to go on to win in the county, and then in the district bee in Dallas on May 6. He also presented ribbons to the top three in each grade as follows: fifth grade, Laurie Walterscheid, Donna Hennigan, Bert Hesse; sixth grade, Gary Rohmer, Gene Yosten, Bernie Fette; seventh grade, Marilyn Otto, Janet Henscheid, Stacie Walterscheid.

Mrs. Joe Felderhoff and Mrs. Steve Moster were pronouncers and judges were Cindy Bartush, Margie Wolf, Bruce Fuhrmann and Paul Reiter. Sister M. Georgia was organizer and local sponsor. The Dallas Morning News sponsors the bee each year.

Last year's champion was Laura Kralicke who also was county winner.

## Visit to China No Gain For Peace, Kubec Says

People of this country face the alarming fact that Communism continues to drive toward its goal of world domination and we accept the fact with complacency. As a result U.S. is losing prestige among free people everywhere and at the same time our old spirit of Americanism is on the decline.

Those were a few of many important statements by Dr.

Anthony Kubec, history professor of the University of Dallas, Tuesday night in Muenster's K of C hall. His appearance was sponsored by the Sacred Heart Home School Society.

Dr. Kubec, drawing on extensive study of history and travel to Europe and the Far East, said he felt that President Nixon's visit to Mainland China will do more harm than good to the cause of peace. It was America's endorsement of an evil system, he said, a discouragement to some ninety percent of Chinese who yearn to be rid of the Communist regime and a betrayal of Taiwan which has been both loyal and friendly. It's equivalent to approving the regime which murdered 34 million people in 22 years, the regime of tyranny and slavery from which millions have risked their lives to escape.

Kubec noted that the only meaningful concessions were one sided. We abandoned Formosa, and made agree-

## Elm-Red District Names Winners In Essay Contest

J. H. Bayer, Chairman of the Board of Directors of the Upper Elm-Red Soil and Water Conservation District, announced the winners in the 12th Annual Essay Writing Contest today. Bayer stated, "The Soil and Water Conservation District Board received 327 entries in the contest from 17 schools all over the three-county district, and competition was keen among the best entries. This is great participation by the schools and we are thankful to all who took part in the contest."

Collen Murphy, Denison High School, was first place winner; Mary Hayden, Dillingham Junior High School, Sherman, took second place honors; and Melanie Hayes, Prairie Valley High School was the third place winner.

The Conservation District Board will present awards of \$15, \$10 and \$5 to the winners within the next few days. Judges for the contest were Lee Putnam, Soil Scientist with the Soil Conservation Service, Bill King, Sports Editor of the Gainesville Daily Register, and T. H. Dick, Superintendent of the Era High School.

Bayer expressed his appreciation to all the vocational agriculture teachers, English teachers, other high school teachers, school superintendents county agents and others who encouraged and assisted these high school students in the preparation of these essays.

A special thanks goes to all who prepared essays for this contest. Each student who entered the contest and prepared an essay has been benefited whether he or she was a winner or not. The knowledge and use of soil and water conservation is something everyone needs to know and use in daily living. The 1972 essay subject was, "Conservation: The Key to Survival."

ments for trade and cultural exchange. But what can the poverty stricken people buy from us? What does China export that we want? And what assurance do we have that cultural exchange would improve world peace? We've been through that with Russia. Trade benefits have been one sided, and relations with the Soviets has gotten worse in spite of the cultural efforts.

The speaker said that Mao has been obsessed for years with ideas of taking Taiwan. The tiny island republic is a thorn in his side, an embarrassing contrast to the mainland's much lower standard of living, a symbol of hope to hundreds of millions of Chinese who want to be liberated. However, taking Taiwan will be an enormous job. If it succeeds at all it will be very costly, Kubec said.

The speaker commented briefly on conditions he found in the Asian countries. He described Japan as the super economic power, in spite of its small size, ranking third in the world national output. Taiwan was next in progress with a living standard about equal to Japan's.

But less developed countries had a low standard, usually because of a huge economic gap between very rich and very poor. There is where the Reds are busy, he said, exploiting the misery and spreading the praises of better living under their system. The propaganda mills grind daily, holding out false promises to frustrated people, and the media cooperate. Little is said about the slavery and poverty in Red countries, and equally little about the better life in places like Japan and Taiwan.

That misuse of the mass media is also a regrettable fact of life in this country. Kubec pointed up the socializing and apparent good will which were played up on press and TV while the dismal side of life got no mention. It's part of a pattern that's been in effect here for a member of years. We see and hear an abundance of the stuff that runs down our country but much less that is to its credit. Dope, pornography, anarchy, etc. are defended while virtues are ignored or ridiculed. Being a criminal is a sure way to have a book or article published, but praise of our country or attacks on the alien isms do not get the publishers' support.

This is something that needs to be turned around. It's we who have the ideas to sell. The benefits of clean and useful living, the comforts and freedom that are part of the American way. Instead the emphasis is on drugs and pornography and violence and on lies about our system. The media features it. Speakers who preach it are welcome in our universities.

It's all a tragic confused mess, Dr. Kubec said, but not sufficient reason for right thinking people to give up. We have to think in terms of self survival, to keep trying for an about turn in which proper respect will be restored to God and country and family.

As a parting thought he admitted that it's hard to see any encouragement in present signs, but he has faith that the guiding hand of God somehow will come to civilization's rescue. So, while people strive in their own way for the better life it's a good idea to pray for some help from God.

## We Must Not Lose in Vietnam

Some conservatives of considerable distinction in New York are now writing off South Vietnam as abandoned by the United States, and, still worse, treating this casually as another minor setback. Others, equally pessimistic but much less reconciled, are talking of the murder of 2 million South Vietnamese "when the North Vietnamese take over."

To serious students of foreign affairs over many decades, the logic of the situation in Vietnam requires that the United States must not accept

defeat, either for itself or for its ally, the Saigon Government. Does any one believe that the United States could accept defeat at the hands of a small and well-beaten foe without causing a political earthquake around the world? Having already suffered a shattering blow in the United Nations, the United States would have no alliances worth the paper they are written on if it proved incapable of defeating a tiny and totally unworthy enemy, and thus left its allies in Asia to whatever fate might befall them.

This would be an invitation to West Germany to make whatever terms she could with the Soviet Government, since the validity of the North Atlantic Treaty Organization (NATO) would have been undermined. We would be getting nearer and nearer to the redivision of the world into spheres of influence, with Red China over Asia, the Soviet Government over Europe, and the United States outflanked on the East and West. Is that the road to greatness? It is the road to disaster and extinction.

The North Vietnamese have suffered an estimated 3,500,000 casualties. They are in poor shape to be dictating terms to the United States, contrary to what some newspapers would have us believe. But no Administration can withstand the loss of support by the national news media forever. The only hope rests in the very large independent segment of the media, though

it too is shrinking.

The New York Times in the last twelve months has acquired eight newspapers in Florida: the Lake City Reporter, the Fernandina Beach News-Leader, Sebring News, Avon Park Sun, Gainesville Sun, Lakeland Ledger, the Leesburg Daily Commercial, and the Palatka Daily News. Are they all going to grind out the same defeatist line as that of The New York Times?

There is enough strength left in the rest of America to prevent the collapse of our country before a weakening Communist nation. Now is the time for all good men to come to the aid of their country. Our thanks to Senator Henry M. Jackson (D-Wash) for speaking out in favor of uniting with President Nixon in standing firm against any defeat in Vietnam.

## Annual Appeal for Easter Seal Funds Mailed This Week

Easter Seal Appeal letters are to be delivered this week in Cooke County according to Mr. William Claunch Jr., the Easter Seal Representative of the Easter Seal Society for Crippled Children and Adults of Texas. As Representative, he serves as contact representative for disabled persons needing Easter Seal rehabilitation services and also serves as Treasurer of the Easter Seal Appeal in Cooke County.

The Easter Seal Society offers physical and occupational therapy, speech and hearing programs, and special equipment loans to enable disabled persons to make the best use of their abilities to overcome handicaps. These services are financed by the annual Easter Seal Appeal.

The Society also provides for research into the causes and cures of crippling conditions, finances public education programs, and provides scholarships for training of professional personnel to staff rehabilitation centers.

Mr. Claunch pointed out that all these programs are important if Texas is going to continue to provide the best in rehabilitation services for its own disabled citizens.

During 1971, the Texas Easter Seal Society provided treatment and services for over 22,000 children and adults who were in need of rehabilitation.

The reason some Congressmen are so anxious to get re-elected is that they doubt they can make a living in private business under the laws they passed while in Congress.

## THE INFORMED CONSUMER

By Crawford C. Martin  
 Attorney General of Texas

### Let's Fix Up The House

Let's assume that you have decided to fix up your home, and that you are planning on having repairs made or new additions. You should be particularly cautious about selecting the man for the job. Take some time in determining just who you want to do the work to avoid disappointment, and in some cases, actual deceptive practices which can be costly.

It would be well to contact reputable contractors in your area, getting estimates for the work you want done. Compare the prices. To help you arrive at your decision, ask the contractors or workmen to give you the names of homeowners for whom they have worked previously and call them to inquire about the quality of the work.

When pricing home improvements, do not be carried away by advertising which states a specific price for a specific job on your home sight unseen, with a free television set thrown in as a bonus. It is always best to have someone actually come to your home to examine it in order to determine what the cost will be.

Once you have chosen the man for the job, he and you should have a written contract setting forth in detail the cost of the work to be performed and the work to be done. The total cost should include the price of materials and labor.

Unfortunately, the home improvement area is a fertile field for the unscrupulous fly-by-nighters. For that reason it is usually best to have established reputable local contractors, tree surgeons, exterminators, roof repairmen, etc., to do the work for you.

One of the most insidious and reprehensible deceptive practices in this area is the "free termite examination" which is used merely as a "toe-in-the-door" to get additional work.

This ploy has financially harmed many of our elderly citizens who live alone. Usually someone for the "X" company telephones the unsuspecting senior citizen telling him that the company's workmen and trucks are working in the neighborhood and offering a free termite inspection. Then a workman arrives on the scene, makes an "inspection" under the house, in some instances finding termites, in others, not, but always finding the need for repairs to be done. The consum-

ers are warned that the house is about to fall in, that the floors need leveling, that sills and blocks are needed, that the wiring is dangerous, and that additional repairs are essential. Of course, the workmen are available to do the job. Some of the individuals are frightened about the condition of their homes and accept the company's low estimate, allowing the workmen to proceed.

Very little work, if any, is actually performed around and under the house, but the homeowner gets a bill for the authorized work plus the unauthorized work. It is not unusual for the bill to be three times more than the estimate. It amounts to an exorbitant price for shoddy work. The presentation of the bill is in person, and the workmen prefer being paid on the spot by check. In some instances where the workmen allegedly find termites, the consumer is charged for a spraying job with a solution that is ineffective to rid the house of the pests.

Don't pay for work in advance. Often the homeowner is requested to pay one-half of the agreed price so the contractor can "purchase the necessary materials." After the money is paid, the repairman never shows up. Never pay in advance for home repairs unless you know the person with whom you are dealing.

When you decide to improve your home, make sure you know something about the background of the company. Do not allow yourself to be pressured or frightened into having work done by an outfit that contacts you. If you are told your house is hazardous to live in, have another repairman look at it before authorizing work to be done. Be sure that the repairs are needed.

If you have been a victim of a scheme such as described above, notify Attorney General Crawford C. Martin, P. O. Box 12548, Capitol Station, Austin, Texas 78711.

Beavers never stop growing nor reach "maximum growth." Life span in the wild is about 12 years. Captives have lived 19 years.

## Lincoln's View On Property

Property is the fruit of labor; property is desirable, is a positive good in the world. That some should be rich shows that others may become rich, and hence is just encouragement to industry and enterprise. Let not him who is houseless pull down the house of another, but let him work diligently and build one for himself, thus by example assuring that his own shall be safe from violence when built. Father Bede Mitchel of Muenster was principal speaker at the quarterly meeting of the North Deanery NCCW hosted by St. John's Parish of Bridgeport. He told about the differences of penalties for drug pushers in this country compared to other countries.

He also introduced clergy present: Fathers James Gillespie of Gainesville, Michael Irwin of Bridgeport and Edward Richard of Decatur.

Mrs. Steve Moster gave suggestions for community service. Some already being done include help with retarded children and the blood bank. Suggested was visiting and reading to elderly people in nursing homes and convalescent centers. A kit containing many suggestions has been ordered from national headquarters.

It was announced that NCCW's official magazine "Word" is being replaced by one called "People."

Another announcement concerned the bi-annual diocesan convention to be held in Fort Worth on May 3 in the KC Hall. Every parish is being urged to be represented and to participate in a workshop of the member's choice.

**May 26-28 Set for Subiaco Alumni's Annual Reunion**

May 26-28 were selected as the dates for the 60th annual reunion of the Subiaco Alumni Association according to an announcement made this weekend by Pat Oliver, president of the association.

reunion of 1971, including a Friday evening buffet supper, a Saturday afternoon softball game, a central business meeting, and Sunday liturgical services. Some additions will be forthcoming, according to Mr. Oliver, but they are still on the drawing board and will be released to the membership as soon as details become clearly outlined.

A second planning session is being scheduled for mid-April at which time the complete program will be cemented together and released to the members of the Subiaco Alumni Association.

**NOTES FROM THE LIBRARY**

By Bettie Luke

Muenster Public Library has received the 1971 yearbook of agriculture, "A Good Life for More People," through courtesy of Omar Burleson, congressman of the 17th district of Texas. This is an interesting book.

Have you read "Prelude to Mars," by Arthur C. Clark? It's fiction and a vivid account of the events that culminate our space journeys.

Also interesting are "2000 Years of Space Travel," by Russell Freedman and "Rockets, Missiles and Space Travel" by Ley.

All young people should read these books as they pertain to the future generations. Come and read with us.
