

MUENSTER ENTERPRISE

VOLUME IX

MUENSTER, TEXAS, COOKE COUNTY, FRIDAY, JUNE 15, 1945

NUMBER 30

WITH COAST GUARD

PVT. ARTHUR HESS AWARDED BRONZE STAR FOR VALOR

Pvt. Arthur Hess, son of Mr. and Mrs. Frank Hess, has been awarded the Bronze Star medal and citation for meritorious services in Germany. The parents learned this week.

Details surrounding the winning of the decoration have not been received but in mentioning it to his parents, Pvt. Hess modestly remarked that he had crawled through machine gun fire to drag some buddies to safety. He entered the service in August 1944 and had been overseas since January as a member of the 26 Infantry Division.

Serving in Germany

Arthur Felderhoff, S.I.C. with the Seabees, is on duty in Germany. He has written his mother, Mrs. Joe Felderhoff.

Gets in Navy

Albert (Buster) Herr who was called for service with the armed forces last week has been accepted for the Navy and is taking boot training at San Diego. He has advised his father Fred Herr.

Three Months No Mail

Mrs. Clara Fette is in receipt of a letter from her husband, Sgt. Steve Fette, saying he is well and has been on the move so much recently he has had no mail in three months. The letter was written from Frankfurt, Germany.

Overseas Assignment

Eugene Klement, S.I.C. U. S. Coast Guard, is on the west coast for a forthcoming overseas assignment. He has written his parents, Mr. and Mrs. Frank Klement.

Overseas Furlough

Pvt. Alfred (Johnny) Rohmer is spending a 14-day furlough with his parents, Mr. and Mrs. John Rohmer and family. He has completed basic infantry training at Camp Hood where he won a medal as marksman with a rifle and when he leaves here he will report to Fort Ord, Calif., for an overseas assignment.

Cadet Nurse

Miss Thelma Kathman, daughter of Mr. and Mrs. Frank Kathman left this Friday to begin nurses training as a cadet nurse at Saint Joseph's Hospital in Fort Worth.

Completes Furlough

Pfc. and Mrs. Albert Steinberger and little daughter, Maxine, left Tuesday after spending a 14-day furlough with his parents, Mr. and Mrs. Louis Steinberger, here, and her parents, Mr. and Mrs. Tom Carter at Gainesville. Pfc. Steinberger has been assigned to duty at McCook, Neb. He was previously on duty at Perrin Field.

Is Navy Nurse

Ens. Olivia Haverkamp, daughter of Mr. and Mrs. Casper Haverkamp, is a Navy nurse stationed at the Naval Hospital in Portsmouth, Va. She was sworn in May 23, spent two days at Norman, Okla., and since then is at Portsmouth. She took her nurses training at Saint Joseph's Hospital in Fort Worth, graduating with the class of 1944, volunteered for service and did private duty until receiving her call to report.

First Leave

Edward Sickling, AS, arrived Saturday to spend a seven day leave with his parents, Mr. and Mrs. Ben Sickling and family. He joined the Navy on April 20, this year, and took boot training at San Diego, Calif. A week ago he was transferred to the Seabees, being one of nine in a group of 164 to qualify for this branch of the service. He will report to Camp Parks, Calif., on completion of his visit here.

Delay Enroute

Cpl. Jack Hoehn is here since Friday for a visit with his father, A.T. Hoehn, on a delay enroute to his new station at Panama City, Fla., where, he reports on June 22 for training in flexible gunnery. Jack is a nose gunner, specializing on B-24's and recently was awarded his gunner's wings.

German Pup Tent

Little Melvin and Gene Schoech sons of Mr. and Mrs. Andrew Schoech recently received a German camouflaged pup tent as a gift from their uncle, Sgt. Joe Spaeth, on duty in that country.

—Julius F. Loerwald entered the service as a member of the Coast Guard in Sept. 1942 and took his boot training at New Orleans. He was then sent to Galveston and stationed there two years on shore patrol duty. In Sept. 1944, he was assigned to a U.S. Army Freighter Supply ship and in December left the states through the Panama Canal zone and then sailed for the South Pacific. He spent several months in Hawaii and has been in the Solomon Islands and New Guinea since. He serves as a motor machinist mate, first class. A native of Lindsay he is the son of Mr. and Mrs. W.J. Loerwald, and is married to the former Miss Margaret Vaughn, who with their little son, makes her home in Gainesville.

MORATORIUM ON CANNING SUGAR IS EXTENDED FOR WEEK

The moratorium on issuance of sugar for canning purposes was extended another week through June 16 and all previous instructions and quotas are to be disregarded. Austin Reed, chairman of the Cooke County War Price and Rationing Board, has been advised by J.H. Kulturen, Fort Worth, district OPA director.

The district office advised that reports indicate that sugar is simply not available in wholesale houses or retail stores and that the national sugar supply situation is becoming increasingly critical.

An additional week is needed to compile figures on the supply and issuance situation throughout the district so that boards have more definite instructions as to future issuance. In the meantime boards will continue to accept applications and to devote extra time to the national screening of the applications, bearing in mind that future allocations will have to be smaller and that many applications will be rejected entirely unless the applicant can establish beyond all doubt that he will have fruit available to can and that he will use the sugar for that purpose.

In Czechoslovakia

A letter this week from S. Sgt. Bernard Schmitz to his parents, Mr. and Mrs. H.M. Schmitz advised that he was on duty in Czechoslovakia.

Sunday Visitor

Lt. R. N. Fette of Fort Sill, Okla., was here for a Sunday visit with his parents, Mr. and Mrs. Henry Fette. He had his guests T-4 Clarence Tepper and T-3 Bill Stagers, also of Fort Sill.

Sgt. Needham In States

Mrs. Ruth Needham of Myra had a telegram this week from her son, S. Sgt. Jack Needham, reporting that he had arrived from England by plane and was at N. Hampton, Va., and expected to be home shortly. He was taken a prisoner while serving as an aerial photographer in the ETO and was held in a German prison camp for 14 months being liberated on April 26 by the 104th Division.

Mr. and Mrs. W.D. Winstead and children of Eohoma, Texas, spent a week with their parents, Mr. and Mrs. J. R. Winstead and other relatives and friends here. Mr. and Mrs. Winstead and sons have returned home but the little Misses Therese and Billy Jo Winstead remained for an extended visit. They were guests of Miss Betty Lou Buckley several days last week and on Thursday accompanied Mrs. Buckley and Betty Lou to Sherman.

Mr. and Mrs. Frank Trubenbach and family and their guest, John Bindel of Sabetha, Kansas, Mrs. Arnold Swirczynski and children, Mr. and Mrs. Bob Swirczynski and son of Gainesville, and Mrs. Frankie Trubenbach and little daughter of Whitesboro, joined Mr. and Mrs. Frank Neu and family at Valley View Sunday for a picnic and outing.

Muenster K of C's Reelect A. J. Endres As Grand Knight

Muenster Council Knights of Columbus reelected Arthur Endres grand knight Wednesday evening during a regular meeting that featured the annual election of officers.

New officers to serve on the executive committee are John J. Hoffman, deputy grand knight; Herbert Meurer, advocate; Frank Bayer, inside guard; Earl Walterscheid, outside guard, and Joe Otto, trustee.

Officers reelected for another year are J.W. Fisher, treasurer; Paul Endres, recording secretary; John Fisher, chancellor; J. P. Flusch, warden.

Appointive officers, those of lecturer, chaplain and financial secretary, have not been announced to date.

CAMP HOWZE INVITES PUBLIC FOR OPEN HOUSE DAY FRIDAY

Honoring the man who has borne the brunt of every war since 1776, Camp Howze, Texas throws wide the doors to the entire public on Friday, June 15, in its celebration of Infantry Day. Camp Howze one of the Nation's largest Training Centers is giving the civilian public an opportunity to see exactly how the best-equipped, best-trained, best-informed, finest man in the world is turned out how he trains, how he lives and how he eats.

Among the many activities scheduled during the day, is the chance for every guest to ride in a jeep or a tank. Experienced soldier drivers will be on hand to pilot the civilians around a course and give them a chance to see what it feels like to be inside a tank or hanging on to a jeep. Also included in the program is a mock attack by Doughboys on a Jap pillbox position with artillery and all the weapons of war thrown in.

The program begins at 9:00 in the morning and continues until late afternoon. An all-soldier show will be presented out-doors and will be repeated throughout the day. Guests will be conducted on guided tours of the training area and shown the various training aids and equipment which are used in training the boys who are used to live around the corner. There is no charge and all civilians are the guests of the War Department and Camp Howze. Facilities have been provided for meals and other comforts.

AUTHOR LOUIS BROMFIELD SENDS AUTOGRAPHED BOOK

Mr. and Mrs. J.M. Weinzapfel are in receipt of a copy of "Pleasant Valley," a new novel by author Louis Bromfield. He autographed the book and added: "In appreciation of all the kindnesses shown me in Muenster."

Mr. Bromfield, as remembered here for the address he gave in March, 1944, on soil conservation when he spoke to members of the Upper-Elm Red Soil Conservation District. The second love of the internationally known writer is farming and soil conservation. It was through Mr. Weinzapfel's influence that he visited in Muenster. In a letter to Mr. and Mrs. Weinzapfel he said: "I was delighted to receive the pamphlet on the Upper-Elm Red Soil Conservation District, and to hear from you again. It brought back many pleasant memories of the day spent in Muenster. I mean to return the first time I am again in that part of Texas. I have recently been on a tour selling war bonds and making conservation speeches. Please remember me to all the good citizens of Muenster."

Mr. and Mrs. Ben Seyler, Mr. and Mrs. John Fette and Mrs. C.W. Ratliff returned Thursday evening from West Point, Iowa, and other points where for ten days they had been visiting relatives. Mrs. Ratliff and sons left this week for their home in Lubbock. The little boys had visited relatives in this city while their mother was on the trip.

Most drunks are not convinced that they will never get anywhere by drinking, until they start home from the same corner about five times.

The old fashioned wedding ring was a cumbersome affair, made to last a life time. The modern ring is very thin and narrow, designed to last as long as modern marriages.

If you want to annoy your wife, try grinning in your sleep.

Jumping to conclusions doesn't always end in happy landings.

Highway Crash Kills Two And Injures 4 Sunday Midnight

Victims Are Alma Marie Luke And Dolores Pulte

Others Will Recover From Injuries Received In Collision Of Car With Gasoline Truck

A highway accident Sunday at midnight snuffed out two young lives and injured four others in one of the most appalling tragedies of Cooke county history. Occupants of the ill fated car which crashed into the rear left end of a gasoline transport truck were from Muenster, Lindsay and Gainesville.

Miss Alma Marie Luke, 19, of this city, daughter of Mr. and Mrs. Joe Luke, died instantly from the impact of the two vehicles, and Miss Dolores Pulte, 18, daughter of Mr. and Mrs. A. P. Pulte of Gainesville, died enroute to a hospital.

Seriously injured are Miss Clara Mae Mosman, daughter of Mrs. Nick Mosman, Gainesville; Johnny Schmitz, merchant seaman, son of Mr. and Mrs. John Schmitz; Lindsay; James Bezer, son of Mr. and Mrs. Jake Bezer, Lindsay; and Pvt. Jerome Pulte, of Amarillo Air Field, son of Mr. and Mrs. A.P. Pulte, Gainesville.

Miss Mosman, said to be the most critically injured, had not regained consciousness late Wednesday. She is suffering from concussion, broken jaw, multiple fracture of the arm and splintered elbow. Pvt. Pulte, also suffering from a major concussion, was likewise in critical condition.

4 INCHES OF RAIN HALTS HARVESTING HELPS OTHER CROPS

Rain in this sector Monday amounted to almost 3 inches bringing total precipitation since Friday to nearly four inches.

Considerable concern was felt for the remaining unharvested grain in this community but the moisture was of great benefit to other crops as well as grazing lands.

The grain cutting season had neared its peak and was in full stride Friday when the first rain fell. It is estimated that about 40 percent of the crop is still unharvested, but that no serious damage has resulted from the moisture.

Monday morning's downpour was accompanied by severe lightning but no damage was reported. At Saint Jo, however, lightning killed a horse and set fire to a house.

Tuesday was still cloudy but dry from above, and while it was too wet for binders to operate, oil field workers went back to their jobs on rigs in this community. Wednesday continued dry but heavily overcast. With fair weather prevailing farmers expect to be back to cutting grain by Saturday.

NEW COUNTY AGENT TAKES UP DUTIES

B.T. Haws, new Cooke county agricultural agent, took up his duties Saturday, succeeding Albert S. Brient, who resigned to become city manager of Gainesville.

Mr. Haws was accompanied by his wife, the former Miss Tommie Lea McAdams of Sherman, who was formerly county home demonstration agent at Nacodoches, where Mr. Haws had been teacher of vocational agriculture in the high school for the past three years.

Mrs. Charles Taylor and little son left this week to join Captain Taylor at Monroe, La. While in this city they were guests of her father, Jos. Fisher and family. The captain is now stationed at Selman Field, La., following a transfer, sometime ago, from Independence, Kansas.

Cadet Nurse Florentine Trubenbach, who visited with her parents Mr. and Mrs. Frank Trubenbach last week, left Tuesday to return to Santa Rosa School of Nursing in San Antonio. She was driven to Dallas by her sisters, Mrs. Arnold Swirczynski, Mrs. Bob Swirczynski of Gainesville and Mrs. Frank Neu of Valley View.

wise still unconscious late Wednesday. He also has a broken arm. These two young people were thrown from the car onto the pavement.

Johnny Schmitz is suffering from slight concussion and a gash in his head, while James Bezer has a dislocated hip. The accident occurred on U. S. Highway 75, about 3 miles south of Denison. The party were riding in young Bezer's car, which was one of three automobiles of young people who were returning home after spending the evening at Tropical Gardens in Denison.

Driver of the car is said to have been blinded by the lights of an oncoming automobile and the machine crashed into the rear of a gasoline truck.

Shortly behind this car was one in which Rufus and Hubert Bezer of Lindsay were driving and they stopped to render aid while other members of the group called ambulances from Denison. The six victims were rushed to that city, the bodies of the two girls being taken to a funeral home and the others hospitalized; with the exception of Pvt. Pulte who was taken to the station hospital at Perrin Field.

Miss Mosman, Bezer and Schmitz were removed to M & S hospital in Gainesville Monday evening where they are reported resting as well as can be expected, and have excellent chances of recovery, provided no complications set in.

Miss Luke's body was brought to Muenster to the home of her parents Tuesday afternoon and rosary was recited at 9 o'clock on Tuesday and Wednesday evening.

Funeral services were held Thursday at 9 a.m. from Sacred Heart church with Pastor Rev. Thomas Buerger officiating at the rites and at the burial in Sacred Heart cemetery.

Miss Pulte's body was at George J. Carroll and Son Funeral home where rosary was recited at 9 Tuesday evening and funeral services were held Wednesday morning at 9 from Saint Mary's church with Rev. John P. Brady, pastor, officiating. Burial was in Fairview cemetery. A large number of Muenster relatives and friends attended the services.

Alma Marie Luke was born in Muenster on Feb. 2, 1926. She attended Sacred Heart School and was an honor graduate of the 1944 high school class. She received a scholarship and during the past term took first year college work at Mount Saint Scholastica College, Atchison, Kansas, having returned only recently for the summer vacation.

She is survived by her parents and one brother, Lt. Norman J. Luke, a naval aviator on duty in the Pacific war zone, and maternal grandparents, Mr. and Mrs. August Friske, Muenster.

Dolores Pulte, a native of Gainesville, was born on May 23, 1927, and was a graduate of St. Mary's high school with the class of 1944. In addition to her parents she is survived by four sisters, Mrs. H. R. Stratigier, Norman, Okla.; Mrs. Jack Ratcliff, Gainesville; Mrs. Bernard Huchton, Gainesville and Mrs. Leon Hatcher, McAllen; three brothers, Raymond and Herbert in overseas service with the army, and Pvt. Jerome Pulte, based at Amarillo with the army air corps.

Both girls are also survived by uncles, aunts and cousins in this city.

The Ford sedan in which the young people were driving was completely demolished, but the truck was only slightly damaged and its driver was not injured.

A & M SPECIALIST PRAISES WORK OF CIVIC LEAGUE

Miss Myrtle Murray, Home Industries Specialist of A & M College has written a letter to Miss Olivia Stock, president of the Civic League and Garden Club, praising the work of the organization. The letter follows:

"I have thought many times of the pleasant visit which Miss Chapman and I enjoyed with your Club during my recent visit in Muenster. The club is to be congratulated upon the fine work that it is doing. I have never visited a club that manifested more real community interest, cooperation and friendliness than yours. "Remember me cordially to each of those whom I met."

Mr. and Mrs. O.J. Robertson and two sons visited during the weekend with Mr. and Mrs. J.W. Walker and daughter, Barbara Ann at Iowa Park.

Sister Antonette and Sister Mary Jane of Fort Worth were visitors here during the week, guests of the former's parents, Mr. and Mrs. C.J. Fette.

Mrs. George Mae Schumacher left Wednesday for Norfolk, Va., to visit her husband, B.H. Schumacher, S1C, who is there for a few weeks after doing sea duty.

Mrs. Ed Williams and little daughter of Wichita Falls joined Mr. Williams here this week to make their home. They are occupying the August Friske cottage.

Miss Mary Ann Reiter was back

Your Home

In my visits around the country looking for new ideas, I've found many indications that a large number of the million new homes a year which are expected to be built after the war will be away from present residential districts. In fact, some real estate companies report as much as 70% of their home-site sales are now in new areas on the fringe of the cities, in new suburbs and subdivisions and in country acreage where the families can enjoy clean, fresh air and safe, trafficless streets.

If you're planning to move away from the hustle and bustle of metropolitan life you probably consider yourself somewhat of a pioneer. But you need not leave any of the city's conveniences behind you! Not in the least! The so-called "city" gas is dependent upon gas mains which may not reach your contemplated home for many years, if ever. However, I've talked with many families who are using liquefied petroleum gas, butane or propane, and find it very satisfactory. You can easily find hundreds of users to talk to about this fuel because more than 2,000,000 homes now use it and one in every eight gas ranges in the United States is fueled with this gas which you may know as either "tank" or "bottled" gas!

Everyone I've talked to believes that liquefied petroleum gas is a superior fuel for the range, for silent gas refrigeration, water and even room heating. And it's certainly easy to find because it is available everywhere under dozens of trade names of individual companies. And you'll find the service is excellent, too.

ceased, other than as stated, if any whose names are unknown, and their heirs and legal representatives, and Ruth G. Moore, defendants.
The nature of said suit being as follows, to-wit:

This is a suit to vacate and set aside the judgment heretofore rendered on September 4, 1940 in Cause No. 13221 in the District Court of Cooke County, Texas and to partition said Lots 1 and 2 in Block 22 of Scott's Addition to the City of Gainesville, Texas, and for the appointment of a Receiver in connection therewith to sell the same, and for general and special relief, and in which it is alleged that the plaintiffs Mary L. Clement and husband, W.J. Clement, own a 37.84 interest in said land L.F. Carthen, a 1-84 interest, Rose Carthen, a life estate in 1-3 of a 13.84 interest, the plaintiffs O.B. Carthen, Gladys Baker and Elizabeth Huey, together an undivided 13.84 interest, subject to the life estate of their mother, the said Rosa Carthen, in 1-3 thereof, the plaintiffs Ruth Southworth and Cecil L. Carthen together an undivided 13.84 interest, the defendant O.S. Carthen an undivided 13.84 interest, the defendants J.C. Johnson, Rachel Barron, Roy Joe Griffin, Jack Griffin and Axilda Haney Griffin together an undivided 1-84 interest, and the defendants Mrs. C.A. Wadlow Mrs. E.L. Johnson, Emmett L. Dick and Ernest A. Dick and the unknown heirs of Bertha Mae Carthen, deceased, if any, together an undivided 6-84 interest; subject to delinquent taxes in the approximate amount of \$400.00, as is more fully shown by plaintiffs' petition on file in this suit.
Issued this the 6th day of June, 1945.
Given under my hand and seal of said Court, at office in Gainesville, Texas, this the 6th day of June, 1945.

SEAL MARTIN G. DAVIS Clerk of the District Court, Cooke County, Texas. (30-1-2-3)

War Service Is Reflected In TP&L Annual Report

A year of intensive wartime service to great section of Texas and the Southwest, including communities, war production plants, residential customers and rural and farm patrons, is reflected in the annual report of the Texas Power & Light Company for 1944, just issued.

Playing a vital part in almost every phase of the war effort in the territory it serves — comprising 446 cities, towns and communities — Texas Power & Light Company was able during the year to meet every wartime demand without the necessity of restricting or curtailing service to any of its customers, the report shows. The Company continued to supply power to the Southwest Power Pool for delivery to an Arkansas aluminum plant until August 31. The total energy delivered for this purpose through the Company's lines during 1944 was 137,209,900 kilowatt-hours, which was 57 per cent of the total electric power delivered to the Arkansas plant by ten companies in eight states, which indicates the scope

of this phase of the Company's war service.

The Company entered into a contract during 1944 with the Government plant at Denison dam, on Red River, to purchase 30,000 kilowatts (40,000 horse-power) of energy monthly from that plant, with a resultant credit to residential and commercial customers of not less than \$300,000 annually, and with a 10 per cent credit on bills for certain Government loads.

Growth of the Company's service and properties is shown by the following comparative figures for 1944 and 1943:

Kilowatt-hours generated and purchased (1944) 1,202,460,000 (1943) 1,056,433,000; customers served 174,233 and 162,022; miles of electric pole line, 10,804 and 10,492. Customers served increased by 12,211 during the year — the largest increase of any year in the Company's history. In five years, total number of customers served has increased nearly 30 per cent, the report shows.

The Company continued to make important contributions to the war food production program in the area it serves, by building more than 250 miles of additional rural lines, helping farmers meet the manpower shortage and speed production of needed food. More than 25,000 rural and farm customers are served directly by the Company from its own lines, and power is supplied at wholesale to 20 R.E.A. Cooperatives, serving many thousands of additional farms in North, Central and East Texas. The Company again continued in 1944 its "Wartime Farm Service Program," sending farm service representatives into the field with helpful suggestions to aid farmers in utilizing electric energy to best advantage in production, and in maintenance and repair of electric farm equipment.

The Company made gross expenditures for property additions in 1944 of \$1,564,000 and retired \$520,250 of property from service. New projects included installation of a 132,000-volt switching station to receive power from the Denison Dam plant, extensive improvement of the power generating installations at Trinidad Power Plant, and a new high-voltage substation at Elkton, near Tyler.

Industrial expansion in its territory, due to war demand, continued, says the report, which also points out that the Company works closely with its customers on the solution of their power and production problems. At the end of 1944, the Company was serving 2,888 industrial customers.

On the financial side, the Company had total operating revenues of \$16,221,052, in 1944, an increase of \$1,463,279, or 9.9 per cent, over the previous year. But increased income was more than offset by increased operating costs

the latter totaling \$11,279,294, up \$1,482,251, or 15.2 per cent, over 1943. Net operating revenue was \$4,963,758 for 1944, a decrease of \$18,972, or 4 per cent, for the year.

Provision for taxes took an increasing percentage of the total income, the report shows, with 1944 tax charges totaling over \$3,500,000, substantially exceeding the Company's payroll expenditure of \$2,404,208. In other words, for every dollar of operating payroll, the Company set aside \$1.46 for taxes, and of this amount, \$1.13 was for Federal taxes. Provision for taxes took more than 21 cents of each dollar of revenue received by the Company during the year, the report shows.

The Company is taking steps leading to early refinancing of all its outstanding long-term debt through issuance of bonds and serial notes bearing lower interest rates.

At the end of last year, 333 regular employees of the Company, and 166 temporary workers, had left the Company's service to enter the armed services of the nation, and are serving throughout the world. Several have been cited or decorated, the report says. The

1,536 employees of the Company at home are working in the battle of production, keeping electric power available for wartime needs. They are also active in war work, many being community leaders in War Bond drives, Red Cross work, salvage campaigns and other civilian war activities, the report shows.

The postwar world in which we'll get everything we want by merely touching a button, won't affect the wife in the least. She just won't touch a button. Our shirts prove that.

You Can't Look YOUR BEST— Unless Your Clothes Look Their Best.

MOOS OF THE MOMENT

BY UNCLE BOB
of the Kraft Dairy Farm Service

Maybe it looks like that guy in the picture at the top of this column today is good material for a padded cell, but he really isn't. He's pretty smart.

Instead of making hay while the sun shines, he's making grass silage in the rain. You don't have to worry about the weather if you make silage out of the various crops which the scientific folks call "grasses."

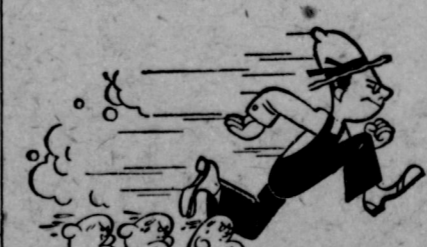

Most of the things you grow for hay or pasture can be made into silage. These include alfalfa, lespedeza, the clovers, soybeans, Sudan, Orchard grass, timothy, barley, oats and wheat.

Aside from the weather angle, making grass silage has a lot of other advantages. You need not worry about leaf shatter, sunbleach and similar things. You can store up some excellent food for winter use by this process.

Storage space is cut down, since a cubic foot of grass silage will weigh eight or nine times as much as a cubic foot of loose hay.

For helpful hints on making grass silage, I suggest you get either Circular 234, Extension Service, University of Missouri, Columbia, Mo. or Circular 299, Extension Service, University of Wisconsin, Madison, Wis.* The Missouri bulletin will tell you how to check the moisture content — an important point in making grass silage.

If your cows are not getting all the water they need, you are not getting as fat a milk check each month as you might have. How to provide water on farms where water is a problem, is the subject of an interesting article in the May-June Kraftsman. If you do not receive the Kraftsman regularly, write Uncle Bob, 500 Peshtigo Court, Chicago 90, Ill., and I'll mail a copy.

None of the farmers I've visited in recent weeks has had much time to spend entering a footrace. But right now you may be entering on a race with bacteria, if you are not cooling your milk promptly and rapidly.

The bacteria, instead of the boys and girls in the armed forces, will get the milk and you'll have less cash to buy War Bonds if you don't get that temperature down.

Bacteria multiply fast in warm milk, and milk with a high bacteria count just can't be used to make cheese or any other good dairy product. And as I've said many times before, the best way to cool milk is with a water tank of some kind.

Cold air does not do the job well enough or fast enough. If you do not have a cooling tank into which your cans of milk can be set, then I suggest a barrel cooler. They have proved their worth on many farms and are very simple to construct.

Ask your county agent or your plant fieldman how to build one. If by any chance they cannot give you help, write Uncle Bob and I'll tell you.

I suppose an artist would admire a field of bitterweed in bloom in the spring, the mass of yellow flowers making a nice display. But bitterweed is just a big headache to the dairymen and to receivers of milk, because of the flavor it gives to milk.

Yet it is not too big a job to get rid of this headache. The experiment stations have worked out methods which show how, by sound pasture work, you can crowd this weed out.

A full stand of meadow grass, clover, lespedeza or alfalfa on well fertilized soil discourages bitterweed. The pest likes packed ground, and will take hold in a big way if you permit your cows to overgraze.

The main thing in control is sound management — get a good stand of grass; don't pasture too late in the fall or too early in the spring. Use supplementary pastures in early spring, mid-summer and in the early fall.

*NOTE: There usually is a 5c charge for pamphlets mailed to non-residents of a state; but possibly your own state has a free pamphlet on the same subject. Ask your county agent.

given an honorable disability discharge from the army. He was stationed at Camp Howze since the activation of the camp serving with the medical unit. He opened Dispensary No. 1 and was in charge until last week. Before being assigned to Howze he was at Fort Benning, Camp Berkeley, and Camp Wolters. He has been in the service since 1941, being inducted from his home town Kalamazoo, Mich. He is married to the former Miss Elizabeth Neu of Lindsay and since their marriage, Feb. 10, 1944, the couple make their home in Gainesville.

LINDSAY SODALITY HAS PICNIC OUTING SUNDAY

Members of the Young Ladies' Sodality of Lindsay enjoyed a picnic and outing Sunday a Leonard Park, Gainesville. The girls gathered at the community hall here and went from there in a group to the picnic site.

After a chicken dinner the party attended the movie showing at the State Theatre, then returned to the park and enjoyed outdoor games and lunch.

Personnel included: Misses Marie, Agnes and Florence Zimmerer, Lucille and Betty Lou Bezmer, Ida Mae Neu, Louise, Elfrida, Anna and Emelia Hermes, Anna Mae and Dorothy Dieter, Clara Hundt, Beatrice, Evelyn and Elfrida Block, Gertrude Bengfort and Mildred Dieter.

Washington Notes

By Congressman Ed Gossett

Washington, D.C. June 8 - The House this week passed by the overwhelming vote of 345 to 18 the Bretton Woods proposal. Briefly, Bretton Woods is an agreement drawn up by 44 nations to do two things: set up an "International Bank for Reconstruction and Development" and an "International Monetary Stabilization Fund." The bank will have a capital of 9 billion 100 million dollars. The stabilization fund will total 8 billion 800 million in gold and currency, contributed by the respective nations. Our contribution will be 28 percent of the total, which gives us a voting power of 28 per cent.

The objects of this plan are to prevent economic warfare, to stabilize international currencies, and to provide loans for reconstruction etc. During and after the last war we loaned foreign countries some 11 billion dollars, only a fractional part of which has been or will ever be repaid. Under Bretton Woods these foreign loans will now be handled largely through the international bank and on a guaranteed basis. Bretton Woods, while experimental and imperfect is a long step in peaceful world collaboration and our wholehearted support of it is the hopeful sign.

The honor guest at the Texas delegation luncheon this week was Navy Lieutenant George K. Petritz of Illinois, just back from a Japanese prison camp. He described for us life aboard a Japanese prison ship in which hundreds of men were crowded into airless dungholes large enough for only ten, and where strong men died from suffocation. Any sympathy one may have for Japanese women and civilians is extinguished by his report of how Japanese women and children gazed smilingly into the holes where Americans were dying.

I was this week selected secretary to a group of Congressmen who are determined to defeat present proposals to make permanent the so-called Fair Employment Practices Committee. To make this meddlesome wartime agency a permanent bureau of this government would be the most radical departure from American traditions of democracy ever conceived by socialistic designers.

Many of us have been greatly shocked by reports that returning veterans in many places have been denied their old jobs. Under a law passed by Congress, returning veterans are entitled to their old jobs regardless of unions, seniority, or any contracts which industries or employers may have in the meantime.

It was my privilege this week, along with four Senators and three other Representatives, to talk with a brilliant and well-informed Frenchman who has just returned from the United Nations Conference at San Francisco. This gentleman was one of the leaders of the French underground movement, and appeared entirely conversant with the political and economic

Robert Walker, Jennifer Jones, Shirley Temple, Claudette Colbert along with Monty Woolley, Lionel Barrymore, in "Since You Went Away."

problems of all countries. Incidentally, his opinion, and that of most Congressmen, is the United Nations Conference in San Francisco is to be far more successful than one gathers from newspaper accounts. To my question, will France go communistic, this Frenchman replied no. He says the Communists have now reached their peak in France, and control only 23 per cent of the votes of the country. He feels democracy is safe in all countries where free elections are permitted.

He states emphatically that the Russians have not interfered with democratic government in any country where democratic government existed prior to the war. Not more than 1200 Russian soldiers now remain in Prague, the capital of Czecho-Slovakia. This most stable of central European countries has, and according to reports will continue to have, a democratic regime.

I am just in receipt of a letter from D.C. Greer, State Highway Engineer of Texas, outlining the "turn-to-market" road program for Texas under the Federal Aid Highway Act passed by Congress. Under this program the State, in addition to other programs, will improve and maintain 7,205 miles of secondary or feeder roads divided into some 841 projects throughout the state. This is a three-year program to begin immediately after the war. Due to the good work of Cooke County Commissioners and other officials, projects designated in Cooke County are: Junction of U.S. 82 three miles east of Gainesville north 10 miles; Gainesville south-east toward Mountain Springs 8.8 miles; Muenster to five miles north; Gainesville to Era.

Your Health

Austin, Texas. — Last year was considered by health officials to be an epidemic year for poliomyelitis in Texas. Inasmuch as 78 cases of polio have been reported to the Texas State Department of Health for this year as compared with 58 cases in the same period during 1944, Dr. Geo. W. Cox, State Health Officer, has issued the following statements and suggestions concerning the control and prevention of polio which he urges all Texans to observe.

Control measures must emphasize clean-up campaigns and improvements in sanitation. Strict sanitary measures must be observed in all communities. Stringent efforts should be made to eliminate the housefly and to destroy its breeding places. All mosquitoes and mosquito breeding places must be eliminated at once. Every effort should be made to

Confetti---

rule. Should that fall there's still a good deal of time to resort to force.

The latest official graft exposed by Fulton Lewis Jr., like many others he has exposed in the past is really a lulu. It reeks to high heaven, but the chances are that, as usual, nothing will be done about it.

Why? How can men entrusted with the care of public funds heur such charges and not do something to remove the evil? It can't be because the charges are false. If they were, he'd have been silenced long ago. Could it be because official corruption is so widespread that none of the big shots dare to delve into it?

The particular case now being exposed has one curious feature that makes it even more smelly. The War Department dribbled away millions of dollars fattening the purse of crooked contractors when it could have had its own Engineer Corps do the work better and faster at only a fraction of the expense. Every few days we hear of the marvelous achievements of the Engineers on roads and airports, but still the War Department gives its big jobs to men notorious for their inefficiency.

institute approved garbage collection systems immediately. Safe water supplies must be assured. Where adequate municipal sewage disposal systems are not in operation, it is vitally important to promote and maintain sanitary septic tanks and outdoor privies.

All swimming pools should, under rigid supervision, maintain those standards approved by the Texas State Department of Health. This necessarily includes maintenance of proper chlorine level. Where such standards are not maintained, these pools should be closed immediately.

All raw foods and vegetables should be washed thoroughly before use and protected from flies, filth, and insects. All eating and foodhandling establishments should adhere strictly to the state law concerning the sterilization of dishes and utensils. Those restaurants with insufficient personnel to maintain approved sanitation should close one or two hours a day so the employees can assist in maintaining cleanliness and high sanitary standards.

Every effort should be made to secure approved milk. Rats and mice should be exterminated. Maintain in the home the same sanitary standards that are necessary in community life. Particular attention should be paid to personal hygiene. Excreta from polio cases and contacts should be disinfected and handled with the same scrupulous care as in typhoid fever or bacillary dysentery.

Over-exertion in children should be avoided and children should not visit homes where there is a sick child. It is advisable to reduce to a minimum all human contacts especially in children during the outbreak of this disease. Early symptoms of infantile paralysis are headache, fever, vomiting, drowsiness, followed by stiffness in the neck and back. When suspicious symptoms appear, a physician should be called immediately. It is recommended that all cases be quarantined for

14 days. It is not advocated that schools, churches and theatres be closed.

"Easy Come... Easy Go" means DANGER AHEAD

Let's get one thing straight. There is real danger to you and your family—and to your country—in the belief that it is all right for you to spend everything you made last week because another fat pay envelope will come to you this week.

Lots of people felt that way in the last war, too. And they had rough jolts — to put it mildly. Readjustment always follows wars. Factories will have to be closed for retooling. Business will have to shift from a wartime to a peacetime basis. And no matter how much of an attempt is made to cushion the change, millions of persons may find that, temporarily at least, pay envelopes aren't coming in so regularly and so fat.

Take a pencil and figure out your total income, your necessary spending. What remains is your savable income, your future spending fund. That's the way to plan your spending and your saving. For the present, buy only what you need. Invest in War Bonds and hold them to maturity. Save a good part of your income week after week. Build up a reserve. Build it confidently knowing that it is going to help take care of you in the readjustment period which is bound to come.

Then you can face the future with confidence.

Help the nation's efforts to keep your living costs DOWN, the buying power of your dollar UP.
