

### MOVEMENT BIG GRAIN CROP TO MARKET SLOW

Brown county grain crop is the best ever grown since the county has been planting large acreages of grain declared County Agent O. P. Griffin today. Rains for the past several days have slowed up threshing but on every pretty day nearly every thresher in the county is running, he said. Only a few crops have been finished but work will be resumed as soon as the rains stop and the grain is dry enough to thresh.

The wheat yield is turning out even better than was expected, he states. Twenty-five to thirty bushels per acre for the wheat is not uncommon and in many instances the yield is more, according to reports from farmers to Mr. Griffin, and the majority of crops will run this amount or more per acre.

Oat yields are also running high and from 50 to 100 bushels per acre is being reported.

**Movement to Market Slow**

The movement to market is extremely slow considering the large crop, it is said. When the harvest started most farmers said they would sell most of the wheat and store the oats, but now farmers are planning to store as much of both as possible.

The market for carload lots of oats was quoted today as 17 cents per bushel. For wheat the market is 40 cents per bushel for No. 1 hard wheat and 42 cents per bushel for No. 1 soft wheat.

With the low market and expense of harvesting farmers in some sections are adopting the method of trading wheat for labor. Laborers are being paid in wheat and are having the wheat made into flour for their own use. Mr. Griffin is in favor of this method and said it should be used where possible.

Most of the grain has been cut and there were only a few crops waiting for the combine when the rains started.

### Good Time

MEXICO CITY, June 17—(AP)—Indians whose idea of a good time is to run two or three hundred miles barefooted over stony mountain trails and then celebrate by drinking crude beer made from fermented corn were described today by Wendell C. Bennett, University of Chicago research student, on his return from nine months residence with the Tarahumara Indians in the state of Chihuahua.

Field meets between rival villages are held at frequent intervals. Teams of five to ten runners race over stretches of fifty to 200 miles, sometimes as long as two days and nights. They kick along the course a small wooden ball with which the winning team must finish. Spectators light the trail with torches at night.

Heavy bets are placed on the teams. Inasmuch as they do not have money, the Indians wager pieces of cloth, skins, beads and sometimes a comparatively wealthy one will wager a cow. These are lumped together and put in the custody of a professional stake holder and after the race are awarded to the winners. Then there is a grand fiesta lasting sometimes a full day or night, during which time large quantities of corn beer are consumed.

Amusing superstitions and beliefs about how to win races persist. The Indians in Samachiqui believe that if they smoke a certain weed and blow the smoke at their rivals, it will hold them back. Another superstition consists of breaking up bones and spreading the dust on the course. The Samachiquians detour from these spots, but their rivals run through it. The spirit of the Samachiquians' ancestors, so goes the belief, reach up and grasp the legs of the rival runners, slowing them down.

### Nothing Definite Yet On Hatchery

Hilton Burks, secretary of the Chamber of Commerce, returned Friday from San Marcos and Bryan. At Bryan Mr. Burks joined the firemen in their efforts to bring the 1932 convention to Brownwood and at San Marcos he conferred with C. B. Grater concerning the location of the proposed fish hatchery.

Mr. Burks said this morning that all country from Waco to Bryan was badly in need of rain with the corn crop being practically ruined in several places. He declared that the entire section east of Waco could use a large amount of moisture on all crops, especially the corn crop.

In regard to the fish hatchery, Mr. Burks said that nothing definite had been decided concerning the hatchery as yet but that at present it seemed that Abilene holds favor as the designation, however this is not final and Brownwood may still have a chance to secure the hatchery.

### NO ELECTION IS LIKELY ON AMARILLO'S ZONING

AMARILLO, June 18—(AP)—No election will be called by the city commission on Amarillo's proposed zoning. Final passage and approval of the ordinance will be made Tuesday night. Proposed zoning in Amarillo has created unusual interest. Members of the city's planning board which prepared the master map with the aid of Major E. A. Wood resigned when the city commission made several changes as a result of a public hearing.

### Goldthwaite

Tuesday morning the body of an unidentified man was found at a camp a short distance south of town. Papers found on his person showed him to be W. N. Aylesworth. He came into town Sunday afternoon and camped near the old Confederate camp ground. His occupation was fixing machinery and Monday he did some work for several people in town. He was traveling in a little spring wagon and had a two wheel trailer. He had a beautiful dun pony that shows she has been well cared for and also well trained. When the officers were notified of his death and they went to investigate the pony seemed to think it was her duty to guard her master. She tried to fight the men when they attempted to get him. They brought her to town and tied her near the court house and she kept looking and neighing till she was carried to a stable to be fed and watered.

Among other papers found with his stuff was a letter from a daughter written more than two years ago. The letter, dated June 1, 1929, was mailed in Odenton, Md., and was received by him in Douglas, Ariz. The daughter's name was Mrs. Lena Hood. He also had a divorce dated May 9, 1927, granted to Wesley N. Aylesworth and Mattie U. Aylesworth in Warren, Trumble county, Ohio. All papers found showed he had traveled quite a lot. He had told some people who were camped near his camp that he had no people. Telegrams were sent to several places to try to locate some one who knew him. His body was embalmed and held in the Fairman Company's undertakers parlor. The inquest was held and the cause of his death was pronounced heart failure. He was lying across his cot. It seemed he sat down on the side of his cot and fell back dead. His head was on one side of the cot and his feet on the other when he was found. He had \$12.25 on his person. He came in town from San Saba.

Plans are being made to entertain the entire Texas legislature here one day during the Fair. It is proposed to prepare a barbecue at the Lake Merritt club grounds either for a noon meal or a six o'clock meal and have a program of music and speech making.

The Fair management is planning for the biggest and best Fair Mills county has ever had. The fact that there will be no entrance fees charged will prove attractive and the directors have been highly commended for this move. The catalog is out and every one is looking forward to July 15, 16 and 17 as three big days of dust and fun.

The Heart of Texas Epworth League Union meeting was held at Bethel last Sunday. A big crowd attended and a splendid program was rendered. A basket dinner was spread at the noon hour and everything good to eat was served.

The next meeting of this kind will possibly be held at the Cherokee camp ground some time in September.

The tax levy was made by the commissioners court last week for 1931 which was the same as has been for several years. The tax valuation has decreased considerably. The total assessed values for the county this year are \$5,342,750 against \$5,610,110 last year. The tax rate of 60 cents on the \$100 valuation is less than most of the counties in this section. The tax is divided among the various funds as follows: Jury fund 5c; road and bridge fund, 15c; general fund 25c; court house fund 15c. The levy in the various school districts was made in accordance with the special tax voted.

The court also canvassed the returns of an election recently held in the Ridge district wherein a \$2000 bond issue was authorized for the purpose of building a new school house. Their school house burned last winter.

On Thursday evening of last week one of the heaviest rains that has fallen here for a long time fell over this section. The measurement could not be ascertained exactly but it was estimated at about

### Grasshoppers Can Be Made to Earn Money for Farmer

Farmers who recall the ravages of grasshoppers in other years, and probably are fearful of the pest during the present summer, will find the following article of interest. It is written by a Kansas woman for a farm newspaper:

"We had just bought a small farm, paying part down, and the rest due in monthly installments of \$25. We still owed \$100 on it when my husband died, leaving the farm and dwelling, etc., with \$100 still due on it, with interest at 6 per cent. The farm was planted mostly to grain. There were two small children and one boy of 10, who helped me a lot. We had about enough to live on until the grain could be harvested and marketed. We also had a nice flock of chickens.

"Then came a host of grasshoppers, as they sometimes do in this state, and when they got through there was not enough grain left to feed my poultry the coming winter. We were in bad shape.

"To cap the climax of ill luck, it seemed, the hens ceased to lay, due in large part to lack of proper feeding. Then an old poultryman gave me an idea when he told me that grasshoppers were the very best of poultry feed—that feeding them to the hens would make them lay all winter. The 'hoppers had ruined what grain I had, so, why not make them pay the bill?

She Devised a Trap

### Grasshoppers Can Be Made to Earn Money for Farmer

neighbors I now began my drive. It was surprising the way the 'hoppers went for the white wall, all sliding down it into the trap. Then a canvas cloth was thrown over the trap to keep in the fumes and the candles were lighted. Soon all the insects were dead. I got nearly six bushels of 'hoppers the first drive.

Catches Up on Debt

"In less than a week I had more than 100 bushels put away" in the barn loft to dry. Then during the winter months I fed equal parts of grain and dried grasshoppers to the chickens. The result was astonishing. The hens started laying at once and continued to lay all winter. And when others saw what the 'hoppers feed was doing for my poultry, they bought all I could afford to sell at a good price.

"In this way and on eggs, etc., I earned enough to pay all my debts, including some money I had to borrow in the fall and the balance due on the farm in addition to feeding and clothing myself and three children. This season I have already made more than \$200 clear on poultry and eggs, and have a large and fine stock of chickens left. I am entirely out of debt and some in the bank. Of course I cannot get grasshoppers that way each season, but will try to make them pay for all the grain they destroy—with a big interest."

### Rogan Ordination Services Held Here Thursday Night

William F. Rogan was ordained to the ministry Thursday night at an adjourned meeting of the Presbytery of Brownwood at the Austin Avenue Presbyterian Church.

The Presbyterial meeting was held following a supper for the members of the congregation and visitors, at which time Professor T. H. Hart gave a short address.

The Rev. Mr. Rogan preached the sermon after which the ordination service and other business of the court was attended to. Rev. M. L. Womack, pastor of the Santa Anna Presbyterian Church, was in charge of the meeting. Fred S. Rogers, pastor of the Harris Street Presbyterian Church of San Angelo, was elected Stated Clerk of the Presbytery to take the place of Dr. Ben H. Moore, resigned.

The Rev. Mr. Rogan is a Brownwood boy, having finished high school here. He is a graduate of Trinity University and in May completed his studies in Princeton Theological Seminary. He has accepted a call to the Presbyterian church of Andover, New Jersey.

Mr. Rogan is now visiting relatives and friends here before going to his pastorate in New Jersey.

The cost of the World War in money has been estimated at about \$186,000,000,000.

### NEW ORLEANS—Perhaps you wonder where those frogs you eat come from. The majority of them are raised in the swamps and marshes of Louisiana. The frog raising industry in this state has become so well organized that laws have been passed regulating the size to be caught for marketing. About 400,000 frogs were sold out of the state in 1930 with a value of from \$3 to \$4.50 a dozen.

### Pettitt Invites Firemen Here for 1933 Convention

Fire Chief Rance Pettitt, Fire Marshal Ivan Ellis, Mrs. Pettitt and "Mother" Ferris returned late Saturday from Bryan after being delayed at Temple for several hours because of motor trouble.

Mr. Pettitt stated that he had extended an invitation for the 1933 convention be held here and had notified the State Firemen and Fire Marshals Association that Brownwood would be at Austin next year seeking the convention.

In speaking of Brownwood's support at the convention in attempting to secure the convention he said that he wished to thank the entire citizenship, The Bulletin, the Chamber of Commerce, and especially Hilton Burks and Harry Knox, who were at the convention working to bring the next session to Brownwood.

He said that the large number of Brownwood Bulletins of Monday's issue arrived Tuesday and that for two days every man met was either reading a Bulletin or had one in his pocket. "Even in the convention hall many read The Bulletin in preference to listening to the speeches and other numbers of the program," he said.

His Campaign Opens

IT MAY have been a mere coincidence that Mr. Hoover's address before the Indiana Editorial Association the other evening followed only a few days after the young Republicans met in Washington and definitely committed their party to the renomination of the President in 1932.

Mr. Hoover's discussion of the depression was interesting at least from the standpoint of novelty. He definitely admitted that there is a depression, and that its effects have been demoralizing.

His discussion of the tariff was somewhat more to the point. Taking note of complaints "from foreign countries" against the tariff schedules but overlooking the fact that the most serious complaint against the tariff has its origin in the American people themselves.

Economy and Efficiency

AMONG the most constructive acts of the Forty-Second Legislature was the appointment of a joint committee whose duty will be to make a detailed survey of all state departmental activities and prepare recommendations for consolidations of bureaus and commissions so that there may be more efficiency and less of expense in the operation of the state government.

ature and to other state officials that a greater saving in expense could be effected without loss of efficiency by consolidating units of the government whose duties are similar.

When the State of Texas was young its government was a simple affair, with very few commissions and bureaus and a plan of departmental work that was by no means complicated.

A complete reorganization of the government may be necessary to correct these conditions, but if it is to be undertaken as soon as possible, the cost of government is mounting too rapidly.

THE NEW President of the French Republic, M. Paul Doumer, like so many men who have ascended the heights of political preferment in the United States, is literally a son of the people.

He has many powerful enemies in France, and some of them are already threatening trouble for him, principally because he has included M. Briand in his new cabinet.

Avoiding Depression
A prominent Texas manufacturer, whose business has grown in the last few years until it requires a New York office and distribution warehouse, says that if industrial manufacturers would pay less attention to stock and bond markets, and concentrate their investments of money, time and thought in their own business they would have little cause to complain of hard times.

S. A. & A. P-T. & N. O. ASK PERMIT ABANDON LULING BRANCH LINE

WASHINGTON, June 15.—(AP)—The San Antonio and Aransas Pass and the Texas & New Orleans Railroads today applied to the Interstate Commerce Commission for permission to abandon a leased branch line from Gonzales to Luling, Texas, a distance of 19 miles.

The branch line proposed to be abandoned is paralleled by improved highways and the Galveston, Harrisburg & San Antonio Railway. Floods from the San Marcos river make upkeep of the line expensive.

Finds Two Foxes Engaged in Fight

BRADY, June 15.—(Sp)—A bad temper and a quarrelsome disposition may cause animals to lose their heads, the same as human beings. A. J. Beasley of the Mercury community tells the following story: While rambling about in the Mercury section recently, he came upon two tiny foxes, about the size of kittens, which were engaged in a furious fight—so furious, in fact, that they were entirely unaware of his approach.

scrap. But when he pulled them apart, the little wily animals became terror-stricken, tore themselves from his hands and made a hasty exit in the surrounding brush.

Coast Guard Gets \$300,000 Cargo Of Rum Aboard Yacht

NEW YORK, June 15.—(AP)—Coast Guard forces seized the steam yacht "Surf" off Montauk Point, Long Island, early today, declaring it had a cargo of rum worth more than \$300,000.

The yacht, with a prize crew on board, was brought to New York and anchored off the Statue of Liberty, where officials questioned the crew of thirty. Coast guard men said the seizure was one of the largest in recent years.

The biggest capture was the "Surf", a 100,000 snow white yacht seized off Montauk Point at the eastern tip of Long Island. Coast Guardsmen said they trailed her from a "mother ship" on rum row and found \$300,000 worth of liquor aboard.

In Block Island Sound, a speedboat carrying 250 sacks of liquor valued at \$12,500 fell into the coils of a patrol vessel. In Little Harbor, on the New Hampshire coast, a motorboat's crew escaped by driving their craft on the sands, leaving \$20,000 worth of contraband behind.

New Jersey Paper Says Ford To Make Deisel-Motor Car

An unconfirmed story received by The Bulletin today from Heckenroth, New Jersey, stated that the Bergen Record, daily newspaper, had learned from officials of the Ford plant near Edgewater, New Jersey, whose names were not given, that Ford shortly will begin production of a new stock automobile powered by a Diesel motor.

The story says further that the new car will sell at a lower figure than the current models, will be of heavier construction. The motor is to be eight cylinders and of a V-type construction.

Regarding the story, E. J. Weatherly, local Ford dealer, said that he had received no information of such an automobile from the Ford plant nor any intimation of its production. However, he said that he had been informed by a letter received recently that Ford would have no eight cylinder automobiles on the market this year, but that the letter did not refer to Diesel motors.

Shipping has increased more than a million tons.

Blanket

W. W. Reagan passed away on Tuesday afternoon of last week. Mr. Reagan had been in ill health for some time, but was thought to be getting along as well as usual up until Sunday before he passed away on Tuesday. Funeral services were held at the Union Grove Church of Christ Wednesday afternoon by Rev. T. M. Carney. Following burial was made in the Blanket cemetery.

Mr. Reagan leaves a wife, ten children and a number of grand-children and host of other relatives and friends to mourn his going. Mr. and Mrs. J. R. Deen left on Monday evening for Houston and other points. They expect to spend several days visiting. Mr. Deen, who is agent for the Frisco Railroad here, is taking his vacation. Mr. Wyatt of Rochelle will have charge at the Frisco station while Dr. Deen is away.

Mr. and Mrs. Ernest Allen and son, Ernest, Jr., spent several days last week in Abilene. Rev. Bryant preached at the Blanket Church of Christ Sunday afternoon at 4 o'clock. Mr. and Mrs. Theron Bird arrived Sunday evening from Artesia, New Mexico, for a visit with Mr. Bird's parents, Mr. and Mrs. L. F. Bird.

Mrs. J. A. Faulkner and son, Curtis, visited Madison Gilliam and family near Comanche Monday. A mistake was made in our local items last week. It stated that the Baptist revival would begin July 1st when it should have been Sunday, July the 12th.

Charles Stewart of Brownwood spent several days last week with his grandparents, Mr. and Mrs. Lee Stewart. M. W. Vernon returned home the first of last week from an extended visit with relatives at Waco. Mr. and Mrs. M. F. Dossey and daughters, Misses Thelma and Nina, and Evelyn and Robert Boler, attended the singing convention at Gowman Sunday.

Mr. and Mrs. Charlie Lambert returned to their home at Port Worth Saturday afternoon after a few weeks' visit with relatives at this place. Rev. N. M. Gilbert of Brownwood preached two splendid sermons at the Baptist church Sunday. Mr. and Mrs. T. V. Austin and children and Miss Iva Mae Kennedy were visiting at Sidney Sunday.

Bill Rogan of Brownwood, who has recently returned home from Princeton, New Jersey, where he has been attending school, was visiting in this community last week. Rev. Rogan was ordained at a service held in Brownwood Wednesday evening. T. M. McCulley, S. B. Haddon and Will Baker of this community attended the ordination.

Mrs. Noel Hayes and children of Seymour spent last week and this in the home of Mrs. Hayes' parents, Mr. and Mrs. D. E. Crisp. Mrs. Holcomb and daughter, Miss Mattie of Brownwood, spent several days last week with Mrs. L. W. Holcomb. Mr. and Mrs. Roy Blackman are the proud parents of twin daughters, born Tuesday. The little ladies shall answer to Barbara, Jean and Andrea Lee.

Mrs. G. M. Norris is spending this week with Mrs. C. A. Stewart at Brownwood. S. B. Haddon, Misses Esther and Ora Strickland and Charlotte Switzer spent Saturday night with relatives at Port Worth. Mrs. T. B. Carpenter and son, John, visited their daughter and sister, Mrs. Brown and family, at Burkett the first of the week. Miss Leva Eoff of Daniel Baker College, Brownwood, spent the week-end with her parents, Mr. and Mrs. Jim Eoff.

ents, Mr. and Mrs. Will Baker, Sunday.

Mrs. Sanderson of Comanche spent the first of the week in the home of Mrs. W. T. Parker.

Cross Plains

Showers which fell here Wednesday afternoon followed by a sudden deluge during the night, totaled 1.65 inches according to the government gauge at this city. Heavy and strong winds damaged crops considerably, west of here Friday evening. Threshing operations were checked to some extent due to the precipitation but has now continued.

An unusually large crop is forecast for this country. Dressy farmers expect from forty to ninety bushel yield per acre of oats. Hugh McDermitt, Dressy rancher, has sown more than 1200 bushels of wheat in the Cunningham building on South Main street. The Farmers National Bank was forced to close its doors Thursday morning after the arrival of two bank examiners. A bank examiner is now in charge. People are optimistic and expect a large percentage of their deposits returned.

The fruit crop around Cross Plains was totally killed. Dewberries are producing heavily and numerous peddlers are seen around town. Berry growers from as far south as Bangs are bringing their fruit to the Cross Plains market. The price is ranging from thirty to forty cents per gallon. The produce business in Cross Plains took an upward swing during the past week. Nearly 2000 dozen eggs and 511 fryers were marketed here the past Saturday at the three produce houses located here. Other businesses made a substantial increase. Property will return to Cross Plains eventually but gradually.

Holder

The people of our community were blessed with a good rain last Tuesday night. The crops will grow now as they sure were needing rain. Our community was made sad when they heard of Mrs. Pearl Thomas' death. She died June 8. She was a well known person of our community but has been a resident of Brownwood for several years. She was survived by six children—two girls and four boys—Homer, Wade, Carl and Chester; Mrs. Ruth Morgan of Brownwood and Mrs. Beulah Carter of California. Most all the farmer of our community have their grain all cut ready to thresh.

Little Mack Malone has the mumps. We hope he will soon be over them. Mrs. J. C. Jones and daughter, Ethel Jones, were shopping in Rising Star and May Thursday of last week. We were visited by another good rain last Thursday night, also quite a bit of hail, but not enough to damage the crops. Mrs. Vida Ward was visiting her mother, Mrs. G. W. Mills, Thursday.

Mrs. Georgia Cox and children visited Mrs. Quilla Scott Thursday evening of last week. Mr. Barton and Chester Jones spent last Thursday evening with Mr. Raymond and Thurman Boyd. Mr. and Mrs. Will Dickerson were visiting Mr. and Mrs. Bill Jones Thursday of last week. Mrs. McDonald is visiting her son, Mr. Guy McDonald of Rising Star.

Argotane has certainly worked wonders in my case," said Mrs. Stubblefield, 1907 Ave. V, Cisco, Texas, recently. Mrs. Stubblefield is the wife of a well known employe of the Texaco Oil Co., and has many friends and relatives in this section of Texas. "For several years," continued Mrs. Stubblefield, "I suffered with indigestion and dyspepsia and during the past two years especially I have tried everything with no results until I got Argotane. My stomach would cramp and bloat something terrible after eating and sometimes even liquid diet did me the same way. My suffering was awful and I got so I was actually afraid to eat anything. A few months ago my nerves seemed to give way and I have been unable to get sufficient rest and sleep. My daughter induced me to try Argotane and now after taking two bottles I can truthfully say I feel better than I have in many years. My sleep is sound and restful and, Oh, it is such a relief to be able to eat what I want without suffering those terrible pains afterwards. I feel very grateful and am only too glad to tell others about the medicine that has done so much for me. Genuine Argotane may be bought in Brownwood at Renfro's Retail Drug Stores. (adv.)

# VANDERBILT IS GRIEVED OVER LAST EPISODE

RENO, Nevada, June 18.—(AP)—Cornelius Vanderbilt, Jr., was "sorry" today that he had "nothing to say" concerning the latest episode in his stormy career—a reported rift with his wife over alleged attentions paid her by Peter Arno, noted cartoonist here for a divorce.

Neither would Mrs. Vanderbilt or Arno comment on reports Vanderbilt had gone gunning for Arno but had changed his mind before reaching the Arno residence and returning to his own home.

Chief of Police J. M. Kirkley said last night Arno had come to him Tuesday asking for protection from Vanderbilt, who, he said, had threatened to do him "bodily harm."

Kirkley said he had told Arno he was "big enough to take care of himself," and that if anyone was bothering him "to go punch him on the jaw."

Arno made no mention, Kirkley said, of any attempt by Vanderbilt to shoot him. This also was confirmed by Clyde D. Souther, Arno's attorney, who said that "if any such statement has been made by anyone it is absolutely untrue, and not founded in fact. No such correspondence took place at any time or place."

The only mention of difficulties in the Vanderbilt household was by Vanderbilt's own attorney, Samuel Platt, who issued a statement in which he said "Vanderbilt for some time has been incensed over attentions that Arno has been paying Mrs. Vanderbilt."

The Vanderbilts married here in 1927 shortly after he had divorced his first wife and the present Mrs. Vanderbilt likewise had obtained a decree. They have been in Reno several weeks, supposedly coming here for some motion picture work in which Vanderbilt is interested.

# SHE'LL START LIFE ANEW

NEA New York Bureau

She's going to start life all over again in her old home town of St. Louis, Mo., said Mrs. Charles Nixon-Nirdlinger, who here is shown with her two children, Fred and Charlotte, as they arrived in New York from Europe. While on trial recently in Nice, France, for the slaying of her husband, an American theater magnate, she heard herself described as "too beautiful to be bad" and was speedily acquitted by a jury.

# DOLE SYSTEM IS TRAGEDY BY NOTED WRITER

LONDON, June 18.—(AP)—The full history of England's unemployment insurance reaches back almost 100 years ago to 1834.

The term wasn't used in 1834 as a symbol for a social trouble. Unemployment was regarded as an attitude of the individual. The poor law of that year, however, took it into account by reasoning that all that was needed to end unemployment was to provide tests severe enough to drive men back to work before relief was granted.

The theory hardly seems socially alert in these days, but more or less, with such alterations as a changing national temper and social fabric produced, that was the century's gesture toward the problem of the workless.

The important years have been in this century, particularly the last 20.

In 1905, a royal commission made the first study into means other than poor laws for meeting the distress arising from want of employment, particularly during periods of severe industrial depression. Its findings started the ball rolling toward an organized scheme of unemployment insurance.

The first national compulsory unemployment insurance act was passed in 1911. It was the first of its magnitude in the world, and other attempts had not been significantly successful.

Each year since 1911 has seen a new model of the plan, but the basic design has remained the same. Largely the changes have been extensions to cover more industries.

Now all persons, either self-employed under contract in Great Britain are required to be insured except farm workers and domestic servants and certain other white-collar classes. There are approximately 12,000,000 persons so insured.

In 1920 the act was recast and since then has been subjected to constant strains through the depression which has clung to England until even the ministry of labor believes that they "threaten danger to the whole structure."

# Diamond Has His Days in Court

TO COURT ROOM

All the roads lead to the courtroom for Jack "Legs" Diamond, notorious New York gambler who here is pictured beneath a prophetic sign in the U. S. Commissioner's office at Kingston, N. Y. Diamond posted bail totaling \$72,750 for the various indictments under which he had been held there. But then he had to go to New York City to answer a federal charge of violating the prohibition law.

# MEAT CUTTING METHODS TO BE DEMONSTRATED HERE BY EXPERT

When is a lamb a duck? What is the Saratoga Chip? These and other intriguing questions are to be answered when Roy W. Snyder, meat demonstration specialist at A. & M. College, makes his appearance in Brownwood, by his appearance at the monthly meeting of retail meat dealers, housewives, students and others. He will be in the city June 25th.

The methods he uses are brand new, it is said; not trick cutting, but practical new ways of preparing the different cuts that will meet the demands of the present day discriminating public.

Arrangements for bringing Snyder to the city were made by O. P. Griffin, county agent, and Miss Maymie Malone, home demonstration agent. They explain that similar demonstrations are being conducted in cities throughout the country as a feature of a national lamb program. The demonstrations in other cities have won wide approval, according to reports.

One of the objects of the new cutting methods is to apportion the lamb into cuts that are not too large in size and are attractive in appearance. This is an age of kitchen-cites and motor age, and the small attractive package is in vogue, it is said.

In discussing the new methods of cutting lamb, Snyder, the demonstrator, calls attention to the fact that one of the big troubles has been the lack of an understanding of lamb on the part of the consuming public.

"Most people think of it as a luxury, considering only the chops and legs," he said. "They don't seem to appreciate that the breast, the shoulder and other parts are equally as appetizing if cut and served in the right way. Economy and variety are two of the advantages of utilizing the less demanded cuts."

and driven by a fourth man. Operators of the bus line reported that \$281.25 was taken from passengers and the driver, a negro woman passenger, lost her money. The bus continued its way an hour after the robbery.

Miss Eula Mae Taylor, 35, lost \$150. H. L. Schomaker, 41, lost \$87. Others robbed were W. A. Pollard, Tyler, Tex., \$30; Houston, \$20; states, \$32.25, and J. C. Deason, bus driver.

The bandits were armed with pistols. Deason said one of the men and the other two in the party boarded the bus at Shreveport, La., and he remembered them getting out of a roadside station similar to the one which they escaped after the robbery.

The passengers then went up outside the bus and were searched for money.

# Father Of William E. Hickman Wounded Two Men In El Paso

EL PASO, Tex., June 18.—Two men were wounded here early today by William E. Hickman, father of William Hickman, hanged in 1922 for murder of Marion Parker, a Montoya school girl. They were Antonio and Tony San Roman. Hickman said two men in an automobile drove into an alley in rear of his home and created a disturbance, whereupon he fired shots with a pistol to frighten them away.

San Roman said he and Montoya were "looking for a drink" and honked the automobile horn several times when an argument with a man in a nearby house began. Roman was shot in the right Montoya in a hand.

Hickman is a grocer.

# MONTGOMERY WARD TO POLL NATION ON TYPE RADIO ENTERTAINMENT

A nation-wide poll of radio listeners assuming the proportions of a presidential election will be conducted over the air during the month of July. This radio program research, destined to solve a problem which has vexed commercial sponsors since the childhood of radio, will be undertaken by Montgomery Ward & Company with the cooperation of the National Broadcasting Company.

The four programs from which the popular choice is to be made represent four distinct types of radio entertainment. They will give the radio fans an opportunity to say which form of entertainment is most acceptable to have served them as a daily feature for the remainder of the year.

The sponsors are offering cash awards totaling \$10,000 for the best letters determining the type of radio program and the preference for listening time. The contest will be supported by an extensive newspaper advertising campaign.

Each program is to be broadcast daily except Sunday for one week beginning July 1. The series will open with an orchestra under the direction of an internationally famous conductor. The program of the second week will be an entertaining dramatic sketch of home life played by stars of stage and radio fame. The third week will be given over to a presentation of modern minstrelsy. And the final program offering will be one of song and sentiment.

Requirements for entering the contest will be announced during the opening program on July 1st. The contest will close on August 7th. Entry blanks will be mailed to 9,000,000 families and additional blanks can be obtained free of charge from any of the 550 Ward stores.

The radio program research will be conducted over a network of 35 stations.

# DR. BRINKLEY PLANS RE-OPEN HOSPITAL IN MILFORD, KANSAS

MILFORD, Kans., June 18.—(AP)—After a six weeks absence, Dr. John B. Brinkley was back in Kansas today with the announcement he would reopen his hospital here in September.

Brinkley, third man in the Kansas governorship race which he entered last fall after revocation of his state medical license, arrived here yesterday from Mexico City in his airplane.

He said he would employ a staff of assistants and that he personally would not do any surgical work. Brinkley has pending in United States District Court a suit to set aside the order of the Kansas board of medical registration and examination revoking his license after the board had found him guilty of charges of gross immorality and unprofessional conduct involving his goat gland transplantation operations.

Closing of the hospital, Brinkley said, was customary during the summer months. It had been closed since May 1, he said.

Brinkley said a 100,000 watt radio station, "the largest in the world," was being constructed at Villa Acuna, Mexico, across the border from Del Rio, Texas. He said it was not his "personal" venture but that of a Mexican corporation.

"I will speak over the station if they will let me," he said. Arrangements could be made, he explained, so he could speak from Milford by remote control. He said the station probably would be ready for operation around September 15 or October 1.

The Federal Radio Commission last year refused to renew the license for the Milford station formerly operated in connection with the Brinkley Hospital. The station now is operated by a new owner.

Brinkley entered the governorship last fall as an independent candidate, too late to have his name printed on the ballots. His name was written in 183,279 votes, 33,642 less than the number who voted for Governor Henry Woodring.

# HOOVER IS ON WAY BACK TO WHITE HOUSE

ENROUTE WITH PRESIDENT HOOVER TO WASHINGTON, June 18.—(AP)—President Hoover was on his way back to the White House today, "appreciative" of the welcome given him by the people of the central states.

In the last three days he has spoken as many times to vast audiences in Ohio, Indiana and Illinois and he has been the central figure in receptions at the capital cities of all three states.

In the central states President Hoover laid down his program and upon it he is determined to stand. Confidants of Mr. Hoover asserted he will stand on the issues he has defined in this region and remain henceforth in his post at the White House. He has no speaking engagements for the next two months and his close friends are of the opinion his platform has been completed.

Crops in the section, the President observed, are unusually good, and he believes the depression will be broken eventually by a good crop.

Administration officials pointed out hopefully today that every depression in the last fifty years has been broken in June or July.

In his speeches in the central states, Mr. Hoover outlined what he believed to be the cause of the depression; declared this to be the "dominant" issue; asserted that confidence in the president and his administration would lead the nation to a greater era of prosperity than "ever before"; and specified some proposals he has for the future.

Secretary Lamont and Senator Glenn, of Illinois, were with the President on his return to the capital.

# Home For Widow Of Murdered Man

SAN ANGELO, June 18.—(SP)—Purchase of a home for Mrs. John Kiser and eight children, the oldest 14, the youngest 2, is planned with a fund which M. A. Jarrell, dairyman, has started here. John Kiser was stabbed to death on the outskirts of the city on June 9. More than \$300 had been raised Wednesday, the largest contribution coming from a visitor, \$100.

Indictment charging murder in connection with Kiser's death has been returned against George A. Hill, 50, and son, Alva Hill. A few hours after they were remanded to jail without bond Saturday, Mrs. George Hill was found dead in her home, the victim of self-administered poison, according to a coroner's verdict. Two sons of Mr. and Mrs. Hill, aged 10 and 5, have been taken to Millsap by brothers of Mrs. Hill.

# Automobile Mishap In Amarillo Fatal To Woman Thursday

AMARILLO, June 18.—(AP)—Mrs. Ada Williamson, 49, resident of Amarillo, for two years, is dead as a result of injuries received early this morning in a motor car collision.

Twice within less than a year a tragedy has struck the A. E. Williamson family. At the time of the fatal crash Mrs. Williamson was talking about the sudden death last August 20 of her son, Albert, who dropped dead while attending a show.

# Night Bus Between Shreveport-Houston Held-Up By Bandits

SHREVEPORT, La., June 18.—(AP)—A check of losses in the holdup of a Shreveport-Houston passenger bus near Keithville, La., last night revealed today that three robbers obtained only \$145.25 instead of \$281.25 as originally reported.

Miss Eula Mae Taylor, nurse, reported to the Shreveport Journal from New Willard, Tex., today she lost only about \$7. It was first reported she lost \$150. She saved \$17 by concealing it in her clothing, she stated.

W. A. Pollard, Tyler, Tex., dropped his wallet with \$36 on the bus floor, but one robber found it.

# Hardy And Denny Sale Opens Today

Large crowds throughout the day have been taking advantage of the big sale being held at the Hardy & Denny Paint and Wall Paper Company. The sale opened today and it is stated that it will continue until the stock of the company has been reduced to normal.

The sale includes items in every department of the store, paint, enamel wall paper, canvas, paste, artist material, framed pictures, picture framing, and many other things. Everything in the store has been reduced in price. The sale is being given by the company to reduce an overladen stock, it is announced.

The store is urging the people to refinish, repaint and repair their homes and furniture during this big reduction in prices of materials. This is the best time to do the much needed work on houses while the materials can be bought for about half what they could ordinarily cost.

People at the store said they were very much pleased with the sale today and with the large numbers that have been taking advantage of the reduced prices.

# Garner Criticizes Mellon For Placing Interest Rate High

LAREDO, Texas, June 18.—(AP)—Congressman John Garner of Uvalde said here today he believed Secretary of the Treasury Mellon had made a mistake in offering \$800,000,000 treasury certificates at 3 1/8 per cent interest. He said he advised Secretary Mellon the issue undoubtedly would be oversubscribed at 3 per cent.

Garner expressed dissatisfaction at the uneven distribution of wealth over the country.

"For more than 100 years we have been feeding New England and concentrating money there," he asserted. "The time has come for this money to be more evenly distributed and Texas should get its share. The state of Rhode Island, no larger than Webb county, paid more inheritance taxes last year than the entire state of Texas."

# DO-X Continues Her Flight To Rio De Janeiro Thursday

NATAL, Brazil, June 18.—(AP)—The German flying boat DO-X, resuming her flight from the Old World of the New, was soaring down the coast of Brazil today toward Bahia on the first stage of a trip to Rio de Janeiro.

She rose from the harbor at 1:30 A. M. C.S.T. and set her course due south. Fifty-five minutes later she was sighted over the city of Parahyba, about 100 miles from here. About 40 minutes after that she circled above Pernambuco, 75 miles further. She had then flown nearly a third of the total distance of approximately 800 miles.

# DALLAS MAN IS ELECTED HEAD OF HOTEL GREETERS

VANCOUVER, B. C., June 18.—(AP)—Charles A. Marigold, of Dallas, Texas, was elected president of the Hotel Greeters' Association of America at the 21st annual convention here yesterday. Kansas City, Mo., was chosen for the 1932 convention city.

The United Kingdom imported more than 25,000,000 feet of American motion picture film in the first six months of 1930, more than double the quantity imported during the same period of 1929.

The religion of the woman of India teaches her to serve her husband and to die, if worthy of the honor, at his funeral pyre. The Indian suttee, or widow-burning, is derived from a Sanscrit word meaning a "true wife."
