Results Shown In Army Worm Fight; Situation Urgent

Indisputable evidences of the effectiveness of poison bran mash in killing army worms, which have been destroying a great amount of grain and some feed in Brown county, was seen in an extensive tour of fields over the county today in which poison bran has been sown.

R. R. Reppert, entomologist of the extension service of A. & M. College, and County Agent O. P. Griffin made the tour starting from Brownwood and visiting fields in the Mount Zion and Salt Branch communities and then going to Coleman county, and J. M. Binion, vocational agriculture teacher of Santa Anna. The party then visited three fields near Bangs. In all seven fields were visited.

After the inspection of Brown county fields Mr. Reppert went to Coleman with Mr. Robinson to give a demonstration near Coleman this afternoon in the use of poison bran to kill army worms.

Protection Needed Now
"If farmers will protect their crops now with poison bran the next generation of worms will be taken care of by parasites," said Mr. Reppert following the inspection. Mr. Reppert did not fully realize the heavy infestation of the section when first notified but when he arrived in Brownwood Wednesday night and talked to Mr. Griffin and then made the tour today, he said there was one of the heaviest infestations he ever saw and commended Mr. Griffin and Brown county farmers for their early work in putting out poison bran.

For a time it seemed as though the worms would destroy the entire oat, wheat and barley crops, as well as corn and other crops in Brown county. Farmers first sowed poison in bare fields to stop migration and in fields where the crops were not up. Later it was discovered that the bran was just as effective in the grain and farmers in every section of the county have sowed some bran and have had good results.

Urges Further Work
Both Mr. Griffin and Mr. Reppert urged further sowing of bran in grain fields and in any crop infested by worms. Both are of the opinion that the present generation can be controlled by poisoning the parasites, such as the black beetles and small bee-like flies, will control the next generation.

The first field visited today was in the Mount Zion community. The oats near the edge of the field were heavily infested. No poison had been put out at the place and the loss to some parts of the grain was estimated at 75 per cent. Several other fields in the section were visited, all infested with worms. In some of the fields the parasites show rapid development and the worms are being killed to some extent.

Dead Worms Found
Fields of Dick Ratliff in the Salt Branch section of the county was the first field visited where poison had been distributed. Many dead worms were found throughout the grain and on one side where feed was growing next to the grain a number of dead worms were found where they had migrated after eating the poison bran in the grain. Mr. Ratliff also sowed poison bran in the edges of his feed stuff to retard, if not stop entirely, the worm migration. Parasites were also developing in this field. Mr. Ratliff had very good success with the poisoning in the field that was visited and said he would sow another field of oats this afternoon.

Another field in the Salt Branch community where a part of the oats had been cut and banded was visited. The worms had cut most of the grain from the bundles and hundreds could be found on the inside of each bundle in the field. The worms can better destroy the grain in bundles than when it is growing. They go inside the bundles where it is cool and where the sun can not shine on them and eat on the grain day and night. When the grain is in the fields they only feed at night for they can not stay in hot sunshine. If the grain is ready to be cut it is best to go ahead of

Thinks Raid Is At Hand, Destroys 18 Gallons of Mash

There are many trials and tribulations in the life of a liquor law violator, harassed by officers at all times and constantly facing arrest and raids, but the prize story concerning raids is being told today by members of the sheriff's department concerning an incident which happened this morning.

Deputy sheriffs were searching for a man in North Brownwood, who is charged with passing a "hot check" and during the search this morning stopped to make inquiries. They drove the automobile off the street between two houses, near the house where an alleged beer seller lives.

When the officers stopped the alleged beer seller spotted them—a raid was coming and the evidence must be destroyed. As a result a quick transfer from the house to the porch brought forth 18 gallons of mash in the process of being made into beer. This was poured out and other equipment and stock on hand were being destroyed when the officers, looking on with amusement, informed the party that no raid was to be made.

They had no search warrant so they were powerless to stop the flow of illicit beverage. They did not find the party for whom they were searching.

Must Observe All the Stop Signs

Motorcycle Officers Jack Pike and F. J. Walker issued a warning today to all automobile drivers concerning stop signs, red lights and improper automobile lighting. The officers said that during the past few months motorists had been given many privileges concerning stop signs and that now this privilege was being abused.

They stated that beginning today everyone would be expected to come to a complete stop at every stop sign. Changing of gears is not enough but the automobile must come to a complete stop as is directed on the "policemen" at corners where motorists are supposed to stop.

Motorists are now even not slowing down at stop signs and this is bringing about the rigid enforcement of the law concerning stop signs and red lights, it was stated. The two officers also said that there are a large number of automobiles in Brownwood which have only one headlight and many without proper tail lights. This oversight on the part of the automobile owner is dangerous and the officers say that a sharp watch will be kept for all automobiles with improper lights and that no more warnings will be issued and instead violation tickets will be given.

OKLAHOMA HIGHWAY BODY CONTINUES ECONOMY PLAN

OKLAHOMA CITY, May 21.—(P)—Further pursuing its economy policy, the Oklahoma Highway Commission today placed 1,300 highway maintenance men on a five day week basis, cutting salaries in proportion. Maintenance men have been working six days weekly. Sam Hawks, commission chairman, estimated the reduction in time would result in a \$7,200 weekly saving.

J. T. George To Be Resident Manager Longview Hotel

Jasper T. George, day clerk and assistant manager of Hotel Brownwood, is leaving tonight for Longview where he will be resident manager of the new Hotel Longview, a Southern National Hotel Association house, will be under the district management of Bruce Wallace. Mr. George will go to Houston tonight for a short visit and will be accompanied by his wife who will accompany him to Longview, where they will make their home.

Mr. George came to Hotel Brownwood from the Buccaneer Hotel of Galveston when the local hostelry was opened in November of last year. Before going to the Buccaneer he was associated with the Sam Houston Hotel Company of Houston. He came to Texas from New Hampshire where he was connected with the Maplewood Country Club, a hotel resort in the White Mountains.

With the departure of Mr. George there will be only one employee here who came to Brownwood at the opening of the house. J. B. Mayes, auditor is the only remaining employee.

Mr. George will be succeeded here by W. O. Stewart who will be day clerk. Mr. Stewart has been connected with local hotels for several years.

The new Hotel Longview which is now being completed is a three-story brick structure with 125 rooms. It is built of Spanish architecture with a large and spacious patio which serves as lounge and lobby. It will be one of the most modern hotels in East Texas oil fields.

Need Accurate Information On Location Fires

A small fire in a cow shed in the Woodland Heights district did very slight damage at 10:00 o'clock on Sunday night. The fire department had difficulty in reaching the fire and Fire Marshal Ivan Ellis said today that if it had been a bad fire it would have done its destructive work before the arrival of the trucks.

He said that when the alarm was given the department was the only thing given them was "the end of Third Street," and with this information they set out to find the fire. Third Street has four ends and the firemen visited all of them before finding the fire. The street is completely blocked for some distance at Willis Creek, then continues in the Woodland Heights section.

Mr. Ellis said that he wished to inform the people that they could aid the department very much if they would be more accurate in giving the exact address when a fire is burning. He declared that inaccurate information many times causes the trucks much delay in getting to the fire, thereby increasing property damages.

GENERAL RAIN FALLS IN MIDDLE WESTERN STATES

DODGE CITY, Kansas, May 21.—(P)—A general, slowly falling rain covered southwest Kansas, west central Kansas, the Oklahoma Panhandle and most of the visited sections continued falling to day. A light snow fell this morning at Sharon Springs, Kansas.

IS ARRESTED AFTER TIP IS GIVEN POLICE

MEDFORD, Wis., May 21.—(P)—Joseph Fleischmann, 35, shot and killed his wife and two small sons last night and for five hours held his two daughters, another son and three adults in a state of terror while he talked incessantly of firing rifle bullets at them.

The three adults, one a Catholic priest, escaped from the Fleischmann farm home, two miles north of here, amid a burst of bullets from Fleischmann's gun. They called authorities who arrested the man before he could harm his other children.

Crazed by Liquor
Fleischmann, an assistant butter maker at the Medford Creamery, was crazed by liquor, Sheriff Geo. R. Baird said. He said Fleischmann had been confined at the Winnebago asylum twice for alcoholic insanity.

Wednesday afternoon, the sheriff said, Fleischmann began drinking his own home brew beer. Inflamed, he shot his wife and two youngest sons and talked to himself about taking the lives of his other children.

Finally, he telephoned Anton Kummer, a neighbor, and invited him to his home. Kummer walked into the house a short time later and found himself covered by Fleischmann's rifle. The threats of death continued.

Fleischmann forced Kummer to drag the bodies of the three victims into another room and cover them with a sheet.

Fleischmann then ordered Kummer to telephone to the Rev. Father Gregory Reuter, his parish priest and ask him to come to the home. The priest arrived shortly with Otto Huber, Medford. They were made captive and with the other four were marched into the room and forced to view the bodies.

The crazed man continued to mutter threats against their lives. At Kummer's suggestion, he, Father Reuter and Huber fled. Fleischmann shot at them as they climbed into the priest's automobile, they told Sheriff Baird.

They summoned the sheriff and his deputies but Fleischmann had escaped to a nearby woods. A few minutes later he returned home without his rifle and offered no resistance when placed under arrest. The gun was found in the brush.

Aldermen Hood and Roberts Say Saving \$8,556

Aldermen William Hood and Kay Roberts told The Bulletin today that the saving effected in the reduction of city salaries as voted by the city council Tuesday night would amount to \$8,556 a year, and not \$7,512 as estimated in the report of the proceedings in The Bulletin Wednesday.

They called special attention to the police department, saying that no official action had been taken on two vacancies in the department until at Tuesday night's meeting and the action of the council at that time really amounted to the elimination of two men on the force at \$110 per month each, in addition to the reduction in the salaries of those now on the force.

Alderman Roberts stated following the council meeting that the reduction scale introduced by Mayor O. W. McDonald was approximately the same as one which he, Roberts, had previously proposed.

The reduction as given The Bulletin by Aldermen Roberts and Hood showed a reduction of \$87.50 in the office department, \$50 in the water department, \$25 in the park department; \$80 in the sanitary department; \$40.50 in the street department; \$94.50 in the fire department; \$15.50 in the sewer department and police department \$80 plus \$220 per month to make the total \$712 per month instead of \$626 per month as stated.

Calf Gains Over Four And a Half Pounds Per Day

BRADY, Texas, May 21.—(Sp)—A gain of 4.86 pounds per day has been made by a McCulloch county 4-H Club calf over a period of the past 26 days.

The animal, owned and fed by J. D. Patterson, a club boy in the Fairview community, weighed 315 pounds twenty six days ago when put on feed and now tips the scale at 435 pounds. The calf gained 120 pounds during this three and a half week period.

Patterson obtained this calf from the ranch of L. Brook & Son, well known Hereford breeders of Brady. It has been nursed by a Holstein cow and fed with a self feeder on whole oats, and has been grazing on a patch of green barley during the day time.

"This calf should weigh 1,100 pounds when finished for the market," county agent J. D. Prewitt states and predicts that this 4-H club boy will make a handsome profit on this feeding project since home grown feed will be used.

Nearly 7,000 pounds of lespedeza seed will be used by farmers in Cumberland county, N. C., this spring.

Foreign Legion Hailed Him

It was the centenary anniversary of France's famous Foreign Legion, and toasts were drunk to General Rollet, inspector of the Legion, famed as former commander of the First Regiment at Sidi-bel-Abbes. Here you see him, benedicted and military in bearing, as he addressed his fellow Legionnaires at their ceremonies in Paris.

TORNADO NEAR PAMPA INJURES FOUR PERSONS

BORGER, Tex., May 21.—(P)—At least four persons were injured early today when their home was demolished by a small tornado which struck Skellytown, an oil settlement 16 miles southeast of Borger. Disrupted telephone connections made first reports meagre.

Mr. and Mrs. J. T. Francis, their daughter, 14, and a nephew, Carl Alexander, 17, were whirled into an open field when their house was wrecked. Francis, an oil pumpjack, and his wife suffered broken bones and bruises. The children were not badly hurt. All were brought here to a hospital. No other persons were known to have been injured.

A heavy downpour of hail awakened Francis shortly before the tornado struck and he hurriedly pushed members of his family into and under a boiler firebox nearby, as the twister pelted them with debris of the wrecked house. They remained in the shelter of the firebox until daylight when rescuers found them.

The destructive path of the twister was confined to a small area, although strong winds and rain swept Borger and Pampa, nearby.

PAMPA, Tex., May 21.—(P)—A small tornado struck the oil field district of Carson county, west of Pampa, at 3 a. m. today, injuring Mr. and Mrs. J. T. Francis and their daughter and nephew.

The injured were taken to a Borger hospital. Derricks in the oil field were reported damaged considerably. The tornado followed heavy rains and electrical storms, which criss-crossed the Panhandle north plains region throughout the night.

Four houses were destroyed and 21 derricks were blown down by the wind. Hail damaged the roofs of houses and crops in the vicinity. Telephone communication was cut off, and a comprehensive report of the storm was not available.

Mrs. Francis received several fractured ribs and her nose was broken. Other members of the family were bruised but none seriously injured. They will be dismissed from a Borger hospital tomorrow.

The storm struck about 3 a. m. Shortly after midnight a high wind west of Amarillo destroyed a dairy barn and did other damage estimated at \$1,000.

Dog and Rabbit Become Friends

"And the lion and the lamb shall lie down together"—that was a prophecy, and although this case does not exactly fill the requirements, it is something similar. In this case a small fox terrier dog and a young rabbit not only lie down together but eat and play together.

Both are owned by the A. G. Norwood family of Route 1. The dog is about a year old and the rabbit is just a few weeks old. The rabbit was captured and turned loose in the house a few days ago. The dog also was in the house and soon the two had struck up a friendship. Now they are inseparable and the dog takes care of the rabbit as though it were a puppy, licking and fondling it.

OFFICERS MAKE INVESTIGATION KNIFE WOUNDS

Walter Ritter, 1606 Belle Plain avenue, is receiving treatment in Central Texas Hospital for a knife wound in the left side of the back and a punctured lung alleged to have been received Friday night, according to county peace officers. The officers are making an investigation of the circumstances of Ritter's injury. Ritter has declined to make a statement, according to the officers.

Ritter is said to have received the wound Friday night at some place in the city and was later taken to his home where he remained until 4:30 o'clock Saturday afternoon when an ambulance was called and he was taken to the hospital in a serious condition.

Reports today were that his condition is improved and doctors believe he will recover.

Heavy Rains at Some Points This Section of State

Although Brownwood received only .5 of an inch rainfall in showers last night and early this morning, some of the surrounding towns report heavy rains. Clouds last night seemed very threatening and a great deal of lightning was seen and it looked for a time as if the entire section would receive good rains.

Rising Star to the north of Brownwood received about 2 inches of rain during the night, according to telephone information received from the town, where that only good rains had been received.

The following reports were received by the Southwestern States Telephone Company: Abilene, big rain; Rising Star 2 inches; Ballinger 1.5 inch; Brady, heavy rain; Santa Anna, shower; Coleman .19 of an inch; Goldthwaite, light rain; Comanche 1 inch; Blanket, big rain; Lometa, good rain; San Saba, heavy rain; Cisco heavy rain; Richland Springs, shower; Waco, good rain; Tricketham, shower; Dublin, light rain and some hail; Dallas, big rain; Fort Worth, heavy rain; Fry, sprinkle; Zephyr, shower; Mullin, shower; Mercury, .50 of an inch; San Angelo, shower; Lampasas, good rain; Grosvener, shower; May, heavy rain; Burkett, heavy rain and Cross Plains, 1 inch.

Atkinson Company Awarded Contract

Highway matters consumed all time at the regular meeting of the commissioners court Monday. Atkinson Construction Company was awarded the contract for constructing concrete drainage structures from Cross Cut to Pecan Bayou, a short distance and including only a few structures. This company is building structures from Cross Cut to the Callahan county line and was given the extended contract.

Mrs. E. B. Harrison was awarded \$10 as damage to her garden where it is crossed by the right-of-way of Highway No. 7.

Yarbrough and grand-daughter, Mary Lou and Mrs. Detlemy Henderson attended the cemetery working at Trickham. County Agent O. P. Griffin is carrying forward inspection of Brown county fields for army worms and is helping the farmers to combat the migration and increase of the worms. Following is a report made by him after investigations today: "Inspections today in Mt. Zion and Salt Branch communities reveal an infestation of army worms with more dangerous possibilities than any found heretofore. These worms are not more numerous than in the Bangs area; but there are very few parasites and it looks like now they might have a clear ring of way to all crops. The heavily infested areas are not large; but as many as 30 worms per square foot is not uncommon in the places where large grain in February harbored the adult insects. "The less to small grain will be much greater than at first estimated. Some fields will hardly be worth harvesting unless the worms are poisoned in the next two or three days. Migrations are already destroying feed crops and cotton near the badly infested grain. "If this were all it would be bad enough. For they are destroying at least ten thousand bushels of grain per day at this time and many fields of spring crops will have to be replanted. "Could Be Averted "But the next generation of army worms may assume such proportions as to seriously threaten all crops. This could be averted if concerted action of all farmers could be secured. "It is extremely difficult to get much poisoning done however, because farmers here have seen infestations of army worms that 'play out.' That is their parasites die, they are destroyed. And it is a fact that parasites usually keep this insect under control. At this time, however, there seems to be a scarcity of these parasites, in some fields they can hardly be found at all. "But merchants and bankers of Brownwood cannot afford to remain indifferent to this situation. Farmers of this section have had about all the misfortune the average man is able to bear. Many farmers have not the means to secure poison materials. "Medical Staff Meeting Tonight Interesting discussions of varied medical subjects will be heard on the program of the meeting of the regular and visiting staff of the Medical Arts Hospital tonight at 7:30 o'clock in the reception rooms of the clinic. Dr. W. H. Paige will discuss Aortic Aneurysm with reports of a case with autopsy findings. Dr. Ben M. Shelton is to discuss Lebers disease and Dr. A. L. Taylor will give a paper on Rheumatism. General discussions of the subjects will be made by doctors attending. All members of the visiting staff are urged to attend the meeting. Refreshments will be served before the discussions are taken up. Members of the staff were well pleased with a scientific picture show of an operation shown at the last meeting and plan to arrange for another picture to be shown at the meeting in June.

CRUSADER AGAINST ORGANIZED GAMBLING IS ASSASSINATED

ANGELES HUNT FOR CRAWFORD BEGUN

ANGELES, May 21.—(AP)—The hunt for Herbert Spencer, crusader against gambling, and his friend, Crawford, wealthy politician, today on one of the mountains ever undertaken by a projected exposé by Spencer's magazine, was shot through the politician was mortally wounded yesterday in the city by an unidentified Crawford had received, at the circumstances in- gular revenge.

On May 19 the treasury had collected \$2,760,210.715 since last June 30 and had spent \$3,744,497,232. Since last March 19 it has issued more than \$2,500,000,000 in securities in various forms.

TREASURY DEFICIT NEAR BILLION, YEAR ENDS ON JUNE 30

WASHINGTON, May 21.—(AP)—With but six weeks remaining before the end of the fiscal year, the treasury had a deficit of \$984,256,317 on May 19 and it seemed probable that extensive financing would have to be done before June 30 to meet the situation.

While no treasury official would venture an opinion, indications grew that a long term bond issue was being considered and instead of being held for announcement in the late summer might be offered the public in June. However, rapidly changing conditions in government finances would prevent a decision being made until at least the early part of next month and it still may be decided to continue borrowing with short term paper until August or September.

Kansas Standard May Enter Filling Station Business

TOPEKA, May 21.—(AP)—The Standard Oil Company of Kansas loomed today as a possible entrant into the filling station business with modification by the state supreme court of a 19-year-old limit-1 out-1 or order which prohibited it from engaging in the retail field.

The Standard of Kansas was one of several Standard units involved in the state's attorney general's office more than two decades ago. The court in June, 1911, ordered the Standard of Kansas to confine its operations to refining. It operates a large refinery at Neodesha.

Contractors Group In Houston Fails Sanction Agreement

HOUSTON, Texas, May 21.—(AP)—The Associated General Contractors of Houston will not accept the \$1 per day reduction in pay announced by the five building crafts of Houston, J. B. Townsend, chairman of the contractors group, said today.

"We will continue to work for Mr. Hall and will accept jobs with any other contractor who pays the scale we are asking," Winkler said.

Gang Leader And Beer Baron Being Treated For Stabs

NEW YORK, May 21.—(AP)—Charles "Vinnie" Higgins, described by police as a gang leader and beer baron, was taken to Polyclinic Hospital today suffering from three stab wounds in the chest. The case was a mystery to police.

Higgins, detectives believed, was stabbed during the morning while in Flushing, Queens. Two men and a woman in a New Jersey automobile brought the wounded man to the hospital and left him there.

Police Commissioner Mulrooney once described Higgins as "a broadway racketeer and friend of Legs Diamond." Diamond and Arnold Rothstein, gambler, were both taken to the same hospital when gangland bullets assailed them.

C. R. I. & P. Informs I. C. C. Of Need For Additional Funds

WASHINGTON, May 21.—(AP)—The Chicago, Rock Island and Pacific Railroad today informed the Interstate Commerce Commission that because of the general business depression it would be necessary for it to provide funds additional to its earnings for general expenses.

The road now has outstanding \$2,500,000 in short term notes and said additional loans probably would be necessary before August 1st.

Murray Demands Resignation of Oklahoma U. Man

OKLAHOMA CITY, Okla., May 21.—(AP)—The University of Oklahoma Board of Regents had before it today the demand of Governor W. H. Murray for the dismissal of Prof. P. L. Gettys who also is attorney for the Oklahoma Municipal

League, an organization of city officials. Murray said it had been reported Gettys was attacking legality of the county equalization excise board law passed by the last legislature at the request of the governor.

"In the second place, it is reprehensible for any man trying to serve the state government to attempt to tie down the laws of the state government."

FORMER BEAUTY IS NOW HAPPY

NICE, France, May 21.—(AP)—Acquitted in ten minutes on a charge of slaying her husband, Mrs. Charlotte Nixon-Nirdlinger reserved today for the two children who have

been bereft of parental care for more than two months. She refrained from disturbing their rest last night at the conclusion of the trial. She saw her baby daughter occasionally while in jail but the four year old boy not at all.

She was smiling as she entered the hotel. "I am vindicated," she said, "and I want everybody to understand that my treatment by the French has been wonderful."

Special Session Sure

THE LEGISLATURE is due to adjourn Friday night, and it is now apparent that so much of its work will remain unfinished at that time that the Governor will be compelled to assemble a special session to complete the task. Already the Legislature is working overtime, the 120-day period provided in the special constitutional amendment adopted last November having expired last Tuesday. About all that can be done during the next three days will be to adopt the appropriation bills, which are expected to come from the conference committee tomorrow.

Congressional redistricting seems to have been abandoned for the session, due to the inability of House and Senate conferees to harmonize the measures introduced in the two branches of the Legislature. This means that three congressmen-at-large must be elected next year, but the Legislature has saved its conscience by adding to a bill relating to the appeal of election cases an amendment which it is thought will eliminate the Fergusons as prospective Congressmen. Bills relating to oil conservation and attempting to strengthen the proration statutes are doomed to be lost along with several hundred others of less importance. These measures were particularly desired by the Sterling administration, and may be the primary cause of a special session. All judicial, senatorial and representative redistricting bills are hopelessly lost after a great deal of work had been devoted to them.

Last minute efforts to force tax measures through both houses are now being made, as is usually the case. As a whole, the session has had greater opportunity for constructive work than any other in recent years, and has taken decisive action on fewer legislative proposals than any other. Those who are constantly clamoring for "fewer laws" should give their hearty approval to the work that has been done.

To Discuss Cooperation

WHILE the general policies of the Federal Farm Board are under fire, and its stabilization program in particular is being attacked from every section of the country, it is recognized that there is much of value in the system of co-operative marketing that is being set up with the encouragement of the Board. Much interest, therefore, attaches to the scheduled conference in Manhattan, Kansas, next month, when representatives of all the major co-operatives will meet for a consideration of this phase of the farm marketing problem.

For many years it has been apparent that the farmers must resort to co-operation if they are to protect themselves against ruinous marketing conditions. It is unfortunate that the development of co-operatives begins in earnest at a time when marketing is most difficult, due to the ill-advised stabilization attempts of the farm board and the iniquitous tariff regulations which have closed a number of foreign markets to American products. The co-operatives, however, have been earning their way, even under such adverse conditions. Not all of them have been able to register unqualified success, to be sure, but most of them have made visible progress, not only in the improvement of markets but in the standardization and improvement of products offered for the markets.

This phase of the work being directed by the Farm Board ought to be continued, and it is in this phase of its labors that the Board will be able to justify its existence if at all. Stabilization and other policies having the purpose of price fixing have not been successful, but co-operative action by the producers can be made successful if it is carried forward on a reasonable basis. The Kansas conference should develop some helpful suggestions in that direction.

Party Privilege

THE DECISION isn't final, of course, but marks a step toward finality, as the federal Fifth Circuit Court of Appeals rules that a political party has a right to regulate its primary elections. The case was appealed from the federal district court for the Western District of Texas, and involved the protest of a man who said he was denied the privilege of participating in a Democratic primary election solely because of his race. He is a colored man.

The Supreme Court has already held that the state, through its Legislature, can not exclude negroes from participating in party primaries or other elections, because of constitutional provisions that prohibit such regulation. But the case now on appeal involves the identity of a political party as an organization and not as a governmental agency, and it is contended that as an organization a party can do, by virtue of power delegated to it by the state, what the state itself can not do.

The case will very likely be carried on appeal to the Supreme Court for final decision, and the ruling of that tribunal will be interesting as well as important.

Lorimer Revived

A WAR HORSE of other days in Republican politics, but in the outer darkness of private life where there is weeping and gnashing of teeth during the past eighteen years, William Lorimer of Illinois again proposes to figure in public affairs with a self-starting campaign to protect his party against the evils of prohibition. He proposes, in fact, to rid not only the Republican party, but the entire nation, of prohibition by bringing about the nomination and election of Senator Dwight W. Morrow of New Jersey next year. Senator Morrow is admittedly weak enough to meet the plans and specifications of the most enthusiastic foes of prohibition.

Mr. Lorimer once was known as the "blond boss" of Illinois politics, but he employed more of force and less of finesse in his control of the situation than was advisable. After being elected to the United States Senate in 1909, he was charged with having bribed the Legislature to secure his election, and the Senate finally withdrew fellowship from him in 1912. Theodore Roosevelt was one of the most active of those who denounced Lorimer and sought his political extermination.

Following these incidents, Lorimer met a series of financial reverses. The LaSalle Street bank of Chicago of which he was the head collapsed. Next he launched an industrial venture in South America that ended disastrously, and several subsequent business schemes failed to produce results. During the last ten years very little has been heard of him, but he seems to have all the dynamic courage of olden days and is going into the prohibition campaign with the same kind of fervor that once made him a real power in Republican politics.

It is to be hoped that the Republicans will properly appreciate his return to active service.

To Curb Drunk Driving

THE LEGISLATURE refused to enact laws providing for the licensing of automobile drivers, but did approve a bill introduced by Representative Burns of Brady, which adds severity to the penalties for driving a motor vehicle while under the influence of liquor. The bill has been signed by Governor Sterling.

The Burns bill provides that a jury after finding any person guilty of the offense of driving a motor vehicle while drunk will be required to specify a period of time during which the defendant is to be deprived of the privilege of driving, in addition to the payment of any other penalties that may be prescribed. The bill further provides that violation of such a prohibiting order is to be equivalent to contempt of court and punishable as such. Disqualification as a driver for a period of two years will be possible under this law.

Just how much effect this new law will have in curbing the evil against which it is directed remains to be seen. Perhaps, as is the case in the enforcement of so many other laws, its benefits will be in direct proportion to the vigor with which its penalties are applied to violations. Let us hope, therefore, that it may be strictly enforced and that its enforcement may accomplish what present laws relating to this offense seem unable to do.

TEXAS AND TEXANS

By WILL H. MAYES

Austin, Texas

"All Texans for all Texans"

Texas Tourist Camps

There are more than 1,100 tourist camps in Texas. Three hundred of these are of the better class with facilities of the better hotels. Practically all the newer camps are modern in their appointments and are in reality small efficiency apartments. At one time there were over 500 free tourist camps in the State, but now there are less than a dozen. The free camps were abandoned because they became resorts of auto hoboes and a menace to honest tourists. Modern tourist camps afford protection to their patrons, are clean and so policed that undesirable characters pass them by. Unusually charges are less than at the hotels, but the camps are patronized mostly by people who prefer the quiet of camp life to the crowded hotels and who are glad to pay fair prices for modern accommodations.

Native Stone Used

One is impressed with the increased use of colorful native stone for building residences throughout Texas. A few years ago the use of such stone was regarded somewhat as a fad that would soon pass. It proved so pleasing that almost a new style of architecture has been developed with many colored stones used, it being found equally adaptable in all classes of homes from the small cottage to the costly mansion. The native-stone house lends itself well to attractive landscaping and is in equally appropriate settings on level lots and on hillsides. Its beauty is enhanced by harmonizing rock walls and driveway pillars. The native-rock house is especially colorful and pleasing for country homes with large surrounding grounds, and more are being built every year on Texas farms.

Beauty in Cotton

A number of schools have complied with the suggestion of Governor Sterling that the graduates wear cotton clothing at commencement, and the girls look prettier in their cotton dresses than in silks. After a visit to the Bluebonnet Gingham Mills at New Braunfels, Mrs. Sterling offers the suggestion that some Texas textile artist design a bluebonnet pattern, and that it be used in making of bed quilts and comforts for Texas homes. The idea, if adopted, would be popular, and Mrs. Sterling would be among the very first to make and use the bluebonnet quilts.

State Art Gallery

The Texas Fine Arts Association has among its plans the creation of a fund for the erection of a State art gallery and institute of fine arts on the spacious grounds of the Elisabet Ney Museum at Austin. This is to be a place where the best of Texas art may be collected and exhibited and where art teachers may meet with students of art for study under the inspiration gathered from the Ney shrine of art and from the beauties of the surrounding Texas scenery. Art lovers from all over the world commend the judgment of Elisabet Ney in the selection of the place and the erection of so unique a studio in which to work, and no better spot could be found for the great art center of Texas.

Texas Press Program

Departing from its usual program of devoting all the annual convention time to "talking shop," the Texas Press Association at its San Angelo meeting, June 11-13, will hear addresses from leading Texas speakers upon subjects pertaining to the development of the State, each speaker to talk upon the theme to which he has devoted years of his life work. The Texas Press Association is solidly behind every movement for the advancement of the interests of the State, and the San Angelo program is expected to set a precedent for Texas development programs at conventions of Texas organizations of all kinds.

Texas Asbestos Supply

Kerrville business men have associated themselves with a geologist of the University of Chicago to develop a large asbestos deposit recently discovered in Gillespie county on a 3,000 acre tract owned by mineral leases have been secured. The deposit is described as "long-fiber, high grade asbestos." The find has been confirmed by geologists of the Southern Pacific Lines and the National Asbestos Refining Company.

To Build Bridges

Recent marooning of numerous parties of travelers in the overflow of low bridges and dips has resulted in a bond issue in Kendall county for building bridges and hard-surfaced highways in that county. About a \$1,000,000 will be available from the bonds and State and National appropriations for the purpose.

Building at San Benito

Public and semi-public building construction now in progress at San Benito approximates \$250,000. This, along with the many private buildings under way, creates an air of building prosperity in the Valley city.

Peanut Use Increases

San Antonio peanut shellers announce that there is a decidedly noticeable increase in the demand for shelled peanuts, especially in confections and in packaged sales from store counters. Peanut growing eventually will become one of the major industries of Texas as home consumption throughout the country increases.

Construction Crowds Hotels

Hotels at Burnet and Llano are crowded since construction of the

huge electric power dam at Kingsland was begun and both these towns are having a decided increase in business due to the building activities. Large development in that section is expected to result from the series of dams to be built.

Must Use Texas Marble

The legislature has decided that Texas granite and marble must be used in the monument to be erected by the Texas Bar Association to the memory of the first Texas Supreme Court judges if the monument is to be placed on the Texas capitol grounds. Texans will endorse this action.

Making Farming Pay

Coleman county farmers have increased dairying to such an extent that there is a noticeable increase in cream separator sales, and they are profiting from sales of milk and cream.

Eleven Scurry county club women have made homemade American cheese valued at \$76.50 at a total cost, including labor, of \$29.19.

Five hundred Fannin county farm women, representing as many families, have planted this season an average of 31 fruit and nut trees for each family.

By using good green pasture and home grown feed a Coryell farmer has been producing butterfat at a feed cost of 6 cents a pound.

An added income of \$45 for \$2.70 worth of copper lime dusting powder and two hours labor in applying it to his Irish potato crop is reported by a Cameron county farmer.

Bees—10,000 colonies of them—are expected to add from \$125,000 to \$150,000 to the gross income of Uvalde county farmers this year.

Midland county farmers have increased their gardens nearly 400 per cent this year and have in that way decreased living expenses.

Dallas county farmers are planting stock bees, which they expect to feed to dairy cattle to be converted by them into milk and cream.

A Wilson county woman has sold \$70 worth of strawberries from her home garden this season without depriving her family of berries to eat.

A Potter county woman has realized \$52.60 from the sale of hooked rugs made from scraps of cast-off clothing.

One thousand Fort Bend county men and women, trained by the county demonstration agent, have learned the art of food preservation and have canned ample supplies of surplus farm products for home use.

Cuero shipped out \$5,700,000 worth of produce in 1930, or nearly 18,000 car loads.

Name Delegates To Confederate Veterans Reunion

J. E. Smith, commander of the local camp, and T. A. Witcheer were elected delegates to the Confederate Veterans Reunion to be held in Montgomery, Alabama, June 2 to the 5, at a call meeting of Stonewall Jackson camp, Sunday at 3 o'clock. The meeting was held in the home of Mrs. W. H. White, 1210 Irma street, and Mrs. White and Mrs. W. H. Talbot were the hostesses. Dr. J. A. Abney and J. C. Jones were elected alternates.

The suggestion was made at the meeting that markers be placed on the graves of the Confederate veterans in local cemeteries. Refreshments were served to the members of the camp.

John Factor Says Prince of Wales Is "A Charming Person"

CHICAGO, May 21—(AP)—The Prince of Wales, in the expressed opinion of John Factor, former Halsted Street barber, accused of swindling Britons in a stock scheme, is "a charming person."

This description of the heir to the British throne was given yesterday by Factor after he had surrendered to federal authorities and served notice he would resist all efforts to extradite him to England.

The reference to the prince was made when Factor told newspapermen of playing Chemin De Fer with him at Monte Carlo last August 16. He denied the prince withdrew from the game when he learned Factor was the banker in the game. Factor said this couldn't have been, because each player is his own banker.

Factor also denied all charges of fraud laid to him by English officials. His hearing was set for Monday before a United States commissioner. Meanwhile he was given permission to stay in a hotel suite under guard of a United States deputy marshal.

Pawhuska Sheriff Here After Man

Sheriff Dick Schults of Pawhuska, Oklahoma, was in Brownwood this morning to return Fred Blackwell to Oklahoma to answer charges of cattle theft. Sheriff Schults told Sheriff M. H. Denman that at present he had 148 prisoners in the county jail at Pawhuska. He also told the sheriff that the county allow him 18 full time deputies at a salary of \$1,300 per year each and that the sheriff himself received \$3,000 per year and expenses.

The two officers compared expense accounts and lawlessness in their respective states and the probable earnings of offices.

ADDED PUBLIC WORK IS NEED OF IDLE MEN

WASHINGTON, May 21.—(AP)—A vastly expanded public works program made possible by an immediate special session of congress was seen today by Senator La Follette as the sole hope of avoiding "the dire consequences of a third winter of unemployment for many millions of our citizens."

Speaking as chairman of the unemployment and industrial stabilization committee selected at the recent progressive conference, the Wisconsin republican based his conclusions on a preliminary report by Dr. Isador Lubin, chairman of the conference sub-committee on unemployment.

"The federal government alone can meet the wide-spread distress which the report reveals," La Follette said. "At the present rate of industrial revival the number of unemployed to be provided for during the coming winter bids fair to remain close to the 6,000,000 figure by the census bureau in its enumeration of last January."

The senator said the report showed little or no evidence that the rest of 1931 would bring sufficient improvement.

"Unless the federal government spends now, the cost of healing those injuries which are likely to occur during the coming 12 months will be many times more than what may be saved by our present policy of federal economy," he asserted.

"A special session of congress should be called immediately to relieve distress among the unemployed. Unless an extra session is called there will be a delay of months before any action can be taken to expand our public works program."

League of Nations Council Endorses Mortgage Company

GENEVA, May 21.—(AP)—The League of Nations council today formally endorsed a proposal by the Pan-European commission for establishment of the International Mortgage Credit Company and went on the clean up issues of lessening its importance preparatory to winding up its meeting.

There was some acrimonious debate regarding the league's position in Liberia. The Venezuelan delegate insisted that its Liberian policy must never be political lest the African republic's independence be compromised.

Efforts to suppress alleged slavery there will be weakened, he said, if the league adopted "imperial functions."

Arthur Henderson, British foreign secretary, deposited ratification by Great Britain, Australia and New Zealand of the general act for peaceful settlement of international disputes.

Aristide Briand deposited the French ratification of the same act and also of the protocol covering adherence by the United States in the world court.

REMORSE WAS CAUSE RALPH BARTON'S ACT

NEW YORK, May 21.—(AP)—Ralph Barton's remorse over failure to appreciate "a beautiful lost angel" was revealed today in a note written before he took his life in his penthouse apartment.

The note identified the "angel" as Carlotta, referring to the caricaturist's third wife, now married to Eugene O'Neill, playwright. Mr. and Mrs. O'Neill recently arrived in New York from France.

Headed "obit," the note said in part:

"I have had a few real difficulties. I have had, on the contrary, an exceptionally glamorous life, as life goes; and I have had more than my share of affection and appreciation. I have always had excellent health, but since my early childhood I have suffered from a melancholia, which in the last five years has begun to show definite symptoms of depressive insanity.

"It has prevented my getting anything like the full value out of my talent, and the past three years has made work a torture to do at all. It has made it impossible for me to enjoy the simple pleasures of life. I have run from wife to wife, from house to house and from country to country in a ridiculous effort to escape from myself. In doing so I am very much afraid that I have brought a great deal of unhappiness to those who have loved me.

"In particular my remorse is bitter over my failure to appreciate my beautiful lost angel, Carlotta, the only woman I ever loved and whom I respect and admire above all the rest of the human race. She is the only person who could have saved me had I been savable. She did her best. No one ever had a more devoted or more understanding wife.

"If the gossips insist on something more definite and thrilling as a reason, let them choose my pending appointment with the dentist or the fact that I happened to be painfully short of cash at the moment."

Proud Armada Of Air Streaks Skies City of Chicago

CHICAGO, May 21.—(AP)—A proud Armada of the nation's fighting air craft streaked through the skies of America's inland metropolis today.

It was the army's greatest demonstration of its air strength. Over Chicago's lake front 659 planes paraded in formation, entertaining thousands.

Major Davenport Johnson of Galveston led the great procession with the 3rd attack group of 70 planes from Fort Crockett.

Following the attack group was the 2nd bombardment group from Langley field, Virginia, flying lower than the leaders about 800 feet from the earth and a quarter mile out over the lake. The droning bombers flew in columns of three, 50 to 60 in each group.

Speedboats darted over the lake, and amphibians zoomed low over the water to be ready for instant rescue in event of any mishap.

Brig. Gen. Benjamin D. Loulous, commanding the division, surveyed

the demonstration from the roof of the Hotel Stevens with his staff.

Once past the downward area, the bulk of the army soared on to its concentration points at Dayton and Cleveland without pausing. Three squadrons, however, dropped out of line and returned to the scene of maneuvers over the navy pier. These were the 11th bombardment squadron, nine planes from Rockwell field, San Diego, under command of Lieut. C. H. Howard; the 85th pursuit squadron from Rockwell field, 18 ships under Captain F. O.

D. Hunter; and the 13th attack squadron from Fort Crockett, commanded by Lieut. Ralph Stearly.

RED CROSS CELEBRATES ITS INCORPORATION 50 YEARS AGO WITH POMP

WASHINGTON, May 21.—(AP)—The American Red Cross today celebrates its incorporation 50 years ago.

Two presidents of units of the international relief organization will

open the Golden Jubilee tonight. President Hoover, who heads the society in this country, and Judge Max Huber of Zurich, Switzerland, president of the International Red Cross committee, will make addresses. Both the National and Columbia systems will broadcast the speeches.

While preparations for the jubilee proceeded today, the Red Cross made public scores of congratulatory telegrams it had received. They came from the Duke of York, Prince Charles of Sweden, Prince Tokugawa

of Japan, and from Madrid, Catro, Budapest, Shanghai, Berlin, Paris and Athens.

The celebration is being staged because back in 1881 Miss Clara Barton persuaded Americans to form a Red Cross society and obtained the assistance of President Garfield in efforts to obtain Senate ratification of the Treaty of Geneva, under which the international organization operated.

In July of that year "The American association of the Red Cross" was incorporated in the District of

Columbia. President Garfield shot before the treaty had been approved. Arthur signed it March 1, 1882, without a dissenting vote.

MAYBE IT'S LOVE

BROWNWOOD IS IN LINE WITH OTHER CITIES

Biddy-Widdy Shop, Austin-Morris Company, Peerless Drug Company, Armstrong Jewelry Company, McClelland's, Hemphill-Fann Company, Austin Mill & Grain Company, Brown County Medical Association (Medical examination service), White's Grocery, Brownwood Ice and Fuel Company.

Invite All Children

While inviting only the babies under twenty months of age to register for the free examination, these merchants invite all children to visit their stores during Baby Week. There will be much to interest them there. Some of the merchants will give away souvenirs or other special favors for the babies. Full information of their plans can be obtained by reading their ads in this issue of The Bulletin.

FREE SERVICE EXAMINATION OF BABIES

Dr. T. B. Bailey, president of the Brown County Medical Society, authorizes the statement that the Medical Society will cooperate in the observance of Baby Week in Brownwood and that free examination of babies under twenty months of age will be given by any member of the society living in Brownwood during the week of May 23 to 30.

The babies may be registered at any of the business houses of Brownwood cooperating in Baby Week, where certificates will be given them entitling them to the free examination, as explained more fully in this issue of The Bulletin.

SAN FRANCISCO—Evelyn Castro, dancer, is seeking damages because she can't smile. She was injured in an auto wreck sometime ago and doesn't smile as a result. She told the court that although she can dance as well as ever, she can't secure a job because of her inability to smile.

2 ROBBERY AND 1 MURDER CASE BRADY DOCKET

BRADY, Texas, May 21—(Sp)—A murder case and two bank robbery cases are set for hearing on the criminal docket of district court here next Monday.

Lennie Johnson, a negro, is scheduled to go to trial on the charge of murdering his wife last September. A special venire of 60 men has been called for selection of a jury in this case. He will be defended by Herbert Adkins and Sam McCollum, well known local attorneys, while Judge C. L. South will be in charge of the prosecution. Johnson's wife was found fatally stabbed. The negro will plead not guilty to the charge, according to his attorneys.

A change of venue has been hinted in the case of R. C. Turner and Miss Lucille Awalt who are to be tried in connection with the robbery of the Farmers and Merchants Bank here on March 21, 1929. However, the defense is expected to oppose a change of venue. Turner was tried on the same charge during the January session of court, but the jury failed to reach a verdict. The Farmers and Merchants Bank was robbed of \$2,000. All of the money was later recovered from a dump of tin cans in the outskirts of Brady.

TEXAS PIONEER PASSES AWAY

BRADY, Texas, May 21—(Sp)—C. A. Yoas, one of the oldest native-born Texans, died at the Brady Sanitarium last Sunday and was buried here Thursday afternoon.

The funeral was delayed while waiting for the arrival of Henry Yoas, of Tucson, Arizona, a son of the deceased. Bird Yoas of Nogales, Arizona, H. A. Yoas of Brady, and Mrs. Lee King of Brady are the other surviving children.

Yoas was born at Huntsville in Walker county on September 4, 1848, served in the Confederate army, and was a Texas Ranger for two years. In 1893 he moved to McCulloch county near Cal Creek and was the third white settler in that community. Several years later he removed to Sonora and for 25 years he was engaged in the ranching business in the Sonora-San Angelo country. In 1914 he sold his ranching interests and returned to Brady where he operated a tourist camp and filling station until the time of his death.

Although financially able to do so, Mr. Yoas never owned an automobile but remained loyal to the horse and buggy days. Among the items in his estate will be a horse and buggy which he drove during the past few years. However, all of his children own automobiles.

Burns Prove Fatal To Inventor While Testing New Device

PHILADELPHIA, May 21—(P)—Charles E. Vawter, widely known inventor, fatally burned by an explosion in his laboratory here, died early today. His body was sent to Blacksburg, Va., seat of Virginia Polytechnic Institute, where for many years he taught physics.

Mr. Vawter's death followed by 24 hours a blast which occurred in his workshop at his home in the Germantown section. He was lubricating a motor while testing a new high tension ignition device designed for airplanes when a spark ignited the oil, causing an explosion. The burning liquid fired his clothing.

Among the more than 200 radio and electrical devices he is credited with having invented or perfected are electrical testing instruments, circuit-breakers and an attachment which makes it possible to use the house wiring system as a radio antenna.

After his graduation from the University of Virginia he entered the teaching profession. Ten years ago he retired from the faculty of Virginia Polytechnic Institute to devote his time to experimental work in electricity.

VACATION BIBLE SCHOOL

COLEMAN, Tex., May 21—(SP)—Miss Martha Taylor of San Angelo has been secured to conduct a vacation Bible school at the First Presbyterian church in this city. Miss Taylor is director of religious education for the Brownwood Presbyterian. The school will open Monday morning May 25 and continue until June 5 with sessions at 8:30 and 11:30 daily except Saturdays. Miss Taylor will be assisted by competent instructors from the local church and children of Coleman ranging in age from 4 to 13 years are asked by the pastor of the church, Rev. R. Matthew Lynn, to take advantage of the school.

HANDS UP—AND DOWN

The burglar had made a big haul, when a voice behind him said: "Hands up."

He turned to find himself facing the owner of the house, who was holding a revolver. Just as the burglar was about to surrender his loot, he heard a thin voice pipe up: "Daddy, what are you doing with my water pistol?"—TIT-BITS.

BOY SCOUT NEWS

Pecan Valley Council

Hamilton Meeting Executive C. L. Pouncey and six Brownwood scouts attended the court of honor and archery contest of the Waco council in Hamilton Sunday. "The people of Hamilton gave the scouts from our area a warm welcome and meetings of this kind cement a warm friendship between the scouts of the areas as well as bring the councils themselves closer together," states Mr. Pouncey.

Twenty scouts from Stephenville with Scoutmaster Henry Tudor and L. W. Phillips, chairman of troop committee, and a number of scouts from Goldthwaite with their scoutmaster, Sam Smith, also represented the Pecan Valley area at the meeting.

The archery contest opened at 2:30 o'clock with about 20 scouts shooting the Junior American round in four classes. Prizes in A class were: Ernest Grim, Hamilton; Harvey Morris, Brownwood, second; Charles Wood, Hamilton, third and John Morgan, Hamilton, fourth. Class B: Jack Register, Hamilton, first; Paul Claunch, Hamilton, second; Earl Baker, Brownwood, third; Joe Thomason, Hamilton, fourth. Class C: Alva Conner, Hamilton, first; Wayland Crow, Brownwood, second; Lowell Pouncey, Brownwood, third and Odus Grant, Stephenville, fourth. Class D: Lawrence Bledsoe, Stephenville, first; Lysle Morgan, Brownwood, second; Paul Niblett, Hamilton, third and Lynn Phillips, Stephenville, fourth.

The Pecan Valley area in the final check-up look eight out of sixteen places in the contest.

Pecan Valley area scouts were guests of the Hamilton scouts for supper. The court of honor was held in the First Methodist church and was attended by a large crowd. Assistant Executive Saunders of Waco was in charge. Gaitha Browning of Brownwood acted as clerk and Mr. Pouncey acted as commissioner. The Pecan Valley area held a session in connection with the Waco court and the following local area scouts received advancements as follows:

Tenderfoot rank: Billy White, Logan Ritchie, Tommy Gordon, Ralph Robinson, Ed Bryant, Clyde Wells, Geo. Bryant, Lynn Phillips, Wylie Phillips, William Clay, Lowell Wood, Tommy Blakeney, all of Troop 23, Stephenville.

Second class: Lowell Wood, Logan Ritchie, Tommy Blakeney, William Clay, Lynn Phillips, Wylie Phillips, Clyde Wells, Ralph Robinson, Ed and Geo. Bryant, Billy White, Tommy Gordon, all of Stephenville.

First class: Clyde Wells, William Clay, Lynn Phillips, Wylie Phillips, Edwin Bryant, Stephenville.

Merit badges were awarded to Thomas Hooker, Stephenville, in automobile, firemanship, first aid, handicraft, plumbing; Henry Frey, Stephenville, in automobile, bookbinding, firemanship, first aid, horsemanship; Wayne Crews, Stephenville, in leathercraft, life saving, painting, personal health, public health and swimming; Fritz Sturdivant, Brownwood, in bookbinding and public health.

The rank of Star Scout was awarded to the three scouts from Stephenville receiving their five merit badges.

Short talks were made at the closing by Rev. Wisdom and Doctor Baker of Hamilton, Mr. Saunders of Waco and Mr. Pouncey.

Scout Instructor Gaitha Browning, assistant scout-

master of Troop 3, Woodland Heights, will act as instructor in Indian Lore and Indian Craft in the Heart of Texas Council's summer camp this year. Mr. Browning received a request recently from the adjoining council asking to accept this position for which he will receive compensation and free camp fees.

San Saba Today Chester Harrison, president of the Pecan Valley area, and Executive Pouncey will go to San Saba today to visit the men of that city who are interested in scouting and to take up the matters of a court of honor, camping and finances. Mr. Harrison will talk before the Rotary Club.

Stephenville Water Frolic Scouts of the two Boy Scout troops at Stephenville are holding a water frolic and carnival today and have invited other scouts from over the area to attend. Executive Pouncey planned to leave Brownwood about 3 o'clock this afternoon and take the council of the Black Arrow and the First Aid team. Stephenville had a scouter who was with the Majestic-Koath theater circuit in an Indian dance stunt and wishes to give some of the local scouts some lessons in Indian dancing.

Board to Meet at Goldthwaite The next meeting of the executive board of the Pecan Valley area will be held the first part of next week at Goldthwaite, according to President Chester Harrison. A steak supper by Bob Rankin and Cub Ragsdale will be served. Important matters will be discussed at the meeting, it is said.

Government Is Blamed For State Of Wool Market

SAN ANGELO, May 21—(Sp)—

Failure of the wool market in the United States to respond to foreign advances is blamed by Allan C. Emery of the Boston wool firm of Studley & Emery on the co-operatives, or more specifically on the government for entering business through the National Wool Marketing Corporation, Federal Farm Board agent, Mr. Emery is here on a regular trip, going over the sheep country with Duwain E. Hughes of San Angelo, the firm's Texas representative.

If the co-operatives would raise the price on eight-months' wool in Boston more of it would sell, in Mr. Emery's opinion, adding that the co-operatives are the leaders of the market, the independents following their course. Studley & Emery always has been a leading purchaser

of short fleeces, and a heavy buyer in Texas. Mr. Emery has been in the wool business 38 years, a member of the firm of Studley & Emery 26 years and has been coming to Texas to buy wools for 33 years. Owing to the demand for eight-months' wool at this time, he believes sheepmen will do well not to shear this fall.

The first sealed bid wool offering in the state this spring outside San Angelo is scheduled to be held Friday morning by the West Texas Wool & Mohair Association at Mertzon. Three hundred and fifty thousand pounds will be offered.

Late sales include that of approximately 60,000 pounds by John Treadwell & Son of Fort McKavett, Menard county, to Charles F. Angell of Boston and Joe B. Blakeney of San Angelo, representing Hallowell, Jones & Donald of Boston. Shipment will be made from Menard.

The Montana state game and fish commission spends \$1.27 to rear a pheasant at its game farm.

QUOTA SCHEME FOR GRAIN IS DISAPPROVED

LONDON, May 21.—(P)—Committees of the world grain conference today sought to reconcile divergent views as to the best method of absorbing the international wheat surplus, with indications that the two factions would stand by their views.

The American delegation's proposal to restrict acreage has clashed with Russian approval of the Danubian basis—the Polish scheme of export quotas—and neither side appears prepared to give ground.

Meanwhile, the American, Russian and Danubian delegates having divulged their plans, Canada and Argentina were hanging back pending developments and were ready to throw their influence to the faction which appears to have the best chance of drafting an agreement.

The quota scheme is disapproved entirely by the American delegation because of the opinion that while the plan throws some light on the problem it does not lead the exporting nations out of the wilderness of cheap wheat.

A comparison of exporting nations' pre-war and post-war figures shows that Canada, Argentina, Australia and America stand to lose considerable trade if, as the Russians proposed, the 1909-1914 five year average is taken as a basis from which quotas would be evolved.

The committees are struggling with a mass of statistics in an effort to square the circle of glutted grain markets and few buyers. The conference re-convenes tomorrow.

The American opposition to an export quota system is believed to rest on the contention that huge wheat stocks, even if regulated by quotas, would have a bearish effect on prices.

The Americans probably will be joined by Canada, Argentina and Australia, who would be the greatest losers if export quotas reverted to the pre-war basis.

It is reported unofficially that the Winnipeg grain traders have asked Premier Bennett of Canada to use all his influence to keep the Canadian delegation from quota commitments.

When Crime's Glamor Vanished

NEA New York Bureau

All the glamour of being a "two-gun guy's" sweetheart was gone. And the grim reality of having to face the law's toll is reflected in the countenance of 16-year-old Helen Walsh, seen here as she took New York detectives to the "petter's lane" on Long Island where her companion, Francis Crowley, youthful desperado, is alleged to have shot and killed a policeman. She was with Crowley when the murder occurred and was captured with him later during a gun battle with police in a New York apartment house.

Bettie and his mother, Mrs. Z. A. Chishom; of McCamey, are here for a visit in the homes of John Staley and Charles King.

LEGISLATURE REDOUBLES ITS EFFORTS TO PASS URGENT LEGISLATION ON CALENDARS

May 21.—(P)—The Legislature redoubled its efforts to pass urgent legislation on calendars within the very shadows of midnight. The Legislature was scheduled to fall to sleep at midnight, but the Legislature redoubled its efforts to pass urgent legislation on calendars within the very shadows of midnight.

After that hour, nothing but free conference reports and resolutions to recall bills for correction can be taken up as new legislation.

House and Senate free conferences agreed last night to recommend appropriations of \$5,000,000 for rural school aid during the biennium. The report was the first of the major money bills now before free conference committees to be reported. The eleventh, departmental and the educational appropriations bills were considered. The appropriations bills and the congressional redistricting bill were said to be the determining factors in the question of whether the Legislature would remain with its deliberations longer than tomorrow.

Cement Tax Bill

Only one of the Senate's amendments to the Holder peddlers bill—the Hopkins cement tax amendment—was taken from the measure when it reached the House. The House recommended that the ce-

ment tax proposal be sent to a free conference committee. The amendment proposed a five cents per sack levy on cement.

Amendments to the Holder bill, in which the House concurred, included a 75 cent per ton levy on sulphur. The present tax is 55 cents per ton.

The House also sanctioned an amendment to the bill which reinstated although at a lower figure, the occupation tax on cigarette dealers. The dealers' tax was lost during the shuffling of statutes as the Senate prepared its cigarette tax amendment.

Still other proposals relative to adjournment were pending in the Senate. Resolutions proposing adjournment May 29th and May 22nd, were tabled subject to call and originally scheduled for consideration yesterday. Neither was called from the table.

AUSTIN MILL & GRAIN CO.

Cooperating with other merchants in baby week recognition is giving a two pound sack of "GOLD ARROW" flour to the mother of every baby under 20 months of age whose name and address is registered at the store beginning Saturday, May 23rd. He also states that the supply of this size sacks is limited, and that they will be given as long as they last. Those registering early will be sure of their gift.

Flashes of Life

By The Associated Press

HEL, Poland—There are pebbles and perhaps good intentions on the beach of Hel, but there also has been amber at least once. Fishermen found a lump of it weighing 2 1/2 pounds and sent it to Warsaw to the president with Hel's compliments to show that this Baltic coast town does things in a big way.

WASHINGTON CROSSING, Pa.—As a stunt, modern military has crossed the Delaware where Washington did. New pontoon boats did it in jig time with the aid of outboard motors.

SEATTLE—Jails seem to be a bad thing at Point Hope, Alaska. Two Eskimos were so warm and well fed in the lone houseboat that they took a lot when they got out. Then native after native broke laws on purpose. A large new jail has been sent north from Seattle as a result.

NORTHAMPTON, Eng.—Built 20 years ago to accommodate golfers, the railroad station at Brampton has been closed. Golfers now go to the links by automobile.

LOS ANGELES—Cornelius Vanderbilt, Jr., at last tally, had a lot of jack, to wit, \$70 in bank and \$50 in his pocket. Such was the total

of his personal fortune, he testified in proceedings against him to collect a judgment obtained in business litigation.

NICE, France—Visitors to the Riviera seem far from flush in playing roulette and such things these days. Twenty casinos are in bankruptcy courts. Scores report losses. The Cannes Municipal casino netted only one per cent in the recent season. Taxes took most of the gross intake of \$1,700,000.

"In Gay Madrid" Another Hit for Ramon Novarro

Ramon Novarro is seen in "In Gay Madrid," an adaptation of an old Spanish classic, which opened last night at the Queen Theatre.

The story concerns the love of a Madrid scion for a Santiago senorita. His infatuation for a dancer, however, endangers the romance and leads to a duel with the brother of the girl he loves.

The settings are and in keeping with the romance of old Spain in which the story is set.

Cotton Spinners Operating On 94.3 Per Cent Capacity

WASHINGTON, May 21.—(P)—The cotton spinning industry was reported by the Census Bureau today to have been operated during April at 94.3 per cent capacity, on a single shift basis, compared with 91.2 per cent capacity in March this year and 96.3 per cent in April last year.

Spinning spindles in place April 30th totaled 32,957,118 of which 26,645,404 were active at some time during the month, with the average, on a single shift basis, being 31,172,123, compared with 33,132,416; 26,489,932 and 30,222,393 for March this year and 34,195,464; 28,860,382 and 30,920,875 for April last year.

Active spindle hours for April totaled 7,128,752,785 or an average of 216 hours per spindle in place, compared with 7,001,319,579 and 211 for March this year and 7,503,325,868 and 219 for April last year.

WILL ASK CONGRESS TO ABANDON FIFTY OR MORE MILITARY POSTS

WASHINGTON, May 21.—(P)—Congress will be asked to approve complete or partial abandonment of some of the 53 military posts the War Department plans to dispose of in the administration's effort to prevent further inroads on the taxpayer's pocketbook.

And before December, economy plans will be laid for other governmental departments. At his Rapidan, Virginia, fishing camp this week-end, President Hoover will consider the Postoffice Department with its prospective \$140,000,000 deficit.

In the campaign, the President and cabinet members hope to save from \$125,000,000 to \$150,000,000. Mr. Hoover has contended expenditures must be reduced to prevent tax increases in the face of decreasing receipts and an expected deficit of \$90,000,000 or more this year.

Posts the army now occupies and

plans to abandon include: Fort Brown and D. A. Russell, Texas; Eutaw and Hunt, Virginia; Camps Harry J. Jones and Stephen D. Little, Arizona; Fort Lincoln, North Dakota; Miller Field, New York; Fort Missoula, Montana, and Chanute Field, Illinois.

Camps, landing fields and harbor defense establishments, now occupied only by caretakers and suggested for abandonment, include Camp Earle Pass, Texas, and Camp Furlong, New Mexico.

Fort partial disposal, General McArthur listed among others, Forts San Jacinto and Travis, Texas.

In his deliberations with the Postmaster General, the President is expected to hear again the suggestion that postal rates be increased. Brown has advocated this step, but the last Congress turned down his suggestion.

HOORAY! HOORAY!

ROCHESTER, N. Y.—The human race, especially its nature-loving portion owes a debt to Stanley F. Sharpe, fur farmer in breeding stripeless, odorless skunks. This stunt of Sharpe's is the work of several years, and his furs now are bringing maximum prices.
