

MUENSTER ENTERPRISE

VOLUME IX

MUENSTER, TEXAS, COOKE COUNTY, FRIDAY, NOVEMBER 16, 1945

NUMBER 52

Science has just developed a new powder officially identified as "1080" and recommended as a super DDT for rat extermination. According to reports it is so lethal that a small pinch will kill a man and persons handling it must wear a special mask and a pair of gloves for protection.

Now if we had the assurance that the stuff can be used without danger of other harmful effects we'd have something to shout about. All of us are quite generally agreed that the world could be improved by getting rid of rats. We have yet to learn how the pests serve humanity except perhaps in a few out of the way spots where people are said to eat them.

Probably because of our contempt for the rat, the idea of having him on our dinner table is far from appealing. But who knows, maybe he doesn't make such a bad dish after all. Some zoologists claim he is first cousin to the squirrel, which is regarded as a very tasty serving. At the same time we can bear in mind that people eat crow and rattlesnake and turtle.

In spite of that one possible merit we're still a hundred percent in favor of anything that gets rid of the rat. At best he would never be worth the cost of his keep—the bill for his board and destroyed property runs into millions every year, not to mention the suffering caused by diseases he spreads.

But as with DDT the use of this new poison would have to be limited. Carefully spotted in buildings it could do much good. Carelessly scattered or put out in fields it might kill friendly animals.

A controversy over similar ill effects of a war on insects is still in progress. Enthusiasts for DDT saw in it a possibility of wiping out crop destroying insects as well as flies and mosquitoes. Then someone started figuring on casualties to bees and other useful insects that carry pollen from one plant to another.

Nature maintains a balance that cannot be seriously disturbed without serious effects. It's best to go slow lest an intended improvement proves more of a detriment.

Quite a few such cases are already on record. Insects imported to exterminate others became more of a nuisance than the first. The mongoose, put on Hawaii to kill snakes caused more grief than the snakes did.

An unusual success story tells of a young man who recently retired at the age of 33. Since he was 26 he was a veritable dynamo of energy, being a leader in civic, social and religious work besides managing a farm and a business. In connection with the latter pursuit he found time to be prominent in soil conservation work and to serve as an official in a bankers' association.

From the foregoing it is hardly necessary to add that the reason for his early retirement was a nervous breakdown. The ancient Greeks were thinking about people like him when they advised "Do nothing too much."

Commenting on the proposal to lend 20 billion dollars of American money to foreign countries Bernard Baruch offers a few ideas that are worth serious thought.

On principle he is not opposed to helping people who need help but he thinks the helpers should first stop to consider their means. He believes it is time to find out "how much money we owe, what our resources are, and how much our tax intake can be before deciding how much to lend others for rehabilitation."

Taking up those points individually, we are first confronted with the national debt of nearly 300 billion dollars, which means about 10 thousand to the average family. To pay the interest on that debt every family would have to put aside between 300 and 400 a year. This is exclusive of municipal, county and state debts and the interest due on them. It is also exclusive of the normal operating expense of federal, state, county and municipal governments.

To most of us that has a very real significance in spite of the well known contention that money is only a means of exchange and does not constitute our real wealth, also in spite of the claim that we owe ourselves and will receive with one hand what we pay with the other.

When we consider natural resources, however, we are dealing with something more tangible. This country has exploited its intrinsic wealth faster than any other on earth. In less than a

Victory Loan Drive To Be Launched Here Tuesday, Nov. 20th

'Do It In A Day' Plan Of Campaign

All Citizens Will Go To Regular Voting Box To Purchase Bonds

The mighty 8th, the Victory Loan drive, and final campaign in the war bond series drives, will be conducted in Cooke county on next Tuesday, Nov. 20. It will be handled on the "Do It In A Day" plan.

Next Tuesday every citizen is to go to his voting box and there place his application for the amount of bonds he can purchase. The procedure, as proven during the 7th War Loan Drive last April, is simple and effective.

All persons of the Muenster community will go to the Public School local headquarters. Here a group of volunteer workers will register their purchases.

J. M. Weinzapfel, named local chairman by the county chairman, asks that all volunteer workers who assisted in the work last year help again in this final drive. Supplies will be on hand at the school.

Since all persons are expected to go to the "polls" and invest in Victory next Tuesday, the schools will have a holiday, but in Muenster, unlike last April's drive, the stores are requested to keep open so that persons may tend to their business and do their shopping at the same time, thus saving an extra trip to the city.

Muenster's quota, figured on the usual basis of one-tenth of the county goal, amounts to \$82,500. There is no need to point out the importance of this drive, the chairman, contended. People know that money is needed to bring back war veterans, care for the wounded and help prevent inflation.

The local "polls" will open at 9 a. m. and remain open until 5 p. m.

HORSE LOVERS AND SHOW LOVERS ARE INVITED TO MEETING

Horse lovers, cattle lovers, show lovers, all are invited to attend the annual general meeting of the Muenster Livestock Association (Horse Show Club) this Friday evening, Nov. 16, in the parish hall at 8 o'clock to help elect a board of directors, officers and other officials for the coming year and to voice their opinions in planning next year's show. This statement comes from present officials and members of the organizations.

Membership tickets will be sold at the door. The price is only one dollar. It entitles each member to vote in the election of officers and in planning the annual gala show. Membership is open to anyone, and, as the officers point out, the larger the membership becomes the better the annual show will be.

Present officials are R. L. McNeely, president; Dr. T. S. Myrick, vice-president; Miss Loreta Hartman, secretary; treasurer; Alois Trubenbach, J. M. Weinzapfel, J. P. Flusche and Mrs. T. S. Myrick, on the board of directors.

Announce Daughter's Birth
Mr. and Mrs. Ferd Yosten, of Fort Worth, announce the birth of a daughter, who, according to the clever announcement cards mailed to friends, arrived on Nov. 10, weighing 6 pounds, 11 ounces and has been named Judy Ann. The cards further state that the young lady has blue eyes, black hair and a loud voice.

Mrs. Yosten is the former Miss Harriette Schoech. The baby's grandparents are Messrs. and Mrs. I. A. Schoech and F. J. Yosten. Mr. and Mrs. Yosten and Miss Mary Wiedemann visited the new arrival Sunday, and Mrs. Schoech plans to go to Fort Worth this weekend for a few weeks' visit with her daughter.

Insurance Surveys Reveal
Insurance surveys reveal that persons 40 to 44 years of age, who are over 5 feet 10 inches tall, and are 20 percent below the average weight for their height, show an increased mortality of 30 percent.

Will Try Cleanup Again On Saturday If Weather Is Fair

The city wide cleanup scheduled for last Saturday was postponed because of the rain and muddy roads and will be held instead this Saturday, the sanitation committee of the Civic League and Garden Club has announced, provided the weather permits.

If it rains again the cleanup will be held on the first Saturday thereafter that is fair.

Citizens are reminded again to have their cans, junk and other trash either boxed or sacked and placed at curbs for quick pickups. They are also reminded to not place trash in alleys as the truck will not drive through alleys as most of them contain glass and other matter that causes damage to tires.

MAYOR WEINZAPFEL SPEAKS AT MEETING OF KIWANIS CLUB

Mayor J. M. Weinzapfel was speaker at the weekly meeting of the Kiwanis club last Tuesday in Gainesville. His talk was on soil conservation.

Mr. Weinzapfel pointed out that Cooke county's cotton crop has dwindled from a 25,000 bale average of some years ago to 5000 bales this year, and said Texas land is producing an average of only 160 pounds of lint per acre because of a decline in the productivity of the soil.

He expressed interest in the promotion of soil conservation, because, he declared, agriculture is the basis of community development. He told of having read Louis Bromfield's recent book, "Pleasant Valley," which expresses the author's love for the soil and of his accomplishments in the field of agriculture. Cecil Tinsley was program chairman and introduced Mr. Weinzapfel.

Myra To Serve Annual Thanksgiving Dinner On November 22nd

The Myra Cemetery Association is again sponsoring its annual Thanksgiving turkey dinner and extends an invitation to citizens of this community to attend. It will be held on Thursday, November 22, in the Myra school building at noon. The price is 33 cents.

Ina Mae Denham Is Whistling Carrier

Little Miss Ina Mae Denham has made quite a name for herself in Pueblo, Colo. where she has a paper route.

A few months ago she started blowing a whistle as she delivered each paper. Recently the newspaper called all its carriers together and issues each one a whistle.

Ina Mae is the daughter of Mr. and Mrs. Steve Denham and with her mother is visiting in Pueblo.

The proud father is pharmacist at the Dixie Drug store. The family home is in Forestburg.

Out Of Town Relatives Attend Funeral Tuesday

Among out of town relatives at the funeral of Mrs. Kate Tempel Tuesday were Mr. and Mrs. Ben Otto and family of Gainesville; Peter Tempel of Sherburn Minn.; Jake Tempel and son, J. M., of Fort Worth; Rev. Lawrence Schumacher of Mendota, Ill., Edward and Leonard Tempel of Paulding, Ohio; Leo Tempel of Peosang, Ind.; and John Loew of Hoagland, Ind. Rev. John Schumacher of Odell, Ill.

Forestburger Becomes Weekly
Harlan Bridwell, editor and publisher of the Forestburger, newspaper at Forestburg, has announced that the publication is now a weekly. For the past 3 years it was issued every other week. The size of the sheet has been changed to four columns. Editor Bridwell recently returned to civilian life after a long stretch in the army and saw overseas duty in both the Pacific and European theatres.

Spending Leave Here

Bill Branham, petty officer in the Navy, is spending a 30-day leave with his parents, Mr. and Mrs. Henry Branham. He served aboard the aircraft carrier Randolph in the Pacific for 9 months as a machinist. After his leave he will report to Dallas for further orders. He enlisted for a 6-year period in the Navy and has served for five. During the weekend his sister, Mrs. Jack Liedtke and little daughter of Denton, visited at the Branham home.

In The Philippines

Pvt. Walter Morrison, in a recent letter to his parents, Mr. and Mrs. R. E. Morrison, reports that his is well and still on duty in the Philippines. He has served in the Pacific theatre for 28 months with Quartermaster Truck Company of the 13th Air Force Service Command. His company is a unit of the veteran "Jungle Air Force" that battled the Japs from Guadalcanal to China. He wears the Silver Star with the Asiatic-Pacific ribbon for participation in the Northern Solomons, Bismark Archipelago, New Guinea, Luzon, and Southern Philippines campaigns, and also wears the Philippine Liberation ribbon with a Bronze Star.

Off For Japan

Pvt. Starling Lawson wrote his wife last week that he is Japan bound. He boarded ship at Seattle, Wash., for a trip to Nagasaki. Mrs. Lawson is the former Miss Regina Lutkenhaus, and with their two children, makes her home here with his parents, Mr. and Mrs. E. L. Lawson, while he is overseas.

Arrives In Tokyo

A letter from Pvt. Leo Felderhoff, headed Tokyo, Oct. 29, arrived this week. He wrote that he left the states on Oct. 7, and got sea sick when his ship ran into a storm on the 10th. The trip took 14 days, reaching Yokohama on Oct. 22. The first thing he was assigned to, he said, was K. P., which was fine, as he was hungry, and food, upon arrival was not too plentiful. The situation is back to normal, however, and the food is good. His mail is coming in fairly regularly now and he said to tell all his friends hello. He is the son of Mr. and Mrs. John Felderhoff. In the service since April 20, this year, he took his basic training at Camp Wolters.

In Orlando, Florida

Pvt. Billy Joe Miller is on duty at Orlando, Florida, serving with the ground crew of the army air forces. He is assigned to duty as a cook, with every other day off, and on these days works at the P. X. for pay, which he says isn't a bad deal. He is the son of Mr. and Mrs. T. Miller.

Being Transferred

Jack Gallaher, store keeper dispenser, third class, visited his parents, Mr. and Mrs. D. C. Gallaher, this week on a delay enroute from Bain Bridge, Md., to Norman, Okla., where he has been assigned to duty at the Naval Air Station.

Home On Leave

Earl Fisher, Y2C, who has been serving in the Pacific aboard an aircraft carrier is at home here on a 30-day leave with his wife and daughter and his father, Jos. Fisher and family. He will report to Dallas on Dec. 1, and shortly thereafter will be issued a discharge from the Navy.

He Had The Change

The soldier seemed a bit disappointed when he laid down a bill and discovered the merchant could give him change. His purchase was one coke, the money, a thousand dollar bill.

Without so much as a word of comment the merchant picked up the bill, and the soldier said "better look at it again." Why?" said the merchant, as he nonchalantly counted out of his billfold and laid down \$999.95 cents in change.

Yes, it really happened at a local business house and the proprietor has been showing the \$1000 green back as proof.

CDA Social On Nov. 22

Catholic Daughter of America will have their regular social on Thursday afternoon, Nov. 22, at 1:45 o'clock at the new home of Mrs. Al Schad, who extends an invitation to all members to attend.

Mrs. Kate Tempel, 82 Succumbs To Heart Attack Saturday

Clothing Drive For War Relief Underway Here

Catholic Daughters Take Sponsorship; Request Children's Garments

The Catholic Daughters of America, Muenster court, cooperating with courts throughout the nation, is sponsoring a clothing drive and is appealing for clothes for children in need in the devastated areas in Europe. The court, at its Friday meeting, pledged to support the drive and asks not only members, but also all other persons to assist in this used clothing campaign.

This drive, it is pointed out, is for children's garments only. The clothing may be left at the home of Mrs. Al Walterscheid, grand regent of the local court, or given to any member to take to the meeting in December.

The clothing will be forwarded to the War Relief Services of the National Catholic Welfare Conference, and go from there to needy areas in Europe.

The Rt. Rev. Msgr. Patrick A. O'Boyle, executive director of the Conference, in making his appeal to the Catholic Daughters of America to participate in the drive, had the following to say:

"Men, women and little children died last winter in Europe from starvation and cold as well as from bombs. When Dutch teachers examined their little pupils, blue with cold, they found a great number of them had only one garment, a threadbare little dress or suit, and that most had no underwear at all. In Poland child deaths have increased to unknown proportions. In Finland new-born babies are wrapped in newspapers."

Especially solicited for this drive are underclothes, coats, sweaters, night garments, dresses, diapers and little boys' clothing.

The sponsoring group respectfully solicits the help and cooperation of every citizen in Muenster in this cause. It asks that the garments be turned in as quickly as possible so that shipment can be made after the December meeting of the court.

PRESIDENT SIGNS BILL REDUCING TAXES IN 1946

President Truman has signed the bill giving individuals and business a slash of nearly 6 billion dollars in 1946 taxes, thus becoming the first president in 16 years to sign a general tax reduction measure. Not since Herbert Hoover signed a similar bill in 1929 has there been an overall reduction of pocketbook levies.

Congressional sponsors of the legislation said it would stimulate business in the reconversion period and create jobs.

The White House announced on Nov. 9 that the bill had been signed the previous day.

The legislation removes 12 million low income persons from the tax rolls and assures reduction of 10 percent or more for individuals making up to \$50,000 annually. Smaller cuts are provided for those with incomes over that figure.

It provides special tax treatment for veterans of world war two, forgiving all levies on service pay of enlisted men in wartime and giving officers three years to settle with the government.

It clips \$3,136,000,000 off the burdens of business next year, principally through repeal of the corporation war-imposed 85.5 percent excess profits tax.

It repeals the \$5 use tax stamp on automobiles.

It freezes the social security tax in 1946 at one percent on employees' pay and employers' payrolls. Without the "freeze" this tax would have jumped to 2.5 percent for each on Jan. 1.

Do they call it the Wooden Anniversary just to remind a man what a blockhead he was?

Funeral Services Are Held Tuesday Morning At Sacred Heart Church

Mrs. Kate Tempel, 82, a resident of Muenster for more than 40 years, succumbed suddenly on Saturday to a heart attack.

Funeral services were held at Sacred Heart church Tuesday morning at 9:00. Officiating at the solemn requiem mass was Rev. John Schumacher, nephew of the deceased, Odell, Ill., assisted by his brother, Rev. Lawrence Schumacher of Mendota, Ill., and Rev. John Walbe of Muenster.

Fullbearers were J. H. Otto, W. M. Trubenbach, William and Martin Becker, F. J. Yosten and Mr. Swingler. Arrangements were under the direction of Mrs. Nick Miller.

Mrs. Tempel died at 12:10 p. m. Saturday at Frost Home for the Aged in Denison where she had been staying since last May. The body was brought to Gainesville Sunday and was at the Carroll Funeral Home chapel until Monday afternoon when it was brought to Muenster to the home of her son, John Tempel, to remain there until the funeral services. On Sunday evening rosary was recited at the chapel. Father John Brady leading the prayers, and on Monday evening rosary was said at the Tempel home.

The deceased was born Kate Loew on March 9, 1863, in Britzville, Ind. She was married to Jos. M. Tempel on Nov. 10, 1885, at Seymour, Ill., and they made their home there until 1904. In October, 1904, they moved to Muenster, settling on a farm north of town, the place now occupied by Charles Cler. They retired from active work in 1913 and moved to town. Mr. Tempel died in March, 1943.

Mr. and Mrs. Tempel celebrated their golden wedding anniversary with a reunion of family and friends in 1935. Death came to Mrs. Tempel on the 60th anniversary date of her marriage.

Following her husband's death she made her home with her son, John Tempel, and her daughter, Mrs. Ben Otto at Gainesville, until May 8 when she decided to go to the home for the aged at Denison.

John Tempel visited her frequently, his last visit having been made on the Monday before her death. At this time she was in excellent spirits, remarked that she felt better than usual and was enjoying so much the companionship of other aged ladies in the home. The sudden passing came as a shock to her family.

Surviving are 6 of her 8 children: John Tempel, Mrs. Tony Trubenbach, Sr., and Mrs. Ed. Eberhart, Muenster; Mrs. Ben Otto, Gainesville; Jacob Tempel of Fort Worth and Peter Tempel of Sherburn, Minn. Another son, Louis Tempel, died in 1938, and a daughter died in infancy.

Also surviving are 28 grandchildren and 17 great-grandchildren, and nephews and nieces.

Mrs. Tempel was active in parish and community activity as long as her health permitted and had a host of friends. A large number attended the rosary services and the last rites.

LOUIS ROBERG NOT SERIOUSLY HURT IN 30 FOOT FALL

Louis Roberg miraculously escaped serious injury last Thursday when he fell 30 feet from the mast of a spudder on the Hudson and Harrison lease south of the city. Employed at Al Walterscheid's machine shop, Louis had been called to the lease to do some welding.

He was bruised and sore but no bones were broken. The accident kept him at home until Tuesday when he returned to his regular work.

Louis is a veteran of the war, having spent three and a half years in combat duty with the Navy without receiving a scratch. He received his discharge last month.

Mrs. John Beard is reported improved following a serious heart attack.

Local NEWS Briefs

Miss Laura Huchtons came in Monday for a visit with her mother, Mrs. O. J. Hutchons and family.

A son, Donald Mac, was born to Mr. and Mrs. Claude Cannon at the local clinic on November 11.

Mrs. Joe A. Ray of Elizabethtown, Ky., is here for a visit with her parents, Mr. and Mrs. Gus Knabe and family.

Mr. and Mrs. John Chandler and daughters of Dallas were here Monday for a visit with relatives and attended the K of C dance in the evening.

E. S. Lawson spent several days of last week in Albany, Texas, moving a spudder to location for L. S. Dennis.

Mr. and Mrs. Charles Berend and daughter of Gainesville were guests of relatives here Sunday.

Rudy Hellman spent several days of the week in Wisconsin on business connected with the local cheese plant.

C. J. Kaiser and his mother, Mrs. Frank Kaiser, made a business trip to Dallas last Wednesday.

Mrs. J. E. Lane was confined to her home this week on account of illness. Her daughter, Mrs. Bud Razor and little son, Sam, of Pilot Point, came in Sunday for an indefinite visit with her.

Mr. and Mrs. Louis Steinberger have returned from Tours where they attended funeral service for Theodore Schroeder, 72, who died of a heart attack. He had been a resident of Tours for 62 years.

Sunday dinner guests at the home of Mr. and Mrs. Bill Kathman were Mr. and Mrs. Henry Sandmann of Valley View and Mr. and Mrs. George Lutkenhaus and daughter.

Miss Emily Fette has joined the personnel at the Muester Enterprise replacing Miss Mary Ann Reiter who resigned last week preparatory to her forthcoming marriage.

Mr. and Mrs. Vincent Becker and son have moved to occupy the house formerly occupied by Mr. and Mrs. Stan Yosten. Mrs. Becker and the boy made their home with his parents, Mr. and Mrs. Felix Becker, while he was in the service.

Miss Anselma Pagel spent the weekend with her parents, Mr. and Mrs. Jake Pagel and left Monday for Chickasha, Okla., where she will be employed at the Army General Hospital as a cashier and clerk. She was formerly employed at Camp Howze.

GARDEN CLUB ENJOYS PROGRAM AND SOCIAL AT FRIDAY MEETING

Members of the Muester Civic League and Garden Club enjoyed an interesting program, a business session and a delightful social hour Friday afternoon when the regular monthly meeting was held.

Mrs. Joe Luke was the principal speaker during the program hour, leading an excellent discussion on chrysanthemums, the flower for the month of November. She displayed several species and gave hints on their culture.

Mrs. Ben Hellman and Miss Olivia Stock gave a report on the state executive meeting of Texas Garden Clubs, Inc., which they attended recently at Waco.

During the business session, committee chairmen gave reports, and routine business was discussed. Mr. Myrick, chairman of the park committee, stated that holes are now dug for the memorial trees to be planted at the city square and that the live oaks will be planted after the first freeze, as recommended by the nursery from which the trees are being purchased. There will be thirteen of these memorials, one for each gold star serviceman of the community.

Mrs. Joe Luke, in charge of keeping the local service flag up to date, reported that the flag had become too small for the community and that she had enlarged it, to accommodate, she hoped, all the stars that might need to be added during this war period. Stars will be added until Selective Service is abolished. There are 243 blue and 13 gold stars on the flag.

Plans for the club's annual Christmas party were also discussed.

Social Hour

After the business session which was held in the public school, Mrs. Ben Hellman invited members to her home for refreshments.

The beautifully appointed refreshment table was laid with a hand made linen cut work cloth and was centered with an arrangement of fall flowers. Delicious fancy small sandwiches, apple pie with whipped cream, hot coffee, candy and nuts were served by Mrs. Hellman to the group.

Oranges are grown in seven states in the USA, in southern Alabama, California, Florida, Georgia, Louisiana, Mississippi and Texas.

Years ago deserters from army were branded with the letter "D" in irremovable ink or gunpowder two inches below the left armpit.

Three of America's most popular characters were unborn: Uncle Sam, Santa Claus and Charley McCarthy.

A lot of auto accidents would be eliminated if the man behind the wheel would quite hugging the wrong curves.

Suprise Party Greets J. B. Cason On Birthday

J. B. Cason was honored with a surprise party and buffet supper in observance of his 45th birthday on November 6. The affair was a compliment extended by his wife and his daughter, Mrs. Tom Parkinson. It was given in the outdoor living room at the Cason home.

The refreshment table was centered with a large decorated cake, a gift from Mr. and Mrs. G. C. Gallaher. Personnel included the honoree and his wife, Mrs. Parkinson and children, Jackie and Jeanne; Mr. and Mrs. Gallaher, Mrs. E. S. Lawson, Mrs. M. L. McGowan and daughter, Sherry, Brother J. Calvin Dennis of Bulcher and Mr. and Mrs. S. B. Cason, parents of the honoree, of Whitesboro.

Mr. Cason received an assortment of nice gifts from the guests.

Mrs. Joe Kathman Is Hostess To Club

The Get-Together Club enjoyed its regular monthly gathering on the first Wednesday with Mrs. Joe Kathman as hostess in her home. During the business session members planned a theatre party to be held in the near future.

Progressive 42 series furnished diversion for the group and high score award was won by Mr. Al Walterscheid, while Mrs. C. M. Walterscheid received the consolation favor. The galling prize was won by Mrs. J. B. Wilde.

A delicious plate supper was served by the hostess to members and three guests, Mmes Al Eberhart and Frank Kathman and Miss Elizabeth Fleitman.

The next meeting will be held on Dec. 5 with Mrs. Joe Luke as hostess in her home.

Isaac Merritt Singer of Boston, in 1851, manufactured the first successful sewing machines in this country.

Major Consideration in home building plans

HEAT

BILL EBERHART TAKES CAFE MANAGEMENT

Mr. and Mrs. Bill Eberhart have taken over the former H. H. Kathman Cafe, and named the new business Bill's Cafe. They spent the greater part of last week in redecorating the interior and will have the exterior repainted in a few weeks, when labor is available.

Mrs. Joe Swingler is on duty as chief cook.

The cafe business is not new to Bill. He served for several years as an army cook and was in charge of buying daily rations for the army kitchen. Since receiving his discharge a few months ago he has been employed in the local oil fields.

The cafe will feature plate lunches, short orders and lunches to go.

Mr. and Mrs. Eberhart and Mrs. Swingler invite the citizens to visit them at Bill's Cafe whenever they are hungry for good foods, for a snack between meals or for a treat after the show.

The time to decide about your house heating is during planning stage because the new gas heating equipment requires flues for venting.*

When heating is planned as part of house and equipment installed when it is built or remodeled, it can be included as part of monthly payments. In this way the finest automatic gas heat costs so little more each month that even the builder of a modest cottage can afford it. So plan heat as part of house.

*Only when heating equipment is vented to a flue are wall sweating and stuffy air eliminated. Lone Star Gas Company recommends only equipment that is vented.

NO doubt every homemaker has been luxuriating in beautiful dreams the past few weeks—dreams encompassing stacks of sweet-smelling sheets and pillow cases; row upon row of multi-colored fluffy face and bath towels; big snowy napkins and piles of tea towels. I know I have been.

Those who are in a position to know tell us that we may have to get along with present linen supplies for some time to come. For example, the Linen Supply Association of America suggests that homemakers would do well to adopt their suggestions to stretch the life of household linens until such time as they can be replaced.

For my part, I have resolved to stop saying "don't" to our eight-year-old son, Peter, and his dog, Butch, so frequently (they seem to think bath towels are made for their private tugs of war) and "do" some of these things myself:

1. Tuck lower sheet in loosely to avoid strain, and turn wide hem to foot part of the time to distribute strain. Remove from bed carefully.
2. Try a new method of folding and creasing and rotate entire linen supply, giving all articles a "beauty rest."
3. Remove stains promptly. Wash in gentle, luke-warm suds and dry indoors out of strong winds, hot sun and smoke. Mend rips and tears before washing.

Months more use can be given "weak" sheets by splitting down center, sewing selvages together, then hemming torn edges.

I know there are many other things we can all do to preserve our scanty supply of linens, such as using waste material to remove grease, fruit stains and the like, until such time as cotton returns to full civilian status. Even then, I'll bet many of our war-gained habits of thrift and economy will stay with us for a long time.

Farmer Jones has a pig he calls Waterman. At least that's its pen name.

Garcia Lopez de Cardenas discovered the Grand Canyon of Arizona in the Autumn of 1540.

Of the earth's total surface of some 197,000,000 square miles, approximately 139,500,000 are covered with water and the balance, 57,500,000 square miles is dry land.

Carmen Sylva was the pen name of Elizabeth, former Queen of Rumania.

LEO M. KUEHN, SR. RETIRES; SON TAKES OVER THE BUSINESS

To Leo M. Kuehn, Sr., the return of a son from the service brought a long awaited opportunity to retire from his business as proprietor and manager of the Manhattan Clothiers in Gainesville. In spite of frequent illnesses during the past two years he carried on until Monday of this week when Leo Kuehn, Jr., took over three days after arriving in Gainesville with a discharge from the army.

Mr. Kuehn retires after almost half a century in the same business. A resident of Cooke county since 1886, he began working at the Manhattan in 1898 when the was under the management of Jake Criss. Three years later he bought the business and has continued it ever since at the same location and under the same name.

Leo Kuehn, Jr., is known in the county as a former employee in the Manhattan and also as an active worker in the Junior Chamber of Commerce for several years. Prior to his two years in the army he spent two years as secretary of the Vernon Chamber of Commerce.

Retiring from management of the business, Mr. Kuehn does not intend to break away completely. He expects to spend much of his newly acquired leisure at the store greeting old friends and giving the employees an occasional lift in emergencies.

KIND WORDS

Kind words do not cost much. They never blister the tongue or lips. Mental trouble was never known to arise from such quarters. Though they do not cost much, yet they accomplish much. They make other people good-natured. They also produce their own image on men's souls, and a beautiful image it is. — Pascal.

A Westinghouse research engineer, P.B. Cochrane, invented a red pain that automatically indicates when machinery is overheated. It

turns black at 150 degrees and remains that way until the machinery is cool again, then resumes its brilliant red color.

THE STATE OF TEXAS
 TO: Mack Jarrett and Solomon Jarrett, GREETING:

You are commanded to appear and answer the plaintiffs' petition at or before 10 o'clock A.M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 24th day of December, A. D. 1945, before the Honorable District Court of Cooke county, at the Court House at Gainesville, Texas.

Said plaintiffs' petition was filed on the 18th day of January, 1945.

The file number of said suit being No. 14274.

The names of the parties in said suit are: R.E. Bandy, Jr., Yonna Vale Bandy, R.E. Tatum and Ollie Tatum, Plaintiffs, and Consuello Garrett, Jessie Lewis, Cealor Lewis, Elijah Moore, Harry Lee Black, Clara Hubert, Levi Hubert, Katie Jackson, Sanders Jarrett, Georgia B. Jarrett, Jimmie Mitchell, Solomon Jarrett and Mack Jarrett, Defendants.

The nature of said suit being substantially as follows, to-wit: This is a suit brought by plain-

tiffs against defendants to establish the title of plaintiffs to and the ownership of the following described land situated in Cooke County, Texas, to-wit:

72.3 acres of land, described in 3 tracts as follows:

FIRST TRACT: 55 acres out of the A.C.C. Bailey survey, Abst. No. 44, described as follows: BEGINNING at a rock in the S. line of said A.C.C. Bailey survey, said rock being 468 vrs. E. of the SE corner of the Hiram Strong survey, Abst. No. 930; THENCE N. with center of public road 590 vrs. to corner; THENCE E. with fence line 513 vrs. to corner; THENCE S. 5 deg. 30 min. W. with fence line 362 vrs. to corner; THENCE S. 18 deg. E. with fence line 104 vrs. to corner; THENCE S. 41 deg. E. with fence line 58 vrs. to corner; THENCE S. 72 deg. E. with fence line 127 vrs. to corner; THENCE S. 13 deg. 15 min. E. with fence line 50 vrs. to corner, said corner being in the S line of the said Bailey survey; THENCE W. with fence line and the S. line of said Bailey survey 681 vrs. to the place of beginning.

SECOND TRACT: 7.9 acres out of the A.C.C. Bailey survey, Abst. No. 44, described as follows: BEGINNING at a post in the S. line of the said Bailey survey, said post being 1420 vrs. E. of the S.E. corner of the Hiram Strong survey, Abst. No. 930; THENCE E with fence line 275 vrs. to corner; THENCE N. with fence line

Miniature "Oil Field" Foretells Future

PITTSBURGH, PA.—Physicist H. G. Botset, of Gulf Oil Corporation's Research Laboratories, plans oil production on the "Electrolytic Model Oil Field" he invented. The device, which duplicates actual oil field operations on a laboratory scale, will substantially increase the world's usable oil resources. The "Model" can foretell results of various production methods in given oil fields up to 20 years in the future, assuring more scientific advance planning and a greater percentage of oil recovery. The young lady assistant holds a tray of miniature "oil wells".

164 vrs. to corner; THENCE W. with fence line 275 vrs. to corner; THENCE S. with fence line 158 vrs. to the place of beginning. THIRD TRACT: 9.4 acres of land out of the J.S. Martin survey, Abst. No. 699, described as follows: BEGINNING at a point 612 vrs. E. of the SE corner of the Hiram Strong survey, Abst. No. 930; THENCE E 212 vrs to post for corner; THENCE S. 3 deg. 45 min. E with fence line 282 vrs. to corner; THENCE up a branch as follows: S. 51 deg. 15 min. W. 55 vrs.; N. 11 deg. 15 min. W. 36 vrs.; N. 67 deg. W. 36 vrs.; S 74 deg. 45 min. W. 26 vrs.; S 37 deg. W19 vrs.; N 16 deg. W. 28 vrs.; S. 84 deg. W. 42 vrs. to corner; THENCE N. 12 deg. 40 min. W with fence line 273 vrs. to the beginning; and for the removal of the cloud upon the title of said land, and for the title and possession of said land and premises, and in which said suit plaintiffs plead the statute of limitation of ten years, for damages in the sum of \$500.00 and for general and special relief.

Issued this the 8th day of November, 1945.

Given under my hand and seal of said court, at office in Gainesville, Texas, this the 8th day of November, 1945.

SEAL Martin G. Davis, Clerk District Court, Cooke County, Tex. (52-2-1-2)

Card Of Thanks

We wish to thank our neighbors and friends for the many kind deeds and the expressions of sympathy at the death of our mother, Mrs. Kate Tempel. We are grateful for the flowers and spiritual tributes and appreciate every kindness. We wish to direct a special word of thanks to Rev. Father Brady, Saint Mary's congregation and the Knights of Columbus council of Gainesville for their attendance at rosary services Sunday evening at the Carroll Funeral Home chapel. The Children

**First-Aid For
Vacuums**

The next time your vacuum cleaner "won't work"—look before you weep. With prewar cleaners wearing out and calls for repairs mounting daily, service experts at Eureka vacuum cleaner company offer the following suggestions before sending your cleaner to "the cleaners": Clean dust and dirt from inside bag with a brush; replace the worn rubber belt that turns the brush; adjust cleaning brush frequently. Other hints are: place a dab of grease on the end of a toothpick or match and apply to any squeaking part as pictured; and never strain or pull the electric

Chevrolet has combined knee-action front springs, plus synchronized rear springs, plus scientific weight distribution, to provide unusual riding comfort.

Mechanically Chevrolet is as modern as its appearance is attractive. Powered by the modernized, famous Chevrolet valve-in-head engine, the new cars will provide maximum fuel and oil economy with minimum engine wear. Engines are equipped with light-weight cast alloy iron pistons. A specialized lubrication system forces oil under pressure to valve rocker arms and camshaft bearings at the same time connecting rod bearings and cylinder walls are lubricated.

A vacuum-power gear shift with finger tip control is standard in all new models. Brakes are hydraulic, with 11-inch brake drums having cast alloy iron braking surfaces and cooling ribs. Exceptional rigidity is insured by the chassis frame, which is of the box girder type with side rails and cross members of flanged box section construction. Shock proof steering is a comfort feature added to the 1946 models.

Mr. Wilde invites everybody to stop in his place of business and inspect the new 1946 Chevrolet on display in his show room.

WANTED

A partner in the dairy and poultry business.

Somewhere there's an ambitious young couple or family, not afraid to work and who know something about cows and poultry but unable to finance a complete modern outfit. YOU furnish half the live stock, half the dairy equipment and your labor. I'll put up about 120 A. of fine bermuda, buffalo, clover and native grass pasture, 1-3 the crop off about 100 A. cultivated land (you don't farm this.) Modern six room house with hardwood floors, butane gas, electric lights, running hot and cold water, bath and sewerage. Two 500 ft. wells, one with electric pump, other has windmill. Water piped everywhere. Grade "A" dairy barn, lots of other barns and sheds. Modern new laying house. 5 acres fruit. We go 50-50 on expenses and profits. Farm located on milk route on paved highway 20 miles south Fort Worth, 1 1-2 miles from town and good school, 6 1-2 miles from County Seat and Catholic Church. If interested write Bert Fisch, Box 548, Fort Worth 1, Texas.

MOOS OF THE MOMENT

BY UNCLE BOB

of the Kraft Dairy Farm Service

I told a few hundred friends of mine at a dairy day meeting this fall about a farmer who lugged a milk can up to a Victory Bond drive, saying the can held \$15,000, which he claimed was his life's savings and which he wanted to turn into bonds. When they counted the money, they found only \$12,500 in the can. "Shucks," said the farmer, "Guess I brought the wrong can."

There's gold in your milk cans, without any fooling, but sometimes things happen to the milk which turn that gold into ashes. As I pointed out a couple of weeks ago, high quality dairy products get their start on the farm.

And the primary starting point is right in your barn. Sanitation begins with a clean barn. Keeping it clean is just a matter of setting up good habits, setting regular times to brush down walls, clean floors, sweep rafters, wipe down stanchions and stalls.

The USDA says that farmers lose millions of dollars every year because of milk which does not reach quality standards and cannot be used to make good dairy products. These quality standards probably will be higher in 1946.

Whitewashing the inside helps greatly and makes a lighter, more cheerful place to work in. I'll repeat a couple of simple whitewash formulas which I mentioned a few months ago:

Use one pound of lye, 2½ pounds of water-slaked lime. Dissolve in 5½ gallons of water. This solution should be used immediately. Another—use five parts of cream of lime, one part kerosene, one-half part coal-tar disinfectant and 6½ parts boiling water.

That 8-pointed star to guide you through another year has just been announced in Washington by the U. S. Department of Agriculture. Emphasizing that "Efficiency and Quality Pay", the 1946 8-point Dairy Program is as follows:

1. Feed Each Cow for Economical Production.
2. Improve Grasslands to Save Milk Dollars.
3. Use Best Methods of Curing Roughage to Retain Feed Value.

4. Keep Production Records for Better Herd Management.
5. Breed for Improved Herd Replacements.
6. Produce Quality Milk and Cream for Greater Returns.
7. Plan Lay-Outs, Equipment and Methods to Cut Labor Costs.
8. Maintain Herd Health for Maximum Efficiency.

You'll be hearing more about these eight points in the weeks to come.

Dairymen can out do bird hunters in at least one department. This time of year, the biggest kick a hunter gets is when a covey of birds flushes ahead of his dog. But a dairymen can have his "flush" twice.

You can have two flush milk production periods by fall freshening. There is an increase in milk production in the fall right after cows freshen and another in the spring when grass pasturing starts.

There are several advantages to fall freshening for cows. Colleges which have checked hundreds of animals find that total milk production is greater when a cow freshens in the fall than when it freshens in spring or summer.

Calves born in the fall seem to be healthier than those born at other times of the year. Fall calves generally get better care and protection against weather, which helps them grow strong and healthy.

All of these add up to the idea that right now is the time to shop around for the best available sire for your cows, with a view to breeding in the next few weeks for fall calves.

You can get some additional information on this subject by writing for the following bulletins: Bulletin 179, Extension Service, Purdue University, Lafayette, Ind.; Bulletin 378, Extension Service, University of Minnesota, St. Paul, Minn.*

*NOTE: There usually is a 5c charge for pamphlets mailed to non-residents of a state; but possibly your own state has a free pamphlet on the same subject. Ask your county agent. **Uncle Bob**

**'Greatest Ford
Ever Built'**

Says Public From
Coast To Coast

The opening day throngs were matched by those who came later. And their opinion has been unanimous. The words most frequently heard have been "The Greatest Ford Ever Built".

This advertisement is published to record our deep gratification at this splendid public reception — and to answer, as directly as we possibly can, the two questions most often asked.

"How Soon Can I Get My New Ford?" We sincerely believe the answer is: "Sooner than you think!" And here's why — Ford, first with assembly line production of postwar cars, first to stock dealers for a nationwide display, is first in quantity production — 1,000 units a day reached last week — 2,000 a day in prospect within 30 days.

"How Much Will My New Ford Cost?" We think the answer to this is found in Ford's unvarying policy through more than 40 years of operation: always the highest quality at the lowest possible cost.

TO THOSE WHO HAVE NOT YET SEEN THE NEW FORDS: Please make it a point to see if you, too, don't agree that these are the "Greatest Fords Ever Built."

Herr Motor Co.

Muenster

**New Chevrolet
Makes Its Bow**

The new 1946 Chevrolet is on display at J.B. Wilde Motor Co. Low, sleek lines with modern styling characterize the new passenger cars, which have led the nation's automobile sales volume in 10 out of the last 11 peacetime years.

The new cars will be presented in three groups. First off the assembly line was the Stylemaster, which offers unusual refinement in the lowest price bracket. This model is on display locally.

FreeMASTER and Fleetline models still further advanced in finish and appointments, will come off the assembly line as soon as conditions permit.

Massive styling features the new automobile and the interior is designed to increase the appearance of roominess. A more extensive use of new synthetic materials has resulted in many improvements over former Chevrolets.

Every effort has been made to achieve modernity with simplicity in the 1946 Chevrolet. Every detail of the new front combines to emphasize the appearance of low, clear-cut lines. Head lights, framed in each front fender, are spaced widely for effective illumination.

Front and back bumpers have far greater depth and heights than previous models. The hood and belt moldings add to the impression of overall length and with the exception of station wagons, all models have a wheel base of 116 inches.

MORE LOCAL MEN RETURNING WITH SERVICE DISCHARGE

Several more local servicemen are back at home with discharges or expected to arrive soon as civilians.

T-Sgt. Chester Bently has received an honorable discharge after five years with the army air forces and visited his mother, Mrs. Ralph Richards and other relatives here and at Gainesville last week. He has gone to San

Antonio where he and his wife will make their home temporarily. His brother, Carl Bently, is still stationed on Leyte and hopes to be in the states by February. He is a seaman first class with the Navy.

Lawrence Sicking, son of Mr. and Mrs. Will Sicking, is home with a discharge on the point system. He served in the ETO for 32 months with a tank destroyer battalion.

Sgt. Steve Fette called his wife last Friday upon his arrival in New York and said he was enroute to Camp Fannin to be issued a discharge from the army. He served in the ETO for almost three years as a member of an aviation engineers battalion. He is the son of Mr. and Mrs. John Fette. His wife drove to Tyler Monday and he returned home with her Wednesday.

Sgt. John De George, husband of the former Miss Marie West of Rt. 3, Muenster, received his discharge from the armed forces on Nov. 7 after being in the service for 6 years and serving in both the European and Pacific theatres.

Cpl. Dick Trachta, son of Hen-

ry Trachta, arrived as a civilian Monday morning, following a discharge issued at Camp Fannin. In the army since Feb. 1942, he served first in the Pacific and then in the European theatres. His brother, S.Sgt. David Trachta, also duty in the ETO, beat him home by about two weeks.

M.Sgt. Leon Hellman, who served in India and China with the ground forces of the army air corps is in Tyler this week receiving his discharge at Camp Fannin and will be home by the weekend. His wife and his brother, Ralph Hellman, drove to Camp Fannin to meet him and will bring him home. Ralph was recently discharged from the army after serving since Jan. 1942. He was a navigator, based in Hawaii, and held the rank of corporal. Leon has been an army man for ten years. He volunteered in Oct. 1935.

S.Sgt. Harold Trachta is back in Dallas at his pre-war job following receipt of a discharge from the army air forces at Fort Bliss. He served as chief bomber dispatcher at several air bases in the United States and was in Hawaii for three months. He and his wife visited here with his mother, Mrs. Anna Trachta and other relatives before they went to Dallas to make their home.

Pfc. Alphonse Felderhoff, paratrooper, landed in New York Sunday and on Monday telephoned his parents, Mr. and Mrs. John Felderhoff, that he was enroute to Fort Sam Houston to get his discharge. He participated in the invasions of France and Holland and was twice wounded.

Herman Stoffels is back at home as a civilian since Saturday. He served with the Timberwolf division in the European theatre and since returning to the states in July was stationed at Camp San Luis Obispo, Calif. He is the son of Nick Stoffels who has two other sons in the army, Pvt. Frank Stoffels in Japan and Pvt. Meinrad Stoffels in Europe.

Cpl. Albert Rohmer has received a point discharge and is back in the city. His brother, S. Sgt. Alois Rohmer, arrived home a few weeks ahead of him. Both served in the ETO. They are sons of Mr. and Mrs. Leo Rohmer.

S.Sgt. Leo Haverkamp, sent a telegram to his parents, Mr. and Mrs. J. J. Haverkamp, Tuesday upon arriving in the states and will be home as soon as his discharge is fixed up at a separation center. He served with an anti-aircraft unit in the ETO.

Pvt. Lawrence Martin, son of Frank Martin, who served in the Pacific theatre, wrote his father that he has left Iwo Jima for a trip back to the states and will be home as soon as he can make it.

S.Sgt. Ray Swirczynski, who served as a cook for General MacArthur and had a ring side seat at the Japanese surrender ceremony, arrived in Muenster Saturday with a discharge from the army. His wife and children of Carmi, Ill. met him here, and they are guests of his parents, Mr. and Mrs. Joe Swirczynski.

MARY ANN REITER, ANDREW ARENDT, TO MARRY ON NOV. 27

Announcement has been made of the engagement and approaching marriage of Miss Mary Ann Reiter, daughter of Mr. and Mrs. Clem Reiter of this city, and Andrew Arendt, son of Mr. and Mrs. Paul Arendt of Lindsay.

The rites will take place here on Tuesday, November 27, in Sacred Heart church at 8:30, with Rev. John Walbe, assistant pastor, officiating. For her attendants Miss Reiter has chosen her cousin, Miss Helen Ruth Otto, and her fiancée's brother, Artie Arendt. Miss Reiter was an employee at

the Muenster Enterprise since her graduation from Sacred Heart High school in May, 1944. She resigned last week, preparatory to her marriage.

It seems that dolls that cry "mama" when you squeeze them have gone out of style.

Confetti---

hundred years millions of acres have either been depleted or lost completely through soil erosion and faulty farming. Millions of acres of forests have been similarly wasted. Thousands of oil wells have been pumped dry and many large mineral deposits have been exhausted. Russia, China, India, Brazil and quite a few other nations have a potential today that dwarfs ours. We are not, as so many believe the richest country in the world. We just kidded ourselves into thinking so because we threw our wealth around more recklessly.

This fact, considered with the fact that so many of our loans in the past have proven to be gifts, prompts us to accept Baruch's comment as words of wisdom.

Perhaps there would be no harm in sparing a little of our present abundance on the assurance that we would be repaid in kind later. But can we afford to continue playing Santa Claus?—Our position in this interna-

Everybody Welcome

\$1.25 per couple,

9 'til

tional lending game is very similar to that of a man who has mortgaged his run down farm and loaned some of the cash to a neighbor whose farm is well kept and paid for. It doesn't make sense.

Actually it is high time that we began thinking about the welfare of American posterity. That applies not only to keeping it here for them but also drawing on it a little more sparingly for our own use. We could save their soil by conservation and rebuilding practices. We could save forest and mineral and oil deposits by more judicious use of scrap and salvage materials. We could save a little more of everything by taking better care of cars, furniture, tools and the like. This doesn't mean we have to sacrifice any of our standard of living, only to be more prudent in the use of our abundance.

4th WAR LOAN
5th WAR LOAN
6th WAR LOAN
This is the LAST VICTORY LOAN

Let's make it the BIGGEST!

This is the last bond drive... our country's final request on behalf of the men who won our Victory.

The Victory bond you buy today is the one that brings him back. This is the bond that will build his home. This is the bond that will give him the education he gave up to go to war. This is the bond that will care for his wounds. And this is the bond that will buy food and clothing for the families of fighting men who never will come back.

Our purchase of Victory bonds is the best way we can express our thanks to the men who fought for that Victory. And... like bread upon the waters... the bond that betters his future will also make your future better.

"They finished their job... let's finish ours!"
