Recommends Sudan And Rye Planting

S. G. Alexander, who lives on Route 6 and who has farmed in Brown county for a good many years, says that rye is the best pasturage grain that the farmers can plant for winter grazing for their livestock. Rye can be grown very shot through her head. Mrs. Margaret Lowe, with whom the boy was skeeping, was awaken-ed by the first shot fired into bis body. She pleaded with Cook not are, so far as West Texas land owners are concerned." Another feature of the platform which pleases Woodward is that re-tendent of the Brady school, and H. C. Brawlly, superin-tendent of the Brady school, and it will be well for the farmers to plant rye as a fall and winter crop for cows, horses or sheep.

Mr. Alexander and other farmers the have tried this crop and have found the it very successful as it withstands rved the cold weather, has faster growth appointments which have been in-cluded in its construction. After returning from the Blanket school opening today, Mr. Swindle announced that he would make a were favorable. With a rapid growth like that the crop will feed many head of livestock through the win-ter months and will mean money saved to the farmers in that they do not have to have other feed for the animals during that time, Mr. Alexander said.

he

To Fall to Death

Alexander said. Mr. Alexander also says that he has noticed more and more farmers of the county planting sudan grass for summer pasturage for cows and that all have been successful with it. During the summer months sudan grass furnishes a good feed for the cows and Mr. Alexander urges the farmers to try rye for win-ter pasturage and sudan for sum-mer pasturage.

Two Charges Of Forgery Are Filed

boilt 7:30 Bryant Henson, who was arrested Tuesday by city officers and given into custody of county officials, was charged with forgery Wednesday in two counts and bond in each case set at \$1,000. Ferguson Sounds Out Followers on **Bolting Ticket**

AUSTIN, Sept. 10-(,P)-Former Governor James E. Ferguson, whose wife was defeated for the Democratic nomination for governor by Ross S Sterling, today sent out "feelers" to his constituents regarding their at-titude toward bolting the Demo-cratictic in the general election and George C. Butte, Republican nomi-nee. The "iceler" was in the form of an article prepared for publica-

tion in the Ferguson Forum. The article included an attack on the political pasts of both Gover-nor Dan Moody and Sterling and declared the real Democrats of Tex-as were "in a pretty kettle of fish" and being forced to choose between Dr. Butte and Sterling. He declared that two years ago, Sterling sup-ported the Republican presidential nominee and that in 1924 Butte had eampaigned against Mrs. Ferguson with the support of the Ku Klux Klan

In his article Ferguson pointed out that the ruling of the state su-preme court, holding voters were not consciene bound by the party pledge, gave them free rein in the energy election to rein for the state general election to vote for whoeve they saw fit, Ferguson declared that under the law, as construed by the supreme court, the voters would not any Democratic duty or by following their conviolate pledge ciences

Ferguson did not commit himself on the question one way or another but asked his supporters to "drop me a line and let me know how you feel about it."

Advocates All-Year School

Mr. Woodward spoke of the lack of interest as a whole in literary contests, including debating de-claiming and others.

He advocated the all-year school nd told many of the benefits to be derived from an all-year school system. He told of the advantages to the students themselves the proposed program in which the school year would be

Treague said, probably would be an important factor in creating the need for the additional appropriation. He noted the corn crop was now estimated at more than 600,000,000 bushels under last year's yield and 700,000,000 under the average yearly yield. The shortage in the feed grain, he said, was almost as large as the entire anticipated wheat yield of 876,000,000 bushels, thereby offering an opportunity to eliminate the wheat surplus by feeding it to live-stock. **1930 National Air**
