Seminar Will Help People Lose Weight, Detoxify Their Bodies

Have you ever had a hard time losing weight? Do you ever find you just can't lose those last few difficult pounds? Detoxification of your body could be the missing component. "Our bodies are constantly exposed to a variety of toxins over our lifetime," said Dr. Allan Rosenbaum, DC. "Many people just don't know what to do, or how to detoxify." We are anxious to reveal the real secret to losing the extra weight almost all of us have, myself included! Dr Rosenbaum has been coaching people how to do this for over 28 years, so it's not his first rodeo! To answer these questions, Muenster Natural Wellness will be conducting a **free community workshop** on "How to Lose 9 Pounds in 9 Days" at 7 p.m., Monday, Jan. 7th and Jan. 14th at 208 N Walnut Muenster Texas. In this seminar, attendees will learn how people are exposed to toxins, and how to remove these toxins from the body, which is the real issue. The trick is to do it safely and with no discomfort. "We have had great success with this detoxification program," Dr Allan said. "People are losing weight by removing toxins stored in fat tissue, and having no digestive side effects."

"If you are serious about losing weight and being healthier, you need to do this program," said Gail Y. who lost 18 pounds on the nine-day detox program. "Anyone can do this program. It is only nine days, and you don't feel hungry," said Sharon B. who successfully completed the program and lost 10 pounds. Those who have tried other diets and programs and found they didn't work should attend this workshop. They have nothing to lose except those extra pounds.

Call (940) 759-2005 today to reserve a seat.
