

MUENSTER ENTERPRISE

VOLUME XX

MUENSTER, COOKE COUNTY, TEXAS,

JULY 6, 1956

NUMBER 33

Wonderful changes have been made in electric refrigerators during the past few decades, but not one of the many marvels of design and convenience rates with the simple little change recently announced by General Electric for its new models.

That is a magnetic door catch replacing the conventional lock we have been using for these many years. Here at last is a device which will not trap and suffocate children. The door opens as easily from the inside as from the outside. The smallest child can free himself with just a little push.

Almost as good, but not quite, is the idea incorporated in another new model box. It has a latch release inside and a glow which is intended to attract the trapped child to it. Very likely it will be equally valuable as a safety device while the refrigerator is hooked up to electrical current, but it may not be fool proof when the box is disconnected. In that case the trapped child could free himself only if he happened to push on the latch release. In the other box he would likely exert some pressure on the door in his first struggle for freedom, and swing it open promptly.

To those of us who have been shocked by refrigerator tragedies many times in the past several years, the report of this simple safety feature comes as most welcome news. We can reasonably assume that it will soon become standard equipment on all makes of boxes.

The point to remember, however, is that this is only the beginning of ending a serious hazard. Furthermore that the tragedies are usually caused by the old discarded refrigerators, not those in use. So the danger is still very much with us.

Until the time many years hence when these new easy-open models go into discard it will be smart for us to remember that every old box should have the lock or hinges removed. No refrigerator should be left as a booby trap for an unthinking child. Some people have suggested that a law should require this precaution for every discarded box. Common sense does require it, whether or not a law ever will.

This column has no idea how many worn out refrigerators are laying around the area, nor how many are still potential death traps. But it does earnestly plead with each person concerned to knock off the locks without another day of delay. Otherwise we may have to add a local child's name to the list of more than 100 who in the past ten years went to a horrible death because of some adult's negligence.

While on the subject, let's remember too that home freezers present a similar hazard. Two Texas children suffocated in one only a few days ago.

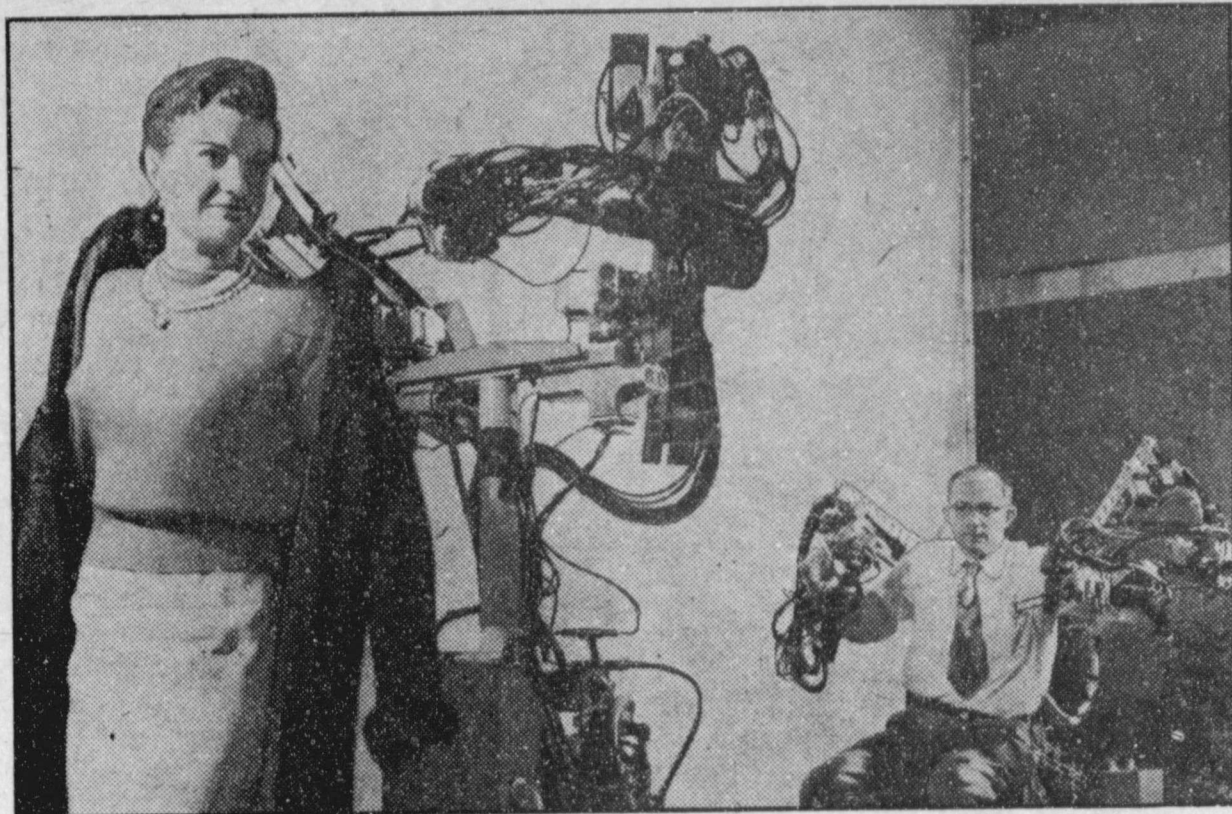

Why not figure this detail in our community improvement program? If every person concerned will give the proper attention to his old refrigerator we can rest assured that at least one hazard has been eliminated.

It seems that this town isn't the only one that has problems with wild drivers. From somewhere in New York comes word of an editor who got up his dander and recommended "Take the cars away, let 'em walk," and specifically urged a 21 year (Continued on Page 10)

City Water Men's Ratings Stepped Up

New licenses received this week have stepped up the technical rating of two of the city's employees. The State Health Department has issued Steve Mosler a Grade B license for proficiency in distribution of municipal water and has issued Joe Mosler a Grade B license for proficiency in water well operation.

Licenses are granted on the basis of experience, special instruction and examination. Both men have the required time of experience with the Muenster water system and both passed examinations following a recent two weeks night course in Nocona. The course, conducted by a specialist of the A&M extension service, was jointly sponsored by the State Health Department and the North Texas Waterworks Association.

THE SORCERER'S APPRENTICE—"Sorcerer," at right, manipulates controls and his actions are duplicated exactly by weird-looking "slave." Obedient to his slightest movement, it helps young woman don her coat. No gadget intended for use in a science fiction movie, the master-slave manipulator is designed to perform mechanical tasks in dangerous radioactive areas, by remote control. It's a development of General Electric's general engineering laboratory at Schenectady, N.Y.

New Sewer Plant Anticipates 100% Growth in Population and NTPA Needs

Good news for residents of Muenster as well as for the Texas Game and Fish Commission is the completion of the city's new sewage disposal plant. The unit has been in operation for almost two weeks.

With a capacity to accommodate a population of 2,500 to 3,000, in addition to twice the present needs of the NTPA milk products plant, the new system assures better treatment of waste matter besides providing for possible growth of the city to more than twice its present size.

The most welcome news here is elimination of odors that used to drift up town from the milk plant's whey pit. Treatment there consisted only of evaporation in a pit measuring about one acre in area. Treatment at the old sewer plant, though more complete than at the whey pit, likewise was not adequate. However it was less pungent and more distant, hence less offensive.

Correction of both of those problems is enthusiastically welcomed by the Game and Fish Commission. Game Warden Lonnie Wooten inspected the plant last week and declared that it ends the worst case of stream pollution the commission has had in this area.

In the new disposal plant the

sewage first passes through a bar screen which catches rags, trash and other substance which cannot be consumed by bacteria action. Those items are cleared away daily and buried.

Next the sewage flows to a large tank which serves the double purpose of treating with air and separating solids from the liquid. An air pump, running constantly, feeds streams of air into the tank and conditions it for more thorough treatment by bacteria. From there the liquid then flows into another tank where it is treated with chlorine. When the liquid reaches a certain level in that tank an automatic control starts a pump (Continued on Page 10)

WITH THE MEN IN SERVICE

Has New Rating

Murlin Joe Evans is a Marine Sergeant now. He received the new rating at Camp Pendleton, Calif., where he is stationed.

Four Enlist In Army

Donald Wilson, son of the Nig Wilsons, Douglas and Jimmy Doughty, sons of the Joe Doughtys, and Jimmy Kirk, son of the Woodrow Kirks, enlisted in the army Tuesday and will leave Sunday to begin training.

Local GOC Holds Training Session

Twenty members of the Muenster post of the Ground Observer Corps attended a training meeting last Friday night in the high school auditorium.

The training session was on "Weather and Aircraft," illustrated and explained by a film. Post Supervisor Jimmy Lehnertz was in charge of the meeting.

Rain Fizzles, Drought Continues; Moisture Record Is 9.54 for Past Six Months, 10.09 for Past Nine Months

Clouds and a light drizzle early Wednesday sustained hopes for a while that relief from this year's extended drought was arriving at last. But hopes faded before noon as skies cleared leaving a moisture measure of only .40. Of that figure .30 had fallen before 7 and was recorded for Wednesday. The rest is recorded for Thursday.

As meager as the rain was, however, it was more than the total rainfall for the month of June. According to Steve Mosler's official Weather Bureau figures the June total was 1.22.

Year	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total
1946	4.40	2.80	2.30	1.95	10.34	3.40	1.00	1.90	1.50	.80	7.27	4.12	41.78

Braves Edge Yanks In 16-15 Thriller; Tigers Hold Lead

With an unblemished record in four games the Tigers, sponsored by the Lions club have undisputed hold on the top spot of the Muenster Little League. Next are the VFW Red Sox with a 2-1 standing, the KC Braves with a 1-2 standing and finally the St. Joseph Yankees with a 0-4 record.

The Little Yanks barely missed their chance to break into the win column last Friday night when the Braves nosed them out in the bottom of the seventh on Harris' 2-run homer. That timely wallop changed the count from 14-15 to 16-15 and ended the game. For Harris the feat was a part of his perfect record at bat he got 2 homers, 2 singles and a fielder's choice. He also brought in 5 runs.

The game was the classic of pee wee competition to date with the lead changing six times before the end, and the hitting record was as close as the score, the Braves getting 13 and the Yankees 12. Pitchers Miller and Knabe had 4 strike outs each.

Tuesday night's Tiger-Yankee contest was more one sided, ending at 23-13. Though trailing all the way, however, the Yanks got in a few active innings and stretched the game beyond the minimum 5 innings. At the end of the fifth the tally was 17-12, but after that the Tigers scored 11 and the Yanks only 1.

The Tigers' big advantage was in Mullins' pitching. He whiffed 12 and walked 5 while Knabe, for the Yanks, fanned 4 and walked 14. Tigers also had a 13-10 advantage in hitting. Leading hitters were Owens with a double and a triple, Gobble with a triple, Flusche and Hess with doubles.

Next games scheduled are Red Sox and Braves Friday night, Braves and Tigers next Tuesday.

Resident Deputy Assigned to City; Delayed by Illness

Muenster's long awaited resident deputy sheriff is officially sworn in and assigned to the city even though he has not been on the job yet Wednesday.

He is Buck Anderson, formerly of Greenville, married and 30 years old. He has had seven years of experience in police and sheriff work besides service with the MPs while in the army.

Anderson reported to the city council at its meeting Monday and said that sickness in the family would cause a few days delay in his reporting for active duty. His wife's mother is critically ill in a Dallas hospital.

Wet Water's Value Proved in Oil Fire

Wet-water, the city's new fire fighting weapon, proved its value last Thursday afternoon in the first test it has had since its arrival a few weeks ago. With a half gallon of the dope added to their 300 gallon water supply in the pumper truck, firemen made short work of extinguishing a blaze on an oil pit and adjoining oil tank.

When they arrived the fire was going strong on the pit and also at a leak on the tank. A few minutes later, after using less than half the water supply, they had both fires out.

Wet water is the result of adding a detergent-like chemical to the water. When sprayed on a burning object it has a tendency to stick and penetrate rather than roll off like ordinary water. At the same time it foams, giving a smothering effect.

Fearing an explosion at the tank, the firemen kept their greatest distance and set the nozzle for a stream instead of a fog. The fog would have been more effective. Nevertheless the mixture of foam and clinging water snuffed out the tank fire in a few seconds.

Next came the pit fire, which was conceded to be an almost impossible job with plain water. Since the flames cover a considerable area a small area, put out temporarily, is burning again before the rest of the fire is put out. Not so with the wet water. The foam formed a protective cover preventing the area from starting a new blaze. In all the job required less than half of the tank's supply.

The fire, at J. H. Bayer's was set intentionally to clean out an oil pit. Not noticed however, was a leak from the nearby tank which formed a small oil stream to the pit. Flames followed it to the tank. As metal expanded and a part of the gasket burned away the leak enlarged causing a bigger flame. Bayer thought the tank was doomed. About a half hour later, when it still held out, he called and asked whether firemen would try to save it. They welcomed it as an opportunity to try out their wet water.

The dope is hailed as one of the greatest modern advances in fire fighting technique. A half gallon added to 300 is claimed to multiply the water's effectiveness four times.

Ceremony Saturday Night to Dedicate Swimming Pool

A program enhancing official formalities with aquatic exhibitions and an aquamaid contest will officially dedicate Muenster's municipal swimming pool Saturday night at 8 o'clock.

The official part of the program will include an invocation by Father Christopher Paladino, an address of welcome by Lion President H. H. Homsley, and the dedication by Mayor Urban Endres.

Featured as the big entertainment event is an exhibition of swimming and diving by a group of outstanding swimmers from North Texas State College. Other aquatic action was also considered, however Mr. Homsley, general chairman was not available Wednesday to say whether that part of the plan has worked out.

The event which has claimed the most enthusiastic advance interest is the aquamaid contest, which is sponsored by the VFW Auxiliary. Reports Wednesday are that 56 local young ladies are entered, each sponsored by some local business firm, and more may be entered before dedication time. Each entrant will be identified by a ribbon showing the name of her sponsor.

The aquamaids will appear in two divisions, a 16-19 year group competing for the title of Miss Muenster and a 13-15 year group competing for the title of Junior Miss Muenster. Out of town judges will make the selections.

For the convenience of visitors, grandstand seats from the Hornet football field will be moved to the concrete platform just north of the swimming pool fence. In the same general area refreshments will be available at a concession stand operated by the PTA.

To avoid conflict with the program, and to allow time for preparation, the pool will be closed at 6 o'clock Saturday. L. B. Bruns, pool supervisor, reminds regular swimmers to keep that special closing hour in mind and plan their Saturday schedule accordingly.

Preparations for Catholic League Convention Begin

Extensive preparations are underway at Nada where parishioners of the Church of the Nativity of the Blessed Virgin Mary will be hosts on July 9-12 for the 57th annual convention of the Catholic State League of Texas and its affiliated organizations.

The official convention program, just released, lists outstanding speakers, general sessions, sectional meetings, a youth rally, the Catholic Day program and varied entertainment for delegates and visitors.

Among members of the clergy listed as principal speakers are the Most Rev. John L. Morkovsky, auxiliary bishop of Amarillo, and Rev. Albert Henkes of San Antonio, spiritual advisor of the League's youth section. Also on the program are the Very Rev. Jacob Lenze of Castorville and Rt. Rev. Msgr. Peter J. Schnetzer of San Antonio. Rev. Arnold Anders is acting pastor of the parish.

The first day of the convention will be devoted to activities of the Life Insurance Union. Official opening will take place on Tuesday, July 10, at 10:30 a.m. The youth rally will be held that night.

Election of officers and the Catholic Day program will be highlights of the following day and the final session will be held Thursday morning. Awards in the rural life contest and membership drive will be presented Wednesday night.

The K. J. T. Hall will be convention headquarters and meals will be available in the parish hall dining room. Walter Gold is convention chairman.

SCHEDULE OF COMING EVENTS

FRIDAY, July 6 Little League Red Sox vs Braves.
SATURDAY, July 7, Dedication of swimming pool, 8 p.m.
TUESDAY, July 10, VFW meeting in the Post Home, 8 p.m.
TUESDAY, July 10, Little League, Braves vs Tigers.
WEDNESDAY, July 11, KC meeting.

Local News BRIEFS

The James Eckert family moved Saturday from Tony Fiederhoff's farm house to the Stoffels Estate place which they bought. They are doing extensive repairing and remodeling on the house which is now their home.

The J. M. Weinzapfels, enroute to Alaska, postcarded from Colorado and Wyoming this week. In Colorado they visited Ida Fisher Fladung at Longmont, and met Father Anthony Weinzapfel at Denver. He took them to see Mother Cabrini's Shrine and to Mt. Evans. The tourists are enroute to visit their daughter and family, the David Brights at Fairbanks. They are going by car, taking the Alcan Highway.

Mr. and Mrs. H. L. Herron of Denison and daughter Henriette and her husband — Mr. and Mrs. J. E. Collman of Colbert, Okla., — were July Fourth visitors here with relatives and friends.

Mr. and Mrs. J. W. Morrison have returned from a week's visit with relatives in Colorado City, Texas.

Mr. and Mrs. Joe Linn had as guests Saturday to Tuesday their son and daughter-in-law, Mr. and Mrs. Jeff Linn and children Carol Ann and Joey of El Monte, Calif. Before coming to Muenster they were in Iowa.

Mr. and Mrs. W. L. Scoggins are on a vacation tour that will take them to California. They began their trip July 1 with a visit in Lindsay, Okla., with his brother Herman Scoggins and family, then spent Monday to Wednesday in Lawton with their daughter and her family, the Carl Hanzas, were back here for the Fourth, and left Thursday for Wichita Falls where a daughter and her husband, the Kenneth Barriers and son Gary, joined them on the drive to the west coast.

Farm Bureau Faces Busy Session at Monday Meeting

When directors and committee chairmen of the Cooke County Farm Bureau meet next Monday, June 9, they'll be faced by a full business program.

On the agenda are plans for the queen's contest and county picnic, completion of wheat petition, discussion of a rural fire fighting program, and reports of committees.

The meeting will be held in the bureau's office building on Highway 82, beginning at 8:30 p.m.

DO-IT-YOURSELF NUN — Sister Aloysius of Edinburgh, Scotland, skillfully wields a plane as she experiments on a piece of wood in a woodworking class in London, England. She and other Sisters plan to do their own work in furnishing their convent.

46 Children Enroll In Vacation Classes At Baptist Church

Forty-six children are enrolled in the Vacation Bible School at the Baptist church here this week. They are attending classes each morning since Monday from 8 to 11 o'clock.

Friday, last day of the school, children and their teachers will have a picnic after classes end. They'll go to Leonard Park for the outing.

Sunday night at 8 students will present a commencement program and display their handwork. Interested persons are invited to attend.

In charge of the Bible school this week were Mrs. J. R. Milligan of Fort Worth, Mrs. D. S. Pettijohn, Mrs. Jack Tuggle, Miss LaQuita Cain, Mrs. A. T. Tuggle, Mrs. Jimmy Cadell, Mrs. Clarence Hudspeth, Mrs. James Hamner and Mrs. Johnny Barthold. Instructions were given to five groups: intermediate, junior, primary, beginner and nursery.

Heat by Refrigeration

Pretty soon now, perhaps as early as next year, the air conditioning system will heat the home! No furnace, no coal bin, no oil tank — no fuel bills!

Down in Roanoke, Virginia, the new Hieronimus Department Store — which opens this month — will be heated (as well as cooled) by its refrigeration compressors. Philadelphia's new Ballinger Building, home of the nation's oldest architectural and engineering firm, will provide a second example of fireless heating, and more commercial building installations are on the way.

To maintain an even, year-round temperature, the same refrigeration equipment that takes the heat out of the inside air in summer will remove it from the sub freezing outside air in winter. By what the engineers call "compound compression" enough heat can be taken out of the air on a zero day to provide hot circulating water or hot air to keep the Christmas shoppers in Roanoke, or the architects and engineers in Philadelphia, cozy and happy.

This newest technique for keeping warm without burning anything is known as the "heat pump" method. No doubt you've heard the name before. Britain's Lord Kelvin, the father of mechanical refrigeration, dreamed up the principle 104 years ago, and other scientists have been trying to make it work ever since. And while heat pumps have worked pretty well in warmer climates, it remained for Robert G. Werden, engineering executive of the York Corporation, Pa., to solve the Kelvin riddle in wintry climes.

As the nation's pioneers in the field of mechanical cooling, it is appropriate that the York people should come up with this double-barrelled equipment that requires only electric power for the compressors to make comfort automatic around the calendar. In this startling new achievement, together with world-wide development of unlimited, economical kilowatts from atoms in the foreseeable future, the peoples of the earth may — in our time — have their first chance to be comfortable.

Blessed Events

Mr. and Mrs. Hugh Jackson are the parents of a six pound nine ounce daughter born at the Muenster Clinic at 9:10 p.m. Tuesday, July 3. Others welcoming the little girl are her three sisters and two brothers and her grandparents, Mr. and Mrs. J. M. Weinzapfel, and Mrs. Leona Jackson of Houston.

Mr. and Mrs. Harold Corcoran of Farmington, N.M., announced the birth of their daughter on July 1. The five pound girl is the granddaughter of Mr. and Mrs. Clem Hermes of Lindsay and Mr. and Mrs. John Corcoran of Gainesville. Her mother is the former Rita Hermes.

Mr. and Mrs. Ray Klement are the parents of a ten pound six ounce boy born at 8:30 p.m. Tuesday, July 3, at the Muenster Clinic. The new arrival has three brothers and a sister and is the grandson of Messrs. and Mmes. John B. Klement and Ben Sickling.

If we can lick hunger, it is said, we can hope for stable peace. And if we can also do away with chilblains, goose-pimples and heat prostration, brotherly love should indeed be attainable. Somehow, we can't seem to visualize a potentate with a runny nose or sweaty brow signing a treaty of everlasting amity.

Average production for cows given eight to ten weeks vacation was slightly higher, but the difference wasn't great enough to pay for the extra feed involved. "If the dairyman is neglecting to supply adequate vacations for his cows, he is losing money," says Burleson.

Bossy Responds To Vacation with Higher Production

COLLEGE STATION — "The dry cow is the most neglected animal on the dairy farm," says R. E. Burleson, dairy husbandman, Texas A&M College.

In a study made of 3,500 dairy cows at Michigan State University, records prove that cows produce more if they have at least six to eight weeks of rest between lactation periods.

"Results of the study show that cows dry two weeks or less, produce 9,511 pounds of milk and 347 pounds of butterfat," says Burleson. "Cows dry two weeks to a month produce 10,838 pounds of milk and 390 pounds of butterfat, while those dry four to six weeks produces 11,218 pounds of milk and 404 pounds of butterfat."

Burleson recommends that cows have six to eight weeks of rest between lactations. Cows in this category of the study produced 11,507 pounds of milk and 413 pounds of butterfat.

Though the study was run on Holsteins, production figures for other breeds would be the same

The wife was greatly pleased with her success at the women's meeting. On her return home she said to her husband:

"Yes, I was absolutely outspoken at the meeting this afternoon." Her husband looked incredulous.

"I can hardly believe it, my dear, who outspoke you?"

Development Chief Appointed by TP&L

E. H. McElroy, Jr., has been named manager of the Texas Power & Light Company's Area Development division of the Sales Department with headquarters in Dallas, it was announced today by W. W. Lynch, TP&L president. Mr. McElroy, a power consultant for the company, succeeds Assistant Vice President Basset Watson who has been named general sales manager of the company.

Mr. McElroy has been with the Texas Power & Light Company since July, 1947, serving as an assistant engineer and power consultant trainee until 1950 when he was made commercial manager of the company's Waco district.

During the construction of the Sandow power plant for the Aluminum Company of America's Rockdale Works, Mr. McElroy was the Texas Power & Light representative in the East, working with manufacturers of materials for the plant.

He returned to the Executive department in the Dallas office in October, 1953, remaining there until his appointment as an industrial consultant in the Area

AT FT. WORTH WEDDING

R. M. Zipper and Joe Mages were in Fort Worth Sunday to attend the wedding of James Heitzman to Joella Simmons. The couple was married in All Saints church during a 4:30 p.m. ceremony. A reception, a dinner and a dance were held for some 200 wedding guests in Sokol Hall. The groom's parents live in Pilot Point and the bride's parents live at Windthorst. Relatives and friends from both towns attended the wedding.

Chuckie McDonald of Oklahoma City spent several days here with his cousin Chris Michael Cain. His parents, Mr. and Mrs. C. D. McDonald, came for a Fourth of July visit with the Dick Cains and took him back home with them.

Mr. and Mrs. Joe Hoenig drove to Dallas Friday to be overnight guests of their son and family, the Rupert Hoenigs, and Saturday morning boarded a plane for San Antonio where they visited their son-in-law and daughter, Dr. and Mrs. Kenneth Cottle and children. They returned home Sunday evening.

Development division in January of the present year.

Local News BRIEFS

Mr. and Mrs. Arnold Rohmer and son Donnie returned Friday night from a week's vacation trip to Colorado where they visited places of interest including Mother Cabrini's Shrine at Denver, Pike's Peak, Seven Falls, Garden of the Gods, the Royal Gorge and other scenic beauty spots in Colorado Springs and surrounding area.

Mr. and Mrs. Frank Yosten returned last Thursday from a vacation trip. They visited her parents, the Julius Filers at Tours, other family members at West, and the Ferd Yostens in Fort Worth.

Mr. and Mrs. Emmet Fette and children left last Wednesday to return to Douglas, Ariz., after a 10-day visit with family members here and at Lindsay. Enroute they stopped in LaFeria to see her sister and family, the Albert Bauers. The Fette family will return to Muenster to reside the latter part of August. He will be working for an insurance company.

Mrs. Frank Kathman joined her sister-in-law, Mrs. M. D. Ellis of Saint Jo, on a trip to Oklahoma City to spend about a week with relatives. They left Saturday planning to stop at Tulsa to visit a nephew in the hospital. Walter Ellis was hurt in a car accident a week earlier. He was to be transferred to Camp Chaffee base hospital this week.

Father Fintin of Subiaco was here this week in the interest of securing students for Subiaco College-Academy.

Jimmy Fisher and Emmett Walterscheid left Sunday evening for Washington state to work in the harvest fields. They will be staying at Mabton where Jimmy's uncles, Charlie and Leo Schmitt, live.

Gretchen Hellman Entertains Guest

Gretchen Hellman, honoring her weekend guest, Patricia Harrington of Dallas, entertained with a slumber party Saturday night at the home of her parents, Mr. and Mrs. Rudy Hellman. Other guests for the night and breakfast were Juanita Wieler, Collette Hellman and Virginia Otto. Sunday the five girls drove to Lake Murray for dinner at the lodge.

Patricia came to Muenster Friday when Gretchen and Juanita went to Dallas for her. She returned home Sunday evening with her parents, Dr. and Mrs. Frank Harrington, who drove to Muenster and were supper guests in the Hellman home.

The two girls will be enrolled at Marquette University when classes begin in September. Patricia will major in speech and will be a student of Dr. Hugo Hellman. Gretchen will study nursing and both will be in biology class together.

Ladies Auxiliary Wins Merit Award

Muenster VFW Auxiliary has received a certificate of merit for a one hundred per cent honor roll rating during the past year through accomplishment of all aims and objectives required in connection with charity and civic work to qualify for the award. It is the organization's sixth consecutive year to qualify for the certificate. Mrs. John Hosea is honor roll chairman.

Members heard about the award Monday night at their regular meeting through Mrs. F. A. Kathman who attended the state convention in Amarillo during the weekend. Mrs. Anne James, district president, accepted the certificate for the local Auxiliary at the convention.

Mrs. Richard Grewing, president, conducted the business session. The committee in charge of the queen's contest to be held in connection with the formal opening of the municipal swimming pool gave a report.

Mrs. J. B. Golden and Dorothy Hartman, hostesses for the social hour, served refreshments. Mrs. C. M. Walterscheid won the attendance prize. Twenty members were present.

Mr. and Mrs. Jack Fletcher and daughters Patricia and Sara of Carrollton were here Sunday for a visit with his parents, the J. W. Fletchers.

The American Way A Great Emancipator?

By George Peck

Frankly, I'm puzzled. In my mail one morning not so long ago there were two letters. The one castigated me on the score that I am anti-organized labor; the other bawled me out as its writer accused me of being pro-union labor. Now, it is impossible for that matter, to be both pro and anti-union labor. Why then do two readers deduce two such diametrically-opposed opinions from reading my comments on unions? That's what I ask myself and can hazard only one possible answer.

Repeatedly over the years I have said that I am for organized labor, but just as often I have said that I am opposed to the racketeering, dictatorial element that has seized the leadership of so many of our labor unions. Let's put that another way: I'm pro-union labor when the unions are conducted to help their members and not to serve the selfish interests of their leaders; I'm anti-union labor when the unions are conducted for the sole benefit of their leaders to the detriment of their rank-and-file members.

Let me quote what I wrote some 20 years ago in the very first column in which I discussed labor unions: "As to organized labor, I'm all for it. I recognize the right of workingmen to bargain collectively, but insist that this be done without dictation, coercion, domination or interference by either government or union bosses. I do deplore the fact that a small minority of union labor's leadership is made up of selfish men who are exploiting their members."

As time marched on and more and more unions were captured by racketeers, I amended the latter part of that statement to read: "I do deplore the fact that such a large proportion of union labor's leadership is made up of wicked, selfish men who are enslaving their members." But let me make it crystal clear, I am still for union labor.

And somehow this brings me to a statement made recently by George Meany, president of the AFL-CIO. He was talking about union labor's participation in the forthcoming national election

campaign. Said he in part:

"... Labor has come a long way in this country despite bitter employer opposition. Yet, the opposition we face today is even more formidable. The scene of the battle is no longer the company plant or the picket line. The scene has moved into the legislative halls of Congress and the State Legislatures. On these fronts, we have taken a beating in recent years, first, with the enactment of the Taft-Hartley Act and other restrictive Federal legislation, and more recently with the passage in eighteen states of the misnamed 'right-to-work' laws. These laws are a threat to the very existence of unions, since they are aimed at destroying union security. Our fight for their repeal is a fight for life."

It is too bad that the man honored with the top job in the merged AFL-CIO did not inherit some of the statesmanship of Samuel Gompers, the "George Washington" of the union labor movement in America. Gompers repeatedly warned that union labor must steer clear of political activity and that it would destroy itself if it resorted to force in recruiting its membership.

What the union labor movement needs today is an "Abraham Lincoln," a "Great Emancipator" to preserve the great gains that it has made and to prevent it from destroying itself through unstatesmanlike, greedy leadership.

Mr. Meany must learn that labor unionism can never attain the security he so earnestly desires for it by forcing men to join through the instrumentality of the "Union Shop." He must be made to realize that there is no place for compulsion in the American scheme of things, that any organization or organizations that resort to force nurse within their bosoms the seeds of their own destruction.

The way for labor unions to attain security is to make themselves so attractive that workers will knock on their doors pleading for admission. And that, Mr. Meany, can only be accomplished by purging your movement of the self-seeking racketeers that surely as night follows the day, will destroy it.

The Congress of the U.S.A. is of a mind to give Mr. Meany great help toward that salutary goal. He can, if he will, be the "Great Emancipator" of the union labor movement in joining wholeheartedly with the Con-

Beware the Blackjack

Pause For Reflection

... with James C. Ingebreten President, Spiritual Mobilization

Swiss mountaineers recently reported they had climbed Mount Everest, the world's highest mountain, for the second and third times that it has been climbed. They also said they had made the first ascent of Everest's twin peak, Lhotse, according to a Reuters dispatch from Katmandu, Nepal.

Among the world's physical mountains there remain few challenges to man's daring and fortitude. But in the spiritual realm

there is still that towering peak called the Sermon on the Mount which stands as a challenge to every one of us. Its summit "Be ye therefore perfect, even as your Father which is in heaven is perfect," may seem as unattainable as the summit of Everest. But how many of us are even firmly camped on the Beatitudes, ready for a try at some of the steeper slopes?

Here is a spiritual challenge to everything there is in us — an adventure that surpasses in difficulty and grandeur even the conquest of Everest. But we have a Guide who has been to the summit and who knows the way up. How many of us are willing to undertake this arduously difficult but tremendously thrilling climb with Him?

As it embarks on a crusade to emancipate the "enslaved" workers of America.

Is God A Kill-Joy?

By Rev. George W. Casey, columnist for the Boston Pilot

IN A recent popular play, an elderly gentleman, drinking a cup of coffee with great relish exclaims, "That's so good it is a wonder that someone hasn't made it a sin."

This type of remark inevitably gets laughter and applause. But it suggests one of the most harmful fallacies that irresponsible writers try to impress upon the public mind—that religion, and moralists in general, are just kill-joys. These same writers then turn around and pose as our liberators, freeing us from the needless restrictions called morals.

BUT NO laws of God, whether engraved in our natures or set forth in the Bible, exist for their own sake or simply to hamper freedom. All true laws exist for the good of all. If they do restrict, it is only to give a greater thrust in the direction of the greater good of all.

The laws that surround sex for example do not exist because sex is an evil thing. Sex is God given. It was implanted in human nature to guarantee the continuance of our race. With-

in the framework of marriage, sex expression can be as beautiful as anything in human life.

BUT SEX is mighty. It has to be so to prevail against the diseases, accidents, human conflicts and other hostile forces that would otherwise wipe out humanity.

As all power must have controls, so sex must be controlled. No automobile could be used that did not have brakes. In fact sex is so mighty, so pervasive, that lawlessness in its regard would be utterly destructive of peace and order. The front page of the daily newspaper bears grim witness to this fact.

AND THE controls of sex must be specific and have strong sanctions. They must include conventions, standards of modesty, social scorn, and rigid laws as the outer defenses of sex morality, and the fear of God within.

Nothing is a sin because it happens to give pleasure. Sin is selfish enjoyment at our neighbor's or God's expense. To fear at conventions and the lawful restrictions of sex is to menace those great foundations of society, the family and marriage; it is to scoff at the order which the All Seeing and All Wise Lawgiver has established.

Mrs. Pagel Hostess For Club Meeting

Mrs. Jake Pagel was hostess in her home Tuesday afternoon for the regular meeting of the Get-Together Club. She arranged three tables for a progressive 42 series and after the games served pineapple upside down cake, ice cream and iced tea to nine members and three guests.

Award winners in the games were Mrs. Joe Kathman for high score and Mrs. Paul Endres for low tally. Mrs. Clarence Hellman drew the door prize. Mrs. Endres, Mrs. Hellman and Mrs. John B. Klement were the guests.

TEXAS-SIZE INVITE — Vice President Richard N. Nixon is presented a large outline map of Texas as his invitation to the 57th National Encampment of the Veterans of Foreign Wars in Dallas August 12-17. Timothy J. Murphy, right, Commander-in-Chief of the VFW, extended the invitation to the vice president in Washington.

14,000 People in U.S. Die Annually In Farm Accidents

COLLEGE STATION — Accidents are never cheap. Farm accidents in the U.S. every year claim the lives of about 14,000 farm people; injure more than a million and cause economic losses of \$1,500,000,000. Last year, points out W. L. Ulich, extension agricultural engineer and secretary of the Texas Farm and Ranch Safety Council, more farm workers died by accident than workers of any other major industry.

These staggering losses, he adds, are the reason why President Eisenhower has proclaimed the week of July 22-28 as National Farm Safety Week and is requesting all persons and organizations interested in the welfare of farm people to join in a campaign to reduce all farm accidents.

The president said that in nearly every accident human failure is associated with the tragic loss of life and that experience in industry has proved accident prevention measures always pay.

Engineer Ulich points out that specific studies in other states show that as high as 86 percent of all farm machine accidents involve tractors and tractor equipment. This might be a mighty good place to start a safety program on most farms, says Ulich.

"You wouldn't think of selling a good right hand or arm, an eye or a leg, but many have lost these precious possessions by simply sticking them into a moving or operating machine, by stumbling over an unshielded power take-off or by getting an eye knocked out by flying dust or debris from an operating machine being checked at too close range. Think about these needed body parts and your life when working with machinery and you'll develop a consciousness about safety you never had before," says Ulich.

When every farm worker develops this type of attitude toward safety, farm accidents will drop to a new low-level and farm living will become more pleasant and satisfying as a result. Your safety is in your hands.

A sweet old lady saw a sad old man standing on a street corner. Eager to aid suffering humanity, she pressed a dollar bill into his hand and cheerfully said, "Chin up." Next day they both met at the corner and the sad old man handed the sweet old lady a \$10 bill. "Nice going, paid off 9 to 1," he whispered.

Recipe For Survival

A young man by the name of Alfred P. Sloan, Jr., went to work on his first job — as a draftsman — for the Hyatt Roller Bearing Company in 1895, a year in which 300 automobiles were built in the U.S.

Just the other day, 61 years later, Mr. Sloan completed his business career by resigning the board chairmanship of General Motors — leader of an industry that built 9,200,000 cars and trucks during his last full working year.

It is said of the retired chairman that in all those years he never issued a direct order. He sought advice from all whom he thought could give it. "Our scheme of management," he once said, "is to develop the ability, imagination and ambition of the individual. We are not afraid to delegate great responsibility and place authority with responsibility. Then we expect results."

And certainly, throughout American industry today, there can be no more important result of such a policy than the building of men big enough to take over when the giants — such as Alfred P. Sloan, Jr. — step down. On this, in fact, our national future depends.

Doctors say that to stay healthy, be happy. Seems that it's the surly bird that catches the germ.

Kenny Wiesman joined his wife for a weekend visit with their parents, the Herbert Meurers and Al Wiesmans and Jeanette returned to Houston with him. She had vacationed here for several days. Jimmy Wiesman and Martha Sue Meurer accompanied their brother and sister home to spend a week's vacation. Julia Wolf also joined them on the trip. She is visiting relatives in Houston while she is on vacation from duty at the Muenster State Bank. Coming to Muenster, Kenny was accompanied by Rita and Betty Fisher who returned home after a week's visit with their aunt, Mrs. Leo Appel and family.

Guests of Mr. and Mrs. Ray Evans Monday were Jack Nagel of Green Bay, Wis., and Don Deekelman of Chicago. The four met each other when the Evans were in California to see their son Murlin Joe. The boys were together at Camp Pendleton. Jack and Don have received their service discharges and visited here enroute to their homes.

Mr. and Mrs. Earl Cole returned Monday night from a car trip through eight states — Louisiana, Mississippi, Alabama, Georgia, North Carolina, Tennessee, Virginia and Arkansas. At Jackson, Miss., they visited his brother and family, the Clyde Coles, who joined them on the rest of the trip in their own car. They stopped with relatives in Kingsport, Tenn., enjoyed the Smoky Mountains and other sight-seeing.

Mrs. Mayme McMahon and daughter Katherine of Kilgore visited the Edd McGannons Thursday and Friday.

CDA Members Will Appear in Comedy

Members of the local court Catholic Daughters of America will appear in a comedy, "Clubbing a Husband," in the near future. They made arrangements for the benefit presentation at a meeting Friday night and are awaiting the arrival of the play books. The cast has not been announced.

Mrs. Herman Fette, vice grand regent, conducted the meeting in the absence of Mrs. John Mosman, and after adjournment she and Mrs. Dan Luke served cold drinks and snacks to those present.

Wheat Referendum July 20 to Decide '57 Prices, Quotas

COLLEGE STATION — How wheat farmers vote in the July 20 referendum on wheat marketing quotas will actually affect only two parts of the 1957 wheat program, according to R. G. Shrauner, Chairman of the State Agricultural Stabilization and Conservation Committee. Whether or not quotas are approved, acreage allotments will remain in effect for the crop, the chairman declared.

The two points at issue in the vote are (1) whether marketing quotas shall be in effect, with penalties on "excess" wheat from farms (with more than 15 acres of wheat harvested as grain) not in compliance with the acreage allotment; and (2) the level of price support available to those who comply with their farm acreage allotments.

If quotas are approved by at least two-thirds of those who vote in the referendum, the quotas and penalties for excess production will be in effect, and price support on the crop will be available at a level between 75 and 90 percent of parity to those who comply with the farm wheat

allotments. If more than one-third of the voters disapprove the quotas, there will be no marketing quotas and no penalties for excess production, and the available price support will drop to 50 percent of parity, as provided by law.

Whether or not quotas are in effect, acreage allotments will remain in effect for the 1957 wheat crop.

Chairman Shrauner explained that wheat marketing quotas and acreage allotments operate only in commercial wheat States, including Texas. Since the quotas affect only those growers in the commercial area who will have more than 15 acres of wheat for harvest as grain on a farm in 1957, these growers are the only ones eligible to vote in the referendum.

A Look Backward

History is always interesting — and sometimes it makes sad reading.

Take, for instance, the history of the individual income tax. In 1929, the tax on a \$2,000 income was \$2 — and for a married person with two children and a \$10,000 income it was a mere \$40.

Now the tax begins at 20 per

cent, on the lowest taxable income levels. From there it goes swiftly up the ladder, reaching 91 per cent at the top.

It's no wonder that people still talk, wistfully and nostalgically, of the good old days. Who dares to predict what taxes will be 25 years hence, with government functions being expanded like the proverbial green bay tree?

Professor: This exam will be conducted on the honor system. Please take seats three spaces apart in alternate rows.

Local News BRIEFS

Mr. and Mrs. Allen Hoffman of Wichita Falls were here Friday night through Sunday to

visit his mother, Mrs. John Hoffman. Sunday they helped her celebrate her birthday. Joining them for dinner were Mr. and Mrs. Earle Otto and Elaine. Allen is going to summer school at Midwestern University. This will enable him to be graduated next May.

Mr. and Mrs. J. B. Golden and daughters drove to Dallas Sun-

day to visit his brother and family, the R. P. Golden. Lawrence Roberg went with them and spent the time with his wife and Billy Frank at Baylor Hospital.

Mr. and Mrs. Joe Schroeder and four sons of Windthorst spent a few days of this week visiting her parents, the John Knabes and family.

friends, Donald was on vacation from duties at the NTPA milk plant.

Mr. and Mrs. Harold Cooke and children Nancy and Don II came Saturday for a weekend visit with his parents, the Don C. Cookes. The children stayed for a longer visit and enrolled in the Vacation Bible School here at the Baptist church this week.

32 Muenster Girl Scouts, Brownies Attend Day Camp

Thirty-two Muenster Girl Scouts and Brownies are among the 260 girls of Cooke county attending Day Camp at Camp Myers. Camp sessions opened Monday, June 25, and conclude this Friday.

The local group is accompanied by Mrs. Walter Rawley, Brownie leader, every day. They make the trip in a school bus leaving about 8 a.m. and returning around 2:30.

Each day at camp opens with a flag raising ceremony and pledge of allegiance. Then the girls are divided into groups for varied out-door activity. Some "keep house" at camp, taking turns with the duties of the homes they create in the woods; other groups walk the trail, learning about different types of trees, wild flowers and shrubs; all have nature study and learn crafts; they bring their lunches from home and enjoy picnic meals.

A special event of this Thursday night is an open house for parents and friends. A program, around a camp fire, is on the schedule.

Mrs. Peter Robison of Gainesville is head camp director this year with Mrs. George Villers, also of Gainesville, serving as assistant director. There are 32 leaders and counselors. Miss Kate Donham of Denton, executive director of the Cross Timbers council, was present for opening day.

Muenster's group consists of 21 Girl Scouts and 11 Brownies.

County 4-H Rally Will Replace Camp Session This Month

An all-county rally for 4-H Club boys and girls is scheduled for July 31. It will be a day-long event beginning in the morning and ending after a night program. The rally will replace the usual summer encampment at Lake Trinidad.

Camp at Trinidad was taken off the summer schedule because too few parents expressed intention to attend as leaders and supervisors it was reported.

Plans for the rally are being worked out and a complete program will be announced later. The all-day session will be held at Leonard Park beginning with a swim party. Four-H clubbers will bring a sack lunch for a noon picnic, will spend the afternoon in business and recreational sessions and will conclude with a night program featuring a chuck wagon supper, if it can be arranged. Parents are being urged to join the youngsters for the closing event. A small charge will be made.

CARD OF THANKS

My family joins me in these expressions of thanks and appreciation for the help and many kindnesses since my accident on May 21 . . . for the greeting cards, flowers, visits, and prayers. Special thanks to the Benedictine Sisters and the pastors, especially Father Louis.

John A. Rohmer

LuRena Wolf, Lorene Sicking and Patsy Horn joined the Sherman CYC group Sunday evening for an outing at Burns Run, Lake Texoma. The event featured a hay ride and a wiener roast. About 20 Sherman young people and their adult leader were in the party. Mr. and Mrs. Lou Wolf and Charlotte took the three local girls to Sherman where they boarded the hay truck. The Wolfs also went to Burns Run for an outing of their own, then brought LuRena, Lorene and Patsy back to Muenster.

Mr. and Mrs. Donald Endres and children returned Friday from a four-day visit in Hereford with the Frank Walterscheids and other relatives and

In Chicago at FHA Session This Week

Margaret Milner, Muenster High FHA member, Mrs. H. H. Homsley faculty adviser, and Mr. Homsley left Sunday from Gainesville on a special train made up of five cars of Texas delegates and their sponsors to attend the national convention of Future Homemakers of America in Chicago.

The four day convention includes meetings, outstanding speakers, tours of the city, a fire works display on July 4, a banquet and other entertainment. The Muenster trio will return home Saturday.

happy vacations begin in a Chevy

America's largest selling car—2 million more owners than any other make!

You'll love to travel in it, because it loves to travel! When you get this Chevrolet out on the road, you'll want to keep going—and so will the whole family.

Of course, even in a Chevy the happiest vacations may involve one or two minor problems. Like fidgety small fry who want gallons of water and keep asking if you're almost there. The big things, though, are well taken care of by this roomy Chevrolet's smooth and easy way of going.

The fact is, few cars at any price hold the road with a Chevy's grace. That idea about the best riding cars

being great oversized affairs went out with the introduction of Chevrolet's outrigger rear springing and low, precisely balanced chassis design. With horsepower up to 225, the Chevrolet moves out like a whiplash, for safer passing. And with it you've always got that solid feeling of stability.

It's no wonder that many people who used to buy higher priced cars are changing to Chevy! Stop by for a ride.

AIR CONDITIONING—TEMPERATURES MADE TO ORDER—AT NEW LOW COST. LET US DEMONSTRATE!

Marysville News

By Mrs. Herman Richey

MARYSVILLE, July 3 — Rev. and Mrs. Bob May of Dallas visited Mr. and Mrs. J. N. Shaw Saturday.

Freddie Kay Duffey and Linda Sue Richey of Fort Worth spent several days of the week with the former's grandparents, Mr. and Mrs. Reeve Cooke. Mrs. S. L. Duffey and son Larry and Mrs. Horace Richey came here to take the girls home and Larry remained for a vacation visit. Other visitors in the Cooke home Sunday were Rev. and Mrs. Howard Bigham and Mr. and Mrs. Charlie Luster.

Mr. and Mrs. Coye Fite and daughter Kathy of Ringgold and Mr. and Mrs. Hulen Turrentine and sons Charles and Mike of Stoneburg visited the John Richeys Sunday.

Mr. and Mrs. E. W. Young and daughter Mary Ann of Hereford and Mrs. Virgil Young of Fort Worth visited the Jess Davisons Sunday. Other visitors in the Davison home Monday were Mr. and Mrs. R. B. Turner and Joe and Johnny of Lovington, N.M.

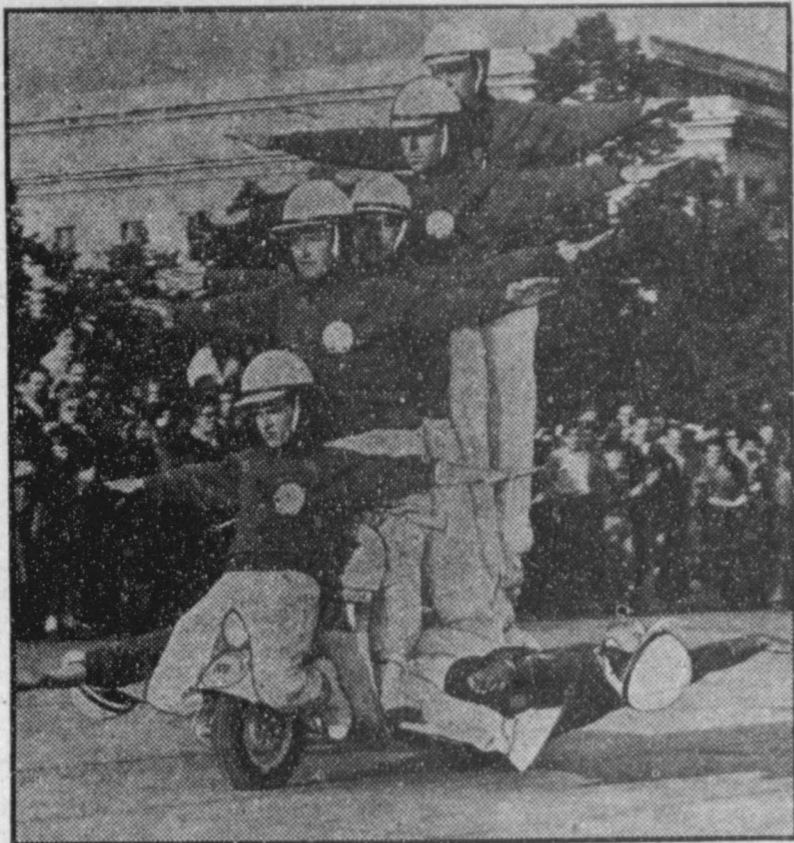

Mr. and Mrs. Bill Moon had as guests Monday Mrs. Frank Wilson of Snyder and Mr. and Mrs. Roy Goodman and son of Fort Worth.

Relatives from here attending funeral services for O. A. Ballinger at Sulphur, Okla., Friday were Mrs. John Richey, Joe Wyatt, Mrs. Sam Sparkman, V. M. Ramsey and Elton Ballinger.

The John Richeys, the Robert Richeys and family and the Bill Moons attended the rodeo in Marietta, Okla., Saturday.

A young man who had just rushed out and said — "Here I am, world; I have an A.B.!"

World — "Sit down, son, and received his degree from college I'll teach you the rest of the alphabet."

LOOK, MA, NO HANDS—It's "Oh, dear, who's gonna steer?" as a pyramid of 14 extended arms glides through Munich, Germany. The men are members of the Vespa Club, of Pisa, Italy. They demonstrated their acrobatics on wheels during an all-Europe Vespa meeting in the German city.

Vacation Classes End at Marysville

Vacation Bible School ended at the Marysville Baptist church Sunday evening with a commencement program. Twenty children and their adult leaders participated. Mrs. Earl Robison was in charge.

The school had been conducted for a week with Mrs. J. T. Cole as superintendent, Mrs. Earl Robison as junior class teacher and Mrs. Rafe McElreath as primary class instructor. Deanna Richey was secretary.

Parents and friends attended the closing program. It included a salute to the American flag, the Christian flag and the Bible, the group singing of the National Anthem and Onward Christian Soldiers, naming of the books of the Bible, a display of handwork, and a vocal duet by Linda Whitt and Jimmy Robison.

Soil Bank Forms Now Available at County ASC Office

COLLEGE STATION — The County ASC Office now has copies of the Soil Bank Acreage Reserve agreements available for signature by farmers wishing to participate in the program, according to R. G. Shrauner, Chairman of the State Agricultural Stabilization and Conservation Committee. A short visit to the county office will provide interested farmers with full information on terms and conditions of participation in the Acreage Reserve, which is the first part of the program to get underway this year.

"Growers interested in taking part in the Acreage Reserve have until July 20 to sign the Soil Bank agreements, designating the acreage of wheat (or other "basic" crop) which they wish to include under the Reserve," Chairman Shrauner states.

A wheat grower who wishes to participate in the Acreage Reserve this year, the Chairman explained, first must have complied with all allotments set for his farm. However, any farm may produce one acre of peanuts without becoming ineligible for Acreage Reserve. If he can meet this condition, he then has three or four opportunities for earning payments on 1956 crops.

Such a farmer may earn payments either by underplanting, by crop loss through weather

conditions or other natural causes, or by plowing or cutting a portion of the crop to reduce the acreage below the allotment. Certain conditions for eligibility are attached to all the methods of qualifying for the Acreage Reserve. Payments per bushel vary with counties but will be based on county rate times the normal or the appraised yield, according to the method of qualifying.

Payments for underplanting winter wheat, seeded last fall for harvest in 1956, may be made only if the farmer underplanted his farm wheat allotment be-

cause of adverse weather conditions. The rate for this practice is \$4 per acre.

Joe Moster is on a ten-day vacation from his work with the city water department.

Tax Penalizes Ambition
Suppose an employer said to his employees, "I want you to work overtime, but I'll pay you only half the regular rate." Or a company said to its salesmen, "Make more sales — but on all sales over your quota, you'll get a lower rate of commission."

Doesn't make sense, does it? But the high and discriminatory progressive rates of the income tax do just that in effect — put a penalty on a man's ambition, hard work and success as he strives up the ladder.

The progressive rates of the surtaxes increase with particular severity over the middle income range. At \$4,000 of taxable income, the earner begins paying 26c of each additional dollar to the government. At \$8,000 he gets socked with 34%; at \$16,000 he gets a real sock when the government begins to take half of all his additional earnings — and it goes on up from there to the top tax rate of 91%!

Something can — and must — be done about such unfair tax discrimination!

Best way to cure women of most illness is to tell them their symptoms are just a sign of old age.

Good Records Will Help Get Refunds On Federal Gas Tax

COLLEGE STATION — Good records will make the job of preparing a claim for a refund on gasoline used on the farm easier, and the farm tractor a more efficient production tool, says W. L. Ulich, extension agricultural engineer. Farmers are now eligible to ask for a refund covering the 2-cent per gallon Federal excise tax.

To get a refund, a farmer must file after June 30 and before October 1, a claim with the District Director of Internal Revenue covering the gasoline used during the first six months of the year. After 1956 refunds will be made for a one-year period from July 1 to June 30.

Refunds, explains Ulich, will be made only on gasoline used on a farm for farming purposes. They will not include gasoline used in cars or trucks used on the highways even though on farm business. The recently enacted law also applies to diesel and motor fuels.

The claims must be filed on Form 2240 which will be available after June 1 from county agents, banks, post offices and Internal Revenue offices.

The Unforgivable

In mid-April the Associated Press carried this report from its Berlin Bureau: "A school teacher in Communist East Germany has been sentenced to eight years in jail for taking his pupils to allied West Berlin and showing them the well-fitted stores."

This is more than just another example of communist tyranny, oppression and savagery. The action taken was not only natur-

al but inevitable — when viewed in the light of communist policies and necessities. The school-teacher in question exposed 29 young people to the contamination of the West Berlin stores. And he thus created 29 prospective doubters of the communist ideology and communist claims of achievement on behalf of the masses of the people.

Mr. and Mrs. Clem Hermes and daughter Mrs. Gregory Hundt and Theo Rauschuber spent last week in San Antonio. They attended the wedding of Mrs. Hermes' niece Marie Bukowski to Don Maddox, visited relatives and friends and attended religious ceremonies at Our Lady of the Lake Convent. Sister Josephine Elise and Mr. Hermes' sister, Sister Marcella, are at the convent.

Joe Bezner Jr., Gregory Hundt and Nick Block attended the meeting of the National Council of Catholic Men in Dallas Saturday and Sunday.

Mr. and Mrs. Francis Dieter of Dallas visited Friday and overnight with her parents, Mr. and Mrs. Joe Hundt.

Mr. and Mrs. Joe Bengfort, their son Leonard and their daughters Mrs. Charles Stoffels, Stella and Dorothy have returned from San Antonio where they visited their daughter and sister, Sister Josephine Elise. They also visited with Mrs. Bengfort's sister, Sister Marcella. Sister Josephine Elise made her perpetual vows on June 22.

Mr. and Mrs. Paul Arendt Sr. spent Friday and Saturday in Lawton, Okla., with their son Ernest and his wife, Ernest, a first sergeant at Fort Sill, is convalescing at home now from an illness that confined him to the base hospital for two weeks.

Mr. and Mrs. W. B. Parker of Dallas vacationed here during the weeks with her brothers, Joe and Russ Linn.

Doris Krebs Bride Of Henry-Kuhn Jr. In Tuesday Nuptial

—Boyd and Breeding Photo

Doris Krebs, daughter of Mr. and Mrs. Frank Krebs Sr., old Denton Road, Gainesville, became the bride of Henry Kuhn Jr., son of Mr. and Mrs. Henry F. Kuhn of Lindsay, during a nuptial mass in St. Mary's church with Rev. E. J. Gerlich, pastor, officiating.

Wedding music was presented by Ann Gallagher, organist, and St. Mary's senior choir.

The bride, given in marriage by her father, wore a rosepoint chantilly lace dress over satin. It was designed with a moulded bodice, scalloped portrait neckline, long sleeves and voluminous skirt with a chapel length train. Her veil of illusion was fingertip length and she carried a white orchid and stephanotis on a white prayerbook with a rosary. These were gifts from her godparents, Mr. and Mrs. Joe Zipper of Dallas.

Attending the bride were her niece, Carolyn Hoedebeck of Dallas, as maid of honor and the groom's sister Linda Kuhn as bridesmaid. They wore ballerina length dresses of periwinkle blue lace and net and carried red carnations. Vicki Kuhn, another sister of the groom, also dressed in blue, was flower girl, and Larry Wolf, nephew of the bride, was ring-bearer.

Melvin Kuhn was his brother's best man and Jerry Hoedebeck of Dallas, nephew of the bride, was groomsman. Henry Popp and Leon Krebs were ushers.

A reception was held in the Lindsay hall where the bride's colors of white and blue were used in decorations. Dorothy Luttmr and Patricia Neil served the wedding cake. Mrs. Henry Popp and Rita Block registered the guests. A dance followed.

The couple's wedding trip took them to Miami, Fla. The bride wore a two-piece blue rayon dress with red and white accessories. They will make their home in Duncan, Okla., where he is employed as a carpenter. He attended school in Muenster and Lindsay and served in the army two years. Mrs. Kuhn attended St. Mary's school and was graduated from Gainesville High school in 1953. She has been employed at Chad and Pulte in the

John E. Huddleston Myra Resident, Dies Thursday Morning

John Edward Huddleston, a Myra resident for 46 years, died Thursday morning at 4:25 in a Gainesville hospital following a four months' illness of leukemia. He was 59.

Funeral services are pending at Vernie Keel Funeral Home.

Survivors are his wife, the former Mary Florence York; three daughters, Mrs. Maggie Mathews, Mrs. Dorothy Black and Mrs. Marcie Hall, and one son, Jake Huddleston, all of Myra; 16 grandchildren; one sister, Mrs. Maggie Boggs of Myra; two brothers, Jess Huddleston of Turkey and Louis Huddleston of McKinney, and a half-sister, Mrs. J. F. Brown of Fort Worth.

Sewer - - -

which pumps it to the lagoon. Solids go to another tank for bacteria treatment, and the liquid resulting from completion of the bacteria cycle is periodically drained into the liquid tank, chlorinated and pumped to the lagoon.

The really important feature in the system is the large lagoon, which puts the finishing touch on the treating process. It receives the liquid which formerly drained into the creek, and, because of the better primary treatment, the liquid it receives is better conditioned than that which used to drain into the creek.

The total lagoon area of about eight acres is divided into two separate pools, which employ nature's way of continuing the purifying process. Liquid coming into it goes first into a metal tank and spills over the sides . . . for additional air treatment, to freshen it for plant and bacteria processing in the pool.

Typical pond and lake vegetation and bacteria will do the job there. Algae is already evident and water vegetation, including water lilies, will be established soon. The vegetation and bacteria will purify the water by feeding on its contents.

When the first lagoon fills to a level of three feet water will begin flowing into the second lagoon, where more vegetation will continue the purifying job. Fish will be stocked in that pool to help along when it reaches an adequate level. Finally, when the second lagoon fills to three feet it will begin draining into the creek. By that time it is estimated, the former sewage will be as clean as the average water flowing down a creek channel.

Water Superintendent Steve Mosler declined to estimate when the lagoon would start draining into the creek. He pointed out, however, that ten days of drain-

bookkeeping department.

Out of town guests at the wedding included Mr. and Mrs. Dillard Krebs and family of Downey, Calif., and Mr. and Mrs. Joe Zipper of Dallas.

age looked like a mere puddle in the first lagoon. Much of the water will seep away, he said, and more will evaporate. He also mentioned that the lagoons will hold about 8 million gallons of water and the present rate of drainage into them is about 100,000 gallons a day. With no seepage or evaporation they would require nearly 3 months to fill up. In other words, he pointed out, the sewage is treated by nature for more than 90 days before it goes into the creek.

Banks protect the lagoon on all sides to prevent the drainage of rain water into it. Only the rain which falls in will affect the level of the water. However, it could be affected by a severe flood.

The sewer plant, designed by Reeves and Gregory, engineers of Fort Worth, and built by Clyde Smith, Austin contractor, was financed jointly by the City of Muenster and North Texas Producers Association. The city's original plan was to build a system which would meet its anticipated need for years to come. At the request of NTPA the plant was enlarged to handle the milk plant's waste also, and the company paid the additional cost.

The city's part of the expense was financed by a bond issue which was approved by an election in 1954.

Confetti - - -

age limit for drivers. A couple of teen agers wrote him about the article and asked him to withdraw the statement. He said "Okay, let's make it 20," and agreed to relent more in cases of kids who could pass his suggested driver's test.

Thinking that some parents hereabouts might be interested, here are the questions that make up his list.

1. Has the lawn been mowed?
2. Where you going?
3. Who you going with?
4. Do you have your money for gas?
5. Do you know how to fix a flat tire or repair the car yourself?
6. Have you washed the car this week?
7. Have you waxed the car this month?
8. Is your homework done?
9. Are your shoes shined, your nails clean and do you have a handkerchief in your pocket?
10. Is this trip necessary?

Maybe the man has something there. If those qualifications were generally required teen age driving would cause fewer worries.

CLASSY GAS SAVER—World motorcycle racing champion H. P. Mueller holds up a measure with a little more than a quart of gasoline—the amount he needs for each test run of the new, streamlined German NSU racer. That small amount of fuel took the vehicle 100 kilometers (about 60 miles) at a speed of 100 kilometers per hour in an initial test. Top speed by Mueller in his "racing chair" was about 90 miles per hour. During the special run, Mueller was lying almost flat on his back in the machine.
