FFA Boys to Show Livestock Projects Next Week Friday

Judging by the interest shown generally, a person would scarcely think that Texas will have an important election less than two weeks from now. Little is being said by the public, and little of what the candidates themselves say is being emphasized in the press or on the air.

Still, the election is mighty important. By our choice we may determine the course our nation will take later on some very important issues. Our new senator's vote may decide whether we will have more or less government spending, a soft or a firm policy toward reds and pinks, a trend toward free enterprise or socialism.

As we look over the field of candidates one fact stands out immediately. Though there are many on the ballot there are only a few real contenders. Those few should have our close attention regardless of how partial we should happen to be toward one of the minor candidates. It's better to support the second choice man who has a chance than to waste a vote.

Applying that system, conservatives would do well to concentrate their support on Martin Dies, the man who's not only worthy and capable but also the acknowledged man-in-front of the conservative element. It's smart to vote for him because a vote for some other conservative is in effect an indirect vote for the leading liberal.

Besides being good politics it's good statesmanship. Dies, more than any other candidate in the race, has proved his merit by a good record in the past. As chairman of the un-American Activities Committee during an era when few understood the nature of communism, he had the principle and courage to put up a fight even while he was ridiculed by the Washington, wise guys. Events since then have proven that he was entirely correct. Present events also reveal that communism is still very much a threat in our national life. There's no room for doubt that he has the principles and ability to give us the best service in facing the greatest threat of our time.

As regards other qualifications it is sufficient to say that he is capable and conservative. He's a man we can trust to think and act according to traditional American principles instead of drifting with the socialists and gimme-crats.

If you are a property owner in Muenster you are certain to be interested in changes which the city council is considering for its taxing system. The idea in general is to assess according to space rather than value.

The reason is that it's practically impossible to equalize taxes according to the present method. The basis of taxing is the value claimed by the owners themselves, not a fixed standard. Differences of opinion, along with varying degrees of deliberate effort to hold the tax bill down result in considerable differences of rendition. Nor are the differences ironed out by equalization boards. Gross discrepancies may be partially adjusted but actual equalizing is almost impossible.

The proposal to render according to measurement seems to offer the answer to problems that have stumped us for years. Of course a few other factors have to be figured in. Obviously a lot in the heart of town is worth more than one at the outer edge. Type and age of structure might also be considered.

The important thing is to establish a set of standards so that tax assessing will be based on definite figures rather than on arbitrary guesses. The idea has unquestionable merit and the city council should by all means keep figuring on a set of standards to be used here.

Tigers Will Play 5 Baseball Games

Five baseball games are on schedule this year for the Tigers of Sacred Heart High, according to an announcement this week by Father Christopher Paladino. The team will play a three out of five series with Laneri to determine the district champ of the Southwest Academic League. Windthorst will be the opponent in the other two games.

Dates for the Laneri games are April 5 and 26 here and April 10 in Fort Worth. Dates for the Windthorst games have not been decided.

City Development Addresses Booked For Lions Meetings

Lions of Muenster and their guests will have an opportunity to hear two experts on community development at their next two meetings. H. H. Homsley, president of the club announced Wednesday that Truett Smith, banker of Wylie, will address the club on April 2 and Frank Heiling of the MK&T industrial division will talk here on April 16.

Homsley met the men and invited them when he attended the TP&L area workshop at Sherman last week.

All Lions are urged to bring guests to the two meetings, if possible to have a complete representation of the town's business firms.

H. Schmitz Recalls Over 50 Years at Blacksmith Trade

Fifty three years at the anvil and forge, forty nine of them in Muenster, that is the record of H. M. Schmitz, the man who has been local blacksmith so long that only the old timers can remember when he was not on the job.

Henry is still willing and able to swing the hammer and he still gets his share of metal repair work. But times have changed considerably since that Washington's Birthday in 1904 when the young man, at the age of 17 years and 10 months, hired out to J. B. Beckle of Era to learn the blacksmith trade.

Bread and butter business then was horseshoeing. That consisted of trimming a horse's four hoofs, shaping shoes to fit them and nailing the shoes on . . . for the sum of \$1.00. If the horse got only a re-trim job with the old shoes being replaced the charge was 50 cents.

The blacksmith's net on a shoeing job, after figuring shoes, nails, tools, fuel, etc., was near 40 cents. That wasn't so bad for gentle horses, considering that two of them could be shod in an hour, but it was mighty small pay for working on fidgety or mean horses. Schmitz's record for shoeing was 24 horses, all fairly easy to manage, in a 14 hour day. The 14 hour day, he added, was not unusual. A man normally worked 12 to 16 hours, depending on how much work was waiting to be done.

Schmitz also claims a record for nailing on fitted horse shoes. Some local fellows showed him a newspaper clipping about a blacksmith who attached the fitted shoes on trimmed hoofs using 7 nails to each hoof. The time given was 3 minutes 54 seconds. Next time he got a gentle horse he timed himself. He used 8 nails per hoof and beat the other time by 22 seconds.

Times have changed a lot since he got started early in the century. (Continued on Page 8)

NEWS OF SICK AND INJURED

Elizabeth Herr underwent surgery at Gainesville Sanitarium Saturday morning and is making normal progress toward recovery. She is convalescing at home but won't return to her work at the Muenster Telephone Company office for some time.

Mrs. Henry Felderhoff is recovering satisfactorily from an operation performed at Gainesville Sanitarium Saturday evening and expects to be back at home this weekend.

Janie Vogel has recovered and is back at classes in the sixth grade at the parochial school after receiving medical care at Gainesville Sanitarium.

Medical patients admitted to Gainesville Sanitarium Tuesday include Mrs. Eugene Schmitz, Mrs. W. R. Linn and Mary Jane Knauf of Muenster and Ed Moser of Rt. 6, Gainesville.

Debra Hermes, 3, daughter of Mr. and Mrs. C. W. Hermes, route 6, Gainesville, had her adenoids removed at Gainesville Sanitarium Saturday.

Kathy Hoedebeck, 5, daughter of the Leo Hoedebecks, underwent a tonsillectomy at Gainesville Sanitarium Friday.

Co-op Sets April 2 For Annual Meet

Members of the Cooke County Electric Cooperative will have their annual general meeting in the Muenster Public School on Tuesday, April 2, starting at 8 p.m., according to the official notice being mailed out this week to the more than 3000 persons making up the association's member-customer list.

Purpose of the meeting is to present reports on the past year's operation, to elect two directors, and to consider other business which may be introduced.

Candidates named by the nominating committee for the two positions on the board are J. A. Klement of Muenster and Doye Doty of Valley View, both currently completing a three year term. Theirs were the only names submitted in time for printing on the ballot, however other nominations can be made at the meeting.

After the business session the association will have its annual drawing for attendance prizes. The list of prizes this year includes about 25 items with a total retail value of more than \$500.

J. A. Klement, president of the co-op will be chairman of the meeting. On the program besides the business session are an invocation by Father Patrick Hannon, a welcome by Mayor Urban Endres and music by the Texas Swingers.

MHS Students are Guests of PTA at All-Awards Dinner

All Muenster High School students who have received or will receive awards during this school year will be guests next Sunday night at an all-awards banquet sponsored by the PTA. Groups to be recognized are the football team, boys' and girls' basketball teams, the track team and members of the band and pep squad.

Bud Sherman, TV sportscaster on Channel 5 will be the speaker and Superintendent Homsley will be master of ceremonies. Elementary pupils are not included in the party even though they are on the band or pep squad. They will be invited to a similar all-awards banquet for the grade school kids.

Pitches On Army Team

Pvt. Willie Walterscheid is one of 18 picked from among 50 of his 40th army infantry division to play baseball for Fort Carson, Colo. He is the only pitcher for his team. They were to have played Colorado College as the season's opener but the game was postponed on account of bad weather. Willie was pitcher for the Sacred Heart Tigers during the 1954-55 season.

Moisture Ideal but Frequency of Rain Delays Field Work

Rains on Sunday and Wednesday of this week, added more than another inch of moisture to local soil, which was already in excellent condition. The official measure was .42 on Monday and .98 on Thursday.

In sharp contrast with the predicament of a few months ago, many local farmers now face a new problem. Frequency of the recent showers have kept them off the land when they would like to be doing spring planting.

As regards the total volume of moisture, however, the condition is ideal. Surface moisture is fine and sub soil moisture is improving. Grain crops, alfalfa fields and pastures all are thriving.

Up to now the total rainfall for the year is 6.83 inches and the measure for March 2.61. The total since October, when the long dry spell started breaking up, is 14.36 inches.

The community's 10 year rainfall record reads as follows.

Farmers Here Save \$20,000 on Reduced Freight Rate on Hay

Reduced rates on hay shipments arriving here by rail saved farmers of Muenster almost \$20,000 between October 15 and February 28, according to an estimate reported this week by Paul Luke, local MK&T agent.

Luke said that 92 car loads of hay were received here during the four and a half month period on the 50 per cent reduced rate offered by Western Railroads. He estimated that the average rate was about \$12 per ton and the average load per car was 16 to 18 tons for an average charge of more than \$200 . . . and a saving of exactly the same amount.

Principal sources of the hay received here were Wisconsin, Minnesota, North Dakota, South Dakota, Idaho, Nevada, Nebraska and California.

Local Entries Lag In District Meet

Students of the Muenster Public School apparently are out of the running in this year's Interscholastic League district meet.

Known results of the literary events at Sanger last Friday show three second places and three third places for the Muenster entries. Scores on spelling and ready writing, which had to await grading of papers, were not received here up to Wednesday.

Muenster students who scored in the competition were Lou Rena Wolf and Helen Fisher, second in shorthand; Janice Klement, second in poetry reading; Donnie Vogel, second in 5th and 6th spelling; Donnie Trubench, third in poetry reading; Wylie Lewis, third in boys' extemporaneous speech; Lou Rena Wolf, third in girls' extemporaneous speech.

The previous week Muenster's junior boys won second in volleyball.

Tennis playoffs will be conducted mostly this week and the method will be an elimination schedule similar to that followed in volleyball. Muenster's opponent in all the preliminaries will be Callisburg, some games to be played here, some there. Winners in each match will then advance to semifinals.

Also scheduled for this week is the district track and field meet at NTSC in Denton. Muenster will be represented by a four member team consisting of Hubert Richey, James Wolf, Dee Kaderli and Dan Hamric.

Antone Wolf, 84, of Windthorst Passes

Antone Wolf, 84, retired farmer and stockman of Windthorst, died at 8:35 p.m. Monday in a Wichita Falls hospital. He had lived at Windthorst for 41 years.

Funeral services were held Wednesday at 10 a.m. in St. Mary's church at Windthorst with the pastor, Rev. Cyril Lange, officiating at the requiem high mass and at burial in the parish cemetery.

Rosary was recited Tuesday night in the home of a son, Ted Wolf, where the body remained until the funeral.

Mr. Wolf leaves five other sons, Adam of Gainesville, Antone Jr., Mike, Henry and Sylvester, all of Windthorst; three daughters, Mrs. Leo Huff, Mrs. A. J. Berend and Mrs. A. P. Veith, all of Windthorst; 54 grandchildren, 83 great-grandchildren, and a sister, Mrs. Will Coker of Grand Prairie.

He was born in Germany on March 4, 1873, and came to the United States when he was 11 years old.

SAL Picks 3 Tigers On All-State Teams

Three Sacred Heart Tigers have been named on the Southwest Academic League all-state football team for 1956. Reports of the selections were received by Father Christopher Paladino last week following a meeting of the SAL district representatives.

Frank Fleitman was named on the all-state first team and Howard Mollenkopf and Jere Friske were named on the second team. Members of the all state teams were named from the all district selections.

Pete Campbell, Laneri coach, represented the North Texas District at the state meeting and reported the selections to Father Christopher.

Council Considers Zoning Regulation, New Tax Method

Zoning regulations stand out as a definite possibility for Muenster following discussions by members of the city council at their regular meeting Monday night. No action was taken at the meeting, however the councilmen agreed that some action is necessary and should be taken at the earliest convenient date.

The council's object is to protect the rights of people who are already established in a location. It would, for instance, prevent a noisy or smoky industry from setting up in a residential area. It would also require certain standards of home building in certain zones . . . to prevent a depressing effect on property values to either side if a sub-standard house is built or moved in.

Another problem under consideration is the local tax system. Council members are showing an interest in a method which bases assessments on measurements rather than on the value declared by the owner. Rates on the unit of measurement would vary in different areas of the town.

The most appealing feature of the method, according to Mayor Endres, is that it eliminates the present inequality in taxing. All assessments would be made by a definite formula instead of according to the renditions of property owners. The system is being used satisfactorily in several cities of Texas.

St. Joseph's Society Re-elects Officers

All officers of Saint Joseph's Society were re-elected for another year Tuesday night at the organization's annual election. They are President Ed Endres, Vice President Ed Pels, Secretary Alvin Hartman, and Treasurer Al Hess.

Also re-appointed for another year by the president was the entertainment committee consisting of Norbert Koesler, Martin Bayer, Eugene Klement and Alfred Bayer.

Nick Block of Lindsay, president of the North Texas District of the Catholic State League, was a guest at the meeting and discussed with members the district convention which Muenster will host on May 5.

Another discussion was on erection of new mass schedule signs on the highway entering Muenster from both the east and the west.

Rev. Christopher Paladino, spiritual director, led the opening and closing prayer. In a short address he emphasized the need of active parish societies and complimented the men on their achievements.

In observance of the feast day of their patron, society members attended the 8:15 a.m. mass and received the Eucharist in a body. Afterwards they were guests at a communion breakfast in the parish lunch room. About 50 were present for the breakfast and again at night for the meeting.

Stolen Car Found At Wichita Falls

Joe Felderhoff's car, stolen last Saturday morning in Saint Jo was recovered Thursday morning in Wichita Falls. He received a report then through the sheriff's department that the vehicle had been found by Wichita Falls police and that some parts of it were missing.

The car, a '51 Chevrolet, was stolen from Kyle Waggoner's service station between midnight and 6 a.m. Felderhoff had left it parked there at midnight when he drove to an oil rig with another worker. The next morning at 6, when Waggoner opened the station, the car was gone.

SCHEDULE OF COMING EVENTS

SATURDAY, March 23, MHS senior bake sale at Fisher's Market.

MONDAY, March 25, Polio immunization shots at Muenster Clinic.

MONDAY, March 25, Band benefit pie auction and ice cream supper, MHS lunch room, 7:30 p.m.

MONDAY, March 25, Home-School Society meeting, 8 p.m.

Local News BRIEFS

Dr. T. S. Myrick attended Monday and Tuesday meetings of the Southern Clinical Association in Dallas.

The Joe Galloways and daughter Johann of Fort Worth visited during the weekend with her parents, the John Fishers.

Mrs. Ray Owen, Mrs. Herbert Cunningham, Mrs. Jim Hermes and Caroline Hesse were Fort Worth visitors Saturday and brought Georgia Ann Owen back with them for a visit here through Sunday.

Mr. and Mrs. Don C. Cooke returned Saturday from a three-day visit with relatives in Garland, Fort Worth and Dallas. In Garland Thursday they attended a church conference where Dr. John R. Rice, brother-in-law of Mrs. Cooke, was co-leader for the meetings. Dr. Rice brought

his family with him from Wheaton, Ill., where they live and the Cookes visited with them until Friday morning when they went to Dallas to see her brother E. F. Halliburton and family. Friday evening they drove to Fort Worth to help their son Harold and family celebrate his birthday with an evening meal and then they all attended a skating contest in which Nancy Cooke won first prize in one of the main events. Before returning to Muenster the Cookes visited her sister, Mrs. H. G. Andrews in Fort Worth.

CARD OF THANKS

Many thanks to all who remembered me with prayers, get-well cards, and other kindnesses during my illness and stay in the hospital. My family joins me in this expression of gratitude.
Mrs. Henry Wolf Jr.

MHS Senior Bake Sale Set Saturday

Seniors of Muenster High school have announced a bake sale as a class benefit next Saturday with headquarters at Fisher's Market.

As usual, the students will have a variety of home made breads and pastries with extra supplies of light bread. They expect to have a sufficient amount to keep the sale going all day but invite telephone orders by those who might not get by early and don't want to be disappointed.

Pie Auction Monday Is Band Benefit

The first in a series of MHS Band benefits is on the calendar for next Monday night. It's a pie auction and ice cream supper to be held in the school lunch room beginning at 7:30.

Band members will furnish the pie and ice cream and Dickie Cain will be auctioneer. Everybody's invited to attend.

Proceeds from the event will go into the band's travel fund to help finance the trip to Corpus Christi for a Band Festival on May 3 and 4.

One Person Killed Every 16 Minutes By Home Accident

College Station — Not many housewives would put a DANGER sign over their front door! Yet, unless more people suddenly become "safety-conscious" that sign wouldn't be a bad idea at all. Home accidents can kill! Carelessness and negligence in the home cause a death every 16 minutes and produce some disability every four minutes, reports the Texas Farm and Ranch Safety Council.

Falls are the home's greatest hazard, claiming a total of 14,000 lives annually. Burns are next in the grim order and about 5,400 people die yearly as a result of them. Poisoning and carelessness with firearms each cause slightly over 1,000 deaths a year, and almost 6,500 people annually succumb to a list of varied causes.

More children under 14 are killed by home accidents than by any single disease. Here's how to minimize the dangers to children in your home. Label all medicines and store them out of children's reach; make sure all firearms are unloaded and stored safely; keep matches and knives out of reach; and don't leave scissors, pins, and sharp tools within children's grasp.

How safe is your home? Check yourself on these questions asked by the safety council. Are too many electric appliances running from any one outlet? Are rugs kept from curling and slipping? Do you immediately wipe up water or grease spilled on the floor? Do you have a safe can opener such as the swing-away wall type? Is there a nonslip floor in the shower? Are all flammable liquids labeled and sealed?

Keep a first aid kit handy at all times. Remember — someone is hurt in the home every seven seconds.

The motor fuel in the Iwo Jima campaign would have filled a train of tank cars 238 miles long, and the lubricating oil would have filled an additional 125 box cars.

Johnie Wilson Gets New Holland Agency

Johnie Wilson of Gainesville announced this week that his implement firm has been named Grassland Farming Headquarters to handle the New Holland line of grassland machinery in Cooke County.

The 60 year old New Holland Company produced the first automatic pickup baler in 1940 and has led in grassland farm machinery development since then. Included in the line are hay balers, rakes, forage harvesters, wagons, and manure spreaders.

Grit, gumption, common sense, and horse sense are old-fashioned names for obsolete virtues.

No Strings!

For all its assorted troubles, the world is on the threshold of new freedom — from the shoe-string.

We do not mean the metaphorical shoestrings on which our favorite tycoons started great enterprises, but the literal lacing that always breaks at the wrong time, that has tripped us all at one time or another and consumed millions of man-hours and woman-hours and child-hours in relatively unproductive, exhausting and frequently exasperating toil.

Liberation is here now — at hand and at foot — in the invention for which the jet age has been waiting, the "shoe latch!"

This is a simple steel clamp that locks and unlocks at the flick of a finger. It is easily adjustable at any time, but is usually set for the life of your shoes when they are fitted. There are no parts to thread or align. The shoe latch is attached to a stout leather band that covers the instep and makes the latch invisible when pressed down.

It also makes shoes a lot prettier than those rows of old-fashioned eyelets!

The new shoe latch will be a feature of millions of pairs of shoes this spring. They are being manufactured by more than twenty of the larger shoe companies in all sizes and styles for the emancipation of all sizes and styles of people, including moth-

ers who must dress squirming infants, toddlers who want to dress themselves but can't quite manage those strings, those with middle-age spread who have a hard time reaching them, oldsters and arthritics whose fingers aren't as nimble as they used to be . . . and everybody who is in a hurry and has something better to do than twiddle.

We shall doubtless look back in some wonder that a world tied down by shoestrings could have produced the atomic reactor, the electronic computer and the guided missile. And we shall be looking back, no doubt, from the windows of our space ships or a summer resort on Mars. From here on, we should really be able to go places!

Leader For Troop 80

Brownie Troop 80, orphaned when Mrs. Walter Rawley, leader, moved to Dallas early in February, and since adopted by Mrs. Fred Savage and troop 101, is back on its own with a leader of its own. Mrs. Gene Hoedebeck has accepted leadership of the troop and will take over at next week's meeting.

For this week's meeting, the two troops had planned their

program together and will bake cookies.

At last week's meeting the two units enjoyed a "penny hike" walking all over the neighborhood in the public school area, right or left, according to the flip of a penny. Mrs. Fred Savage, leader, and assistants June Hosea, Sara Fleitman and Gayle Golden accompanied the Brownies. Ice cream bars were refreshments.

Troop 85

Brownie Troop 85 has elected officers for another month. They are Debra Ann Fette, president, and Margie Sue Fuhrmann, secretary-treasurer. At last week's meeting the girls and their leader, Mrs. W. R. Lindsay, assistant to Mrs. Hank Walterscheid, planned a tour through the local milk plant. No definite date has been set, however. This week's meeting will be a party for Candy Fette who is observing her birthday.

Troop 89

Girl Scouts of Troop 89 are working for advancement to second rank and studied this phase of scouting at their regular meeting Thursday in the home of Mrs. R. N. Fette, leader. Mrs. Lou Wolf, assistant leader, was present.

Outdoor games furnished recreation after business and group pictures were taken. Mrs. Fette served cold drinks and snacks.

Troop 86

Girl Scout Troop 86 had a social instead of a business session for the regular weekly meeting. Accompanied by Mrs. Urban Endres and Mrs. Cecil Sims, leader and assistant leader, the group went to Gainesville for a skating party. Afterwards they stopped for refreshments before returning home.

Exhibit Handwork

In observance of Girl Scout Week, members of Muenster's troops set up a display of their crafts and arts in the Variety Store window. Visitors to the exhibit saw woven pot holders, jewel boxes, painted and decal pictures made from coffee can lids, house slippers fashioned from wash rags, fancy red aprons, clothes sprinklers and other attractive and useful items made by the girls with the help of their leaders and assistant leaders.

Local News BRIEFS

Mr. and Mrs. Roman Trachta and two sons of Fort Worth were Saturday visitors here with his mother, Mrs. Anna Trachta, his sister and family, the Leo Henschels, and her father, Casper Haverkamp.

Mr. and Mrs. Joe Bernauer of Amarillo spent most of last week here with their relatives of the Miller and Bernauer families. They visited the L. W. Flusches in Decatur after leaving Muenster enroute home.

Members of the Tuesday Mers club held their regular social in the home of Mrs. Melton Ramsey with Mrs. Bill Hunt as co-hostess. Games and refreshments were enjoyed by Mmes. Fred Savage, W. R. Lindsay, J. J. Caddel, Sam Nason, Jack Tugle, J. C. Jones and the hostesses.

Mr. and Mrs. Teddy Gremminger and children Wayne and Mary of Fort Worth were weekend guests of their parents, the Ted Gremmingers and Victor Hartmans.

Mrs. Frank Seyler entertained her grandson and family, the Pat Hennigans, with a dinner in her home Sunday in observance of Pat's feast day. In the evening the Terrell Johnsons of Dallas joined them for a visit.

Mrs. Adolph Herr of Arlington spent the weekend with the Bob Swirczynski family and joined them Sunday night in attendance at the Home-School Society dinner where she visited with other friends.

Mr. and Mrs. Carl Luke of Hereford visited relatives here last Thursday and were overnight guests of her sister and family, the Joe Vogels. They were enroute to Florida on a vacation trip.

Mrs. John Hartman, Mrs. Al Walter and daughter Sandra and granddaughter Mary Jane Swirczynski spent five days of last week in Lubbock visiting Mr. and Mrs. William Karr before they moved to Denver, Colo. Mrs. Karr is the former Jeanette Walter.

Jerry Fette of Waco was a visitor here Saturday overnight and Sunday with his parents, the Henry Fettes.

The Ferd Yostens of Fort Worth report that they have just about finished a new addition to their home along with other remodeling and refinishing.

Mr. and Mrs. Henry Grewing Jr. moved to a farm a mile and a half south of Hood this week. They'll get their mail on Route 6, Gainesville, and will continue as members of Sacred Heart parish. They had been living on West Sixth Street in one of Joe Trachta's houses.

Visiting the local pastors and Sisters last Thursday were Rev. John Walbe and Rev. John Errasti and Sisters Hildegard, Christopher and Josephine, all of St. John's parish in Rhineland.

Mr. and Mrs. Bobby Howell and daughters of Fort Worth were weekend guests of her mother, Mrs. Tony Gremminger, and her sister, Mrs. Maurice Pagel and family.

Juanita Wieler of ETSTC in Commerce was here to spend the weekend with her family, the John Wieliers.

Mrs. Kenneth Cottle and three children of San Antonio were guests this week of her parents, the Joe Hoenigs, for a few days while Dr. Cottle attended a medical convention in Dallas.

Mrs. George Lutkenhaus who spent the past several months in Valley View with her daughter and family, the Henry Sandmanns, is back in Muenster. She'll spend the next several weeks with her son Gus Lutkenhaus and family and her daughter and family, the Louis Sickings.

Mrs. Norbert Knabe and children, accompanied by her brother, Clyde Muller, and their mother Mrs. Matt Muller, spent last Wednesday in Denison and Pottsboro with Mrs. Muller's sisters, Mmes. Joe and Al Schnitker.

Mr. and Mrs. Lee Voth and two little daughters of Corsicana were here Friday to visit relatives and friends.

Jerry Hoinig is working with the Muenster Telephone company crew since returning from service in the Marines.

C. W. Ratliff and son Sammy of Lubbock were here Saturday and Sunday and were accompanied back home by Mrs. Ratliff who had spent the week with her parents, the John Fettes. Mr. Fette, who has been ill, is improved. Joining his parents Sunday for a visit were Mr. and Mrs. Jim Ratliff and children of Fort Worth.

Mrs. Jack Fletcher and daughters Patricia and Sara of Carroll-

ton spent the weekend with Mr. and Mrs. J. W. Fletcher. Jack is in Odessa now where he is employed with a trucking company and his family will join him as soon as he secures living quarters.

Mrs. Eva Gottlob plans to return to her home in Azle this weekend following a five-week visit with relatives of the Miller families.

COMMUNIST DANGER INCREASING!

Not many people in the United States ever have come face to face with a person who proclaims: "I'm a Communist, I'm an enemy of the United States. I am working to undermine this nation's strength and overthrow it, and establish a Communist dictatorship backed by the Red Army." No, the Communists in America don't openly declare their true mission. And they are not like the classic picture of the radical, with beard, shaggy hair, tattered clothes and a bomb held poised in the right hand. Most of the top people in Washington were shocked when

Represented in Muenster by Mrs. Nick Miller

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation that may appear in the columns of the Enterprise will be gladly and fully corrected upon being brought to the attention of the Publisher.

Alger Hiss, a young "liberal" with aristocratic bearing and excellent social connections, was exposed as a Communist. And yet the truly important Communists in America today have built up just such a false character of respectability around themselves. It is difficult to identify them as Communists. They have wormed themselves into positions of trust in every phase of our American society. They wield great power. And yet many American citizens simply will not accept this fact.

"20 Combat Divisions" "Anyone who thinks that Communism in the United States no longer constitutes a serious menace should consider that at this moment on American soil are the equivalent of 20 combat divisions of enemy troops engaging in propaganda, espionage, subversion — and loyal only to the Soviet Union." This statement is an excerpt from the annual report of the House Committee on Un-American Activities; one of our Government's best informed agencies combating Communist subversion.

"The danger of Communism is increasing, not receding," emphasized the Committee, composed of five Democrat and four Republican Congressmen. "The United States remains the major target of Soviet aggression; indifference to the Kremlin's avowed program of global conquest can lead only to the inevitable destruction of our free institutions, and ourselves as a free nation." This new report, of the Committee's 1956 work, its findings, and its recommendations for strengthening the nation's security can be obtained by writing your Congressman.

Using Good Citizens The strategy of the "20 combat divisions of enemy troops" is the indirect attack. The Red master-minds found long ago they could not entice enough Americans with their undiluted Socialist economics and anti-God philosophy. So they quit their soap-box oratory and, in the thousands, infiltrated every activity of our economic, governmental and social life. They became influential "progressive" citizens, not advocating Communism or Socialism but gently guiding unsuspecting groups of loyal Americans into actions undermining the strength of our nation.

The Un-American Activities Committee annual report said that it had uncovered "a mammoth nationwide campaign of political subversion designed to paralyze the security programs of the executive and legislative branches of the United States Government." One of the key security agencies is the Subversive Activities Control Board which has the power to designate any Communist-front organization as subversive, when sufficient evidence is collected, and thus render it useless to the Reds.

Trickery And Deceit In underhand, roundabout ways, the Communists have been trying to destroy the Subversive Activities Control Board. The Communist Party itself openly challenged the constitutionality of the Board. Then it began to swing its hundreds of "fronts" into action, drawing thousands of non-Communists into the agitation against the Board. One of the instruments which the Reds used in an attempt to sway the Supreme Court justices was an "amici curiae" (friend of the court) brief filed with the Court. The lawyer who filed the brief told the Court that the petitioners who signed it comprise "a

A MUST!

group of prominent American citizens, none of whom is a Communist." The Un-American Activities Committee investigated and exposed this statement as "a deliberate attempt to deceive the Court." The Committee found that 26 of the signers had been identified in sworn testimony as secret Communists; that

most of the other signers had extensive Communist front affiliations. But the most important fact is that among the signers were indeed many prominent American citizens who are not Communists — permitting themselves to be used to tear down our security measures against the Communist conspiracy!

When Did Lent Start?

By Robert L. Reynolds, Managing Editor of "Jubilee"
 "WHAT ARE you giving up for Lent?" is a question that has been asked in many different tongues for over nineteen hundred years.

The practice of imitating Christ's forty-day fast in the desert—in memory of Christ's passion and death and in preparation for Easter — built up gradually from the time of the Apostles.

THE DOCUMENTS that remain to us from the earliest Christian times suggest, however, that the observance of Lent as we know it, was not universal in Christendom until about the fourth century.

At a synod, the Bishop of Alexandria, in Egypt, journeyed through Western Europe in those early days. He noted—apparently with some surprise — that the forty-day Lent was observed everywhere.

WRITING BACK to his clergy in Alexandria in 339, he urged them to "proclaim the fast of forty days to the brethren, and persuade them to fast; to the end that while all the world is fasting, we who are in Egypt should not become a laughing-stock as the only people who do not fast."

In the Middle Ages, the "truce

of God" applied during Lent, so that no wars were fought during this season. Armies interrupted their campaigns, law courts were closed, and hunting was forbidden.

THE CUSTOM of fasting goes back many centuries before the Christian era, but its religious purpose has always remained the same. "Fasting," wrote Saint John Chrysostom in the fifth century, "brings the body under and bridges its ill-regulated desires. It renders the soul also more clear and bright."

It was the habit of the Jews to eat only one meal on fasting days, and not to take that until sunset. On the days of Lent the early Christians adopted the same practice, keeping thus the so-called "black fast."

DESPITE ITS SEVERITY, the early Christians considered fasting to be of little merit unless the faithful also performed works of mercy and entered into the spirit of Lent by seeking to come closer to God. "Little is gained if the substance of the body is diminished, but the strength of the soul is not increased."

Lenten practices of 1957 are different from the practices of the year 339—but the need for Lent has been the same throughout the centuries. The history of Lent 1957 will be written by us in our response to Christ's call: "If anyone wishes to come after me, let him deny himself."

Marysville News
 By Mrs. B. G. Lyons

MARYSVILLE, March 19 — Mrs. Cieta Denton and daughter Beverly of Bowie spent the weekend with Mr. and Mrs. B. G. Lyons.

Mr. and Mrs. H. L. Schmidt of Sanger will show their world travel pictures at a meeting of the Marysville Progress club in the community center next Tuesday night, March 26. Refreshments will be served by the club ladies and everyone is invited to attend.

Mrs. Jesse Davison who visited her daughter Mrs. Eursel Young in Hereford last week is spending this week with another daughter and family, the Tommie McGills at Lamesa and will go to Midland to see her son Duffey Davison and family.

Mr. and Mrs. Bill Moon drove to Sherman Sunday to see their granddaughter Rhonda Kim Harrell who is ill and Mrs. Moon remained for a longer visit in the home of her daughter and family, the Max Harrells.

Don Ray Moon and two buddies visited with his family, the Bill Moons, Sunday when they were enroute to a training camp in another state. They had been stationed at Abilene Air Force Base.

Dr. I. L. Thomas of Gainesville spoke at the Methodist church Saturday night on "Mental Health and Christianity." About 30 persons enjoyed the address and a supper prepared and served by the church members at the parsonage before the speaking. Rev. and Mrs. Robert May

were hosts. Guests present included Mrs. Thomas, Mr. and Mrs. David O'Brien, and Mr. and Mrs. Bo Snow of Gainesville, and Mrs. Cieta Denton and daughter Beverly of Bowie.

Mr. and Mrs. Earl Robison and Jimmie spent the weekend in Spur as guests of the Douglas Robisons.

MARYSVILLE WMU HOLDS ALL-DAY PRAYER SERVICE

Members of the Marysville Baptist Women's Missionary Union met at the church for an all-day meeting in observance of the "Annie Armstrong Week of Prayer for Home Missions." Program theme was "My Mission in Home Missions."

Mrs. Reeve Cooke, prayer chairman, led the program. Taking part were Mrs. Earl Robison, Mrs. Lawton Moon, Mrs. John Richey and Mrs. Rafe McElreath.

The group brought food for a luncheon at noon.

The next meeting will be the regular monthly session on Monday night, April 15.

IT HAPPENED 20 YEARS AGO

March 19, 1937

Both wets and dries predict victory in Saturday election. Farmers begin soil program for 1937; re-elect old committeemen, local block includes Muenster, Myra and Bulcher communities. Bleak, winter weather returns for brief flurry. Mrs. John Eberhart Jr. and daughter are injured in car wreck at Van. Cheese factory boys give John Hartman a surprise party on his 52nd birthday. Sacred Heart parish observes March 19 as holy day. Mr. and Mrs. Joe Bengfort of Lindsay announce the arrival of Stella. Spring Style Show at Majestic Theatre in Gainesville will present new fashions. F. E. Schmitz and Jacob Pagel attended the Fort Worth Stock Show Sunday. Members of the Young Ladies Sodality gave the church its regular thorough housecleaning Tuesday. Mr. and Mrs. John Chandler move to Saint Jo.

15 YEARS AGO
 March 20, 1942

Muenster citizens donate truck load of shrubbery to help beautify Sheppard Field. Frank Bayer farm is sample unit for soil conservation work. Tire rationing board takes over sugar rationing responsibilities; consumers will be asked to turn in excess sugar. Mission Circle makes mass kit for army chaplain. J. G. Estes speaks to Garden Club on spraying. Dr. Myrick is guest speaker at Holy Name meeting. Eugenia Walter has gone to Fort Worth to be employed. Youth Band elects Norbert Koesler president. The Tom Carters quit cafe business and move to Granbury. Three more local men entering the armed services bring Muenster total to 69; leaving this week for the army were Joe and Henry Pautler and Bill Knabe. Hyacinth Study Club ends year's activity.

10 YEARS AGO
 March 21, 1947

William Bergman, 78, dies of

heart ailment. Refinery sells catalytic units and lease; balance of plant is offered for sale. Community drive for war relief and Red Cross nets \$1,500; war relief total is \$910.83; Red Cross fund reaches \$595.50. Fourteen Boy Scouts are decorated in court of honor ceremony. Joe and Meinrad Hesse enter feed store business in John Bayer's elevator building. Mrs. W. J. Schroeder, mother of Father Anthony and Mrs. Bob Knabe, dies at Windthorst. Capt. and Mrs. Charles Taylor announce the arrival of Jerry. Mrs. Andy Schoech undergoes major surgery. Danny Bayer is recovering from pneumonia. The Ben Seylers have moved into their recently remodeled home. Willie Fuhrmann is first farmer to get camp land back. Winter staged another comeback Saturday with two inches of snow.

5 YEARS AGO
 March 21, 1952

Jury verdict clears J. P. Flusche and Jimmy Lehnertz in fatal shooting of fleeing burglar Feb. 2. Mrs. Ervin Hamric is new president of PTA as result of annual election. Mrs. J. S. Horn

walked for the first time Tuesday since she broke her hip almost two years ago. Francis Wiese is elected VFW commander. Red Cross drive fund reaches \$429. James Bayer is taking Marine boot training in California. James Eckert is recovering from surgery for a ruptured appendix. Local FFA wins fifth place in state soil testing contest. Dr. T. S. Myrick attends convention of Southwest Medical Association this week. Margie Baumhardt is elected prefect of Young Ladies Sodality. Earl Robison is elected president of Marysville Game Preserve. Three candidates, Arthur Hellman, Tony Walterscheid and Norbert Klement, announce as candidates for school trustees.

United States is about 3,000 miles wide, and has 4 time zones; Canada is about 5,000 miles wide, and has 5 time zones (Atlantic).

SOIL CONSERVATION DISTRICT NEWS

Grass Planting
Spring has come. Soil moisture is the best in several years and cooperators of the Upper Elm-Red Soil Conservation district

are taking advantage of the favorable conditions to get grasses and soil building sweet clovers planted.

The district-owned Bermuda root-planting machine has been kept busy planting common and Coastal Bermuda grass on waterways and on land that is going into grass for protection from erosion. The machine plants two rows at a time, puts fertilizer down with the roots, covers and packs in one operation.

Charles Taylor used the sprig machine to plant common Bermuda on a waterway on his farm south of Muenster. He recently bought the former Fette place and has worked out a complete long range soil, water and plant conservation plan with the assistance of technicians of the Soil Conservation Service. The waterway is a part of the conserva-

tion plan and will serve as a safe outlet for terraces and as a pasture strip.

Piner Griffis used the sprigger to plant a wide strip of grass down a drain on his farm at Saint Jo. The grass will stop soil erosion along the drain, will serve as a safe outlet for terraces and will also serve as an improved pasture strip. Charles Davidson is planting Bermuda on a waterway that will serve as an outlet for terraces on his farm in the Hays community. After the grass is established, terraces can be built to protect a sloping field from soil and water loss.

Coastal Bermuda grass has proven it can take the weather around Muenster and still go on producing high quality forage for livestock. Last spring's plantings were successful in spite of the drought and the grass is gaining in popularity. This year the plantings are bigger and better than ever with landowners trying to start nursery plots in order to produce their own roots for plantings.

D. R. Carver has just finished planting 10 acres to Coastal Bermuda on his farm at Bulcher. Fred Hennigan, on a neighboring farm, has increased his planting of this hybrid grass by some five acres. Both the plantings were made as nursery plots to produce a root source for future increases in plantings of this grass.

At Muenster, Alfred Sicking has planted a ten acre field to Coastal Bermuda grass for improved pasture. Tony Felderhoff has also planted three acres of the grass on his farm, and Paul Fetsch and Paul Fisher are planting Coastal roots in bottom-land fields just above the flood prevention reservoir now under construction. The area will be covered occasionally by floodwaters and will produce a lot of high quality grazing as a result of the extra moisture.

Clover Planting
Landowners in the Muenster-Saint Jo area are planting hundreds of acres to sweet clover this year, according to local soil conservation service personnel. Favorable moisture conditions and the need for soil improvement and protection as well as the need for high protein grazing and hay account for the increased plantings of this soil building legume crop.

Reservoir Dam Sodding
The job of getting grass planted on the newer flood retarding dams began this week. W. L. Smith, flood prevention agronomist of the SCS and his crew began planting grass on the dams located on the Voth farm south of Muenster. The Bermuda is hand dropped on the dams. Teams of mules are used on the steep slopes to open the furrows. The grass is planted on the dams and spillways to prevent erosion from damaging the structure. The dams and spillways are fenced so that grazing can be regulated to insure getting and keeping a good cover of the grass on the steep slopes of the dam.

Four dams near Muenster will be planted to grass this spring. They were all completed this year. Five more dams are now under construction. The structures that will be planted to grass now are on the farms of Ray and T. Voth, Ben Voth and

Joe Fisher. Local labor is being used and the planting job will take about two weeks, according to Mr. Smith.

How Safe A Driver Are You?

Check yourself and check accidents. This 10-question quiz from the Texas Safety Association should indicate whether or not you are a reasonably safe driver. If you miss one or more, consider yourself lucky to be alive.

1. If you are involved in an accident, you should first: (A) get away as quickly as possible; (B) help anyone that is injured; (C) notify the police; (D) get the other fellow's license number.

2. When driving in a heavy fog, rain, or snow at night, you can increase visibility by: (A) using your "dim" lights; (B) using your "bright" lights; (C) using your parking lights; (D) not using any lights at all.

3. The most frequent cause of a fatal traffic accident is: (A) unsafe speed; (B) poor brakes; (C) poor roads; (D) old jalopies.

4. When you meet or pass a Texas school bus that is stopped to unload or load children you should: (A) honk loudly to warn the kids; (B) slow down and proceed with caution; (C) pull to other side of road and go on by; (D) stop, then pass cautiously at a speed not to exceed 10 mph.

5. The reason manufacturers put an emergency brake on a car is to: (A) save wear and tear on foot brake; (B) stop quickly when necessary; (C) keep a parked car from rolling; (D) have a car with all accessories.

6. Most non-fatal traffic accidents are caused by: (A) drunk drivers; (B) errors in judgment; (C) nagging back-seat drivers; (D) mechanical condition of cars.

7. If blinded by an oncoming car's headlights, a driver should: (A) shield his eyes with his hands; (B) show the other driver what bright lights he has too; (C) watch center line of highway; (D) watch right side of road.

8. The legal speed limit for vehicles other than truck, buses and taxis on open Texas highways is: (A) 65 mph day and 55 mph night; (B) 60 mph day and 55 mph night; (C) 69 mph day and 50 mph night; (D) as fast as you can get away with.

9. If you are driving at the legal speed limit and a car behind you honks to pass you should: (A) block his path so he won't get arrested for speeding; (B) slow down until he passes then toot your own horn; (C) decrease your speed and give way to him; (D) go a little faster yourself.

10. If you are following a truck downhill you should: (A) keep far enough behind it so that your view ahead isn't blocked; (B) stay close to rear of truck so other cars can't squeeze ahead of you; (C) blow your horn in the daytime or flicker your lights at night so the truck will pull off the road for you; (D) wait until the truck is slowed by next hill before passing.

ANSWERS: 1-B; 2-A, 3-A; 4-D; 5-C; 6-B; 7-D; 8-B; 9-C; 10-A.

Character is not made in a crisis — it is only exhibited.

Cooking for Weight Watchers?

College Station — Any weight watchers in your family? If so, you, the cook, can be a big help by planning and preparing foods to cut calories.

Here are some suggestions offered by extension foods and nutrition specialists.

Use non-fat, dry milk solids for cooking. Reconstituted dry milk solids heated and combined with vegetable liquors are good in soups.

Keep desserts simple... Serve fresh fruits or canned and frozen fruits packed in water or juice — not syrup.

Roast or oven pan-broil meats, poultry and fish instead of frying in fat. Avoid "breeding" and use of egg batters on foods. Trim extra fat from the meat.

Serve salad materials plain — or use low-calories seasonings or salad dressings. These can be made with tomato juice, herbs and lemon juice or vinegar.

Prepare food without added fat, sugar or flour whenever possible.

Tempt appetites with herbs and spices instead of rich season-

SIT-DOWN WATER SKIING—At San Diego, Calif., Joe Stonebreaker demonstrates the "Chaffee Ski," a watery version of the motor scooter. Invented by Todd Chaffee, the craft has two separate in-line skis, with a 25-horsepower motor mounted between them. The water scooter is capable of speeds up to 50 miles per hour.

ings, sauces and gravies. Serve low-calorie items for nibbling in-between-meals or as appetizers. Try celery, cabbage wedges, carrot sticks, or other low-calorie vegetables or fruits.

Avoid high fat foods such as cream, butter, gravies, sauces, nuts, potato chips, oil, pastries, rich salad dressing; sweet foods, such as cakes and cookies; rich puddings, candies, fountain drinks and sodas, carbonated drinks and alcoholic beverages; and starchy foods, such as macaroni, dry peas and beans.

New Hope For Arthritics

A six-year-old book on how-not-to-hurt-so-much, a best-seller when it was first published, is again out-pulling mystery, romance and politics and for forty weeks has been on the top shelf among those most in demand.

"Arthritis and Common Sense," by Dan Dale Alexander, was the outcome of a son's long and devoted search for a way to help a mother stricken by this grim disease, with hands so misshapen and crippled that she could no longer cook and bake and sew, as she loved to do.

In the course of his 14 years of research, study and writing on this elusive, painful plague that racks the bodies of more than ten million Americans, Mr. Alexander began to evolve theories of his own. Long before he thought of writing a book, he put his mother on a special diet of a cod liver oil mixture. After 22 weeks there was notable relief from pain and she began to regain the use of her hands, could again cook, bake and sew. About a year ago, a well-known actor on a top-ranking TV Show mentioned that his own mother had gained similar relief from Mr. Alexander's advice — and again the book zoomed into the rarefied atmosphere of the best sellers — and has stayed there.

Don't drink cold water with your meals — if you suffer from arthritis, or would avoid it — says the author. If you must drink coffee, it should be taken "ten to thirty minutes before a meal, or at least three to four hours after a meal." Milk should be at room temperature when you drink it. Breakfast should begin with solid food, such as

Lindsay News

Mr. and Mrs. Jake Bezner and Mr. and Mrs. Weldon Bezner and son Matt drove to Ennis Sunday to spend the day with Sister Kathleen.

The Paul Zimmerers are now at home in Florida where he is on Navy duty at Key West, having been transferred there recently from the Norman, Okla., base. They have written home-folks that they visited his brother, Father Francis Zimmerer at Lafayette, La., on their way.

Attending funeral services for Joe Loerwald in Hereford Friday were Mrs. Adam Beyer, Harold Schmitz, Mrs. Henry Kuhn and Mrs. Jake Kuhn and daughter Alta Louise from here and Mr. and Mrs. Robert Loerwald, Frank Loerwald, Mrs. Al Bayer, William Loerwald and Mr. and Mrs. Frank Roberg all of Gainesville. They were joined by Henry Lueb of Thackerville.

Mrs. Jake Kuhn, her daughter Alta Louise, and Mrs. Henry Kuhn returned Monday after spending the weekend in Hereford and Lubbock. They attended the funeral of Joe Loerwald in Hereford Friday and visited relatives there, then went to Lubbock for a visit with Mr. and Mrs. Alfred Kuhn and attended a program at Texas Tech College. Alfred was recognized as one of the outstanding students of the past semester. After the ceremony all those present were guests at a tea. Mrs. Dean Loerwald and daughter Jerry Jean

TEXAS' Betty Crocker Home-maker of Tomorrow is 17-year-old Willie Mae Addison of Plains High School, Plains, Texas. She will receive a \$1,500 scholarship from General Mills for gaining the highest score in the state in a written homemaking examination.

of Plainview were also among the large group attending the college program.

Mr. and Mrs. Paul Arendt visited Sunday and Monday in Lawton, Okla., with their son and daughter-in-law, the Ernest Arendts.

Development Clinic Sponsored by TP&L

Representatives from more than a dozen North Texas towns served by Texas Power and Light Company were guests of that organization last Thursday in the Grayson Hotel at Sherman for an Area Development Workshop.

The meeting was somewhat similar in approach and purpose to the Community Development Clinic conducted here last year by Stan Shively of TP&L. The company's objective is to improve its own business by helping to develop the area it serves, and its method is to offer ideas and technical assistance to each community.

Stan Shively was moderator of the workshop which featured addresses on five phases of community development. Truett Smith of Wylie talked on "Mechanics of Organizing for Growth." Robert McWhirter of Paris presented the advantages of organizing a local industrial team. Stanley Arblingast of the University of Texas Bureau of Business Research discussed the most efficient use of land. Roy Smith of Tyler talked on "Industrial Foundations" and E. H. McElroy Jr. of TP&L enumerated aids to industrial development teams.

Münster people attending the meeting were H. H. Homsley, J. M. Weinzapfel, Herbert Meurer and Urban Endres.

First Meeting to Reorganize Scouts Gets Poor Response

Efforts to reorganize the Boy Scouts at Münster fell flat Monday night when only a few persons met with county and district representatives at the parish hall. The decision of those few was to present their problem at the next meeting of the Sacred Heart Home-School Society.

The visiting representatives did not express disappointment, however. They said local parents are following the usual pattern of avoiding the first meeting with the apparent intention of avoiding a job. Next they will realize that they cannot expect a scout program for their children unless they show an interest in the work. The local program will begin shaping up at the second or third meeting.

The first step in organizing is to elect the executive committee of five members and an institutional representative for the sponsoring organization. Those persons maintain contact with county and district executives and will also have charge of local administration. The local committee appoints the scoutmaster and his assistant.

H. Schmitz - - -

Blacksmithing was about the only way of working with metal then. In the twenties however welding started getting popular. At the same time cutting torches started replacing cutting tools and metal working machines came to the front. Much of the former blacksmith business went to the machine shops.

Nevertheless there were jobs that did not leave the blacksmith. Drawing out the edges on sweeps and plow shares, wagon repair and horse shoeing jobs kept coming and a few of the more modern jobs started coming.

Even within the trade there have been changes. The hand operated crank on the forge has been replaced by an electric motor. And a mechanical hammer bears down on the anvil with as much control as the most skilled arm used to.

Schmitz stayed with that Era job for three years, earning the neat sum of \$200 while learning. Then he worked at Burns City a year before going into business here, on the lot opposite the Enterprise building. He has been in his present location since 1934.

The canted flight deck of the USS Forrestal, the Navy's new super-carrier could accommodate four football fields.

TURN ABOUT

A much-tried father was determined to stop his son from an acquired habit of borrowing. When Jimmy swaggered into the house and told his dad that he had used one of his shirts the night before, the "Old man" replied: "Oh, that's all right son; I used a pair of your green socks this morning."

"Ha, ha!" retorted Jimmy, "the joke's on you, Dad; those were your socks I borrowed a week ago. And say, Pop, I took two gallons of gas from your tank last night, for my flivver. That's okey, isn't it?"

"Sure," replied the father confidently; "I bought that gas with your allowance money for next week. Run along, now, and have a good time."

WHAT ELSE CAN THEY BE?

The Senate Internal Security subcommittee says, in its annual report, that Congress should pass a law requiring Soviet diplomats assigned here to say whether they are spies.

What then? The gentlemen don't seem to say.

It would seem simpler and safer merely to dispense with Soviet diplomats.
