VOLUME XXII

MUENSTER, COOKE COUNTY, TEXAS

JULY 11, 1958

NUMBER 33

## Joe Schnitker, 69, Former Resident, Claimed by Death

The hope of eventually having a hospital of our own at Muenster was a big factor in the strong opposition voted here several weeks ago on the issue of a tax supported county hospital. The average resident was definitely cold to the idea of paying taxes to the support of an institution away from home when he was convinced that our own community not only needs a hospital but it well able to afford it.

The mere negative vote, however, did not solve a problem. In effect it was only a delaying action to give ourselves time to see whether we can work out a program of our own . . . or whether, in the end, we will have to give up our first choice and support the county-wide program.

This problem involves fairness as well as self interest. At this time it is generally conceded that the county's hospital facilities are pitifully inadequate. Something should be done, and civic minded men of the county are resolved not to delay the problem any longer than necessary. However, their thinking now encounters only a question mark regarding this community. They are handicapped in their planning until they have some assurance of what we will do. Out of consideration to such people, also out of consideration for the needs of our own community, we of Muenster really ought to reach our decision as soon as possible.

As a starter for our deliberations we might as well admit that the cost of this venture would run high, into the hundreds of thousands. The problem for us to decide is whether we are willing to pay the price for the many benefits we would receive.

Among those benefits we can list the latest in safeguards, comforts and conveniences. There is also the advantage of nearness, which may be vital in an emergency and saves time and travel for all who visit the hospital.

Other factors too frequently overlooked are the community's gains in prestige and improved possibilities for industrial or business development . . . and the fact that the hospital itself is a fair sized business addition for the community.

It's time to start thinking about those things. If we can swing the deal there's no point in postponing the many benefits we expect to get. If we can't swing it we should admit it within a reasonable time in order to avoid further hindrance to a county wide promotion.

It must have been quite a shock to the modern "progressive" educationists a few weeks ago to learn that Jolitta Schlehuber, the 14-year-old farm girl of Kansas who won the 1958 national spelling bee, has gained all of her education so far in a two room schoolhouse. This goes a long way toward exploding their pet contention that pupil progress is directly dependent on fancy surroundings and curricular frills.

The little spelling champ is a product of what these misguided do-gooders sympathetically refer to as primitive education. The record shows however, that she should be envied rather than pitied . . . that while she is missing some of the modern glamorous trimmings she is getting a good solid foundation in basic knowledge, the three Rs.

All of which helps to emphasize the folly of the too prevalent theory that intellectual progress can be attained by federal grants to schools and fabulous buildings and equipment. Perhaps it even indicates that the frills and extras can defeat their own purpose, by pampering and distracting, allowing too much attention to unessentials and too little to the real purpose of education, which is learning to think.

This is not intended to imply that America should scrap all of its modern ideas on education. No one wants the old shabby buildings or inadequate facilities. However it should remind us that a wealth of fancy stuff definitely is not essential to a pupil's progress.

Actually there are only two requirements for a sound education: interested pupils and devoted teachers. The surroundings are secondary. A famous American educator of a generation ago had that principle in mind when he said his idea of perfect education was being

Joe Schnitker, a former resident of Muenster who had lived in Denison for about 25 years died there July 2 in a hospital a week after undergoing surgery. He had not been sick before the attack that sent him to the hospital and had been engaged in construction work until he was stricken. He was 69.

Funeral services were held July 4 at 9 a.m. in St. Patrick's Church with the pastor, Rt. Rev. Msgr. Thomas S. Zachry, officiating at the requiem high mass and at burial in the parish cemetery.

Joe Schnitker was born April 28, 1889 at Fort Madison, Iowa, and moved to Muenster with his parents, Mr. and Mrs. Henry Schnitker, in 1907. He was married to Miss Bertha Herr here on Nov. 27, 1912, and farmed until he moved his family to Denison where he continued farming and also took up construction work. After his sons were drafted into the armed forces in World War II he quit farming and continued with carpentry.

Survivors are his wife; six sons, Walter, Alfred, Joseph and Clarence, all of Denison; Eugene of Sherman and Wilfred of DeSoto, Mo.; two daughters, Mrs. C. R. Allen of Pottsboro and Mrs. C. W. Hughes of Denison; one brother, Al Schnitker of Pottsboro; two sisters, Mrs. Alf Schumacher of Wichita Falls and Mrs. William Fette of Kilgore; 11 grandchildren and one great-grandchild.

Dozens of family members, former neighbors and friends from here attended the funeral service.

## Site Clearing for Ag-Band Building At Muenster High

Construction on the combined vocational agricultural and band building at Muenster High School is expected to begin early next week. The job awaits removal of the frame building formerly used for ag classes, which in turn awaits removal of part of the old bus shed.

Failing to find a buyer for their old ag building the school board Monday night decided to keep it for possible future use and to move it to the location occupied by the east end of the bus shed. Work of clearing the spot got under way Tuesday and the plan is to have the former ag building on the location by the end of the week.

The west half of the bus shed, which in recent years was converted into a shop for the agriculture class, is being kept as a place to work on buses and also to store the school's more bulky equipment such as watering pipes and hose, grandstand seats, etc.

Another change just completed at the school is a drain for the low spot on the driveway west of the building. It is a grate covered drain from which drain tile leads to another drainage line going under the main building to the east side of school.

## 30 in Bible School At Baptist Church

Thirty children are enrolled in the Vacation Bible School at the First Baptist Church which began Monday and ends Friday night with commencement exercises at 8 o'clock.

Brother J. I. Clinton, Baptist missionary from Gainesville, is principal of the school this year, Barbara Brewer of Gainesville is pianist, and Joalene Carlton is secretary. School begins at 8:30 and concludes at 11 a.m. each day.

Four classes are being taught by local women. Mrs. Johnny Barthold has the beginners and is assisted by Mary Alice Dickerson; Mrs. A. T. Tuggle teaches the primary class; Mrs. Jack Tuggle is with the juniors and Mrs. Herman Carlton is in charge of the intermediates.

The commencement program Friday night will feature a display of students' handwork and will conclude with awarding of certificates.

Visiting the J. W. Fletchers Monday were Mr. and Mrs. P. F. Lee of Cove, Ark. Mr. Lee and Mr. Fletcher were Navy buddies during World War I.

## Council Serves as Equalization Board

For the second consecutive year members of the city council will serve as the board of equalization. Recalling past difficulties in finding people to serve on the board, the council decided at Wednesday's meeting to handle the job itself, as it did last year.

The procedure also will be the same as last year. At a convenient time all members of the council will get together to study renditions and fill out notification cards for proposed changes. At that time they will set a date to meet with persons who wish to contest the revised assessments.

## NEWS OF SICK AND INJURED

Casper Haverkamp had surgery for removal of an eye cataract Thursday at Gainesville Sanitarium and will be hospitalized several days. His daughters, Olivia Haverkamp and Mrs. Roman Trachta and her husband of Fort Worth, took him to the Sanitarium Wednesday and stayed with him Thursday.

Mrs. Isabel Fette is recovering normally from major surgery performed at Gainesville Sanitarium July 1 and is convalescing at the home of her parents, Mr. and Mrs. Joe Otto, since being dismissed from the hospital Tuesday.

Mrs. Hank Walterscheid is back at home, feeling better than she has for some time, she says. She was a patient at Gainesville Sanitarium for a week for observation and X-rays, then was treated by a skin specialist in Dallas Monday.

Mrs. Leonard Hartman is recovering from illness that sent her to Gainesville Sanitarium for medical care Sunday.

Father Martin's return to parish work hasn't come about as quickly as anticipated and he continues as a patient at St. Joseph's Hospital in Fort Worth where he is making slow but sure progress on the road to recovery.

Mrs. John Schmitz is getting around with a limp and has been suffering considerable discomfort since she turned her right ankle recently. It's the ankle which was weakened by a severe sprain some time ago.

Mrs. Joe Vogel is back at home regaining her strength nicely after a convalescent visit in the home of her daughter, Mrs. Clifford Otto at Gainesville following dismissal from the Sanitarium. Mrs. Vogel had a major operation on June 19.

A report from Kilgore reveals that Wm. Fette's health is failing again after a few weeks of temporary improvement following surgery. He has been suffering with a lingering illness for several months. Returning from a visit Wednesday Mr. and Mrs. G. H. Hellman and Mr. and Mrs. C. J. Fette said that he is up only occasionally.

The Hoenig families had word this week that their brother-in-law, Dr. F. E. Seale of Lamesa, husband of the former Clara Hoenig of Muenster, is improving after undergoing surgery in Methodist Hospital at Lubbock. Dr. Seale was shot five times Thursday night of last week at the back entrance of the hospital he operates in Lamesa, and was taken to Lubbock for the surgery. Assault with intent to murder charges were filed against a Seminole man in the critical wounding of Dr. Seale.

## Cool Weather Nips June Pool Profits

Swimming pool operation during June went into the red about \$50, according to a month end report submitted by L. B. Bruns, pool manager.

He explained that his cash balance at the end of the month was \$77, and the stock of candy and soft drinks represented about \$50 more. However the value of bromine provided by the city was \$177, so the city actually lost \$50 on the month's business.

The business slump came at the latter part of the month. Weather was hot when the pool opened but it cooled off later and brought a sharp drop in attendance. On 4 days the place was closed completely because of rain or cold. On 9 other days it closed before 8 because of poor attendance.

## Another Good Rain Favors Community Farming Prospects

The weather's cooperation with Muenster farmers has seldom been better than during the past several weeks, and last weekend's serves as a good example.

A dandy rain, measuring 2.69 inches, came Saturday and Sunday, at just the right time for most of the community. It fell in nicely scattered showers and did a fine job of soaking the ground.

Equally gratifying was the timing. Farmers all over the area had just finished baling a nice second cutting of alfalfa and now have a near cinch for another good cutting. For corn it was the near perfect assist, the Fourth of July rain which is all but essential to a good crop. In this case acreage and quality are both impaired by heavy spring rains but this week's shower is figured to produce good results from the possibilities at hand. The same applies to sudan, millet and grasses. All are doing well and pointing to one of the best all round crop records of the community.

Total moisture for July now stands at 2.69 and the year's total to date is 24.19 inches.

## Future Farmers on Educational Trip

Rain Sunday morning didn't keep the boys of Muenster High FFA chapter from starting on their summer trip. The bus load of students and Chapter Adviser Glenn Hellman took to the road about 8 a.m. headed for Carlsbad Caverns.

The week long educational tour will include sight-seeing in Colorado and return through Amarillo and Hereford to inspect land irrigation. Going, the group had planned to judge different types of soil and they had planned to sleep out, but the weather might have changed those plans some. They'll return home Saturday.

## Auxiliary to VFW Cited on 2 Counts At State Meeting

Recognition came twice to Muenster VFW Auxiliary at the recent state convention in Beaumont.

The Muenster organization was cited as one of the three outstanding VFW Auxiliaries in Texas sharing that honor with Victoria and Eden. This formal acknowledgment was the reward for activity and services over and above those required for the honor roll. There are more than 200 Auxiliaries in the state.

The other award for excellence was a certificate of merit for a one hundred percent honor roll rating during the past year through accomplishment of objectives required in connection with community public service and charitable contributions. This is the organization's eighth year to qualify for the certificate.

Members heard about the recognition and award at their July meeting Monday night. Complete minutes of the state convention were mailed to Mrs. John Huchton, local president, and were read at the session. The Beaumont meeting was of the few, perhaps the only, convention at which Muenster was not represented by delegates.

On the program during the group's business session, members planned the Teen Party Sunday and the following accepted hostess duties: Mmes. John Huchton, Steve Moser, F. A. Kathman, C. M. Walterscheid and James Mollenkopf.

The Auxiliary reset its picnic and splash party for Thursday, July 24. Inclement weather cancelled the social planned for June.

Two other objectives of interest to the women, with more planning to follow, are an endeavor to have all dog owners in the city vaccinate their pets, and to help the Volunteer Fire Department finish payments on its resuscitator. In both aims members are mindful of the health and safety of citizens of the community.

Mrs. James Mollenkopf and Miss Carolyn Swirczynski were received in formal ceremonies and were welcomed as new members.

After adjournment there was a social hour with Mrs. Ray Swirczynski as refreshment hostess. Sixteen members were present.

## Maynard Williams Declines Place on Muenster Faculty

Maynard Williams, the former Muenster student who was expected to return as English teacher in September, has given up the job in favor of one in Washington, Missouri. Superintendent Homsley was advised of the change in a letter received Monday.

Williams told members of his family that he accepted the offer because of the greater opportunity there. Washington has a population of about 14,000. As a result, the local school faculty still has two vacancies for the coming school year. Needed are the high school English teacher and a teacher for the seventh and eighth grades.

## Burglars Strike At Livestock Auction

A burglary at the Muenster Livestock Auction Wednesday night of last week cost the firm some \$15 to \$25 in change. The amount was the change normally kept on hand to operate the cafe in the east part of the building.

Following his investigation Deputy Sheriff Buck Wilson reported that the money was taken from a desk drawer, apparently by someone who knew where it was located. The method of entry, he said, was to break the glass in a door, then reach through and open it from the inside.

## John Mosman Heads 4th Degree Knights

Election of officers was the principal business at the July meeting of the Fourth Degree Knights of Columbus, Bishop Dangelmayr Assembly.

Fisher, faithful admiral; Joe Horn, faithful scribe; Andy O'Connor, faithful purser; Henry Weinzappel, faithful comptroller; J. C. Trachta, faithful pilot; Rev. The group spent two days in California before boarding planes for Hawaii where they'll stay about two weeks. They'll return by boat.

## City Council OKs Ordinance Creating Hospital Authority

The first step toward serious consideration of need and potentiality for a hospital in this community was taken by the city council Wednesday morning when it passed an ordinance creating a hospital authority empowered to proceed with legal and financial action relative to establishing a hospital within the Muenster city limits.

The name of the authority as specified in the ordinance is Muenster Hospital. Persons appointed as its original board of directors are J. M. Weinzappel, Alphonse Felderhoff, Earl Fisher, R. N. Fette, Leo J. Haverkamp, J. W. Fisher, Richard Grewing and Mmes. T. S. Myrick, R. J. Hellman, John Mosman and Frank Schilling.

An emergency clause added to the instrument stresses the urgency of proceeding without delay and suspends further readings prior to official passage of the ordinance.

In creating the authority the council did not intend to set up the organization which will carry out the program in its entirety but rather a group with legal authority to establish a permanent organization.

Next steps in complying with legal requirements will be undertaken by the directors in their first meeting.

The purpose of the authority is to comply with state regulations by which a hospital is qualified to issue bonds and accept tax free contributions.

Specific details such as the size and cost of a hospital to meet local needs, the method of financing, possible locations, administrative personnel, or even a community survey to determine the feasibility of a local hospital, are all unknown. Those subjects will be in order when permanent organization is accomplished.

## 99 Kids Register For Third Annual Swimming Class

The largest group to report in the three years that swimming lessons were offered at the Muenster municipal pool registered Saturday for this week's course of beginners' instructions. There are 99 pupils divided into three classes of 33 each. Each class is to receive five 1-hour periods of instruction this week and children who pass the final test will receive Red Cross buttons and certificates.

Red Cross regulations are observed in all phases of the course. Eligibility is limited to children who have completed at least a year of school and teaching methods are those prescribed by Red Cross.

Instructors for the course, all holding Red Cross instructors certificates, are L. B. Bruns, Dan Hamric and Ruth Endres. Assistants, who have Red Cross senior life saving certificates, are Monica Fette, Tim Fette, and Billy Owens.

About 20 of the 99 pupils live outside the Muenster community. The towns represented are Saint Jo, Forestburg, Lindsay and Houston.

## Change of Schedule Announced by Katy

The westbound Katy train, which lately has been coming through town about an hour late, is expected to be at least close to schedule after July 20. Changes effective on that date are intended to make the listed schedule coincide with the actual schedule.

Paul Luke, local agent, explains that the train has been delayed for several weeks by the late arrival of the St. Louis train at Denison. The delay of that train was caused by taking still another train off the job, leaving more stops and more work at each stop for the St. Louis to Denison train.

As a result of the changes the official schedule will be about an hour later for the westbound Katy and about 10 minutes earlier for its return in the evening. Luke says he still has no detailed schedule but figuring from the information received he expects the morning train at 9:20 and the evening train at 5:20.

### Tuesday Club Meets In Mollenkopf Home

Members of the Tuesday Nite Club enjoyed their July get-together with Mrs. James Mollenkopf as hostess in her home. Fourteen members were present, Mrs. Jim Grooms, a newcomer to Muenster was welcomed as a new member and Mrs. Donald Walterscheid was a guest.

Paper and pencil games entertained the group with prizes going to winners Mrs. Joe Voth, Mrs. Bill Hunt and Mrs. Charles Davidson.

Mrs. Mollenkopf served a sandwich plate and iced drinks after the games.

### Class of '48 Has Reunion Honoring Dr. Monte Hellman

The Sacred Heart High School class of 1948 held a class reunion Saturday night honoring Dr. Monte Hellman of Dallas as a farewell tribute. Ten of the 19 graduates of ten years ago and their husbands or wives and their children, for a total of 41, attended the supper party in the home of Mr. and Mrs. Herbert Fette. Mrs. Joe Lehnertz was in charge of catering.

The group took pictures, re-

viewed school days, and recalled former teachers especially the late Sister Anastasia, first grade teacher, and Sister Bertha, second grade teacher who now serves in an Arkansas school.

Two of the girl graduates have entered the convent, two of the boys are the only unmarried members of the class, 12 live away from here and seven continue to make Muenster their home.

Another, Mrs. Amanda Brewer of Pilot Point, is a patient at Denton hospital since she sustained a broken hip. The group visited her by long distance telephone during the party.

**Mrs. Deward Martin Writes from France**

From France comes an interesting letter from Mrs. R. D. (Audree) Martin who sends greetings from her home town where she and her daughter Kathy are spending several weeks with her folks, the Coquel family, in Calais, France.

The plane trip over was uneventful and smooth, it was a night flight, and family members met them at the Paris airport. They spent two days sight-seeing in Paris while they waited for their luggage which went on another plane and was delayed enroute.

Six-year old Kathy visiting her mother's family for the first time says she "loves it all." It's cool enough for a coat there in northern France and Audree and Kathy both miss Texas sunshine, they say.

Almost everybody in her home town has cars now and Audree wrote this surprised her. When she left there 10 years ago there were less than a dozen cars. Folks who don't own automo-

biles have motor scooters, and one sees women getting around on scooters as much as men do.

Audree and Kathy are both enjoying the wonderful French foods and delicious French pastries. Audree adds that she is the envy of all her former girl friends who have become quite plump during the years while she retained her slender figure.

Both Mrs. Martin and Kathy said to tell everyone hello, to give their best regards to all their friends. Their address, if friends want to write, is: Rue de Mitaine; Metz-en Couture; Pas de Calais, France.

**CYBERNETIC WARFARE**  
 One reason why so many Americans scoff at the idea that Communist propaganda is shaping the opinions and attitudes of great numbers of Americans is that they think Communist propaganda is something open and identifiable, such as a —

"Slaves of Capitalism unite; Communism creates a paradise for the worker." The Red propaganda is not that transparent. It is subtle. It is so clever that few people can spot it. It slips by the eyes, into the mind, and then into the subconscious. Herbert Philbrick, the onetime FBI counterspy in the deep Communist underground here in America, says the Reds are masters of a new science, "cybernetic warfare."

"I am speaking of brainwashing in the United States," he explained in an address to the 20th Freedom Forum. "I am speaking of what is happening to us here in America. You might say, 'But if brainwashing was being conducted in the United States, we would certainly be aware of it; we would know about it.' Not necessarily. The specific function of brainwashing is to mold

## The Secret Of Divorce Control

By Rev. Henry V. Sattler, Author of PARENTS, CHILDREN, AND THE FACTS OF LIFE

Mark Twain once commented: "Though love seems the fastest of all growths, it is really the slowest. No man or woman knows what perfect love is until they have been married a quarter of a century."

**TODAY**, couples can't wait. According to a survey made by a national magazine, what boys and girls today look for in marriage is: sex, pleasure, night clubs, romance, a new convertible, and breakfast in bed.

Interviews by marriage counselors prove over and over again that such an attitude is at the root of most break-ups in marriage. For, trying to find happiness in pleasure is like trying to keep a light going all night by striking successive matches. You soon run out.

**OF COURSE**, everyone who enters marriage is looking for happiness. Yet, for every five marriages there is one divorce. And how many other people live their married lives in a state of "cold-war"? A group of lawyers engaged by the National Conference on Family Life says: "Marriage fails because of the failure of the individuals who marry. The real grounds for divorce lie in the character defects of one or both spouses which some of us believe can be summed up in selfishness, and lack of consideration."

**IF MARRIAGES** fail because of selfishness, what is going to make them succeed? Unselfishness—

which is another way of saying "love."

Love really means unselfishness—putting someone else first. A person in love finds happiness by making the other person happy. He or she will never be happier than when giving to the other, rather than trying to get things for oneself.

**LOVE REQUIRES** that one be willing to make excuses for the human weaknesses in his partner just as he makes excuses for himself. By realizing that he is not what he ought to be, he'll be more willing to overlook faults in his partner.

Saint Paul tells us, in his Letter to the Ephesians, what the ideal of holy love is: "Husbands, love your wives, just as Christ also loved the Church and delivered Himself up for her. . . . Even so ought husbands to love their wives as their own bodies."

**REAL LOVE** not only demands that one put his partner before himself. It also means always keeping God in first place. Love is out of order when a couple does what will shut God out of their lives.

This type of love does not always come quickly or easily, as Mark Twain observed. But it is the hope of every marriage and is the only solution to the divorce problem. Since the real reason for the difficulties and tensions in marriage is invariably found in some form of selfishness, the real solution is love, a love of one another that is based on the solid foundation of love of God.

do? They went up to those people in New York and said, 'Sir, would you contribute to the Thomas Jefferson School?' The people said, 'Sure, I believe in Thomas Jefferson, here's a contribution to your work.'

**Prominent Leaders** Used

Mr. Philbrick told of how he and other young church youth who had been snared into the Communist "Cambridge Youth Organization" were sent to stand in front of theaters and restaurants soliciting funds for "The National Council of American-Soviet Friendship." "When we went out to solicit money," he said, "We were armed and prepared with a letterhead of the Massachusetts chapter of the Council of American-Soviet Friendship. At the top of the letterhead, as chairman of the Massachusetts chapter, there was listed the name of Bishop G. Bromley Oxnam (prominent Protestant churchman).

"This was cybernetic warfare. Why? Because the association of the name of a minister or bishop of a church with our appeal would automatically bring about a feeling of trust, confidence, integrity, honesty, sincerity to the minds of those from whom we were soliciting funds." This is one of the ways in which \$50 million is attracted into the Communist coffers each year in order to finance the propaganda program undermining our Am-

erican institutions and principles, creating antagonisms between groups, persuading people to support national actions advantageous to the Communist strategy. All Americans must get a better understanding of this cunning warfare. Our freedom and good life is at stake.

the opinions and the ideas of people or groups of individuals without the victims' comprehension.

### Communist Too!

"This was the experience of the GI's in the prison-of-war camps in North Korea. It was found that brainwashing had been successful with a tremendous number of those boys who didn't know what had happened to them. It had been conducted without their comprehension. This in part is a definition of brainwashing; a tool used by the Communists in order to successfully manipulate and control information. The science of cybernetics is the manipulation and control of information with which the brainwashing is achieved.

"Since I worked as a member of the 'agit-prop' section and moved on up into the upper circles of the Communist criminal conspiracy in the United States. I could watch the technique of the Communist propagandists from an extreme vantage point. It works on the basis that human beings, you and I, can be conditioned to respond to certain word symbols, immediately, without thinking about it. Let's take an example.

### Sly Thought-Shaping

"The English textbooks used on the GI's by the Reds in Korea came from the Thomas Jefferson School in New York City, which operated very successfully for a long time. It

was a Communist Party school which was engaged not only in the indoctrination of Marxism, Leninism, and Stalinism among its student body and all the people it could reach, but which was also preparing materials such as those used for the brainwashing of the GI's in Red Korea. These textual materials didn't condemn American institutions; they merely dug up all the bad facts, and presented none of the good.

"The Communists went out all over New York City raising money and soliciting support for their school and they got a great deal of support from non-Communists. How did they do this? Did they go knock on a man's door and ask whether he would contribute to the Communist Party school? Of course they didn't. They would have been thrown out. So what did they

### Supt. Chalmers Makes Statement To County Voters

A Statement to the Patrons, Voters, and Citizens of Cooke County:

First, I wish to thank the good people of Cooke County for their support in the school business — possibly the greatest

business in all of our democratic nation.

Each generation has its own special problem to face and try to solve — choosing the best from the old generation and searching for the best in the new and hoping through it all that some gain and some progress may be made toward the finer ways of living. Yet, we should and must keep in mind that the "finer ways of living" doesn't necessarily mean "ease and comfort." From the Good Book we get the thought: "By the sweat of the brow thou shalt earn thy bread." For the great majority life is a rather rough and rugged journey, so it might be well to keep this fact in mind when planning courses of study and the whole program for our schools.

Hard work, hard study, hard training, and even hard playing result in greater satisfactions in life. In short, let's put substance into our training, into our school programs, and into our living.

Again, thanks to the people of Cooke County for your support and for the joy of living and working with you.

Sincerely yours,  
W. E. Chalmers

### Woodrow U. Clegg Asks Re-election As District Clerk

District Clerk Woodrow Clegg is asking re-election to the post he has held since 1949, subject to the July 26 Democratic Primary.

Clegg is a native of Cooke County and has resided here during his entire lifetime, with the exception of the years he served in the U. S. Navy and U. S. Air Force during World War II.

In making his announcement Clegg states that the work of the district clerk's office requires certain technical and specialized skills to assure that the many duties and responsibilities of the office are properly conducted according to law.

Clegg further states that his training, experience and past service qualify him to perform the work of this important office.

Woodrow Clegg is married and he and Mrs. Clegg are the parents of two sons, Phil, 14, and Keith, 4. He is a member of the First Baptist Church and the Gainesville Kiwanis Club which he has served as treasurer for several years. He is active in Boy Scout and Little League baseball work and takes part in many other activities of a civic nature.

Clegg expresses his appreciation to the people of Cooke County for the support and confidence which they have shown him in past years . . . and when re-elected your district clerk, he pledges that he will continue to conduct the office in an honest, impartial and efficient manner. (Pol. Adv.)

Rev. Billy Whitt was here Thursday to bring his sister Linda home after a seven week visit in Fort Worth. He took his mother Mrs. W. B. Whitt and brother James Whitt back with him for a visit through the Fourth.

The Bill Roes of Westview and the W. F. Davidsons visited in Fort Worth during the weekend with Bill's sister and family, the Richard Martins. They also visited Mr. Davidson's brother Allen Davidson and daughter Berta, and the Emmet Ingrams. Sunday they drove to Cleburne to see another brother W. H. Davidson and family and attended services at the Methodist church where Rev. Ernest Piott, formerly of Myra, is pastor.

Mr. and Mrs. Bill Moon were among those attending the free holiday celebration at Camp Sweeney in Gainesville Friday night.

### Rita Dingman Here For Farewell Visit

Miss Rita Dingman spent last weekend here with her uncle and aunt, the G. H. Hellmans,

who invited the C. J. Fettes over for dinner Saturday. There was a round of goodbyes before Rita left Sunday. She was saying farewell to relatives and friends before leaving for Iowa to spend the summer with her parents, the Henry Dingmans.

After spending six years in Dallas as a rehabilitation nurse for the southwest division of an insurance company, Rita will enter Yale University in New Haven, Conn., in September to work on her master's degree in Public Health. While she was located in Dallas she was a frequent visitor here.

Then there's the vacationing wife who asked her husband: "Have you another cork, dear? This one keeps sinking!"

Who Can Solve This One? The Palace barber shop charges 20 cents for a shave and 40 cents for a haircut. Total 60 cents.

The Bon Ton shop shaves for 25 cents, but cuts hair for 35. Total 60 cents.

Thinking he would save a dime, a farmer got a shave at the Palace for 20 cents and a haircut at the Bon Ton for 35. But 20 plus 35 is 55, so the farmer saved only a nickel. Why didn't he save 10 cents?

### Forced Landing

Rough weather during the rain last Saturday caused a short delay in the trip of a Wichita Falls man enroute to Gainesville in a single engine plane. With visibility reduced to a few hundred yards and threatening clouds rumbling overhead he took temporary refuge on Arnold Wimmer's inviting pasture. After some 30 minutes the elements calmed and he resumed his flight.

### Confetti - - -

seated on a log with his favorite instructor.

Safety tip: "Drive as though that car behind you were a police patrol car." It's a reasonable guess that such caution would eliminate no less than ninety five per cent of the highway accidents . . . because practically all of them result from violations of traffic laws.

Another typical Soviet inci-

dent. The American plane which got off course in a storm was not just forced down by Russian MIGs. It was shot down . . . badly damaged at a height of 15,000 feet and blasted again as it was preparing for a crippled landing.

So the Soviets reveal again what kind of people they are. Meanwhile we continue trying to do business with them, obligingly keeping the negotiations open for a summit meeting.

We passed up a golden opportunity to establish real sensible relations a few weeks ago when we failed to heed the shouts of some 2000 demonstrators at the US embassy in Moscow. They kept shouting "Go home." We should have done it, and we should also have sent the Russians home from this country.
